Mon., Oct. 21

Mon., Nov. 4

Mon., Nov. 11

Mon., Nov. 18

Mon., Dec. 2

Sun., Dec. 8

Thu.-Sun.,Nov. 28-Dec. 1

Mon.-Sun., Dec. 9-15

Fri.-Sat., Dec. 13-14

Mon.-Sun., Dec.16-Jan. 12

30

Fall Semester 2013

Day and evening classes begin *Labor Day (day and evening) Fall Graduation Application Due Preliminary Dissertation Deadline Preliminary Thesis Deadline Veterans Day (classes held; staff holiday) Final Thesis/Dissertation Deadline **Thanksgiving Break Classes resume Final instructional day Final examination period Commencement Winter Recess

Spring Semester 2014

Day and evening classes begin	Mon., Jan. 13
*Martin Luther King Day	Mon., Jan. 20
*Presidents' Day	Tue., Feb. 18
Spring Graduation Application Deadline	Sat., Mar. 1
Preliminary Dissertation Deadline	Mon., Mar. 10
Spring Break	MonSun., Mar. 24-Mar. 3
Classes resume	Mon., Mar. 31
Preliminary Thesis Deadline	Mon., Mar. 24
Final Thesis/Dissertation Deadline	Mon., Apr. 7
Final instructional day	Sun., May 4
Final examination period	MonSun., May 5-May 11
Commencements	FriSun., May 9-11
School of Law Commencement	Sun., May 18

Summer Sessions 2014

Intersession begins	Mon., May 19
*Memorial Day	Mon., May 26
Summer Graduation Application Deadline	Sun., Jun. 1
Intersession ends	Sun., Jun. 8
Five Week I and Eight Week Sessions begin	Mon., Jun. 9
Preliminary Dissertation Deadline	Mon., Jun.16
*Independence Day	Fri., Jul. 4
Preliminary Thesis Deadline	Mon., Jun. 30
Five Week I ends	Sun., Jul. 13
Five Week II begins	Mon., Jul. 14
Final Thesis/Dissertation Deadline	Mon., Jul. 14
Eight Week ends	Sun., Aug. 3
Five Week II ends	Sun., Aug. 17
Summer Commencement	Sat., Aug. 16

Inquiries

Address inquiries concerning:

Graduate study to the Graduate School, The University of Akron, Akron, OH 44325-2101. 330-972-7663.

Financial aid, scholarships, and to the Office of Student Financial Aid, The University of Akron, Akron, OH 44325-6211. 330-972-7032. Toll free 1-800-621-3847. Fax 330-972-7139.

Student employment to the Career Center, The University of Akron, Akron, OH, 44325-4306. 330-972-7747.

Athletics to the Athletic Director, The University of Akron, Akron, OH 44325-5201. 330-972-7080.

Registration, records, graduation, scheduling, Ohio residency requirements, and military services to the Office of the Registrar, The University of Akron, Akron, OH 44325-6208. 330-972-8300.

Undergraduate admissions information and campus tours to the Office of Admissions, The University of Akron, Akron, OH 44325-2001. 330-972-7077 or toll-free inside Ohio, 1-800-655-4884.

The University switchboard number is 330-972-7111.

University Closing Policy

The safety of students, faculty, and staff is the University's highest priority. When severe weather is predicted or when emergencies arise, the president or designee will determine when conditions necessitate closing or canceling classes at the entire University or any of its specific units.

The president or designee will make a decision to close based on the recommendations from:

- University police, safety and facilities personnel, who will be checking the condition of campus sidewalks and parking lots.
- City and county law enforcement agencies, who will report on road conditions on highways and roads in areas surrounding the University.
- The Ohio State Patrol and County Sheriff, who may issue advisories related to weather.
- Additional sources as needed.

Closing information will be announced as early and as simply as possible. This information will be relayed to students in several ways:

- Radio and TV: Closing information will be provided to major radio and television stations in Akron, Canton, and Cleveland.
- On the Web: Closing information will be posted on the University's homepage at <u>www.uakron.edu</u> and on MyAkron at <u>https://my.uakron.edu</u>.
- E-mail: A message will be sent to students' and employees' University mailboxes.
- Text messaging: A message will be sent to anyone who subscribes to our Z-Alert text messaging service. Learn more about it at <u>http://www.uakron.edu/info/z-alert.php</u>.
- By phone: The University's emergency information phone line is updated around the clock as conditions warrant. The number is 330-972-SNOW or 330-972-6238 (TDD/Voice).

University colleges and departments are encouraged to establish a method for communicating the closing decision to department personnel.

Disclaimer

While every effort is made to provide accurate and up-to-date information, the University reserves the right to change, without notice, statements in the Bulletin series which include, but are not limited to rules, policies, procedures, fees, curricula, courses, programs, activities, services, schedules, course availability, or other matters. For example, programs may be modified due to limited resources or facilities, unavailability of faculty, insufficient enrollment, or such other reasons as the University deems necessary.

July 2013

*Classes cancelled (day and evening)

**Classes cancelled from Wednesday at 5 p.m. through Monday at 6:45 a.m.

The University of Akron Graduate Bulletin (USPS 620-400)

POSTMASTER

SECTION 1. Background

HISTORY

The connection between The University of Akron and its surrounding community has been a recurring theme in its history. The institution was founded as a small denominational college in 1870 and has grown to its current standing as a major, metropolitan, state-assisted university. It is significant that the efforts, energy, and financial support of an Akron manufacturer of farm equipment, John R. Buchtel, were instrumental in persuading the Ohio Universalist Convention to build its college on a hill overlooking the town that stretched along the Ohio Canal. The grateful trustees responded by naming the school Buchtel College. It is also significant that during its first four decades, the struggling institution was repeatedly aided in its efforts to survive by various local entrepreneurs who pioneered and prospered in such industries as cereals, clay products, matches, and rubber. Buchtel College's emphasis on local rather than denominational interests became increasingly clear, and by 1913 those strong ties and the school's financial situation caused its trustees to transfer the institution and its assets to the city. For the next 50 years, The Municipal University of Akron received its principal support from city tax funds and swelled from an enrollment of 198 to nearly 10,000.

The growth of the college paralleled the remarkable expansion of the community itself. From 1910 to 1920, Akron was the fastest-growing city in the country, evolving from a thriving canal town of 70,000 to a major manufacturing center of 208,000, thanks in large part to a boom in local factories that bore names such as Goodyear, Firestone, Goodrich, and others. The age of the automobile — and the demand for inflatable rubber tires — changed the complexion of Akron forever.

Changes within the Municipal University's curriculum reflected the strong interrelationship of town and gown. In 1914 a College of Engineering began instruction, and other professional schools followed: Education (1921), Business Administration (1953), Law (1959), Community and Technical College (now Summit College) (1964), Fine and Applied Arts (1967) (In December 2008, the programs in the college became part of two distinct units: the College of Creative and Professional Arts and the College of Health Sciences and Human Services. In 2012, the programs in the colleges moved to the Buchtel College of Arts and Sciences and newly created College of Health Professions.), Nursing (1967) (in 2012, Nursing joined programs from the College of Health Sciences and Human Services to form the College of Health Professions), and Wayne College (1972).

Considering the institution's location in the heart of a burgeoning rubber industry, it seemed only appropriate that the world's first courses in rubber chemistry would be offered at Buchtel College, in 1909. From those first classes in Professor Charles W. Knight's laboratory would evolve the world's first College of Polymer Science and Polymer Engineering (1988). During World War II, University of Akron researchers helped fill a critical need in the U.S. war effort by contributing to the development of synthetic rubber. The University's polymer programs have produced some of the world's most able scientists and engineers, and today attract millions of dollars annually in research support, as well as top graduate students from around the world.

Research, innovation, and creativity actively take many forms at the University — in the sciences, and in the arts and humanities. Today, University faculty study ways of matching workers with jobs to maximize performance; develop new ways to synthesize fuel; write and produce plays, write poetry, choreograph dance works; explore improved methods of tumor detection; evaluate water quality in northeast Ohio; provide speech and hearing therapy to hundreds of clients; aid the free enterprise system by sharing the latest in business practices with new and established companies alike; provide health care in community clinics; and study political campaign financing and reform. Faculty are awarded patents each year for their work on new technologies and products. The University of Akron's continuing and central commitment to the liberal arts is signified by the perpetuation of the institution's original name in the Buchtel College of Arts and Sciences.

The University has a long tradition of serving the needs of part-time and full-time students through day and evening classes, and it attracts traditional and nontraditional students of all economic, social, and ethnic backgrounds. Committed to a diverse campus population, the University is at the forefront of all Ohio universities in recruiting and retaining students of diverse backgrounds.

The University's first doctoral degree was, appropriately enough, awarded in polymer chemistry in 1959, but master's degrees were granted as early as 1882. The University of Akron now offers 17 doctoral degree programs and seven law degree programs as well as more than 100 master's degree programs and options. The University offers undergraduate students a choice of more than 200 majors and areas of study leading to associate and bachelor's degrees. Hundreds of noncredit continuing education courses, certificate programs and specialized training opportunities are available for individuals and organizations.

In 1963 the receipt of state tax monies made the University a state-assisted municipal university, and on July 1, 1967, The University of Akron officially became a state university. Today, over 28,000 students from 47 states and 80 countries are enrolled in its nine degree-granting units. The Princeton Review listed The University of Akron among the "Best in the Midwest" in its 2010 edition of Best Colleges: Region by Region. Its College of Polymer Science and Polymer Engineering is the nation's largest academic polymer program. The University excels in many other areas, including global business, organizational psychology, educational technology, marketing, dance, intellectual property law, and nursing. Alumni of the University number nearly 151,000 and include scientists, engineers, artists, lawyers, educators, nurses, writers, business people, and other professionals at work in every state and throughout the world.

The 218-acre Akron campus, with 88 buildings, is within walking distance of downtown Akron and is located in a metropolitan area of 2.8 million people. The University's presence in Northeast Ohio provides numerous opportunities in recreation, major collegiate, amateur, and professional sports, concerts, cultural events, and commerce, all within easy driving distance and many accessible via public transportation. Arts venues on campus include Daum and Sandefur theatres, Guzzetta Recital Hall, the Emily Davis Gallery, and E.J. Thomas Performing Arts Hall, the flagship performance venue for the region. The critically acclaimed Akron Symphony Orchestra, Tuesday Musical and UA Steel Drum Band perform at Thomas Hall. The University joined the Mid-American Conference in 1991 and participates on the NCAA Division I level in 19 sports.

The University's ongoing, major campus renovation that began in 2000, the "New Landscape for Learning," has added 20 new buildings, completed 18 major additions or renovations, and 34 acres of new green space.

For more than 142 years, The University of Akron has been an active participant in Akron's renaissance of commercial and artistic endeavor, a leader in the metropolitan area's intellectual and professional advancement, a center for internationally lauded research efforts and a source of enrichment, education, and vitality for Northeast Ohio. Our history is a long and proud one — yet at The University of Akron, our eyes are on the future, for our students, our faculty and staff, our community, and our word.

MISSION STATEMENT

The University of Akron, a publicly assisted metropolitan institution, strives to develop enlightened members of society. It offers comprehensive programs of instruction from associate through doctoral levels; pursues a vigorous agenda of research in the arts, sciences and professions; and provides service to the community. The University pursues excellence in undergraduate and graduate education, and distinction in selected areas of graduate instruction, inquiry, and creative activity.

CHARTING THE COURSE

Today, the University stands on the threshold of a fundamental shift in thinking and a sweeping recommitment of institutional talents, energies and resources toward attaining even greater excellence. The blueprint for change is "Charting the Course," an ongoing and dynamic process of strategic thinking that begins with the University's fundamental strategies and builds to where the institution envisions itself in the future.

Objective and documented excellence tells us that The University of Akron is already the leading public university in northern Ohio and signals a clear promise and destiny. We have framed our vision as a Statement of Strategic Intent:

The University of Akron intends to be recognized as the public research university for Northern Ohio.

That recognition will be gained by building upon the documented excellence that has enabled the University to achieve its current high level of achievement, and by strategic investments, partnerships and initiatives.

The University will continue to build a leadership position in information technology to better prepare our students for today's technologically advanced knowledge economy, to make learning more accessible and dynamic, and to increase the effectiveness of the University's planning and operations.

We will attain technological and programmatic excellence throughout the University by taking full advantage of our metropolitan setting and long-standing relationships with area business and industry. We will act decisively to form and optimize strategic partnerships that will benefit our students and our community.

Enabling student success will continue to be the hallmark of The University of Akron. We recognize, importantly, that students are the responsibility of all of us at the University. We will work to strategically shape and determine the quality, diversity and size of our student body. And, we will strive to offer students the chance to apply what they are learning in the classroom through hands-on research, service, internships, cooperative education or similar opportunities.

Student success is our number one priority.

VISION 2020

In 2012, the University of Akron Board of Trustees gave its unanimous support to a new strategic plan called Vision 2020. The year 2020 is the 150th anniversary of the founding of the University of Akron, and the plan calls for bold initiatives and significant growth, including:

- Building on Charting the Course accomplishments, reach a \$1 billion investment in student programs, faculty, research, campus and community.
- A more than 30 percent increase in enrollment from the current 30,000 to 40,000 learners, including growth of students in and out of state, international students, and e-learners.
- \$200 million commitment to annual research expenditures, including hiring 160 new faculty and staff.

- · Launching The Akron Experience, a new initiative that provides every student with a unique in-and-out-of-the-classroom learning experience to strengthen the connection between campus and community.
- · New criteria for enrollment and targeted learning pathways for each student to increase retention, graduation, and job placement rates.

Our Mission - To ensure student success and leverage our region's unique assets in the creation of knowledge and application of research that benefits humankind.

Our Vision - To sent a new standard for public research universities in adding economic value and enriching lives.

A CIVIL CLIMATE FOR LEARNING: **Statement of Expectations**

The University of Akron is an educational community of diverse peoples, processes, and programs. While all of us have our individual backgrounds, outlooks, values, and styles, we all share certain principles of personal responsibility, mutual respect, and common decency. Our campus culture requires that we maintain and extend those principles, for without them we cannot thrive as a humane and worthwhile university. To keep ourselves aware of these shared principles, this statement articulates some of the expectations and responsibilities of a civil climate for learning on our campus

Principles of Our Campus Culture

Our campus culture acknowledges the importance of all in our community for their participation in our common enterprise as a university. We value the contributions and we respect the needs of students, faculty, contract professionals, staff, administrators, maintenance and service personnel, and everyone else whose work and dedication enables us to pursue our individual and collective academic goals.

Together we maintain an intellectual culture that is accessible, disciplined, free, safe, and committed to excellence. By our behavior with one another we endorse a culture of diversity, celebrating the uniqueness of the individual and developing our understanding and tolerance of differences in gender, ethnicity, age, spiritual belief, sexual orientation, and physical or mental potential. We take responsibility for sustaining a caring culture, nurturing growth and fulfillment in one another and in the larger communities of which we are a part. We insist on a culture of civility, united in our rejection of violence, coercion, deceit, or terrorism. We work to increase collaboration, cooperation, and consensus within rational dialogue characterized by mutual respect and consideration. Ours is a responsible culture. We expect each member of our community to carry out responsibly his or her duties for preserving the integrity, quality, and decency of our environment and our discourse

Expectations and Responsibilities

To preserve and propagate the Culture of The University of Akron, everyone must engage in certain specific behaviors. Anyone new to this campus must be aware of the expectations we have of each other and be committed to fulfilling his/her responsibility in maintaining our culture.

Inside the Classroom

Inside the classroom, faculty are expected to respect the sanctity of the teaching/learning process by honoring their commitment to students in terms of time, fairness, and enthusiasm. It is the responsibility of faculty to set and enforce the classroom rules of conduct. Faculty members are expected to treat men and women, persons of all colors and ethnicities, and persons with varying abilities, spiritual preference, or sexual orientation with equitable respect and consideration. Faculty should value and pursue excellence in teaching as well as research. Faculty shall not engage in sexual or other forms of harassment or engage in inappropriate dual relationships with students. Faculty must not tolerate academic dishonesty nor discrimination or harassment from students to other students

Students are expected to respect the sanctity of the teaching/learning process by expressing respect for the faculty member as the organizer and guide through this learning experience, as well as for fellow students. Disruptive, disrespectful, discriminatory, harassing, violent and/or threatening behavior is explicitly prohibited. Academic dishonesty will not be tolerated. Students are expected to to take responsibility for their own learning and, in return, can expect responsible teaching from the faculty member. Students should report unprofessional behavior on the part of faculty members. Students have a right to expect that they will not be sexually otherwise harassed, intimidated, or threatened.

On the Campus

On the campus, everyone is expected to respect and protect the dignity and freedom of each other. There must be the opportunity for expression of all points of view, free from name-calling or ridicule. All members of the University family are expected to be civil and tolerant of others. It is the responsibility of each member of the University community to express dissatisfaction with anyone who fails to meet the responsibility of civility and to request that they do so. In the event that cooperation can not be attained, proper authorities must be involved to insist upon these minimum expectations. Only by campus-wide compliance to these expectations can we achieve a clear sense of our campus culture and, accordingly, a sense of mutual pride.

Students can expect that all representatives of all departmental and administrative offices will treat them with respect, a sense of cooperation and with concern for their welfare. Students can also expect appropriate coordination of services among departments.

Everyone is expected to respect the campus environment by behaving in ways that protect the safety, order, and appearance of all campus facilities. Each person must take steps to preserve the ecological and aesthetic aspects of the campus.

Additional Behavioral Expectations

All members of the University community are required to abide by all laws and regulations of The University of Akron, the City of Akron, the State of Ohio, and the Federal Government. Students are expected to abide by the Student Code of Conduct and the University Disciplinary Procedures. Faculty, contract professionals, administrators, and staff are expected to abide by all University regulations and procedures.

ACCREDITATION

Accreditation assures that degrees are recognized and approved by select regional and national education associations, societies and councils. Accreditation serve two fundamental purposes: quality assurance and institutional and program improvement

There are two types of accreditation of educational institutions: institutional accreditation and specialized accreditation. Institutional accreditation evaluates the entire institution and accredits it as a whole. The University of Akron has been approved by The Higher Learning Commission of The North Central Association of Colleges and Schools (230 South La Salle Street, Suite 7-500 Chicago, IL 60604 (800) 621-7440) since 1914 and has been reaccredited at the highest level as a comprehensive doctoral degree-granting institution

Institutional accreditation is separate from the accreditation given by professional associations or organizations. Specialized accreditation evaluates particular units, schools or programs within an institution and is often associated with national professional associations or with specific disciplines.

Accreditation provides the security of knowing that the University will honor most credits earned at a similarly accredited college or university. Degrees earned at the University are respected and sought after by prospective employers.

Institutional Accreditation:

- The Higher Learning Commission of The North Central Association of Colleges and Schools Specialized Accreditations:
- AACSB International -Association to Advance Collegiate Schools of Business Accreditation Board for Engineering and Technology American Association for Family and Consumer Sciences American Association of Marriage and Family Therapy (provisional) American Association of Nurse Anesthesia - Council on Accreditation American Dietetic Association American Psychological Association American Speech-Language-Hearing Association Association of Collegiate Business Schools and Programs Commission on Accreditation for Athletic Training Education (CAATE) Commission on Collegiate Nursing Education Committee on Allied Health Education and Accreditation of American Medical Association Council for the Accreditation of Counseling and Related Educational Programs (provisional) Council on Social Work Education Foundation for Interior Design Education Research International Fire Service Accreditation Congress National Association of Schools of Art and Design National Association of Schools of Dance National Association of Schools of Music National Certification Board of Pediatric Nurse Practitioners and Nurses National Council for Accreditation of Teacher Education National League of Nursing Accrediting Commission Ohio Department of Education Professional Society for Sales & Marketing Training The School of Law is accredited by or holds membership in the following: America Bar Association Association of American Law Schools League of Ohio Law Schools Council of the North Carolina State Bar State of New York Court of Appeals
- The University also holds membership in the following educational organizations: American Association of Colleges for Teacher Education American Association of Colleges of Nursing American Association of Community Colleges American Association of State Colleges and Universities
 - American Council on Education
 - American Society for Engineering Education
 - American Society for Training and Development
 - Council of Graduate Schools
 - Council for Higher Education Accreditation

Department of Baccalaureate and Higher Degree Programs (National League for Nursing)

- International Council on Education for Teaching (associate)
- Midwestern Association of Graduate Schools National Association of Graduate Admission Professionals
- National Association of State Universities and Land-Grand Universities
- North American Association of Summer Sessions
- Ohio College Association
- Ohio Continuing Higher Education Association United States Association of Evening Students
- University Council on Education for Public Responsibility
- University Continuing Education Association University Sales Center Alliance

The American Association of University Women grants membership to women graduates with approved baccalaureate degrees from The University of Akron.

The Campus

Currently, the Akron campus covers 218 acres and encompasses 88 buildings. Recent and continued growth with new academic, administrative, and recreational spaces, in addition to major renovations to existing buildings, are attributable to the University's commitment to provide an "Infrastructure for Academic Success."

LOCATION

The University is situated in a large metropolitan area. The campus, although centrally located within the City of Akron, features park-like pedestrian areas. Students have easy access to retail outlets, transportation, and churches. The University of is located between East Market Street and East Exchange Street on the eastside of the downtown area. Akron is easily reached by automobile from major national east-west routes (Interstates 80, 90, 76, and the Ohio Turnpike) and north-south routes (Interstates 71 and 77), all of which link Akron to the surrounding states and regions. For airline passengers, limousine service is available from the Cleveland Hopkins International Airport located to the north and Akron-Canton Regional Airport, located to the south.

BUILDINGS

Many of the buildings on campus bear the names of prominent persons who are recognized for their contributions in administration, education, business, science, or University service. Major buildings include:

Akron Polymer Training Center. The Akron Polymer Training Center, located at the corner of E. Mill and College streets, is a teaching facility that serves the region's academic and industrial needs by offering a wide variety of non-credit and rubber training courses.

Arts & Sciences Building. Located at 290 E. Buchtel, the College of Arts & Sciences Building is occupied by the Dean of the Buchtel College of Arts & Sciences, Computer Science, Economics, History, Mathematics, Statistics, Psychology. and 16 classrooms.

Athletics Field House. The building is adjacent to the Student Recreation Center and the Ocasek Natatorium and is one of the best indoor facilities in the nation. The field house features a full 120-yard Astro Play field, 300-meter six-lane Mondo track, 8,000-square foot strength and condition center, batting cages, indoor golf training facility, locker rooms, sports medicine and rehabilitation center and spectator seating for 1,200.

Auburn Science and Engineering Center. Named for Dr. Norman P. Auburn, 10th president of the University, this complex is one of the largest academic buildings in the state. This complex houses the College of Engineering Dean's office, the Engineering Co-op Office; Mechanical, Electrical, and Civil Engineering; as well as the Science and Technology Library and Department of Biology and Biology Research Facility.

Ayer Hall. Named for the first dean of the College of Engineering, Frederic E. Ayer, Ayer Hall provides classrooms and offices for the Physics department and Academic Achievement programs.

Bierce Library. This building is named for General Lucius V. Bierce, an Akron mayor, lawyer, historian, state senator, philosopher, philanthropist, and soldier. In addition to the book and periodicals collections, the facility houses audio-visual materials, maps, and microforms.

Buchtel Hall. Originally built in 1870, this structure was destroyed by fire in 1899 and rebuilt in 1901 (Buchtel Hall II). The administrative center of campus, Buchtel Hall was completely restored in 1973 following a devastating fire in 1971. It is the University's link with its predecessor, Buchtel College. It provides office space for numerous administrative officials of the University, including the Office of the President.

Business Administration Building. This facility, located at 259 South Broadway, houses offices, classrooms, and laboratory facilities for the dean of the College of Business Administration, the George W. Daverio School of Accountancy, and the departments of Finance, Marketing, and Management.

Crouse Hall. Crouse Hall houses the Department of Geology and Environmental Science, the Center for Environmental Studies, classrooms, and some of the College of Education offices as well as the H.K. Barker Center for Economic Education.

E.J. Thomas Performing Arts Hall. Named for Edwin J. Thomas, prominent industrialist and dedicated member of the University Board of Trustees from 1952 to 1975, this cultural center was formally opened in 1973. Designed to accommodate concerts, opera, ballet, and theater productions, the hall is a masterpiece in architecture, acoustics, and creative mechanisms. It stands at the corner of University Avenue and Hill Street.

Folk Hall. This building, at 150 E. Exchange St., provides modern, well-equipped faciities for the Mary Schiller Myers School of Art. Studios are available for graphic arts, photography, drawing, painting, metalsmithing, ceramics, and computer design. The Emily Davis Art Gallery is also located in the facility.

Mary Gladwin Hall. Housing the School of Nursing and biology laboratories, this building was named in honor of distinguished alumna Mary E. Gladwin (1887), who rendered unparalleled service to the nation during World War I. The \$10 million complex opened in 1979 and includes the administrative offices of the School of Nursing, faculty offices, the Center for Nursing, a Learning Resources Center that includes patient care simulation areas, an audio-visual center, and a state-of-the-art computer learning center. **Goodyear Polymer Center.** This building, located at 170 University Avenue, houses offices for the dean of the College of Polymer Science and Polymer Engineering, the Vice President for Research and Dean Graduate School and the Office of Technology Transfer. The facility features a 200-seat lecture hall, offices, classrooms, and research laboratories for the Institute and Department of Polymer Science.

Guzzetta Hall. Located at 157 University Avenue, Guzzetta Hall is occupied by the School of Dance, Theater and Arts Administration, and the School of Music in addition to student practice rooms, an experimental theater and a 300-seat recital hall.

James A. Rhodes Arena. This structure on Buchtel Common contains an intercollegiate basketball and volleyball arena with seating for 5,500. The facility also serves as a concert and special event venue, and houses an indoor walking/jogging track, physical education laboratories, classrooms, meeting rooms, department of intercollegiate offices, locker rooms, a sports medicine room and a ticket office.

Infocision Stadium-Summa Field. Located at 375 East Exchange, this state-ofthe-art multiplex facility was completed in 2009.

Knight Chemical Laboratory. This complex is named in honor of Dr. Charles M. Knight, who taught the first courses in rubber chemistry at Buchtel College as early as 1909. Opened in 1979, the building houses the Department of Chemistry and features many innovative laboratories with the most sophisticated safety equipment, as well as classrooms and faculty and administrative offices.

Kolbe Hall. Named for the first president of the Municipal University of Akron, this building was remodeled for the School of Communication. Additions to and remodeled space within the building have provided space for faculty and staff offices, TV studio areas, WZIP-FM radio station, computer labs and classrooms. The building also houses the Paul A. Daum Theater.

Leigh Hall. Leigh is named in honor of Warren W. Leigh, first dean of the College of Business Administration. This building is occupied by the offices of Distributed Education, Institute of for Teaching and Learning, and Institutional Research, in addition to The John S. Knight Auditorium.

Paul E. Martin University Center. Located at 105 Fir Hill, the Paul E. Martin University Center has changed from a private club serving dues-paying members to a University-operated restaurant and banquet center. The Grille Room restaurant is open for lunch between 11:30 a.m. and 2 p.m. Business and departmental functions, banquets, receptions, and parties can be scheduled by contacting the Martin University Center.

McDowell Law Center. Named for C. Blake McDowell, prominent local attorney, alumnus, and benefactor of the University, the center houses the School of Law. Opened in 1973, it provides space for the law library, classrooms, moot courtroom, appellate-review office, seminar rooms, and faculty offices. An addition provides library and support space, and a second expansion has linked McDowell Law Center to West Hall, providing additional administration office space. The law complex stands at the corner of University Avenue and Wolf Ledges Parkway.

National Polymer Innovation Center. Located at 240 South Forge Street this building houses the Austen BioInnovation Institute of Akron, Center for BioMaterials and Medicine and Polymer Engineering.

Ocasek Natatorium. Named for former Ohio State Senator, Oliver Ocasek, the natatorium houses an Olympic-size swimming pool with adjacent spectator seating area, locker rooms, and showers. It also houses eight racquetball courts as well as cardiovascular fitness and strength training areas.

Olin Hall. Named in honor of Professor Oscar E. Olin and Mr. Charles Olin, this facility houses the following departments and institutes: Arts & Sciences Careers Program, Ray C. Bliss Institute of Applied Politics, Philosophy, English Language Institute, Sociology, Political Science, Center for Conflict Management, English, Modern Languages, and Anthropology and Classical Studies.

Olson Research Center. This facility, adjacent to the Polymer Engineering Academic Center on Forge Street, houses space for the Department and Institute of Biomedical Engineering and the Department and Institute of Polymer Engineering, including equipment and laboratories.

The Polsky Building. This renovated downtown department store is home to the University Archives, the Archives of the History of American Psychology, the School of Speech-Language Pathology and Audiology and its Audiology and Speech Center, the Department of Public Administration and Urban Studies, the School of Social Work, the Continuing Education Office, the Office of International Programs, the Graduate School, the Office of Research Services and Sponsored Programs, the Institute of Bioscience and Social Research, and Taylor Institute for Direct Marketing. A University food service facility, Starbucks, and a campus bookstore are in operation on the High Street level (third floor).

Polymer Engineering Academic Center. This 32,000 sq. ft. facility houses the student, faculty, and administrative offices of the Department of Polymer Engineering.

Quaker Square Complex. This complex, located at 135 South Broadway, once used by the Quaker Oats Company, now houses the Quaker Square Inn and Quaker Square Residence Hall, in addition to academic uses, retail, banquet, office, and dining facilities.

Schrank Hall. Named for Harry P. Schrank, longtime member and chairman of The University of Akron's Board of Trustees. This complex, which adjoins Auburn Sci-

ence and Engineering Center, is composed of two academic structures and a parking deck. Schrank Hall North contains space for Adult Focus, Biology, College of Engineering, Computer-Based Assessment and Evaluation, Summit College and Women's Studies. Schrank Hall South contains space for the School of Family and Consumer Science, ROTC-Military Science, in addition to Summit College's Engineering and Science Technology Department.

Simmons Hall. This building, located at 277 East Buchtel Avenue, is occupied by departments of Student Engagement and Success, University College, and Business and Finance. Major services provided in this building are the Office of Accessibility, Undergraduate Admissions, Career Center, Counseling Center, Student Financial Aid, Office of the University Registrar, University College, New Student Orientation, and Business and Finance (Student Financials).

Stitzlein Alumni Association Center. Named for Harry P. and Rainey G. Stitzlein, this recently remodeled building, north of East Buchtel Ave. at Fir Hill, houses the Office of The Alumni Association.

Student Recreation and Wellness Center. This facility houses all of the recreational and fitness equipment, services, and programs that support our students' health, well-being and balanced lifestyles. The building is connected to the Ocasek Natatorium. Student Health Services can also be found inside the center.

Student Union. The Student Union, located in the center of campus, serves as a hub for social and educational activities for students, faculty, and staff. This facility houses various food venues, a ballroom and meeting rooms, theater, game room, student organization offices, Off-Campus Student Services, Student Judicial Affairs, Computer Solutions — the computer technology store, DocuZip copy center, bank, Information Center, Starbucks, Zip Card office and Barnes and Noble Bookstore. Visit our Web site at http://www.uakron.edu/studentunion.

Whitby Hall. Located at 200 Buchtel Common, Whitby Hall is named in honor of G. Stafford Whitby, a pioneer in the development of polymer science. This building is occupied by the Department of Chemical and Biomolecular Engineering, faculty offices and research labs, and a computer lab and classroom.

Zook Hall. Named to honor George F. Zook, president of the University from 1925 to 1933, this Buchtel Common facility houses the College of Education offices of the Dean, Associate Dean for Academic Affairs and Student Services, and admission advisement offices. Other facilities include a lecture room that seats 245, general classrooms, a science and mathematics classroom/laboratory, a distance learning classroom, a Center for Literacy, two technology-enhanced demonstration classrooms, two computer training classrooms, and a multi-media laboratory.

FACILITIES AND EQUIPMENT

The University's addition of modern teaching aids demonstrates its recognition of the need, in this technological age, for up-to-date facilities and equipment. Many of these facilities are described below.

Buchtel College of Arts and Sciences

The **Department of Anthropology and Classical Studies** has a Macintosh-based computer lab which gives easy student access to a collection of several thousand original digital images of ancient Mediterranean buildings, artifacts and art works, to the Perseus program, a digital multimedia database on the Greek world (20,000 images and most of Greek literature both in Greek and in translation), and to the Internet and the Web. Additional information on the department can be found at www.uakron.edu/anthropology-classics.

The **Department of Biology** houses greenhouses, controlled-environment chambers, an animal research facility, a molecular biology research center, modern laboratories, and equipment that includes advanced light microscopes (differential interference contrast, fluorescence), electron microscopes (scanning and transmission), scintillation counters, ultracentrifuges, DNA sequencing apparatus, and physiographs; vehicles, boats and a 400-acre nature preserve are available for fieldwork. Additional information about the department, faculty and programs can be found on the department Web site at <u>www.uakron.edu/biology</u>.

The **Department of Chemistry** is located in the Knight Chemical Laboratory building. The department is home to state-of-the-art facilities for the spectroscopic identification and characterization of compounds. These include the centers for Laser spectroscopy, Mass spectrometry, Nuclear Magnetic Resonance spectroscopy, and X-ray crystallography. Students have access to the department's computer lab for internet and Web assignments, data analysis, computations, word-processing and printing. The Chemical Stores facility maintain an inventory of more than 1,100 items, including chemicals, glassware, and apparatus. Additional information about the department, faculty, and programs can be found on the department Web site located at <u>www.uakron.edu/chemistry</u>.

The **School of Communication** features a television classroom/studio and a wide complement of supporting audio and video equipment, including graphics generators and linear and non-linear editors. Portable audio and video equipment is available for location use. There is an audio recording facility with multitrack capability. The School also provides several media-related co-curricular activities, including the nationally rated student-run radio station, WZIP, the Emmy Award winning television station, Z-TV, the nationally ranked speech and debate team, and the student newspaper, The Buchtelite. Additional information about the school, its faculty, and programs is available at <u>www.uakron.edu/schlcomm</u>.

The **Department of Computer Science** is located on the second floor of the College of Arts and Sciences Building. Students in Computer Science have access to a wide variety of computing facilities, operating environments, languages and software in laboratories maintained in and by the department. In addition to a PC lab, a UNIX lab and a Graduate Research lab, the department has a cluster computer available for research and instruction. Our facilities are state-of-the-art and provide a broad range of experience that is attractive to potential employers. Additional information on the department is available at

Department computers provide access to the Internet, the World Wide Web, and the computational resources of the Ohio Supercomputing Center in Columbus. In addition, there are connections to the VBNS Internet II network.

The proximity of the faculty offices to the computer laboratories encourages regular interaction between students and faculty. Staff members provide introductory seminars and are always available to assist and guide students. A friendly, informal, helpful atmosphere makes the department an enjoyable place to learn and gain practical experience. Additional information on the department is available at www.uakron.edu/computer-science.

The School of Dance, Theatre, and Arts Administration is located in Guzzetta Hall. The School offers graduate programs in Theatre and Arts Administration. The state-of-the-art facility includes administrative and faculty offices, scene and costume shops, technology enhanced classrooms, including a design lab/studio. Additional information about the school, its faculty, and programs is available at www3.uakron.edu/dtaa.

The **Department of Economics** is housed on the fourth floor of the College of Arts and Sciences Building in a modern office complex with space for both faculty and graduate students. Economics as a discipline has become increasingly analytic. The department has a computer laboratory for faculty and students. It is equipped with the latest equipment, running in a Windows environment. In addition, the department has a variety of software, including economic tutorials, word processing programs and SAS. The lab is also equipped with a laser printer. Network access allows students to search for books, journal articles, the latest economic data, etc., remotely from either Ohio Link or the World Wide Web. The lab is located in close proximity to the faculty offices which facilitates interaction between faculty and students, and enhances the students' educational experiences. Additional information about the department, the faculty, and the programs is available on the department Web site at <u>www.uakron.edu/economics</u>.

The **Department of English** is located on the third floor of Olin Hall. The department offers students the opportunity to take composition classes in its state-of-the-art computer classrooms. Students have the opportunity to submit written work for literary prizes every spring as well as apply for various English scholarships. The Department hosts the Literary Guild for students, runs a journal of creative writing for students, and sponsors an open mic night featuring poetry and fiction readings by students. Additional information about the department, the faculty, and the programs is available on the department Web site at <u>www.uakron.edu/english</u>.

The School of Family and Consumer Sciences is housed in Schrank Hall South and is accredited by The American Association of Family and Consumer Sciences and offers three graduate programs. Nine laboratories, including a computer center, are available for authentic student learning experiences. All programs provide community experiences through internships, clinicals, and student teaching. These programs have active Advisory Committees of community professionals who provide advice and networking assistance. The School's Center for Family Studies offers a variety of certificate programs, including Divorce Mediation, Home Based Intervention and Case Management. In cooperation with the College of Education, the School maintains the Center for Child Development for the study of child development and teacher education. The school also houses the University of Akron Nutrition Center, a comprehensive regional center for the study and delivery of effective nutrition interventions. The Center also serves as an educational resource for students and the community, provides nutrition services and conducts research. Additional information about the school is available on the internet at www.uakron.edu/fcs

The **Department of Geosciences** covers a range of traditional and contemporary research, from environmental and engineering geology to structural geology, geomicrobiology, econonmic geology, geophysics, petrology, strilgraphy, and paleontology. A focus within the department if Terrestrial Records of Environmental Change (TREC). This research covers such diverse but related topics as hydrogeology, paleoclimate reconstruction, climate change, glacial geology, modern siliciclastic and carbonate sedimentology, geomorphology, and aqueous geochemistry. The department is also a recognized leader in earth science and educational research and maintains excellent modern instrumentation for geologic and environmental magnetism laboratory, and a full suite of instruments for aqueous geochemistry. Additional departmental information can be accessed at www.uakron.edu/geology.

The **Department of History** occupies one wing on the second floor of the College of Arts and Sciences Building. This office complex includes a multi-media room for Webbased computer work in close proximity to faculty offices, enhancing students-faculty interaction. The endowed interdisciplinary *Sally A. Miller Humanities Center* is housed within the department and offers fellowships, sponsors speakers and runs pedagogical workshops. The online <u>Journal of Northeast Ohio History</u>, which offers both editorial experience and opportunities of scholarly publication, has its office in the department. The History suite contains three separate seminar rooms, where undergraduate and graduate students work closely with faculty. More information about the department can be found on its Web site: <u>www.uakron.edu/history</u>.

The **Department of Mathematics** is located on the second floor of the College of Arts and Sciences Building. It provides students in mathematics and applied mathematics with a wide variety of computing facilities, operating environments, programming languages, and software. These facilities are being constantly upgraded to maintain currency in a rapidly changing field. The proximity of the faculty offices to the computer laboratories encourages regular interaction between students and faculty. Staff members provide introductory seminars and are always available to assist and guide students. A friendly, informal, helpful atmosphere makes the department an enjoyable place to learn and gain practical experience. The department, its facilities, faculty, and programs.

The **Department of Modern Languages** has a Language Resource Center in Olin Hall. The Language Resource Center contains facilities for students to listen to audiotapes and view videotapes as a class or individually. Fourteen networked multimedia computers have software for additional language practice and foreign language word processing. Access to the World Wide Web provides students with the opportunity to both read and listen to up-to-date news and cultural information in foreign languages. Magazines and dictionaries are also available for student use. Additional information about the department and its programs is available on the internet at www.uakron.edu/modlang/.

The **School of Music** is housed in Guzzetta Hall and also utilizes the E.J. Thomas Performing Arts Hall. Guzzetta Recital Hall seats 250 and is equipped with a pipe organ, harpsichord, two concert grand pianos, and a recording booth. The Music Computer Center is equipped with Macintosh computers and MIDI/sound and video equipment. An electronic music studio features digital and analog multitrack recording and sound synthesis equipment for music composition. Classrooms, studios, and 40 practice rooms (acoustical sound modules) are used for teaching, rehearsals, and practice. Additional information about the school, its faculty, and programs is available on the internet at www.uakron.edu/music.

The **Department of Philosophy** is located on the second floor of Olin Hall. It houses a small computer lab and a private library for philosophy students. Brief biographies and pictures of each faculty member in the department can be found on the University Web site at <u>www.uakron.edu/philosophy/</u>.

The **Department of Physics** is located on the first three floors of Ayer Hall. Facilities include research laboratories used for faculty and student research projects, laboratories for experiments associated with coursework and a computer lab for undergraduate and graduate student use, and smaller PC clusters for research. Additional information about the department, its faculty, and its programs is available on the internet at <u>http://www.uakron.edu/physics</u>.

The **Department of Political Science** is located on the second floor of Olin Hall. The department maintains an instructional computer lab consistently used by students as they analyze real world political conflicts. The department also houses the facilities for the internationally known Bliss Institute of Applied Politics, one of the largest internship programs in the area, and the Center for Conflict Management. Additional information about the department, the faculty, and the programs is available at www.uakron.edu/polisci.

The **Department of Psychology** is located on the third floor of the College of Arts and Sciences Building. The department maintains three computer labs that are available for undergraduate and graduate students in Psychology. All labs have access to the internet. Supported throughout the labs are statistical packages which include SAS, SPSS, and MPlus. A full-time research programmer/analyst provides hardware and software support for the department and writes custom software for computerized research. In addition to the computer labs, a counseling clinic is maintained by the department and has videorecording capabilities for the study of counseling processes and outcomes. Also, the department's Center for Organizational Research engages in outreach to the greater Akron community and provides applied research experience for students. Additional facilities of the department include: research areas for individual computer research and for small group behavior research, and a Test Room where current psychological testing materials are kept. Additional information about the department, its faculty, and its programs, is available on the Internet at http://www.uakron.edu/psychology.

The **Department of Public Administration and Urban Studies** is appropriately located on Main Street in downtown Akron in the Polsky Building. The office suite includes a computer laboratory that is available exclusively for graduate students. The lab has twenty computers and computer projection equipment to facilitate webenhanced course offerings. Each computer has SPSS X, SAS, and other statistical packages. Research design, methods, and computer applications classes are taught in the lab. Additional information on the department is available on the internet at http://www.uakron.edu/paus.

The **Department of Sociology** facilities include research laboratories used for funded research projects and a research laboratory for undergraduate and graduate students. The Newman Library, providing many current professional journals, is open for students' use. Additional information about the department, its faculty, and its programs is available on the internet at http://www.uakron.edu/sociology.

The **Department of Statistics** maintains two instructional computer labs. One of these labs is used for class laboratory sessions for the general education statistics requirement courses, Basic Statistics and Statistics for Everyday Life, and is located in the College of Arts and Sciences Building, Room 108. The other lab, located in the College of Arts and Sciences Building, Room 109, is being used for various undergraduate and graduate statistics courses. The Center for Statistical Consulting, housed in the department and maintained by the Buchtel College of Arts & Sciences, provides opportunities for students to gain valuable experience in the practical applications of statistics while interacting with faculty and clients. Additional information about the department, its faculty, and programs is available on the intermet at <u>http://www.uakron.edu/statistics</u>.

College of Business Administration

The College of Business Administration is located in the 81,000 square foot fourstory College of Business Administration Building, which houses the college's offices, classrooms, computer laboratories, and advising services. The departments of Finance, Management, Marketing, the George W. Daverio School of Accountancy, the Fitzgerald Institute for Entrepreneurial Studies, the Fisher Institute for Professional Selling and the Institute for Global Business share the CBA. All undergraduate and graduate programs are fully accredited by AACSB International — The Association to Advance Collegiate Schools of Business, the most prestigious accrediting agency for business schools.

Tiered, amphitheater-style classrooms permit close contact between students and professors. The Milton and Henrietta Kushkin Computer Laboratory consists of three teaching labs, one homework lab, and two portable laptop carts. The teaching labs are each equipped with 36 student stations. One of these teaching labs is equipped with distance learning capabilities. The homework laboratory contains more than 75 computers for students. Each PC is equipped with Windows XP, Office 2007, Project 2007, Visio 2007, Oracle 10g, SQL Server 2005, Visual Studio, Adobe Studio 8, SAS, SPSS, and many other software applications.

The Carl V. and Clyde A. Fisher Sales Laboratory provides the college with six group lab rooms connected by one-way mirrors to a central monitoring and control room. Sophisticated audiovisual equipment permits the recording of activities in each lab room which can then be shown to students to provide immediate feedback. This facility is a key resource in college programs for training in sales, sales management, negotiation, leadership, and employment interview preparation.

The Mary S. and David C. Corbin Finance Lab is a state-of-the-art facility that provides an advanced learning environment by offering students the unique opportunity of pulling information from a wide range of sources and presenting it simultaneously on multiple screens. It features five workstations with computer access to Internet financial databases, financial news sources (e.g. CNBC), in-house databases such as COMPUSTAT and CRSP, and slightly delayed trading data. A sixth projector/screen is linked to an instructor's station.

The Gary L. and Karen S. Taylor Institute for Direct Marketing occupies approximately 32,000 square feet on the fifth floor of the Polsky Building, a block away from the CBA and connected by skywalks. The facility boasts a creative lab, an analytical lab, a call center, an applied research center, several direct response laboratories, a student learning suite, an entrepreneurial incubator, offices for the Institute and an executive education suite. The college's direct marketing and executive education programs are housed in these facilities.

The Benjamin and Nancy Suarez Applied Marketing Research Laboratories, located on the fifth floor of the Polsky Building, feature a Cognitive Research Laboratory with state-of-the-art technologies focusing on techniques such as eye tracking and brainwave and physiological analysis; a Marketing Intelligence Laboratory with eight workstations and two teamwork stations where students and faculty can develop comprehensive market intelligence reports; an Experiential Research Laboratory where students and businesses use techniques such as facial coding software to test the effectiveness of various types of advertising; and the Suarez in the Square Classroom, an innovative class space built in an amphitheater format.

Offices of the college's 15 active student organizations are located in the James Dunlap Student Organization Office Suite just off the atrium lobby. Student Organizations offer opportunities for development of social, professional, leadership, and networking skills through interaction with business professionals and other students. Additional information about the college, its faculty, and its programs is available on the internet at <u>www.uakron.edu/cba/cba-home/index.dot</u>.

College of Education

The offices, laboratories, and other facilities of the College of Education are located in Zook Hall, Chima Hall, Crouse Hall, the James A. Rhodes Health and Physical Education Building, and Infocision Stadium.

The **Department of Counseling** offers graduate programs leading to the Ph.D. as well as the Master's degree. The Ph.D. is offered in Counselor Education and Supervision (with specialties in Counselor Education and Marriage and Family Counseling/Therapy), and Counseling Psychology (a collaborative program with the Department of Psychology in the College of Arts and Sciences). Masters programs are offered in Clinical Mental Health Counseling, Marriage and Family Counseling/Therapy, School Counseling and Classroom Guidance for Teachers. The department also operates a multidisciplinary clinic, the Clinic for Individual and Family Counseling. Additional information about the department is available on the internet at <u>www.uakron.edu/education/academic-programs/counseling/</u>.

The Department of Curricular and Instructional Studies offers graduate programs leading to the Ph.D in Secondary or Elementary Education as well as the Master's degree. The Master of Arts programs include Elementary Education with Literacy option, Secondary Education, or Secondary Education with Literacy option. The Master of Science in Curriculum and Instruction leads to licensure in a chosen field. Initial teacher preparation programs are available at the graduate level. The early childhood program prepares teachers to teach age three to grade three. The middle childhood program prepares teachers to teach grades four through nine. The secondary program prepares teachers of grades seven to twelve to teach language arts, mathematics, science, social studies, or family and consumer science (grades 4-12). The P-12 program prepares teachers of foreign language, music, dance, drama, or visual arts. Endorsements are available in reading and teaching English as a second language. The special education options prepare graduate students to be master teachers. The University Center for Child Development, under the direction of the College of Education, provides child care for children while serving as an experimental learning site for teacher education students. Additional information about the department, its faculty, and programs is available on the internet at www.uakron.edu/education/academic-programs/CIS.

The **Department of Educational Foundations and Leadership** serves undergraduate and graduate students in the College of Education. The department provides graduate courses in school administration, higher education administration, and teaching and training technical professionals (formerly postsecondary technical education). The department members also teach the core curriculum of historical, philosophic, psychological, and social foundations required in all graduate education programs. They teach, advise, and supervise problems, theses, and dissertations of students in their degree-granting graduate programs. Additional information about the department, its faculty, and programs is available on the internet at <u>www.uakron.edu/education/academic-programs/EFL</u>.

The **Department of Sport Science and Wellness Education** prepares students for careers in teaching, athletic training, exercise science, coaching, and related recreational fields. The graduate program in Curriculum and Instruction with Physical Education licensure option P-12 is a collaborative program between the Department of Curricular and Instructional Studies and the Department of Sport Science and Wellness Education. There are laboratories for the study of exercise physiology, anatomy, athletic training, motor behavior, teaching skills (microteaching), and computer utilization in physical and health education. The department has access to the James A. Rhodes Health and Physical Education Building and Infocision Stadium (classrooms, the main gym, an indoor running track, a multi-purpose room, and four teaching station areas). Student Recreation and Wellness Center (cardiovascular fitness and weight training equipment), and Lee Jackson Field (an outdoor running track). Visit the department's website at <u>www.uakron.edu/education/academic-programs/sswe</u>

College of Engineering

The offices, laboratories, classrooms, research facilities, machine shops, computer laboratories, and other facilities of the College of Engineering are located in the Auburn Science and Engineering Center, Schrank Hall North, Whitby Hall, and the Olson Research Building.

The master's programs in the College consist of departmentally administered Master of Science degrees in Chemical and Biomolecular, Civil, Electrical, and Mechanical Engineering. The Dean's Office administers the Master of Science in Engineering degree with specializations in Biomedical Engineering, Polymer Engineering, and Engineering Management. The Doctor of Philosophy in Engineering is offered in the interdisciplinary fields of Environmental Engineering, Mechanics, Systems Engineering, Materials Science, Transport Processes, Biomedical Engineering, Engineering Applied Mathematics, Chemical Reactions and Process Engineering, Microscale Physiochemical Engineering, and Polymer Engineering. This interdisciplinary degree integrates departmental disciplines and is administered by the Dean's Office. There is coordinated Doctor of Philosophy in Engineering Degree with Youngstown State University and a joint MD/Doctor of Philosophy Degree in Engineering with the Northeast Ohio Medical University.

The **Department of Biomedical Engineering** is located in the Auburn Science and Engineering Center and Olson Research Center and has classrooms, instructional laboratories and research laboratories. The department provides educational opportunities at both the undergraduate and the graduate levels. Biomedical engineering graduate students may also participate in the joint MD/Doctor of Philosophy in Engineering Degree program between the College of Engineering and the Northeast Ohio Medical University.

Faculty members in the department are engaged in a wide variety of research areas both on campus and in collaboration with other researchers in health care institutions and biomedical industry. Interdisciplinary interactions are encouraged to promote vibrant research activities and to provide exceptional scholarly atmosphere for learning The Biomechanical Interfaces Laboratory conducts research into interactions between skin and contacting surfaces. This laboratory is equipped with a custom-designed pressure and distributed shear system capable of measuring skin stresses with 200 um resolution, thermal conductivity systems for assessing materials used for prosthetic liners and sockets, and associated computer hardware and software.

The Bone Biomechanics and Mechanobiology Laboratory focuses on both macroscopic and microscopic investigations of bone. The laboratory is equipped with mechanical testing machines and standard biology equipment to study bone's cellular responsiveness to mechanical loading.

The Biofluid Microtechnology Laboratory includes a robotic liquid handler for high throughput applications as well as capabilities for cell culture, microscopy, and wet chemistry work. In addition, the laboratory is equipped with an optical table with camera-lens for high-resolution side view imaging and contact angle and surface tension measurement software and hardware to examine two phase interactions.

The Motion Analysis Laboratory studies all aspects of human movement. This laboratory is equipped with a Vicon Motion Analysis System, two AMTI force plates, a MA-1–EMG system, and associated computer hardware and software.

The Materials for Tissue Engineering Laboratory incorporates both a tissue culture facility with an incubated, scanning-stage, inverted fluorescent microscope and hydrogel synthesis and analysis equipment, including a ARES fluids rheometer and an atomic force microscope.

The Biophotonics Laboratory develops new photonics imaging, spectroscopy and sensing technologies for disease diagnostics and therapeutics. The laboratory is equipped with a Lambda-35 spectrophotometer, two VIS-NIRS spectrometers, an ULTRAPOL polishing machine, and Epilog CO₂ laser, and an optical table.

The Biomaterials and Tissue Engineering Laboratory provides equipment infrastructure to investigate all aspects of biomaterials. The facility includes a wet lab for formulation, development, and analysis of biomaterials, including medical applications for nanomaterials, in addition to a tissue culture facility for *in vitro* testing.

The Stem Cell and Tissue Engineering Laboratory aims to develop stem cell-based tissue engineering strategies to explore their biomedical applications. This laboratory has a BSL-2 tissue culture facility and equipment for molecular- and cellular-level analysis.

Visit the department's website at www.bme.uakron.edu

The **Department of Chemical and Biomolecular Engineering** is located in Whitby Hall and provides educational opportunities for students at both the undergraduate and graduate levels in Chemical and Biomolecular Engineering.

The Applied Colloid and Surface Science Laboratory has a state-of-the-art laser light scattering facility including a Lexel argon-ion laser, a vibration isolated optical bench, a Brookhaven correlation and probability analyzer, FTIR-Raman, TGA, and an IBM PC-based data acquisition system. The Biochemical and Environmental Bioengineering Laboratory is a satellite center of the Ohio Bioprocessing Research Consortium, housing a state-of-the-art HPLC-MS with additional luminescence, UV/VIS, and IR detectors. The labs are well equipped with several bioreactor assemblies, Sorvall RC-5C refrigerated super centrifuge, Perkin-Elmer UV/VIS spectrometer and LS-50B luminescence spectrophotometer, and on-line NAD(p) H fluorometers. The Biomaterials Laboratory is available for polymer synthesis and storage include a nitrogen hood, Sephadex separation columns, an oil bath, a dry bath, a vacuum oven, a Buch rotary evaporator, and a Labconco lyophilizer.

The Catalysis Research Laboratory is equipped with high pressure and high temperature IR reactor system with a Nicolet Magna-IR 550 Spectrometer Series II, a Nicolet Magna-IR 560 Spectrometer E.S.P. and a Balzers Prisma QMG 200 Mass Spectrometer for in situ catalyst preparation, in situ characterization, temperature programmed desorption of NO, H2, and CO, and in situ reaction studies.

The Multiphase and Solids Processing Laboratory is equipped to do research in filtration and flows through porous media. The labs are equipped with a gamma ray instrument for measuring porosity of packed columns and filter cakes, a Frazier Test to measure air permeability of filter media, a Hiac Royco BR8 particle counter, a Zeta Meter and a Brookhaven EKA Streaming Potential instrument for measuring zeta potentials. An optical system is set up to measure particle sizes and size distributions. The Nonlinear Control Laboratory is equipped with Unix based workstations and a variety of engineering software packages.

The Supercritical Fluids Laboratory, a key lab in the Ohio Supercritical Fluid Technology Consortium, is equipped with FTIR/RAMAN/ATR, GC/FID/TCD high pressure phase behavior apparatus, Berty Reactor, 1-liter stirred Reactor, dynamic light scattering, mechanical testing and high temperature GPC. The Thin Film Laboratory is equipped with plasma systems, thermal chemical vapor deposition, and in situ microbalance.

Additional information about the department, its faculty, and programs is available on the internet at <u>www.uakron.edu/engineering/CBE/</u>.

The **Department of Civil Engineering** is located in the Auburn Science and Engineering Center and Schrank Hall North and has five major laboratories. In the Environmental Engineering Laboratory, students learn to analyze water, wastewater and contaminated soils to assess its quality and to determine the most effective treatment techniques. Laboratory equipment includes UV-visible spectrophotometers, respirometers, gas chromatographs, high-performance liquid chromatographs, toxicity analyzers, an atomic absorption spectrophotometer, and a total organic carbon analyzer. Water and wastewater analytical kits are available for field studies.

The Wendell Ladue undergraduate computer room is equipped with personal computers and associated facilities for civil engineering students for both class and personal use.

In the hydraulics laboratory a tilting flume enables the student to visualize water flow in streams and rivers. A pressurized pipe module is used to study frictional losses in different size pipes. Instructional laboratories introduce several hydraulic software tools such as FlowMaster for pressurized pipe and open channel flow calculations, EPANet, for water distribution pipe network analysis, HEC-RAS, for calculating water surface profiles for natural streams and channels, and Water CAD.

In the soil mechanics and foundation engineering lab, a student learns how to analyze soil by a variety of tests and equipment to determine shear strength, compaction characteristics, and consolidation. In addition to the standard equipment for routine testing, the laboratory has a computer-controlled cyclic triaxial testing system, flexible wall permeameters, and particle image analysis systems.

In the structural materials laboratory, students have the opportunity to observe the experimental verification of the behavior of structural materials, members and connections subjected to tension, compression, bending and torsion. Physical testing is accomplished through the use of two universal testing machines with a maximum capacity of 500,000 lbs., five closed loop servohydraulic testing machines with a maximum capacity of 100,000 lbs., a load frame used to test full scale members and structural systems and a Charpy impact machine. One of the closed loop machines has the capability to apply both axial and/or torsional loads. Further, a full array of data acquisition equipment is available.

The transportation lab is equipped with a complete signal control system supported by video and laser speed/range detection systems to provide traffic data for systems operation and analysis. The global positioning system tracks the position of probe vehicles on transportation network and the spread spectrum radio transmits the video and traffic data from one such system to another wirelessly.

Additional information about the department, its faculty, and programs is available on the internet at <u>www.uakron.edu/engineering/CE</u>.

The **Department of Electrical and Computer Engineering** is located in the South Tower of the Auburn Science and Engineering Center. The Department has learning facilities that are available which include laboratories for the study of circuits, analog and digital electronics, control, computers, energy conversion, embedded systems interfacing, power electronics, and electromagnetics/microwaves. Laboratories follow instruction to help the student apply the material learned in class.

In the circuits laboratory, students learn the basics of circuit design, instrumentation, and measurements. The laboratory is equipped with digital oscilloscopes, digital volt/ampere meters, and other basic measuring equipment.

The analog and digital electronics laboratory builds on the circuits sequence and introduces the student to more advanced design tools and concepts, including computer simulation of circuits. In addition to digital oscilloscopes, the laboratory contains signal generators and the like, specialized equipment such as a transistor curve tracer, single-board microcomputers, development systems, personal computers, and other specialized instruments.

The computer laboratory is an open laboratory with free access to students. The laboratory contains networked personal computers with all software necessary for other courses, as well as word processing and networking software. The laboratory also serves courses in computer engineering and many elective courses and for research purposes.

The two control laboratories teach the basics of analog and digital control and are equipped with digital measuring equipment, analog and digital computers and interfacing components.

The energy conversion laboratory teaches electric machines, energy conversion, and machine control. The laboratory is equipped with motors, generators and controllers, both digital and analog. Emphasis is placed on computer control of machines.

The embedded systems interfacing laboratory is dedicated to interfacing the computer to the outside world. Students learn how to connect devices to computers, how to program them, and how these can be used in design. The laboratory uses a variety of real-world designs and projects to keep students up to date on this important engineering activity. The equipment in the laboratory includes personal computers, single-board micro computers and industrial controllers in addition to measurement equipment and components.

The power electronics lab is taught as part of a power electronics course and teaches design of power components and circuits for operation at high voltage, high current and high power. Digital controllers and all digital measuring equipment account for a very modern laboratory.

The electromagnetics/microwave laboratory uses basic experiments in transmission lines, waveguides and antennae to teach the principles involved. In addition to the basic equipment, the laboratory has a shielded room for specialized measurements.

A regularly updated computer laboratory is available for modeling and software

development projects in all courses. The senior design project laboratories provide bench space and instrumentation for assembly and test of team projects.

Additional laboratories for signal processing and advanced control exist as part of elective courses.

Additional information about the department, its faculty, and programs is available on the internet at <u>www.uakron.edu/engineering/ECE</u>.

The Department of Mechanical Engineering is located in the Auburn Science and Engineering Center. There are eight laboratories in the Department of Mechanical Engineering. The Thermal and Fluid Science Laboratory has internal combustion engines, a supersonic wind tunnel, a subsonic wind tunnel, and a water tunnel. The Heat Transfer Laboratory has temperature measurements systems, a gas laser, and a spectrum of heat exchangers. The Mechanical Measurements Laboratory has a complete complement of transducers, calibration equipment and standards, signal conditioners, analog recording devices and microprocessor-based digital data acquisition systems. The Materials Testing Laboratory has a computer controlled servohydraulic structural testing machine and a uniaxial universal testing machine for performing static, quasistatic, cyclic and dynamic tests on a spectrum of engineering materials and several types of hardness testing equipment. The Parker Hannifin Motion and Control Laboratory has hydraulic and pneumatic servo systems as well as serval pilot systems controlled by PLCs and computer controllers. The Experimental Mechanics Laboratory has photoelastic strain measuring equipment and associated facilities, coupled with a complete range of strain gage instrumentation for both static and dynamic measurements. The Mechanical Design Laboratory has several major software packages for computer-aided design connected to the College's Engineering Computer Network Facility (ECNF). The System Dynamics and Controls Laboratory is composed of several microprocessors, analog computers, and digital controllers, as well as equipment for process control and robotics. The Micro Electro Mechanical Systems (MEMS) Laboratory has instrumentation to build and characterize MEMS devices.

The Vibration and Acoustics Laboratory has electromechanical shakers, sound pressure level instrumentation, and frequency spectrum analyzers for modal analysis. The Metallography and Failure Analysis Laboratory has a complete set of metallographic instrumentation for microstructural analysis of both conventional and advanced engineering materials, and electron microscopes for analysis of failure.

The facilities in the Department of Polymer Science contain extensive laboratories for polymer synthetic chemistry and for the characterization of macromolecules and polymer morphology. A nuclear magnetic resonance laboratory is maintained with several high-resolution instruments. The applied research section of the Maurice Morton Institute of Polymer Science operates a variety of analytical and compounding/processing laboratories to serve the needs of industry and government agencies for a reliable source of problem solving and data. Processing laboratories include unique blending/compounding and molding facilities.

The Akron Polymer Training Center serves as a laboratory for the processing and testing of rubber and plastic materials. This Center provides classrooms and laboratories for undergraduate students in the Mechanical Polymer Engineering program. The laboratories available in the Department of Polymer Engineering include and the Extrusion Laboratory, the Electromagnetic Radiation and Electron Optics Laboratory, the Thermal and Dielectric Laboratory, the Rheological Laboratory, and the Mechanical Laboratory.

Additional information about the department, its faculty, and programs is available on the internet at <u>www.uakron.edu/engineering/ME</u>.

College of Health Professions

The **College of Health Professions** opened in 2012. The college includes the schools of nursing, nutrition and dietetics, social work, and speech-language pathology and audiology and will focus on graduating students prepared to excel as professionals in an evolving health care environment. Highly collaborative and interprofessional, the new college will be a model for health education and research in this region and beyond.

The **School of Nursing** located in Mary Gladwin Hall, provides professional nursing education at the master's and doctoral levels. The school is approved by the Ohio Board of Nursing and the master's program is accredited by the Commission on Collegiate Nursing Education. Academic advising services are available to prospective students. The school contains a state-of-the-art Learning Resource Center, including a computer laboratory exclusively for nursing students. The Nursing Center for Community Health within the school is closely linked to the Akron community and is used by faculty and students for Gerontological Health Nursing and Advocacy whose primary goal is to improve the health care and quality of life for elders.

The **Master's Program** includes advanced practice options as a clinical nurse specialist, nurse practitioner, or nurse anesthetist and an advanced role option in nursing service administration. Advanced Role Preparation in Nursing Educator Role and Nursing Management and Business Certificate Programs are also available. Advanced practice specialties include adult/gerontological health nursing, psychiatric mental health nursing, child and adolescent health nursing, and nurse anesthesia. Postmasters certificate programs include adult/gerontological health nursing, psychiatric mental health nursing, child and adolescent health nursing, and nurse anesthesia. Core courses in the Master of Science in nursing program are offered via distance learning from the Akron campus to the Lorain County Community College (LCCC) campus. The **Doctoral Program** in nursing is a joint Ph.D. program with Kent State University. It is the first Joint Doctoral Program in Nursing in the state of Ohio. The curriculum focuses on the development and testing of theories and models of nursing science and nursing practice, the consideration of the social, political, legal and economic implications of health care policies and practices, and the dissemination of knowledge.

Most recently the School of Nursing has been approved to offer a **Professional Doc**tor of Nursing Practice.

Additional information about the school and its faculty, and programs is available on the internet at <u>www.uakron.edu/nursing</u>.

The **School of Nutrition and Dietetics** is comprised of experienced, dynamice faculty with expertise in community nutrition, sports and wellness nutrition, and nutritional therapy. The school offers a master's degree program in Nutrition. The purpose of the program is to enhance the education of practicing dietitians or individuals interested in nutrition research. Additional information on the school is available on the the internet at http://www.uakron.edu/fcs/nutritiondietetics

The School of Social Work offers CSWE-accredited professional training to social work students by linking them to a variety of local health and human services community agencies and organizations. The strong commitment and interaction with a network of agencies in the community serves as a laboratory for students. Additional information about the school, its faculty, and programs is available on the internet at www.uakron.edu/socialwork.

The School of Speech-Language Pathology and Audiology provides preprofessional and professional training to students who wish to become speech-language pathologists and/or audiologists. The School houses the Audiology and Speech Center, which functions as a practicum training arm as well as a service agency for persons in the region who have speech, language, and/or hearing problems. The master's degree program in Child Life is also housed in the School of Speech-Language Pathology and Audiology. Additional information about the school, its faculty, and programs is available on the internet at www.uakron.edu/sslpa.

College of Polymer Science and Polymer Engineering

The **College of Polymer Science and Polymer Engineering** offers only graduate degrees leading to the Master of Science and Doctor of Philosophy in both Polymer Science and Polymer Engineering. In addition, there are elective courses in both polymer science and polymer engineering for undergraduate science and engineering majors. Options which emphasize polymer engineering have been developed with the **College of Engineering** for undergraduate students interested in the polymer industry. An option has also been developed in the college of Arts and Sciences in Chemistry which emphasizes polymer science. In addition, an interdisciplinary undergraduate program leading to a degree in Mechanical Polymer Engineering, approved by the faculties of the colleges of Engineering and Polymer Science and Polymer Engineering was started in fall 1995.

The facilities of the **Department of Polymer Science** and the **Maurice Morton Institute of Polymer Science (MMIPS)** support fundamental and applied research in polymer chemistry, polymer physics, and many aspects of polymer behavior. There are extensive laboratories for polymer synthetic chemistry and for the characterization of macromolecules and polymer morphology. A nuclear magnetic resonance laboratory, operated jointly with the Department of Chemistry, provides several high-resolution instruments supervised by a professional staff. The Applied Polymer Research Center, managed by the University of Akron Research Foundation, but working closely with MMIPS, operates a variety of analytical and compounding/processing laboratories to serve industry and government agencies for a reliable source of problem solving and data. The total value of major instrumentation and equipment housed in the polymer science laboratories exceeds \$15 million. Additional information about the department, its faculty, and programs is available at <u>http://www2.uakron.edu/cpspe/DPS</u>.

The Department of Polymer Engineering and Institute of Polymer Engineering maintain a broad-based range, state-of-the-art processing, structural, and rheological/mechanical characterization facilities to meet the needs of research and development on materials for energy, environment and health. Processing instruments are capable of handling nanomaterials, biomaterials and conventional polymer products from a few milligrams to hundreds of kilograms. These include unique tape-casting facilities for nano- and bio-materials processing, thin films, inkjet printing and lithography. The blending and compounding facilities include five twin-screw extruders, a microscale compounder and seven internal mixers with flow visualization capabilities. There are also eight single-screw extrusion lines with ultrasonic and sound wave and rotational mandrel dies for plastics and rubber. Tubular films and cast film extrusion capabilities, as well as two biaxial film stretchers, are also available. The molding facilities include five machines with screw injection molding capabilities, compression molding and filament winding for composites. The department also has capabilities for solution casting and electro-spinning. Characterization capabilities includes scanning electron and atomic force microscopy; X-ray diffraction (including a rotating anode X-ray generator), Fourier transform infrared, small angle light scattering, optical microscopy, radiography, differential scanning calorimetry, thermogravimetric analysis, oxygen permeability tester, and surface profiling. Rheological and mechanical testing equipment, including rotation and capillary shear rheometry, dyanamic methanical, tensile and impact testing, are also available. Our students receive hands-on training on the operation of all processing and characterization equipment. Additional information about the department, its faculty, and programs is available at http://www.poly-eng.uakron.edu.

Positioned in the Rubber City, where polymers are the focus of innovation and technology, the **Akron Polymer Training Center (APTC)** is the training division of the College of Polymer Science and Polymer Engineering. Poised to meet the needs of our changing environment, the center strives to be the world's leading provider of virtual workforce development and training. The 18,000 sq. ft. facility houses three classrooms, two polymer-processing laboratories, and a laboratory devoted to chemical measurements and instrumentation.

The APTC serves the region's academic and industrial needs by offering a wide variety of hands-on, non-credit courses as well as customized training. Since its opening in 1993, the APT has trained thousands of incumbent employees in the rubber and plastics industry world-wide. By actively listening to our clients, we have responded by adding courses of interest in the new and emerging fields of bio-materials and polymers for bio-medical applications in anticipation of collaboration with the newly formed BioInnovation Institute in Akron. With a diverse set of course offerings that serve our industry, the APTC is the largest polymer training center in the United States.

The center offers non-credit, short courses in the area of rubber chemistry, mixing and compounding. In addition, it presents a full complement of hands-on plastics programming designed to enhance the skills of incumbent workers in the plastics processing field. Its world-class training seminars and workshops are presented by instructors from the industry, who bring practical experience to the classroom.

For more information on the center, please contact Tayba Tahir, director; Akron Polymer Training Center, College of Polymer Science and Polymer Engineering, at (330) 972-8661 or via email at tahir@uakron.edu. Visit the APTC website at http://www2.uakron.edu/aptc.

The **Akron Global Polymer Academy** at The University of Akron assists the College of Polymer Science and Polymer Engineering in creating and disseminating knowledge about polymer science, polymer engineering, and Science, Technology and Engineering, and Mathematics (STEM) education by supporting initiatives in P-16 education and other distributive education ventures. Providing consulting and training services to the polymer industry worldwide, the Akron Polymer Training Center is the workforce development division of the Akron Global Polymer Academy. Visit the Academy's website at http://www.agpa.uakron.edu for additional information.

University Libraries

Library facilities are housed in three separate locations: in Bierce Library on Buchtel Common; the Science and Technology Library in Auburn Science and Engineering Center, Room 104; and Archival Services in the Polsky Building, lower level.

Library services include reference and research assistance, and user education. Materials can be borrowed from the University Libraries through the circulation department or obtained from other libraries through the OhioLINK network or other resource-sharing arrangements. The University Libraries' collections contain more than 3 million items: books, periodicals, government documents, curricular materials, microforms, maps, audio-visual materials, and archival documents. The library receives more than 15,000 magazines, journals, newspapers, and other serial publications.

Through the library's memberships in the Center for Research Libraries, the Ohio Library and Information Network, the Online Computer Library Center (OCLC), and the Ohio Network of American History Research Centers, access to vast resources is greatly increased for University students, faculty, and staff.

University identification cards function as library cards. Group study rooms, photocopy services, and equipment for use in making paper copies from microforms are available in Bierce Library and in the Science Library. Students may use one of the 180 circulating laptop computers available in Bierce and Science Libraries.

Audiovisual Services, located in Bierce Library, Room 75, maintains an extensive centralized collection of media hardware and audio-visual resources for student and faculty use. It also has a collection of instructional materials in various media formats (filmstrips, slides, etc) to supplement classroom instruction. Audio Visual Services also designs, installs, and maintains technology-enhanced general purpose classrooms, offering permanent in-room projection, sound reinforcement and a sophisticated media retrieval system. Additional information about the libraries is available on the internet at <u>http://www.uakron.edu/libraries/</u>.

Information Technology Services Division

The Information Technology Services (ITS) Division supports all of the University's technology needs including data and communications. In today's University environment, professors, students, administrators, and staff use the same technology and products. Personal productivity tools, network connectivity, and services provide a common infrastructure for the dissemination of information and communications.

The ITS Division is preparing for the University's future technology needs with an emphasis on the continued convergence of voice, video and data networks into a single digital network environment.

Distributed Technology Services provides technology and software support services for the campus community.

Computer Labs: A combination of 400 Dell, Apple, and iPad devices are available for two- and four-hour loans in Bierce Library, the Science and Technology Library, Circulation Desk, and the Student Union information desk. The wireless laptops can be used anywhere within the building to access the internet, to get mail, or to do class assignments. A general purpose computer lab of 20 Windows Desktop PCs for students is located in the College of Arts & Sciences building, Room 103B. Both the wireless and general purpose labs have the same productivity tools such as Microsoft Office, SPSS and SAS. All computers have internet and e-mail capabilities.

Virtual Computer Labs: 24/7/365 online acess to selected software. Log into MyAkron and click on UA Virtual Lab.

Internet Kiosks 124 strategically placed internet kiosks provide instant access to email and Web registration on campus.

Computer Repair Services provides University of Akron students with knowledgeable assistance in the setup and operation of their personal computer equipment. CRS will install University-approved software and assist in installing hardware and peripherals, which will enable you to connect to the University computer network and the internet. CRS will also provide hardware diagnostics, software diagnostics (within reason) and basic troubleshooting. CRS will not install or troubleshoot any software or hardware relating to games. If a hardware problem is found or suspected, our student technicians will give you an idea as to where the problem lies. CRS can also help you set up your direct network connection or wireless for residence hall students.

CRS will install (you must have the original media) and troubleshoot the following software products):

- Microsoft Windows 8, 7, XP, Vista, 2000, ME
- Microsoft Office 2013, 2010, 2007, 2003, 2000
- Microsoft Publisher
- Adobe Acrobat Reader
- Microsoft Security Essentials

Walk-in support is available for Tier 1 support. This allows you to come into the Computer Center between 8:00 a.m. and 4:00 p.m. without an appointment to get service. Some of the services are:

- Triage Apple and Windows machines for software issues
- Smart Phone and Tablet setup/service
- Basic encryption problems
- Wireless setup and issues
- Memory installation

**Please note that all Microsoft software must be purchased by the student prior to installation. An agreement between the University and Microsoft allows the university to sell Microsoft software products to University of Akron students through Computer Solutions at significantly reduced prices.

Computer Repair Service information can be found at: http://www.uakron.edu/dts/computer-repair-service.dot

Location: The Computer Center, 185 Carroll St., Room 129; (330) 972-7626

Hours of Operation: Monday-Friday, 8:00 a.m. - 5 p.m.

Technology Learning Support Services (TLSS) provides the campus community with support services for computing hardware and software. A Walk-in Support Center combined with laptop checkout area is conveniently located in Bierce Library.

The Zip Support Center (walk-in) provides the campus community with support services for applications such as SpringBoard and PeopleSoft, IDs and passwords, computer hardware and software issues. The walk-in Support Center is combine with the laptop checkout area and is conveniently located on the main floor of Bierce Library.

The Zip Support Desk provides call in (330) 972-6888, email support (support@uakron.edu), and online chat (supportchat.uakron.edu) for all students, faculty, and staff. The Support Desk maintains a self-service wiki that can be found at support.uakron.edu.

Hours of operation during the Fall and Spring semesters:

Monday –Thursday: 8 a.m. – 12 p.m. Friday: 8 a.m. – 9 p.m. Saturday: 9 a.m. – 8 p.m. Sunday: 1 p.m. – 12 p.m.

Summer hours are modified and are posted on the Web page.

Software Training Services develops Web-based tutorials and documentation for student self-service applications, the portal (MyAkron), and Springboard! For more information, visit Software Training Service's Web site at http://www.uakron.edu/training.

To access tutorials for hundreds of software applications log into MyAkron, click the Help Center link in the upprer right, then click the Atomic Learning link under the Computer Software Help heading. Department of Instructional Services coordinates the activities of Computer Based Assessment and Evaluation, Design, and Development Services, Distance Learning Services, and Audio Visual Services. Access these services through the Instructional Services website at <u>http://www.uakron.edu/its/instructional_services/</u>.

Computer Based Assessment & Evaluation supports learning and assessment by providing a variety of online testing, assessment, and survey services. Services offered by CBAE include:

- Design, develop, and deliver online tests
- Provide and support online testing in a proctored testing lab
- Score tests completed on bubble sheets.
- Administer placement testing for incoming university students.

The testing lab is located in Schrank Hall North, Room 152. For additional information please visit the CBAE website at http://www.uakron.edu/testing.

Design and Development Services provides support for the design and development of web-based and multimedia instructional materials. Our team is composed of instructional, curriculum, graphics, and multimedia designers and producers.

- We provide support for traditional and online courses using the Springboard! enterprise Learning Management System.
- We support departments in the design and development of online programs and courses that provide access and interaction.
- We offer Web site design and other graphic design for a variety of applications
- We support faculty in the design and development of Web-based and Webenhanced course materials, including multimedia and assessment.
- We provide services for instructors in digital photography, high definition and conventional videography, video post-production, and image scanning.
- We offer live and on-demand video streaming and hosting.
- We support classroom technologies such as clicker response systems and lecture capture/recording systems.
- We explore emerging technologies and how they can be used to enhance teaching and learning, and we offer training on a number of these technologies.

For further information, contact Design and Development Services at (330) 972-2149 or visit the website: <u>http://www.uakron.edu/it/instructional_services</u>

Distance Learning Services: Distance Learning Services provides synchronous videoconferencing and Web collaboration capabilities to the classroom environment. Students at the University are able to interact and share materials with students at one or more remote locations via classrooms equipped with state-of-the-art videoconferencing and Web collaboration technologies. In addition to accommodating traditional course offerings, Distance Learning Services also provides:

- A corporate videoconferencing suite ideal for group meetings and personal interviews.
- A relationship with a network of content service providers that specialize in events such as virtual field trips.
- Special event connections that support educational initiatives, i.e. work shops and professional development.

For further information, contact Distance Learning Services at (330) 972-2720.

Audio Visual Services: Audio Visual Services is located on the ground floor of Bierce Library, Room 75.

 Call (330) 972-7811 to order audio visual equipment. Staff will deliver equipment on campus, assist with the set up of the equipment and will help troubleshoot any technical problems.

Hours of operation during the Fall and Spring semesters:

Monday-Thursday 7:30 a.m. - 9 p.m. Friday 7:30 a.m. - 5 p.m. Please call (330) 972-7811 for summer hours.

Network Services provides network connectivity and remote access for faculty, staff and students. Network connections are available in the Residence Halls and the entire campus is covered with 802.11b wireless services. Remote access is provided by the use of VPN access. High speed cable modem service from the local area cable provider is also available at a reduced rate.

UA's computer network, named UAnet, provides access to:

- ZipLINK UA's library catalog
- OhioLINK the library catalogs of all State of Ohio universities and colleges
- Electronic Mail (e-mail)
- The Internet
- UAnet's Web pages
- · Network file storage and printing

RESEARCH CENTERS AND INSTITUTES

The University Research Council is responsible for encouraging, supporting, and making recommendations pertaining to sponsored and contractual research carried out at the University's departments, schools, centers, and institutes. The council consists of the Vice President for Research and Dean of the Graduate School, the Director of Research Services and Sponsored Programs, representatives of the Faculty Senate, various college deans and institute directors, and General Counsel. Sponsored research activities on campus are coordinated by the Vice President for Research and Dean of the Graduate School and the Director of Research Services and Sponsored Programs.

Akron Global Polymer Academy

Mark Foster, Ph.D., Director

The Akron Global Polymer Academy at The University of Akron assists the College of Polymer Science and Polymer Engineering in creating and disseminating knowledge about polymer science, polymer engineering, and Science, Technology, Engineering, and Mathematics (STEM) education by supporting initiatives in P-16 education and other distributive education ventures. Providing consulting and training services to the polymer industry world wide, the Akron Polymer Training Center is the Workforce Development division of the Akron Global Polymer Academy.

Ray C. Bliss Institute of Applied Politics

John C. Green, Ph.D., Director

The Ray C. Bliss Institute of Applied Politics is a non-partisan, public education and research adjunct of The University of Akron and its Department of Political Science. The broad purposes of the institute, in keeping with the career of its namesake, Ray C. Bliss, are: to give all citizens, and particularly students, an opportunity to learn how to become active and competent in political life; to help maintain a tradition of ethical public service in politics; to foster useful relationships between applied politics and political science; to promote public comprehension of political organizations and the requirements for their effectiveness; and to improve understanding of continuity and change in American political institutions.

Institute for Biomedical Engineering Research

Brian L. Davis, Ph.D., Director

This institute was established in 1979 to promote interdisciplinary studies in the rapidly growing intersections between medicine, engineering, and the physical sciences. The mission of IBER is to promote the growth and development of Biomedical Engineering research in medical devices and biomaterials in the Northeast Ohio region through collaboration with regional hospitals, industry, the Austen Biolnnovation Institute in Akron, Northeast Ohio Medical University (NEOMED), and The University of Akron. As such, the objective of the institute serves to offer medical professionals in the health services industry in the region with opportunities to collaborate with engineering and basic science faculty, staff, and graduate students in strengthening the development and application of biomaterials and medical devices. Effective use of the combined resources of the University, NEOMED, and the affiliated health care members permits a more cost-effective solution to design and development of biomedical products than could be achieved by each entity working independently.

Center for Advanced Vehicles and Energy Systems (CAVES)

J. Alex De Abreu, Ph.D., Director

The mission of the Center for Advanced Vehicles and Energy Systems (CAVES) is to be a leader in the creation of sustainable and clean energy sources and to facilitate the adoption of these technologies, considering the entire energy pipelineenergy generation, storage, conversion, and usage. The center efforts are geared toward product-oriented research, development and commercialization of costeffective solutions to alternative transportation systems, advanced energy sources and tosrage devices, and their real-time control. In addition to providing research and testing services to industry, private, and government agencies, CAVES also provides knowledge dissemination symposia, lectures, seminars, training, and project-oriented graduate and undergraduate design experiences. Specific expertise can be found in the areas of power electronics, charging stations, battery management, bidirectional grid-interfaces, motor design, motor drives, hybrid and electric vehicles, wnd turbines, solar energy, fuel cells, energy harvesting, control systems, and wireless embedded networked sensor design.

As part of the University of Akron-Wright Center for Sensor Systems Engineering partnership CAVES houses the Center for Clean Technology Sensors. a one-stop shop for sensor and sensor system design, development, testing, and commercialization. CAVES unique facilities include a 150kW dynamometer for testing motors, generators, hybrid-electric drivetrains, and power electronic drive sensors; a high temperature electronics lab; a real-time computing lab; an alternative energy lab; a tribology lab; an optical strain analysis lab; a number of corrosion facilities; facilities for developing specialized coatings and surfaces; and access to a clean room in the Timken Engineering Surfaces Center.

Please contact Dr. J. Alex De Abreu at <u>alexis4@uakron.edu</u> or (330) 972-6709. for additional information.

Center for Applied Polymer Research

Crittenden J. Ohlemacher, Ph.D., *Manager* Robert H. Seiple, M.S., *Special Projects*

Operating under the Institute of Polymer Science and Polymer Engineering, the Applied Polymer Research Center (APRC) provides technical services to hundreds of companies. Industrial clients of all sizes gain access to top researchers, knowledge bases, and advanced equipment. With a full-time professional staff, the APRC is dedicated to providing timely and reliable contractual technical services for industrial and government clients. Key areas of technical service include: polymer characterization, additive identification, defect analysis, thermal analysis, dynamic mechanical thermal analysis (RPA, DMTA), chromatography and spectroscopy.

Center for Collaboration and Inquiry

Operated jointly by the Buchtel College of Arts and Sciences and the College of Education, the Center for Collaboration and Inquiry was created in 2002 to promote the practice, research, and dissemination of inquiry-based teaching and learning. The Center supplies the resources and assistance necessary for P-16 teachers to create effective learning environments and fosters collaborative research efforts between experts of both content and educational methods.

Center for Conflict Management

William T. Lyons, Jr., Ph.D., Director

The University of Akron has a long and proud history of the interdisciplinary study of conflict, because understanding the nature of conflict is the first step toward reducing conflict and violence at home, in our communities, workplaces, and schools. The Center for Conflict Management, jointly administered by the departments of Political Science and Sociology, seeks to build on that tradition by combining courses in several departments to enhance the capacity of students to effectively work toward reducing the harms associated with conflict and violence -from interpersonal to international.

For more information, contact the office, 202 Olin Hall, (330) 972-5855, wtlyons@uakron.edu, or www.uakron.edu/conflict.

H. Kenneth Barker Center for Economic Education

The center exists to improve the economic literacy of individuals to help them function competently as citizens, producers and consumers.

The center conducts workshops, seminars and economic programs for teachers, students and interested groups. It provides consulting services in the area of economic education and acts as a clearinghouse for the gathering and dissemination of economic education materials and programs. It also fosters an understanding and appreciation of the American economic system.

Center for Emergency Management and Homeland Security Policy Research

Robert M. Schwartz, Ph.D., Director

The Center for Emergency Management and Homeland Security Policy Research at The University of Akron is dedicated to create a supportive environment for research, academics, and outreach in Emergency Management and Homeland Security. This Center will support and encourage multidisciplinary endeavors in these fields that will make a positive contribution to society.

Center for Environmental Studies

Ira D. Sasowsky, Ph.D., Director

The Center for Environmental Studies matches the expertise of about 100 faculty in 33 disciplines with the needs of students seeking study and research opportunities related to the environment. Since its founding in 1970, the center has sponsored, or in other ways supported, activities appropriate to understanding the Earth system and maintaining a quality environment for humanity.

The center offers both undergraduate and graduate certificate programs. By enrolling in selected courses outside of their major field of study, students receive the broad training required to address environmental concerns. The center also coordinates special forums, workshops, and seminars that address major issues. Examples include the National Energy Forum, the World Food Forum, and Evaluation of Environmental Data. Workshops on environmental studies in England, energy, and natural history exemplify the interdisciplinary approach to the understanding of issues.

Center for Family Studies

Pamela Schulze, Ph.D., Director

The Center for Family Studies, established in 1979, was designed to stimulate and encourage the interdisciplinary study of the family. It serves both the University and the community by fostering collaboration between faculty, students, practitioners and community leaders on curriculum development, educational conferences and seminars, research and training, and public policy relevant to important family issues. The Center is a member of the Sloan (Foundation) Work and Family Research Network and can supply current and credible information on work-family issues to its constituencies.

The Center is represented by faculty from the University's colleges and over 15 disciplines. It also includes leaders from various community systems, such as the schools, hospitals, courts, churches, mental health, social and health care agencies. In addition, the Center has a fellows program in which outstanding faculty and community leaders are named as either fellows, adjunct fellows or senior fellows.

The Center offers certificates in the following specialty areas: General Mediation, Divorce Mediation; and Home-Based Intervention. For more information, please refer to the descriptions of Interdisciplinary and Certificate Programs in this *Bulletin* or the *General Bulletin*. Any student, faculty member or community person interested in family issues is invited to call the director to learn how they can participate or learn more about the Center's activities.

Center for Information Technologies and eBusiness

Bindiganavale S. Vijayaraman, Ph.D., Director

The Center for Information Technologies and eBusiness (CITe) is a multi-disciplinary center within the College of Business Administration. CITe provides an important resource connecting IT executives with IS faculty and students that will provide educational research and networking opportunities. CITe was created in 2000 with the mission to teach students and develop faculty in the principles and practices of the related disciplines of Information Technology and electronic business. CITe is made up of an advisory board of Information Technology leaders from the Northeast Ohio region and the College of Business Administration faculty, staff, and students. The objectives of CITe are to advance information technology (IT), information systems (IS), and eBusiness (EB) programs, research, best practices, and related activities at The University of Akron. Visit the CITe website at <u>http://cite.uakron.edu</u> for more information.

Center for Literacy

Lisa Lenhart, Ph.D., Director

The Center for Literacy furthers the mission of both the University of Akron and its College of Education through a variety of programs that support development of expertise and dissemination of knowledge about language learning. The Center brings preservice, inservice, and university teachers together with children and families in the greater Akron area through a wide range of literacy related projects. Further information about the Center for Literacy can be found at http://www.uakron.edu/education/community-engagement/literacy/

Center for Organizational Development

The Center for Organizational Development in the College of Business Administration was established to meet the training and development needs of the business community. The Center offers management development seminars, programs, conferences, and consulting services designed to enhance the skills of individuals and improve company productivity in a rapidly changing world. The Center specializes in offering dedicated supervisory training and management development programs that are custom designed to meet the specific needs of companies.

Center for Organizational Research

Dennis Doverspike, Ph.D., Director

The Center for Organizational Research is a business research and consulting center managed by the Industrial/Organizational Psychology Department at the University of Akron. The Industrial/Organizational Psychology Department at the University of Akron consistently ranks as one of the top ten programs in the nation (according to U.S. News & World Report).

The COR's mission is to provide top quality consultation and research-based interventions to the business community. The COR also serves the purpose of providing professional training and research opportunities for graduate and undergraduate students. The COR is able to provide a tailored approach to the client's needs because of its smaller client base and research orientation. COR offers larger organizations access to solutions based on cutting-edge research from a nationally regarded academic program.

Center for Public Service Research and Training

Peter J. Leahy, Ph.D., Director

The Center for Public Service Research and Training (CPSRT), established in 2002, is a division of the Institute of Bioscience and Social Research (IBSR), a multipurpose research institute of the University of Akron. CPSRT's mission is to assist the local and regional community in policy analysis and evaluation, applied research, professional service and the resolution of social, economic and public management problems. CPSRT offers its services to governments of all levels, to community foundations, to human service agencies and to community organizations. Particular expertise is available in program evaluation and program improvement strategies, strategic program planning, strategic management, community needs assessment, community planning and the conceptualization and design of research projects.

CPSRT draws upon the full range of senior research associates, professional staff and related research centers available in the IBSR, as well as upon faculty and doctoral students from the Buchtel College of Arts and Sciences.

Center for Statistical Consulting

The mission of the Center for Statistical Consulting in the Department of Statistics is to provide the university community and the community at large with professional assistance in the design and analysis of statistical problems for theses, dissertations, and research. The office is located in the College of Arts and Sciences Building, Room 118B. When requesting statistical consulting refer to the Center's website at http://www.uakron.edu/statistics/about-us/, fill out the Request for Statistical Consulting form and e-mail it to the department on the available link. The department will contact you for an appointment.

Center for Urban and Higher Education

Bridgie A. Ford, Ph.D., Director

The Center for Urban and Higher Education is an education and research unit within the College of Education with the broad purpose of improving student learning pre-K through higher education. CUHE serves both the University and the community by building and sustaining collaborative partnerships among practitioners, faculty, students, and community leaders. CUHE's urban education institutes, professional development workshops and trainings, and research initiatives provide the frameworks for innovative collaborative services. The Center is located in Quaker Square 232 and 232a. For more information and when requesting services, please visit the Center's website at <u>www.cuhe.uakron.edu</u> or via e-mail at <u>cuhe1@uakron.edu</u> or call (330) 972-8183.

English Language Institute

Established in 1979, the English Language Institute (ELI), part of Buchtel College of Arts and Sciences, offers a program in English as a Second Language (ESL) instruction. Its English for Academic Purposes Program provides non-credit ESL courses to international students and nonnative residents who plan to pursue an undergraduate or graduate degree at The University of Akron or another U.S. university. The intensive, 20-hour per week program also serves individuals who wish to improve their English to meet their own professional and/or personal goals.

ELI courses at four levels of English proficiency target language and academic skills needed for successful study at a U.S. university: reading efficiently, writing clearly, taking lecture notes, and communicating effectively in English. Students also study grammar and vocabulary and prepare for language proficiency tests to meet the University's English requirement. (The TOEFL, Test of English as Foreign Language, or the ELI-ASSET, Academic Study Skills and English Test, along with ELI course grades may be used to successfully complete the ELI and begin academic coursework.) In addition, students receive a wide variety of support services to facilitate their transition to life and study in the United States.

In addition to its instructional program, the ELI administers the University of Akron Developed English Proficiency Test (the U-ADEPT), which assesses the speaking ability of prospective international teaching assistants at UA and determines their readiness to provide classroom-related services in their graduate departments.

The ELI serves as a resource on issues relating to language proficiency for University faculty, staff, and students as well as for members of the local community. For more information, visit the ELI web site at www.uakron.edu/eli/, e-mail <u>uaeli@uakron.edu</u>, or call 330-972-7544.

Fisher Institute for Professional Selling

Chris Plouffe, Ph.D., Director

Established through a gift from Ronald and Diane Fisher in 1992, the Ronald R. and Diane C. Fisher Institute for Professional Selling is the second oldest sales program in the world and widely regarded as one of the best.

The mission of the Fisher Institute for Professional Selling is (1) to enhance the image of the sales profession and to promote professional selling and sales management as rewarding lifelong careers; (2) to provide world-class, high quality excellence in sales education through our sales major, minor, and certificate programs; (3) to forge strong partnerships with the business community by providing them with

top talent and outstanding training and consulting to their sales executives and their business needs; and (4) to conduct research that advances the field of sales.

The sales function generates the revenue that enables the rest of the corporation to operate. Jobs are abundanct in the field of sales. Current placement is 100% (compared to 37% in all other majors).

Visit the website at http://www.uakron.edu/cba/fisher for more information.

William and Rita Fitzgerald Institute for Entrepreneurial Studies

Steven Washington, Director

In 1995, a generous gift from William and Rita Fitzgerald created the Fitzgerald Institute for Entrepreneurial Studies in the College of Business Administration. The Institute was established to promote the principles of free enterprise and encourage entrepreneurial spirit and practices both within the University's curriculum and throughout the business community.

The Fitzgerald Institute focuses on the development of curriculum appropriate for both new ventures and the entrepreneurial development and growth of existing businesses. The Institute provides the needed link between the University and the community of entrepreneurs critical to business development in the future.

For information, contact the Institute, CBA 412, 330-972-7015.

Institute for Global Business

Akhilesh Chandra, Ph.D., Director

The University of Akron received special grant from the State of Ohio to expand its offerings of undergraduate and graduate degree programs in international business. As a result of the State grant the Institute for Global Business (IGB) was established in 1996 as an academic unit within the College of Business Administration. The mission of the Institute is to educate students with requisite skills and preparation to assume leadership roles in the global business model.

The Institute coordinates both credit and noncredit programs in international business as the undergraduate and graduate levels. The Institute also offers short courses and seminars to assist in improving international competitiveness of area organizations. With a focus on providing to our students holistic academic experience with significant global learning opportunities, the Institute has been an integral component of the College since its inception.

Institute of Bioscience and Social Research

Joseph Wilder, Ph.D., Director

Mission Statement: Improving Health and Social Services for Individuals and Communities through Research

The Institute of Bioscience and Social Policy (IBSR), located in the Polsky Building, operates under the direction of the Buchtel College of Arts and Sciences. The Institute, which was established in 1998, is dedicated to the research of health and social services. IBSR values and encourages a multidiscipline approach to research. IBSR offers graduate students an opportunity to work and learn from some of the top social science researchers in the country.

IBSR provides full administrative support for as many as 48 projects per year - projects that are funded by federal, state, and local agencies. Since its opening the Institute's staff and researchers have brought in more than \$43 million in grants and contracts. Research staff members publish project results, give presentations locally, nationally, internationally, and belong to more than 60 professional organizations.

IBSR takes pride in the invaluable staff and dedicated researchers who have contributed to its founding and growth.

IBSR supports research and researchers with the following: analytical experience, research support, research co-op, technical support, facilities, compliance, and administrative/fiscal support.

Institute of Polymer Science and Polymer Engineering

Alamgir Karim, Ph.D., Interim Director

The Institute of Polymer Science and Polymer Engineering provides research support and technical service for the graduate research programs in the Department of Polymer Science and the Department of Polymer Engineering. The technical support staff provide instruction and service for students and faculty in laboratories dedicated to electron microscopy (SEM, TEM EDS, EDX), polymer characterization (SEC, DSC, TGA, light scattering, FTIR, UV-vis, X-ray, AFM, contact angle goniometer), polymer processing (mixing, extrusion, film formation, molding, filament winding, pultrusion, electrospinning), electronics and electrical repair, machining, glassblowing and a variety of analytical and processing equipment. In cooperation with the Departments of Chemistry and Chemical Engineering, the University of Akron NMR Center maintains a satellite nuclear magnetic resonance laboratory equipped with 500 MHz solid-state and solution spectrometers supervised by a professional staff. The Polymer Blending and Compounding Center and the Applied Polymer Research Laboratory provide contract technical service for industry and government.

Institute for Teaching and Learning

Theresa S. Beyerle, Ph.D., Associate Director

Mission

The Institute for Teaching and Learning at The University of Akron coordinates, promotes, and supports efforts to improve the success of our students both inside and outside the classroom, and to advance and disseminate scholarly investigations into the teaching and learning process as well as discipline-specific research activities involving students.

The ITL's Responsibilities

- Consulting with colleges, departments, and individual faculty on teaching, learning, evaluation, and assessment issues
- Assisting faculty with service learning and undergraduate research experiences
 Developing and providing targeted professional development activities, informa-
- tion-gathering and sharing
 Assisting faculty with effective course design, implementation, and assessment of learning
- Providing information, advice, and leadership on teaching and learning matters
- Providing leadership and support for research on the scholarship of teaching and learning, service learning, pedagogy, and inclusive excellence

For more information, visit the ITL website at www.uakron.edu/itl or contact ITL at (330) 972-2574.

Intellectual Property Law and Technology Center

Jeffrey M. Samuels, J.D., Director

The Intellectual Property Law and Technology Center in the School of Law is one of approximately 14 such centers in the nation. The center exposes the community to critical thinking in the intellectual property law field, coordinates and implements the Law School intellectual property law curriculum, and hosts an annual Conference on Intellectual Property Law and Policy. The Center works with other schools within the University in the design and implementation of interdisciplinary courses relating to intellectual property law. Commencing the fall of 2005, the Center implemented a new Master of Laws in Intellectual Property Law Program. In August 2011 the Center began administering a joint J.D./LL.M. program in Intellectual Property Law.

Institute for Life-Span Development and Gerontology

Harvey L. Sterns, Ph.D., Director

The Institute for Life-Span Development and Gerontology, founded in 1976, coordinates multidisciplinary credit certificate programs in gerontology at the undergraduate and graduate levels. There is a combined graduate certificate program with Kent State University. Combined, the two universities offer a diverse range of graduate courses with aging-related content and join faculty that are nationally and internationally recognized scholars in gerontology.

The Institute of Life-Span Development and Gerontology has grown into a campuswide program involving more than 63 faculty in over 20 different departments, representing six colleges. Students in the certificate programs carry out field placements at numerous community service settings. There are over 30 courses at the undergraduate and graduate levels. Research, education, training and service support has been received from the U.S. Administration on Aging, National Institute on Aging, U.S. Department of Education, Office of Special Education and Rehabilitation Services, National Institute on Disability and Rehabilitation Research, AARP Andrus Foundation, Ohio Department of Aging, and Area Agency on Aging 10B. The Institute has served as a major site for the Rehabilitation Research and Training Center Consortium on Aging and Developmental Disabilities involving seven universities in six states.

Examples of outreach activities include The Tri-County Senior Olympics.

Microscale Physiochemical Engineering Center (MPEC)

George G. Chase, Ph.D., Director

The Microscale Physiochemical Engineering Center (MPEC) was established in 1996 by faculty with a common research interest in materials composed of very small particles and fibers. These particles and fibers can be used in applications including heterogeneous catalysis, fluid/solid separations, paper-pulp processing, soil remediation, waste water decontamination, and solid transport.

The unique feature of MPEC is the ability to form multi-disciplinary teams of faculty and graduate students to solve specific industrial problems.

The Center promotes networking, provides a forum for industrial-university cooperation, and is a consortium of industrial sponsors for fundamental and applied research in microscale physiochemical engineering.

Nursing Center for Community Health

Annette Mitzel, MSN, RN, Director

The Nursing Center for Community Health (NCCH) was founded in 1982 as one of the first academic nurse managed centers in the United States. Operated through the School of Nursing, the NCCH and its six satellite clinics in the community functions as an Academic Nurse Managed Clinic as well as serving as a practice site for faculty and students.

Within the NCCH Advanced Practice Nurses lead an interprofessional team of students and faculty from the College of Health Professions to provide non-emergency, primary, and episodic health care to vulnerable and uninsured community residents.

Serving both the local community and The University of Akron the Nursing Center facilitates collaboration, not only between faculty and students, but among various health care disciplines, building a model for interprofessional education, practice, and research. As part of its mission the Center strives to positively affect the health and wellness of the individual and the greater community.

Nutrition Center

Kathy Schupp, MA, RD, CSG, LD, Director

The University of Akron Nutrition Center is a comprehensive center for the study and delivery of effective nutrition interventions. It provides the needed link between UA nutrition expertise and the extensive preventative health care needs of the campus and surrounding community. The center serves as an educational resource for faculty, staff, students and the community, provides nutrition services and conducts research in chronic disease treatment, wellness and disease prevention, nutrition information technology, sports nutrition, food safety and sanitation, and community nutrition.

Taylor Institute for Direct Marketing

The Taylor Institute for Direct Marketing is an educational and research organization focused on Direct Interactive Marketing at The University of Akron, College of Business Administration, on the fifth floor of the Polsky Building.

The Taylor Institute offers two Direct Interactive degrees: a Master of Business Administration (MBA) with a concentration in Direct Interactive Marketing and an undergraduate Advanced Marketing Minor in Direct Interactive Marketing which is available to Marketing and IT Management majors. The Taylor Institute is home to a wide range of marketing courses that focus on emerging direct interactive marketing trends encompassing e-Commerce, Interactive Marketing, Social Media, Integrated Marketing Communications, Marketing Management, Marketing Research, and Marketing Analytics.

In addition to academic programs, The Taylor Institute provides University of Akron students with real-world learning experiences in working on direct interactive projects for clients, businesses, and organizations.

Training Center for Law Enforcement and Criminal Justice

Michael Jalbert, Interim Director

The Training Center for Law Enforcement and Criminal Justice provides Basic Peace Officer Training Academies, Police Refresher Training, Firearms Requalification, and In-service Seminars.

Training Center for Fire and Hazardous Materials

The Training Center for Fire and Hazardous Materials brings the University, government and industry together into one comprehensive regional center to integrate educational programs, fire and hazardous materials training and other applications of fire and safety technology. The center is chartered from the Division of EMS and offers all State Certified Classes for firefighter certification. The Center employs 190 certified Emergency Services Instructors to fill any training requirement for municipal and business and industry. The center coordinates seminars and workshops presented by the Federal Emergency Management Agency (FEMA), the National Fire Academy, the Division of State Fire Marshal, and other related organizations. Training in all phases of hazardous materials containment and fire prevention and control is provided under contract to various municipalities, industries and agencies. The programs are supported by the faculty of the Fire Protection Technology degree program and the Emergency Management degree program in association with other state and nationally recognized professionals. The Training Center serves a multi-county area, having partnerships with the Medina County Career Center and Cuyahoga Valley Career Center and offering all levels of Fire Classes at the Medina County University Center.

University of Akron Magnetic Resonance Center (UA/MRC)

Peter Rinaldi, Ph.D., Director

The MRC provides UA students and faculty, and the industrial and external academic scientific community, with access to routine and state-of-the-art magnetic resonance facilities and technical expertise. These capabilities include instruments for solution and solid state NMR, and the expertise of technical staff with experience in using these instruments for problem solving in chemistry, biological sciences, and polymer science and polymer engineering. Students and faculty are trained in the use of the instruments and NMR techniques in general through an ongoing educational process. The center has instruments in The Knight Chemical and Goodyear Polymer buildings. For more information contact Peter Rinaldi at (330) 972-5990 or peterrinaldi@uakron.edu or visit our website at http://www.uakron.edu/chemistry/magnet

Workforce Development and Continuing Education

The mission of Workforce Development and Continuing Education is to serve the people of Northeastern Ohio by offering courses and programs that increase access to The University of Akron, linking it with community, business and industrial workforce needs.

Workforce Development and Continuing Education at The University of Akron provides a wide range of educational, technical, and research services that enhance the effectiveness and quality of workforce learning. In addition, Workforce Development and Continuing Education provides services that require the special expertise of the faculty and staff to better serve the economic and social development of Northeastern Ohio. Grant monies may be available to help with costs.

Student Affairs

Counseling Center

The Counseling Center provides psychological counseling, career planning, educational counseling, testing, outreach, and consulting services to the University community. The Center is staffed by a culturally diverse group of licensed psychologists and doctoral trainees. Counseling services are free and confidential to enrolled students. There is a fee for testing services. The Center is located in Simmons Hall, 306. Phone numbers are: Counseling Services (330) 972-7082, and Testing Services (330) 972-7084. Visit our website at <u>http://www.uakron.edu/counseling</u>.

Counseling Services

- Short-term personal counseling and psychotherapy addresses many areas including stress, loneliness, anxiety, and depression; alcohol and drug use; relationships (family, partners, friends), sexual assault; oppression, cultural identity and selfesteem. Biofeedback services are also available for stress management. ULifeline is an informative mental health and wellness link on the Web page.
- Career counseling helps students decide on a major and career direction. Students identify interests, values, abilities and goals and relate these to the world of work. Testing and occupational information is available through counseling, workshops, and on website.
- Educational counseling helps students develop educational goals and motivation, as well as effective study skills. A streaming study skills Web video is on the Web page.
- College Survival Kit workshops cover many topics including improving academic performance, career planning, increasing wellness, and personal issues; as well as providing support groups for students of diverse cultures. Brochures are available.

Testing Services

 Numerous testing programs including, CLEP, college entrance examinations, career assessments, academic placement testing, on-campus academic testing and learning disorder assessments are available.

Outreach and Consulting Service

 The Center regularly provides speakers for classes, residence halls, student organizations, and administrative offices. Consultation is available for emergency and crisis situations.

Career Center

The Career Center's mission is to provide career services to all students and alumni of The University of Akron. Career Services for students and alumni include opportunities to participate in on-campus interviews with representatives from business, industry, education, and branches of the government. Numerous educational outreaches are provided throughout the campus community which include a wide variety of topics such as resume writing, job search skills, dress for success, etiquette dining, and mock interviews. In addition, the Career Center offers leadership opportunities for students and sponsors career expos in collaboration with academic colleges, giving students the opportunity to network with hundreds of potential employers. The Career Center maintains a career resource library that enables students and alumni to utilize computers, employer literature, videotapes, job search information, job openings, and career-related books and periodicals. Career consultations are available and may be scheduled by contacting the Career Center. The Career Center is located in Simmons Hall, Room 301 and can be contacted at (330) 972-7747 or via the web at http://www.uakron.edu/career.

The Career Center also houses the Office of Student Employment. Student Employment helps students find part-time job opportunities both on and off campus. The Office of Student Employment can be reached at (330) 972-7405.

Student Health Services

Student Health Services, located in Suite 260 of the Student Recreation and Wellness Center, assists students in meeting their academic and personal goals by addressing their health care concerns by providing quality, cost-effective, culturall competent and compassionate health care and health education.

The student who becomes seriously ill or suffers a serious injury on campus should be taken to an emergency room at one of the local hospitals without delay. Those persons present in this kind of emergency should call University Police or 911 immediately. The University assumes no legal responsibility or obligation for the expenses of such transportation or for medical services at the hospital.

Student Health and Accident Insurance, designed specifically for students, is available to students enrolled for six or more credit hours. More information on the student health insurance plan is contained in brochures available at Student Health Services or online at <u>www.leonardinsurance.com</u>.

For more information regarding Student Health Services contact (330) 972-7808 or visit the website at <u>http://www.uakron.edu/healthservices</u>.

Student Services Center

The Student Services Center provides a single location to assist students with services relating to registration, financial aid, and student accounts. These services include, but are not limited to, adding/dropping classes, reviewing/collecting financial aid documents, explaining tuition and fees charges, and much more.

The Student Services Center is located on the first floor of Simmons Hall and can be contacted at (330) 972-7272.

Office of Accessibility

The University welcomes students with disabilities. The mission of the Office of Accessibility is to provide students with full access to and the opportunity for full participation in the academic environment. We are advocates of social justice for students with disabilities and work to end oppression by examining the social, cultural and institutional barriers to inclusion of all students. We embrace the diversity of our student body and celebrate a culturally sensitive and accessible campus through outreach, partnership, and advoccacy with many university departments. Our goal is to provide reasonable accommodations and a supportive, well-resourced environment to students with disabilities in order to promote student success in the university environment. For more information, call (330) 972-7928 or (330) 972-5764 (TDD), see our Web site at www.uakron.edu/access, email access@uakron.edu, or visit Simmons Hall Room 105.

Center for Child Development

The University of Akron Center for Child Development provides a variety of early childhood programs which are open to students, faculty, staff, and the community. The trained teaching staff provides a stimulating learning environment and opportunities for growth in all areas of development—social, emotional, physical and intellectual.

The Center for Child Development is open year round between 7:30 a.m. and 6:00 p.m. Monday through Friday. The program offers hourly flextime and half-day programs for children three to five years old and toilet trained. Full-day sessions are available year round for children 18 months to five years old.

A summer program is also offered for school-aged children. This program is offered from 7:30 a.m. until 6:00 p.m.

For more information call the Center for Child Development, 330-972-8210 or visit the website at http://www.uakron.edu/education/community-engagement/ccd.

The Student Union

The Student Union, located in the center of campus, houses numerous functions of student life and student engagement, and serves students, faculty, and staff. This facility offers various food venues, ballroom and meeting rooms, theater, game room, student organization offices, Off-Campus Student Services, Student Judicial Affairs, Computer Solutions--the computer technology store, ZipCard office,

DocuZip copy center, bank, Information Center, Barnes & Noble Bookstore, the Buchtelite student newspaper, and Starbucks.

Visit our website at www.uakron.edu/studentunion.

•Food Areas. On the first level is Zee's convenience store, which has a variety of items, including sundry items for the busy student. On the second level are Subway, Auntie Anne's, Ohio Burger Company, the Union Market, and Starbucks.

- DocuZip Copy Center, located on the second level, offers the following services: copying, including color, oversized and reduced copies; binding of materials; mailing facilities for campus, U.S. mail, and United Parcel Service (UPS); literature distribution; and class support files.
- Barnes & Noble Bookstore is located on the first level. The primary purpose of the Bookstore is to make available books and supplies required for coursework. In addition, the store also carries a wide range of classroom supplies, paperbacks, engineering and art supplies, photo supplies, greeting cards, University memorabilia and clothing.
- The Student Union Theatre, located on the second floor, screens second-run movies as well as occasional first-run sneak previews. The theater also hosts special events and performances.
- The Information Center, located on the second floor, is operated seven days a week. The Information Center staff can answer questions regarding department and student organizations, on-campus events, and the Roo Express. Laptops can be checked out for use in the Union at the Information Center. Please call (330) 972-4636 if you need a question answered.
- Room Reservations can be obtained in the Student Union. Call (330) 972-8689 to reserve the ballroom and meeting rooms located in the Student Union.
- Computer Solutions, located on the third level, is The University of Akron's computer technology store. As an education reseller, personal computer hardware, peripherals, and software are available at educational pricing. The store is a service for students, faculty, and staff. Computer Solutions is an authorized reseller of Apple and Dell products.
- The Game Room, located on the first floor, has a pool hall, bowling lanes and video gaming. The bowling lanes feature *Extreme* glow-in-the-dark bowling. Bowling and Billiards physical education classes are conducted in the Game Room.

Off-Campus Student Services

Off-Campus Student Services resource center and administrative offices are located on the first floor of the Student Union. The center provides up-to-date information on apartments and housing around town and transportation options to get to campus including carpools. Educational programs are desinged by the center to meet the needs of students living off campus. Much of the general information is posted to the website at <u>www.uakron.edu/offcampus</u>. For additional information students may stop in for asssistance during posted hours or reach the center by phone at (330) 972-5500.

Student Judicial Affairs

Student Judicial Affairs is the department that receives and reviews referrals that allege violations of the University's <u>Code of Student Conduct</u>. The University of Akron has the responsibility to protect the rights, health and safety of our academic community and to ensure that the members of our community may pursue their educational goals without undue interference. The development and enforcement of standards of conduct for students is an educational endeavor, which fosters students' personal and social development. Students are expected to abide by applicable federal, state, and local laws and may be held accountable for any violations in which they are involved. Confidentiality is maintained and records of proceedings are released in accordance with the Family Educational Rights and Privacy Act (FERPA). All hearings follow written procedure and respect the rights of the individuals involved. By becoming familiar with the definition of student misconduct, students can be aware of their rights and responsibilities as a student at The University of Akron and have a successful, rewarding experience.

Students are advised to become aware of the disciplinary procedures published in the University Rules and Regulations Concerning Campus Conduct and Student Discipline Procedures (<u>Code of Student Conduct</u>). The <u>Code of Student Conduct</u>, can be accessed by visiting <u>www.uakron.edu/sig</u> or visiting Student Judicial Affairs, Student Union 216. For more information regarding the Code of Student Conduct, please contact Student Judicial Affairs at sja@uakron.edu or (330) 972-6380.

Campus Safety and Security Information

Safety and Security

This information is provided as part of The University of Akron's commitment to safety and security on campus and is in compliance with the Federal Crime Awareness and Campus Security Act of 1990.

The Campus

The University employs many people to keep the campus safe and secure. The Division of Public Safety provides for student and employee safety and security through the departments of University Police and Environmental and Occupational Health and Safety. The Division of Student Engagement and Success is responsible for security and safety policies governing residence halls, fratemities, and sororities and for teaching students about security and crime prevention.

It is the intent of the University to continue and enhance current safety and security education and awareness programs throughout the year. The purpose of these programs is to assure that the campus community frequently receives information and instruction on University crime and safety policies and procedures, and on drug and alcohol control and prevention.

A safe campus can be achieved only with the cooperation of the entire campus community. The University hopes students will read and become familiar with this material and be responsible for their own safety and the security of others.

University Police

Campus law enforcement is primarily the responsibility of The University of Akron Department of Police. University police provide 24-hour-a-day patrol protection to the campus, parking lots, residence halls, and on-campus fraternity and sorority houses. The police station is located in the Physical Facilities Operation Center at the corner of Hill and South Forge streets and is staffed 24 hours a day. The University's 44 police officers are fully commissioned by the State of Ohio and have full law enforcement authority identical to municipal police officers and sheriff's deputies. The UA Police Department works closely with the Akron Police Department and other law enforcement agencies. Reports are exchanged every business day so that both agencies receive pertinent information. Information is shared through personal contacts and by phone and radio. University and City of Akron police regularly work together at large campus events such as athletic competitions and dances.

UA Police officers have met or exceeded the training standards of the Ohio Peace Officers Training Council. They also receive ongoing in-service and specialized training in first aid, CPR, firearms, defensive tactics, legal updates, and other skills.

UA Police officers enforce laws regulating underage drinking, the use of controlled substances, weapons, and all other incidents requiring police assistance. They also are responsible for public safety services such as crime reports, medical emergencies, fire emergencies, and traffic accidents.

Incidents which may not rise to the level of a violation of law are referred to Student Judicial Affairs. The Code of Student Conduct explains the University's disciplinary process and is available through Student Judicial Affairs.

It is the goal of every member of the University Police Department to promote, preserve, and deliver feelings of safety and security through quality services to the members of the University community.

Drug and Alcohol Prevention

The issue of drug and alcohol abuse concerns the entire University community as well as our surrounding neighborhoods. The federal *Drug Free Schools and Communities Act Amendments of 1989* require schools, colleges, and universities receiving federal financial assistance to implement and enforce drug and alcohol prevention programs for students and employees.

The University of Akron prohibits the illegal use, possession, sale, manufacture, or distribution of drugs and alcohol by all students and employees on University premises or as part of any University activity. Any misuse of substances by University students and employees that presents physical or psychological hazard to individuals also is prohibited.

It is the responsibility of The University of Akron to adopt and implement a drug prevention program for its students and employees. The University as an institution, and each of us as individuals, must eliminate the use of illicit drugs and alcohol that contribute to the unrecoverable loss of time, talent, and lives.

Crime Prevention

Through the Office of Community Policing/Crime Prevention, University police officers provide educational programs to students and employees on personal safety,

sexual assault/ acquaintance rape prevention, drug and alcohol abuse prevention, and related topics. The University Police Department welcomes the chance to talk with any campus group. Candid dialogue between UA Police and the public has created greater confidence in the community to report unlawful activities. These programs are scheduled when requested.

Potential illegal actions and on-campus emergencies can be confidentially reported by any student, faculty, or staff member. Complaints received by UA police which fall outside their jurisdiction will be referred to the appropriate agency, or the complainant will be provided a phone number where the complaint can be filed. Likewise, other agencies refer complaints to University Police when appropriate. The University Police encourage prompt reporting of crimes.

Security considerations in maintenance are a high priority.

Police officers patrol parking lots 24 hours each day. UA police also offer assistance to motorists with battery jumps, inflating tires, unlocking vehicles, and obtaining fuel.

To request nonemergency assistance, call extension 2911. To schedule an appointment for an educational program, call extension 2911.

For emergencies, dial 911 from any campus telephone or (330) 972-2911 from a cell phone.

Student Campus Patrol

A student escort service operates 5 p.m. to 2 a.m. during the fall and spring semesters and from 5 p.m. to midnight during summer sessions. By calling extension 7263, an escort will come to the student's location and accompany him/her to any campus building or parking lot.

Employed and trained by The University of Akron Police Department, the campus patrol teams are easily identified by labeled blue jackets or maroon shirts. These teams assist the University police in patrolling campus parking lots and other campus areas and report suspicious individuals or activities directly to the police dispatch center.

Emergency Phones

Yellow or red emergency phones are directly connected to the UA Police Department. These phones are strategically located throughout campus pedestrian walkways and inside parking decks. Police respond to the activation of any emergency phone receiver, even if no words are spoken.

Outdoor security phones are at the main entrances of all campus residence halls. UA Police and other campus numbers can be dialed on these phones.

If using an off-campus phone, dial 330-972 before the campus extension.

Campus Buildings

Most University academic facilities are open to the public from 7 a.m. until the latest evening classes let out. Administrative buildings are generally locked at 6 p.m. When the University is closed, all buildings are locked and may be opened only by authorized personnel.

Health and Safety

Members of the Department of Environmental and Occupational Health and Safety routinely inspect the campus for environmental and safety concerns. The Department of Physical Facilities maintains University buildings and grounds and regularly inspects facilities and promptly makes repairs to ensure safety and security. University Police work with both units to respond to reports of potential safety and security hazards, such as broken windows and locks. UA police also work with physical facilities per sonnel to help maintain adequate exterior lighting and safe landscaping practices.

Personal Responsibility

The cooperation and involvement of students, faculty, and staff in any campus safety program is absolutely necessary. All must assume responsibility for their own safety and security of their property by following simple, common sense precautions. For example, although the campus is well-lighted, everyone should confine their movements to well-traveled areas. There is safety in numbers, and everyone should walk with a companion or with a group at night. Valuables should be marked with a personal identification number in case of loss or theft. Bicycles should be properly secured when not in use. Automobiles should be locked at all times. Valuables and purses should never be lying in view in a car but locked in the car trunk for safe keeping. Protect your identity and personal information.

Crime Statistics

The University of Akron Police Department complies with reporting standards set by the United States Department of Education guidelines. Our crime statistics can be found at our police department website, <u>www.uakron.edu/safety/annual-safetyreport/crime-statistics.dot</u>. A hard copy of crime statistics can be obtained at The University of Akron's Police Department located at 146 Hill St., Akron, OH 44325-0402.

EMERGENCY PHONE NUMBERS

Call exten	ision 911 o	n campus to reach UA	A police immediately.
Police .			2911
~			

Campus Patrol	7263
(Police Nonemergency)	2911
Environmental and Occupational Health and Safety	6866
Fire	911
EMS/Medical	911
EMS/Medical	
	7415

Emergency numbers are monitored 24 hours a day. If calling from an off-campus phone, dial 330-972 and then the four-digit number you wish to reach. Use 911 for emergencies when dialing from all campus extensions.

Graduate School

George R. Newkome, Ph.D., *Vice President for Research and Dean* Mark B. Tausig, Ph.D., *Associate Dean*

OBJECTIVES

The purpose of the Graduate School is to provide a quality program of education by the following means:

- · Advanced courses in various fields of knowledge beyond the baccalaureate level.
- Opportunities to develop and apply research techniques and to use the resources appropriate to various graduate programs.
- Advancement of student's knowledge for the benefit of mankind through the efforts of its faculty and students.

Nature of Graduate Education

The Graduate School provides a qualified student with education which may be required for the full development of scholarly and professional capacities, subject to the criteria developed by graduate departments.

Graduate education involves the extension of knowledge. However, it is by no means a mere continuation of undergraduate study. At its best, graduate education is characterized by an able and enthusiastic advanced student who joins faculty leaders to form a community of scholars dedicated to the common pursuit of truth. Critical analysis, independence of thought, originality of method, intensity of purpose, freedom from bias, thoroughness of inquiry, keenness of perception and vital creativity combine to produce in the successful student both the professional competence and the breadth of understanding essential to leadership in many areas of human endeavor.

History of the Graduate School

Graduate study began a few years after Buchtel College opened its doors, and the first earned master's degree was conferred in 1882. The College of Education awarded its first master's degree in 1924, the Colleges of Engineering and Business Administration in 1959, the College of Fine and Applied Arts in 1967 and the College of Nursing in 1979. The School of Speech-Language Pathology and Audiology (previously the Department of Speech and later, the School of Communica-tive Disorders), now housed in the College of Health Professions, was formerly a part of the Buchtel College of Arts and Sciences and conferred a master's degree in 1963. The first earned doctoral degrees were conferred in 1959. Professor Charles Bulger was appointed first dean of graduate work in 1933, and he continued in that capacity until 1950. Professor Ernest H. Cherrington, Jr. served as director of graduate studies from 1955 to 1960 and as dean of the Graduate Division from its establishment in 1960 to 1967. Dr. Arthur K. Brintnall was appointed dean of Graduate Studies and Research in 1967, being succeeded in 1968 by Dr. Edwin L. Lively. Dr. Claibourne E. Griffin succeeded Dr. Lively in 1974 and served in that capacity until 1977. Dr. Joseph M. Walton, associate dean of Graduate Studies and Research, was administrative head of the Graduate School during the 1977-78 academic year. Dr. Alan N. Gent was appointed dean of Graduate Studies and Research in 1978 and served in that capacity until 1986. Dr. Joseph M. Walton served as acting dean of Graduate Studies and Research from 1986 until 1989. In 1989 Dr. Patricia L. Carrell became dean of the Graduate School. Dr. Charles M. Dye was named interim dean in 1993 and became the dean of the Graduate School in 1995 until his retirement in July 2000. Dr. George R. Newkome was appointed Vice President for Research and Dean of the Graduate School in January 2001.

The administrative functions of the Graduate School include establishment of suitable entrance requirements, admission of qualified students, maintenance of highquality instruction and approval of graduate requirements for advanced degrees.

Graduate Programs

A qualified student who has completed the baccalaureate program with sufficiently high grades may continue studies through the University's Graduate School in a program leading to the master's degree as well as to the doctoral degree. An undergraduate student who qualifies may enroll in certain graduate-level classes and apply the credits earned to the total required for the baccalaureate degree. To receive graduate credit for the courses, however, the student must first be admitted to the Graduate School.

The Graduate School offers programs of advanced study leading to the degree of Doctor of Philosophy in chemistry, counseling psychology, elementary education, engineering (biomedical, chemical, civil electrical, engineering applied mathematics, mechanical, and polymer), guidance and counseling, history, integrated bioscience, nursing, polymer science, psychology, secondary education, sociology, and urban studies and public affairs. The Doctor of Philosophy programs in nursing and sociology are joint programs with Kent State University. The Doctor of Audiology (Au.D.) Program is a joint degree program administered by The University of Akron and Kent State University. The Doctor of Philosophy program in urban studies and public affairs (admissions currently suspended) is a joint program with Cleveland

State University. Further, the school also offers programs of study leading to master's degrees with majors in diverse areas as delineated in the following pages.

Several departments offer a limited amount of work which may be taken on the graduate level. Such courses may supplement the major program of study for students who do not wish to devote their entire attention to one field.

Graduate Faculty and the Graduate Council*

The graduate faculty is comprised of those members of the faculty who hold appointments at the rank of assistant professor or above and teach graduate courses, supervise theses and dissertations and are generally responsible for the content in the graduate programs at the University. They are appointed by the dean of the Graduate School after recommendation by the department, college dean and Graduate Council. Guidelines for recommendation and appointment include the followinc:

- · quality and experience in upper-level and graduate-level teaching,
- · possession of terminal degree in field,
- · scholarly publication record,
- · activity in research, and
- activity in profession or discipline.

The purpose of the graduate faculty is to encourage and contribute to the advancement of knowledge through instruction and research of highest quality, and to foster a spirit of inquiry and a high value on scholarship throughout the University.

The graduate faculty recommends a student who has been nominated by the student's college faculty for the appropriate master's or doctoral degree.

Graduate Council is elected by the graduate faculty. Membership in the council presently includes two members from the College of Engineering, two members from the College of Business Administration, two members from the College of Education, five members from the Buchtel College of Arts and Sciences, two members form the College of Health Professions, one member from the College of Polymer Science and Polymer Engineering, and one student member elected yearly by the Graduate Student Council. Members serve three-year terms and may not succeed themselves. The dean of the Graduate School serves as chair of both the graduate faculty and the Graduate Council.

The functions of the council include examination of proposed graduate programs and course offerings, recommendation of policy for all phases of graduate education, recommendation of persons for membership in the graduate faculty and advising and counseling the dean in administrative matters.

*An exclusive listing of graduate faculty and Graduate Council can be found in the "Directory" of the Graduate Bulletin.

Graduate Student Government

All registered graduate students at the University are constituents of the Graduate Student Government (GSG). The government council consists of elected representatives from each of the graduate departments, an executive board of officers, and a faculty advisor.

The objectives of GSG are to govern graduate student affairs, represent graduate student sentiment, and promote interdepartmental social exchange and interaction between students. These objectives are met by appointing members to participate in various administrative committee meetings, such as the Faculty Senate, Graduate Council and Board of Trustees meetings.

Anyone wishing more information or anyone who wants to air a complaint, problem or suggestion concerning graduate students may contact the Graduate School or attend the GSG meetings, where all graduate students are welcome.

SECTION 2. General Information

REGULATIONS

Student Responsibility

A student assumes full responsibility for knowing the regulations and pertinent procedures of the Graduate School as set forth in this *Bulletin*. Normally, the degree requirements in effect at the time a student is admitted to a program will apply through graduation. However, if existing programs are revised, the student has the option of pursuing the revised program as long as all requirements in the revised program are met. Additional information pertaining to programs can be obtained from the appropriate department chair.

Admission

Every person who desires to enroll in or audit any graduate credit course must be first admitted or approved by the Graduate School.

Online applications for admission to the Graduate School should be submitted electronically at least six weeks (domestic) and six months (international) before the start of the term for which admission is sought in order to allow adequate time for complete processing. Some programs have earlier deadlines. Applicants should contact the departments for more detailed application information. Information on graduate programs, including application deadlines, is available on the Graduate School website at http://www.uakron.edu/gradsch.

First-time applications to the Graduate School must be accompanied by an application fee. The fee for **domestic** students is \$40. The fee for **international** students is \$60. A fee of \$40 must accompany all domestic and international reapplications. Applications fees are not refundable under any circumstance.

An official transcript from each college or university attended must also be received by the Graduate School before the application will be processed. This applies to the complete academic record, both undergraduate and graduate. Transcripts should be sent from the institutions attended directly to the Graduate School. The applicant is responsible for seeing that the above conditions are met by the deadlines for filing applications.

All documentation submitted to the Graduate School becomes the permanent property of The University of Akron. The Graduate School converts all documentation into an electronic file. After the document is converted into an electronic file the hard copy document is destroyed, and, as a result, the Graduate School is not able to provide and/or return original documentation to any applicant.

An offer of admission may only be made to an applicant who meets all admission requirements. It must be recognized that staff, facilities, and other resources are limited, so the number of students accepted will vary among departments and from term to term. An accepted applicant may begin graduate work in the fall, spring or summer semester. The offer of admission is void, however, if the applicant does not register for and attend courses within one year from the semester for which admission was granted. An individual whose offer of admission has lapsed must submit a new application along with the reapplication fee to be reconsidered.

The student is admitted only for the purpose or objective stated on the application for admission. A new request for admission must be filed when the original objective has been attained or when the student wishes to change objectives. The admitted status terminates when the time limits have been exceeded or other conditions for continued admitted status have not been met.

No student will be admitted without approval and acceptance by an academic department within the University, but admission to a department does not necessarily imply candidacy for any graduate degree program in that department. Admission for graduate study in any program can only be granted by the Dean of the Graduate School and the staff of that office.

Admission Validity

An applicant is admitted for the term for which he/she seeks admission as indicated on the graduate application. Admission for graduate studies is valid for one year, thus an applicant is provided the option of deferring admission to a later semester within the one year timeframe. The offer of admission is void, however, if the applicant does not register for courses within the one year from the semester of admission. This does not apply to admission to those programs that admit for the fall semester only. Admission to such programs is only valid for that fall term for which admission was granted.

An applicant who is admitted for a given term and then seeks to have that term of admission made retroactive will be required to submit a reapplication to Graduate School along with a fee of \$25. There is no guarantee that the academic department will approve admission for retroactive term changes.

Nonaccredited American School Graduates

A student holding a baccalaureate degree from a non-accredited American college or university, is required to complete at least 10 semester credits of postbaccalaureate work at a 3.00 level before being considered for admission to the Graduate School. The accreditation status of the school at the time of the student's graduation shall apply. A student should consult with the department chair in the major field to develop a postbaccalaureate program.

Transfer Students

A graduate student matriculated in the Graduate School of another college or university who wishes to transfer to The University of Akron to continue graduate education must be in good standing at the other school.

Entrance Qualifying Examinations

The use of examinations to determine admissibility to enter a graduate program or eligibility to continue in one is the prerogative of the departments offering graduate programs. The department has the right to select the examination and minimum acceptable level of performance. Information and procedure may be obtained from the chair of the appropriate department.

Classification

All students are identified by the Graduate School as being in one of the following categories. Any change must be arranged through the Graduate School.

- Full Admission may be given to any applicant who desires to pursue a graduate degree and has a baccalaureate degree from an accredited college or university with an overall grade-point average of 2.75 or better or 3.00 for the last two years (64 semester credits or equivalent); or holds an advanced degree from an accredited college or university in or appropriate to the intended field; or holds a baccalaureate or master's degree from a foreign college or university with first-class standing or its equivalent, plus satisfactory evidence of competence in English. Full admission may also be granted to applicants to the College of Business Administration who meet the college's admission requirements.
- Provisional Admission may be granted to a person who has not met all of the requirements for full admission (2.74-2.5 overall GPA or 2.75 over the last two years). This admission status permits a student to take up to 15 semester credits of graduate coursework. Graduate courses taken under this admission status may be applied to a graduate degree program, but only when all requirements for *full admission* have been met.
- Deferred Admission may be granted if the applicant's record does not meet provisional admission standards. After completion of a postbaccalaureate program of study, with an appropriate GPA, as prescribed by the department (usually two to five courses), the student may be reconsidered for provisional admission to the Graduate School. Graduate-level coursework cannot be taken by a student under the *deferred* admission status.
- Conditional Admission may be granted to a person who has not yet attained the required proficiency in English. This proficiency can be demonstrated by an official TOEFL score of at least 550 on the paper-based TOEFL or 213 on the computer-based TOEFL, or 79 on the internet-based TOEFL, or by the successful completion of courses offered by the University's English Language Institute (ELI). Students may not enroll in graduate courses until the English proficiency requirement has been satisfied. Note: Some academic departments require higher TOEFL scores.
- Non-Degree Admission may be granted to a person who wishes to take particular courses but who is not working toward a graduate degree. This admission status permits a student to take unlimited credits of graduate coursework. Graduate courses taken under this admission status may be applied later to a graduate degree program, but only when all requirements for *full* admission have been met.
- Special Workshop status is for a person permitted to take workshops for graduate credit without being admitted to Graduate School. Such permission is granted by the workshop director upon receipt of a signed statement of possession of a baccalaureate degree by the applicant, and terminates upon completion of this workshop. A student admitted to special workshop status must apply through regular channels for any other category. A maximum of six workshop credits may be applied to degree work at a later date if the applicant is given *full admission* to the Graduate School.
- Transient status may be given to a person who is a regularly enrolled graduate student in good standing in a degree program at another accredited university and has written permission to enroll at The University of Akron. Such permission is valid only for the courses and semester specified, with a maximum of 10 semester credits allowable, and is subject to the approval of the instructor, department chair and Graduate School. A transient student is subject to the same rules and regulations as a regularly enrolled student of the University.
- Undergraduate status is for an undergraduate student at the University who may be granted permission to take one or more graduate-level courses if all the following conditions are met.
- senior standing (at least 96 credits completed);
- overall grade-point average of 2.75 or better through preceding term (if a student does not have a 3.00 or better in the major field, special justification will be required from the department);
- written approval is given by the instructor of the course and the student's advisor.

These courses may later be applied to a degree program if not used to satisfy baccalaureate degree requirements. The maximum number of graduate credits that may be taken by an undergraduate and applied later toward a graduate degree is 12. Graduate tuition and fees will be charged for all graduate courses taken by an undergraduate.

- Academic Probation status refers to any student whose cumulative graduate grade point average falls below 3.00 and is no longer in good academic standing. Full-time students placed on academic probation are expected to return to good academic standing (overall GPA of 3.00 or above) after two consecutive semesters (excluding summers). Part-time students are expected to return to good academic standing (overall GPA of 3.00 or above) within the attempting of 15 additional graduate credits. Failure to return to good academic standing may result in academic dismissal.
- Academic Dismissal status refers to any student who fails to make satisfactory
 progress toward declared goals or who accumulates six semester credits of "C+"
 or below. The accumulation of six semester credits of "F" will result in mandatory
 dismissal. A student who is dismissed from the Graduate School may not be readmitted for one calendar year and then only if evidence for expecting satisfactory
 performance is submitted and found to be acceptable.
- · Postdoctoral status is divided into three categories:
 - a Fellow is a person holding an earned doctorate who is engaged in advanced research. A fellow shall be considered a guest of the University and provided space and use of facilities within limits of practical need of the undergraduate and graduate programs. Tuition and fees shall be collected if allowed under sponsoring contract for any courses the fellow may choose to take;
- a Special is a person holding an earned doctorate who desires an additional graduate degree. A special may be admitted to any program upon submission of application forms, application fee (if new student) and an official transcript from the institution awarding the doctorate. This student will be treated as a regular student subject to registration fees and program degree requirements;
- a Guest is a person holding an earned doctorate who desires to attend courses and seminars relevant to individual work or interest without registering or receiving grades. A written application should be submitted to the dean of the Graduate School for each course to be taken, and approval of the instructor, department chair and college dean shall be obtained. A guest is welcome to register for any course or seminar provided space is available. Normally, space and facilities for research cannot be provided for a postdoctoral guest but special requests will be considered. Requests should be submitted, in writing, to the dean of the Graduate School who will review such requests with the appropriate college dean and department chair.

Sixty-Plus (60+) Program

Developed in accordance with State Law 3345.27, passed in 1976 and amended in March 1999, the Sixty-Plus Program provides residents 60 and older the opportunity to audit credit classes or take courses for credit on a space-available, non-tuition basis.

To qualify for the Sixty-Plus Program, the prospective student must be 60 years of age or older and have resided in the State of Ohio for at least one year.

Sixty-Plus students are exempt from payment of tuition and general service fees but are expected to pay for any books, special fees, laboratory or instructional fees and parking, if needed. Auditing allows students to attend classes, but college credit is not awarded.

Sixty-Plus participants may enroll for 11 or fewer credits unless request to enroll in a greater number of credits is approved by the Senior Vice President and Provost. Participants in this program may be prohibited from enrolling in certain courses or classes for which special course or training prerequisites apply or in which physical demands upon students are inappropriate for imposition upon persons 60 years of age or older, or in which the number of participating regular students is insufficient to cover the University's or college's course-related expenses as determined by the University.

Space availability is determined after the degree-seeking students have registered. Sixty-Plus registrations are held immediately before the start of each term and participants must register in-person.

Sixty-Plus participants are subject to the same disciplinary and/or governance rules affecting all students.

A Sixty-Plus student will be issued a Student ID Card which will permit them to use specific University facilities and services and obtain student rates for purchases of goods and services.

To be eligible to enroll in a course for credit, the student's family income must be less than 200 percent of the Federal poverty guidelines as revised annually by the U.S. Secretary of Health and Human Services for a family size equal to the size of the family of the person whose income is being determined.

Course Load

A full load of coursework at the graduate level is normally 9-15 semester credits including audit. Full-time status is defined as a minimum of 9 semester credits; or as defined by the Internal Revenue Service for those students with graduate assistantships.

Registration

The responsibility for being properly registered lies with the student, who should consult with the assigned advisor in preparing a program of courses and/or research. A schedule of courses, hours, class location and registration procedures is obtainable from the registrar.

Cross Registration

Under specific circumstances a graduate student may take one or more graduate courses at Cleveland State University, Kent State University, The University of Akron, Ohio University, or Youngstown State University without registering as a transient student. The course for which a student wishes to register should contribute to the student's program of study and be unavailable when needed to complete the student's program at the home institution. The student must be in good standing (GPA>3.0) and within the time limits for degree completion. The graduate program unit at the student's home institution will establish a graduate special topics or independent study course identification capable of being "tagged" by the home university with a title that will correspond to the course title at the host university and with the initials of that university; i.e. CSU, KSU, or YSU. Registration for such a course is controlled by the home department and will be permitted only upon receipt of an approved Cross Registration form. Cross Registration forms can be obtained online at http://www.uakron.edu/gradsch/current-students/currforms.dot.

Financial Assistance

The University awards a number of graduate assistantships to qualified students. These assistantships provide stipends of \$6,000 to \$22,000 plus remission of tuition and some fees and are available in all departments with graduate degree programs. A graduate assistant renders service to the University through teaching and/or research. For information and applications, contact the department chair or school director. Partial tuition scholarships may be available for first-time graduate students on a limited basis.

A number of fellowships sponsored by industry and government agencies are available in some departments. For information, contact the chair of the department.

Information about student loans can be obtained from the Office of Student Financial Aid.

Additional information concerning financial aid policies is available in the *Graduate* Assistant Handbook which can be obtained online at <u>http://www.uakron.edu/grad-sch/current-students/</u>.

International Students

The University of Akron welcomes international students and seeks to make their educational experience pleasant and meaningful. Currently, more than 1,000 international students and scholars from 90 countries pursue studies and research at The University of Akron.

Admission

International students may apply to begin their graduate studies for the Fall, Spring, or Summer Sessions. Students should submit their applications at least six months in advance of the date they wish to begin studying. Graduate students applying for assistantships should submit applications nine months before the term begins for best consideration. The following procedures should be followed:

- Access the online graduate application through the Graduate School website at <u>http://www.uakron.edu/gradsch</u>. A nonrefundable application fee of \$60 must also be submitted.
 - An official transcript and degree from all institutions and universities attended. Original records in languages other than English must be accompanied by exact English translations and certified by the school, U.S. consulate, or other legal certifying authority.
- Proof of adequate financial support. An international student should submit to the Office of International Programs, The University of Akron, Polsky Building, Room 483, Akron, OH 44325-3101, the Declaration and Certification of Finances (DCF) and an original statement from the bank showing availability of sufficient funds to cover the cost of the first year of study. The Office of International Programs will prepare the Certificate of Eligibility (*I-20A/B or DS-2019*) upon receipt of adequate financial support and admission to the University.
- International applicants, U.S. citizens, and Permanent Residents whose native language is not English must submit evidence that they have a sufficient level of English to undertake graduate studies at The University of Akron.

After submitting acceptable academic credentials and proof of English proficiency, applicants who are fully admitted may enroll in graduate course work and be eligible for University of Akron-funded assistantships, fellowships, or scholarships. Prospective teaching assistants must achieve a passing score on the University of Akron Developed English Proficiency Test (the U-ADEPT), or a 23 or greater on the speaking component of the internet-based TOEFL. Visit <u>http://www3.uakron.edu/eli/UADEPT/uadept.index.html</u> for details about U-ADEPT.

Applicants to graduate programs can demonstrate their English proficiency in one of these ways:

 A minimum score of 550 on the paper-based Test of English as a Foreign Language (TOEFL) or 213 on the computer-based TOEFL or 79 or higher on the internet-based TOEFL. (The following departments require a higher standard of proficiency: the Ph.D. program in Sociology requires a TOEFL of 577/233/90-91; the Ph.D. program in Urban Studies and Public Affairs requires a TOEFL of 570/230/88; English and History require a TOEFL of 580/237/92; and Biomedical Engineering requires a TOEFL of 590/243/96.) Scores more than two years old will not be accepted. See http://www.toefl.org for information about the TOEFL.

or

– A minimum score of 6.5 on the International English Language Testing System (IELTS), which is managed by University of Cambridge ESOL Examinations, British Council, and IDP Education Australia. Scores more than two years old will not be accepted. See <u>http://www.ielts.org/</u> for information about the IELTS.

or

- Successful completion of a full course of study in the Advanced Level of the English Language Institute (ELI) at The University of Akron. The ELI is an intensive (20 hour a week) program in English for academic purposes. The Advanced Level course of study is offered every Fall, Spring, and Summer according to the university's academic calendar. For details about successful completion and about applying to the English Language Institute, see http://www.uakron.edu/eli.

or

– Successful completion of 24 credit hours of upper-level undergraduate or 18 credit hours of graduate course work at a U.S. university or college in which English is the primary language of instruction. Successful completion is defined as maintaining a 3.0 GPA in full-time, continuous studies. Applicants must submit original transcripts of their course work.

or

– Successful completion of an undergraduate or graduate program at a university outside the United States in which English is the language of administration and instruction. English must be used for all administrative functions and for all areas of instruction (with the exception of foreign language courses) including course lectures, materials, discussions, readings, and writing assignments. Applicants must submit an original official document from the undergraduate or graduate institution certifying that all of the administrative functions and instruction are conducted in English. The document must be signed by an officer of the institution and carry an official seal. The Associate Dean of the Graduate School at The University of Akron will review the submitted documentation and inform the applicant if he or she has satisfied the English requirement. The decision will be final.

Costs, Financial Aid, and Medical Insurance

Information on estimated expenses for international graduate students on F-1/J-1 visas can be found on the form "Declaration and Certification of Finances" (DCF), which can be downloaded at http://www.uakron.edu/oip/immigration/forms.dot. Annual tuition and living expenses for the 2013-2014 academic year will be approximately \$30,000. Tuition is subject to change.

Graduate students may request financial aid through fellowships and graduate assistantships. More detailed information can be found on the Graduate School website.

The University of Akron requires that all international students and visiting scholars and researchers who are taking classes purchase major medical health insurance. J visa holders are also required to purchase catastrophic insurance for themselves and each dependent and/or spouse living with them in the United States. Students are required to purchase The University of Akron Student Health Plan unless they have an alternate health plan that meets the requirement for a waiver: government-sponsored, scholarship, or parental employer coverage.

Immigration Information for Graduate Students on F-1/J-1 Visas

Information on estimated expenses for international graduate students on F-1/J-1 status can be found on the "Declaration and Certification of Finances" (DCF) Form, which can be downloaded at http://www.uakron.edu/oip/immigration/forms.dot Before the Certificate of Eligibility(I-20 or DS-2019) can be issued the DCF Form must be completed and returned to the Office of International Programs along with financial documentation as specified on the form and a copy of the biographical page of the passport. The DCF form also indicates the additional cost for an F-1 or J-1 student's dependents should they accompany or join the student at The University of Akron. Students who bring dependents must also submit a copy of the biographical page of the passport of each dependent. According to U.S. government regulations, financial documents must demonstrate that the student has enough funds immediately available to meet all expenses of the first year of the program, and that adequate funding will be available for each subsequent year of study. Documents must be dated within one year from the start date of the student's program.

Once the student has been admitted he/she must submit the DCF form, a copy of their passport, and financial documents to the Office of International Programs. After all documents are approved the Office of International Programs will issue the Certificate of Eligibility (I-20 or DS-2019) which is required for a student to apply for an F-1 or J-1 visa. A Certificate of Eligibility (I-20 or DS-2019) will not be issued for online programs which do not require the student's physical presence on The University of Akron campus.

Astudent on an F-1 or J-1 status transferring to The University of Akron from another U.S. college/university, without leaving the U.S., will be eligibile for transfer only if he/she maintains valid nonimmigrant status. The I-20 or DS-2019 will be issued upon submission of the documents proving valid status, meeting the requirements mentioned above, and the release of the SEVIS record to The University of Akron. A new I-20 or DS-2019 must be obtained before the student begins his/her program at The University of Akron.

International Student Orientation

The required International Student Orientation takes place one week before Fall classes begin, one week before Spring classes begin, and the Friday before each summer session. Students beginning academic studies during the Summer semesters must attend Fall orientation. The cost is \$100 (cost subject to change). The fee will be automatically assessed to student's account during the first semester of enrollment.

International Transfer Credits

Transfer credit from foreign institutions is awarded at the discretion of the academic department with the final approval from the Graduate School. Transfer course work is only accepted from institutions that are recognized by the institution's governing academic body (i.e. Ministry of Education). The student must have earned a minimum of a "B" (or its equivalent) to be eligible for transfer credit.

Teaching Assistants

Applicants whose native language is not English and who expect to become teaching assistants are also required to achieve a minimum score of "Pass" on the U-ADEPT or a 23 or greater on the speaking component of the internet-based TOEFL. This exam must be taken prior to functioning as a teaching assistant. Those for whom English is the native language and who expect to become a teaching assistant must demonstrate proficiency in English through departmental certification. Neither English proficiency testing nor departmental certification is required for research, instructional support, or administrative assistants.

Note: International students are encouraged to contact the Office of International Programs directly with questions about housing, climate, insurance, or immigration regulations. Questions concerning degree programs should be directed to the appropriate academic department.

Grades

A student admitted to graduate study under any status at the University is expected to maintain a minimum 3.00 grade-point average (4.00="A") at all times. A minimum grade-point average of 3.00 is required for graduation. No more than six semester credits of "C+," and "C-" may be counted toward the degree. Grades of "D+," "D," and "D-" are treated as "F" grades. No grades below "C-" may be counted toward a degree.

Official academic records for graduate students are maintained with a grade-point system as follows:

Grade	Quality Points	Kou
		Key
A	4.0	
A-	3.7	
B+	3.3	
В	3.0	
B-	2.7	
C+	2.3	
С	2.0	
C-	1.7	
D+	0.0	
D	0.0	
D-	0.0	
F	0.0	Failure
CR	0.0	Credit
NC	0.0	No credit
AUD	0.0	Audit

The following grades may also appear on the term grade reports or on the official academic record. There are no grade points associated with these grades.

I – Incomplete: Indicates that the student has done passing work in the course but that some part of the work is, for good and acceptable reason, not complete at the end of the term. Failure to make up the omitted work satisfactorily by the end of the following term, not including summer sessions, converts the "I" to an "F." When the work is satisfactorily completed within the allotted time the "I" is converted to whatever grade the student has earned."

IP – In Progress: Indicates that the student has not completed the scheduled course work during the term because the nature of the course does not permit completion within a single term, such as work toward a thesis.

PI – Permanent Incomplete: Indicates that the student's instructor and the instructor's dean have for special reason authorized the change of an incomplete ("I") or an in progress ("IP") to a permanent incomplete ("PI").

WD – Withdraw: Indicates that the student registered for the course but withdrew officially sometime after the second week of the term.

NGR – No Grade Reported: Indicates that, at the time grades were processed for the present issue of the record, no grade had been reported by the instructor.

INV – Invalid: Indicates the grade reported by the instructor for the course was improperly noted and thus unacceptable for proper processing.

*If instructors wish to extend the "I" grade beyond the following term for which the student is registered, prior to the end of the term they must notify the Office of the Registrar in writing of the extension and indicate the date of its termination. It is the responsibility of the student to make arrangements to make up the incomplete work. The faculty member should submit the new grade to the Office of the Registrar in writing.

Academic Reassessment

A student who meets all the criteria described below may petition the Vice President for Research and Dean of the Graduate School to remove from his/her graduate cumulative grade point average all those grades earned under the student's prior enrollment at The University of Akron.

- Degree seeking graduate student
- · Previous graduate enrollment at The University of Akron
- Not enrolled at The University of Akron for at least five years prior to current enrollment
- Maintain a current graduate grade point average of at least 3.00 or better for the first 15 hours of re-enrollment credit
- If the student's petition is granted, the following will apply to the reassessment policy:
- · This policy only applies to the student's graduate grade point average.
- All University of Akron grades will remain on the student's official, permanent academic record (transcript); this process will affect the cumulative graduate grade point average only. It will not remove evidence/documentation of the student's overall academic history at the university.
- No grades/credits from the student's prior graduate enrollment at the university my be counted toward the subsequent degree program requirements. Degree requirements may only be met by courses included in the calculation of the student's cumulative graduate grade point average at The University of Akron. Thus, the student who successfully petitions for cumulative graduate grade point average recalculation under this policy automatically forfeits the right to use any of the excluded course work toward the current degree requirements.

A student may exercise this graduate reassessment option only once, regardless of the number of times the student enters/attends a graduate degree program at The University of Akron.

Repeating Courses

Any graduate course may be repeated once for credit; however, the degree requirements shall be increased by the credit hour value of each course repeated. The hours and grades of both the original and the repeated section shall be used in computing the grade-point average. Required courses in which a "D" or "F" was received must be repeated.

Audit Policy

A student choosing to audit a course must be admitted and indicate audit at the time of registration. The student pays the enrollment fee and may be expected to do all the work prescribed for students taking the course for credit, except that of taking the examination. Any faculty member may initiate withdrawal for a student not meeting these expectations.

Thesis and Dissertation Credits

Course number 699 will only be used for courses which indicate credit is being given for a master's thesis. 899 will only be used for courses which indicate credit is being given for a doctoral dissertation. No credit for 699 or 899 will be given unless the thesis or dissertation is completed.

Colloquia, Seminars and Workshops

Colloquium (credit/noncredit grading)–A course that normally involves guests, faculty or graduate students as speakers. The intent of the course is to introduce a broad range of topics using resource personnel. Normally, assignments are limited to class participation.

Seminar (letter grades)—A course that normally involves group discussion or other activities based on assigned material. Grades are awarded based on a combination of assignments, tests and class participation.

Workshop (credit/noncredit grading)–A course that normally operates over a shorter period than a semester or a summer session. Workshops focus on a particular aspect or aspects of a field of study, require a combination of assignments, tests and class participation, and may or may not be permitted to satisfy degree requirements.

Probation and Dismissal

Any student whose cumulative graduate grade-point average falls below 3.00 will be placed on probation and is no longer in good standing. In consultation with the college or department, as appropriate, the dean of the Graduate School will dismiss full-time students who do not return to good academic standing within two consecutive semesters (excluding summers) and part-time students who do not return to good academic standing within the attempting of 15 additional credits.

For the purpose of administration of the full-time and part-time provisions of this policy, full-time and part-time status are determined by the semester in which the student goes on probation. Full-time enrollment constitutes nine or more graduate credits; part-time is less than nine graduate credits.

The dean of the Graduate School, with the approval of the relevant department chair, may also dismiss anyone who fails to make satisfactory progress toward declared goals or who accumulates six semester credits of "C+" or below. The accumulation of six semester credits of "F" will result in mandatory dismissal.*

A student dismissed from the Graduate School for academic reasons may not be readmitted for one calendar year, and then only if evidence for expecting satisfactory performance is submitted and found to be acceptable.

*Grades of "D+," "D," and "D-" are treated as "F" grades. (See previous section on Grades.)

Commencement

Students must file an online application for graduation with the Office of the University Registrar after completion of one-half of the credits required for their degree program or by the following dates:

- March 1 for Spring Commencement
- June 1 for Summer Commencement
- October 1 for Fall Commencement

Students wanting to attend the commencement ceremony must visit the Office of the University Registrar website to respond to the ceremony.

Academic Dishonesty

Students at The University of Akron are an essential part of the academic community, and enjoy substantial freedom within the framework of the educational objectives of the institution. The freedom necessary for learning in a community so rich in diversity and achieving success toward our educational objectives requires high standards of academic integrity. Academic dishonesty has no place in an institution of advanced learning. The University community is governed by the policies and regulations contained within the *Code of Student Conduct* available at www.uakron.edu/sja, in Student Union 216, or by contacting Student Judicial Affairs at 330-972-6380 or sja@uakron.edu.

The University of Akron considers academic integrity an essential part of each student's personal and intellectual growth. Instances of academic dishonesty are addressed consistently. All members of the community contribute actively to building a strong reputation of academic excellence and integrity at The University of Akron.

It is each student's responsibility to know what constitutes academic dishonesty and to seek clarification directly from the instructor if necessary. Examples of academic dishonesty include, but are not limited to:

- Submission of an assignment as the student's original work that is entirely or partly the work of another person.
- Failure to appropriately cite references from published or unpublished works or print/non-print materials, including work found on the World Wide Web.
- Unauthorized copying of an assignment in computer programming, or the unauthorized examination or view of the computer, specifically during examinations.
- Possession and/or unauthorized use of tests, notes, books, calculators or formulas stored in calculators not authorized by the instructor during an examination.
- Providing and/or receiving information from another student other than the instructor, by any verbal or written means.
- · Observing or assisting another student's work.
- Violation of the procedures prescribed by the professor to protect the integrity of the examination.
- Cooperation with a person involved in academic misconduct.

An incident of academic misconduct may be resolved and a sanction assessed in a meeting between the faculty member and student. If the student and faculty member agree on the facts of the incident and the proposed sanction, the matter can be resolved informally. Prior to an informal resolution the faculty member shall confer with Student Judicial Affairs to determine whether any prior academic misconduct has occurred. If the student and faculty member disagree about the facts of the incident or the proposed sanction, then the matter shall be referred to Student Judicial Affairs. When the matter is referred to Student Judicial Affairs. When the matter is more likely than not that an academic misconduct violation has occurred the department will follow procedures that can be found in the Code of Student Conduct at www.uakron.edu/sja.

Graduate Student Grievance

Specific procedures are set forth that provide graduate students with a formal channel of appeal and redress of grievances arising out of their academic and/or employment relationship with the University. Discussion of these procedures can be found in the **Appendix** of this *Bulletin*.

Ohio Residency Requirements

Payment of a non-resident surcharge is required of any student who does not qualify as a permanent resident of Ohio as defined by Section 3333-1-10 of the Ohio Administrative Code.

- A. Intent and Authority
 - It is the intent of the Ohio Board of Regents in promulgating this rule to exclude from treatment as residents, as that term is applied here, those persons who are present in the state of Ohio primarily for the purpose of receiving the benefit of a state-supported education.
 - This rule is adopted pursuant to Chapter 119 of the Revised Code, and under the authority conferred upon the Ohio Board of Regents by Section 3333.31 of the Revised Code.

B. Definitions

For purposes of this rule:

- "Resident" shall mean any person who maintains a 12-month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state public assistance, and who may be subjected to tax liability under Section 5747.02 of the Revised Code, provided such person has not, within the time prescribed by this rule, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.
- "Financial support" as used in this rule, shall not include grants, scholarships, and awards from persons or entities which are not related to the recipient.
- 3. An "institution of higher education" shall have the same meaning as "state institution of higher education" as that term is defined in section 3345.011 of the Revised Code, and shall also include private medical and dental colleges which receive direct subsidy from the state of Ohio.
- 4. "Domicile" as used in this rule is a person's permanent place of abode so long as the person has the legal ability under federal and state law to reside permanently at that abode. For the purpose of this rule, only one (1) domicile may be maintained at a given time.
- "Dependent" shall mean a student who was claimed by at least one parent or guardian as a dependent on that person's internal revenue service tax filing for the previous tax year.
- "Residency Officer" means the person or persons at an institution of higher education that has the responsibility for determining residency of students under this rule.
- "Community Service Position" shall mean a position volunteering or working for: (a) VISTA, Americorps, city year, the peace corps, or any similar program as determined by the Ohio Board of Regents or (b) An elected or appointed public official for a period of time not exceeding twenty-four consecutive months.
- C. Residency for Subsidy and Tuition Surcharge Purposes

The following persons shall be classified as residents of the state of Ohio for subsidy and tuition surcharge purposes:

- A student whose spouse or dependent student, at least one of whose parents or legal guardian has been a resident of the state of Ohio for all other legal purposes for twelve consecutive months or more immediately preceding the enrollment of such student in an institution of higher education.
- 2. A person who has been a resident of Ohio for the purpose of this rule for at least twelve consecutive months immediately preceding his or her enrollment in an institution of higher education and who is not receiving, and has not directly or indirectly received in the preceding twelve consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.
- 3. A dependent student of a parent or legal guardian or the spouse of a person who, as of the first day of a term enrollment, has accepted full-time, self-sustaining employment and established domicile in the state of Ohio for reasons other than gaining the benefit of favorable tuition rates. Documentation of fulltime employment and domicile shall include both of the following documents:
 - a. A sworn statement from the employer or the employer's representative on the letterhead of the employer or the employer's representative certifying that the parent. legal guardian, or spouse of the student is employed full-time in Ohio.
 - b. A copy of the lease under which the parent, legal guardian, or the spouse is the lessee and occupant of rented residential property in the state; a copy of the closing statement on residential real property located in Ohio of which parent, legal guardian, or spouse is the owner and occupant; or if parent, legal guardian, or spouse is not the lessee or owner of the residence in which he or she has established domicile, a letter from the owner

- D. Additional criteria which may be considered by residency officers in determining residency may include but are not limited to the following
 - 1. Criteria evidencing residency
 - a. if a person is subject to tax liability under Section 5747.02 of the Revised Code;
 - b. if a person qualifies to vote in Ohio;
 - c. if a person is eligible to receive Ohio public assistance;
 - d. if a person has an Ohio driver's license and/or motor vehicle registration.
 - 2. Criteria evidencing lack of residency
 - a. if a person is a resident of or intends to be a resident of another state or nation for the purpose of tax liability, voting, receipt of public assistance, or student loan benefits (if the student qualified for that loan program by being a resident of that state or nation);
 - b. if a person is a resident of or intends to be a resident of another state or nation for any purpose other than tax liability, voting or receipt of public assistance (see paragraph (D)(2)(a) of this rule).
 - 3. For purposes of determining residency for tuition surcharge purposes at Ohio's state-assisted colleges and universities, an individual's immigration status will not preclude an individual from obtaining resident status if that individual has the current legal status to remain permanently in the United States.
- E. Exceptions to the general rule of residency for subsidy and tuition surcharge purposes
 - A person who is living and is gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who is pursuing a part-time program of instruction at an institution of higher education shall be considered a resident of Ohio for these purposes.
 - 2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
 - A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.
 - 4. A person who is transferred by his or her employer beyond the territorial limits of the 50 states of the United States and the District of Columbia while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile as long as such person has fulfilled his or her tax liability to the state of Ohio for at least the tax year preceding enrollment.
 - 5. A person who has been employed as a migrant worker in the state of Ohio and his or her dependents shall be considered a resident for these purposes provided such person has worked in Ohio at least four months during each of the three years preceding the proposed enrollment.
 - 6. A person who was considered a resident under this rule at the time the person started a community service position as defined under this rule, and his or her spouse and dependents shall be considered as residents of Ohio while in service and upon completion of service in the community service position.
 - 7. A person who returns to the state of Ohio due to marital hardship, takes or has taken legal steps to end a marriage, and reestablishes financial dependence upon a parent or legal guardian (receives greater than fifty percent of his or her support from the parent or legal guardian), and his or her dependents shall be considered residents of Ohio.
 - A person who is a member of the Ohio national guard and who is domiciled in Ohio, and his or her spouse and dependents, shall be considered residents of Ohio while the person is in Ohio national guard service.
- F. Procedures
 - A dependent person classified as a resident of Ohio for these purposes (under the provisions of Section C.1. of this rule) and who is enrolled in an institution of higher education when his or her parents or legal guardian removes their residency from the state of Ohio shall continue to be considered a resident during continuous full-time enrollment and until his or her completion of any one academic degree program.
 - In considering residency, removal of the student or the student's parents or legal guardian from Ohio shall not, during a period of twelve months following such removal, constitute relinquishment of Ohio residency status otherwise established under paragraphs C.1. or C.2. of this rule.
 - 3. For students who qualify for residency status under C.3. of this rule, residency status is lost immediately if the employed person upon whom resident student status was based accepts employment and establishes domicile outside Ohio less than twelve months after accepting employment and establishing domicile in Ohio.

- General Information 25
- 4. Any person once classified as a nonresident, upon the completion of twelve consecutive months of residency, must apply to the institution he or she attends for reclassification as a resident of Ohio for these purposes if such person in fact wants to be reclassified as a resident. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding twelve consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident. Evidentiary determinations under this rule shall be made by the institution which may require, among other things, the submission of documentation regarding the sources of a student's actual financial support.
- Any reclassification of a person who was once classified as a nonresident for these purposes shall have prospective application only from the date of such reclassification.
- 6. Any institution of higher education charged with reporting student enrollment to the Ohio Board of Regents for state subsidy purposes and assessing the tuition surcharge shall provide individual students with a fair and adequate opportunity to present proof of his or her Ohio residency for purposes of this rule. Such an institution may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under this rule.

Fees

All fees reflect charges in 2013-2014 and are subject to change without notice.

Application Fee (this fee is not refundable under any cire	cumstances)	
Domestic	\$40.00	
International	\$60.00	
Domestic Student Reapplication Fee	\$40.00	
International Student Reapplication Fee	\$40.00	
Retroactive Admission Term Request	\$25.00	
Retroactive Continuous Enrollment Requirement Fee	\$400.00/hr per semester	
(assessed to doctoral students who are not in compliance with the University's		
continuous enrollment policy requiring a minimum enrol	lment of at least one credit	

*Graduate Application Fee is deferred for federally funded TRIO program alumni.

hour for each fall and spring semester)

*Restitution for lost/stolen/damaged while in possession (max) is cost plus 20%

Other Fees

Course materials fees – assessed for selected courses to cover the cost of instructional materials. Consult the appropriate college, department, or school regarding specific course material fees for classes.

The University of Akron Developed English Proficiency Test (U-ADEPT)	\$125.00
Miller Analogies Test (Counseling, Testing, and Career Center)	\$90.00
Late payment fee	\$50.00

Financial Aid

Financial aid programs were developed by the federal and state governments as well as by institutions of higher education to assist students from families with limited resources to meet educational expenses. The primary purpose of financial aid is to ensure that no one is denied the opportunity of a college education because of financial need.

A graduate student who has already received a bachelor's degree can apply for the Federal Subsidized and Unsubsidized Stafford Loans. The Federal Pell Grant, Ohio Instructional Grant and Federal Supplemental Educational Opportunity Grant cannot be received. Postbaccalaureate students may only apply for Subsidized and Unsubsidized Stafford Loans.

To apply for the Federal Subsidized and Unsubsidized Stafford Loans, the student must complete and submit the Free Application for Federal Student Assistance (FAFSA) or the Renewal Application to Federal Student Aid Programs. Applications are available in January for the following school year. Applications can be completed on the World Wide Web at http://www.fafsa.ed.gov. Inquiries may be directed to the Office of Student Financial Aid, Simmons Hall, 330-972-7032 or 1-800-621-3847.

Payment Plan

A payment plan option is available to help those students who cannot pay full charges for tuition, on-campus housing, and/or the meal plan at the start of the semesters. Under the payment plan students agree to pay tuition and fees in installments over the semester. A down payment is required to start.

Detailed information on the Payment Plan can be found online at:

http://www.uakron.edu/student-accounts/payments_and_billing/payment-options.dot

Graduate Assistantships

Graduate assistantships may be available through various graduate degree-granting academic units. Graduate assistantships and other graduate awards are distributed to the colleges through the Graduate School; therefore, a student interested in a graduate assistantship should contact the appropriate academic department.

International Students

A student in the United States on a student or other temporary visa is not eligible for any state or federal financial aid. Application for scholarships, short-term loans, graduate assistantships, and some types of employment may be made.

Regulations Regarding Refunds

All fees are subject to change without notice. Students shall be charged fees and/or tuition and other fees in accordance with schedules adopted by the Board of Trustees. Students are advised to consult the website of the Office of Student Accounts/Bursar and this bulletin for tuition and fees. Registration does not automatically carry with it the right of a refund or reduction of indebtedness in cases of failure or inability to attend class or in cases of withdrawal. The student assumes the risk of all changes in business or personal affairs.

Fees Subject to Refund

- Ohio resident tuition and nonresident surcharge .
- · General service fee
- Facilities fee
- Technology fee
- Course materials fee
- Transportation fee (only if permit is returned)
- Library fee
- · Residence hall fees (note: subject to special policy)
- Meal plans (note: subject to special policy)
- Administrative fee (note: only with complete withdrawal)
- Career advantage fee
- Developmental programs support fee
- Engineering infrastructure fee

Amount of Refund

Amount of refund is to be determined in accordance with the following regulations:

- In full
 - if the University cancels the course;
 - if the University does not permit the student to enroll or continue except for disciplinary reasons. No refund will be granted to a student dismissed or suspended for disciplinary reasons;
 - if the student dies before or during the term; is drafted into military service by the United States; is called to active duty; or if the student enlists in the National Guard or Reserve prior to the beginning of the term. Notice of induction or orders to active duty is required if the student is called to active duty. A student who enlists voluntarily for active duty should see "in part" below.
- In part
 - all refund calculations are determined by class length percentage, not by class meetings completed or class meeting percentage. Class length is defined as the number of days between and including the beginning and ending dates of any given term/session (including weekend days and holidays). The standard fifteen-week fall/spring/summer semester percentages which apply are:

If 6.667% of class completed	100%
If 13.333% of class completed	70%
If 20% of class completed	50%
If 26.667% of class completed	30%
If 33.333% of class completed	20%
Greater than 33.333% of class completed	0%

Refunds for course sections which have not been scheduled consistent with the standard 15 week fall/spring/summer semester scheduling pattern will also be calculated on a pro rata basis according to the number of days of the section (class, institute, workshop) which has passed prior to official withdrawal compared to the number of days said section has been scheduled to meet.

Refunds will be determined as of the date of formal withdrawal unless proof is submitted that circumstances beyond control of the student, e.g., hospital confinement, prevented the filing of the official withdrawal earlier, in which case the refund will be determined as of the date of said circumstance. The student assumes responsibility for filing for a refund.

Refunds will be mailed as soon as possible. Refund checks are subject to deduction for any amount owed to The University of Akron by the student. Depending on the date of the withdrawal and the refund due, if any, a balance may still be owed on an installment payment plan contract.

No refund will be granted to a student dismissed or suspended for disciplinary reasons.

The University reserves the right to cancel a course for insufficient enrollment.

Amount of Refund - Noncredit Courses

If a noncredit course is canceled by The University of Akron, a full refund will be issued. Withdrawal requests received up to three business days prior to the first class meeting will result in a full refund, less a \$15 processing charge, or an opportunity to transfer to another course. Thereafter, withdrawal requests received up to the beginning of the second class meeting will receive a 50 percent refund. No refunds are issued after the start of the second day of classes.

Refunds for noncredit courses are determined by the date the withdrawal request is received. The refund period cannot be extended if the student fails to attend the first class. Charge cards and refund checks will be processed promptly. Parking permits must be returned to the Workforce Development and Continuing Education Office to receive a refund.

The University reserves the right to cancel a course for insufficient enrollment.

Payment of Tuition and Fees/Withdrawal

Tuition and fees for the semester are to be paid or arranged for payment on or before published due dates. Students who receive financial assistance should be aware that they may be responsible for fees. Students will be responsible for assuring that their personal accounts are up-to-date. Payment plans are available for those students who wish to spread payments over an extended period. Students with accounts that are not fully paid or properly arranged for payment by the end of the semester may be prevented from registering for subsequent coursework. If a student enrolls in classes and then decides not to attend, it is still the student's responsibility to drop his or her classes and to notify the University in order to prevent unnecessary charges.

SECTION 3. Academic Requirements

MASTER'S DEGREE REQUIREMENTS

Admission

When a student is admitted to graduate study, an advisor is appointed by the chair of the major department. A student who is academically qualified in general but deficient in course preparation may be required to make up the deficiencies at the postbaccalaureate level. This may be recommended prior to beginning graduate work, or in some cases, can be done simultaneously.

Residency Requirements

There are no formal residency requirements for the master's degree. A student may meet the degree requirements of the Graduate School and the department through either full- or part-time study.

Continuous Enrollment Requirement

There is no formal Graduate School continuous enrollment requirement for the master's degree. Individual master's programs, however, may require continuous enrollment. Students should consult their advisors about this requirement.

Time Limit

All requirements must be completed within six years after beginning graduate-level coursework at The University of Akron or elsewhere. Extension of up to one year may be granted in unusual circumstances by the Graduate School upon written request by the student and recommendation by the adviser, department head, and college dean.

Credits

A minimum of 30 semester credits of graduate work is required in all master's degree programs. This includes thesis credit. Some departments require more (see departmental requirements). A minimum of two-thirds of the total graduate credits required in any master's program must be completed at the University. A maximum of six workshop credits may be applied to a master's degree. Such credits must be relevant to the degree program, recommended by the student's advisor and approved by the dean of the Graduate School.

It should be noted that the requirements listed by department elsewhere in this section refer to the minimum necessary for a degree. It is entirely within the prerogative of the department to assign additional credits of coursework or other requirements in the interest of graduating a fully qualified student.

No graduate credit may be received for courses taken by examination or for 500numbered courses previously taken at the 400-number course level as an undergraduate without advance approval from the dean of the Graduate School. "Repeat for change of grade" is not available at the graduate level.

Transfer Credits

Up to one-third of the total credits required for a master's degree may be transferred from an accredited college or university, including The University of Akron. Departments and colleges may set more restrictive limits. All transfer credit must be at the "A" or "B" level (4.00 to 3.00) in graduate courses. The credits must be relevant to the student's program as determined by the student's academic department and fall within the six-year time limit. A University of Akron student must receive prior approval from his or her academic department for transfer courses taken elsewhere. A block transfer of credit may be requested if the student holds a prior graduate degree from an accredited college or university, including The University of Akron. A block transfer of credit does not apply to the student's six-year time limit for degree completion.

A student seeking to transfer credit must have full admission and be in good standing at The University of Akron. Transfer credit shall not be recorded until a student has completed 12 semester credits at The University of Akron with a grade-point average of 3.00 or better. Transfer credit from other institutions shall not be computed as part of a student's University of Akron grade point average.

Optional Department Requirements

Each department may set special requirements with regard to entrance examinations, qualifying examinations, foreign language, required courses and thesis. Details are available from the chair of the major department.

Graduation

To be cleared for graduation, a candidate must have completed coursework with a minimum cumulative graduate grade-point average of at least 3.00; submitted an online application for graduation with the University Registrar; paid all applicable fees; and met any other applicable department and University requirements.

If a thesis is required, a final online submission, properly prepared, is due to the Graduate School at least three weeks prior to commencement. This copy must be signed by the adviser, faculty reader, department head, and college dean prior to submission to the Graduate School. A manual titled *Guidelines for Preparing a Thesis* or *Dissertation* is available online and all copies of the thesis must conform to these instructions.

DOCTORAL DEGREE REQUIREMENTS

A master's degree is not a prerequisite for the doctorate; however, the first year of study after the baccalaureate will be substantially the same for both the master's and doctoral student. Some programs admit students to doctoral programs directly after the bachelor's degree; others require a master's degree. No specific number or sequence of courses constitutes a doctoral program or assures attainment of the degree. A formal degree program consists of a combination of courses, seminars and individual study and research that meet the minimum requirements of the Graduate School and those of the committee for each individual student.

Admission

Usually, a student is not officially considered as a doctoral student until completion of a master's program or its equivalent and approval for further study. Departments offering doctoral degree programs review each candidate carefully before recommending admission.

A minimum grade-point average of 3.00 is required for graduation of a candidate for all doctoral degrees.

Residency Requirements

A doctoral student may meet the degree requirements of the Graduate School and department by full-time study or a combination of full- and part-time study.

The minimum residency requirement for a doctoral candidate in all programs is at least two consecutive semesters of full-time study and involvement in departmental activities. Full-time study is defined as 9-15 semester credits, except for graduate teaching and research assistants for whom full-time study is specified by the assistantship agreements. The summer sessions may count as one semester, provided that the candidate is enrolled for a minimum total of six semester credit hours per combined summer terms. Programs vary in their requirements beyond the minimum, e.g., credits or courses to be completed, proper time to fulfill the residency requirement, and acceptability of part-tim employment.

Before a doctoral student begins residency, the student's adviser and the student shall prepare a statement indicating the manner in which the residency requirement will be met. Any special conditions must be detailed and will require the approval of the student's committee, the department faculty members approved to direct doctoral dissertations, the collegiate dean, and the dean of the Graduate School.

Continuous Enrollment Requirement

The Graduate School requires that a doctoral student register for a minimum of one graduate credit as approved by his or her adviser during each fall and spring semester. Individual departments may exceed this minimum requirement. A doctoral student should consult with his or her academic department.

Time Limit

All doctoral requirements must be completed within ten years of starting coursework at The University of Akron or elsewhere. This refers to graduate work after receipt of a master's degree or the completion of 30 semester credits. Extension of up to one year may be granted in unusual circumstances by Graduate School upon written request by the student and recommendation by the adviser, department head, and college dean.

Credits

A doctorate is conferred in recognition of high attainment and productive scholarship in some special field of learning as evidenced by the satisfactory completion of a prescribed program of study and research; and the successful passing of examinations covering the special field of study and the general field of which this subject is a part. Consequently, the emphasis is on mastery of the subject rather than a set number of credits. Doctoral programs generally encompass the equivalent of at least three years of full-time study at the graduate level. A minimum of 50 percent of the total credits above the baccalaureate required in each student's doctoral program must be completed at the University. A maximum of six workshop credits may be applied to a doctoral degree. Such credits must be relevant to the degree program, recommended by the student's advisor and approved by the dean of the Graduate School.

No graduate credit may be received for courses taken by examination or for 400numbered courses previously taken at the 400-number course level as an undergraduate without advance approval from the dean of the Graduate School. "Repeat for change of grade" is not available at the graduate level.

Transfer Credits

Up to one-half of the total credits above the baccalaureate required in a doctoral program may be transferred from an accredited college or university, including The University of Akron. Departments and colleges may set more restrictive limits. All transfer credit must be at the "A" or "B" level (4.00 to 3.00) in graduate courses. The credits must be relevant to the student's academic program as determined by the student's academic department and fall within the ten-year limit. A University of Akron must receive prior approval from his or her academic department for transfer courses taken elsewhere.

Individual course transfer of credit must fall within the ten-year time limit to complete degree requirements. A block transfer of credit may be requested if a student holds a prior graduate degree from an accredited college or university, including The University of Akron. No more than 30 semester credits may be transferred from a single master's degree. A block transfer of credit does not apply toward the student's ten-year time limit to complete the degree..

A student seeking to transfer credit must have full admission and be in good standing at The University of Akron. Transfer credit shall not be recorded until a student has completed 12 semester credits at The University of Akron with a grade-point average of 3.00 or better. Transfer credits from other institutions shall not be computed as part of a student's University of Akron grade point average.

Language Requirements

There is no University-wide foreign language requirement for the doctoral degree. The student is required to demonstrate one of the following skills depending upon the particular program.

- Plan A: Reading knowledge, with the aid of a dictionary, of two approved foreign languages. At the discretion of the major department an average of "B" in the second year of college-level courses in a language will be accepted as evidence of proficiency in reading knowledge for that language. English may be considered as one of the approved foreign languages for a student whose first language is not English; and demonstrated competence in research technique (e.g., statistics and/or computers) may be substituted for one of the two foreign languages. Under the last option, each department should define competence and publicize.
- Plan B: Comprehensive knowledge of one approved foreign language, including reading without the aid of a dictionary and such additional requirements as the department may impose.
- Plan C: In certain doctoral programs the demonstration of competence in appropriate research skills may serve as a substitute for the foreign language requirements.
- · Plan D: In certain doctoral programs there is no foreign language requirement.

Optional Department Requirements

Each department may determine requirements for a doctoral student with regard to entrance examinations, qualifying examinations, preliminary or comprehensive examinations and course sequences.

Dissertation and Oral Defense

The ability to do independent research and demonstrate competence in scholarly exposition must be demonstrated by the preparation of a dissertation on some topic related to the major subject. It should represent a significant contribution to knowledge, be presented in a scholarly manner, reveal the candidate's ability to do independent research and indicate experience in research techniques.

A doctoral dissertation committee supervises and approves the dissertation and administers an oral examination upon the dissertation and related areas of study. This examination is open to the graduate faculty. The dissertation and oral examination must be approved by the committee before the dissertation is submitted to the Graduate School.

A final online submission of the dissertation is due in the Graduate School at least three weeks prior to commencement. This copy must be signed by the adviser, faculty reader, department head, and college dean prior to submission to the Graduate School. A manual titled *Guidelines for Preparing a Thesis or Dissertation* is available online and all copies of the dissertation must conform to these instructions.

Graduation

To be cleared for graduation, a candidate must have completed coursework with a minimum cumulative graduate grade-point average of at least 3.00; submitted an approved dissertation and passed an oral examination; submitted an online application for graduation with the University Registrar; paid all applicable fees; and met any other applicable department and University requirements.

GRADUATE CERTIFICATE REQUIREMENTS

Admission

A student interested in pursuing a graduate certificate program must possess at least a baccalaureate degree from an accredited college or university. Some certificate programs may require that a student already be enrolled in a specific graduate degree program. Students should consult with the academic department.

Residency Requirements

There are no formal residency requirements for graduate certificate programs. A student may meet the program requirements of the Graduate School and the department through full- or part-time study.

Time Limit

All requirements must be completed within three years after beginning graduatelevel coursework at The University of Akron or elsewhere unless concurrently pursuing a master's or doctoral degree. When this is the case the graduate degree program time limits apply for completion of the certificate requirements. Extension of up to one year may be granted in unusual circumstances by the Graduate School upon written request by the student and recommendation by the adviser, department head, and college dean.

Credits

The number of credits required to earn a graduate certificate varies by certificate program. A minimum of two-thirds of the total number of graduate credits required in any certificate program must be completed at The University of Akron. Unless otherwise specified, no substitute courses will be permitted to meet certificate program requirements.

No graduate credit may be received for courses taken by examination or for 500numbered courses previously taken at the 400-number course level as an undergraduate without advance approval from the dean of the Graduate School.

Transfer Credits

Up to one-third of the total graduate credits required for a certificate program may be transferred from an accredited college or university, including The University of Akron. However, the total number of credits that may be transferred may not exceed the total allowable transfer credits for a concurrent graduate degree program. All transfer credit must be at the "A" or "B" level in graduate courses. The credits must be relevant to the student's program. A University of Akron student must receive prior approval from his or her academic department for transfer courses taken elsewhere.

A student seeking to transfer credit must have full admission and be in good standing at The University of Akron. Transfer credit shall not be recorded until a student has completed nine semester credits at The University of Akron with a grade-point average of 3.00 or better. This applies to students who are not concurrently enrolled in a graduate degree program. Twelve semester credits must be completed at The University of Akron with a grade-point average of 3.00 or better for those students concurrently pursuing a graduate degree.

Individual course transfer of credit must fall within the three-year time limit for those students pursuing only a graduate certificate. The six-year time limit applies to those students concurrently pursuing a master's degree, and the ten-year time limit applies to those students concurrently pursuing a doctoral degree. No block transfer of credit is permitted for students pursuing only a graduate certificate.

Award of Graduate Certificate

To be cleared for award of a graduate certificate, a candidate must have completed coursework with a minimum cumulative graduate grade-point average of at least 3.00; submitted an online application for graduation with the University Registrar; paid all applicable fees; and met any other applicable department and University requirements.

Students enrolled in a certificate program without concurrent enrollment in a graduate degree program will not be permitted to participate in the commencement ceremony.

SECTION 4. Graduate Studies

Buchtel College of Arts and Sciences

Chand Midha, Ph.D., *Dean* Kim C. Calvo, Ph.D., *Associate Dean* Bill Lyons, Ph.D., *Acting Assistant Dean* Neil Sapienza, M.S., *Associate Dean* Linda M. Subich, Ph.D., *Associate Dean* Sheldon B. Wrice, Ed.D., *Associate Dean* John Zipp, Ph.D., *Associate Dean*

Mission Statement

The mission of the Buchtel College of Arts and Sciences is to provide high quality education in fine arts, humanities, natural sciences, and social sciences. These varied disciplines constitute the foundation of a liberal arts education.

The College strives to foster excellence in teaching, scholarship, and service in a positive environment that will enhance lifelong learning and student accomplishment.

The College develops independent learning, critical thinking, personal responsibility, and leadership to prepare graduates to fulfill their career objectives in an environment of societal and cultural change.

Organization

The Buchtel College of Arts and Sciences has four administrative divisions: Fine Arts, Humanities, Natural Sciences, and Social Sciences.

The Fine Arts Division includes the Myers School of Art, School of Dance, Theatre, and Arts Administration, School of Family and Consumer Sciences, and School of Music. The Arts Division places a premium on learning by doing. Students study side-by-side with talented and caring faculty members who are committed to helping them turn their aspirations into accomplishments.

The Humanities Division includes the departments of Anthropology and Classical Studies, English, Modern Languages, and Philosophy. In these disciplines students learn about the evolution of diverse civilizations, their languages, literatures, cultures, and their contributions to our accumulated wisdom.

The Natural Sciences Division includes the departments of Biology, Chemistry, Computer Science, Geosciences, Mathematics, Physics, and Statistics. Students explore physical and biological processes and learn to use mathematics, the language of science. Student research in the division ranges from the characterization of molecules to mapping the expanse of the universe to mathematical modeling of real processes. Students learn how our physical world works and use this knowledge to create the technologies of the future.

The Social Sciences Division includes the School of Communication, the departments of Economics, History, Political Science, Psychology, Public Administration and Urban Studies, and Sociology. In these disciplines students observe individuals, closely knit organizations, whole cultures developing over the centuries (sometimes at peace and sometimes at war), the economic and geographical realities affecting these populations, and the ways societies organize themselves for harmony, protection, and prosperity.

DOCTOR OF PHILOSOPHY DEGREE

The following programs leading to the Doctor of Philosophy degrees are offered in the Buchtel College of Arts and Sciences: the Doctor of Philosophy in Chemistry, the Doctor of Philosophy in Counseling Psychology, the Doctor of Philosophy in History, the Doctor of Philosophy in Integrated Bioscience, and the Doctor of Philosophy in Psychology. The Doctor of Philosophy in Sociology is offered jointly with Kent State University and the Doctor of Philosophy in Urban Studies and Public Affairs with Cleveland State University.

Doctor of Philosophy in Chemistry

(315000PHD)

The Doctor of Philosophy in Chemistry is granted for high scholarly achievement in analytical, inorganic, organic, physical or biochemistry. Students with either a baccalaureate or master's degree may be admitted to the program. They must satisfy the following requirements to receive the degree:

- Complete a course of study designed in consultation with an advisor or advisory committee. This consists of the completion of at least 90 credits beyond the baccalaureate degree, including 24 credits of appropriate coursework.
- Complete monthly cumulative exam requirement.
- · Complete oral exam requirement.
- · Complete seminar requirement.
- · Defend dissertation in an oral examination.
- · Complete all general requirements for the doctor of philosophy degree.

Admission Requirements

In addition to submission of the graduate application and official transcripts applicants must submit three letters of recommendation and a statement of purpose.

Application materials should be submitted by April 15 for fall enrollment and by October 15 for spring enrollment.

Interdisciplinary Option in Chemical Physics

The faculty in the Departments of Chemistry and Physics jointly offer an option leading to a Ph.D. in Chemistry for students who elect the interdisciplinary field of chemical physics.

Admission Requirements

Applicants for the Chemical Physics Option may be admitted with either a baccalaureate or a master's degree, in either chemistry or physics. All applicants must have their graduate application and credentials evaluated by the Chemistry Department. All admission requirements for the Doctor of Philosophy in Chemistry, as given in this *Graduate Bulletin*, shall apply to applicants for admission to the Chemical Physics Option.

Graduate students in good standing in the Physics Department may apply for admission as above. Successful applicants should have some advanced chemistry course work (200-level and above) and endorsement by the chair of the Physics Department.

Degree Requirements

The applicable degree requirements for the Chemical Physics option are those of the Doctor of Philosophy in Chemistry, as stated in the *Graduate Bulletin*. These degree requirements consist of the following:

- complete a course of study designed in consultation with an advisor or advisory committee, consisting of at least 90 credits beyond the baccalaureate degree, including 24 credits of appropriate chemistry coursework and approved physics electives;
- complete the requirements of the monthly cumulative exams, the oral exam, and the seminar;
- · defend the dissertation in an oral examination;
- · complete all general requirements for the Doctor of Philosophy degree.

Students entering with the endorsement of the Physics Department must choose an advisor in the Physics Department holding a joint appointment in Chemistry; other students must select as research advisor a participating faculty member in the Chemistry Department. Students entering the program with principle preparation in physics may be required to audit certain undergraduate prerequisites for chemistry graduate courses, and visa versa for students whose principle preparation is in chemistry.

Doctor of Philosophy in Integrated Bioscience

(310001PHD)

The Departments of Biology, Mathematics, Biomedical Engineering, Chemical and Biomolecular Engineering, Chemistry, Civil Engineering, Computer Science, Geology, Physics, and Polymer Science and Polymer Engineering offer an interdisciplinary Ph.D. program in Integrated Bioscience. Students are required to incorporate an integrative aspect to their biologically-based research project that will incorporate approaches from multiple disciplines, and all students will have advisers on their committees that include faculty from at least two of the participating departments. This program is designed to train students to understand modern biology in the context of integrated biological systems. This program will combine modern biology, bioengineering, bioinformatics, biochemistry, and biopolymers with the central unifying theme of connection across levels of biological organization. The program is composed of six areas of excellence: (1) molecular cell biology and genetics; (2) physiology and organismal biology; (3) ecology and evolutionary biology; (4) biochemistry and biopolymers; (5) bioinformatics and computational biology; and (6) bioengineering. Integrating information drawn from these areas of excellence will provide students with high-demand, specific skills as well as allow them to develop integrative thinking and problem-solving expertise that will be critical for progressing in the ever expanding realm of biosciences.

Admission Requirements

The applicant must meet the University admission requirements and have an undergraduate degree from an accredited institution. Applicants must submit GRE scores, although not required it is highly recommended that applicants also submit subject GRE in the field of undergraduate degree, three letters of recommendation, a statement of career goals and research interests, and note up to five faculty (rankordered) which they would be interested in having as their faculty adviser(s). Applicants are encouraged to contact their prospective Ph.D. advisers prior to submitting their formal applications. International students should contact The University of Akron Graduate School for specific admission requirements. Applications will be ranked according to:

- · Academic background as evidenced by grade point average of at least 3.0
- · GRE scores
- Letters of recommendation (three preferred)
- · Willingness of one or more potential advisors to take student on as an advisee

Applications are accepted on a rolling basis. Review of applications begins in mid-January for fall enrollment.

Requirements

Core Courses (12 credits):

3100:701	Research Techniques in Integrated Bioscience	4
3100:702	Communicating in Integrated Bioscience	2
3100:703	Problem Solving Integrated Bioscience	3
3600:665	Ethics of Science	3

- Complete four credits of 3100:797/798 Integrated Bioscience Colloquium
- Complete a minimum of nine credits of elective courses determined by student advisory committee
- · Complete a total of 80 credits for the degree
- · Must serve as a teaching assistant for at least one semester
- Complete written and oral qualifying exam
- Complete research proposal defense
- · Complete seminar requirement
- · Complete dissertation credits (variable with 55 credit maximum)
- · Defend dissertation in an oral examination
- · Complete all general requirements for the doctor of philosophy degree

Doctor of Philosophy in Counseling Psychology

(376000PHD)

The University of Akron offers a doctoral program in Counseling Psychology. The Collaborative Program in Counseling Psychology allows the student a choice of entry points through the Psychology Department of the Buchtel College of Arts and Sciences or through the Counseling Psychology is accredited by the American Psychological Association <u>http://www.apa.org/ed/accreditation/homepage.html</u>. Students in both departments are expected to attain a level of broad scientific competence in the core areas of psychology; the biological, social, cognitive-affective, and individual bases of human behavior. Practicum and internship experiences are also required of all students and range from skill building in basic psychological assessment and counseling, to actual work with clients, to a year-long, full-time internship in an applied service setting. Pertinent information regarding the emphasis, orientation, and coursework for the Psychology Department entry point is included below. Students receive exposure to both colleges through shared coursework and faculty involvement with exams and dissertations.

The Department of Psychology offers a five-year Counseling Psychology program leading to a doctoral degree and, in general, is geared toward students who hold a B.A. in psychology with cumulative undergraduate grade point average of 3.0 or above and a grade point average of 3.25 or above on all psychology coursework. Program emphasis is strongly placed on a scientist-practitioner model of training. Beyond the basic core areas of psychology, students are expected to establish specific competencies in the areas of theory, research, and practice of Counseling Psychology. Academic preparation includes theories of psychotherapy, supervision, diversity issues in counseling psychology, vocational psychology, testing theory and practice, research and statistics, and professional issues. Research and publication are greatly encouraged. Graduates typically seek out academic teaching, research and training positions, as well as positions in counseling centers and other mental health agencies.

Admission to the Collaborative Program in Counseling Psychology is handled through the department associated with the student's chosen entry point. Students must fulfill both Departmental and Graduate School admission requirements. The following application materials must be submitted by the December 1 application deadline:

- Graduate School application
- Brief statement of professional goals and reasons for choosing the field of counseling psychology and The University of Akron.
- Official transcripts of all undergraduate and graduate (if applicable) coursework from each institution attended
- · Official reports of the GRE General Test

 Minimum of three letters of recommendation attesting to success in the field and probable academic success at the doctoral level.

Departures from the described program for Psychology Department entry may be made only with the approval of the counseling psychology program faculty.

Requirements

The curriculum reflects the interdepartmental blend of the Collaborative Program in Counseling Psychology. Electives and other classes are to be planned along with the student's advisor.

	eails
 – Psychology core courses (610, 620, 630, 640, 650) 	10
 Counseling psychology core courses 	
(707, 709, 710, 711, 712, 713, 714, 715, 717)	33
- Practicum sequence (672 [2+2+2+2], 673 [2+2+2+2], 795 [4+4], 796 [4+4	4]) 32
- History, measurement, and developmental coursework (718, 727, 750)	8
– Electives (minimum)	6
- Statistics (601, 602)	8
 A statistics sequence that may be substituted for the doctoral 	
language requirement	8
 Thesis credits (minimum) 	1
 Dissertation credits (minimum) 	12

- A thesis or thesis waiver completed as specified in the Graduate Student Manual of the Department of Psychology.
- The comprehensive written examination is prepared, administered and graded by program faculty. At least one faculty member from each department participates in the oral portion of the comprehensive examination.
- Dissertation at least one faculty member from each department is required on the student's dissertation committee.
- Internship 2,000 hours postmaster's over no more than two years. The internship site must be approved in advance by the Collaborative Program Internship Committee.
- Students must maintain a 3.50 GPA in their content courses each year in the Department of Psychology.

Doctor of Philosophy in History

(340000PHD)

The Doctor of Philosophy in History is granted primarily for high scholarly achievement in four fields of study selected by the student and for demonstrated ability to pursue independent research. Each student must:

· Fulfill admission requirements of the Graduate School.

The Graduate Committee of the History Department will consider an applicant for admission if a person has a Master's degree or the equivalent and a grade-point average of 3.5 or better at the M.A. level from an accredited institution. Those holding a Master's degree from The University of Akron or other accredited institution should not assume that they will automatically be admitted to doctoral studies. In addition to the application made to the Graduate School of The University of Akron, the student must submit to the History Department the following materials:

- a personal statement of reasons for wishing to undertake doctoral study and the fields of study the student wishes to pursue;
- three letters of recommendation from former professors;
- a writing sample, preferably a seminar paper or other comparable scholarly work;
- scores on the Graduate Record Examination, General Aptitude Test;
- evidence of a reading knowledge of one foreign language or knowledge of an acceptable cognate field. Those whose native language is not English must demonstrate proficiency in English.

Application materials must be received by February 1 if seeking departmentallybased funding. Applicants not seeking departmentally-based funding must have application materials submitted by June 1.

The History Department does not encourage applications for the doctoral program from students who have received both B.A. and M.A. degrees from The University of Akron. Special circumstances may warrant consideration, however, and the Graduate Committee reserves the right to judge applications on their own merit.

- Complete studies selected by the student in consultation with an advisory committee, including:
- completion of 60 credits beyond master's degree requirements, including dissertation credit. Courses at the 500-level in the student's major and dissertation fields will not be counted toward the degree, and only 9 hours of 500-level courses in the student's secondary fields will be counted;

- demonstration of competency in four fields of study selected from the following areas in which the student will be expected to pass written and oral comprehensive exams: ancient, medieval, early modern Europe to 1789, modern Europe since 1750, America to 1877, United States since 1877, Latin America, Far East, Africa, Middle East, South Asia, and History of Science. These four fields must include at least one each in American, European, and non-western history. The student's dissertation will fall within one of the four chosen fields;
- satisfactory performance in written and oral comprehensive examinations;
- defense of the dissertation in an oral examination.
- A reading knowledge of two foreign languages will be required. With the approval
 of the student's doctoral committee and the Graduate Committee, the student may
 substitute a cognate field for one of the two required languages when it seems
 appropriate for the student's general program.
- · Complete all general requirements for the Doctor of Philosophy degree.

Doctor of Philosophy in Psychology

(375002PHD: Industrial Organizational)

(375006PHD: Adult Development and Aging)

The Department of Psychology offers a doctoral degree in psychology with specialization in either industrial/organizational psychology or adult development and aging.

A degree will be awarded to a student who, besides fulfilling the general requirements, has met the following specific requirements:

- Fulfill admission requirements of the Graduate School and department requirements as follows:
- completion of master's degree including 30 graduate credits;
- attainment of a graduate grade-point average (GPA) of 3.25;
- completion of Graduate Record Examination General Test;
- securing of three letters of recommendation from persons familiar with applicant's academic work;
- submission of a brief personal statement of professional goals and reasons for choosing the field of I/O or Adult Development and Aging and The University of Akron;
- submission of a vita outlining educational and professional experiences.

Application materials must be received by January 15.

- Major field:
- a minimum of 94 graduate credits including a 30-credit master's program. A student may be required to complete additional credits beyond the 94 minimum credit requirement;
- completion of Ph.D. core courses in the student's specialty area: industrial/organizational or adult development and aging. Core courses are specified in the Department of Psychology Graduate Student Manual. The student is required to maintain at least a 3.5 GPA in core courses and overall courses;
- completion of additional required and elective courses to be planned in conjunction with the student's faculty advisor and subject to approval by the industrial/organizational or adult development and aging committees.
- · Written comprehensive examinations:
- satisfactory performance on doctoral written and oral comprehensive examinations in the student's major area of industrial/organizational psychology or adult development and aging (refer to the department's graduate student manual).
- · Dissertation research:
- completion of 3750:899 Doctoral Dissertation; (minimum 12 credits);
- satisfactory performance on final examination and defense of dissertation research.
- · Other requirements:
- refer to the department's graduate student manual for other requirements or guidelines;
- complete and fulfill general doctoral degree requirements of the Graduate School.

Doctoral language requirements or appropriate alternative research skills and techniques may be prescribed by the student's advisory committee, depending upon the career plans of the student and upon the academic and/or scientific requirements of the dissertation.

The Psychology departments at The University of Akron and Cleveland State University offer a joint doctoral program in the Psychology of Adult Development and Aging. Students admitted to the program are required to take approximately equal amounts of coursework at each institution. The coursework covers the areas of

research methods/design, foundation courses in adult biobehavioral functioning, adult psychosocial functioning, and advanced research seminars. The doctoral degree will require a minimum of 94 credit hours of coursework comprised of 78 classroom hours from the following:

3750:601 3750:602	Psychological Research Using Quantitative and Computer Methods I Psychological Research Using Quantitative and Computer Methods II
3750:640	Core IV: Biopsychology
3750:727	Psychology of Adulthood and Aging
3750:740	Industrial Gerontology
3750:754	Research Methods in Psychology
3750:780	Graduate Seminar in Psychology: Additional Research Methods Courses
	(Multivariate Methods, Factor Analysis, Structural Equation Modeling)
3750:731	Perception, Attention, and Aging
3750:732	Cognition and Aging
3750:736	Psychopharmacology in Adulthood
3750:728	Social Aging

Cleveland State University Courses:

PSY 549	Mental Health and Aging (4)
PSY 561	Learning, Motivation, and Emotion (4)
PSY 653	Health Psychology (4)
PSY 655	Motor and Cognitive Disorders of Aging (4)
PSY 656	Sensation and Motor Functions
PSY 660	Ethical and Legal Issues (4)
PSY 663	Neuropsychology (4)

In addition, students will complete four thesis waiver credit hours, six dissertation credit hours, and six thesis/dissertation independent study credit hours (for a minimum total of 94 credit hours). An individual student's point of entry into the program is at one of the two partner institutions.

Doctor of Philosophy in Sociology Akron-Kent Joint Ph.D. Program

(385000PHD)

The University of Akron and Kent State University departments of sociology offer a joint program leading to the Ph.D. degree. Faculty and students engaged in the joint doctoral program are for all intents and purposes involved in a single graduate program. Course work is offered at both campuses, and faculty from both campuses serve on student committees and research projects.

Admission to the Program

Our program seeks to admit students who expect to complete a Ph.D. at The University of Akron. We encourage applications from students who have only completed a bachelor's degree as well as from those who have completed a master's degree elsewhere. The curriculum in this program is structured to serve full-time students, and we presume that all students admitted intend to complete a doctorate. For students admitted without a master's degree, the master's degree in Sociology is awarded during the completion of doctoral program requirements. We recommend that students who are not interested in receiving a Ph.D. or who are interested in a part-time program of study consider applying to sociology programs that focus on awarding master's degrees and which are better able serve the needs of part-time students.

Specific criteria considered for admission include:

- Fulfill the admission requirements of the Graduate School and department requirements;
- Attainment of an undergraduate grade point average (GPA) of 3.0 or a graduate GPA of 3.5;
- · Completion of Graduate Record Examination General Test;
- Submission of a writing sample; preferably a course paper or comparable piece of scholarly work;
- Submission of a personal statement indicating reasons for pursuing a graduate degree in sociology at The University of Akron;
- Submission of three letters of recommendation from persons familiar with the applicant's academic work;
- Applicants whose native language is not English must also score at least 577 (paper-based) or 233 (computer-based) on the Test of English as a Foreign Language.

Application materials must be received by January 15 for those applicants seeking funding. Applicants not seeking funding must have application materials submitted by March 1.

Please note that the admissions committee is unable to consider incomplete applications. We encourage interested applicants to visit the department's website for further information about the program and the application process.

Degree Requirements

In addition to meeting the general requirements of the Graduate School, a student working toward the Doctor of Philosophy in Sociology must meet the following requirements:

- Professional Development Coursework:
 3850:628 Professional and Ethical Issues in Sociology (3 credit hours)
 3850:700 College Teaching of Sociology (3 credit hours)
- Research Methods and Statistics Coursework:
 3850:604 Quantitative Methods in Sociology (4 credit hours)
 3850:706 Multivariate Techniques in Sociology (4 credit hours)
 3850:709 Advanced Data Analysis (4 credit hours)
 3850:714 Qualitative Methodology (4 credit hours)
- Sociological Theory Coursework: 3850:722 Early Sociological Thought (3 credit hours) 3850:723 Contemporary Sociological Thought (3 credit hours)
- · If admitted with an MA: 32 credit hours of elective coursework;
- If admitted without an MA: 26 credit hours of elective coursework plus successful completion of six thesis credit hours. Completion of thesis hours requires the writing and defense of a thesis proposal as well as a final thesis document and oral defense of document;
- Successful completion of comprehensive examinations in major and minor speciality areas (from departmental list);
- Successful completion of dissertation document, oral defense of document, and 30 dissertation credit hours;
- · Complete and fulfill general doctoral degree requirements of the Graduate School.

Doctor of Philosophy in Urban Studies and Public Affairs

(398006PHD)

(Admissions currently suspended)

The Department of Public Administration and Urban Studies offers a program leading to the Ph.D. in Urban Studies and Public Affairs. This is a joint program with Cleveland State University Levin School of Urban Studies. Students admitted to the program may take courses at either campus and all doctoral committees contain members from both universities.

The program is designed to educate scholars interested in university or professional careers in the fields of public administration and urban affairs with particular emphases on public administration, urban policy, and policy analysis and evaluation.

Admission

Admission to the Ph.D. program involves faculty consideration of all of the following criteria which, taken together, present evidence of the likelihood of success in advanced study:

- · Completion of a master's degree.
- Grade Point Average GPA) from master's degree above 3.5. However, having a GPA above 3.5 is not in itself sufficient for admission.
- Submission of official test results on the verbal and quantitative portion of the Graduate Record Examination General Test. Official results from other, equivalent standardized tests used for graduate admissions may be substituted.
- Three letters of recommendation from persons familiar with the applicant's recent performance and abilities.
- A sample of the student's academic work. This should be a thesis or final project paper from the master's degree program.
- A personal statement from the applicant detailing the intended area of specialization and career aspirations. An applicant will be admitted only if faculty resources are available in the area of specialization detailed by the applicant.
- Those applicants for whom English is not their native tongue must demonstrate proficiency in the English language by scoring a minimum of 570 on the Test of English as a Foreign Language (TOEFL), submitting an acceptable score on the Test of Written English (TWE) and by scoring a minimum of 220 on the Test of Spoken English (TSE).

Application materials must be submitted at least six weeks prior to the term for which enrollment is sought.

For applicants seeking a graduate assistantship, application materials must be submitted by April 1 for fall enrollment and November 15 for spring enrollment.

Degree Requirements

A minimum of 64 credit hours are required to complete this degree. A required core of methods and foundational courses totaling 25 credit hours, a field study or specialization area of 27 credit hours, and 12 credit hours of dissertation. The department offers two specializations: Public Administration and Applied Policy.

Core Requirements (25 credits):

3980:700	Advanced Research Methods I
3980:701	Advanced Research Methods II
3980:705	Economics of Urban Policy

- 3980:708 Urban Policy: The Historical Perspective
- 3980:710 Qualitative Research Methods3980:716 Theoretical Foundations for Public Affairs
- 3980:740 Survey Research Methods
- 3980:780 Ph.D. Colloquium
- 3980:795 Pro-Seminar

Refer to the Departmental Graduate Student Handbook for detailed description of requirements or contact the Ph.D. Coordinator for further information.

MASTER'S DEGREES

Programs of advanced study leading to the master's degree are offered by the departments of biology, chemistry, communication, computer science, dance, theatre, and arts administration, economics, English, family and consumer sciences, geology and environmental science, history, mathematics, modern languages (Spanish), music, physics, political science, psychology, sociology, statistics and public administration and urban studies. Before undertaking such a program, the student must show that the general requirements for admission to the Graduate School have been met, and the standard requirements for an undergraduate major in the area of the proposed graduate specialty have been met or that the student has performed work which the department approves as equivalent to an undergraduate major.

Biology

(310000MS)

Admission Requirements

- A minimum grade point average of 3.00 (4.00=A) and 3.00 average in Biology (minimum 32 semester hours or equivalent)
- · Competence in Chemistry and Mathematics is expected
- Entering students must provide scores from any one or more of the following standardized tests: General GRE, Biology-specific GRE, or MCAT. Students are expected to score above the 25th percentile to be competitive for admission (provisional or full). Full admission is required for a teaching assistantship or tuition waiver.
- A letter of interest from the prospective advisor in the Biology department is required
- Foreign students, in addition to the above requirements, must have a score of 220 or more on the TOEFL and one of the following: a) >=23 on the "S" portion of the TOEFL, b) >=50 on the Test of Spoken English (TSE), or c) a passing score on the U-Adept test

Applications are accepted on a rolling basis. Review begins in January/February for fall enrollment.

Master of Science

Thesis Option I

The program is primarily for the student who will pursue a research career, including the student who intends to enter a doctoral program in the biological sciences.

- Course work in addition to the master's research and seminars (must be approved by the student's advisory committee) – 24 credits.
- Research and thesis minimum of 12 credits.
- Participation in seminars a maximum of four credits.

A minor may be taken in approved graduate courses including education. Summer study at a biological station is available.

Thesis Option II

This program is intended for Medical Doctors and Doctors of Osteopathic Medicine who have graduated from an accredited U.S. medical school.

- Course work in addition to the master's research and seminars (must be approved by the graduate advisor) – 16 credits (no transfer credits are allowed for this option).
- · Research and thesis minimum of 12 credits.
- · Participation in seminars a maximum of two credits.

Required Courses for Both Options:

At least two courses of the following six listed below are required

	-
3100:616	Graduate Evolutionary Biology
3100:617	Advanced Ecology
3100:625	Basic DNA Techniques
3100:626	Techniques in Molecular Biology
3100:673	Integrative Stress Physiology
3100:676	Integrative Physiology

Nonthesis Option

This program is designed exclusively for secondary school teachers for whom the M.S. probably will be a terminal degree and who do not need research experience. The program is open only to applicants possessing a teaching certificate or those coregistering with the College of Education and showing normal progress towards qualifying for a certificate.

The requirements are the same as the research option except that no thesis and research is undertaken, but a total of 40 credits of approved coursework (including a maximum of four credits for seminar participation) is required.

For additional details concerning admission standards, degree requirements and selection of options, refer to the *Department of Biology Graduate Student Guide*.

Chemistry

(315000MS)

Master of Science

Admission Requirements

In addition to submission of the graduate application and official transcripts applicants must submit three letters of recommendation and a statement of purpose.

Application materials should be submitted by April 15 for fall enrollment and by October 15 for spring enrollment.

Degree Requirements

- Chemistry coursework with the approval of the advisor, up to 12 credits may be taken in related areas 24 credits.
- · Research and thesis six credits.
- · Participation in departmental seminars.

Communication

(C60004MA)

The School of Communication offers the master of arts degree in a coordinated program of communication arts.

Admission Requirements

- · Meet the general requirements for admission to the Graduate School.
- Essay of no more than 500 words outlining reasons for choosing graduate program in Communication at The University of Akron.
- Possess an undergraduate major in communication, journalism or a related field; or, complete at least 15 semester credits of undergraduate communication coursework approved by the department.

Note: Even though an applicant is eligible for consideration, an offer of admission is not guaranteed.

Program Requirements

· Complete 36 credits, distributed as follows:

School core courses – 12 credits:

7600:600	Introduction to Graduate Study in Communication	3
Choose two of	f the following courses:	
7600:602	Qualitative Methods in Communication	3
7600:603	Quantitative Methods in Communication	3
7600:670	Communication Criticism	3
Choose one o	f the following courses:	
7600:624	Survey of Communication Theory	3
7600:625	Theories of Mass Communication	3

School coursework - 12 credits.

Graduate electives - 6 credits.

Thesis (699) or Project/Production (698) - 6 credits.

Total – 36 credits.

- Comprehensive examination required for students not pursuing a thesis, project, or production after 24 credits of coursework, including all core courses.
- Registration for six (6) credits of Thesis (699) or Project/Production (698).
- · Presentation and defense of a thesis/project/production:

The thesis, project, or production requirement is designed to be the culmination of the student's academic program and involves the conceptualization, design and execution of an academic, practical, or aesthetic problem in a manner which requires a high level of substantive, methodological, technical, and written skills. These skills may be demonstrated in any of the three types of activities, depending on the student's background and career orientation.

Computer Science

Master of Science - Computer Science (346000MS: Non-thesis Option) (346001MS: Thesis Option)

Admission Requirements

All applicants for admission to the graduate program in computer science must meet the university requirements for graduate admission as published in the Graduate Bulletin. In addition to these requirements, the applicant must also:

- · submit three letters of recommendation from individuals capable of evaluating the applicant's potential for success in the program;
- submit a statement of purpose;
- · submit a resume;
- · have earned a baccalaureate degree in computer science or a related discipline from an accredited college or university with a GPA of 3.00 or higher in computer science and related courses:
- demonstrate knowledge of at least one high-level programming language; and,
- · demonstrate proficiency in data structures, computer organization and operating systems

A student deficient in one or more of these areas may be granted provisional admission.

Application materials must be submitted by March 15 for fall and summer enrollment and by October 15 for spring enrollment. Applications submitted after these deadlines may be considered.

Degree Requirements

The curriculum has been designed to follow the guidelines and recommendations of the Association for Computing Machinery for Master's Programs in Computer Science. Most full-time degree candidates admitted into the program will complete the degree requirements in two years. The thesis option requires 30 semester hours of graduate work while the nonthesis option requires 39. With prior consent, up to 6 credits of approved graduate-level coursework outside the department may be substituted for elective courses in both the thesis and non-thesis options. The grade point average of all Computer Science courses and pre-approved electives taken at The University of Akron must not be less than 3.0.

- Core Courses (required of all students):
- (1) 3460:535 Algorithms
- 3460:635
- Advanced Algorithms (2) 3460:601 Research Methodology
- (3) Two courses from Software, Languages and Systems: 3460:626, 630, 641, 653, 655, 665, 677, and 680.
- (4) Two courses from Applications: 3460: 645, 658, 660, and 676.

Note: 689 may be counted for requirement area (3) or (4) upon the approval of the department

Thesis Option (30 credits of graduate work)

24 credits in approved coursework, at least 15 credits of which must be taken at the 600 level. In addition, 3 credits in 3460:698 Master's Research and 3 credits in 3460:699 Master's Thesis. The thesis must be of publishable quality and must be successfully presented at a public defense moderated by three full time Graduate Faculty (two of which must be from Computer Science).

Non-thesis Option (39 credits of graduate work)

39 credits in approved coursework, at least 21 credits of which must be taken at the 600 level.

Cooperative Education Program in Computer Science (346008MS: Non-thesis Option)

(346009MS: Thesis Option)

Admission Requirements

Arrangements for student entry into the program are on an individual basis, and must be initiated by the student. The Cooperative Education Program is an optional program available only to full-time Computer Science students at The University of Akron who have satisfactorily met the following requirements:

- · completion of at least 18 credits in computer science applicable to the master's degree with a grade point average of at least 3.0 out of 4.0;
- · acceptance by a cooperative education coordinator or director following interviews
- a transfer student must have completed at least 9 credits in computer science at The University of Akron with a grade point average of at least 3.0 out of 4.0.

A student who desires to participate in the program will fill out an application and submit it to the cooperative education office. The student will then meet with a member of the cooperative education staff to discuss the availability of prospective employers. During this interview, the student will be asked to sign a Student Agreement which will become effective upon employment. Employment must be coordinated or have approval of the department and the cooperative education director. The University does not guarantee employment for the student. The student will be expected to remain with the employer during the time period specified by the Student Agreement.

Registration

While no academic credits are assigned, each student must register for 3000:501 Cooperative Education in the same manner that a student registers for any other University course. See department advisor before enrolling for this course.

A cooperative program fee for each work period is charged. Upon completion of a work period, a statement will appear on each student's official transcript listing the course number, title and name of the employer. In the place of a letter grade, "credit" or "no credit" will be given, depending on the student's satisfactory or unsatisfactory completion of the following:

- · work performance as evaluated by the employer;
- · progress report written by the student during the work period;
- · written work report as approved by the department chair and cooperative education staff

Usually, work progresses satisfactorily on the job and a grade of "credit" is assigned at the end of the semester. If all the above conditions are not met, a grade of "no credit" will be submitted.

Economics

Master of Arts (325000MA)

Admission Requirements

For full admission students require Intermediate Microeconomics, Intermediate Macroeconomics, Calculus I, and Statistics. The academic background of each applicant will be reviewed by the Director of Graduate Studies to determine whether background deficiencies exist for his/her planned program of study. Exceptional departures from these requirements may be approved with the permission of the Director of Graduate Studies and Department Chair. All applicants must submit at least three letters of recommendation (preferably from academics) and a statement of purpose. International applicants must also submit scores from the GRE.

Applications should be submitted at least six weeks prior to the term for which enrollment is sought. Applicants seeking financial support must submit application materials by February 15 for fall enrollment and by November 15 for spring enrollment.

Thesis Option

A minimum of 30 credits of coursework including a thesis equivalent to six credits is required. At least 21 credits must be at the 600 level in economics. Thesis must be written in an area of specialization in which the individual has at least two courses.

Nonthesis Option

A minimum of 30 credits of coursework is required. At least 21 credits must be at the 600 level in economics.

Required courses for both options:

3250:602	Macroeconomic Analysis I	3
3250:611	Microeconomic Theory I	3
3250:620	Applications of Mathematical Models to Economics	3
3250:626	Statistics for Econometrics	3
3250:627	Econometrics	3

Courses taken outside the department must be approved (in writing) by the student's advisor prior to enrollment.

English

Master of Arts – Literature Track (330000MA: Non-thesis Option) (330000MAT: Thesis Option)

Admission Requirements

In addition to the graduate application and official transcripts applicants must submit a statement of purpose. Applications are accepted on a rolling basis.

Thesis Option

A minimum of 33 credits is required (27 credits of coursework and 6 credits of thesis). Of the 27 credits of coursework, 18 must be at the 600 level and 12 must be in literature or literary theory.

Graduation Requirement: Candidates for graduation must see the Department of English Graduate Coordinator to complete the departmental Graduate Student Survey.

Non-thesis Option

A minimum of 36 credits is required, of which 24 must be at the 600 level and 24 must be in literature or literary theory.

Required Courses for both Options

3300:506	Chaucer†
3300:615	Shakespearean Drama†
3300:665	Literary Criticism
3300:570	History of the English Language†
	or
3300:670	Modern Linguistics†

At least one course in four of the following five categories is required:

British	American
Up to 1660	Up to 1865
1660-1900	1865-present
1900-present	

Graduation Requirement: Candidates for graduation must see the Department of English Graduate Coordinator to complete the departmental Graduate Student Survey.

Master of Arts – Composition Track (330001MA: Non-thesis Option) (330001MAT: Thesis Option)

The Composition Track is intended for students interested in teaching English in secondary schools, two-year colleges, and four-year colleges. The degree is also appropriate for those planning to enter a doctoral program in composition and rhetoric. The program does not lead to state certification for teaching; students should consult the Department of Curricular and Instructional Studies for requirements for state certification to teach in the public schools.

Admission Requirements

In addition to the graduate application and official transcripts, applicants must submit a statement of purpose. Applications are accepted on a rolling basis.

Thesis Option

A minimum of 33 credits is required (27 credits of coursework and 6 hours of thesis). Of the 27 credits of coursework, 18 must be in composition studies (including courses in composition, rhetoric, and linguistics). Of the 27 credits of coursework, 15 must be at the 600 level.

Graduation Requirement: Candidates for graduation must see the Department of English Graduate Coordinator to complete the departmental Graduate Student Survey.

Non-thesis Option

A minimum of 36 credits is required, only 6 of which may be individual reading. At least 24 credits are required in composition studies (including courses in composition, rhetoric, and linguistics). Of the 36 credits of coursework, 21 must be at the 600 level

Required courses for both options:

3300:650	The New Rhetorics
3300:673	Theories of Composition
3300:674	Research Methodologies in Composition

Students must also choose one of the following two courses:

3300:578	Grammatical Structures of Modern English
3300:670	Modern Linguistics

And one of the following three courses:

3300:579Management Reports3300:625Autobiographical Writing3300:679Scholarly Writing

Optional courses:

3300:660	Cultural Studies: Theory and Practice
3300:689	Contemporary Reading Theory
3300:689	Composition and Rhetoric
3300:689	Literature and Composition

Graduation Requirement: Candidates for graduation must see the Department of English Graduate Coordinator to complete the departmental Graduate Student Survey.

†Unless the student has passed a comparable course at the undergraduate level with a grade of "B" or better.

Master of Fine Arts in Creative Writing (330007MFA)

The University of Akron, Cleveland State University, Kent State University, and Youngstown State University offer jointly the MFA in Creative Writing. This degree provides students with opportunities to develop their skills in writing fiction, poetry, drama, and creative non-fiction. It is the terminal degree. Through extensive prac-

tice in workshops and craft and theory courses, students will develop their creative writing abilities while also studying literature and completing a relevant internship.

Admission Requirements

Students must be accepted by the Graduate School at The University of Akron or one of the other three participating universities. They must also submit three letters of recommendation, transcripts, and a writing portfolio. The portfolio will be reviewed by an admissions committee of members from all four universities. Application materials must be submitted by February 1.

Degree Requirements

Students must complete the following courses among the participating universities by taking classes restricted to graduate students only, except as noted below:

- Writing Workshops 15 credits
- Craft and Theory Courses 9 credits (at least three and no more than six in the student's primary genre of concentration)
- · Literature Courses 6 credits
- Internship 3 credits
- Thesis 6 credits
- Electives 9 credits, up to six of which may be from advisor-approved courses not solely restricted to graduate students
- A total of 48 credit hours is required for the MFA in Creative Writing.

Up to nine credits from previously uncompleted graduate degrees may be accepted for transfer credit in the NEOMFA program.

Family and Consumer Sciences

A program of study is offered leading to the Master of Arts in Family and Consumer Sciences degree offers options in child and family development and clothing, textiles and interiors.

Admission Requirements

- Minimum GPA of 2.75 for four years of undergraduate study or 3.00 for the last two years of undergraduate study.
- Completion of general Graduate Record Examination within the five years preceding application, with the following scores or higher:

For students who have taken the GRE prior to August 2011: 410 on verbal, 430 on quantitative, and 4.0 on analytical writing;

For students who have taken the GRE in August 2011 or later: 147 on verbal, 141 on quantitative, and 4.0 on analytical writing

- Three letters of recommendation
- Statement of purpose
- Resume

The graduate faculty of the School of Family and Consumer Sciences may require an interview with any applicant.

Application materials must be received by March 1 for fall enrollment if applying for a graduate assistantship, and by October 1 for spring enrollment if applying for a graduate assistantship. Applications are accepted on a rolling basis for those not applying for a graduate assistantship.

Accepted students will be expected to comply with the following requirements:

Complete the course of study in one of the two options, with a minimum of 40 credits.

These credits will include:

- foundation courses to prepare for research in family and consumer sciences as an interdisciplinary field;
- core courses in the area of specialty;
- option electives and cognate electives, selected in consultation with academic advisor, from within School or in another discipline. These are chosen to strengthen student's professional goals.
- Pass a written comprehensive examination over major and minor areas after the completion of at least 19 credits of graduate work.
- Complete a master's thesis or a master's project. The thesis option involves the design and evaluation of original research in an appropriately related area commensurate with the student's background and area of pursuit. The project option involves the design, development, implementation, and evaluation of original and creative programs and/or resource materials. A written proposal for the thesis or project cannot be submitted until successful completion of the comprehensive examination.
- Apply for graduation upon successful completion of 24 credits of graduate study, the written comprehensive examination, and an approved prospectus or proposal for a thesis or project.
- Pass an oral examination covering the thesis or project report.

36 The University of Akron 2013-2014

Foundation Courses

· Required by all program options:

7400:604	Orientation to Graduate Studies in Family and Consumer Sciences
7400:680	Historical and Conceptual Bases of Family and Consumer Sciences
7400:685	Research Methods in Family and Consumer Sciences

Child and Family Development Option (H40110MA)

· Core Courses:

7400:602	Family in Lifespan Perspective	3
7400:605	Developmental Parent-Child Interactions (online)	3
7400:607	Family Dynamics	3
7400:610	Child Development Theories	3
7400:665	Development in Infancy and Early Childhood	3

Option Electives

Select 6 credits from the following courses with approval of advisor (if a course has been taken at the undergraduate level, other courses must be selected):

7400:501	American Families in Poverty (online)	
7400:504	Middle Childhood and Adolescence	1
7400:506	Family Financial Management	1
7400:540	Family Crisis	1
7400:541	Family Relationships in the Middle and Later Years	1
7400:542	Human Sexuality	1
7400:546	Culture, Ethnicity, and the Family (online)	1
7400:548	Before and After School Child Care	1
7400:560	Organization and Supervision of Child-Care Centers	1
7400:596	Parent Education (online)	1
7400:688	Practicum in Family and Consumer Sciences	;

· Cognate Electives

Select 7 credits with approval of advisor from within the School of Family and Consumer Sciences OR from a cognate area outside the School, OR from a combination of the two.

٠	Thesis	or Pro	ject (select	one):
---	--------	--------	--------	--------	-------

7400:694	Master's Project	5
7400:699	Master's Thesis	5
	Total	40

Clothing, Textiles and Interiors Option (H40104MA)

· Core Courses:

7400:634	Material Culture Studies	3
7400:639	Theories of Fashion	3
7400:677	Social Psychology of Dress and the Near Environment	3
 Options Ele 	ctives (select 13 credits with approval of advisor):	
7400:518	History of Interior Design I	4
7400:519	History of Interior Design I	3
7400:523	Professional Image Analysis	3
7400:525	Textiles for Apparel	3
7400:527	Global Issues in Textiles and Apparel	3
7400:536	Textile Conservation	3
7400:537	Historic Costume	3
7400:538	History of Fashion	3
7400:631	Problems in Design	1-6
7400:688	Practicum in Family and Consumer Sciences	3
7400:696	Individual Investigation in Family and Consumer Sciences	1-6
1400.090	inuividual investigation in Family and Consumer Sciences	1-0

· Cognate Electives:

Select 6 credits with approval of advisor from courses within the School of Family and Consumer Sciences OR from a cognate area outside the School OR from a combination of the two.

•	Thesis	or	Project	(se	lect	one):
---	--------	----	---------	-----	------	-----	----

	,

Geology

Admission Requirements

In addition to the graduate application and official transcripts applicants should submit three letters of recommendation and a statement of purpose.

Master of Science

- · Complete a minimum of 30 credits of which at least 10 credits shall be at the 600 level and no more than two in research problems and six in thesis research.
- In all geology M.S. degree programs except Engineering Geology, at least 22 graduate credits shall be geology courses.
- · A proficiency exam is taken during the student's first semester in the M.S. program. Students who demonstrate a lack of knowledge in areas related to their thesis topics may be required to take additional or remedial courses as suggested by the examining committee. Students may not begin formal thesis work until the proficiency exam has been completed. (Formal thesis work includes the thesis proposal and/or thesis research credits) Field camp can be taken for graduate credit; however, it will not count toward the 30 credits for the M.S. in the geology and geophysics specializations.
- Core Requirements

e e r e r te qui		
3370:680	Seminar in Geology	2
3370:699	Master's Thesis	6

· Oral presentation and defense of thesis.

Degree Specialization

The program of each individual will be adapted to his/her career objectives.

Geology (337000MS)

The minimal background for admission without deficiency should include a six-credit geology field camp course and equivalents to courses in mineralogy, petrology, structural geology, sedimentology/stratigraphy, and any two upper level geology courses

Students should have completed the equivalent of a minimum of six semester courses in introductory chemistry, physics, biology, calculus or equivalents; including at least one semester of calculus, physics and chemistry. All courses should be taught for science/mathematics/engineering majors.

The academic background of each incoming graduate student will be reviewed during the student's first semester by the graduate advisor, thesis advisor, and department chair to determine whether background deficiencies exist for his/her planned program of study.

Earth Science

(337001MS)

Equivalents of the current geology courses for the University's B.A. in geology are required. Course program will be selected to provide the student with a well-rounded background in lithosphere, hydrosphere and atmosphere. Those who will be teachers must take 5500:780 Seminar in Curricular and Instructional Studies: Earth Science, or equivalent.

Geophysics (337002MS)

Equivalents of the geology, cognate science and mathematics requirements for the University's B.S. in geophysics are required.

Engineering Geology (337003MS)

This program is for the graduate engineer and geologist who wishes to broaden expertise in the other field. The entering student who has some deficiencies in either engineering or geology may have to satisfy one or more of the following requirements while proceeding with graduate studies. A committee of engineering geology faculty will determine appropriate coursework on an individual basis.

	3370:101	Introductory Physical Geology	4
	3370:210	Geomorphology	3
	3370:350	Structural Geology	4
	3450:221,2,3	Analytical Geometry Calculus I, II, III	12
	4300:201	Statics	3
	4300:202	Introduction to Mechanics of Solids	3
	4300:313	Soil Mechanics	3
	4300:314	Geotechnical Engineering	3
	Required courses:		
			40

Graduate Geology Courses	18
Graduate Engineering Courses	

Environmental Geology (337004MS)

Equivalents of the University's B.S. degree in natural science (biology, chemistry, geology, mathematics, or physics) or engineering, plus the equivalent of the University's minor in geology and Geology Field Camp I and II are required. As many as eight credits may be selected from engineering, biology and/or geography with the approval of a geology advisor.

History

Master of Arts

(340000MA)

Admission Requirements

Students applying for admission to the M.A. program must have a minimum undergraduate grade-point average of 3.0. The applicant's average in history courses should be substantially higher. Applicants must also have completed at least 24 semester or 36 quarter hours in history courses at the undergraduate level. An application to the M.A. program consists of the following:

- an application form:
- a letter of intent, stating the applicant's reasons for wishing to pursue graduate work and the fields of history which the applicant intents to study;
- scores on the Graduate Record Examination, General Aptitude Test;
- a writing sample, preferably a research paper from a history class;
- three letters of recommendation, preferably from faculty who know the applicant well.
- Applicants whose native language is not English must also score at least 580 on the Test of English as a Written Language (TOEFL), at least 240 on the Test of English as a Spoken Language (TSE), and take the Test of Written English (TWE).

Application materials must be received by February 1 if seeking departmentallybased funding. Applicants not seeking departmentally-based funding must have application materials submitted by June 1.

Degree Requirements

- Satisfactory completion of a minimum of 30 credits of graduate study in history, of which only six may be in individual reading.
- Concentrated study of three fields, two of which must be chosen from the followina:

Ancient	America to 1877
Medieval	United States Since 1877
Europe, Renaissance to 1750	Europe, 1750 to present
History of Science	Comparative Non-Western History*
Public History	World History

The third field must be chosen from the above history fields or from an approved cognate discipline.

- *The Comparative Non-Western History field includes East Asia, South Asia, Middle East, Africa, and Latin America. Students who choose this field as their first, second, or third MA field must focus, through coursework, on two of these four geographical areas (for example, Middle East and Latin America). The comprehensive exam (one for the field as a whole) for a student who takes Comparative Non-Western as their first or second field will incorporate materials from the two geographical regions he or she chose.
- The student must pass written examinations in two of the three fields. The third field requirement will be met by at least seven credits of coursework at the graduate level, completed with a GPA of 3.0.
- 3400:689 Historiography (3 credits)
- 3400:601 Graduate Research Seminar in History (4 credits)
- Twenty-three credit hours of 600-level coursework, at least 16 credits of which must be in seminars. Seminars must be chosen to satisfy one of the following options

Option I

Three reading seminars, the research seminar, and a thesis read and approved by two faculty members. This option is strongly encouraged for students intending to pursue further academic training in history.

Option II

Three reading seminars, the research seminar, and a research paper read and approved by two faculty members. Students taking this option must enroll in 3400:602 MA Option Paper Completion in the semester they complete their option paper.

BA/MA Program in History (340001MA)

This is an accelerated five-year BA/MA program. After successfully completing this program a student will receive a bachelor's degree as well as a master's degree in history. Under the supervision of faculty advisers in history a student in the program will finish the core course requirements and most of the electives for the bachelor's degree in the first three years. During the third year of the baccalaureate degree a student will formally apply to the program through the Graduate School. Upon acceptance, a student will be cleared to complete the remaining electives of the bachelor's degree and 30 credits of graduate coursework for the master's degree in the last two years. A student will be eligible for a graduate assistantship only in these last two yearsand must be registered for at least nine graduate credits in each of those semesters.

Bachelor of Arts in History

- the General Education requirement* and the second year of a foreign language;
- a minimum of 32 credits of history courses, which include:

Core Requirements:

3400:310 Historical Methods (3 credits)

At least six credits from each of the following fields: Field I United States and Canada Field II Europe

Field III Ancient, Asia, Latin America, Africa

Flectives

Additional elective credits to total at least 32 credits**

Upper-level requirement:***

A minimum of six credits must be at the 400-level and in two different fields.

Notes:

*Courses in World Civilizations as well as Humainities in the Western Tradition (3400:21) and Humanities in the World since 1300 (3400:211) may not be used to meet major requirements in History

With the approval of the Department of History undergraduate adviser a History major may apply up to six credits of coursework in related disciplines (cognate courses) toward the 32 credits required for the History major. Cognate credit, however, shall not be substituted for either Historical Methods *Transfer students must take a minimum of 14 credits of history coursework at UA and must have

a minimum of 16 credits in 300- and 400-level classes.

- Graduate coursework will include:
- In the fourth vear:

3400:689 Historiography (fall semester) plus any two courses which offer credit at both the 400- and 500-level but will receive credit for them at both the undergraduate and graduate levels.

In the fifth vear:

Option I: Three reading semianrs, one followed by a writing seminar, with the writing seminar paper read and approved by two faculty members.

Option II: Two reading-writing seminar sequences under different professors with the writing seminar paper of the student's choice read and approved by two faculty members.

Option III: Two reading seminars, one writing seminar, and a thesis which must be read and approved by two faculty members.

(Students intending to go on to the doctoral program should select Option II or Option III, preferably Option III)

To complete the program a student must:

- Finish all undergraduate General Education requirements;
- Complete the second year (or its equivalent) of a foreign language;
- Earn 32 undergraduate credits in history;
- Earn 30 graduate credits in history (not including 3400:690 Teaching Practicum);
- Pass written comprehensive examinations in at least two fields from the following list:

Ancient	America to 1877
Medieval	United States Since 1877
Europe, Renaissance to 1815	Europe, 1750 to present
History of Science	Latin America
Public History	East Asia
South Asia	Africa
Middle East	World History

 Earn at least seven credits in a third field from the list above or in a cognate field approved by the director of graduate studies.

Mathematics

Master of Science – Mathematics

(345000MS: Non-thesis Option) (345000MST: Thesis Option)

Admission Requirements

In addition to the graduate application and official transcripts applicants must submit three letters of recommendation and a statement of purpose. Applications are accepted on a rolling basis.

Goals: The program is designed to give students a solid foundation in graduatelevel mathematics, provide hands-on experience in problem-solving and the uses of technology, and to allow returning mathematics teachers to upgrade their qualifications

Administration: Upon admission to the program, each student will undergo a review. Deficiencies in any mathematical area will add to the number of credits required for graduation. Core requirements already satisfied will be replaced by approved electives.

Program Requirements: A minimum of 30 graduate credits, after completion of any deficiency courses, are required.

· Core requirements (18-19 credits):

Cororoquio		
3450:510	Advanced Linear Algebra	3
3450:513	or Theory of Numbers	3
3450:512 3450:522	Abstract Algebra II Advanced Calculus II	3 3
3450:621	Real Analysis or	3
3450:625	Analytic Function Theory	3
3450:636	Advanced Combinatorics and Graph Theory	3
A statistics cou	irse selected from:	
3470:550	Probability	3
3470:551	Theoretical Statistics I	3
3470:561	Applied Statistics I	4
3470:651	Probability and Statistics	4

Thesis Option (minimum of 30 credits)

In addition to the placement review and core requirements, at least six credits of electives approved by the graduate advisor, three credits in 3450:692 Seminar in Mathematics, and three credits in 3450:699 Master's Thesis must be completed.

Nonthesis Option (minimum of 30 credits)

In addition to the placement review and core requirements, at least eleven (or twelve) credits of electives approved by the graduate advisor must be completed.

Master of Science – Applied Mathematics (345001MS: Non-thesis Option) (345001MST: Thesis Option)

Admission Requirements

In addition to the graduate application and official transcripts applicants must submit three letters of recommendation and a statement of purpose. Applications are accepted on a rolling basis.

Goals: This program is designed to train students in the formulation, analysis, and solution of mathematical models in a variety of application areas.

Administration: Upon admission to the program, each student will undergo a review process to determine competency in undergraduate core mathematical areas and background in at least one junior-level or higher course in engineering or physics. If necessary, the appropriate course(s) will be added to the required course list for the student.

Porgram Requirements: A minimum of 30 graduate credits, after the completion of deficiency courses, is required.

· Core Requirements (18 credits):

3450:621 3450:627 3450:633	Real Analysis Advanced Numerical Analysis I Methods of Applied Mathematics I	3 3 3
• Group 1 - A	t least one course from this list must be taken:	
3450:625 3450:628 3450:632	Analytic Function Theory Advanced Numerical Analysis II Advanced Partial Differential Equations	3 3 3
• Group 2 - A	t least two courses from this list must be taken:	
3450:634 3450:635 3450:730	Methods of Applied Mathematics II Optimization Advanced Numerical Solution of Partial Differential Equations	3 3 3
Theorie Ont	ion	

Thesis Option

In addition to the placement review and core requirements, at least six credits of electives approved by the graduate adviser, three credits of 3450:692 Seminar in Mathematics, and three credits of 3450:699 Master's Thesis must be completed.

Nonthesis Option

In addition to the placement review and core requirements, at least twelve credits of electives approved by the graduate adviser must be completed.

Coordinated Program (415001PHD)

Coordinated Engineering Applied Mathematics program for the Doctor of Philosophy in Engineering degree between the College of Engineering and the Department of Theoretical and Applied Mathematics

The faculty in the College of Engineering and the Department of Theoretical and Applied Mathematics have agreed to provide a coordinated program for those grad-

uate students who elect the interdisciplinary field of Engineering Applied Mathematics.

Admission and Degree Requirements

Applicants for the Engineering Applied Mathematics Program must have their graduate application and credentials evaluated by one of the departments in the College of Engineering and the Department of Theoretical and Applied Mathematics. The Admission and Degree Requirements for the Doctor of Philosophy in Engineering, as given in the *Graduate Bulletin* (see page 48, College of Engineering), shall apply to all applicants for the Engineering Applied Mathematics Program.

BS/MS Program in Mathematics

(345010MS: Non-thesis Option) (345010MST: Thesis Option)

This is an accelerated five-year BS/MS program. After successfully completing this program, a student will receive a bachelor's degree in either mathematics or applied mathematics as well as a master's degree in mathematics. Under the supervision of a faculty advisor, a student in the program will finish the core course requirements and most of the electives for the bachelor's degree in the first three years. During the third year of the baccalaureate degree a student will formally apply to the program through the Graduate School. Upon acceptance a student will be cleared to complete the remaining electives of the bachelor's degree and 30 credits of graduate work for the master's degree in the last two years. A student will be eligible for a graduate assistantship only in these last two years and must be registered for at least nine graduate credits in each of those semesters. In this program six of the required senior-level credits for the undergraduate program will be replaced by graduate-level credits. These six credits will be applied to the requirements of both the bachelor's and master's degrees. Further, students in the program may choose to replace nine credits of the open electives for the undergraduate program by graduate-level electives

Graduate coursework will include the following courses:

3450:510	Advanced Linear Algebra or	3
3450:513	Theory of Numbers	3
3450:512	Abstract Algebra II	3
3450:522	Advanced Calculus II	3
3450:621	Real Analysis	3
	or	
3450:625	Analytic Function Theory	3
3450:636	Advanced Combinatorics and Graph Theory	3
3450:692	Seminar in Mathematics	3
3470:550	Probability	3
	or	
3470:551	Theoretical Statistics	3
	or	
3470:561	Applied Statistics I	4
	or	
3470:651	Probability and Statistics	4
0.150.000		•
3450:699	Master's Thesis (for thesis option)	3
A minimum of	Or 20 graduate gradite plue a project paper for pape theorie antian	
A minimum of 30 graduate credits plus a project paper for non-thesis option		

Electives: 8-9 credits

A student must maintain a 3.0 or better grade point average to stay in the program. If a student is not able to do this, then he or she will have the option to complete the regular bachelor's degree program instead of the five-year accelerated plan.

BS/MS Program in Applied Mathematics (345011MS)

This is an accelerated five-year BS/MS program. After successfully completing this program, a student will receive a bachelor's degree in either mathematics or applied mathematics as well as a master's degree in applied mathematics. Under the supervision of a faculty advisor, a student in the program will finish the core course requirements and most of the electives for the bachelor's degree in the first three years. During the third year of the baccalaureate degree a student will formally apply to the program through the Graduate School. Upon acceptance a student will be cleared to complete the remaining electives of the bachelor's degree and 30 credits of graduate work for the master's degree in the last two years. A student will be eligible for a graduate assistantship only in these last two years and must be registered for at least nine graduate credits in each of those semesters. In this program six of the required senior-level credits for the undergraduate program will be replaced by graduate-level credits. These six credits will be applied to the requirements of both the bachelor's and master's degrees. Further, students in the program may choose to replace nine credits of the open electives for the undergraduate program by graduate-level electives.

Graduate work will include the following courses:

3450:621	Real Analysis	3
3450:627	Advanced Numerical Analysis I	3
3450:633	Methods of Applied Mathematics I	3

40 The University of Akron 2013-2014

3450:692 3450:699	Seminar in Mathematics Master's Thesis (Non-thesis option is not available)	3 3
 At least one 	e course from the following:	
3450:625	Analytic Function Theory	3
3450:628	Advanced Numerical Analysis II	3
3450:632	Advanced Partial Differential Equations	3
At least two	o courses from the following:	
3450:634	Methods of Applied Mathematics II	3
3450:635	Optimization	3
3450:730	Advanced Numerical Solution of Partial Differential Equations	3
Graduate E	lectives	6

A student must maintain a 3.0 or better grade point average to stay in the program. If a student is not able to do this, then he or she will have the option to complete the regular bachelor's degree program instead of the five-year accelerated plan.

Music

The degree Master of Music is offered by the School of Music with options in music education, performance, composition, theory, music history and literature, and accompanying.

Admission Requirements

- Students must have earned an undergraduate baccalaureate degree in music or the equivalent as determined by the department.
- The Graduate School's requirements for admission.
- · Three letters of recommendation.
- The performance and accompanying options require an audition on the student's major instrument/voice. Please contact the coordinator of Graduate Studies for an audition time.
- Applicants of composition, theory, and history options must pass departmental diagnostic exams in their area of study.
- The composition option requires the presentation of a portfolio of original compositions to the area coordinator. The theory and history options require presentation of a document showing evidence of scholarly writing.
- The options in music education, music theory, and music history and literature require an interview with faculty in the appropriate area.
- The option in orchestral conducting requires the applicant to successfully pass an interview and audition with the orchestra conducting faculty member and an audition on his/her particular applied instrument.
- Applications are accepted on a rolling basis.

The student should consult with the coordinator of Graduate Studies in Music for additional information regarding the individualized nature of each option.

For the Voice Performance and Piano Accompanying options a proficiency equal to two semesters each of Italian, German, and French is required for completion of the Master of Music degree. There is no substitution for this requirement for the MM Voice Performance. Piano Accompanying degree program (only) may substitute Diction I and II for this requirement. For the History and Literature option proficiency equal to two semesters of German is required for completion of the MM degree. A language other than German may be substituted for the History and Literature language proficiency with approval from the department. For details on how to show language proficiency please contact the Graduate Coordinator for the School of Music.

After completion of all course work, the student must pass an examination covering the graduate program. This examination is individualized for each candidate's unique program.

Composition Option (C50003MM)

· Music core courses - eight credits (to be selected):

	7500:555	Advanced Conducting: Instrumental	2	
	7500:556	Advanced Conducting: Choral	2	
	7500:615	Musical Styles and Analysis I (Chant through Palestrina)	2	
	7500:616	Musical Styles and Analysis II (Baroque through early Beethoven)	2	
	7500:617	Musical Styles and Analysis III (Late Beethoven through Mahler/Strauss) 2	
	7500:619	Theory and Pedagogy	2	
•	Major require	ed courses – 21-23 credits:		
	7500:601	Choral Literature	2	
	7500:618	Musical Styles and Analysis IV (20th Century)	2	
	7500:624	Music History Survey: Music Since 1900	2	
	7500:647	Master's Chamber Recital	1	
	7500:699	Master's Thesis/Project	4-6	
	7510:6—	Ensemble (participation in two ensembles required)	2	
	7520:642	Applied Composition	8	
•	 Additional music courses – zero to two credits. 			

Graduate-level (music) courses, workshops, applied lessons (other than in composition) and/or advanced problems to be selected by the student and advisor.

• Electives – three credits.

To be selected by student and advisor, Areas include graduate-level courses in other disciplines, such as theatre arts, in which the student obtains permission of instructor, or 7520:642 *Applied Composition*.

Degree total: 34-36 credits.

Music Education Option (C50016MM: Thesis Option)

(C50006MM: Nonthesis Option)

Thesis Option – 32 credits

Required Music Education Core Courses – 13-15 credits

7500:611	Foundations of Music Education (fall)	3
7500:612	Practices and Trends in Music Education (summer)	3
7500:614	Measurement and Evaluation in Music Education (spring)	3
7500:614	Measurement and Evaluation in Music Education (spring)	3
7500:699	Master's Thesis/Project	4-6

 Additional music/education courses – select 17-19 credits with approval of music education and graduate advisors. Choices may include the following:

7510:6— 7500:5—/6—	Other music courses	9 4 6 8 2 8
	Educational Foundations and Leadership General Administration	4
	Curricular and Instructional Studies	4

Music Technology Option (C50205MM)

The Master of Music, Music Technology Option is designed to give the student additional exposure to the functional areas of music plus an advanced concentration in music technology and related business. The program provides a framework of conceptual, technical and professional knowledge which will assist the student in career opportunities of fields related to music technology. Students will leave the program with a portfolio of tutorials, recorded works, and/or computer software.

To be selected by student and advisor. Areas include graduate-level courses in other disciplines in which student obtains permission of instructor or 7520:642 Applied Composition.

Degree total: 34-36 credits.

**Two semesters ensemble participation required for degrees completed in two semesters. Four semesters ensemble participation required for degrees completed in four semesters.

Physics

Admission Requirements

In addition to the graduate application and official transcripts applicants must submit three letters of recommendation and a statement of purpose, including a resume. Application materials should be submitted by March 15 for fall enrollment. Applications are accepted on a rolling basis for spring enrollment.

Master of Science (365000MS)

- · Complete a minimum of 30 graduate credits of approved courses in physics. Up to six credits of graduate-level electives outside the department may be included in the program. There is no foreign language requirement for this degree.
- · A cumulative grade-point average of 3.00 or better for all graduate-level credits applicable toward the degree.
- · Complete an approved program of courses which includes the following required courses:

3650:551	Advanced Laboratory I	3
3650:615	Electromagnetic Theory I	3
3650:625	Quantum Mechanics I	3
3650:641	Lagrangian Mechanics	3
3650:661	Statistical Mechanics	3

3650.685 Solid-State Physics I

3

A student preparing for further graduate work in a physical science or for academic or industrial employment should include the following courses in the graduate program:

3650:581,2	Methods of Mathematical Physics I, II	6
3650:616	Electromagnetic Theory II	3
3650:626	Quantum Mechanics II	3
3650:552	Advanced Laboratory II	3

A student must complete at least one of the following two options:

Option A: A formal report, based on an original research project, submitted in a form suitable for publication and approved by a physics faculty committee.

Option B: A master's thesis.

Graduate research participation is strongly encouraged. Up to five credits may be earned in 3650:697 Graduate Research, upon the completion of a graduate research project. One additional credit may, upon approval by the department, be permitted in 3650:699 Master's Thesis for the completion of a master's thesis based on such research. A successful thesis may thus account for up to six of the total of 30 graduate credits required.

Interdisciplinary Option: Chemical Physics

The faculties in the Departments of Physics and Chemistry offer a cooperative option leading to the Ph.D. in chemistry for those graduate students wishing to specialize in the interdisciplinary field of chemical physics.

Admission Requirements

2 2

2

2

2

2

2

Applicants may be admitted with either a baccalaureate or a master's degree in either chemistry or physics. Students pursuing this option are subject to all admission and degree requirements for the Ph.D. in chemistry, as outlined in page 29 of this Graduate Bulletin. The Chemical Physics option is described in detail on page 30.

Students entering the Chemistry Ph.D. program under the auspices of the Physics Department will be expected to have taken some advanced undergraduate chemistry course work (200-level and above), and must be recommended by the chair of the Physics Department. These students must select as research advisor a faculty member in the Physics Department holding a joint appointment in Chemistry. Students with principle preparation in physics may be required to audit certain undergraduate prerequisites for graduate chemistry courses.

Political Science

Master of Arts (370000MA)

Admission Requirements

Admission is open to students who have completed a four-year undergraduate degree with a minimum cumulative grade point average of 3.0 and who fulfill the admission requirements of the Graduate School. Three letters of recommendation (at least two from a faculty member who has worked with the student in the past two years, if applicable) and a personal statement outlining the expected fit between the student's skills and objectives and the department's programs and resources are required.

Application materials should be submitted by March 1 for fall enrollment and by December 1 for spring enrollment.

The Master of Arts in Political Science allows students to focus their study in one of three concentrations: American Institutions, Criminal Justice, or International Studies.

Students may also work toward certificates in Applied Politics in conjunction with their graduate studies in Political Science.

Degree Requirements

· Complete 30 credits of graduate work, including 24 credits at the 600 level, as follows:

Three require	ed core courses:	
3700:600	Scope and Theory of Political Science	3
3700:601	Research Methods in Political Science	3
3700:603	Scholarly Writing and Professional Development in Political Science	3

Two additional departmental seminars, 6 credits (neither Independent Study nor Internship credit counts as a graduate seminar).

Two track-required seminars depending on the track chosen (6 credits)

Nine additional graduate Political Science credits (500 or 600 level)

- Pass a comprehensive written examination covering one concentration: American Institutions, Criminal Justice, or International Studies.
- Complete the following writing requirement:

An Essay of Distinction is a single, article-length, scholarly research paper. This writing requirement will encourage our students to learn how to participate in the debates central to our discipline and complete the program with a superb writing sample that can serve as a foundation for continued graduate work, a conference presentation, a published article, or a deliverable policy analysis.

To complete an Essay of Distinction, students are also required to orally defend their paper to their Faculty Advisory Committee (FAC). All FAC members must approve the topic and pass the paper and oral defense.

Master of Applied Politics (370005MAP)

The Master of Applied Politics, in cooperation with the Ray C. Bliss Institute of Applied Politics, is one of the few programs in the United States focusing on practical politics. It is designed for students interested in efforts to influence political decisions. This includes activities to capture elective public office in partisan contests, influencing legislation, and political organization.

Admission Requirements

Admission is open to students who have completed a four-year undergraduate degree and who fulfill the admission requirements of the Graduate School. Three letters of recommendation (at least one from a faculty member who has worked with the student in the past two years, if applicable) and a personal statement outlining the expected fit between the student's skills and objectives and the department's programs and resources are required. No specific field of undergraduate major is required for admission. The Graduate Record Examination (GRE) is not required. The program is designed to accommodate students taking course work on a part-time basis.

Application materials should be submitted by March 1 for fall enrollment and by December 1 for spring enrollment.

Degree Requirements

- · Complete 39 credits of graduate work, including the following:
- · Core courses 18 credits:

3700:570	Campaign Management I	3
3700:571	Campaign Management II	3
3700:600	Scope and Theory of Political Science	3
3700:601	Research Methods in Political Science	3
3700:672	Seminar: Political Influence and Organizations	3
3700:695	Internship in Government and Politics*	3
3700:695	Internship in Government and Politics*	

- * Three credits required: additional credits will be counted toward elective credit.
- · Elective courses 21 credits (6 credits must be at the 600-level)

Six credits from the following:

3700:540 3700:572	Survey Research Methods Campaign Finance	3
3700:574 3700:577	Political Opinion, Behavior, and Electoral Politics Lobbying	3
3700:655 7600:575	Campaign and Election Law Political Communication	3 3

Fifteen credits of additional course work from above or from approved courses in Political Science, Communication, Public Administration, or other departments.

- · Prepare an applied politics portfolio containing:
- At least two major papers prepared for required courses.
- An applied politics capstone project assigned by the student's advisor.
- · Pass an oral defense of the applied politics portfolio.

J.D./Master of Applied Politics

Admission Requirements

This joint J.D./Master of Applied Politics degree combines the two degrees while allowing students to complete requirements with fewer credits than taking the degrees separately. To be accepted into the program, a student must meet the admission requirements of the School of Law, the Graduate School, and the Department of Political Science.

Degree Requirements

Students must complete the following:

- · J.D. required courses 44 credits
- MAP required courses 24 credits (18 credits core courses; 6 credits required electives)
- Joint Law School/Political Science Course 3 credits

3700:655/9200:655 Campaign and Election Law

J.D. Elective Courses - 32 credits

At least three credits from the following courses:

9200:623	Administrative Law
9200:642	Alternative Dispute Resolution
9200:644	First Amendment Law

9200:645	Non-Profit Tax Entities	3
9200:659	Negotiation	1
9200:662	Media Law	3
9200:664	Local Government Law	3
9200:684	Selected Legal Problems	3 or 4
9200:698	Individual Studies and Research	2-3

MAP Electives - 6 credits

Choose two from the following courses:

3700:502 3700:540 3700:572 3700:574 3700:577 3700:620 3700:630 3700:668	Politics and the Media Survey Research Methods Campaign Finance Political Opinion, Behavior, and Electoral Politics Lobbying Seminar in Comparative Politics Seminar in National Politics Seminar in Public Policy Agendas and Decisions	3 3 3 3 3 3 3 3 3 3
3700:668 3700:690	Seminar in Public Policy Agendas and Decisions Special Topics in Political Science (Applied Politics focus)	3
3700:695	Internship in Government and Politics (in addition to required three credits)	3
7600:575	Political Communication	3

- · Prepare an applied politics portfolio containing:
- At least two major papers prepared for required courses.
- An applied politics capstone project assigned by the student's advisor.
- · Pass an oral defense of the applied politics portfolio.

Psychology

Master of Arts

(375013MA: Industrial/Organizational-Nonthesis Option)

Admission Requirements

Fulfill admission requirements of the Graduate School and the following departmental requirements:

- psychology major or minimally the equivalent of psychology undergraduate minor including a general or introductory course, statistics course, and experimental psychology course;
- GPA of 3.00 in psychology courses;
- Graduate Record Examination General Test;
- three letters of recommendation.
- Application materials must be received by January 15.

Degree Requirements

- Course requirements:
 - completion of graduate psychology courses, including the M.A. core courses or equivalents, specialty area required courses, and electives as specified in the department's graduate student manual;
 - a student is required to maintain at least a 3.0 grade-point average in M.A. content courses as well as overall.
- Other requirements:
- refer to the Department of Psychology Graduate Student Manual for additional guidelines;
- complete and fulfill general master's degree requirements of the Graduate School.

Completion of coursework, practicum and examinations (no thesis required), with a minimum of 41 credits of graduate work.

Public Administration and Urban Studies

Master of Arts in Urban Studies (398000MA)

The master's degree focus is on applied policy. Students receive a contextual grounding of analysis methods and organization implementation methodology for areas of specialization.

Admission Requirements

3

3

3

Admission is open to students who have completed an undergraduate (bachelor's) degree. No specific field of undergraduate major is required for admission. The GPA requirements for consideration for full admission is an overall bachelor GPA of 2.8 or greater, or 3.05 for the last 60 credit hours. Provisional admission may be granted for those with an overall GPA between 2.5 and 2.79. Additionally, applicants must submit the following:

 For students who have an overall GPA below 3.0 a standardized test score from the GRE, GMAT, or LSAT.

- A copy of their current resume (especially important for in-service students to ascertain their professional experience).
- A personal essay explaining why they study and completion of a MA degree will help them with their personal or professional goals.

Admission decisions are made by the department committees as explained in the PAUS Master's Handbook.

Applications are accepted on a rolling basis. For those students seeking a graduate assistantship application materials must be received by July 1 for fall enrollment, November 15 for spring enrollment, and April 1 for summer enrollment.

Degree Requirements

Satisfactory completion of a minimum of 33 credit hours of graduate study, including 18 credit hours of core classes and 15 credit hours in an approved specialization.

Required Core (18 credits)

3980:600	Basic Quantitative Research	3
3980:601	Advanced Research and Statistical Methods	3
3980:615	Public Organization Theory	3
3980:643	Introduction to Public Policy	3
3980:671	Program Evaluation in Urban Studies	3
3980:675	Advanced Techniques in Policy Analysis	3

Specializations: Specializations represent career and/or academic fields of interest. Specializations for the MA are listed in the PAUS Master's Handbook. Some specializations represent the inclusion of certificate programs on campus; some students may work with their advisors to craft a specialization that fits their needs and interests. Students should contact the department office to get a copy of the student handbook.

Thesis: Students are encouraged to consider the option of a thesis. A maximum of six credit hours of thesis course work can be applied to a specialization.

Other: Credit/Non-Credit courses do not count toward the minimum number of credit hours required for graduation.

Master of Public Administration (MPA) (398005MPA)

The Master of Public Administration (MPA) program has been accredited by the National Association of Schools of Public Affairs and Administration (NASPAA) through the 2010-2011 academic year. The MPA program is designed to prepare students for their public service careers in public management and administration, as well as the management of non-profit organizations.

Admission Requirements

Admission is open to students who have completed an undergraduate (bachelor's) degree. No specific field or undergraduate major is required for admission. The GPA requirements for consideration for full admission is an overall bachelor GPA of 2.8 or greater or 3.05 for the last 60 credit hours. Provisional admission may be granted for those with an overall GPA between 2.5 and 2.79. Additionally, applicants must submit the following:

- For students who have an overall GPA below 3.0 a standardized test score from the GRE, GMAT, or LSAT, or MAT.
- A copy of their current resume (especially important for in-service students to ascertain their professional experience).
- A personal essay explaining why the study and completion of a MPA degree will help them with their personal or professional goals.

Admission decisions are made by the department committee as explained in the department handbook.

Applications are accepted on a rolling basis. For those students seeking a graduate assistantship application materials must be received by July 1 for fall enrollment, November 15 for spring enrollment, and April 1 for summer enrollment.

Degree Requirements

Satisfactory completion of a minimum 48 credit hours of graduate study, including 30 credit hours of core classes, 15 credit hours of specialization courses, and three credit hours of internship (3980:695). Students with sufficient professional work experience may petition for a waiver of the internship course, and those students that are granted an internship waiver have a minimum of 45 credit hours for the degree. Procedures for an internship waiver are included in the PAUS Master's handbook.

• Core requirements (33 credit hours):

3	980:600	Basic Quantitative Research
3	980:601	Advanced Research and Statistical Methods
3	980:610	Legal Foundations of Public Administration
3	980:611	Introduction to the Profession of Public Administration
3	980:614	Ethics and Public Service (capstone class)
3	980:615	Public Organization Theory
3	980:616	Personnel Management in the Public Sector
3	980:640	Fiscal Analysis
3	980:642	Public Budgeting
3	980:643	Introduction to Public Policy
3	980:695	Internship

Specializations: Specializations represent career and/or academic fields of interest. Specializations for the MPA are listed in the Master's handbook. Some specializations represent the inclusion of certificate programs on campus; some students may work with their advisors to craft a specialization that fits their needs and interests. Students should contact the department office to get a copy of the handbook.

Thesis: Students are encouraged to consider the option of a thesis. A maximum of six credit hours of thesis course work can be applied to a specialization.

Other: Credit/Non-Credit courses do not count toward the minimum number of credit hours required for graduation.

J.D./Master of Public Administration

The University offers a joint J.D. and Public Administration program. The title is J.D./M.P.A. To be accepted into the program, a student must meet the admission requirement of the School of Law, the Graduate School, and the Department of Public Administration and Urban Studies.

Degree Requirements

Seventy-six credits in law and 30 credits in public administration.

Under this program a student must take 43 credits of required law courses, 32 credits of law electives, and 30 credits of required public administration courses plus an internship of three credits. (Internship is required of any student without professional administrative experience.)

This program reduces the total existing credit hours of the School of Law and Public Administration by nine credit hours (from 85 to 76), while public administration requirements are reduced by 12 credit hours (from 42 to 30).

Sociology

Master of Arts (385010MA: Thesis Option) (385011MA: Nonthesis Option)

The University of Akron and Kent State University offer a joint graduate program in Sociology. Coursework is offered at both campuses, faculty from both campuses serve on students' committees and research projects.

It should be noted that the program seeks to admit students who expect to complete a Ph.D. at The University of Akron, and the curriculum is structured to serve full-time students. Thus, students generally complete the requirements for the master's degree in the process of pursuing the doctorate. It is recommended that students who are not interested in receiving a Ph.D. or who are interested in a part-time program of study consider applying to sociology programs that focus on awarding master's degrees and which are better able to serve the needs of part-time students.

Admission Requirements

The curriculum is designed for fall admission only, and completed application materials must be received by January 15 for those applicants seeking financial support from the department. Applicants not seeking funding must have application materials submitted by March 1.

Specific criteria considered for admission include:

- · Fulfill admission requirements of the Graduate School and department
- Undergraduate cumulative grade point average of 3.0
- GRE General Test
- Personal statement indicating reasons for pursuing a graduate degree in Sociology at The University of Akron
- Three letters of recommendation from persons familiar with the applicant's academic work
- Applicants whose native language is not English must score at least 577 (paperbased) of 233 (computer-based) on the TOEFL.

Note: The admissions committee is unable to consider incomplete applications. Interested applicants are encouraged to visit the department website for further information about the program and the application process.

Thesis Option

3 3

3

3

3

3 3

In addition to meeting the general requirements of the Graduate School, a student working toward the M.A. in Sociology must fulfill the following requirments:

- Complete 35 credit hours of coursework (14 credits of required coursework, 15 credits of electives, and six credits of thesis) with at least a 3.0 grade point average. Only three credit hours taken at the 500-level, and only three credit hours of 697 or 698 can be counted toward the degree.
- · Complete the following required courses:

3850:604	Quantitative Methods in Sociology	4
3850:628	Professional and Ethical Issues in Sociology	3
3850:706	Multivariate Techniques in Sociology	4
3850:722	Early Sociological Thought	3

- Complete six credit hours of thesis (3850:699). No more than six credits will count toward the degree.
- · Completion of master's thesis and successful oral defense of thesis.

Nonthesis Option

In rare circumstances it may be determined by the graduate faculty that the M.A. degree may be completed through the non-thesis option. This terminal degree will be completed through a process focused on intensive substantive training in a specialized area.

In addition to meeting the general requirements of the Graduate School, a student working toward a non-thesis M.A. in Sociology must fulfill the following requirements:

 Complete the following required courses with at least a 3.00 grade-point average:

3850:604	Quantitative Methods in Sociology	4
3850:628	Professional and Ethical Issues in Sociology	3
3850:706	Multivariate Techniques in Sociology	4
3850:722	Early Sociological Thought	3

- Completion of at least 21additional credits of elective coursework. Only six credit
 hours taken at the 500-level and only three credit hours of 697 or 698 can be
 counted toward the degree. Twelve to 15 of these credits must be in a contracted
 specialty area defined in consultation with the student's advisor and approved by
 the Graduate Studies Committee.
- · Pass an oral examination on the specialty area.

Spanish

Master of Arts (358000MA)

Admission Requirements

In addition to the graduate application three letters of recommendation and a statement of purpose must be submitted. Applicants must have a minimum score of Advanced Low on the Oral Proficiency Interview (score must be no more than two years old). Applications are accepted on a rolling basis.

Program Requirements

- Thirty-two semester credits of graduate coursework in Spanish.
- Proficiency level in listening comprehension, speaking, reading, and writing Spanish, and cultural and literary proficiency.
- Final research paper: the candidate will be required to submit a long essay in Spanish reflecting the results of a research project, and to make an oral defense of the essay.

Statistics

Master of Science – Statistics

(347000MS: Non-thesis Option) (347000MST: Thesis Option)

Admission Requirements

Entrance into the program will require the initial completion of the following prerequisites:

Three semesters of calculus or equivalent One semester of Linear Algebra or equivalent.

One semester of Applied Statistics or equivalent.

Applicants must also submit three letters of recommendation.

· Core curriculum:

3470:580	Statistical Data Management	3
3470:651	Probability and Statistics	4
3470:652	Advanced Mathematical Statistics	3
3470:663	Experimental Design	3
3470:665	Regression	3
	Total	16

Thesis requirements (30 credits of graduate work)

In addition to the core curriculum, students must take three credits in 3470:689 Advanced Topics in Statistics, 2-4 credits in 3470:699 Master's Thesis, and 7-9 credits of other approved graduate electives. Upon approval of the thesis by the student's adviser and reader the thesis must be presented in a colloquium to faculty and students.

Nonthesis requirements (33 credits of graduate work)

In addition to the core curriculum, students must take three credits in 3470:689 Advanced Topics in Statistics, 2-4 credits in 3470:692 Statistics Masters Paper, and 10-12 other approved elective graduate credit hours must be completed. Upon approval of the Statistics Master's Paper by the student's adviser and reader, the paper must be presented in a colloquium to faculty and students.

Theatre Arts

The School of Dance, Theatre, and Arts Administration offers a master of arts degree.

Admission Requirements

- · Complete the general requirements for admission to the Graduate School.
- Complete an undergraduate major in the area of proposed graduate work or equivalent work as approved by the coordinator of the graduate arts administration/theatre program.
- Statement of purpose (no more than 300 words) summarizing background and outlining career goals.

All application materials must be received by March 15 for fall enrollment.

Arts Administration Option

- (C80006MA)
- Complete a minimum of 45 credits.
- Required theatre arts courses (30-33) credits:

7850:600 7850:605 7850:665 7850:666 7850:682 7850:691 7850:692 7850:698 7850:699	Research and Writing Techniques Colloquium in the Arts Audience Development Principles of Arts Administration Fund Raising and Grantsmanship in the Arts Arts Administration Policies and Practices Legal Aspects of Arts Administration Internship Master's Thesis	3 3 3 3 3 3 3 6 6	
Required bu	Required business courses (9 credits):		
6200:590 6500:600 6600:600 6600:630	Special Topics in Accounting Management and Organizational Behavior Marketing Concepts or Customer Relationship Management	3 3 3 3	
	related fields (3-6 credits):	5	
Options here include coursework in business, computer science, urban studies, art, music, law, theatre and dance.			
Complete an oral defense of the thesis.			

0-3

General electives

Theatre Option (C80002MA)

(Admissions currently suspended)

(Summer program)

Complete a minimum of 36 credits distributed as follows:

School core courses - 24 credits:

7800:600 7800:641 7800:645 7800:646 7800:658 7800:662	Research and Writing Techniques Problems in Directing Seminar in Dramatic Literature Graduate Acting: Techniques History of Theatre Seminar in Scenic Design	3 3 3 3 3 3
7800:662	Seminar in Scenic Design	3
7800:699	Master's Thesis	6

Graduate electives:

12 credits (to be selected from Theatre Arts, English, Communication, Music, etc., in consultation with the student's advisor or the graduate program coordinator.

College of Engineering

George Haritos, Ph.D., *Dean* Ajay Mahajan, Ph.D., *Associate Dean for Research* Craig C. Menzemer, Ph.D., *Associate Dean for Graduate Studies and Administration*

Mission of the College

The College of Engineering at the University is committed to excellence in undergraduate and graduate education. The College of Engineering was founded in 1914 and is the second oldest college at the University. The College embraces the departments of Biomedical Engineering, Chemical Engineering, Civil Engineering, Electrical and Computer Engineering, and Mechanical Engineering. The current research focus of the College includes: gas turbine technology, filtration technology, nanotechnology, lightweight automobile research, aero-propulsion technology, catalysis, industrial controls, computational mechanics, smart materials, composites and civil structures, and a variety of modeling and simulation issues of engineering problems. During the academic year 1989-90, the College adopted interdisciplinary procedures for the doctoral program offered by the College. The program is truly interdisciplinary in nature.

The mission of graduate education in the College of Engineering is to:

- Train engineers and scientists to solve state of the art technological issues.
- Train students to develop theory, methodology, and necessary experimental skills to investigate emerging issues in engineering and science that effect state and national interests.
- Provide excellence in presenting student findings via theses, doctoral dissertations, and research papers.
- · Train students to be future educators where appropriate.
- · Train students in industrial research where appropriate.
- Train students to work on interdisciplinary teams where appropriate.

As the state positions itself in the forefront of the technology, appropriately trained scientists and engineers are needed in all fields. Our graduate programs provide training that equips students with the maturity and ability to assume leadership roles in technological fields related to the field of engineering. In addition, our programs attract a variety of students from several industries and NASA Glenn Research Center in Northeast Ohio. The College is a partner of the Ohio Aerospace Institute (OAI).

DOCTOR OF PHILOSOPHY IN ENGINEERING DEGREE

The Doctor of Philosophy in Engineering is an interdisciplinary doctoral program offered on a collegiate basis; however, when making application a student must indicate a primary discipline (420000PHD Chemical Engineering; 430000PHD Civil Engineering; 440000PHD Electrical Engineering; 445000PHD Computer Engineering; 460000PHD Mechanical Engineering; or 480000PHD Biomedical Engineering).

Admission Requirements

Applicants for the Doctor of Philosophy in Engineering must hold a bachelor's degree from a program that is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology at the time of graduation, or provide satisfactory evidence of an equivalent academic background to the Dean of the College of Engineering.

Applicants with a master of science degree must provide satisfactory evidence of an equivalent engineering baccalaureate background to the Dean of the College of Engineering.

Applicants must submit official undergraduate transcripts, undergraduate grade point average, three letters of recommendation, and official results of the verbal, quantitative, and analytical portions of the GRE. A statement of purpose should also be submitted. Personal statements or descriptions of post-baccalaureate experience that provide a rationale for the proposed graduate study may also be submitted.

The GRE minimum requirement for admission into a graduate program in the College of Engineering (both master's and doctoral) is 1150. The GRE score is derived by using the following formula: Quantitative Score + ($100 \times 4/3 \times Analytical Score$). The GRE requirement may be waived for students holding degrees from ABET accredited programs (if the department approves).

Applicants with a bachelor's degree must have a cumulative grade-point average of at least 3.0/4.0.

Applicants with a master's degree must have a cumulative graduate grade point average of at least 3.5/4.0.

Applicants whose native language is not English must have a TOEFL score of at least 550 (paper-based) or 213 on the computer-based TOEFL, and also must submit their score on the Test of Written English. Applicants to the Department of Biomedical Engineering must have a TOEFL score of 590 (paper-based) or 243 (computer-based).

Applicants not satisfying the requirements for Full Admission may be classified either as a Provisional Admission or as a Deferred Admission.

Applicants with a bachelor's degree in a discipline other than engineering shall have completed undergraduate coursework in calculus, differential equations, and have one year of classical physics. These students may be required to take additional bridge-up courses depending on their background. Necessary bridge-up coursework will be determined by the admitting department/program graduate committee.

Transfer Credits

A student who has a master's degree from another university or from one of the departments in the College of Engineering may, upon recommendation of the Interdisciplinary Doctoral Committee, transfer up to 24 credits of course work. The course comprising the transfer credits must be identified and itemized on the Plan of Study and must be substantiated by an official transcript from the educational institution that offered the courses.

A student who has completed a non-thesis master's degree, or has graduate credits but has not completed the degree requirements for the master's degree, can transfer a maximum of 24 credits of course work toward the doctoral course requirements.

No more than six credit hours of research or complete thesis credits can be transferred.

Degree Requirements

The University's Academic Requirements (See **Academic Requirements** in this *Graduate Bulletin*) for the Doctoral Degree and the following College of Engineering's academic requirements for the Doctoral Degree must be satisfied.

- An entering doctoral student will have the chair of the Interdisciplinary Doctoral Committee (IDC) in his/her home department/program.
- Student's plan of study should include 96 credit hours and be in accordance with the guidelines established by the student's admitting department/program.
- A Plan of Study will be established by the IDC satisfying guidelines established by the home department/program.
- Identify an interdisciplinary field of study, a dissertation director, and an Interdisciplinary Doctoral Committee before completion of 18 credits of coursework.
- Pass a departmental Qualifying Examination. The purpose of the qualifying examination is to determine admissibility to the doctoral program and any technical weakness.
- Satisfy the language requirement specified by the Interdisciplinary Doctoral Committee.
- Pass a Candidacy Examination. The purpose of the candidacy examination is to test the student's ability to conduct independent research.
- Present an acceptable Dissertation Proposal that describes the proposed research to the Interdisciplinary Doctoral Committee.
- Present and successfully (no "fail" votes) defend the dissertation to the Interdisciplinary Doctoral Committee.

A copy of the Ph.D. in Engineering Program Procedures may be obtained from the office of the Dean of the College of Engineering.

Doctoral Student's Responsibilities

Doctoral students are completely responsible for all aspects of their graduate education. Specifically, these responsibilities include:

- Understanding, adhering to, and implementing the procedures of the Graduate School, as described in The University of Akron *Graduate Bulletin*, and the Interdisciplinary Doctoral Procedures of the College of Engineering.
- Selecting an interdisciplinary program, Dissertation Director, and Interdisciplinary Doctoral Committee.
- Arranging, through the Dissertation Director, all Interdisciplinary Doctoral Committee meetings.
- Initiating, through the Dissertation Director, the forms that monitor their progress toward the doctoral degree.
- · Proposing and executing an accepted Plan of Study.
- Proposing a Research Proposal and executing the proposed research.
- Preparing a scientifically acceptable and comprehensive dissertation whose format meets all the accepted standards of the Interdisciplinary Doctoral Committee, the College of Engineering, and the Graduate School.

Interdisciplinary Fields of Study

The proposal to establish a doctoral program in the College of Engineering, which was approved by the Board of Trustees of The University of Akron and the Ohio Board of Regents in 1967-68, defines the four undergraduate departments (as of 1999, a Biomedical Engineering undergraduate program was approved by the Ohio Board of Regents), Chemical, Civil, Electrical, and Mechanical, as the basic disciplines for the interdisciplinary programs in Environmental Engineering, Materials Engineering, Mechanics, Systems Engineering, and Transport Processes. The objectives of the proposal were to allow doctoral students access to the infrastructure resources of the entire college and permit the interdisciplinary programs to adapt to the changing research and funding environment. Since the approval of the proposal, the interdisciplinary programs. These interdisciplinary programs are broadly defined as follows.

Environmental Engineering includes the study of water and air pollution, environmental health, chemical disposal, waste management, noise control, resource engineering, and appropriate fields of urban planning.

Mechanics includes the theoretical and experimental study of the stresses, strains, and endurance of structures, machines and various materials, mechanics of solids, fluids, solid, and composite materials.

Systems Engineering include the scientific prediction, control, and evaluation of the performance of integrated operational systems, and interaction effects among the components of engineering systems. It includes system analysis and design, operations research, linear and dynamic programming.

Materials Engineering studies the materials from the physical, chemical, and engineering standpoints. Its purpose is to develop a better understanding of the composition, properties, and performance of various materials, and to develop new materials, manufacturing methods, and applications.

Transport Processes include the theoretical and experimental study of the transfer of mass, energy, and power, as related to engineering systems and processes.

Biomedical Engineering studies the theoretical and experimental application of engineering principles to biomedical problems. Some typical areas of interest are signal and image processing, biomechanics, and biomaterials.

Polymer Engineering combines fundamental engineering principles with the structure and rheological properties of polymers to design and analyze polymer processes and equipment.

Engineering Applied Mathematics applies advanced mathematics to technologically significant engineering problems.

Chemical Reactions and Process Engineering studies chemical reactions, homogeneous chemical reactions, heterogeneous chemical reactions, and catalysis as applied to process engineering.

Microscale Physiochemical Engineering studies small particles, surface science, agglomeration, and separation as applied to process engineering.

The interdisciplinary doctoral program has succeeded in providing doctoral students access to the resources of the entire college while providing an economically sound administration for a program that deals with a doctoral population that is much smaller than those for undergraduate or master's degrees.

COORDINATED AND JOINT PROGRAMS

Coordinated Engineering Applied Mathematics program for the Doctor of Philosophy in Engineering degree between the College of Engineering and the Department of Theoretical and Applied Mathematics

(415001PHD)

Admission Requirements

Applicants for the Engineering Applied Mathematics Program must have their graduate application and credentials evaluated by the College of Engineering Dean's Office and the applied mathematics division of the Department of Theoretical and Applied Mathematics. The Admission Requirements for the Doctor of Philosophy in Engineering, as given in the *Graduate Bulletin*, shall apply to all applicants for the Engineering Applied Mathematics Program. Applications to the Engineering Applied Mathematics Program are accepted on a rolling basis.

Degree Requirements

The applicable Degree Requirements for the Engineering Applied Mathematics Program are those given in the *Graduate Bulletin* under the Section **Doctor of Philosophy in Engineering**. These degree requirements include passing a Qualifying Examination, identifying a Dissertation Director, establishing an Interdisciplinary Doctoral Committee, completing a formal Plan of Study, satisfying the University's language and residency requirement, passing a Candidacy Examination, presenting an acceptable Dissertation Proposal, writing a dissertation, and publicly and successfully (no "fail" votes) defending the dissertation before the Interdisciplinary Doctoral Committee.

Students in the Engineering Applied Mathematics Program must pass a departmental Qualifying Examination composed and administered by the participating faculty from the applied mathematics division of the Department of Theoretical and Applied Mathematics and the participating faculty from one of the five departments in the College of Engineering.

The Interdisciplinary Doctoral Committee shall consist of at least six members. It shall have an equal number of faculty with primary appointments in the College of Engineering and participating program faculty from the applied mathematics division of the Department of Theoretical and Applied Mathematics. The participating faculty from the Department of Theoretical and Applied Mathematics must hold joint appointments in the College of Engineering.

Graduate students who elect the Engineering Applied Mathematics Program may proceed directly from their baccalaureate degree to the doctoral degree.

Students participating in the Engineering Applied Mathematics Program must have at least 50 percent of minimum coursework from the College of Engineering and at least 50 percent of minimum coursework from the Department of Theoretical and Applied Mathematics.

Coordinated program for the Doctor of Philosophy in Engineering degree between The University of Akron and Youngstown State University

The University of Akron and Youngstown State University are engaged in a coordinated program with the objective of facilitating graduate study by engineering students residing in proximity to Youngstown State University. This provides the opportunity and convenience of completing some of the requirements for the Doctor of Philosophy in Engineering at The University of Akron through joint counseling and enrollment at Youngstown State University.

Admission Requirements

When an engineering graduate student at Youngstown State University declares an interest in the joint doctoral program, the student shall prepare a letter of intent, with academic credentials, to the dean of engineering at Youngstown State University. The dean of engineering at Youngstown State University shall forward the letter of intent and academic credentials, together with a recommendation, to the dean of engineering at The University of Akron. The dean of engineering at The University of Akron shall have the graduate faculty in the applicant's discipline evaluate the academic credentials and make a recommendation on the academic acceptability of the applicant. If the recommendation is favorable, the student shall be advised to apply to the Graduate School at The University of Akron for formal admission to the Doctoral Program in the College of Engineering at The University of Akron. The dean of Graduate Studies and Research at Youngstown State University shall be kept informed of the progress of the admission procedure. The applicant from Youngstown State University must satisfy the Admission Requirements for the Doctor of Philosophy in Engineering at The University of Akron.

Degree Requirements

The engineering student from Youngstown State University must satisfy the Degree Requirements for the Doctor of Philosophy in Engineering at The University of Akron subject to the following modifications.

One of the members of the Interdisciplinary Doctoral Committee for the joint doctoral program candidate shall be an engineering faculty member from Youngstown State University and normally would be the student's dissertation director, although this is not necessary. The faculty member from Youngstown State University shall have adjunct status at The University of Akron and qualify for Category II graduate faculty membership.

One-half of the coursework and one-half of the research credits may be taken at Youngstown State University. The parity of courses is decided by the faculty on the Interdisciplinary Doctoral Committee when the student submits a proposed Plan of Study. At the Advancement to Candidacy, the Committee recommends official transfer of credits from Youngstown State University to The University of Akron.

Joint program for the M.D. and Ph.D. in Engineering degree between the College of Engineering at The University of Akron and the Northeast Ohio Medical University

(415002PHD)

The College of Engineering and NEOMED provide a coordinated program for those desiring both the M.D. and Ph.D. in Engineering degrees. This program integrates the knowledge and skills acquired by the student in each of the programs. Each individual coordinated degree program is tailored to suit the background and research interests of the student. Additional information may be obtained from The University of Akron Department of Biomedical Engineering or NEOMED.

Admission Requirements

Applicants with a bachelor's or master's degree in a discipline other than engineering or in engineering will be required to meet the Admission Requirements for the Doctor of Philosophy Degree in Engineering. Applicants will be required to have completed the following courses and to have taken the MCAT prior to admission into the coordinated M.D. and Doctor of Philosophy in Engineering program:

M.D.	Principles of Chemistry I and II
M.D.	Organic Chemistry I and II
M.D.	Principles of Biology I and II
M.D., Ph.D.	Classical Physics I and II
Ph.D.	Statics
Ph.D.	Dynamics
Ph.D.	Strength of Materials (or Material Science)
Ph.D.	Basic Electrical Engineering (or Circuits I & II)
Ph.D.	Calculus I, II, III, and Differential Equations

Degree Requirements

To obtain an M.D. degree from NEOMED and a Doctor of Philosophy Degree in Engineering, the student must satisfy NEOMED degree requirements and the College of Engineering's Doctor of Philosophy in Engineering Degree Requirements. This coordinated program does not change the degree requirements for either program.

MASTER OF SCIENCE DEGREES

The degrees of Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, Master of Science in Mechanical Engineering, and Master of Science in Engineering are offered.

Admission Requirements

Applicants for any of these master of science programs must hold a bachelor's degree from a program that is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology at the time of graduation, or provide evidence of an equivalent academic background to the Dean of the College of Engineering and the appropriate department chair.

Applicants must submit an official undergraduate transcript, undergraduate grade point average, three letters of recommendation, and official results of the verbal, quantitative, and analytical portions of the GRE. A statement of purpose should also be submitted.

The GRE minimum requirement for admission into a graduate program in the College of Engineering (both master's and doctoral) is 1150. The GRE score is derived by using the following formula: Quantitative Score + ($100 \times 4/3 \times Analytical Score$). The GRE requirement may be waived for students holding degrees from ABET accredited programs (if the department approves).

Applicants with a bachelor's degree must have an overall grade-point average of 2.75 or better or 3.00 for the last two years (64 semester credits or equivalent).

Applicants whose native language is not English must have a TOEFL score of at least 550 (paper-based) or 213 on the computer-based TOEFL, and also must submit their score on the Test of Written English (TWE). Applicants to the Department of Biomedical Engineering must have a TOEFL score of 590 (paper-based) or 243 (computer-based).

Applicants who do not satisfy the requirements for Full Admission may be granted Provisional Admission or Deferred Admission.

Degree Requirements

The University's Academic Requirements (See Academic Requirements in this *Graduate Bulletin*), the following College of Engineering requirements and the department's academic requirements must all be satisfied for the master of science degrees in the College of Engineering.

- Identify a three-member Advisory Committee including a major advisor before completion of 9 credit hours of coursework.
- Complete a formal Plan of Study that is acceptable to the Advisory Committee with a minimum of 24 credit hours of coursework of which no more than 6 credits are special topics courses. The formal Plan of Study may be revised upon approval of the Advisory Committee.
- Successfully (no "fail" votes) defend the thesis before the Advisory Committee, or have the Engineering Report approved by the Advisory Committee, or successfully complete the appropriate department's nonthesis option requirements.

Master of Science in Chemical Engineering (420000MS: Non-thesis Option) (420000MST: Thesis Option)

Applicants with a bachelor's degree in a discipline other than engineering shall have completed coursework in calculus, differential equations, have one year of classical physics, and must complete:

4200:200	Material and Energy Balances	4
4200:225	Equilibrium Thermodynamics	4
4200:321	Transport Phenomena	3
4200.021	Transport i Tichomena	0
4200:330	Reaction Engineering	3
	Total	14
	IOlai	14

An overall GPA of 3.0 must be maintained for these courses. These undergraduate engineering courses may be taken prior to graduate admission, or concurrently if the student has Full Admission or Provisional Admission and is enrolled for at least 9 graduate credits.

Thesis Option

*Chemical Engineering students in both degree options are expected to attend and to participate in the department's seminars.

**Students without BS in Chemical Engineering are required to take 4200:535, 4200:541.

Five Year BS/MS Chemical Engineering Program (420001MS)

The five year BS/MS program in Chemical Engineering provides superior undergraduate students with the opportunity to complete an M.S. in Chemical Engineering with one additional year of study beyond their B.S. Chemical Engineering degree at The University of Akron. The program is only available to B.S. Chemical Engineering students at The University of Akron. Applications are accepted in the Spring of the junior year.

Master of Science in Civil Engineering (430000MS: Non-thesis Option) (430000MST: Thesis Option)

Applicants with a bachelor's degree in a discipline other than engineering shall have completed coursework in calculus, differential equations, have one year of classical physics, and must select and complete undergraduate coursework from one of four undergraduate disciplines. These undergraduate engineering courses may be taken prior to graduate admission, or concurrently if the student has *full admission* or *provisional admission*, and is enrolled for at least 9 graduate credits.

*The program is limited to not more than three 500-level courses in engineering. Not more than two 500-level courses can be applied to the 15 credits of mechanical engineering coursework.

Master of Science in Engineering (410000MSE: Non-thesis Option) (410000MSET: Thesis Option)

This program is intended for the student whose educational objectives cannot be met by the four departmental master of science programs or those who wish to specialize in biomedical engineering, polymer engineering, or engineering management.

Admission

Except for students in biomedical engineering and polymer engineering, students should declare in writing to the Dean of Engineering of their intention to study toward the Master of Science in Engineering degree. Upon admission, the dean will appoint an advisory committee consisting of three faculty members who are selected from at least two different departments.

Thesis Option

Engineering Courses	12
Approved Mathematics or Science	3
Approved Electives	9
Master's Thesis	6
Total	30

The thesis must be successfully (no "fail" votes) defended before the Advisory Committee.

Nonthesis Option

The thesis must be successfully (no "fail" votes) defended before the Advisory Committee.

*The program is limited to not more than three 500-level courses in engineering. Not more than two of the 500-level courses can be applied to the 15 credits of mechanical engineering coursework.

**The specific courses for the Polymer Engineering Core Courses, Polymer Engineering electives, and Approved Engineering and Science Courses are listed under the College of Polymer Science and Polymer Engineering

Engineering Management Specialization (410001MSE)

This is an evening program which is intended primarily for practicing engineers who are working full-time and wish to upgrade their engineering and management skills.

Engineering Courses ¹	21
Management Courses	15
Engineering Management Report ²	2
Total	38

Required Courses (3 credit hours each)

6200:601	Financial Accounting ³
6400:602	Managerial Finance ⁴
6500:652	Managing People in Organizations ³
6600:620	Strategic Marketing Management ³
6600:620	Strategic Marketing Management ³

Elective

Choose three credits of 600 level College of Business Administration courses.

¹Engineering courses can be taken from any engineering department with approval of engineering advisor

²The Engineering Management Report must be approved by the advisor and Advisory Committee. One member of the committee shall be from the College of Business Administration.

³More advanced graduate business courses shall be required of students who have completed similar undergraduate courses. This determination shall be made by the Assistant Dean and Director of Graduate Programs, College of Business Administration.

46200:601 is a prerequisite for 6400:602.

ENGINEERING CERTIFICATE PROGRAMS

The College of Engineering offers graduate certificate programs in addition to master's and doctoral degree programs. Certificates in Environmental Engineering, Geotechnical Engineering, Structural Engineering, Transportation Engineering, and Motion and Control Specialization are available. Descriptions of these and all graduate certificate programs can found on page 87 of this bulletin under Interdisciplinary and Certificate Programs of Study.

College of Education

Susan G. Clark, Ph.D.,J.D., Interim Dean Susan J. Olson, Ph.D., Associate Dean for External Programs, Grants, Budgets, and Personnel

Mission Statement

The University of Akron's College of Education is a community of professionals whose purpose is to provide leadership for community well-being through standardsetting programs that enhance teaching, learning, and human development; research and inquiry; and outreach. We develop ourselves and others through continuous improvement and through a commitment to these core components of professional practice and scholarship: knowledge, technology, diversity, and ethics.

Purpose

The aim of the College of Education is to meet the comprehensive charge of our mission through initial and advanced teacher education programs as well as programs in administration, counseling, technical education, higher education, sport and exercise science, athletic training for sports medicine, and several teacher education programs housed outside the College. Programs include a balanced offering of a foundation in general education, intensive study in the content area, and those professional courses and other learning experiences which attempt to combine theory and practice.

The education program and courses presented in the bulletin reflect the most current courses and program offerings. For further information about specific programs and requirements, contact the College of Education Office of Student Services Advisement Office (330) 972-7750.

Doctor of Philosophy Degree

Four Doctor of Philosophy degrees are offered through the College of Education. The Ph.D. in Elementary Education and the Ph.D. in Secondary Education are offered in the Department of Curricular and Instructional Studies. The Collaborative Ph.D. in Counseling Psychology and the Ph.D. in Counselor Education and Supervision are offered in the Department of Counseling. The degrees will be awarded to the student who fulfills the general requirements of the Graduate School and passes the general and specific requirements of the Doctor of Philosophy degree program.

Doctorate in Education Degree

A Doctorate in Education degree is offered through the College of Education, Department of Educational Foundations and Leadership (admissions currently suspended). The Ed.D. degree is awarded to the student who fulfills the general requirements of the Graduate School and passes the general and specific requirements of the Doctorate in Educational Leadership degree program.

Doctoral Residency Requirements

The minimum residency requirement for a doctoral candidate in all programs is two consecutive semesters of full-time study and involvement in departmental activities. Full-time study is defined as 9 to 15 semester credits, except for graduate teaching and research assistants for whom full-time is specified by assistantship agreements. The summer sessions may count as one semester, provided that the candidate is enrolled for a minimum total of six semester credit hours per combined summer terms.

Continuous Doctoral Program Enrollment

All students admitted to the doctoral program must register for a minimum of one semester hour of graduate credit as approved by their advisors during each fall and spring semester. Individual departments may exceed this minimum requirement. Doctoral students should consult their advisors about additional requirements.

Doctoral Programs in the Department of Curricular and Instructional Studies

Doctor of Philosophy in Elementary Education

(520000PHD)

Doctor of Philosophy in Secondary Education (530000PHD)

The Doctor of Philosophy in Elementary Education and the Doctor of Philosophy in Secondary Education degrees offered by the Department of Curricular and Instructional Studies are designed to meet the needs and interests of persons in pre-K, elementary, middle, secondary, postsecondary, higher education, and other institutions or agencies that might have educational/learning programs. A qualified student can, through consultation with an advisor and within the expertise and resources of the department, design a specialization to meet his/her career objectives.

Program Description

The program is predicated on the belief that an effective instructor evolves from a well-planned program containing exposure in three basic areas:

- 1. Professional Education in Curricular and Instructional Studies
- 2. Foundation Studies
- 3. Area of Specialization

Listed below and of particular significance are the five sequential steps necessary for participation in the doctoral program:

- 1. Successful Completion of Admission Requirements (see below)
- 2. Completion of the Program Course Distribution Plan with Academic Advisor
- 3. Completion of the Program Coursework (see course requirements below)

4. Written and Oral Comprehensive Examinations

These Comprehensive Examinations should be taken after the completion of the first two-thirds of coursework and prior to the completion of three-fourths of the program with the approval of the student's advisor. Written and oral comprehensive examinations are offered each semester.

5. Successful Completion of Dissertation

- a. Select dissertation chair and committee
- b. The dissertation proposal must receive approval of the dissertation committee.
- c. The candidate's Dissertation Chair must be from the Department of Curricular and Instructional Studies and have Category II graduate faculty status.

Admission Requirements

Admission to the Curricular and Instructional Studies Ph.D. program is limited to a select number of students each year. Admission deadlines are March 1 for fall admission and October 1 for spring admission. More candidates apply for admission than the Department has the resources and capacity to admit. Therefore, applying for admission to the doctoral program is no guarantee of admission, and applicants to the program must recognize the possibility of denial.

Criteria for admission to the Curricular and Instructional Studies Ph.D. program are as follows:

- Graduate and undergraduate degrees from accredited universities and in programs considered to offer adequate preparation for the Ph.D. in Curricular and Instructional Studies (Ph.D., Elementary Education; Ph.D., Secondary Education).
- 2. Acceptable grade point averages in a completed graduate degree (at least a 3.5 GPA on a scale of 4.0).
- 3. Completion of application to the Ph.D. program that includes:
 - a. Application to Graduate School.
 - b. Official transcripts: undergraduate, master's, certificate/licensure programs, and any previous doctoral study.
 - c. Letter of Intent/Statement of Purpose. The Letter of Intent/Statement of Purpose should indicate career goals and research interest and must be compatible with departmental resources and goals.
 - d. Agreement to Advise Form. Candidates are responsible for obtaining faculty sponsors to complete Agreement to Advise Form.
 - e. Current vita
 - f. Three letters of academic reference.

- 4. Demonstration of doctoral level writing ability as evidenced by a Miller Analogies Test (MAT) score of 399 or higher or a 550 on the verbal portion of the Graduate Record Exam (GRE). Scores more than five years old will not be accepted for evaluation of the doctoral application.
- Controlled departmental writing sample assignment. This requirement will be administered after the March 1 and October 1 application deadlines. Consult the Department of Curricular and Instructional Studies Office at (330) 972-7765 for specific writing sample date(s).
- 6. After March 31 (for Fall admission) or October 31 (for Spring admission) all candidates will be asked to schedule a twenty minute interview with the doctoral committee of the Department of Curricular and Instructional Studies. Candidates may also be judged on depth and breadth of knowledge, poise, thinking ability, ability to communicate verbally, relevant educational work experience, uniqueness, potential success in desired field, and motivation and commitment to a position of educational leadership. The opportunity to interview is no guarantee of admission.
- In certain cases an applicant may be required to take coursework on the graduate level at The University of Akron before a final decision on his/her application for admission is made.
- 8. Candidates must have at least three years of teaching experience. (This does not apply to postsecondary/technical adult education area candidates.)

Note: Applicants who score less than 399 on the MAT or 550 on the verbal portion of the GRE, do not successfully complete the controlled writing sample, and do not meet the GPA requirement will not be admitted to the doctoral program.

Degree Requirements

The degree will be awarded to the student who, in addition to fulfilling the general requirements of the Graduate School, has met the following specific requirements:

- · Completion of all departmental admission requirements.
- Completion of a minimum 92 graduate credits including the doctoral dissertation. A student considered deficient in any area may be required to take additional courses.
- Completion of a foundation studies program designed to prepare the student before specialization.
- Completion of a test in a language judged not to be the student's native tongue and excluding English. (See section on Additional Research Competency.)
- · Completion of six credits in a cognate area.
- Completion of a comprehensive written and oral examination.
- Completion of a dissertation comprising 20 credits. Credits beyond the 20 hours
 may not be applied to the degree. The oral examining committee must be constituted of at least five full-time graduate faculty members, one of whom must be
 from outside the College.
- · Pass the general requirements for the Doctor of Philosophy degree.

Additional Research Competency

In addition to successfully completing the approved program of courses, the Ph.D. student must display competency in one of the following areas. Coursework taken to develop the competency may not be applied to the total number of hours required in the Ph.D. program.

a. Foreign Language

A reading knowledge of one foreign language. The Department will work cooperatively with the Department of Modern Languages to determine that the student does in fact demonstrate the ability to read in a foreign language i.e., a language other than the student's native language and excluding English.

b. Statistics/Research Methods

Students will successfully complete a minimum of 9 hours of additional advanced statistical/research methods courses approved by student's advisor.

c. Professional Publication

The preparation of a research or position paper accepted for publication by a refereed professional journal. The student may serve as senior or co-author. The advisor must file a letter of approval of the published writing. This letter shall present the advisor's review of the academic integrity of the published article in terms of adequacy in meeting this requirement. A letter of acceptance for publication shall be considered as published.

Curricular and Instructional Studies Ph.D. Course Requirements

Curricular and Instructional Studies Core (15)

5500:600	Concepts of Curriculum & Instruction (or 5400:xxx)	3
5500:605	Seminar in Trends and Issues in Curriculum & Instruction (or 5400:xxx)	3
5500:800	Professional Doctoral Seminar in Curricular and Instructional Studies	3
5500:880	Seminar in Curricular and Instructional Studies	3

Three additional hours will be selected in the area of Curricular and Instructional Studies with advisor approval.

Social-Philosophical Foundations (15)

5100:600	Philosophies of Education (or 602 or 604)	3
5100:620	Psychology of Instruction for Teaching and Learning (or 5100:624 or	
	5400:500)	3
5100:701	History of Education in American Society (or 5100:703)	3
5100:705	Seminar in Social/Philosophical Foundations of Education	3
5100:723	Teaching Behavior and Instruction (or 5100:721 or 710)	3
Research Fou	ndations (18)	
5100:640	Techniques of Research	3
5100:740	Research Design	3
5100:741	Data Collection Methods	3
5100:742	Statistics in Education	3
5100:744	Qualitative Methods I	3
	or	
5100:801	Seminar I: Exploratory/Qualitative	3
5100:745	Qualitative Methods II	3
	or	

5100:801 Seminar: Empirical or Seminar II: Ethnographic/Historical or Case Study Research or Legal Research and Writing or another advisor-approved course for 3 credits.

Students must take either 5100:744 and 5100:745 or 5100:801and 5100:801.

Area of Specialization: 18 credit hours

Cognate Area Outside of Education: 6 credit hours

Dissertation: 20 credit hours

Total Program: 92 credit hours

Additional coursework taken to develop a competency area may not be applied to the total number of hours required in the Ph.D. program.

Doctoral Programs in Counseling

Collaborative Ph.D. Program in Counseling Psychology

(565000PHD)

The Collaborative Program in Counseling Psychology allows the student a choice of entry points. Students with a master's degree in counseling, guidance and counseling, psychology, school psychology, or a related field may enter through the Counseling Department of the College of Education. Students with a baccalaureate degree may enter through the Psychology Department of the Buchtel College of Arts and Sciences. Students receive exposure to both colleges through shared coursework and faculty involvement with dissertations. Students of both departments are expected to attain a level of broad scientific competence in the core areas of psychology; the biological, social, cognitive-affective, and individual bases of human behavior. Practicum and internship experiences are required of all students and range from skill building in basic psychological assessment and counseling to a year-long, full-time internship in an applied setting. The Collaborative Program in Counseling Psychology is accredited by the American Psychological Association.

The Department of Counseling offers a four-year, full-time Counseling Psychology program leading to a doctoral degree. Program emphasis is strongly placed on a scientist-practitioner model of training. Beyond the basic core areas of psychology students are expected to establish specific competencies in theory, research, and practice of Counseling Psychology. Academic preparation incorporates the study of theoretical approaches to counseling and psychology, supervision, vocational psychology, professional issues and ethics, statistics, and research design. Research and publication are strongly encouraged. Graduates typically seek teaching, research, and other mental health agencies.

Admission to the Collaborative Program in Counseling Psychology is handled through the department associated with the student's chosen entry point. Students must fulfill both departmental and Graduate School admission requirements.

Admission Requirements—College of Education Ph.D.

- A Graduate School application and an official transcript of all undergraduate and graduate coursework from each college or university attended must be completed and returned to the Graduate School.
- A minimum combined score on the Graduate Record Examination (GRE) General Test (verbal and quantitative sections) of 1100 is recommended.
- A grade point average of 2.75 or above earned on all completed undergraduate work or a 3.0 or above on the most recent 64 semester hours of undergraduate work is required. A grade point average of 3.25 or above on all graduate work is required.
- Applicants are required to submit a vita outlining educational and professional experiences.
- Applicants are required to submit a declaration of intent outlining their occupational goals and their interest in and commitment to the counseling psychology field.

- Applicants must submit a minimum of three letters of reference attesting to success in the field and probable academic success at the doctoral level.
- · Finalists are required to interview with program faculty, either in person or via telephone.

All application materials must be received by the department by December 1.

Departures from the program may be made only with the approval of the counseling psychology program faculty. Students may be considered for admission to counseling psychology only if they have earned a master's degree in counseling, guidance and counseling, psychology, school psychology, or a related field.

Required Courses

5100:648	Individual and Family Life-Span Development	3
5100:742	Statistics in Education	3

5600:899	Doctoral Dissertation (minimum)	15
	Language Requirement	8
	Minimum Total Credit Hours Required	114
	· · · · · · · · · · · · · · · · · · ·	

Students register for dual listed courses (3750/5600) under their home department code.

The comprehensive written examination is prepared, administered, and graded by program faculty.

At least one core Counseling Psychology faculty member from each department is required to participate on the student's dissertation committee.

Internship sites must be approved by the Collaborative Program Internship Committee. Internships must include 2,000 post-master's hours and be completed in less than two years.

Ph.D. in Counselor Education and Supervision

(560000PHD: Counselor Education and Supervision)

(560009PHD: Marriage and Family Counseling/Therapy)

The doctoral degree in Counselor Education and Supervision is designed as advanced training for students who hold a master's degree in counseling or a related field. The degree has two tracks, each with a different emphasis: (1) Counselor Education and Supervision and (2) Marriage and Family Counseling/Therapy. Students in both tracks are expected to attain Advanced Practica, Internships, comprehensive examinations, and dissertation work. The minimum credit hour requirement for the Ph.D. in Couselor Education and Supervision is 100 to 120 depending on the track (Minimum of 100 credit hours for Counselor Education and Supervision and a minimum of 120 credit hours for Marriage and Family Counseling/Therapy).

The Counselor Education and Supervision track is accredited by the Council for Accreditation of Counseling and Related Education Programs (CACREP), and the Marriage and Family Counseling/Therapy track is accredited by the Commission on Accreditation of Marriage and Family Therapy Education (COAMFTE).

Admission Requirements

- Graduate School Application
- · Official undergraduate and graduate transcripts
- · Official Graduate Record Examination (GRE) score report
- · Three letters of recommendation
- · Department of Counseling Application Supplement Form
- · Professional resume/vita

All application materials are due in the Department of Counseling no later than January 15. Doctoral students are only admitted one time per year, beginning each fall semester.

A minimum of 60 semester hours of the total 120 hours must be taken after the student is admitted into the doctoral program in Counselor Education and Supervision. For further program details and specific admission requirements, contact the Department of Counseling at (330) 972-7777 or 7779.

Doctorate in Educational Leadership

(570000EDD)

(Admissions to this program are currently suspended)

The Department of Educational Foundations and Leadership bears a special responsibility for preparing P-16 leaders to the degree that its graduates have unique opportunities to shape organizational goals, to influence the character of educational programs, and to affect institutional performance. The department's programs are based on the strengths of the total College and University. Professional knowledge and skills of administration are developed as they relate to larger issues of P-16 educational policy and purpose.

Admission Requirements

- · Application to Graduate School
- Letter of application to include the nature of the applicant's interest in the program and future career goals
- Graduate Record Examination (GRE): Total preferred score over 1000 (must have been taken within the past five years)
- Official transcripts: undergraduate, masters, certificate/licensure programs, and any previous doctoral study
- · 3.25 GPA masters
- Current curriculum vitae/resume
- Three letters of reference addressing the applicant's organizational, research, and communication skills

Application materials must be submitted by March 1 for fall admission and October 15 for spring admission.

Applicants who make the first cut, based on review of the application package above, will be invited to campus to provide the following:

- Structured interview
- · Proctored writing sample

MASTER'S DEGREES

Programs leading to the degree of M.A. in Education or M.S. in Education.

The student who expects to earn the master's degree must meet the general requirements for admission to the Graduate School and must be qualified to hold a standard teaching license for certain programs. Exceptions to this latter requirement will be made for the qualified student who does not wish to teach or perform duties in the public schools provided the student presents or acquires an appropriate background of study or experience. The student who expects to earn the master's degree in guidance and administration also should have had successful teaching experience. Students must demonstrate those verbal/written expression abilities necessary for successful progression through the program unless student is eligible for accomodations. The student must receive a pass grade on the relevant Master's Comprehensive Exam if required.

No more than six credits of workshops or institutes can be used to satisfy degree requirements.

The student must complete a minimum of nine credits in foundation studies in education.*

5100:600	Philosophies of Education	3
5100:602	or Comparative and International Education	3
5100:604 5100:620	or Topical Seminar in the Cultural Foundations of Education Psychology of Instruction for Teaching and Learning	3 3
5100:624 5100:640	or Seminar: Educational Psychology Techniques of Research	3 3

*Students in some counseling programs may choose other options - see advisor.

Counseling

Admissions to the master's programs in Classroom Guidance for Teachers, Marriage and Family Counseling/Therapy, and School Counseling will be twice a year (application deadline of March 15 for summer and fall semesters and October 1 for spring semester).

Applications to the master's program in Clinical Mental Health Counseling are accepted on a rolling basis. Applicants are strongly urged to apply as early as possible. For applicants who have complete application materials on file and who are selected for an interview, admission interviews usually begin in January for fall admission cohort and September for spring admission cohort. New admits will not be accepted once the program reaches cohort capacity.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council of Higher Education Accreditation (CHEA), has conferred accreditation on the Clinical Mental Health, Marriage and Family, and School Counseling programs. In addition, the Marriage and Family Counseling/Therapy program is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE).

Admission Requirements

- Graduate School Application
- · Official transcripts from institutions attended
- · Three letters of recommendation.
- · Department of Counseling Application Supplement Form
- · Interview will be required for applicants who meet admission criteria

Classroom Guidance for Teachers (560008MA) (560008MS)

This course of study leads to an expanded knowledge of how guidance and counseling services benefit students and others in public school settings. Note that numerous areas of concentration are available to students. This is not a licensure program. Any changes in the agreed-upon program must be approved by the student's advisor.

Special Education (M.A.) (561000MAED)

The 30-33 hour graduate program in special education is designed for those individuals who currently hold an undergraduate degree and Intervention Specialist licensure. The program is divided into three options. The first option (Option I) is for individuals seeking only a Masters in Special Education. The second option (Option II) contains coursework providing focus on Pervasive Developmental Disabilities/Autism. The third option (Option III) provides specific coursework designed to focus on providing behavioral support in the school setting. Completion of the Master's of Arts program does not lead to licensure in special education.

Admission Requirements

Applications to the master's program in Special Education must be completed and submitted at least six weeks (domestic) or six months (international) before the beginning of the term for which admission is sought in order to allow for adequate processing time.

Master of Science in Curriculum and Instruction (M.S.) with Licensure Options

(For those without a teaching credential or those who seek to add Intervention Specialist)

This program is a Master of Science degree, which leads to licensure in a chosen teaching field and is open to highly qualified students who hold a B.A., B.F.A., or B.S. degree. It is designed to give the student concentrated study in one of the licensure areas listed for high school (grades 7-12), multi-age (grades P-12), vocational family and consumer science (grades 4-12), or intervention specialist (grades P-3 or K-12).

The University of Akron offers adolescent/young adult licensure (grades 7-12) in the following fields:

- Integrated Social Studies
- Integrated Language Arts
- · Life Science
- Farth Science
- · Life and Earth Science
- · Life Science and Chemistry

- Life Science and Physics
- Chemistry
- · Physics
- · Chemistry and Physics
- Earth Science
- Earth Science and Chemistry
- · Earth Science and Physics
- Integrated Mathematics

Specializations for Multi-Age (P-12) licensure include:

- · Foreign Languages (French or Spanish)
- Visual Arts
- Drama/Theatre
- Physical Education
- Specializations for Vocational (grades 4-12) licensure include:
- Family and Consumer Science/Home Economics (admissions suspended)

Intervention Specialist (Mild/Moderate and Moderate/Intensive) licensure is K-12.

The Early Childhood Intervention Specialist provides licensure for children with disabilities in preschool through grade three.

All requirements for licensure must be met. Candidates may need additional subject area coursework to meet ODE licensure requirements, including mandated coursework in reading

Admission Requirements

Graduate School:

- · Completed application for Graduate School
- · Students must have an overall 2.75 grade point average to be fully admitted
- · Provisional admission may be granted to those students who have a 2.5 to 2.74 grade point average

College of Education Teacher Education Program:

- · Completed teacher education program application
- · Competency in reading comprehension, writing, and mathematics as evidenced by an earned bachelor's degree from an accredited college or university
- Speech and hearing test
- Evidence of basic computer literacy
- Two letters of recommendation
- BCI (Bureau of Criminal Investigation) and FBI clearance

Applications should be made simultaneously. See the Office of Student Services, Zook Hall 207, call (330) 972-7750 or visit the following for more information:

http://www.uakron.edu/education/academic-programs/CIS/how-to-apply.dot

Applications are accepted on a rolling basis.

Teacher Education Program

The central theme of The University of Akron's Teacher Education Program is "Educator as Decision Maker." This was chosen because the complexity of teaching is increasing and the professional knowledge base is growing. Decision-making is stressed in the standards-based programs that prepare teachers and other school personnel for professional practice. Initial teacher preparation programs are aligned with the Ohio Standards for the Teaching Profession, Specialized Professional Association Standards. Advanced Programs for practicing teachers are aligned with the Ohio Standards for the Teaching Profession. Specific key assessments embedded in coursework must be completed to demonstrate that students meet these standards. For more complete information about the teacher education program please consult the College of Education Office of Student Services at (330) 972-7750.

Minimum credits required for degree

(a) Prerequisite: Admission to the Master's with Licensure program and teacher education program (b) Prerequisite: Admission to the Master's with Licensure program and teacher education program and 5500:617

(c) Prerequisite: Approval of Student Teaching Committee, based upon approved application to student teaching, passing PRAXIS II subject test, and approved portfolio

Teaching Field Requirements

Candidates in the Master's with Licensure program must also meet teaching field requirements as established by departmental faculty and approved by the appropriate specialized professional associations and the Ohio Board of Regents. For additional information about specific program requirements please consult the Office of Student Services at (330) 972-7750.

Student Portfolio

Students admitted to their selected College of Education program and beginning their professional education coursework fall 2005 and thereafter will complete a student portfolio. Specific key assessments for the portfolio are often completed as part of a course, clinical experience, or field experience, and must be judged acceptable by the instructor before credit is awarded for the experience connected to that particular portfolio entry. The portfolio must also be submitted for acceptance before student teaching and again prior to program completion.

Clinical and Field-Based Experiences

All teacher education candidates, including those in the master's with licensure programs, are required to participate satisfactorily in clinical and field-based experiences prior to recommendation for licensure. These integrated and developmental clinical and field-based experiences are designed to provide teacher education students with opportunities to apply theory and skills related to their areas of licensure. Field-based experiences are planned in diverse settings and provide comprehensive early and ongoing field-based opportunities in which candidates may observe, assist, tutor, instruct, and/or conduct research. Field experiences may occur in offcampus educational settings.

Student teaching is a full-time opportunity that provides candidates with an intensive and extensive culminating clinical experience in an approved public or private school for either twelve weeks (adolescent to young adult) or sixteen weeks (intervention specialist, multi-age, or vocational family and consumer science licensure). Candidates are immersed in the learning community and are provided opportunities to develop and demonstrate competence in the professional roles for which they are preparing. Placements are made in appropriate sites at the discretion of the Office of Student Teaching and Field Experiences in consultation with program faculty and district leaders. All students must have approval of the Student Teaching Committee to be placed for student teaching. Committee approval requires that the student submit an approved application for student teaching, evidence of a passing score or scores on the appropriate PRAXIS II subject area test or tests, and evidence of approval of his/her portfolio.

Educational Foundations and Leadership

Educational Administration

The Department of Educational Foundations and Leadership offers a master's degree program in general administration which is not directed toward a particular administrative license. With the help of an advisor and approval of the Graduate School, courses may be substituted and/or waived to create specialized options. Requirements of the standard program and examples of two such specialized programs are listed below.

General Administration (Standard Program) (570100MA) (570100MS)

(Admissions to this program are currently suspended)

(Admissions	to this program are currently suspended)	
 Foundation 	n – 12 credits:	
5100:600	Philosophies of Education or	3

 Curriculum 	and Supervision – 6:	
5170:609 5170:610	Principles of Curriculum Development Supervision of Instruction	3 3
	Total:	33 credits
The student	will be required to pass a portfolio assessment by a thre	e-member

The student will be required to pass a portfolio assessment by a three-member full-time faculty panel in order to qualify for graduation.

The Principalship (570104MA) (570104MS)

45-53

The Department of Educational Foundations and Leadership offers a 30 hour Master's Degree Program in the Principalship. With the help of an advisor and approval of the Graduate School, courses may be substituted and/or waived to create specialized options. Requirements of the Principalship Master's Degree Program in Educational Administration are listed below.

Admission Requirements:

No supplemental materials in addition to submission of the graduate application and official transcripts are required for admission. Applications to the master's program in Principalship must be completed and submitted at least six weeks (domestic) or six months (international) before the beginning of the term for which admission is sought in order to allow for adequate processing time.

Degree Requirements:

		Total:	30 credits

The Principalship Licensure Program is an option in educational administration designed to prepare a candidate for an Ohio license to practice as a school principal and is built on two components: the Principalship master's degree and those post-master's courses listed below.

The Principalship master's degree program and the post-master's licensure courses have been aligned with the Educational Leadership Constituents Council (ELCC) standards specific key assessements embedded in coursework and must be completed to demonstrate that students meet these standards.

Post-Master's Licensure Courses - 12 credits:

5170:602	Management of Physical Resources	3
5170:603	Management of Human Resources	3
5170:695/696	Principal Internship	3 credits each

To obtain a license to practice the work of a school principal through the College of Education, the candidate will have a total of 42 post-baccalaureate hours, a master's degree, completion of a supervised two semester internship in the area in which the candidate seeks the license, successful passage of the state licensing examination, and completion of a statement of good moral character.

Administrative Specialists (570006MA) (570006MS)

The Department of Educational Foundations and Leadership offers programs leading to Educational Administrative Specialist licenses granted by the Ohio Department of Education. Each of these specialist licensure programs consists of a general administration master's degree and a post-master's block of required courses.

3

(Admissions to this program are currently suspended)

The Department of Educational Foundations and Leadership offers a Superintendent Licensure-only program. The license builds from the Principalship Master's Degree and the Principalship Licensure programs. Requirements for the Superintendent License are listed below.

5170:608	School Finance and Economics	3
5170:704	Advanced Organizational Leadership	3

5170:707	The Superintendency	3
5170:732	Public and Media Relations in Educational Organizations	3
5170:795/796	Superintendency Internship	3 credits each

To obtain a license to practice the work of a school superintendent in the State of Ohio, through the College of Education, the candidate will have a total of 60 post-baccalaureate hours, a master's degree, three years of experience practicing under a valid principal license, completion of a supervised two semester internship, successful passage of the state licensing examination, and good moral character.

Higher Education Administration (570102MA) (570102MS)

All applicants to the program should have previously earned a bachelor's degree. Special admission for concurrent studies toward a master's degree and the higher education certificate may be allowed for persons currently employed in higher education.

Admission Requirements

Persons wishing to pursue a master's degree in Educational Administration-Higher Education Option must apply to the Graduate School for admission to the program. In addition to the completed application to the Graduate School, applicants should have a minimum 2.75 GPA, completion of the Graduate Record Exam (GRE) within the past five years with a minimum combined verbal and quantitative score of 280 and a 3.5 analytical writing score. Applications are accepted on a rolling basis.

Students must successfully complete a master's comprehensive examination for the Educational Administration-Higher Education Option.

Educational Foundations (M.A.)

Specialized Options:

- Instructional Technology
- · Educational Psychology (admissions suspended)
- Social/Philosophical Foundations of Education
- Assessment and Evaluation

This Master's degree program area is designed for either the student interested in improving present educational skills or the student interested in educational or instructional positions in business, industry, and social services. The student's program of study will be determined jointly by the student and advisor. The program consists of:

- · College Core Foundation Studies (nine credits)
- Program Requirements for the specialization selected above (minimum of 15 credits)
- Outside Department (minimum of six credits except for Instructional Technology option)
- Master's Comprehensive Examination (electronic portfolio for Instructional Technology and Assessment and Evaluation)
- Election of master's thesis (5100:699), or master's problem (5100:698), or an additional six semester credits of coursework. Students choosing to do a master's thesis or master's problem require 30 semester credits to graduate. Students choosing to do only coursework require 36 semester credits to graduate (except for Assessment and Evaluation which requires 30 semester credits to graduate).

Admission Requirements

No supplemental materials in addition to submission of the graduate application and official transcripts are required for admission to the specialized options in Educational Foundations. Applications are accepted on a rolling basis.

Instructional Technology Option (30 credits) (510001MA)

The graduate program in Educational Foundations emphasizing Instructional Technology has been designed to assist its students in becoming competent, employable professionals, capable of making a significant contribution to the field. The graduate curriculum of 30 semester hours provides students with exposure to a wide range of emerging technologies, while still ensuring the basic competencies required of all practitioners. The program directly addresses the rapidly accelerating changes in the field of interactive and Web 2.0 technologies while being rooted in instructional design principles. The focus is on K-12 educators working in the field or recent graduates. Students are required to complete an ePortfolio demonstrating their application of instructional technology in the field as well as their expertise in their graduate classes. The program is offered in a blended format with some classes fully online and some a combination of face-to-face and online.

Master's degree graduates of the Instructional Technology program have found employment as technology facilitators and coaches in school districts, technology resource personnel in K-16 educational institutions, training specialists and instructional designers in business, education and government, as well as multimedia developers and specialists. An endorsement for K-12 teachers in Technology Facilitation is available and is embedded into the coursework of this graduate degree program.

Technology Facilitation Endorsement (K-12 Computer Technology Endorsement)

The Graduate K-12 Computer Technology (Technology Facilitation Endorsement) is intended for teachers who wish to serve as a technology integration facilitator or technology coach for colleagues in their schools and districts.

The endorsement is obtained through an application process to the Ohio Department of Education and upon approval will be added to your teaching license.

This endorsement is only available to individuals who currently have or who are simultaneously getting an initial Ohio license/certificate e.g. in Early Childhood, Middle Level Science, Adolescent/Young Adult Social Studies, etc.). This endorsement can be completed with a master's degree in Instructional Technology in the Department of Educational Foundations and Leadership (330-927-7773). Individual school districts, not the State of Ohio or The University of Akron, determine the extent to which the endorsement is applicable to their needs and requirements.

There is only one Computer Technology endorsement offered within the IT masters degree program, the Graduate K-12 Computer Technology Endorsement. Specific key assessments in coursework must be completed to demonstrate that students meet these standards. This endorsement follows the ISTE TF standards for Technology Facilitation This endorsement is designed to prepare teachers to be effective users of technology in teaching practice of their colleagues at building and district levels. It is not intended to develop skills in computer repair, network maintenance or computer programming languages.

Educational Psychology Option (30-36 credits)

(510002MA)

(Admissions to this program are currently suspended)

The cognitive theory and research underlie much of the reform movement in education and the allied professions. The graduate program in Educational Foundations emphasizing Educational Psychology emphasizes a strong understanding of cognition, motivation, teaching, learning, and individual differences and is designed to assist students to become more competent practitioners in a wide range of contexts in education and allied professions.

Social/Philosophical Foundations of Education Option (30 credits) (510003MA)

This interdisciplinary graduate program is designed to facilitate the development of professional educators' critical, interpretative, and normative perspectives of the interrelations between educational institutions and society. This program includes the academic disciplines of anthropology of education, comparative/international education, cultural studies in education, history of education, philosophy of education, and sociology of education. Students collaborate with their advisors in selecting one or more of the above disciplines to create a graduate program tailored to their needs, interests, and professional aspirations. Students may be either encouraged or required to study with faculty in other departments or institutions to develop interdisciplinary programs and perspectives.

Graduates of the program can earn a Master of Arts in Education degree in preparation for careers in both traditional and non-traditional educational settings and for further doctoral study in anthropology of education, comparative/international education, cultural studies in education, history of education, philosophy of education, and sociology of education. Graduates are more employable in positions that require in-depth understanding of the broader social contexts of educational policy.

Assessment and Evaluation Option (30 credits) (510004MA)

The graduate program in Educational Foundations emphasizing Assessment and Evaluation prepares teachers and other educators to be leaders in the area of school-based assessment and evaluation. Students in the program will develop skills in assessing a variety of student outcomes and in conducting classroom, school or building-level, and district-level evaluations.

Teaching and Training Technical Professionals

The major objective of the teaching and training technical professionals program is to prepare the instructor and other educational personnel for postsecondary educational institutions, industry, and public and private agencies engaged in the education and training of technicians and middle-level workers. All courses are also available fully online.

Admission Requirements

The Department of Educational Foundations and Leadership requires no supplemental materials in addition to submission of the graduate school application and official transcripts for admission to the master's degree program in Teaching and Training Technical Professionals. Applications are accepted on a rolling basis.

Physical Education

Physical Education Option (555000MA) (555000MS)

(Admissions to this program are currently suspended)

The graduate program in physical education, requiring 33 credits, is designed for post-baccalaureate and in-service physical educators. Training received in this pro-gram comes from two (2) areas: the foundations (6 cr.) and the program studies area of physical education (25 cr.). The emphasis in this curriculum is to provide answers to the questions "what I can learn about teaching and what decisions do I face as a professional educator?" Students will be assigned an advisor with whom they should consult on a regular basis. In fact, advisor approval is required on certain course work.

Exercise Physiology/Adult Fitness Option (555003MS)

This graduate program, requiring a minimum of 34 credits, is designed to prepare students for advanced study in exercise physiology and future employment in adult fitness, corporate fitness and cardiac rehabilitation programs. Special attention is also given to knowledge and practical skills necessary for students preparing for American College of Sports Medicine certifications.

Admission Requirements

In addition to the graduate application and official transcripts applicants must submit a statement of purpose and three letters of recommendation. Applications to the master's program in Exercise Physiology/Adult Fitness must be completed and submitted at least six weeks (domestic) or six months (international) before the beginning of the term for which admission is sought in order to allow for adequate processing time.

School Nurse License Program

(Admissions to this program are currently suspended)

- Admission Requirements—Sequence 2
- · R.N. License
- · B.S.N. Degree
- Admittance to Graduate School
- Admittance to College of Education (Graduate Studies)
- Admittance to College of Nursing (Special/Non-Degree status)
- · Selected coursework in College of Education and College of Nursing
- · Supervised School Nurse experience
- · Course work distributed over the following areas:

Community health; family counseling; mental and emotional health, current topics in health education; methods of teaching/instructional design; learner and learning process; evaluation and measurement of learning; principles, comprehensive school health; advanced pediatric/adolescent assessment; advanced nursing research.

To satisfy the above requirements, an applicant must complete at least the following 12 graduate credits or their equivalents of College of Education core courses listed below:

5570:520	Community Health	2
5570:521	Comprehensive School Health	4
5570:523	Methods and Materials of Teaching Health Education	3
5100:742	Statistics in Education	3
	Subtotal	12

Applicant must also complete 11-16 graduate credits of College of Nursing courses listed below

8200:650	Advanced Pediatric/Adolescent Assessment	3
8200:613	Nursing Inquiry I	3
8200:553	School Nurse Practicum I	5
	(can be waived based upon experience and submission of a portfo	lio)
8200:554	School Nurse Practicum II (required of all school nursing students)	5
	Subtotal	11-16
Optional if cor	ntinuing on to a master's degree in the College of Nursing:*	
8200:608	Pathophysiological Concepts	3
0000-656	Depression of the child and Adalassant Haalth Numing	2

8200:656	Pharmacology for Child and Adolescent Health Nursing	3
	Total graduate credits for licensure	23-28

Admission Requirements—Sequence 3

Admittance to the College of Nursing MSN Program—Child and Adolescent Track

· Admittance to College of Education (Special/Non-Degree status)

· Completion of the MSN Program in the Child and Adolescent Track

 Plus 12 gra 	duate credits of College of Education core courses:	
5570:520	Community Health	2
5570:521	Comprehensive School Health	4
5570:523	Methods and Materials of Teaching Health Education	3
	Elective within College of Education	3
	(upon approval of College of Education school nurse licensing advisor)	
	Total	12

Master's degree plus licensure.

*The school nurse practicum is contained in the MSN program in 8200:651 and 655 which fulfill the requirements of 8200:553 and 554

College of Business Administration

Ravi Krovi, Ph.D., Dean James J. Divoky, D.B.A., Associate Dean William Hauser, Ph.D., Interim Assistant Dean and Director of Graduate Programs

MASTER'S DEGREES

The College of Business Administration (CBA) offers graduate programs which lead to the degrees of Master of Business Administration, Master of Science in Accountancy, Master of Taxation, and Master of Science in Management. The University has offered programs of study in business since 1919, initially through the Department of Commerce and since 1953 through the College of Business Administration. Programs in graduate studies were begun in 1958. All CBA undergraduate and graduate programs are accredited by the Association to Advance Collegiate Schools of Business (AACSB).

The CBA seeks to fulfill the educational and professional needs of its 500 graduate students, business organizations, and the community. Most of the graduate programs offered are flexible evening programs designed to serve students who are fully employed professionals and wish to pursue a master's program on a part-time basis. Students often choose to enroll full-time to complete a master's program more quickly.

Admission

Policy

The applicant must meet one (1) of the following eligibility requirements which are in conformity with the Graduate School and the college's accrediting agency (AACSB).

- · Hold a domestic baccalaureate degree from a regionally accredited college or university and have a total index score of 1,050 or more based upon the overall undergraduate grade point average (GPA)(A=4.0) times 200 plus the Graduate Management Admissions Test (GMAT) score.
- · Hold a domestic baccalaureate degree from a regionally accredited college or university and have a total index score of 1,100 or more based on the junior-senior (i.e., last 64 semester or 96 quarter credits) GPA (A=4.0) times 200 plus the GMAT score.
- · Hold a degree from outside the United States and have an academic standing of first or high second class, satisfactory evidence of competence in English (i.e., TOEFL score of 550 or above) and a score of at least 500 on the GMAT.
- Students who have taken the GRE, MCAT, or LSAT may request consideration for admission based upon those entrance exam scores. To be considered the applicant should score at or above the 50th percentile on each section of the exam. Applicants holding either a master's, doctoral, or juris doctor degree from an American university may request consideration for admission based on the graduate degree. The individual's total application will be reviewed, and the graduate admissions committee reserves the right to right to require the GMAT for admission of the applicant.

An admission interview will be required of students wishing to be admitted to the MBA program coming directly from an undergraduate program with no professional work experience.

Students admitted on a provisional basis must achieve a composite index of 1,150 based on foundation course GPA times 200 plus GMAT score.

Even though an applicant is eligible for consideration, an offer of admission is not guaranteed. Since staff, facilities, and resources are limited, a determination will be made as to the number of applicants that can be adequately served among those eligible for admission. As a result, offers of admission may be limited to only the most qualified of eligible applicants as determined by the CBA Graduate Admissions Committee. The committee considers the following factors: difficulty of the applicant's undergraduate program; length of time and activities since graduation; and the percentile ranking on the GMAT.

In rare instances, the applicant who has taken the GMAT but does not meet requirements may be considered for admission. Also, those applicants previously denied admission may, upon presentation of new information, be reconsidered. In either case, the applicant must petition the CBA Graduate Admissions Committee in writing and provide those reasons relevant to the situation which demonstrate the likelihood of success. In all cases, the burden of proof is on the applicant.

Under the regulations of the Graduate School, eligible applicants who have been extended an offer of admission by the CBA Graduate Admissions Committee are recommended to the dean of the Graduate School for either "full" or "provisional" graduate status. Students admitted with "provisional" status who have not attained an overall 3.0 GPA upon completion of 12 graduate credits will be dismissed from the program. Students admitted as non-degree seeking are restricted to enrolling in a maximum of nine credits of Gateway courses only.

Procedure

GMAT scores should be sent to the Director of Graduate Programs in Business, College of Business Administration, The University of Akron, Akron OH 44325-4805 (institution code 1829). The GMAT is administered world-wide and the applicant should register for it sufficiently in advance to the filing of the graduate application to avoid delay of evaluation of the application for admission. Those who have taken the GMAT more than five years ago are normally required to retake the exam.

The CBA Graduate Admissions Committee meets monthly and considers all completed applications on hand at the time of each meeting. Applicants will be informed of admission decisions once the dean of the Graduate School has acted upon the recommendation of the CBA Admissions Committee.

Degree Requirements

To be awarded any master's degree from the College of Business Administration, a student must:

- · Meet the time and grade-point requirements of the Graduate School.
- · Complete the minimum credits in each of the degree program descriptions.
- · Complete all course and program requirements of applicable master's program.

Questions regarding these Policies, Procedures, and Requirements may be sent via e-mail to gradcba@uakron.edu. Further information may be found at the College of Business Administration website: <u>mba.uakron.edu</u>.

Transfer Policy

The College of Business Administration will permit nine credits of comparable graduate credits to be transferred in a graduate business program. These credits must be pre-approved by the CBA Director of Graduate Programs. This nine credit policy also applies to second degree applicants.

Second Degree

For a student who has already obtained one master's degree in business, it is possible to pursue another degree in the college provided that: (1) no second MBA is to be obtained; (2) the desired program (degree requirements) is specifically approved in advance by the CBA Director of Graduate Programs; and (3) no fewer than 21 new credits are earned for the second degree.

MBA Program Description

The MBA program is the principle graduate program of The University of Akron's College of Business Administration. The objective of the MBA program is to provide a diverse group of men and women with the skills, multi-stakeholder strategic perspective, and innovative spirit required to lead in organizations that operate within a global business environment characterized by intense competition and increasing levels of complexity and uncertainty. The MBA is intended to be a generalist degree with emphasis on multi-functional knowledge rather than areas of specialization. Students should not expect to conduct heavily specialized study of a particular functional area within the MBA program. Students who typically experience the highest value added from an MBA program are those individuals with professional work experience and/or non-business undergraduate or graduate degrees. Graduates of The University of Akron's MBA program should possess:

The analytical and conceptual skills needed to identify and cope successfully with ambiguous and unstructured business problems;

A solid foundation in relevant business functions, with emphasis on the integration of the functions and an understanding of how multiple business functions are linked in the formulation and execution of business strategy;

A strong ethical perspective, an appreciation of workplace and marketplace diversity, and an ability to communicate in an effective, persuasive manner;

An understanding of the legal, political, regulatory, economic and technological environment; and,

An awareness of the global economy within which businesses operate and an understanding of the forces that drive competition and sustainability within the global economy.

In order to accomplish these goals, the graduate faculty of the College of Business Administration is committed to providing a high quality graduate business school experience. That experience will have a strong professional and real-world focus, characterized by collaborative work and emphasis on the practice of management. The faculty is intent on creating a stimulating academic environment with a balance between theory and application. Faculty strive to create a classroom setting that is varied,interesting, and permeated by the concepts of globalization, professional integrity and ethics, leadership, and planned change.

There are many skills students must acquire throughout an MBA program in addition to technical competencies within particular functional areas. These skills include communication and interpersonal skills, analytical reasoning and critical thinking skills, and leadership skills. These skills enable students to develop their professional identity and are woven into the program as follows:

Communication

- 1. Ability to present views and concepts clearly in writing;
- 2. Ability to objectively critique and judge the value of written work;
- 3. Ability to present views and concepts clearly through oral communication.

Collaborative work and interpersonal skills

- Ability to understand group dynamics and work effectively with people from diverse backgrounds;
- 5. Ability to manage and resolve conflict;
- 6. Ability to organize and delegate project tasks.

Critical thinking and creative and effective problem solving

- 7. Ability to solve structured and unstructured problems;
- 8. Ability to deal effectively with imposed pressures and deadlines.

The basics for this group of skills may be acquired in prior bachelor degree programs. A variety of opportunities are provided to students throughout the program to develop these skills. A student's progress is to be documented and evaluated by self-evaluation, peer evaluation, and faculty evaluation.

- Gateway Courses:
- All are required unless waived at the time of admission. Gateway Courses may not be used as concentration or action-based learning courses.

3250:600	Foundation of Economic Analysis (available as an online course)	3
6200:601	Financial Accounting	3
6400:602	Managerial Finance	3
6400:655	Government and Business	3
6700:695	Internship in Business	3

The Gateway Internship is required for students with no prior professional experience and does not count toward the degree requirements.

All courses beyond the Gateway Courses require demonstrated proficiencies in Excel, writing, and statistics

· Professional Courses (6 credits):

65

66 65

6700:689	Leading and Influencing	1
6700:691	Professional Integrity	1
6700:693	Negotiations in the Workplace	1

	Management of Supply Chains and Operations Strategic Marketing

· Concentration Courses (9 or12 credits):

Students select 9 or 12 credits (depending upon the concentration requirements) in one of the following fields of concentration: direct interactive marketing; leadership and organizational change; finance; health-care management; international business; international finance; management; global technological innovation; strategic marketing; or supply chain management. Or students may design an inter-disciplinary concentration that meets his or her career objectives. This self-designed concentration must be planned and approved by the CBA Director of Graduate Programs upon the student's enrollment in the MBA program.

Integrative Course (3 credits):

3

· Action-Based Learning Requirement:

Organizational Strategy

Each student is required to fulfill an action-learning requirement. This course requirement may be fulfilled by approved concentration courses which consist of real world projects and other activities in which students are engaged in action-based learning. Other action-based learning ventures that will fulfill this program requirement include, but are not limited to, internships (excluding the Gateway Internship), study abroad programs, independent studies, and special topic courses designated as fulfilling this program requirement. Required Professional, Core, and Integrative courses will not fulfill this program requirement.

Program Summary

6500:695

Gateway Courses	12
Professional Courses	6
MBA Core Courses	18
Concentration Courses	9 or 12
Integrative Course	90112
	2 0
Action-Based Learning (if not fulfilled in a concentration course)	<u>3 or 0</u>
Total Program	51

If the Gateway Courses are all waived and the Action-Based Learning requirement is fulfilled in a concentration course within a 9 credit concentration, the MBA program is 36 credits.

Concentration in Business Analytics (650209MBA)

· Required (9 credits):

6500:571	Management Project	3
6500:644	Knowledge Management and Business Intelligence	3
6500:663	Data Analysis for Managers	3

Concentration in Direct Interactive Marketing (660110MBA)

Expertise in Directed Interactive Marketing is critical in today's marketing environment that focuses on one-to-one relationship building, brand equity, and customer lifetime value. This concentration will instruct students on how to employ customer databases to create interactive communication campaigns, acquire customers, and retain customers through customer relationship management programs. In a highly applied format students will become familiar with the resources at the Taylor Institute for Direct Marketing, including the Xerox XMPie Cross Media Laboratory.

· Required (9 credits)

6600:615	Cross-Media Database Marketing	3
6600:630	Customer Relationship Management	3
6600:635	E-Commerce and Interactive Marketing	3

Concentration in Finance (640000MBA)

The MBA Finance Concentration provides the student with the decision tools and analytical skills needed for the successful financial management of the firm.

Required (9 credits)			
6400:631 6400:645	Financial Markets and Institutions Investment Analysis	3 3	
6400:678	Capital Budgeting	3	
 Choose the 	ree credits from the following:		
6400:538	International Banking	3	
6400:581	International Business Finance	3	
6400:650	Techniques of Financial Modeling	3	
6400:690	Selected Topics in Finance	3	
6400:691	International Markets and Investments	3	
6400:697	Independent Study in Finance	3	
6400:698	Independent Study: Business Law	3	
Concentration in Global Technological Innovation			

(63000MBA)

In a highly inter-dependent global economy technological innovations are emerging as the disruptive drivers of enterprise growth and survival. In this program students explore technology and innovation as a value adding system. This will prepare them as a valuable resource to help small, medium, and well-established large enterprises to launch their product, process, and service innovations faster. The program also prepares students to plan and launch new ventures and enterprises based on innovations.

Required (9 credits):

	,	
6500:608	Entrepreneurship	3
6500:665	Management of Technology	3
6500:675	Global Supply Chain Management	3

Concentration in Health Care (650006MBA)

· Required (9 credits):

6500:681	Supply Chain Logistics Management	3
6500:682	Health Services Operations Management	3
6500:683	Health Services Systems Management	3

Interdisciplinary Concentration (603000MBA)

This self-designed concentration must be planned and approved by the CBA Director of Graduate Programs upon the student's enrollment in the MBA program. This concentration is intended for students with specific interdisciplinary career interests. The Interdisciplinary Concentration may include courses from colleges outside of the College of Business Administration.

Concentration in International Business (680000MBA)

This academic program views international business in the broad context of all business transactions devised and carried out across national borders to satisfy the organizational and personal goals of firms and individuals. International business studies incorporate all of the functional business operations of accounting, finance, management, and marketing; as such, it is an integrative field of study within an international framework. Students will integrate issues and trends in the global business environment and apply this insight to decision making.

 Required (3) 	credits):	
6500:675	Global Supply Chain Management	3
Choose six	credits from the following:

6600:681	Sales Management	3
*Note: Students	s should take 6600:640 prior to 6600:625.	

Concentration in Supply Chain Management

(650202MBA)

Supply chain management (SCM) is the process of planning, implementing, and controlling the operations of the supply chain as efficiently as possible. The overall goal of supply chain management is to impact the organization's bottom line in a positive way while delivering the best services to customers at the lowest possible cost. Supply chain management professional duties may expand beyond the acquisition of materials, services, and equipment into such areas as planning and policy making, motivation, evaluation, product development, and control. Supply chain management careers include working as a buyer, contract negotiator, inventory manager, import/export goods manager, or a logistics manager.

Students with a Supply Chain concentration may not take more than six credits of 500-level courses.

Required (9 credits):

	,	
6500:675	Global Supply Chain Management	3
6500:677	Supply Chain Sourcing	3
6500:680	Supply Chain Logistics Management	3

Accelerated BS Applied Mathematics/MBA

(603001MBA)

After successful completion of this accelerated five year BS/MBA program students will receive a bachelor's degree in applied mathematics and a master's of business administration. Students of this program will be supervised by faculty advisers in applied mathematics and advising staff in the College of Business Administration and are expected to finish the core course requirements and most of the electives for the bachelor's degree in the first three years of the program. Students are asked to formally apply to the accelerated program through the Graduate School during the third year of their bachelor's degree. Upon acceptance, students will be expected to complete the remaining electives of the bachelor's degree and the requirements for the CBA flexible MBA program in the last two years of study while registering for at least nine graduate credits in each semester of the last two years of the program. Students will be eligible to apply for a graduate assistantship in these last two years of the program.

MBA Core Requirements (27 credits)

6200:610	Process Analysis and Cost Management	3
6400:674	Strategic Financial Decision Making	3

Other graduate courses (500-level and above) could be used as electives if approved by the Director of the Graduate Programs prior to enrolling. Concentration plans must be approved by the Director prior to course seletion.

Master of Science in Accountancy (620004MSA: Accounting) (620005MSA: Accounting Information Systems)

The Master of Science in Accountancy is an advanced professional degree that offers students the opportunity to develop substantive knowledge, skills, and abilities in accounting. The program offers students flexibility to combine their accounting backgrounds with coursework in information systems and finance. It also allows students without undergraduate degrees in accounting to combine their diverse backgrounds with a graduate degree in accounting. Students may pursue a professional accountancy option or an accounting information systems option.

Program Learning Goals

Consistent with the School's mission, students in the program will:

- · Develop advanced knowledge and understanding of accounting concepts, the regulatory environment, and professional practice issues and challenges;
- · Enhance their critical thinking skills and develop the ability to apply advanced knowledge of accounting concepts, principles and practices in innovative ways;
- · Develop the ability to research accounting issues and write research reports that incorporate qualitative and quantitative data analysis and integrate information from multiple sources;
- Demonstrate effective written and oral communication skills:
- · Understand and appreciate the role of information technology in contemporary accounting, research, and decision-making; and
- · Understand and appreciate the significance of ethics, professionalism, and social responsibility in accounting.

Admission Requirements

The MSA curriculum consists of 30 semester credits. Admission to the program is open to the following individuals:

- 1. Individuals with undergraduate degrees in accounting from a regionally accredited institution or international equivalent.
- 2. Individuals with a non-accounting undergraduate business degree from a regionally accredited institution or international equivalent.
- 3. Individuals with a non-business undergraduate degree from a regionally accredited institution or international equivalent.

All students must earn a satisfactory score on the GMAT in order to be accepted into the program. Students with accounting degrees from AACSB accredited business schools are not required to complete foundation courses provided that they earn an overall GPA in accounting of 2.5 or better. Students who do not satisfy this criterion may be required to complete selected foundation courses specified by the chair of the School of Accountancy.

The Program

Individuals with a non-accounting undergraduate business degree from a regionally accredited institution or international equivalent or individuals with a non-business degree from a regionally accredited institution or international equivalent must complete all Pre-MSA foundation courses and Pre-MSA financial reporting courses listed below. Students who have completed similar courses at the undergraduate or graduate level may apply for waivers. Applications for waivers will be reviewed on a case-by-case basis, considering such factors as the student's background, work experience, institution, grades earned, and date when similar courses were taken. Documented guidance on sequencing MSA courses available through the School of Accountancy.

Pre-MSA Foundation Courses (12 credits):

All foundation courses must be taken prior to courses in the MSA program. An exception to this policy may be made by the chair of the School of Accountancy for students who have received waivers from foundation courses.

6200:603 6400:602 6400:623 6500:601	Accounting Decision Support Systems Managerial Finance Legal Aspects of Business Transactions Business Analytics and Information Strategy	3 3 3 3
1 00:000	Business Analytics and Information Strategy	3
6500:601	Business Analytics and Information Strategy	3

· Pre-MSA Financial Reporting Courses (12 credits):

All Pre-MSA Financial Reporting Courses with the exception of 6200:540 (Assurance Services and Professional Responsibilities) must be completed prior to taking courses in the MSA program.

6200:621	Corporate Accounting and Financial Reporting I	3
	or	
6200:321	Financial Reporting and Analysis I or equivalent	3
6200:622	Corporate Accounting and Financial Reporting II	3
	or

6200:610	Process Analysis and Cost Management	3
	or	
6200:301	Cost Management and Control or equivalent	3
6200:540	Assurance Services and Professional Responsibilities	3

Students in the MSA must complete a total of 30 credits from the groups of courses listed below. At least 21 credits must be at the 600-level; a minimum of 15 credits must be graduate accounting (6200) courses; and at least 12 credits must be 600level accounting (6200) courses. Students completing the MSA AIS option must have a minimum of 12 credit hours of accounting information systems (6200:554,

615, and 659) or management information systems (6500:520, 641, 643, 645, and 678) classes. The chair of the School of Accountancy may approve other courses.

Group A:	Accounting and Assurance Core (12 - 15 credits):	-		
6200:615	ERP and Financial Data Communications	3		
6200:637	Contemporary Accounting Issues	3

The Chair of the School of Accountancy may approve or substitute other relevant finance courses not listed in Group E above.

Accelerated BS/MS Accounting (620007MSA)

The Accelerated BS/MS Accounting (BS/MSA) program allows honors students and other outstanding accounting majors to complete the 150 credits of pre-CPA certification education required by the Accountancy Board of the State of Ohio and earn both a bachelors and masters degree in accounting. Honors and other outstanding students will be targeted as soon as they identify accounting as a major and will be officially accepted into the accelerated program by the start of their senior year.

To receive official acceptance into the program, students must satisfy the following requirements:

- Provide two letters of recommendation from CBA faculty
- Earn at least a B in 6200:301 Cost Management and Control, 6200:320 Accounting Information Systems and Internal Control, 6200:321 Financial Reporting and Analysis I, and 6200:322 Financial Reporting and Analysis II. Students applying for acceptance into this program cannot repeat any of these four courses required for admission to make the minimum grade of a B.
- Earn an overall GPA of 3.0 or higher in accounting courses, in business courses, and in all University of Akron courses
- · Apply to be and be accepted into Graduate School by the start of their senior year

BS/MSA students will be monitored closely and be given professional accounting advice through the School of Accountancy. Students must earn and maintain a 3.0 or better GPA (business, accounting, and overall) to stay in the program. Students who are not able to do so will complete the regular bachelor's program instead of the accelerated BS/MSA program.

All students in the program will complete 30 credits of graduate courses to fulfill the requirements for the masters degree. They will complete nine credits of 500-level graduate courses during their fourth (senior) year and the remaining 21 credits of 600-level graduate courses during their fifth year. The nine credits of 500-level graduate courses will count toward both their graduate and undergraduate degree programs. A total of 150 credits of graduate and undergraduate courses are required to complete the Accelerated BS/MSA program.

BS/MSA students may be eligible for graduate assistantships during their fourth and fifth years of the program only if they are registered for at least nine graduate credits in each semester. Honors students may be eligible for funding from the Honors College during the fourth year and receive a graduate assistantship during the fifth year.

BS/MSA students must complete a total of 30 graduate credits from the following groups of courses listed below. No more than nine credits can be 500-level (6200:5xx) courses. At least 12 credits must be 600-level accounting (6200:6xx) courses.

Group A:	Accounting and Assurance Core (12 - 15 credits):

Master of Taxation

(620002MT)

6400.674

33333

The Master of Taxation (MTax) Program is a professional degree designed to provide intensive training for individuals with an interest in developing specialized skills in the area of taxation. The program is intended for practicing accountants and attorneys who wish to further or pursue a career in taxation. However, other individuals with a four-year degree in business or accounting from a regionally accredited institution of higher learning (or international equivalent) may also find the program valuable and manageable. The program offers substantive technical and professional knowledge, skills, and abilities needed to function as a taxation specialist in the United States Students in the program will:

a. develop substantive and comprehensive knowledge of federal taxation;

b. understand the state and local taxation regimes of selected states, including the State of Ohio;

c. develop abilities to research taxation issues, identify and solve taxation problems, and plan taxation strategies;

d. develop the ability to contribute as a taxation specialist to strategic planning and decision-making in organizations;

e. demonstrate effective written and oral presentation skills; and

f. demonstrate ability to use information technology for researching and solving taxation problems.

The MTax curriculum consists of 30 semester credits. Admission to the program is open to the following individuals:

 Certified Public Accountants and other accountants with equivalent credentials with at least a bachelor's degree. 2. Individuals with an undergraduate degree in accounting from a regionally accredited institution or international equivalent.

3. Individuals with a JD.

4. Individuals who plan to pursue the joint JD/MTax degree (JD students must complete the first year of law school if full-time or the second year of law school if parttime before they can take courses in the MTax program).

5. Individuals with an undergraduate degree in business from a regionally accredited institution or international equivalent.

6. Other individuals who demonstrate a high potential to succeed in the MTax program (based on GMAT scores, undergraduate GPA, letters of reccomendation, and prior work experience) and who have earned at least a B average in 6200:601 Financial Accounting (or equivalent) and 6200:627 Federal Taxation (or equivalent).

Students who have at least two years of work experience and have an accounting certification (i.e. CPA, CMA, CIA, etc.) or have successfully passed the bar exam do not need to take the GMAT exam to be admitted to the program. All other students must earn a satisfactory score on the GMAT (LSAT for law students) prior to being admitted to the program. Foundation courses are not required for individuals in Categories 1 and 2.

Individuals in categories 3 and 5 must complete an introduction to financial accounting course and a federal income taxation course before they begin taking MTax courses. These courses may be taken at the graduate or undergraduate level. Students should plan to complete those courses in the summer or earlier prior to starting the required MTax courses.

Students are encouraged to begin the program in the fall. Full-time students who begin the program in fall will normally complete all requirements for graduation in two semesters. Part-time students who start in fall can complete all requirements for graduation within two years.

· Required Master of Taxation Courses:

Not all elective classes will be offered each year. Electives will be offered based on demand and faculty resource availability. 6200:628 Tax Research must be taken in the first semester that the class is available.

Master of Science in Management

The Master of Science in Management program allows students to concentrate their advanced study in one of two areas: Information Systems Management or Technological Innovation. Because of the complex nature of these specializations, they are not normally offered as options in traditional MBA programs. They are designed for individuals who know what they want to do or to help them apply what they already know more effectively. For example, computer science majors may choose to concentrate in information systems while engineering majors would benefit from the technological innovation option. The introductory coursework for this program is termed a foundation core and consists of 6 credits which may be waived if the student has completed prior study in the area. The remaining 30 credits of coursework consists of 12 credits of specialization coursework and 6 credits of electives. If all foundation courses are waived, the program is 30 credits in length. Students may waive the GMAT requirement if they have an acceptable GRE score and have two years of documented business experience.

Supply Chain Management Option (SCM) (650205MSM)

The Master of Science in Supply Chain Management is offered for students wanting to pursue an advanced program of study in Supply Chain Management. The Master of Science in SCM requires students to take focused courses in Supply Chain Management and related areas. The program of study is also shorter compared to the broader-based MBA program and can ideally be completed in two regular semesters of study. The program requires completion of 30 credit hours of coursework, which includes six credits of foundation core, 21 credits of required coursework, and three credits of electives. Foundation core courses may be waived if the student has completed prior study in that area, and those students will be required to complete 21 credits of required coursework and nine credits of elective courses

Accelerated MSM - ISM Program Option (650204MSM)

The MSM - Fast track Information Systems option has been designed for students in undergraduate information systems or related programs who are interested in pursuing graduate work with an information systems management emphasis. Additional requirements for students wishing to pursue this option include:"

- · Undergraduate degree in Information Systems (from AACSB accredited institution) or related fields with a Pre-MBA minor
- · Undergraduate GPA of at least 3.0 with successful course completion in programming, database, and networking (B or better)
- · Documented completion of an IS related internship (or other IS work experience) with a letter summarizing project and work scope from supervisor
- Letters of reference from undergraduate program director or faculty
- · Undergraduate students who wish to count 6200:554 and 6500:520 toward their graduate degree may take these classes during their senior year and must receive a grade of B or better. These classes must be taken exclusive of students requirements toward the baccalaureate degree.
- Undergraduate degree must be completed at the most two years prior to planned date of program entry

~		Total	30

Guidelines for receiving credit for the Information Systems Internship:

- Students are required to work at least 20 hours per week
- Internship must be approved by the Department Chair
- · Internships will be approved based on the type of business and the scope of work to be done
- · Interns will complete the report based on MIS faculty specifications
- The internship should be in an area directly related to any of traditional Information Systems functions related to systems planning, analysis, design, programming, implementation, networking operations and infrastructure, technical documentation, systems installation, maintenance, and IT auditing.

Joint Programs

The School of Law and the College of Business Administration (CBA) offer a joint program in legal and administrative studies (J.D./M.B.A.), a joint program in legal and taxation studies (J.D./M.Tax.) and a joint program in legal and human resource studies (J.D./M.S.M). These combinations are open to the student preparing for a career in such areas as corporate law, tax accounting, human resource management or legal practice in government. The amount of time required to complete a joint degree program is shorter than the time required to complete both programs independently. To pursue either one of these cooperative programs, the student must apply to and be accepted by both the School of Law and the Graduate School. The student should contact each school independently for information covering

admission criteria and procedures (for further information on School of Law admissions, write: Director of Admissions, School of Law. The University of Akron, Akron, OH 44325-2901). A baccalaureate degree is required.

Degree Requirements

A student is required to fulfill the requirements of the School of Law, 87 credits, which includes up to nine credits transferred from the CBA. The requirements of the CBA may be met by fulfilling the requirements previously listed which include the common body of knowledge (Gateway) courses (unless waived because of prior undergraduate credits earned), and 27 credits for M.B.A. advanced courses in the CBA plus nine credits transferred from the School of Law. The Master of Taxation program consists of 21 credits of advanced courses in the CBA plus 9 credits transferred from the School of Law. The reciprocal acceptance of course credits by each school is the essence of the joint programs. All law courses used to fulfill CBA requirements must be approved by the director of Graduate Programs in Business prior to completion. To earn both degrees, a total of 98 (J.D./M.Tax.) or 105 (J.D./M.B.A.) credits is required, depending on the master's program pursued. More credits may be required for the master's degree if Foundation courses are required.

Upon the approval of the director of Graduate Programs in Business, up to nine credits of School of Law courses may be applied toward the Masters of Taxation degree. Law courses from the following list may be applied to the MTax program:

9200:641	Corporate Taxation I (3 credits)	
9200:721	Taxation of Intellectual Property (3 credits)	
Other courses	offered in the School of Law as approved by the Chair of the School of	
Accountancy and the MTax program coordinator		

Courses that will transfer as MTax elective courses:

9200:639	Estate and Gift Taxation (3 credits)	
9200:645	Non-profit Tax Entities (3 credits)	
9200:675	Special Problems in Estate Planning (3 credits)	
9200:680	Qualified Pension and Profit Sharing Plans (3 credits)	
9200:684	Entities (3 credits)	
9200:685	Wills, Trusts, and Estates I (3 credits)	
9200:686	Wills, Trusts, and Estates II (3 credits)	
9200:684	Mergers and Acquisitions (3 credits)	
Other courses	offered in the School of Law as approved by the Chair of the School of	
Accountancy and the MTax program coordinator		

J.D./M.B.A. students may transfer up to nine credits of School of Law courses into the M.B.A. program. Up to nine credit hours may be in their area of concentration and must be selected from the courses listed below. Related courses not listed under concentrations may transfer with approval of the director of graduate programs in Business Administration.

Law Courses to be used as MBA Concentration Courses

Interdisciplinary Concentration (choose 9 credits)

Students may devise a personalized concentration consisting of any nine credits of the law courses listed for the concentrations. The choice of courses for the Interdisciplinary Concentration must be approved by the director prior to enrolling in the courses. Students must provide a career-related, programmatic rationale for the personalized concentration they have devised. If a joint degree student wishes to pursue one of the other MBA concentrations he/she is permitted to do so and should contact the Director of Graduate Programs for additional information.

Law Courses to be used as MSM-HR Concentration Courses

(Admission to the Human Resource Option of the Master of Science in Mangement degree program has been suspended until further notice therefore the MSM-HR concentration is not available effective Fall 2011)

9200:637	Employment Discrimination
9200:642	Alternative Dispute Resolution
9200:651	Employment Law
9200:659	Negotiations
9200:684	Human Resources Lawyer

College of Health Professions

Roberta DePompei, Ph.D., Interim Dean

Organization

The College of Health Professions, established in 2012, comprises four schools: the School of Nursing; the School of Nutrition and Dietetics; the School of Social Work; and the School of Speech-Language Pathology and Audiology.

The college places a premium on learning by doing. Students work side by side with talented and caring faculty members and professionals throughout the community. The college focuses on graduating students prepared to excel as professionals in an evolving health care environment. Highly collaborative and interprofessional, this new college will be a model for health education and research in this region and beyond.

DOCTORAL DEGREE PROGRAMS

Doctor of Audiology Program (Au.D.)

(H70200AUD)

The Au.D. is a four-year post baccalaureate professional doctoral degree program. Doctors of Audiology are independent professionals who specialize in the diagnosis, management and treatment of hearing and balance disorders.

The Au.D. program, which is known as the Northeast Ohio Au.D. Consortium (NOAC), is a joint degree program administered by The University of Akron and Kent State University. NOAC is a single unified program of faculty, students, facilities, and resources. Students take classes and participate in clinic at both The University of Akron and Kent State University with half of the classes offered at each university. Students must choose to be admitted to NOAC either through The University of Akron or Kent State University and they will register for courses on the campus where they are admitted. All classes are cross-listed.

Admission Requirements

- · Bachelor's degree from an accredited college or university
- Grade point average of 3.0 or higher
- Three letters of recommendation
- Graduate Record Examination scores
- Personal statement of purpose as to why the applicant wishes to become an audiologist

All application material must be received by February 1.

Degree Requirements - Doctor of Audiology

The Au.D. curriculum is a continuous 48 month post-baccalaureate course of study designed to integrate classroom, laboratory, and clinical experiences. All students will attend full-time and take the same courses in appropriate sequence. The emphasis of the program is on the principles and practices underlying evaluation, treatment, and provision of hearing care services.

For progression and graduation, students must meet the following degree requirements:

Maintain an overall grade point average of 3.0

- Complete a minimum of 120 semester credits
- Accrue 2000 clock hours of clinical experience
- · Meet the requirements for Ohio licensure in Audiology
- · Pass academic and clinical competency-based examinations

· Complete the following required courses:

	6	
7700:701	Basic and Applied Acoustics in Audiology	4
7700:702	Anatomy and Physiology of the Peripheral Auditory & Vestibular System	3
7700:703	Acoustic Phonetics	3
7700:704	Critical Analysis of Research in Audiology	2
7700:705	Auditory Disorders	2

* Students are required to register for two semesters of 7700:731 Fourth Year Seminar

Doctor of Philosophy in Nursing

(820000PHD)

The University of Akron and Kent State University offer a Ph.D. in Nursing, a single doctoral program with a single, unified doctoral nursing faculty and doctoral student body. The diploma will be issued from the student's university of record and will recognize the Joint Doctor of Philosophy program. Courses will be cross listed and scheduled at each university.

Preparation Purpose and Description: Preparation of Scholars in Nursing

The Ph.D. in Nursing program is characterized by excellence through scholarship, integrity, and caring. The primary purpose of the program is to prepare nurse scholars. This purpose will be realized through: the development and testing of theories and models of nursing science and nursing practice, the consideration of the social, political, legal, and economic implications of health care policies and practices, and the dissemination of knowledge.

Graduates will be characterized by their leadership and their ability to conduct and apply research, to integrate and extend knowledge through teaching, and to develop and implement health care policy. Interdisciplinary collaboration and community outreach will be emphasized throughout the program.

Admission, Progression, and Graduation

Students may apply to the program through the Graduate School at The University of Akron or the Graduate College or School of Nursing at Kent State University. Completed applications should be returned to the addresses indicated on the application forms. Applications are accepted on a rolling basis and will be reviewed by the admissions committee.

Each applicant for admission into the Ph.D. in Nursing Program must meet the following criteria:

- Evidence of successful completion of a master's degree in nursing at an accredited program with a minimum graduate grade point average of 3.0 on a 4.0 scale.
- Evidence of current licensure, or eligibility for licensure, by the Ohio Board of Nursing.
- · Official evidence of scores on the Graduate Record Examination.
- A clear and succinct statement about the applicant's need for the doctorate and its application toward clearly defined career goals.
- A sample of written work that indicates the logic and writing skills of the applicant, for example, by an essay, term paper, thesis, published article, or professional report.
- Three (3) letters of reference from professionals or professors who can adequately
 evaluate the applicant and the applicant's previous work or potential for success.
- At the request of the admission committee, successfully complete a personal interview with a graduate faculty member which will assess research interests and motivation for successful completion of doctoral study.
- Register for courses within one (1) year of acceptance into the program, or otherwise the acceptance is void.

Students wishing to transfer into the Ph.D. in Nursing Program must comply with the university standards for acceptance and are referred elsewhere in this catalog for that information.

International students will be considered for admission. In addition to the above admission criteria, international students must demonstrate a high level of competence in English, a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). International students must comply with university procedures for accepting international students.

Students will be assigned an academic advisor based on mentoring and mutual research interests. Advisor and student will develop an academic program plan customized to student interest, subject to advisor approval. Target dates for successfully completing the qualifying examination and the completion of the dissertation will be developed early in the program plan. Students may change advisors for academic or dissertation purposes, subject to the approval of the program directors.

For progression and graduation, students must meet the following degree requirements:

- maintain an overall grade point average of 3.0 on a four-point scale (or be liable to dismissal according to University policies);
- · adhere to criteria concerning enrollment, residency, and leaves of absence;
- · complete degree requirements within 9 years of enrollment;
- complete 42 semester hours of required course work;
- successfully complete the written preliminary examination after first year of fulltime coursework and/or 24 credits, qualifying examination, and dissertation requirements;
- successfully complete and orally defend a dissertation based upon original investigation and critical scholarship.

Students who do not meet the criteria for successful progression and graduation will be notified in writing.

Program Description and Curriculum

The Ph.D. in Nursing is a post master's degree, requiring 72 semester credit hours including the dissertation. It consists of five components, with selected customization to student interests. The *nursing knowledge component* examines knowledge and theory development as well as courses in selected domains of nursing knowledge related to student interest and faculty expertise. *Research methods, designs, and statistics* examines approaches to both qualitative and quantitative research. Students must select at least one advanced research methods course to promote their research agenda: *i.e.,* program evaluation, advanced qualitative or quantitative methods, or grantsmanship. *Cognates* will be chosen from courses outside nursing which support the student's research interest. *Health care policy* courses focus on health care and nursing issues. These four components culminate into the fifth component, the *dissertation,* which follows the successful completion of the qualifying examination. The course work in each of these five components follows:

Structure and content of nursing knowledge

Qualify for Candidacy for the Doctoral Dissertation

- All students in the program are required to successfully complete a qualifying examination before proceeding to conduct dissertation research. To be eligible for candidacy for the dissertation, students must have completed 42 hours of required courses, have maintained a minimum GPA of 3.0 on a 4.0 scale in the doctoral program, have successfully completed the qualifying examination, and have been approved by the appropriate administrative bodies of the program.
- Dissertation Prospectus. The dissertation prospectus is a written document that includes an outline of the parameters of the projected dissertation topic with a rationale and statement of the problem to be researched, the methodology and design of the study, a preliminary review of the literature substantiating the need for the study, and the principle sources of information for the dissertation. Approval of the prospectus permits the student to proceed with the dissertation.
- Dissertation. The dissertation is based upon original investigation and demonstration of mature scholarship and critical judgment in the theoretical and methodological approaches to development of nursing knowledge. The dissertation is expected to be the first step in the development of a program of research and scholarly activity. A minimum of 30 dissertation credit hours are required.
- Oral defense. When the dissertation is completed a meeting will be scheduled for the student's defense of the dissertation. The candidate is expected to respond to substantive and methodological questions related to the dissertation.
- Dissertation committee. A four person doctoral dissertation committee will guide and approve the acceptability of the dissertation. The Chair must be a member of the Nursing Ph.D. faculty, as must be two committee members. The remaining member must be selected from outside the program. Other qualifications of members will be consistent with the student's area of research and with the requirements for doctoral committees as stated in the policies and general catalogs of both universities.

Innovative Curriculum Pathways to the Ph.D. in Nursing Program for BSN Graduates and for Students Enrolled in MSN Option

The Innovative Pathways into the Ph.D. in Nursing Program is an accelerated program that allows individuals with a BSN and students enrolled in the RN-MSN program direct admission into the program. Acceleration is accomplished by restructuring MSN and Ph.D. curricula to recognize the mastery of specific content, thereby facilitating graduate study. There are two pathways: one for BSN graduates and one for RN-option students. Since existing acceleration pathways differ at The University of Akron and Kent State University, individuals applying for admission to this program must apply for admission through the Graduate School of The University of Akron.

BSN Graduates:

BSN students within one semester of graduation and professional nurses with a BSN degree may apply in December prior to the fall in which admission is desired. Admission criteria include:

- Enrollment in an accredited BSN program within one semester of graduation or hold the BSN degree.
- Provide evidence of successful completion (or the potential to complete the BSN by the following fall semester) of a baccalaureate degree program in nursing at an accredited school with a minimum grade point average of 3.0 on a 4.0 scale.
- Provide evidence of current licensure, or eligibility for licensure, by the Ohio Board of Nursing.
- · Provide evidence of acceptable scores on the Graduate Record Examination.
- · Submit a statement about nursing career interests and goals.
- Give a sample of written work. This may include, for example, a scientific term paper, a research paper, an honor's project, a professional report, or a published article.
- Submit three (3) letters of recommendation from professors or other professionals who can adequately evaluate previous work and potential for success in the Ph.D. program. One of the three letters must be from a Doctoral Faculty Council member who has worked closely with the student.
- Satisfactorily complete a personal interview with a Doctoral Faculty Council member.
- Register for full-time study during the fall semester after acceptance into the Ph.D. program, or otherwise the acceptance is void.
- Enroll in full-time study for four calendar years for students who are entering directly from the BSN program or full-time study for two academic years plus two calendar years for post-BSN applicants.
- Students receive a maximum of 12 credit hours of by-passed credit for master's level courses after successfully completing 12 credit hours of doctoral level courses. Bypass credit is given in accordance with applicable University of Akron policy.
- Upon successful completion of 8200:815, 8200:825, 8200:830, and 8200:835, students receive a maximum of 12 hours of by-passed credit for master's level courses.

Students who need more than 30 credit hours to complete the dissertation will enroll in 8200:800 Doctoral Dissertation II.

Internship: Students entering directly from the BSN program will be required to complete two 10-week internships with the Co-op program (paid positions).

- · Internship in generalist practice during Summer Session I
- · Internship in advanced nursing practice during Summer Session II

MSN-Option Students:

Currently enrolled RN-option students at The University of Akron may apply for admission following completion of the RN-option bridge courses. Admission criteria include:

- Enrollment in The University of Akron RN-option program.
- Minimum grade point average of 3.0 on a 4.0 scale for all previous coursework.
- Provide evidence of current licensure, or eligibility for licensure, by the Ohio Board of Nursing.
- · Provide evidence of current malpractice insurance.
- Provide evidence of acceptable scores on the Graduate Record Examination.
- · Submit a statement about nursing career interest and goals.
- Give a sample of written work. This may include, for example, a scientific term paper, a research paper, an honor's project, a professional report, or a published article.
- Submit three (3) letters of recommendation from professors or other professionals who can adequately evaluate previous work and potential for success in the Ph.D. program. One of the three letters must be from a Doctoral Faculty Council member who has worked closely with the student.
- Satisfactorily complete a personal interview with a Doctoral Faculty Council member.
- Register for full-time study during the fall semester after acceptance into the Ph.D. program, or otherwise the acceptance is void.

Students enrolled in The University of Akron RN-Option receive a maximum or six (6) by-passed credits after successfully completing six credit hours of doctoral level courses. By-passed credit is given for Nursing Inquiry I (8200:613) and Nursing Inquiry II (8200:618) after the student successfully completes Quantitative Research Methods (8200:825) and Qualitative Research Methods (8200:830) in accordance with applicable University of Akron policy. Students admitted to this innovative pathway are required to take the RN-BSN research course 8200:436, rather than receive by-passed credits for it.

Professional Doctor of Nursing Practice

(820000DNP - Post MSN DNP)

Admission Requirements

- · Current State of Ohio license to practice nursing.
- An undergraduate cumulative grade point average of 3.0 on a 4.0 scale (post-BSN applicants). Post-MSN applicants must have earned a master's degree from an accredited university with a cumulative grade point average of 3.0 on a 4.0 scale.
- Three letters of recommendation from individuals who can address the applicant's potential to succeed in the DNP graduate program and who can attest to clinical expertise.
- A pre-admission interview, by telephone or in person, with the concentration program director. The interview is used to establish a fit between student goals and the desired School of Nursing graduate concentration as recommended by the interviewer(s).
- A 300 word essay describing professional goals and reasons for seeking the particular speciality concentration.

Applications to the Doctor of Nursing Practice are accepted on a rolling basis.

Development of the curriculum is structured by four broad areas of knowledge described in the AACN's Essentials of Doctoral Education for Advanced Practice Nursing (2006). Acquisition of knowledge within the areas of Scientific/Physiologic Foundation for Advanced Evidence Based Practice; Leadership Information Management; Practice Inquiry; and Advanced Speciality Practice, will be demonstrated by the student's development of essential competencies. The following outcome competencies are expected.

Graduates of the program will:

- Use appropriate theories and concepts to identify health-related phenomena of interst.
- · Design and deliver interventions that can withstand scientific analysis.
- Evaluate health care delivery and nursing practices using sound evaluation principles.
- Use evaluation and other methods to account for quality of care and patient safety for focus populations.
- Critically appraise and/or use sources informing best evidence, i.e. epidemiology, statistics, health data, and/or methodologies.

- · Deliver and evaluate care processes and outcomes based on best evidence.
- Analyze and define critical choices among health care technologies and information systems toward the betterment of care processes and outcomes.
- Understand the dynamics of health care policy and financing at the organizational and national levels.
- Provide or assist in the leadership of collaborative, inter-professional teams in health care delivery.

Program Description

The University of Akron Professional Doctor of Nursing Practice (DNP) program requires a minimum of 71 graduate credit hours and 1,040 clinical hours for those students entering with a baccalaureate in nursing degree from an accredited program. Post-master's entry requires: a) 37 credits of DNP core courses; b) 540 clinical practice hours; and c) transfer from the student's master's degree in nursing program a minimum of 34 credits of nursing and advanced practice role-specific coursework, which includes 500 clinical hours (or is taken as part of the DNP program).

Core Courses (20 credits):

8200:603 8200:607 8200:608 8200:612 8200:613 8200:618 8200:618	Theoretical Basis for Nursing Policy Issues in Nursing Pathophysiological Concepts of Nursing Care Advanced Clinical Pharmacology Nursing Inquiry I Nursing Inquiry II Advanced Health Assessment	3 2 3 3 3 3 3 3 3 3 3
8200:6xx*	Advanced Health Assessment	3

*8200:610, 611, or 650 (Appropriate to speciality track)

Speciality Courses (12-34 credits):

Speciality courses vary according to the particular current MSN advanced practice concentration (includes 500-700 clinical hours).

DNP Courses (minimum of 37 credits and includes 540 clinical hours):

	J NURS 70727 Advanced Healthcare Statistics s part of the joint PhD in Nursing curriculum. Students register at the	3 ir home

MASTER'S DEGREE

Nutrition and Dietetics

(H40103MSND)

A program of study is offered leading to the Master of Science in Nutrition and Dietetics. Students must meet the following admission requirements for acceptance in the program:

- Meet the minimum GPA of 2.75 for four years of undergraduate study or 3.00 for the last two years of undergraduate study.
- Completion of general Graduate Record Examination within the five years preceding application, with the following score:

800 combined on verbal and quantitative with at least a 4.5 on analytical writing; OR

900 combined on verbal and quantitative with at least a 4.0 on analytical writing

- Three letters of recommendation
- Statement of purpose
- Resume

The graduate faculty of the School of Nutrition and Dietetics may require an interview with any applicant.

Application materials must be received by March 1 for fall enrollment and by October 1 for spring enrollment.

In addition to the above, the student will be expected to comply with the following requirements:

- Complete the course of study with a minimum of 40 credits. These credits will include:
- foundation courses to prepare the student for research in nutrition as a discipline;

- electives selected from within the department or from another discipline to strengthen student's professional goals. These courses will be selected in consultation with and approval from the student's graduate faculty advisor.
- Pass a written comprehensive examination over major and minor areas after the completion of at least 19 credits of graduate work.
- · Complete a thesis or a project. The thesis option involves the design and evaluation of original research in an appropriately related area commensurate with the student's background and area of pursuit. The project option involves the design, development, implementation and evaluation of original and creative programs and/or resource materials. A written proposal for the thesis or project option cannot be submitted until the successful completion of a comprehensive examination.
- · Pass an oral examination covering the thesis or project.

Foundation Courses (13 credits required)

7760:604	Orientation to Graduate Studies in Health Professions
7760:624	Advanced Human Nutrition I
7760:625	Advanced Human Nutrition II
7760:680	Current Issues in Nutrition
7760:685	Research Methods in Health Professions

Electives (9 to 12 credits required)

At least 2 courses must be selected from Biology (3100), Chemistry (3150), Nursing (8200), Exercise Physiology (5550), or Nutrition (7760). If course was taken at the undergraduate level, it may not be used at the graduate level. Students are not limited to the following course selections, however, advisor approval is required.

3100:565	Advanced Cardiovascular Physiology	3
3150:501	Biochemistry Lecture I	3
3150:502	Biochemistry Lecture II	3
3230:520	Anthropology of Food	3
5550:605	Physiology of Muscular Activity and Exercise	3
7700:632	Dysphasia	3
7760:524	Nutrition in the Life Cycle	3
7760:580	Community Nutrition I - Lecture	3
7760:582	Community Nutrition II - Lecture	3
7760:587	Sports Nutrition	3
7760:588	Practicum in Dietetics	1-3
8200:561	Advanced Physiological Concepts in Health Care I	3
8200:562	Advanced Physiological Concepts in Health Care II	3
8200:608	Pathophysiology Concepts of Nursing Care	3
8200:612	Advanced Clinical Pharmacology	3

Cognate Electives (8 to 11 credits required)

Select with the approval of advisor from among the following or other courses that strengthen the student's goals.

3470:664	Statistics for the Health Sciences	4
3850:656	Sociology of Health Care	
3850:678	Social Gerontology	3
5600:651	Techniques of Counseling	3
6500:580	Introduction to Health Care Management	3
6500:652	Managing People in Organizations	
7400:501	American Families in Poverty	3
7760:500	Nutrition Communication and Education Skills	
7760:503	Advanced Food Preparation	3
7760:528	Nutrition in Medical Sciences II	3
7760:543	Nutrition Assessment	3
7760:610	Management of Food Systems	3
7760:616	Clinical Nutrition	

Thesis or Project (select one)

7760:694	Master's Project	5
7760:699	Master's Thesis in Health Professions	5
	Minimum credits required	40

Note: The M.S. in Nutrition and Dietetics is not a route to becoming a Registered Dietitian (R.D.). Students interested in becoming R.D.s should contact the School for proper course selection, some of which can be done at the graduate level.

Food and Consumer Science Option (H40102MA)

(admissions temporarily suspended)

Core Courses:				
7400:575	Analysis of Food	3		
7760:576	Developments in Food Science	3		
7400:520	Experimental Foods (if taken at the undergraduate level, choose 3 additional credits from option electives)	3		

· Option Electives:

Select 9-12 credit hours with the approval of advisor from among the following (if a course has been taken at the undergraduate level, other courses must be selected):

3100:500	Food Plants	2
3250:540	Special Topics: Economics/World Food Problems	4
7760:574	Cultural Dimensions of Food	3
7760:585	Seminar in Family and Consumer Sciences (Food Science topic)	2-3
7760:570	The Food Industry: Analysis and Field Study	3

7760:503	Advanced Food Preparation	3
7760:524	Nutrition in the Life Cycle	3
7760:624	Advanced Human Nutrition I	3
7760:625	Advanced Human Nutrition II	3
7760:688	Practicum in Family and Consumer Sciences	3

Cognate Electives:

1

3 3 3

3

Select 5-8 credits with approval of advisor from the School of Nutrition and Dietetics OR from a cognate area outside the School OR from a combination of the two.

•	Thesis	or	Project	(sele	ct one):	
---	--------	----	---------	-------	----------	--

7760:694	Master's Project	5
7760:699	Master's Thesis in Health Professions	5
	Total	40

Note: Students in all of the options who are working on a master's thesis may elect to take the course 7760:690 Thesis Research/Reading. This course will not, however, count as part of the required 40-42 credits in the program.

Speech-Language Pathology and Audiology

The School of Speech-Language Pathology and Audiology offers a Master of Arts degree in Speech-Language Pathology in addition to a Master of Arts in Child Life. The program in speech-language pathology is designed to lead to professional licensure by the State of Ohio Board of Speech-Language Pathology and Audiology.

Master of Arts degree in Speech-Language Pathology Program (H70006MA)

Admission Requirements - Speech-Language Pathology

- · Hold an undergraduate major in speech-language pathology or completed postbaccalaureate in speech-language pathology
- · Complete requirements for admission and send to Graduate School:
- *Application with intent to major in speech-language pathology
- *Official transcript with Fall term grades included
- *Three letters of recommendation
- *Graduate Record Examination scores
- *Resume

*Statement of Purpose

*Participation in group interview (for invited students only)

*Graduate Assistantship - use Apply Online check box

Applications for admission are accepted and considered only once per year for the Fall term. Admission is competitive.

Applications for admission for the following academic year should be received by January 1.

Degree Requirements

• The master's thesis is optional for students in speech-language pathology. All students will successfully complete a course of study with a minimum of 56 credits, two of which may be thesis credits for students electing the thesis option. Academic requirements within the school for speech-language pathology majors:

7700:540	Augmentative Communication	3
7700:561	Organization and Administration: Public School Speech-Language and	d
	Hearing Programs	2
7700:590	Workshop	1-3
7700:585	Developmental Disabilities	2
7700:611	Research Methods in Communicative Disorders I	3
7700:620	Articulation	2
7700:623	Support Systems for Indiv and Families with Communicative Disorder	rs 2
7700:624	Neurogenic Speech and Language Disorders	3
7700:626	Voice and Cleft Palate	3
7700:627	Stuttering: Theories and Therapies	2
7700:628	Topics in Differential Diagnosis of Speech and Language Disorders	2
7700:630	Clinical Issues in Child Language	4
7700:631	Acquired Brain Injury	3
7700:632	Dysphagia	3
7700:633	Professional Issues	2
7700:639	Audiology for the Speech-Language Pathologist	3
7700:650	Advanced Clinical Practicum: Speech-Language Pathology (three 3	each
	registrations)	
7700:695	Externship: Speech Pathology and Audiology (two registrations) 6	each
7700:696	Externship Seminar (two registrations) 1	each
Completion of	of 5610:693 School-Based Externshin: Speech-Language Path	ology

Completion of 5610:693 School-Based Externship: Speech-Language Pathology and 5610:691 School-Based Externship Seminar may be substituted for one 7700:695 registration and one 7700:696 SLP Seminar registration.

Students must be registered for clinical practicum, externship, or student teaching during any academic period in which they are involved in in-house practicum, externship, or student teaching.

Child Life Specialist

(H40109MA: Non-thesis Option) (H40109MAT: Thesis Option)

Admission Requirements

Application materials must be received by February 1 for fall enrollment.

- Minimum GPA of 2.75 for four years of undergraduate study or 3.0 for the last two years of undergraduate study.
- Graduate Record Examination score report within the last five years preceding application
- Child Life Application (submitted to program director)
- Three letters of recommendation
- Statement of purpose
- Resume
- · Have completed 50 hours of experience with children beyond the clasroom
- Earned at least a "B" in Direct Experience course. Additional coursework will be required if undergraduate degree does not meet the curriculum requirements and is not in a related field.
- Successfully pass an interview with University faculty and local child life specialists. Interview dates are scheduled in March.

Social Work

(H75000MSW)

The Master of Social Work Program is a joint degree program administered by The University of Akron and Cleveland State University. The Joint MSW Program began in 1995. Distance learning technology, utilizing interactive video and audio systems, links faculty and students at the two institutions. The degree program is accredited by the Council on Social Work Education.

The curriculum of the Joint MSW Program is designed to prepare students for advanced level professional practice in social work. The program provides a rigorous intellectual base, an opportunity for effective skill development, and an educational perspective that views human diversity as desirable and enriching to society. The Joint MSW Program offers:

Preparation for the advanced practice of social work

- · A degree program accredited by the Council on Social Work Education
- Part-time study
- · Evening/weekend courses
- Regional field placements
- · Advanced standing program for qualifying students with a BSW

Admission Requirements

The Joint MSW Program is committed to diversity in the student body. An applicant for admission as a degree candidate in social work (either full-time, part-time, or advanced standing) must fulfill the general admission requirements of both the Graduate School and the MSW Program prior to admission. The applicant must therefore complete application forms for both the Graduate School and the MSW Program. It is the applicant's responsibility to make sure that all required application materials have been received. Applications for full-time, part-time, and advanced standing close on February 15. All application materials must be received by this date. Full-time and part-time admissions are available only for the fall semester.

The applicant must submit the following to the Graduate School:

- · Graduate application form accompanied by the application fee
- An official transcript from each college or university attended (must include content in human biology as well as liberal arts coursework) sent directly to the Graduate School.
- The applicant must submit the following to the School of Social Work:
- An essay of 3-5 typed pages explaining:
- a) why he/she wants to be a social worker;
- b) why a graduate degree is felt to be necessary to fulfill his/her personal or professional objectives;
- c) his/her views regarding diversity in society;
- d) a situation in which he/she was the recipient/provider of help, emotionally, socially, or economically, and if/how this situation impacted the desire to pursue an advanced degree in social work.
- · A recent resume which highlights social work or human service experience.
- Three letters of reference/recommendation forms (including one from immediate supervisor, if employed).
- · A completed Application Checklist.
- Preferred Program Format Form.

In addition, applicants to the Joint MSW program must have:

- · Undergraduate degree in social work or a related field.
- Minimum GPA of 3.00 in all coursework taken prior to application for admission to the Joint MSW full-time or part-time program.
- · Well-balanced liberal arts curriculum.
- · Interview with a member of the faculty may also be required.

Admission to the master's degree program is on a selective basis and is determined by the academic preparation and personal qualifications of the applicant. Intellectual maturity, emotional stability, motivation, and the capacity to work with people are essential qualifications.

Openings for admission are limited, and competition is considerable. Individuals who have the strongest qualifications in terms of the MSW program's admission criteria are selected for admission. Students admitted to the MSW program must register for courses the same calendar year they are accepted. Students must indicate their intention to enroll by the deadline indicated in the letter of acceptance.

The Advanced Standing option is an accelerated track of the MSW program that is completed in 11 months. Enrollment for the Advanced Standing is highly competitive, and limited to applicants who have excelled in all elements of an undergraduate social work program accredited by the Council on Social Work Education.

Students should indicate their preference for Advanced Standing in their application to the MSW program. The requirements for Advanced Standing include:

- A baccalaureate degree in social work completed within the last five years from a program accredited by the Council on Social Work Education;
- A minimum overall GPA of 3.2 and a minimum GPA in social work courses of 3.5 on a 4.0 scale;
- Demonstration of superior performance in field practicum as evidenced by submission of undergraduate field evaluations;
- For students graduating in May, acceptance will be contingent upon receipt of a final transcript and proof of BSW degree.

Applicants not accepted into Advanced Standing placement will be notified in writing of their option to enter the pool for admission into the full-time or part-time programs.

Applicants should be aware that having a prior felony conviction or prior sanctions for unprofessional conduct may impact future potential for obtaining licensure as well as field placements and social work employment. All individuals applying for a social work license in the state of Ohio are required to submit a criminal records check.

Students are expected to adhere to the program format under which they were admitted. Any changes in this initial admission status will be based on the program's ability to accommodate the change. Changes must be requested in writing at the beginning of the previous academic year. The Admissions Committee may require an in-person interview at its discretion. Scheduling of courses depends on the availability of rooms equipped with distance education technology as well as other factors. The days and times courses are offered may vary from year to year. Students enrolled in either full-time, part-time, or advanced standing programs must be prepared to be flexible when the schedule of classes changes.

Transfer Students

An applicant who wishes to transfer from another MSW program must follow the same admission process and meet the same admission requirements as other degree candidates. A formal written request for transfer must be made at the time of application for admission. A maximum of 20 graduate credit hours may be transferred from another program accredited by the Council of Social Work Education. The credits must fall within the six-year time limit for degree completion. A grade of "B" or better is required for transfer credit. The Admissions Committee will determine acceptance of transfer credit. Credit will not be given for work or life experience. Transfer students must submit field work evaluations at the time of application for admission.

Program Requirements:

- Complete a minimum of 60 graduate credits of approved courses in social work with an average grade of "B" or better on all classroom courses and satisfactory grades in all field courses. Students must register only for 600-level courses.
- Complete an approved program of courses which include the following required courses:

Social Welfare Policy

Fundamentals of Research I

Students wishing to test out of one or more of the above courses must notify the MSW Program Director at least three weeks prior to the start of the semester in which the course is normally taught. The proficiency exam must be taken prior to classes starting in that semester. There are no fees or penalties associated with taking these exams, however, each exam may be taken only once.

Additional information about the MSW Program may be obtained from the School of Social Work.

Nursing

The School or Nursing offers diverse and comprehensive nursing education programs at the undergraduate and graduate levels. The programs of study, based on professional standards, prepare individuals to provide nursing care in a variety of settings. The School of Nursing supports nursing research that contributes to the health and well-being of society. The school is committed to serving culturally, racially, and ethnically diverse populations. Through academic and community collaboration, the college promotes excellence in nursing education, research, practice, and service.

Goals

- Prepare generalist and advanced practice nurses who are eligible for initial licensure and for certification.
- Prepare scholars in nursing at the doctoral level, focusing on the conduct of nursing research and the dissemination of research findings with their implications for nursing practice and health care policy.
- Provide a foundation for lifelong commitment to professional development and scholarship through continuing education and advanced study at the master's and doctoral levels.
- Prepare nurses who are sensitive in caring for diverse populations in a variety of settings.
- Prepare professional practitioners who integrate leadership roles and ethical standards in a continuously changing health care arena and society.

Philosophy

The School of Nursing faculty believe that the foci of professional nursing are individuals, families and communities.

The Individual is seen as a complex whole whose existence involves patterns, dynamic change, transformation and interdependence. The individual interrelates within the environment in biological, psychological, spoirtual, cultural and other dimensions. The individual is unique and universal. The individual is a thinking, feeling, interacting, evolving, creating, valuing being.

Families are individuals dynamically connected with each other over time in traditional and nontraditional family configurations.

Communities are groups of people with one or more common characteristics who are in relationship to one another and may or may not interact.

Health is comparative, dynamic, multidimensional and has personal meaning. It includes disease, nondisease and quality of life. People have the right to participate in decisions affecting and effecting personal health.

Environment includes all living and nonliving dimensions with which the individual, family and community have interrelationships. The dynamic environmental interrelations define and establish rules for health and modes of action.

Nursing is an art and a science. The discipline of nursing is concerned with individual, family and community and their responses to health within the context of the changing health care environment. Professional nursing includes the appraisal and the enhancement of health. Personal meanings of health are understood in the nursing situation within the context of familial, societal and cultural meanings. The professional nurse uses knowledge from theories and research in nursing and other disciplines in providing nursing care. The role of the nurse involves the exercise of social, cultural, and political responsibilities, including accountability for professional actions, provision of quality nursing care, and community involvement.

Education is an individualized, life-long process. Learning includes the individual's interrelations with the environment, knowledge and skill acquisition, development of critical thinking, and self awareness. Self-expression enables the student to respond to clients who have unique human values and cultural heritage. Each nursing student brings attitudes, beliefs, values, feelings, knowledge and experience into the learning environment. These variables influence learning that occurs through continual construction and reconstruction of experience in relation to environmental influences.

Nursing education at the baccalaureate level synthesizes knowledge from nursing, humanities, social, cultural, physical and natural sciences to operationalize clinical decision-making. The student is prepared to function as nurse generalist in a variety of settings. Faculty and student continually seek to refine the commitment to and understanding of the relationship between theory and practice. Students are encouraged to become self-directed, collaborative, interdependent and independent. These variables are the foundation for life-long learning and professional development.

Nursing education at the master's level builds upon baccalaureate nursing education and provides a foundation for doctoral study. Graduate education at this level prepares advanced practice nurses with expertise in critical thinking and decision making, effective communication, and therapeutic interventions. Through a variety of learning experiences, master of science in nursing students analyze and use theoretical formulations and research findings in advanced practice.

Nursing education at the doctoral level prepares nurses for full participation in the discipline as scholars and researchers. Emphasis is placed on the development of nurses who are informed about the many dimensions of scholarship, including research, practice and teaching, and the integration of the three. Through various didactic, collaborative and research opportunities, doctoral students learn how to develop and test knowledge about health, illness and nursing care, and how to use this knowledge to enhance teaching, improve patient care, and influence health care policy.

Master of Science in Nursing

Accreditation

The master's degree programs are fully accredited by the Commission on Collegiate Nursing Education (CCNE). CCNE is a resource of information regarding tuition, fees, and length of program and can be contacted at: One Dupont Circle, N.W., Suite 530, Washington, D.C., 20036, (202) 887-6791.

Expected Outcomes of the Program

- · Applies scientific theories and research to implement the advanced nursing role
- Demonstrates competence according to national standards and guidelines in the advanced nursing role
- Demonstrates knowledge of legal, ethical, fiscal, policy, and leadership issues that
 impact the delivery of health care in the advanced nursing role
- Demonstrates knowledge of legal, ethical, fiscal, policy, and leadership issues that impact the advancement of the nursing profession in the advanced nursing role
- Identifies researchable nursing problems and contributes to research studies for advanced nursing and health care practice

Admission

- Baccalaureate degree in nursing from an NLNAC or CCNE accredited nursing program.**
- 3.00 GPA on a 4.00 scale for BSN and all previous nursing degrees.
- · CCRN certification required prior to interview for the Nurse Anesthesia track.
- Three (3) letters of reference from a recent employer; a member of the nursing profession; a former faculty member.
- 300-word essay describing professional goals.
- · Interview prior to admission to the program.
- · Current State of Ohio license to practice nursing.
- Prerequisite course requirements: Undergraduate Statistics, Nursing Research, Basic Health Assessment and Computer Skills. Graduate Level Statistics.

Applicants for the Adult/Gerontological Health Nurse Practitioner track are required to have clinical experience as a registered nurse for 12 or more months within the last two years in acute medical/surgical care or long-term acute care [LTAC] with adult and gerontological populations.

Applicants who are certified nurse practitioners will be evaluated and have their program planned on an individual basis.

All application materials for the Nurse Anesthesia program must be received by August 1. Once accepted into the School of Nursing MSN program candidates may begin taking core courses. Candidates may be eligible to interview for the program in October. Students admitted into the program will begin anesthesia classes in June of the following year. A minimum of one year of adult critical care experience is required at the time of the October interview for the Nurse Anesthesia program.

Admission Procedures

The student should access the online graduate application through the Graduate School webpage or the webpage of the School of Nursing. Criteria specific for admission to the Graduate Nursing Program may be secured from the Coordinator of the Graduate Program in Nursing.

A graduate admissions committee of the School of Nursing will review all applications and make recommendations to the Coordinator of the Graduate Program regarding the applicant's status. The Coordinator will send a recommendation to the dean of the Graduate School, who will notify the student of admission status.

Applications received in the graduate office of the School of Nursing will be reviewed when the file is complete to facilitate the admission process.

*National League for Nursing Accreditation Commission.

^{**}A baccalaureate degree in nursing from a foreign university which is recognized by The University of Akron.

Instructional Program

The Master of Science in Nursing curriculum includes a minimum of 36 credit hours of study depending on the specialty track. The advanced practice tracks include Adult/Gerontological Health Nursing, Family Psychiatric Mental Health Nursing, Child and Adolescent Health Nursing, and Nurse Anesthesia. Graduates are prepared for advanced practice as clinical nurse specialists, nurse practitioners, or nurse anesthetists, or for roles as administrators or educators. The curriculum is based on theory and research both in nursing and in related disciplines. It provides the foundation for doctoral study and for ongoing professional development.

Nursing Core

The curriculum consists of a core of 17 credit hours. These courses encompass advanced theory, research, computers in nursing, health policy, and pathophysiological concepts.

Nursing Research

All students enroll in a research core for a total of 6-7 credits: 8200:613, Nursing Inquiry I and 8200:699 Master's Thesis or 8200:618 Nursing Inquiry II.

RN Sequence

(This sequence is limited to registered nurse graduates of Associate Degree and Diploma nursing programs)

The RN program is designed for registered nurses who hold a diploma or associate degree in nursing or a baccalaureate degree in another field. It is specifically designed for RN's who are interested in obtaining the baccalaureate degree in nursing and/or continuing on to a master's degree in nursing. Students must complete 68-69 hours of prerequisite undergraduate coursework prior to acceptance into the sequence. The RN program consists of 32 credit hours of upper-division baccalaureate coursework. Students wishing to begin work on the Master's degree RN/MSN option may do so while meeting the baccalaureate requirements and must apply to the graduate program in the fall or early spring prior to graduation. Additional admission requirements and a graduate program is predicated on meeting graduate program requirements and acceptance into the graduate program is predicated on meeting graduate program requirements and acceptance into the graduate nursing program.

Advanced Practice Options

Options are provided for advanced practice as a clinical nurse specialist, nurse practitioner, or nurse anesthetist, or for advanced roles as an administrator. Requirements for admission include at least one year of practice in the area of interest.

The Master of Science in Nursing curriculum requires from 36 to 60 credits, depending on the Advanced Practice option selected by the student.

Core courses required of all students:

8200:603	Theoretical Basis for Nursing	3	
8200:606	Information Management in Advanced Nursing Practice	3	
8200:607	Policy Issues in Nursing	2	
8200:608	Pathophysiological Concepts of Nursing Care † (*)	3	
8200:613	Nursing Inquiry I	3	
8200:618	Nursing Inquiry II	3	
	or		
8200:699	Master's Thesis	1-6	

Functional role courses selected by students based upon area of specialty.

(*) Anesthesia students take $8200{:}561$ and $8200{:}562$

Nurse Anesthesia (820300MSN)

The Anesthesia Track (60 credit hours) is accredited by the Council on Accreditation of Nurse Anesthesia Programs. The Nurse Anesthesia track meets certification requirements through American Association of Nurse Anesthetists' Council on Certification of Nurse Anesthetists (CCNA).

Graduate Degree Completion Program for the Certified Registered Nurse Anesthetist

The Graduate Degree Completion Program for Certified Registered Nurse Anesthetist (CRNAs) is designed to give practicing CRNAs the opportunity to complete additional course work that integrates their current clinical expertise within the framework of advanced practice nursing at the master's level. This program allows CRNAs to advance their current status to be congruent with the master's level education mandated for all current nurse anesthesia educational programs.

Admission Requirements:

- Evidence of successful completion of an accredited program of nurse anesthesia
- Evidence of successful completion of an accredited BSN program
- · Current certification/recertification as a CRNA
- Current employment as a CRNA
- Three professional recommendations
- Satisfactory completion of a graduate-level statistics course

Master of Public Health (830000MPH)

The Consortium of Eastern Ohio Master of Public Health (CEOMPH) program is a partnership between The University of Akron, Cleveland State University, Northeastern Ohio Medical University, Ohio University, and Youngstown State University. This nontraditional program is geared toward the working professional who would like to broaden his or her role in improving community health, enhance current job skills, or seek career advancement. Students are encouraged to move through the program as a cohort with core courses being taught on Saturday by interactive videoconferencing from one of our distance learning sites. Unique features of this program include the use of distance learning for the six core courses, including interactive videoconferencing and web-enhanced teaching. Elective courses may be taken at any of the partner universities. Core courses are taught on Saturday to accommodate working students. Student can choose electives toward their areas of interest. This MPH degree is a generalist degree. CEOMPH is accredited by the Council on Education and Public Health.

Mission Statement

The mission of the Consortium of Eastern Ohio Master of Public Health program is to provide accredited public health education designed for the working professional. It does this through a collaborative learning community, drawing on the collective resources of its five member institutions and partnering community agencies. The program strives to produce respected and competent professionals able to improve public health practice, especially in eastern Ohio.

- Improving, preserving, and enhancing the health and well-being of the entire community.
- · Engaging in collaborative behavior that models as well as educates.
- Achieving student excellence, including leadership, accountability, and ethical behavior.
- Protecting the environment, recognizing and reducing environmental health risks, and using resources prudently in our personal and professional lives.
- · Promoting diversity in the public health workforce.
- · Demonstrating cultural competence.
- Commitment to lifelong learning.

Goals

 Provide graduates with a foundation of public health skills and knowledge, including community assessment methods, analytic skills, research strategies, program implementation, evaluation, and policy development within an ethical and culturally sensitive perspective.

- Provide an MPH program that produces competent practitioners through collaboration among academicians, researchers, public health practitioners, and students from each member institution and the eastern Ohio community.
- Provide students with the knowledge and opportunities to apply public health concepts and skills to assess and improve the health status of residents of Ohio through research and service.
- Foster ongoing professional development of faculty and students and public health practitioners for the advancement of practice in the community.
- Assure at least an annual evaluation of overall program activity so that it continues to meet the needs of both students and the eastern Ohio community and is based on the most current concepts and skills in public health research and practice.

Admission

All application materials must be sent to Consortium of Eastern Ohio Master of Public Health office, 4209 State Route 44, P.O. Box 95, Rootstown, Ohio 44272-0095.

Students must meet the following admission requirements:

- Submit completed application by January 15 of the year student is seeking to enter in the fall
- · Possess a bachelor's degree from an accredited college or university
- Provide official academic records from each institution of higher education attended. If the official record is not in English, an official translation must accompany the original language document.
- Minimum undergraduate GPA of 2.75 and minimum graduate GPA of 3.0 out of a 4.0 scale
- Three letters of recommendation from individuals familiar with applicant's academic or professional background. Individuals who have not been involved in an academic institution for two years or more may submit letters of recommendation by supervisors from his/her place of employment. The letters should include an assessment of current work quality and ability to successfully complete graduate training. Letters should be addressed to the CEOMPH Admissions Committee at the above address.
- A cover letter (no more than two pages) explaining applicant's educational and professional history; area of interest in public health, interest and motivation for seeking a MPH degree; and professional or academic career plans upon completion of the program.
- Successful completion of a college level mathematics or statistics course and college level social or natural science course.
- GRE scores taken within the last five years (student may be exempt if he/she has a professional or academic master's or doctoral degree).
- TOEFL scores taken within the last two years from graduates of foreign universities who are non-native English speakers. The minimum score must be 550 (paper-based) or 213 (computer-based) or 79-80 with read/speak/listen=17, write=14 (internet-based)
- Two years of work experience in a relevant field is highly recommended, but not required.
- \$45 non-refundable application fee. Students with international credentials must pay a total of \$90.
- International students must also complete an INTERNATIONAL STUDENT DOC-UMENTATION PACKET and Declaration and Certification of Finances (DCF).

For administrative purposes, students will be enrolled at one of the four universities: UA, CSU, OU, or YSU. If accepted, the Consortium of Eastern Ohio Master of Public Health (CEOMPH) Admissions Committee will assign students an "enrollment university," based on his/her preference. Questions may be addressed in writing to the above address or applicants may contact the MPH Program office by telephone at (330) 325-6179, fax (330) 325-5907, or e-mail at *publith@neoucom.edu*. The Program Coordinator at The University of Akron may be reached at (330) 972-2400.

Curriculum

The MPH program contains five core areas basic to public health: social and behavioral sciences, epidemiology, biostatistics, health services administration, and environmental health sciences.

•	Core	cou	rses:
---	------	-----	-------

8300:601	Public Health Concepts	3
8300:602	Social and Behavioral Sciences in Public Health	3
8300:603	Epidemiology in Public Health	3
8300:604	Biostatistics in Public Health	3
8300:605	Health Services Administration in Public Health	3
8300:606	Environmental Health Sciences in Public Health	3
	Subtotal	18
Generalist	Track (required):	
8300:608	Public Health Practice and Issues	3
8300:610	Grant Writing for Public Health Practice	3

 Additional program requirements: 			
	8300:698 8300:699	Capstone Project I Capstone Project II	3 3
	Electives (12	credits):	
	8300:696 8300:695 8300:680-689	Practicum Independent Study Special Topics	1-3 1-3 1-5
		Total	42

A portfolio and exit presentation are also required of each student for graduation.

College of Polymer Science and Polymer Engineering

Stephen Z.D. Cheng, Ph.D., Dean

Mark D. Foster, Ph.D., Associate Dean of Programs, Policies, and Engagement

Alamgir Karim, Ph.D., Associate Dean for Research

HISTORY

The University of Akron has been a focus for education and research in polymer science since 1910 when Professor Charles M. Knight began offering courses in rubber chemistry. Master's theses treating rubber chemistry on the University library shelves date to 1920. The University began developing major laboratories in 1942 under the leadership of Professor G.S. Whitby, and the UA program played a significant role in the synthetic rubber industry of the U.S. government during World War II. An Institute of Rubber Research under the direction of Professor Maurice Morton was created in 1956 and became the Institute of Polymer Science in 1964. A Ph.D. program in Polymer Chemistry was introduced in 1956. In 1967, a Department of Polymer Science was formed in the College of Arts and Sciences, awarding M.S. and Ph.D. degrees in Polymer Science.

A Center for Polymer Engineering was created in 1983 and a Department of Polymer Engineering in the College of Engineering in January 1984 with Professor James L. White as director and department chair to strengthen the study of polymer processing and engineering applications.

In 1988 the College of Polymer Science and Polymer Engineering was established to consolidate the administration of the two academic departments, the Institute of Polymer Science and the renamed Institute of Polymer Engineering.

MISSION STATEMENT

The mission of the College of Polymer Science and Polymer Engineering is to serve its students through a high quality educational experience, incorporating both classroom and laboratory learning, as well as a stimulating research environment. Its graduates and former research associates provide a well-trained workforce for employers throughout the world, but especially for the State of Ohio. With the generation of new knowledge from research and the application of that knowledge, the College serves society with benefits to both the economy and the environment.

- The primary purpose of the College is to educate its students in the science and engineering of polymers. Since the College is involved principally in graduate level education (M.S. and Ph.D.), its students are taught the skills of research by the faculty, occasionally assisted by visiting scientists and post-doctoral associates.
- The involvement of the College faculty, students and associated staff in research meets a further purpose, *i.e.*, to develop new knowledge concerning polymeric materials and processes, and to disseminate that knowledge to the broader community of researchers, technologists, and manufacturers who employ that knowledge to their own aims.
- The College provides a variety of services through its institutes and centers to aid the economic and cultural development of our society. Individual faculty members provide services as consultants to industry, government, and civic institutions, concerning the developments in knowledge and applications of polymers.
- An additional function of the College is to provide training for those individuals who wish to improve their skills and knowledge concerning various types of polymers, their properties, processes and uses. Undergraduate students from other colleges within the University participate in specialized courses taught by the polymer college faculty as they pursue their traditional degree programs. Also, a variety of non-credit offerings are presented as continuing education, intensive short courses, and seminars.

DESCRIPTION

The College of Polymer Science and Polymer Engineering carries out a program of research and education, primarily at the graduate level, and serves as a major intellectual resource for the scientific and technological development of polymers and related materials and processes. The college consists of the Department of Polymer Science, the Department of Polymer Engineering, and the Maurice Morton Institute of Polymer Science and the Institute of Polymer Engineering.

The Department of Polymer Science emphasizes polymer synthesis, the physical chemistry, physics and mechanical behavior and technology of polymers, and many of their applications. The Department of Polymer Engineering emphasizes polymer

processing (including reactive processing), solid state structure/morphology and properties of polymers as related to process history as well as engineering analysis and design. Collaborative research among the faculty members in the two departments is common and provides a unique environment and capability for solving modern-day problems. This provides a stimulating environment for students to obtain multidisciplinary training.

ADMISSION REQUIREMENTS

Admission to the graduate programs in the college is competitive. The departmental admission committees carefully consider each applicant. Early application is suggested.

DEPARTMENT OF POLYMER SCIENCE

Students with an undergraduate degree in chemistry, physics, or engineering and a grade point average of 3.0 or better may apply. Students holding a degree in biology or natural sciences will be expected to take additional courses on the undergraduate level in calculus, organic chemistry, thermodynamics, and physics. For highly qualified students lacking no more than one of the required courses a provisional admission may be given for one semester, followed by full admission upon successful completion of the undergraduate course.

In addition to the graduate application and official transcripts applicants must submit three letters of recommendation, a statement of purpose, and GRE scores.

A student with a M.S. in the sciences from another university can be admitted to the Ph.D. program. Three letters of recommendation are required in such cases to be certain that the student is likely to be successful in doctoral research.

All application materials must be received by December 15 for early consideration. The final deadline for all applicants is February 1.

DEPARTMENT OF POLYMER ENGINEERING

Students with an undergraduate degree in engineering disciplines, materials science, or related degrees with a grade point average of 2.75/4.0 or better are admissible. Students holding a degree in the natural sciences usually need additional undergraduate engineering courses, which are required prerequisites for polymer engineering courses. For such students, depending upon their background, a provisional admission may be given followed by full admission upon successful completion of a series of required remedial courses.

In addition to the graduate application and official transcripts applicants must submit three letters of recommendation and GRE general test scores.

A student with a M.S. in Mechanical or Chemical Engineering from another university can be admitted to the Ph.D. program. Three letters of recommendation are required as well as GRE general test scores.

Applications are processed throughout the year for fall semester admission; however, priority consideration is given to those applicants whose materials are received by January 15 each year.

DOCTOR OF PHILOSOPHY

Students may pursue the Doctor of Philosophy degree in either Polymer Science or Polymer Engineering.

Doctor of Philosophy in Polymer Science (987010PHD)

An interdisciplinary program leading to the Doctor of Philosophy in Polymer Science is administered by the Department of Polymer Science. Graduates from the three main disciplines (chemistry, physics and engineering) are guided into the appropriate courses of study and research in that field under the supervision of a faculty member. Research facilities of the Institute of Polymer Science are available for dissertation research. Students may be admitted directly to the Ph.D. program upon screening of their qualifications and recommendation by the department chair and dean.

In addition to satisfying the general requirements of the Graduate School, a student working toward the Doctor of Philosophy in Polymer Science must meet the following requirements:

 Complete a course of study prescribed by the student's advisory committee based on the committee's judgment of the student's background and on the result of any special examinations it might impose. This course will consist of a minimum of, but usually more than, 36 credits in graduate courses, or their equivalent, plus sufficient Ph.D. research credits to make a total of 84 credits (exclusive of Master of Science thesis credit). Credits for participation in either Polymer Science of Polymer Engineering seminars do not apply toward the degree. At least 18 credits of graduate course work and all dissertation credits must be completed at the University.

There is a university minimum residence time requiring one year, although graduate students starting with a B.S. or B.A. typically spend 4 years in residence.

3

Completion of 17 credits among the following core courses (2 credits each) in polymer science:

4 credits of polymer	chemistry courses:
----------------------	--------------------

9871:601	Polymer Concepts
9871:602	Synthesis and Chemical Behavior of Polymers

4 credits of polymer physical chemistry courses:

9871:674	Polymer Structure and Characterization
9871:675	Polymer Thermodynamics

4 credits of polymer physical property courses:

9871:631 Physical Properties of Polymers I 9871:632 Physical Properties of Polymers II

2 credits of polymer engineering and technology courses:

9871:701 Polymer Technology I

3 credits of polymer science laboratory:

9871:613 Polymer Science Laboratory

- Completion of 19 credits of elective courses appropriate to each student's area of interest.
- Pass six cumulative examinations which are given once a month for eight months
 of the year (none in June, July, August, or December). Candidates must begin
 taking cumulative exams after completion of their second semester. Thereafter,
 students are required to take all of the exams until they pass six. (A maximum of
 24 total cumulative examinations may be taken)
- · Complete 9871:607,8 Polymer Science Seminar I and II.
- Attendance at and participation in seminar-type discussions scheduled by the department. Credits for participation in either polymer science or polymer engineering seminars do not apply toward the degree.
- · Present a public/departmental seminar on the completed research.
- · Pass an oral examination upon completion of a research dissertation.
- · Demonstrate competency in computer programming.
- · Pass the general requirements for the Doctor of Philosophy degree.
- Satisfy the foreign language requirement for the doctoral degree by meeting the requirements of Plan A, B, or C as specified by the student's advisory committee. Appropriate research skills for Plan C are to be specified by the department on the basis of the student's area of specialization and intended research. These skills include proficiency in computer programming language, special mathematical methods, applied statistical analysis, and special literature search techniques.

Doctor of Philosophy in Polymer Engineering

(984010PHD)

The Department of Polymer Engineering administers a graduate program in which students, with primarily engineering backgrounds, are guided through a course of study and research under the supervision of a faculty member. Students may be admitted directly to the Ph.D. program upon screening of their qualifications and recommendation by the department chair and dean.

Students in Polymer Engineering will earn the degree of Doctor of Philosophy in Polymer Engineering. Requirements in the interdisciplinary field of Polymer Engineering for that degree are as follows:

- Complete courses as developed in a plan of study approved by the student's advisor and the department chair. A minimum of 96 credits of graduate work must be earned. A total of 36 credit hours of lecture courses and 60 credit hours of research must be completed. Twelve credit hours of the 60 credits must be dissertation research.
- · Polymer engineering core (12 credits):

98 98 98	41:611 41:621 41:622 41:631 41:641	Fundamentals of Polymer Structure Characterization Rheology of Polymeric Fluids Analysis and Design of Polymer Processing Operations I Engineering Properties of Solid Polymers Polymer Chemistry and Thermodynamics	3 3 2 3
• Pc	olymer Eng	jineering 600-level electives (9 credits):	
98	41:601	Polymer Engineering Seminar	1
98	41:623	Analysis and Design of Polymer Processing Operations II	3
98	41:650	Introduction to Polymer Engineering	3
98	41:651	Polymer Engineering Laboratory	3
98	41:661	Polymerization Reactor Engineering	3
98	41:675	Carbon-Polymer Nanotechnology	3
98	41:680	Polymer Coatings	3

The Committee recommends 9841:651 to be compulsory for all full-time Ph.D. students, but it may be exempted as an elective for part-time students who are currently employed in polymer and related industries.

Doctoral students are also required to take 9841:601 four (4) times. While the one credit earned in this course will count only one time toward degree requirements, all grades will be counted and calculated into the student's GPA.

Mathematics electives (3 credits):
 3450:xxx Approved Mathematics

Technical e	ectives (2 credits):
0450	A

	3450:xxx:	Approved Mathematics	3
	4300:681	Advanced Engineering Materials	3
	4600:622	Continuum Mechanics	3
	9841:xxx	Approved Polymer Engineering	3
	9871:613	Polymer Science Laboratory	3
	9871:674	Polymer Structure and Characterization	2
	9871:675	Polymer Thermodynamics	2
•	Polymer Eng	ineering 700-level electives (10 credits):	
	9841:7xx	Electives	10

Electives may be taken from other departments such as polymer science, chemical engineering, mechanical engineering, physics, mathematics, computer science, or other engineering departments with the advisor's approval.

· Research (60 credits):

Students may take a combination of 9841:898 (Preliminary Research) and 9841:899 (Doctoral Dissertation) to meet this requirement, however, a minimum of 12 credits of the total 60 required must be of 9841:899.

· Foreign Language Requirement:

Additionally, a foreign language or research technique (e.g., computer skill/statistics) is required for the Ph.D. degree in Polymer Engineering, using either Plan A, B, or C (see section under "Language Requirements" as described in this publication).

- Take a Basic Engineering exam after the first Fall semester of study. The exam will cover heat transfer, fluid mechanics and solid mechanics, as determined by the department. If a student fails the examination or a portion of the examination he/she may be asked to take remedial undergraduate courses (at his/her own expense) or graduate level courses within one year from the date of the exam. NOTE: Any student who successfully completes course 9841:650, Introduction to Polymer Engineering, with a "B" or better grade is deemed to have satisfied the requirement of the Basic Engineering exam and does not have to take the exam. Students who achieve a "B-" or lower in the course would still be required to take the exam.
- Successfully complete six one-hour qualifying examinations within three semesters after admission into the program. The examinations shall cover graduate courses that the student has completed and basic undergraduate topics.
- Each doctoral student must (1) pass a candidacy exam and (2) must present his/her research proposal for approval by the advisory committee within three years of entry into the program.
- · Each candidate must pass an oral examination in defense of the dissertation.
- Submit the written Doctoral Dissertation to the Graduate School by the required deadlines.
- A student receiving a Master of Science degree from The University of Akron in Polymer Engineering may use all lecture course credits toward the 36 lecture course credit requirement.
- A student entering with a master's degree or graduate credits from another institution may be given 18 credit hours toward the lecture course requirement.

MASTER'S DEGREE

Students may pursue Master of Science degrees in either Polymer Science or Polymer Engineering. Admission requirements to the master's program are the same as those for the doctoral program as listed on page 81 of this bulletin.

Master of Science in Polymer Science

(987010MS)

 A minimum of 24 credits in appropriate courses in biology, chemistry, mathematics, physics, polymer science and engineering as prescribed by the advisory committee:

Completion of 11 of credits in the following required core courses in polymer science: 9871:601 Polymer Concepts; 613 Polymer Science Laboratory; 631 Physical Properties of Polymers I; 674 Polymer Structure and Characterization; 701 Polymer Technology.

Completion of 13 credit hours of elective courses appropriate to each student's area of interest.

- · Completion of a research project (9871:699) and the resulting 6 credits.
- Attendance at and participation in seminar-type discussions scheduled by the department. Credits for participation in either polymer science or polymer engineering seminars do not apply toward the degree.
- · Demonstrated competence in computer skills.
- At least 12 credits of graduate coursework and all theses credits must be completed at the University.
- Pass one cumulative exam.

BS Natural Sciences-Polymer Chemistry/MS Polymer Science

(987012MS)

In Northeast Ohio there is a growing demand for professionals trained in polymer chemistry. The polymer industry is one of the major industrial sectors of the economy of Ohio. The BS/MS Polymer Chemistry program was instituted to prepare students for jobs in this area. The program provides a quality undergraduate science degree coupled with a graduate degree from one of the premier polymer programs in the country.

Students who are admitted to this program can complete the undergraduate phase of the course of study in three years and then immediately begin graduate studies in polymer science. Under rare circumstances, a student can complete the undergraduate phase in four years after approval of his/her advisors. A student not proceeding to the graduate program in polymer science may complete the degree requirements for the BS Natural Sciences (Polymer Chemistry Concentration).

Students earn a bachelor's degree in Natural Sciences from the Buchtel College of Arts and Sciences that is heavily weighted toward chemistry. They will be assigned an advisor in the Department of Chemistry and a co-advisor in the Department of Polymer Science, who will advise them throughout their undergraduate program. Once the undergraduate degree is completed students begin studies to earn a Master's of Science from the College of Polymer Science and Polymer Engineering that will require two years of courses and research. The graduate degree requirements for the master's portion of this accelerated program are the same requirements as those for the traditional master's program in polymer science.

BE/MS Program with BE in Polymer Materials and Engineering at Beijing University of **Chemical Technology and MS Polymer Science at UA**

(987013MS)

This five-year program involves initial completion of three years of BE coursework in Polymer Materials and Engineering at BUCT followed by two years of graduate coursework and research in the Department of Polymer Science at The University of Akron. BUCT will award the BE degree in Polymer Materials and Engineering to the students of this program after completion of the fourth year of coursework at The University of Akron.

Students will be admitted in the MS program at The University of Akron after completing three years of BE coursework at BUCT. Students intending to enroll in the BE/MS program will consult the faculty counselors both at BUCT and The University of Akron during their study at BUCT. The Graduate School at The University of Akron will handle their admission using a special category, and the admission committe of the Department of Polymer Science will evaluate the applications of potential students in their third year. The MS degree in Polymer Science is awarded at the completion of the MS degree requirements, which would typically be at the end of the fifth year

Requirements for the master's degree coursework at The University of Akron are identical to the standard requirements for the MS in Polymer Science.

Master of Science in Polymer Engineering

(984010MSPE)

The major emphases of the graduate program in polymer engineering are in polymer processing, engineering performance and structural and rheological characterization of polymers.

Students in Polymer Engineering will earn the degree of Master of Science in Polymer Engineering. Requirements for the degree are as follows:

- · Complete courses as developed in a plan of study approved by the student's advisor and the department chair. A minimum of 30 credits of graduate coursework must be earned. A total of 24 credit hours of lecture courses and 6 credit hours of research must be completed.
- Polymer engineering core (12 credits):

•	Folymer eng	lineering core (12 credits).
	9841:611 9841:621 9841:622 9841:631 9841:641	Fundamentals of Polymer Structure Characterization Rheology of Polymeric Fluids Analysis and Design of Polymer Processing Operations I Engineering Properties of Solid Polymers Polymer Chemistry and Thermodynamics
•	Polymer eng	ineering 600-level electives (6 credits):
	9841:601 9841:623 9841:650 9841:651 9841:661 9841:675	Polymer Engineering Seminar Analysis and Design of Polymer Processing Operations II Introduction to Polymer Engineering Polymer Engineering Laboratory Polymerization Reactor Engineering Carbon-Polymer Nanotechnology

9841:680 Polymer Coatings

The Committee recommends 9841:651 to be compulsory for all full-time M.S. students, but it may be exempted as an elective for part-time students who are currently employed in polymer and related industries

Master's students are also required to take 9841:601 two (2) times. While the one credit earned in this course will count only one time toward degree requirements, both grades will be counted and calculated into the student's GPA.

· Technical electives (6 credits):

3450:xxx	Approved Mathematics	3	
4300:681	Advanced Engineering Materials	3	
4600:622	Continuum Mechanics	3	
9841:xxx	Approved Polymer Engineering	3	
9871:613	Polymer Science Laboratory	3	
9871:674	Polymer Structure and Characterization	2	
9871:675	Polymer Thermodynamics	2	
Thesis (6 credits):			

- 9841.699 Master's Thesis
- · Students will take a Basic Engineering exam after their first Fall semester of study. The exam will cover heat transfer, fluid mechanics and solid mechanics, as determined by the department. If a student fails the examination or a portion of the examination he/she may be asked to take remedial undergraduate courses (at his/her own expense) or graduate level courses within one year from the date of the exam. Students for whom the master's degree is a terminal degree may be exempted from taking remedial courses with the approval of his/her advisor and the department chair. NOTE: Any student who successfully completes course 9841:650, Introduction to Polymer Engineering, with a "B" or better grade is deemed to have satisfied the requirement of the Basic Engineering exam and does not have to take the exam. Students who achieve a "B-" or lower in the course would still be required to take the exam.
- Each candidate must pass an oral examination in defense of the thesis.
- · Submit the written master's thesis to the Graduate School by the required deadlines

BS/MS Program in Applied Mathematics/Polymer Engineering

(984021MSPE)

3 3

3

2

3

3

This is an accelerated five-year BS/MS program. After successfully completing this program, a student will receive a bachelor's degree in applied mathematics as well as a master's degree in polymer engineering. Under the supervision of faculty advisors in applied mathematics and polymer engineering, a student in the program will finish the core course requirements and most of the electives for the bachelor's degree in the first three years. During the third year of the baccalaureate degree a student will formally apply to the program through the Graduate School. Upon acceptance a student will be cleared to complete the remaining electives of the bachelor's degree and 30 credits of graduate work for the master's degree in the last two years. A student will be eligible for a graduate assistantship only in these last two years and must be registered for at least nine graduate credits in each of those semesters.

Graduate coursework will include:

3450:539	Advanced Engineering Mathematics II*	3
9841:550	Engineering Properties of Polymers*	3
9841:601	Polymer Engineering Seminar**	1
9841:611	Fundamentals of Polymer Structure Characterization	3
9841:621	Rheology of Polymeric Fluids	3
9841:622	Analysis and Design of Polymer Processing Operations I	3
9841:641	Polymer Chemistry and Thermodynamics	3
9841:650	Introduction to Polymer Engineering	3
9841:651	Polymer Engineering Laboratory	3
9841:661	Polymerization Reactor Engineering	3
9841:6xx	Electives	3
9841:699	Master's Thesis	3

*These courses will be applied to the requirements of both the bachelor's and master's dearee

**Master's students are required to take 9841:601 two times. While the one credit earned in this course will count only one time toward the degree requirement, both grades will be counted into the student's GPA.

A student must maintain a 3.0 or better grade point average to stay in the program. If a student is not able to do this, then he or she will have the option to complete the regular bachelor's degree program in applied mathematics or the Natural Sciences divisional major instead of the five-year accelerated plan.

BA/MS Program with BA Physics/Chemical Physics at the College of Wooster and MS Polymer Engineering at UA

(984030MSPE)

The five-year BA/MS program at The University of Akron with BA Physics/Chemical Physics at the College of Wooster and MS Polymer Engineering at UA is an accelerated program which involves initial completion of three years of BA coursework in Physics/Chemical Physics at the College of Wooster followed by two years of undergraduate and graduate coursework, along with graduate thesis work in the Department of Polymer Engineering, at The University of Akron. The College of Wooster will award the BA in Physics/Chemical Physics after completion of the fourth year of coursework at The University of Akron. Students intending to enroll in the BA/MS program will consult with the faculty courselors at both the College of Wooster and The University of Akron.

Students must apply to the Graduate School during the third year of the BA at the College of Wooster. The admissions committee of the Department of Polymer Engineering will evaluate applications of potential BA/MS students in their third year. Students will be admitted to the MS program at The University of Akron after completing three years of the BA at the College of Wooster. The MS in Polymer Engineering will be awarded at the completion of the fifth year when all graduate degree requirements have been successfully completed.

Students will receive tuition waivers for graduate courses taken at The University of Akron in the fourth and fifth year and will be eligible to receive stipends in their fifth year similar to other graduate students in Polymer Engineering when they are registered for at least nine graduate credit hours. Students should take at least 24 credits of graduate-level coursework, including two credits of 9841:601. In addition they should take at least six credits of master's research. This curriculum represents the minimum graduate course requirements for the MS degree and students may take additional graduate technical electives during their fourth and fifth years.

Following are the courses required to be taken at The University of Akron:

Undergraduate Courses:

3460:209	Introduction to Computer Science	4	
3450:335	Introduction to Ordinary Differential Equations	3	
3450:427	Applied Numerical Methods I	3	
4200:321	Transport Phenomena	3	
4200:351	Fluid and Thermal Operations	3	
Graduate Cou	rses:		
9841:550	Engineering Properties of Polymers	3	
9841:601	Polymer Engineering Seminar	1	
9841:611	Fundamentals of Polymer Structure Characterization	3	
9841:621	Rheology of Polymeric Fluids	3	
9841:622	Analysis and Design of Polymer Processing Operations I	3	
9841:631	Engineering Properties of Solid Polymers	2	
9841:641	Polymer Chemistry and Thermodynamics	3 3 3 3	
9841:650	Introduction to Polymer Engineering	3	
9841:651	Polymer Engineering Laboratory	3	
9841:661	Polymerization Reactor Engineering	3	
9841:699	Master's Thesis	1-6	
Other graduate courses that may be taken as electives:			
9841:623	Analysis and Design of Polymer Processing Operations II	3	
9841:675	Carbon-Polymer Nanotechnology	3	
9841:680	Polymer Coatings	3	

BE/MS Program with BE in Polymer Materials and Engineering at Beijing University of Chemical Technology and MS Polymer Engineering at UA

(984040MSPE)

This five-year program involves initial completion of three years of BE coursework in Polymer Materials and Engineering at BUCT followed by two years of graduate coursework and research in the Department of Polymer Engineering at The University of Akron. BUCT will award the BE degree in Polymer Materials and Engineering to the students of this program after completion of the fourth year of coursework at The University of Akron.

Students will be admitted to the MS program at The University of Akron after completing three years of BE at BUCT. Students intending to enroll in the BE/MS program will consult the faculty counselors both at BUCT and The University of Akron during their study at BUCT. The Graduate School at The University of Akron will handle their admission using a special category, and the admissions committee of the Department of Polymer Engineering will evaluate the applications of potential students in their third year. The MS degree in Polymer Engineering is awarded at the completion of the MS degree requirements, which would typically be at the end of the the fifth year.

Requirements for the master's degree coursework at The University of Akron are identical to the standard requirements for the MS in Polymer Engineering.

Interdisciplinary and Certificate Programs of Study

Overview

To add to the dimensions of the traditional disciplines, the University has established interdisciplinary and interdepartmental programs of study. In addition to a major, the student may elect to pursue one of these programs.

Interdisciplinary Studies programs feature courses which integrate and analyze issues and concepts from more than one field. The goal of this type of study is to place knowledge into greater perspective than would be possible through any one traditional field. This is accomplished by taking courses from a variety of departments as well as courses which may be team taught.

Upon completion of any of these programs, a statement will be placed on the student's permanent record indicating the area of concentration. The certificate indicating the area of concentration will be awarded when the student completes requirements for a degree unless the program specifies that it is free-standing and does not require participation in a degree program.

ACUTE CARE NURSE PRACTITIONER

(820007GC)

The Post-Master's Acute Care Nurse Practitioner certificate program prepares acute care nurse practitioners to provide advanced practice nursing care to acutely and/or critically ill adults. The program requires one calendar year of intense study including advanced clinical practice and theory. The program is built upon a core of advanced assessment, pathophysiology, and pharmacology. Acute Care Nurse Practitioners are prepared to conduct comprehensive physical assessments, appraise health risks and promote health behaviors, order and interpret diagnostic tests, diagnose and manage commonly occurring health problems and diseases. The program consists of 16 credits of graduate level course work and 525 hours of clinical practice.

Admission Criteria

Hold an MSN degree from a professionally accredited nursing program.

Minimum of a 3.0 GPA on a 4.0 scale for the master's degree program.

Recent acute/critical care experience (within the past three years).

A 300 word essay describing professional goals.

Completion of the following prerequisite courses: graduate level pharmacology, pathophysiology, and advanced assessment.

Completion of an interview with the selection committee.

Advanced Cardiac Life Support (ACLS) Certification.

ADDICTION COUNSELING

(560102GC)

Robert C. Schwartz, Ph.D., Coordinator

(Admissions to this program are currently suspended)

The Addiction Counseling certificate program prepares master's-level practitioners to assess, diagnose, and treat persons with addictive disorders using various counseling strategies. Trainees will complete coursework related to theory, assessment, treatment planning, and treatment of addicted clientele. Trainees will then gain supervised clinical experience specifically related to counseling clients with addictive disorders. Licensed mental health practitioners may list addiction counseling under their identified scope of practice after completion of this certificate program.

Admission

Persons are eligible for admission to the Graduate Certificate Program in Addiction Counseling if they are currently enrolled in a master's degree program in counseling or a closely related field or currently hold a master's degree in counseling or a closely related field. To participate in the program the student should:

- Be formally admitted to The University of Akron as a degree seeking or a special non-degree graduate student.

- Make written application to the program to the Counselor Education Coordinator in the Department of Counseling and Special Education.
- Receive written notification for admission from the Counselor Education Admissions Committee.
- Consult with the Counselor Education Program Coordinator to plan for an internship in an appropriate addictions counseling setting.

ADULT/GERONTOLOGICAL NURSE PRACTITIONER

(820009GC)

The Post-MSN certificate program is designed to prepare Adult/Gerontological Clinical Nurse Specialists who are seeking preparation in the role of nurse practitioner as providers of primary health care to adults and older adults. Upon completion of the 18 credit program, the student is eligible to sit for Nurse Practitioner certification examination.

Admission Criteria

Ohio RN licensure.

Hold an MSN degree from a professionally accredited nursing program (clinical master's preferred).

Have a minimum GPA of 3.0 on a 4.0 scale for MSN program.

Minimum of 2-3 years recent clinical experience in adult or gerontological health care.

Complete an application to The University of Akron Graduate School.

Submit a 300 word essay describing professional goals.

Submit a resume outlining prior education and work related experiences.

Complete the following prerequisite courses: graduate level pathophysiology, advanced assessment, advanced clinical pharmacology.

Completion of an interview with the Adult/Gerontological Health Nursing faculty.

Program of Study

Students must complete a minimum of 500 clinical hours for eligibility to sit for certification.

Required Courses:

ADVANCED ROLE SPECIALIZATIONS IN NURSING MANAGEMENT AND BUSINESS (820101GC)

This certificate program is open to all current master's and doctoral students in the College of Nursing, post-baccalaureate students, post-MSN students, and post-doctoral nurses who are currently in advanced practice.

Admission:

Formal admission to the University of Akron is required as either a post-baccalaureate student, graduate student, or non-degree graduate student. The awarding of this certificate is not contingent upon a degree completion program.

Program of Study:

Students should successfully complete all four courses listed below

8200:630	Resource Management in Nursing Settings	3
8200:632	Fiscal Management in Nursing Administration	3
8200:634	Nursing Leadership in Organizations II	3

APPLIED POLITICS

(370005GC)

John C. Green, Ph.D., Director

The Ray C. Bliss Institute and the Department of Political Science have combined to offer a Certificate Program in Applied Politics for graduate students. The Certificate Program in Applied Politics offers course work in the history, organization and management of campaigns intended to influence the outcome of political decisions. Working from a set of core courses, students are allowed to concentrate in the area of applied politics of greatest interest--campaigns, communications, lobbying, political parties, etc. Believing that democracy is best served by having active and informed citizens, the certificate is designed for all students, no matter what their degree program as long as they have a deep interest in practical politics.

Requirements

Persons are eligible for admission to the Certificate Program in Applied Politics if they have been admitted to study as full-time students, special, or non-degree in any department of the University. Students who are pursuing a graduate degree in other departments at the University may be admitted to the Master's level certificate program upon the recommendation of the chair/director of the department/school in which they are enrolled. The student shall schedule courses with the assistance of an advisor at the earliest possible time.

Core Courses (required -12 credits):

3700:570 3700:571 3700:672 3700:695	Campaign Management I Campaign Management II Seminar: Political Influence and Organizations Internship in Government and Politics	3 3 3 3

3700:574	Political Opinion, Behavior and Electoral Policies	3

3700:577 Lobbying 3700:655 Campaign and Election Law 7600:575 Political Communication Three credits of additional course work from above or from approved courses

3

3

3

from Political Science, Communication, Public Administration, or other departments.

Certificate

Upon completion of their degree, M.A. in Political Science students who have completed certificate requirements will be awarded an M.A. degree in Political Science with a Certificate in Applied Politics. Majors in other disciplines will be given a Certificate in Applied Politics and have the certificate noted on their transcript.

ASIAN STUDIES GRADUATE CERTIFICATE

(340001GC)

Dr. Janet Klein, Director

Department of History, (330) 972-2562 or klein@uakron.edu

The graduate certificate in Asian Studies offers students a multidisciplinary course of study that will provide them with in-depth training in a special area that may be particularly useful as they pursue careers in such fields as Academia, Law, Public History, Education, Business, or Medicine where they will practice their profession abroad or use their international experience to expand their understanding of these regions as they work with topics on or populations from diverse societies in Asia. The certificate complements any graduate major and is also appropriate for students with a graduate degree who might like to return to the university for mid-career training

Requirements

Two years of an Asian language (or equivalent), which serves as the program's core requirement plus four courses of approved electives. A minimum 3.0 grade point average in the courses that will fulfill the certificate. The student must be in good academic standing in his/her major department if enrolled in a degree program.

Language Core:

The entering student who does not have proficiency in an Asian language will have to satisfy the language requirement by completing two years of an Asian language offered by The University of Akron or any other accredited institution. Students may also fulfill the language requirement by demonstrating competency in the equivalent of a fourth-semester level of his/her chosen language at the FS-1 level (U.S. Department of State) or equivalent level. Currently The University of Akron offers the followina:

3500:101	Beginning Chinese	4
3500:102	Beginning Chinese II	4
3500:201	Intermediate Chinese	3
3500:202	Intermediate Chinese II	3
3560:101	Beginning Japanese	4
3560:102	Beginning Japanese II	4
3560:201	Intermediate Japanese	3
3560:202	Intermediate Japanese II	3

Elective Courses:

Complete four of the following courses. At least one must be outside the student's major department. Exceptions or substitutions require approval from the Director. Credits will be provided with Director's approval for study and certain experiences abroad in Asian countries.

3370:695	Field Studies in Geology*	3
3400:500	Women in Revolutionary China	3
3400:501	Japan and the Pacific War, 1895-1945	3
3400:516	Modern India	3
3400:596	Special Studies (in Asian History)	3
3400:610	Comparative Studies in World Civilization	4
3400:640	Reading Seminar: China	4
7100:501	Special Topics**	3

*Field Studies in Geology abroad counts for double credits

**Recent 500-level Selected Topics in the School of Art have included "The Art of India," "The Art of China," "The Art of Korea and Japan," and "The Art of Buddhist Japan.

Courses with comparative content are encouraged. Any course that has significant Asian content (and for which the student has presented substantial written work on an Asian topic) may count toward the certificate program with the Director's approval. Students should consult with the Director for help planning an appropriate course of study.

CASE MANAGEMENT FOR CHILDREN AND FAMILIES

(H40202GC)

Pamela A. Schulze, Ph.D., Coordinator

Program

This certificate program is a special course of study which can be added to any graduate degree program. It may also be completed by a non-degree graduate student with special permission from the director of the Center for Family Studies. This certificate represents a concentration in theoretical and practical knowledge in collaborative cross-systems case management for children and families in the context of community-based services. This course of study promotes collaboration among disciplines and services.

Admission

To participate in the program the student should:

Be formally admitted to The University of Akron as a postbaccalaureate, graduate or non-degree graduate student.

Make written application to the program and receive written notification of admission from The Center for Family Studies.

Requirements

Core:

Students should successfully complete all three of the core courses listed below. However, the first two courses plus three hours of electives must be completed prior to the student's enrollment in the practicum course.

7400:561	Case Management for Children and Families I	3
7400:562	Case Management for Children and Families II	3
7400:563	Practicum in Cross-Systems Case Management for	
	Children and Families	3

Electives:

Students must successfully complete six credits of coursework selected from the various departmental courses listed below.

· Family and Consumer Sciences

CHILD AND ADOLESCENT HEALTH NURSE PRACTITIONER (820006GC)

The Post-MSN Child and Adolescent Health Nurse Practitioner certificate program is designed for those nurses who hold the Master of Science in Nursing degree and are seeking preparation for the role of the pediatric nurse practitioner. Upon completion of the 17 credit hour program, the students are eligible to sit for the pediatric nurse practitioner certification examination.

Admission

Admission criteria include the following:

Hold an MSN degree from a professionally accredited nursing program.

Minimum of a 3.0 GPA on a 4.0 scale for the master's degree program.

A minimum of one year of clinical experience in a pediatric setting.

Complete an interview with the program coordinator.

Completion of the following prerequisite courses: Pathophysiological Concepts, Advanced Pediatric/Adolescent Assessment, Nutrition.

Program of Study

Students are required to complete a minimum of 500 clinical practice hours in conjunction with the Child and Adolescent Health Nursing courses.

Required Courses

8200:651 8200:652	Child and Adolescent Health Nursing I Child and Adolescent Health Nursing I Practicum	3
8200:655	Child and Adolescent Health Nursing I Fracticum Child and Adolescent Health Nursing II	3

8200:688	CAH Acute Care IV Practicum	2
8200:658	Child and Adolescent Health NP Residency (required)	1-4*
	Total	11-14

*One credit hour requires five hours of supervised clinical practice. Students may be required to complete additional acute care clinical hours to achieve required competencies to sit for certification and the CAH NP Residency.

COMPOSITION

(330002GC)

Lance Svehla, Ph.D., Director

Requirements

To be eligible for the certificate in composition, a person must be admitted to the University as a graduate student (with either full or provisional status). An eligible person interested in the program should contact the program director. Five courses in composition are required.

Required Courses (6 credits):

3300:673	Theories of Composition	3
3300:674	Research Methodologies in Composition	3
3300:676	or Theory and Teaching of Basic Composition	3

Electives (9 credits from the following list chosen with certificate director):

•	5	,
3300:574	African American English	3
3300:577	Sociolinguistics	3
3300:578	Grammatical Structures of English	3
3300:589	Seminar in English	3
3300:600	Teaching College Composition Practicum	3
3300:625	Autobiographical Writing	3
3300:650	The New Rhetorics	3
3300:651	The Pragmatists	3
3300:660	Cultural Studies: Theory and Practice	3
3300:670	Modern Linguistics	3

DIVORCE MEDIATION

(H40201GC)

Pamela A. Schulze, Ph.D., Coordinator

Requirements

This graduate certificate program in divorce mediation requires a minimum of 15 graduate credits dependent upon previous educational background. The program has been designed to serve the practicing or prospective divorce mediator.

All applicants to the program should have previously earned a law degree or a master's degree (at minimum in the behavioral sciences, such as psychology, social work, counseling, and marriage and family therapy, or child and family development). Applicants planning to pursue the certificate must apply to the Center for Family Studies and the Graduate School for admission as non-degree students. Persons currently working toward a doctorate or Juris Doctor at the University may participate in the certificate program as a cognate or minor. In this case, students must receive permission from their academic department as well as admission from the Center for Family Studies. Since the educational preparation prior to entry to this program will be quite diverse, the selection of courses within the certificate will vary among the participants. However, all students are expected to complete the core courses in addition to 10 credit hours selected from among several disciplines related to divorce mediation.

Core:

1800:601	Divorce Mediation	3
1800:602	Divorce Mediation Practicum	2

Select at least one from each area:

– Law		
9200:638	Family Law	3
 Accounting 		
6200:601	Financial Accounting	3
9200:621	Accounting for Lawyers	3
– Family		
5600:655	Marriage and Family Therapy: Theory and Techniques	3
5600:667	Marital Therapy	3
7400:607	Family Dynamics	3
Electives:		

Students who have already completed coursework in Law, Accounting or Family may select from courses listed below:

Career Counseling Systems Theory in Family Therapy Family Crisis W: Family and Divorce Family in Life-Span Perspective	3 3 2 3
Alternate Dispute Resolution	3
	Systems Theory in Family Therapy Family Crisis W: Family and Divorce Family in Life-Span Perspective

E-BUSINESS

(650108GC)

B. S. Vijayaraman, Ph.D., Director

A new breed of technologies have offered new vistas and business opportunities. These technologies (called Web 2.0) have created possibilities for organizations to be innovative by incorporating internet social network and community tools such as blogs, wikis, and mashups. These technologies have also opened up new avenues and business models for entrepreneurs. The e-business certificate program is designed for students to learn how individuals can create exciting business opportunities on the internet. Persons are eligible for admission to the graduate certificate program if they have been admitted to the Graduate School at The University of Akron. Students admitted to the e-business certificate program may enroll only in those courses required for the completion of the certificate.

Persons wanting to enroll in a CBA graduate certificate program must already be accepted into a graduate or professional degree program or already possess a gradaute or professional degree.

Required Courses:

6500:608 6500:644 6600:600	Entrepreneurship Knowledge Management and Business Intelligence Marketing Concepts	3
	E-Commerce and Interactive Marketing of the following:	3
6500:665 6500:663 6600:630	Management of Technology Data Analysis for Managers Customer Relationship Marketing	

E-LEARNING

(510006GC)

Cheryl Ward, Ph.D., Coordinator

Program

This certificate program in e-Learning requires a minimum of 16 credit hours and is a fully accredited online program. The certificate in e-Learning Technologies has been designed to assist students in becoming competent, employable professionals capable of of making a significant contribution in the field of education and training. The graduate curriculum provides its students with exposure to a wide range of distance learning technologies, while still ensuring the basic competencies required of all practitioners. In this way, the program directly addresses the rapidly accelerating changes in distance learning technologies. Courses are delivered in online, face-to-face, and blended formats that model e-Learning delivery modes.

Applicants wishing to pursue only the certificate program must apply to the graduate school for admission as a non-degree student.

Requirements (16 credits):

5400:501 5150:631 5150:632 5150:633	Learning with Technology Instructional Design Web-based Learning Systems Multimedia/Hypermedia	1 3 3 3

5150:638	Integrating and Implementing Technology or	3
5150:696	Master's Technology Project Total	2-3 16

EDUCATIONAL ASSESSMENT AND EVALUATION

(510004GC)

The certificate in Educational Foundations emphasizing Educational Assessment and Evaluation prepares teachers and other educators to be leaders in the area of school-based assessment and evaluation. Students will develop skills in assessing a variety of student outcomes and in conducting classroom, school or buildinglevel, and district-level evaluations. The certificate is offered fully online. Eighteen credit hours are required to earn the certificate. The following skill-set describes the overall goals of the program.

- · Designing and implementing formative and summative assessments;
- · Analyzing and interpreting assessment data to improve teaching and learning;
- · Applying evaluation theory and diverse approaches in authentic situations;
- · Implementing assessment and evaluation to impact practices at the classroom, school, and district levels
- · Locating, analyzing, interpreting, and using multiple data sources to make dataevidenced decisions.

Required Courses:

5100:640	Techniques of Research	3
5100:642	Introduction to Classroom Assessment for Teachers	3
5100:650	Implementing Assessment in the Classroom	3
5100:651	Data-Driven Decision Making for Educators	3
5100:652	Introduction to Educational Evaluation	3
5100:653	Practical Applications of Educational Evaluation	3

ENVIRONMENTAL ENGINEERING

(430009GC)

This certificate program provides practicing professionals an opportunity to expand their knowledge base in environmental engineering. It is designed for people who cannot make the full time commitment to the graduate degree program but would like to receive recognition of their continued effort in the area of study or would like to cumulate credit hours toward their ultimate graduate degree goal.

Admission Criteria

This certificate is designed primarily for students with a B.S. degree in Civil Engineering or a closely related field.

Program of Study

Civil Engineering students may earn a Environmental Engineering Certificate by completing a total of 18 credit hours.

4300:523	Chemistry for Environmental Engineers	3
4300:526	Environmental Engineering Design	3
4300:527	Water Quality Modeling and Management	3
4300:623	Physical/Chemical Treatment Processes	3
4300:624	Biological Wastewater Treatment Processes	3
4300:631	Soil Remediation	3

ENVIRONMENTAL STUDIES

(337004GC)

Ira D. Sasowsky, Ph.D., Director

Program

This graduate certificate program is designed for environmental professionals who wish to broaden their background or update their skills. In order to satisfy the course prerequisites, it is recommended that students have an undergraduate degree in one of the natural sciences, engineering, or a strong background in mathematics and science. For advising please contact the Department of Geology and Environmental Science.

Admission

To participate in the program the student should:

- Be formally admitted to The University of Akron as a graduate or non-degree graduate student.
- Make a written application to the program and receive written notification of admission from the Center for Environmental Studies.

Requirements

A plan of study will be developed in consultation with the Director of the Center for Environmental Studies. Students must complete the core requirement and a minimum of 14 credits from the list of electives or other courses approved by the Director. Electives must be selected from a minimum of three different departments.

Core (required):

3370:580	Seminar in Environmental Studies (may be repeated as an elective)	2
Electives (mi	nimum of 14 credits):	
3100:500	Food Plants	2
3100:521	Tropical Field Biology	4
3100:526	Wetland Ecology	4
3100:660	Environmental Physiology	3
3100:624	Advanced Aquatic Ecology	4
3350:505	Geographic Information Systems	3
3350:507	Advanced Geographic Information Systems	3

FAMILY NURSE PRACTITIONER CERTIFICATE FOR CERTIFIED PNPs (820106GC)

The Post-MSN Family Nurse Practitioner Certificate program is designed for those nurses who hold the master's degree in Child and Adolescent Health or Pediatric Nursing, are certified as Pediatric Nurse Practitioners, and are seeking preparation

to practice as a family nurse practitioner. Upon completion of the 16-18 credit hour program, students are eligible to sit for the family nurse practitioner certification examination.

Prerequisites:

5600:648 8200:602 8200:612	Individual and Family Development Across the Life-Span Advanced Adult/Gerontological Assessment/FNP Advanced Clinical Pharmacology	3 2 3
Required Cou	rses:	
8200:620	Adult/Gerontological Health Nursing NP I	2
8200:622	Adult/Gerontological Health Nursing NP III	2
8200:625	Primary Care of the OB Patient for the Family Nurse Practitioner	1
8200:690	Clinical Management I	3
8200:692	Clinical Management II	3
8200:694	Clinical Management III	3
8200:626	Adult/Gerontological NP Residency (consisting of 225-300 clinical hours)	1-4

FAMILY NURSE PRACTITIONER CERTIFICATE FOR ADULT AND/OR GERONTOLOGICAL NPs

(820107GC)

The Post-MSN Family Nurse Practitioner Certificate program is designed for those nurses who hold the master's degree in Adult and/or Gerontological Nursing, are certified as Adult or Gerontological Nurse Practitioners, and are seeking preparation to practice as a family nurse practitioner. Upon completion of the 17-18 credit hour program, students are eligible to sit for the family nurse practitioner certification examination.

Required Courses:

5600:648	Individual and Family Development Across the Life-Span	3
8200:616	Advanced Pediatric/Adolescent Assessment/FNP	2
8200:617	Advanced Pharmacology: Child/Adolescent Health Nursing/FNP	2
8200:625	Primary Care of the OB Patient for the Family Nurse Practitioner	1
8200:651	Child and Adolescent Health Nursing I	3
8200:655	Child and Adolescent Health Nursing II	3
8200:658	CAH: NP Residency (consisting of 225 clinical hours)	1-4

GRADUATE CERTIFICATE IN CROSS-CULTURAL NEGOTIATION

(370013GC: South and East Asia Track)

(370014GC: Middle Eastern Track)

South and East Asian Track

Conflict Core (6 credits):

3700:622	Alternatives to Violence at Home and Abroad	3
6600:575	Business Negotiations	3

Language Core (6 credits):

Complete second year Chinese or Japanese Language; or complete second year language work in another South or East Asian Language at an institution approved by the Director, or an equivalent approved by the Director.

Electives (9 credits):

0050 500		~
3250:560	Economics of Developing Countries	3
3250:561	Principles of International Economics	3
3400:516	Modern India	3
3400:500	Women in Revolutionary China	3
3400:610	Graduate Reading Seminar:Comparative Studies: World Civilization	3
3700:610	Seminar in International Politics	3
3700:620	Seminar in Comparative Politics	3
3850:555	Family Violence	3
3850:521	Racial and Ethnic Relations	3
5500:590	China for Educators	3
6600:630	International Marketing Policies	3
7600:550	Communication in Conflict	3
7600:645	Intercultural Communication Theory	3
9200:684*	Alternative Dispute Resolution	3
3700:695	Internship (Student Conference on Cross-Cultural Negotiation or relate	ed
	project involving language immersion with approval of Director)	3-6
*Law School classes are offered on a space availability basis only.		

Middle Eastern Track

Conflict Core (6 credits):

3700:622	Alternatives to Violence at Home and Abroad	3
6600:575	Business Negotiations	3

Language Core (6 credits):

Complete second year language work on a Middle Eastern Language at an institution approved by the Director; or an equivalent approved by the Director.

Electives (9 credits):

3250:560	Economics of Developing Countries	3
3250:561	Principles of International Economics	3
3400:593	Special Studies in History: Ottoman State and Society 1300-1922	3
3400:593	Special Studies in History: Women and Gender in the Middle East	3
3400:610	Graduate Reading Seminar:Comparative Studies: World Civilization	3
3400:610	Graduate Reading Seminar: Orientalism and its Discontents: Critical	
	Approaches to Middle Eastern Histories and Historiographies	3
3700:505	Politics of the Middle East	3
3700:610	Seminar in International Politics	3
3700:620	Seminar in Comparative Politics	3
3850:555	Family Violence	3
3850:521	Racial and Ethnic Relations	3
5500:590	China for Educators	3
6600:630	International Marketing Policies	3
7600:550	Communication in Conflict	3
7600:645	Intercultural Communication Theory	3
9200:684*	Alternative Dispute Resolution	3
3700:695	Internship (Student Conference on Cross-Cultural Negotiation or relate	эd
	project involving language immersion with approval of Director)	3-6

*Law School classes are offered on a space availability basis only

Students must select their electives from only one of the above two tracks and electives must include courses taken from more than two departments. Students are encouraged to speak with the Director, who can approve substitution courses for these elective credits from among special topics classes or other classes that the student persuasively demonstrates to be consistent with the program objectives. Please note: There are no substitutions for the Conflict Core classes.

GRADUATE CERTIFICATE IN GEOGRAPHIC INFORMATION SCIENCES

(335008GC)

NOTE: The Graduate Certificate in Geographic Information Sciences is now being administerd by the Department of Geology and Environmental Science.

Program

The geographic information sciences (GISci) integrate concepts, methods, and tools for collecting, analyzing, and visualizing spatial data, including physical, environmental, social, and economic information. An education in this rapidly growing professional and scientific field leads to careers in the public and private sectors as GI scientists, as geographic information systems (GIS) analysts, programmers, or technicians, or as cartographers or remote sensing analysts.

This graduate certificate can be taken by degree-seeking students in geology, biology, business, engineering, computer science, emergency management, anthropology, political science, public administration, geography, and other related disciplines. It can also be taken as a freestanding certificate by non-degree seekers such as professionals who want to enhance their knowledge and skills as well as by anyone who wants to learn about this rapidly advancing scientific and practical field.

Requirements

Geotechniques Requirements (9 credits):

3350:505	Geographic Information Systems	3
3350:540	Cartography	3
3350:547	Remote Sensing	3

Geotechniques Electives (9 credits):

3350:507	Advanced Geographic Information Systems	3
3350:541	Global Positioning Systems (GPS)	1
3350:542	Cartographic Theory and Design	3
3350:544	Applications in Cartography and Geographic Information Systems	3
3350:545	GIS Database Design	3
3350:546	GIS Programming and Customization	3
3350:549	Advanced Remote Sensing	3
3350:581	Research Methods in Geography and Planning	3
3350:583	Spatial Analysis	3
3350:596	Field Research Methods	3

GEOTECHNICAL ENGINEERING

(430008GC)

This certificate program provides practicing professionals an opportunity to expand their knowledge base in geotechnical engineering. It is designed for people who cannot make the full time commitment to the graduate degree program but would like to receive recognition of their continued effort in the area of study or would like to cumulate credit hours toward their ultimate graduate degree goal.

Admission Criteria

This certificate is designed primarily for students with a B.S. degree in Civil Engineering or a closely related field.

Program of Study

Civil Engineering students may earn a Geotechnical Engineering Certificate by completing a total of 15 credit hours.

At least three (3) of the following courses must be taken:

4300:612	Advanced Soil Mechanics	3
4300:614	Foundation Engineering I	3
4300:615	Foundation Engineering II	3
4300:617	Numerical Methods in Geotechnical Engineering	3
4300:717	Soil Dynamics	3
Four of the following workshop courses may be taken and substituted for two (2) of the courses above:		

Load and Resistance Factor Design of Foundations and Geotechnical Features	1.5
Ground Improvement Methods	1.5
Mechanically Stabilized Earth Walls and Reinforced Soil	1.5
Slopes	1.5
Deep Foundations	1.5

Students interested in these workshop courses should contact the Department of Civil Engineering

GERONTOLOGY

(300006GC)

Harvey L. Sterns, Ph.D., Director

Requirements

This certificate program is a special course of study in gerontology that compliments graduate degree programs in various departments and colleges throughout the University. There is a combined graduate certificate program with Kent State University. Combined, the two universities offer a diverse range of graduate courses with aging-related content and join faculty that are nationally and internationally recognized scholars in gerontology. The graduate certificate is to be received with either a master's or doctoral degree. Individuals who already hold a graduate degree may also pursue the certificate. The program represents a concentration involving current knowledge and research in gerontology. It adds another dimension to the knowl-edge and skills a student is able to offer in the many professions that are becoming specialized in research and service to adults and older adults. This course of study coordinates multidisciplinary training of personnel in adult development and aging and helps to meet the critical shortage of trained individuals in the field of gerontology.

The graduate curriculum committee of the Institute for Life-Span Development and Gerontology will oversee this certificate program and certify, through the director of the Institute, that all requirements of the certificate have been completed.

B.S./M.D. students may complete Practicum/Internship and electives from courses available from the Institute or the Office of Geriatric Medicine and Gerontology, Northeast Ohio Medical University (NEOMED).

Admission

To participate in the program at the graduate level, a student must:

- · Obtain admittance to the Graduate School.
- Submit an application to the program countersigned by the student's major academic advisor.
- Participate in an interview with the Director or designated faculty member of the Institute for Life-Span Development and Gerontology.

94 The University of Akron 2013-2014

- Consult with the director or a designated faculty member to formulate a program of study.
- Receive written notification for admission from the director of the Institute for Life-Span Development and Gerontology.

Program

Minimum: 18 credits

Core:

0016.

GLOBAL INNOVATION AND TECHNOLOGY MANAGEMENT (650107GC)

R. Ray Gehani, D.Eng., Ph.D., Director

In an increasingly global economy integrated with technology, the innovative enterprises with effective and efficient management of technology and innovation will gain competitive advantage over their rivals. To respond to these needs of our potential employers, this certificate program in Management of Technology and Innovation was developed by the College of Business Administration with the cooperation of the College of Polymer Science and Polymer Engineering and the guidance of the members of the Advancement Councils of the two colleges. This graduate certificate program offers courses in Management of Technology and other innovation-related business disciplines, including marketing, finance, accounting, entrepreneurship, and more. This certificate program will prepare the learners to innovately manage a technology-driven enterprise.

To participate in the program the student should:

• Be formally admitted to The University of Akron as a graduate or non-degree graduate student.

Students admitted to the Global Innovation and Technology Certificate Program may enroll only in those courses required for completion of the certificate.

Persons wanting to enroll in a CBA graduate certificate program must already be accepted into a graduate or professional degree program or already possess a gradaute or professional degree.

Required Courses:

6500:656	Management of Global Supply Chain and Operations	3
6500:665	Management of Technology	3
6600:601	Financial Accounting	3
6600:620	Strategic Marketing	3

Recommended Electives:

Select three credits from the following for which the proper prerequisites have been met:

6200:610	Process Analysis and Cost Management	3
6400:602	Managerial Finance	3
6500:601	Business Analytics and Information Strategy	3
6500:608	Entrepreneurship	3
6500:652	Managing People in Organizations	3
6500:658	Managing a Global Workforce	3
6600:625	Brand Management	3

HEALTHCARE MANAGEMENT

(650205GC)

Healthcare is one of the fastest growing sectors in the economy. According to some estimates healthcare has accounted for as much as a third of new private jobs in recent times. The healthcare management certificate program is designed for students to understand the structure and components of the healthcare sector and their interdependencies. In addition, students will learn how services such as ambulatory care and inpatient care will affect the cost, quality, and accessibility of healthcare delivery.

Persons wanting to enroll in a CBA graduate certificate program must already be accepted into a graduate or professional degree program or already possess a gradaute or professional degree. Students admitted to the healthcare management certificate program may enroll only in those courses required for the completion of the certificate.

Required Courses:

6500:681 6500:682 6500:683	Introduction to Healthcare Management Health Services Operations Management Health Services Systems Management	3 3 3	
Elective Courses (Choose six credits from the following):			
3250:536	Health Economics	3	
3850:615	Epidemiologic Methods in Health Research	3	
3850:656	Sociology of Healthcare	3	
4800:630	Biomedical Computing	3	

0000.000		5
4800:630	Biomedical Computing	3
8200:632	Fiscal Management in Nursing Administration	3
6500:601	Business Analytics and Information Strategy	3
6500:641	Business Database Systems	3
6500:675	Global Supply Chain Management	3
	or	
6500:6xx	Any course with the approval of the Director	3

HIGHER EDUCATION

(590900GC)

Requirements*

This certificate program in higher education requires a minimum of 18 credits. The program of studies has been designed to serve the practicing or prospective college or university administrator or instructor.

Admission

All applicants to the program should have previously earned a bachelor's degree. Special admission for concurrent studies toward a master's degree and the higher education certificate may be allowed for persons currently employed in higher education. Students interested in admission should first meet with the program coordinator. Persons wishing to pursue a master's degree in Educational Administration-Higher Education Option must, however, also apply to the Graduate School for admission to the program. Applicants wishing to pursue only the certificate program must apply to the Graduate School for admission as a special non-degree student.

Program

Courses and internships in higher education are directed toward the study of administrative and academic operations of colleges and universities. Specific program options include: administration, student services, curriculum, and instruction option, a higher education teaching internship developed in conjunction with the student's major academic advisor and the center staff may be anticipated. Internships may be completed at the University or at one of several cooperating institutions.

Required (12):

5100:703	Seminar: History and Philosophy of Higher Education	3
5190:515	Administration in Higher Education	3
5190:600	Advanced Administrative Colloquium in Higher Education	3
5190:601	Internship in Higher Education	2
5190:602	Internship in Higher Education Seminar	1
	Total	12
Electives (6):		
5190:521	Law and Higher Education	3
5190:526	Student Services in Higher Education	3
5190:527	The American College Student (B)	3
5190:530	Higher Education Curriculum and Program Planning	3
5190:620	Finance in Higher Education	3
5190:626	Policy, Assessment, and Accountability in Higher Education	3
	Total hours required:	18

*The awarding of this certificate is not contingent upon completion of a degree program. Graduate certificate programs require a 3.00 grade point average

HOME-BASED INTERVENTION THERAPY (H40200GC)

Pamela A. Schulze, Ph.D., Coordinator

Program

This certificate program is a special course of study along with undergraduate and graduate degree programs in various departments and colleges throughout the University. Undergraduate students will earn the certificate upon graduation in their degree program. Individuals who already hold undergraduate or graduate degrees may also pursue the certificate. Students with an undergraduate degree who do not seek a graduate degree may pursue the certificate in the postbaccalaureate program. Students who already hold a graduate degree may be admitted to the

program as non-degree graduate students. Students pursuing graduate degrees will receive their graduate certificate upon completion of the requirements for their graduate degree. The program represents a concentration in current theoretical knowledge and practice in home-based intervention. It adds another dimension to the knowledge and skills a student is able to offer in the many professions that relate to services to at-risk children and their families. This course of study coordinates multidisciplinary training of personnel in home-based intervention and helps to meet the need for trained professionals in home-based intervention.

The undergraduate and graduate curriculum committees of the Center for Family Studies will oversee the certificate program and certify through the Director of the Certificate Programs in Home-Based Intervention that all requirements for the certificate have been completed.

Admission

To participate in the program at the graduate level, the student should:

- · Be formally admitted to The University of Akron Graduate School.
- · Make written application to the program countersigned by student's major academic advisor (if applicable).
- Have an interview with the Director of the Certificate Programs in Home-Based Intervention
- · Receive written notification for admission from the Director of the Certificate Programs in Home-Based Intervention.
- · Consult with the Director of the Certificate Programs in Home-Based Intervention to formulate a program of study

All students enrolled in the home-based certificate programs will enroll in the core course in Home-Based Intervention. Students enrolled in the undergraduate and postbaccalaureate program will enroll in the courses at the undergraduate level. Students admitted to the Graduate School as degree seeking or non-degree students will enroll in graduate courses. Graduate students enrolled in the core courses at the 500 level will have an additional graduate level project.

Students will complete a minimum of 18 hours of graduate credits in core and elective coursework. In order to earn the interdisciplinary certificate in Home-Based Intervention, the student must complete the following requirements within six years after beginning the program.

Requirements

Core Courses:

1820:503	Home-Based Intervention Theory	3
1820:504	Home-Based Intervention Techniques and Practice	3
1820:505	Home-Based Intervention Internship	3-5

Eligibility Courses:

Students must have completed at least 9 credits of coursework in theoretical frameworks from their discipline or related areas follows:

Theoretical Frameworks: Systems Theory

• Systems meory		
3850:620 5600:643	General Systems Theory Theories and Philosophy of Counseling	3 3

INFORMATION SYSTEM PROJECT MANAGEMENT

(650206GC)

Program

Information system project portfolios consist of a combination of off shored and on shore outsourcing as well as in-house development. The successful collaboration between the various stakeholders in global teams is now a necessity. Project management has thus assumed a key role in determining the success of IT based initiatives in this complex and dynamic environment. The IS Project Management graduate certificate program has been designed to meet the needs of IT and other professionals who are interested in developing this expertise. The fifteen credit hour certificate program consists of coursework addressing key areas in the project management life cycle. These include project planning, requirements analysis and design, rapid application development (RAD), and implementation.

Required Courses:

6500:643 6500:645 6500:646 6500:678	Systems Analysis and Design Software Development and Quality Assurance Enterprise Systems Implementation Project Management	3 3 3 3	
Choose one of the following:

Management of Organizational Technology

LITERACY SPECIALIST

(520101GC)

6500.651

Program

The Literacy Specialist certificate program, offered by a consortium of eight Ohio universities, is an advanced program in literacy education. The program is designed as a one-year program, consisting of 18 credit hours, including both online coursework and an internship. Successful completion of the program qualifies the individual to serve in instructional leadership positions at the state, regional, and local educational levels.

Required Courses (18 credits):

5500:660	Coaching in Diverse Classrooms	2
5500:661	Coaching for Effective Assessment Practice	2
5500:662	Pedagogy of Effective Literacy Instruction	2
5500:663	Professional Development in Literacy	2
5500:664	Advanced Literacy Research	2
5500:665	Internship	8

LITERATURE

(330010GC)

Hillary Nunn, Ph.D., Coordinator

To be eligible for the graduate certificate in literature, a person must be admitted to the University as a graduate student (with either full or provisional status). An eligible person interested in the program should contact the Graduate Coordinator in the Department of English. Of the five required courses (15 credits), two must be core courses, Chaucer and Shakespearean Drama; four of the five courses must be at the 600-level; and one must be in American literature.

Core Courses:

3300:506	Chaucer*	3
3300:615	Shakespearean Drama	3

*Unless the student has passed a comparable course at the undergraduate level with a grade of B or better.

MIDDLE EASTERN STUDIES GRADUATE CERTIFICATE

(340002GC)

Dr. Janet Klein, Director

Department of History, (330) 972-2562 or klein@uakron.edu

The graduate certificate in Middle Eastern Studies offers students a multidisciplinary course of study that will provide them with in-depth training in a special area that may be particularly useful as they pursue careers in such fields as Academia, Law, Public History, Education, Business, or Medicine where they will practice their profession abroad or use their international experience to expand their understanding of these regions as they work with topics on or populations from diverse societies in the Middle East. The certificate complements any graduate major and is also appropriate for students with a graduate degree who might like to return to the university for mid-career training.

Requirements

Two years of a Middle Eastern language (or equivalent), which serves as the program's core requirement plus four courses of approved electives. A minimum 3.0 grade point average in the courses that will fulfill the certificate. The student must be in good academic standing in his/her major department if enrolled in a degree program.

Language Core:

The entering student who does not have proficiency in a Middle Eastern language will have to satisfy the language requirement by completing two years of a Middle Eastern language offered by The University of Akron or any other accredited institution. Students may also fulfill the language requirement by demonstrating competency in the equivalent of a fourth-semester level of his/her chosen language at the FS-1 level (U.S. Department of State) or equivalent level. Currently The University of Akron offers the following:

3500:101	Beginning Arabic	4
3500:102	Beginning Arabic II	4
3500:201	Intermediate Arabic	3
3500:202	Intermediate Arabic II	3

Elective Courses:

Complete four of the following courses. At least one must be outside the student's major department. Exceptions or substitutions require approval from the Director. Credits will be provided with the Director's approval for study and certain experiences abroad in Middle Eastern countries.

3200:501	Egyptology I*	3
3230:572	Selected Topics**	3
3400:589	Ottoman State and Society	3
3400:596	Selected Studies (in the Middle East)	3
3400:598	Race, Nation, and Class in the Middle East	3
3400:599	Women and Gender in the Middle East	3
3400:612	Graduate Reading Seminar: The Middle East	4
3700:505	Politics in the Middle East	3

*Only one ancient world course will count toward the certificate.

**Recent 500-level Selected Topics in the Department of Classical Studies, Anthropology and Archaeology have included "Cultures of the Arab World."

Courses with comparative content are encouraged. Any course that has *significant* Middle-Eastern content (and for which the student has presented substantial written work on a Middle Eastern topic) may count toward the certificate program with the Director's approval. Students should consult with the Director for help planning an appropriate course of study.

MOTION AND CONTROL SPECIALIZATION

(460006GC)

All manufacturing processes involve motion and control which may range from simple use of pneumatic cylinders in robotics to coordinated motion and sequence control in assembly lines. The technology in motion and control grows and changes at a pace that makes systems of over five years old almost obsolete. The primary purpose of the Motion and Control Specialization certificate program is to provide the graduating engineers with a focused expertise in motion and control and to furnish the necessary tools in order to enable them to follow the changes in technology after graduation. In addition, the program will also serve the practicing engineers and life-long learners to come back to school and refresh their skills using the certificate program. Persons interested in this program should contact the Department of Mechanical Engineering.

Admission:

To participate in the program, the student should be formally admitted to The University of Akron as a post-baccalaureate, undergraduate, graduate, or non-degree graduate student.

Requirements:

Students should successfully complete all three courses listed below.

4600:442/542	Industrial Automatic Control	3
4600:444/544	Robot, Design, Control and Application	3
4600:670	Integrated Flexible Manufacturing Systems *	3

* Undergraduate students must obtain permission to take this course.

NEW MEDIA TECHNOLOGIES

(510005GC)

Cheryl Ward, Ph.D., Coordinator

This certificate program in New Media Technologies requires a minimum of 18 credit hours. The certificate in New Media Technologies has been designed to assist students in becoming competent, employable professional, capable of making a significant contribution to the field. The graduate curriculum provides its students with expose to a wide range of emerging technologies, while still ensuring the basic competencies required of all practitioners. In this way, the program directly addresses the rapidly accelerating changes in the field of new media technologies.

Applicants wishing to pursue only the certificate program must apply to the graduate school for admissions as a non-degree student.

*Workshops may be repeated for a total of 6 credit hours.

(820102GC)

The Post-Master's Nurse Anesthesia certificate program prepares Registered Nurses to become Certified Registered Nurse Anesthetists and requires 27 months of concentrated theory and clinical practice. The program is built upon a core of biophysical sciences, pharmacology, principles of anesthesia, and professional role issues. Graduates of the program are prepared to deliver all types of perioperative anesthesia care to patients of all ages in a wide variety of health care settings and are eligible to take the National Certifying Examination. The program consists of 18 credits of graduate-level course work upon completion of required prerequisites and approximately 1000-1500+ hours of direct anesthetic management.

For information concerning Phase I required prerequisite courses (22 credit hours), please contact the College of Nursing, Graduate Program, (330) 972-7555.

Admission

Admission criteria include the following:

- 1. Hold an MSN degree from a professionally credentialed nursing program.
- 2. Minimum GPA of 3.0 on a 4.0 scale for the master's degree program.
- 3. CCRN certification.
- 4. Current State of Ohio license as a registered nurse.
- 5. Recent one-year experience in adult critical care.
- Three letters of reference from a recent employer; a member of the nursing profession; a former faculty member.
- 7. Interview prior to admission to the program.
- Acceptance into the anesthesia track is competitive and is decided by voting of the Admission Committee members.
- 9. Prerequisite: 3470:661 Statistics for Life Sciences

Program of Study (Phase II):

8200:637	Residency I (Pediatrics and Obstetrics)	4
8200:646	Residency II (Cardiac, Thoracic, Cardiovascular, and Neurology)	4

NURSING EDUCATION

(820100GC)

The certificate in Nursing Education allows for advanced role specialization in nursing education. Four sequential courses for a total of 12 credit hours comprise the certificate requirements. The certificate program is open to all current master's and doctoral students in the College of Nursing, post-baccalaureate students, post-MSN students, post-doctoral and faculty currently teaching in nursing programs. Formal admission to The University of Akron is required as either a post-baccalaureate student, graduate student or non-degree graduate student. The awarding of this certificate is not contingent upon a degree completion program.

For information concerning admission to the certificate program, please contact the College of Nursing, Graduate Program, (330) 972-7555.

PARENT AND FAMILY EDUCATION

(H40203GC)

Susan D. Witt, Ph.D., Coordinator

Program

This certificate program is a special course of study which can be added to any graduate degree program. It may also be completed by a non-degree graduate student with special permission from the Coordinator. This certificate represents a concentration in theoretical and practical knowledge in parent and family education for community-based services. This course of study promotes collaboration among disciplines and services.

Admission

To participate in the program the student should:

Be formally admitted to The University of Akron as a postbaccalaureate, graduate or non-degree graduate student.

Contact the Coordinator of the program for requirements.

Requirements

Core:

Students must successfully complete all three of the core courses listed below. However, the first two courses plus three hours of electives must be completed prior to the student's enrollment in the practicum course.

7400:596	Parent Education (online)	3
7400:605	Developmental Parent-Child Interactions (online)	3
7400:594	Practicum in Parent and Family Education	3

Electives:

Students must successfully complete six credits of coursework selected from among the various departmental courses listed below. These credits shall be chosen from departments outside the student's discipline.

· Family and Consumer Sciences

7400:501	American Families in Poverty (online)	3
7400:504	Middle Childhood and Adolescence	3
7400:540	Family Crisis	3

PSYCHIATRIC NURSE PRACTITIONER (820008GC)

The Post-MSN Psychiatric Nurse Practitioner certificate program is designed for those nurses who hold the Master's degree in Psychiatric Mental Health Nursing or another nursing specialty and are seeking preparation for the role of the psychiatric nurse practitioner. Upon completion of the 10-13 credit hour program, students are eligible to sit for the psychiatric nurse practitioner certification examination. Post-MSN students who do not have their MSN in Psychiatric Nursing will be assessed on an individual basis and may have to take additional coursework in the track to acquire the competencies required to be eligible to sit for national certification.

Admission

Admission criteria include the following:

- 1. Holds an earned master's degree with a specialty of psychiatric nursing.
- 2. A GPA of 3.0 or better from the master's degree program.
- 3. Completes an interview with the program coordinator.

Program of Study

Students must complete a minimum of 500 clinical hours for eligibility to sit for certification.

Prerequisite Courses:

8200:608	Pathophysiological Concepts	3
8200:610	Advanced Adult/Gerontological Assessment	3
8200:611	Advanced Mental Health Assessment	3
Required Cou	rses	
8200:662	Clinical Psychopharmacology	3

PUBLIC ADMINISTRATION AND URBAN STUDIES

(398007GC: Public Management) (398008GC: Non-Profit Management) (398010GC: Policy Analysis) (398011GC: Program Evaluation) (398012GC: Urban Affairs)

Requirements

The certificates will require the successful completion of 15 graduate credits of defined coursework in a single content or issue area within either public administration or urban affairs. Upon completion of the coursework a certificate will be issued

Admission

To participate in the certificate program an applicant first must satisfy the requirements for entrance into the Graduate School, or have a bachelor's degree and the equivalent of five years experience in a professional, administrative, or leadership position. Only applicants for admission as a non-degree graduate student within the department or students who are fully admitted to other graduate programs of the University and meet the experiential requirements are eligible for the certificates. Students admitted to the graduate programs of the department are not eligible for the certificate programs. Should a student wish to pursue additional coursework, the student must seek formal admission to either the MA in Urban Studies or MPA program. Participation in the certificate program in no way promotes or assures admission to graduate programs of the department, nor does it alter the requirements for admission to those degree programs. Subject to the Graduate School's time limitation rule for degree completion, once a student has been admitted to a degree program, courses taken as part of a certificate program may be transferred into either of the department's master's programs.

Program

There are six variations of the Certificate Program in Public Administration and Urban Studies; a certificate in Public Management, a certificate in Non-profit Management, a certificate in Local and Regional Development Administration, a certificate in Policy Analysis, a certificate in Program Evaluation, and a certificate in Urban Affairs. Each certificate requires the successful completion of 15 credit hours of required and elective coursework offered by the Department of Public Administration and Urban Studies, as specified below.

Public Management

3980:611	Introduction to the Profession of Public Administration (required)
3980:615	Public Organization Theory (required)
3980:616	Public Personnel
3980:617	Leadership and Decision Making (required)
3980:618	Citizenship Participation

3230:510	Evolution and Human Behavior	3
3230:563	Social Anthropology	3
3400:538	Nazi Germany	3
3400:554	The Civil War and Reconstruction, 1850-1877	4
Internship	3 credits from Sociology, Political Science, Anthropology, or History	

STRUCTURAL ENGINEERING (430006GC)

3 3

3

3 3

3

3 3

This certificate program provides professionals an opportunity to expand their knowledge base in the design and behavior of structural systems. It is designed for people who cannot make the full time commitment to the graduate degree program but would like to receive recognition of their continued effort in the area of study or would like to cumulate credit hours toward their ultimate graduate degree goal.

Admission Criteria

This certificate is designed primarily for students with a B.S. degree in Civil Engineering or a closely related field.

Program of Study

Civil Engineering graduates may earn a Structural Engineering Certificate by completing the following five courses:.

4300:551	Computer Methods of Structural Analysis	3
4300:554	Advanced Mechanics of Materials	3
4300:605	Structural Stability	3
4300:684	Advanced Reinforced Concrete Design	3
4300:685	Advanced Steel Design	3
	Total	15

SUPPLY CHAIN MANAGEMENT

(650202GC)

Supply chain management (SCM) is the process of planning, implementing, and controlling the operations of the supply chain as efficiently as possible. Supply chain professionals are actively involved in key management and coordination functions related to purchasing, contract negotiation, inventory management, transportation, and import/export policies. Today, it would be difficult to find an organization, large or small, that doesn't understand the importance of supply chain management, and how successful implementation of supply chain management principles can have a positive impact on its overall success.

The Supply Chain Management graduate certificate program has been designed to meet the needs of business professionals who are interested in developing expertise in supply chain operations management. The fifteen credit hour certificate program consists of coursework addressing key aspects of supply chain operations management, including logistics, sourcing, and globalization.

Persons wanting to enroll in a CBA graduate certificate program must already be accepted into a graduate or professional degree program or already possess a gradaute or professional degree.

Requirements (12 credits)

-		
6500:656	Management of Global Supply Chain	3
6500:675	Global Supply Chain Management	3
6500:677	Supply Chain Sourcing	3
6500:680	Supply Chain Logistics Management	3
Requirement	ts (Choose 3 credits from the following)	
6500:600	Management and Organization Behavior	3
6500:662	Supply Chain Operations and Analysis	3
6500:670	Management of Supply Chains and Operations	3

TEACHING AND TRAINING TECHNICAL PROFESSIONALS

(540100GC)

Qetler Jensrud, Ph.D., Coordinator (e-mail: getler@uakron.edu)

This certificate program is for educators who desire to teach at the postsecondary level or to train in business and industry. Persons eligible for admission to the certificate program need to be fully admitted to The University of Akron as graduate students. This is a graduate certificate. Individuals who hold undergraduate or graduate degrees may pursue this certificate as a non-degree student. The certificate courses can be applied to a master's degree in the future if they are taken within a specific time limit. All coursework must be completed within six years. All courses are online.

Requirements

Minimum: 18 Credits

5400:500	Postsecondary Learner	3
5400:515	Training in Business and Industry	3
	or	
5400:600	The Two-Year College	3
5400:520	Postsecondary Instructional Technology	3
5400:530	Systematic Curriculum Design for Postsecondary Instruction	3
5400:535	Systematic Curriculum Design in Postsecondary Education	3
5400:675	Instructional Applications Seminar	3

The Instructional Applications Seminar is the last course taken.

TEACHING ARABIC

(550003GC)

Program

The 12 month intensive certificate program with 27 credit hours of graduate-level coursework blends with our current program in foreign language education. These candidates will be able to take classes offered to our current M.S. with licensure program candidates. The standards-based coursework outlined will provide candidates the content and pedagogical knowledge necessary to obtain an alternative license through the Ohio Board of Regents, and thereafter teach Arabic.

Admission

In addition to the graduate application the following must be submitted for admission to the certificate program in Teaching Arabic:

- · Completed teacher education program application
- Competency in reading comprehension, writing, and mathematics as evidenced by an earned bachelor's degree from an accredited college or university
- · Speech and hearing test
- · Evidence of basic computer literacy
- · Two letters of recommendation
- · BCI (Bureau of Criminal Investigation) and FBI clearance

Applications should be made simultaneously. See the Office of Student Services, Zook Hall 207, call (330) 972-7750.

Required Courses (27 credits):

TEACHING ENGLISH AS A SECOND LANGUAGE[†]

(330003GC)

Wei Zhang, Ph.D., Director

Requirements

This program is intended for both native and non-native speakers of English who seek training in the teaching of English as a second language (ESL) and wish to obtain an initial qualification to teach ESL/EFL (English as a foreign language) in educational settings other than public schools in Ohio or in countries outside the United States. For Ohio qualification in teaching ESL in the Ohio public school system, see the TESOL Endorsement requirements in this bulletin under the College of Education.

The program is designed to introduce the student to the central issues in the theory and practice of teaching English to non-native speakers through courses in modern and applied linguistics, in second language pedagogy and in related disciplines.

Students who do not have English as a native language must demonstrate adequate proficiency in English with a valid TOEFL score of at least 550 (paper-based), 213 (computer-based), or 79 (internet-based) or a valid IELTS score of 6.5 or higher.

The awarding of this certificate is not contingent upon completion of a degree program. A minimum grade point average of 3.0 is required. Graduate students must apply for the certificate program through the Graduate School.

All students who wish to pursue the TESL certificate should meet with the program director to discuss the program and availability of courses.

The certificate requires the completion of a minimum of 18 credit hours of course work, including five core courses and one elective course.

Core Requirements (15 credits)

3300:566 3300:573 3300:578 5500:543 3300:577	Linguistics and Language Arts Theoretical Foundations and Principles of ESL Grammatical Structures of English Techniques of Teaching English as a Second Language Sociolinguistics	3 3 3 4 3
3300:586 Electives (3 cr	or Learner English edits)**	3
Choose one of the following courses:		
3300:570 3300:572 3300:577 3300:587 3580:505 5500:541 7700:530	History of English Language Syntax Sociolinguistics Field Experience: Teaching Second Language Learners Spanish Linguistics: Phonology Teaching Language Literacy to Second Language Learners Aspects of Normal Language Development	3 3 3 4 4 3

Students should have successfully completed 3300:371 or 3300:566 prior to taking 3300:573.

**Choice to be decided in consultation with the program director.

TRANSPORTATION ENGINEERING (430007GC)

This certificate program provides practicing professionals an opportunity to expand their knowledge base in the design and operation of transportation systems. It is designed for people who cannot make the full time commitment to the graduate degree program but would like to receive recognition of their continued effort in the area of study or would like to cumulate credit hours toward their ultimate graduate degree goal.

Admission Criteria

This certificate is designed primarily for students with a B.S. degree in Civil Engineering or a closely related field.

Program of Study

Civil Engineering students may earn a Transportation Engineering Certificate by completing the following three courses:.

	-	
4300:564	Highway Design	3
4300:565	Pavement Engineering	3
4300:566	Traffic Engineering	3
	and two of the following courses:	
4300:663	Advanced Transportation Engineering I	3
4300:664	Advanced Transportation Engineering II	3
4300:665	Traffic Detection and Data Analysis	3
	Total	15

WOMEN'S STUDIES

(300110GC)

For information, contact Women's Studies, located in Olin Hall 247, (330) 972-7481.

Interdisciplinary and specialized, the Women's Studies graduate program fosters a critical approach to knowledge about women. By focusing on cultural practices that have largely excluded and devalued differences in gender, sexual orientation, ethnicity, race, and class, Women's Studies prepares students to appreciate and act in a pluralistic world. The Women's Studies graduate certificate integrates scholarship and research on women and gender from literature, psychology, history, sociology, and communication. Students are challenged to explore diverse viewpoints and often self-interested emphases of our society's most powerful institutions – family, church, academia, business, and government.

Admission

Hold a Bachelor's Degree with a minimum 2.75 grade point average.

Requirements (required 5-7)

Floctives		
3001:590	Workshop: Women's Studies Lecture Series	3
3001:589	Internship in Women's Studies	1-4
3001:580	Feminist Theory	3

Electives

Three classes selected from the Women's Studies Coordinating Council-approved list of graduate level courses.

3001:585	Special Topics in Women's Studies: Women, Poverty and Welfare	3
3001:585	Special Topics in Women's Studies: Women as Survivors	3
3001:585	Special Topics in Women's Studies: Worlds of Women	3

* Each course at the University has two numbers. One designates the college and department of which it is a part; one specifies the subject matter of the particular course. For instance:

Middle English Literature 3300:507

In the above example, the first four digits of the number (3300) indicate the college and department. In the case, 3000 represents the Buchtel College of Arts and Sciences; 300 refers to the Department of English. The second set of digits (507) following the colon, indicates exactly which course in the Department of English is being specified. The course number also indicates the level at which the course is being taught and the point at which the student is ready to take the course. A student must apply for and be admitted to the Graduate School before registering for graduate credit.

An explanation of that numbering system follows:

500-699 Master's-level courses (also, 600-799 J.D.-level courses) 700-899 Doctoral-level courses

Interdisciplinary **Programs**

DIVORCE MEDIATION

- DIVORCE MEDIATION 3 credits Prerequisite: Admission to the graduate certificate program in Divorce Mediation. Overview of divorce mediation process includes guidelines for negotiating separation and divorce agree-ments, division of personal and real property, support, custody, and future plans.
- 602 DIVORCE MEDIATION PRACTICUM 2 credits Prerequisite: 601. Practical application of divorce mediation procedures. Review of strategies and ethical considerations.

HOME-BASED INTERVENTION THERAPY 1820:

- 503 HOME-BASED INTERVENTION THEORY 3 credits Prerequisite: Admission to Certificate Program. Overview of home-based intervention to include philosophy and description of this programming as well as assessment of family, their home and community environment.
- 504 HOME-BASED INTERVENTION TECHNIQUES AND PRACTICE 3 credits Prerequisite: 503. Provides intervention techniques and skill areas required for home-based intervention and learning opportunities for matching techniques with specific family problems.
- 505 HOME-BASED INTERVENTION INTERNSHIP Prerequisite: 504. Gives students the opportunity to apply knowledge of home-based inter-vention in actual delivery process working with families in their homes under the direct super-vision of trained, experienced home-based intervention therapists.

COOPERATIVE EDUCATION 3000:

501 COOPERATIVE EDUCATION 0 credits Prerequisite: must complete 12 graduate credit hours with at least a 3.0 overall grade point average. (May be repeated.) For cooperative education students only. Work experience in business, industry, or governmental agency. Comprehensive performance evaluation and writ-ten report required. Graded credit/noncredit.

WOMEN'S STUDIES

- 580 FEMINIST THEORY 3 credits A summary of feminist theory to familiarize students with the main currents in contemporary feminist theory and the origins and evolution of that thought.
- SPECIAL TOPICS IN WOMEN'S STUDIES 585 1-3 credits (May be repeated.) Specialized topics and current issues in Women's Studies. Covers content and issues not currently addressed in other academic courses. Emphases will be on original source materials, critical analyses and the synthesis of empirical and theoretical aspects.
- INTERNSHIP IN WOMEN'S STUDIES 589 4 credits (May be repeated for a maximum of 4 credits.) Prerequisite: permission of Director of Women's Studies. This class provides supervised experience and on-the-job training in an organization, agency, corporation or group dealing with women's issues.
- WORKSHOP 590 1-3 credits (May be repeated.) Group experiential study of special issues in Women's Studies.
- INDIVIDUAL STUDIES ON WOMEN 593 1-3 credits (May be repeated.) Directed study of selected topics related to women. Projects are chosen by student in consultation with instructor and approval of Director of Women's Studies.

INSTITUTE FOR LIFE-SPAN DEVELOPMENT & GERONTOLOGY 3006:

- INTERDISCIPLINARY SEMINAR IN LIFE-SPAN DEVELOPMENT AND GERONTOLOGY 3 credits Prerequisite: permission. The certificate program student only. Explores interdisciplinary issues in life-span development and gerontology. Guest speakers from various disciplines and services which have life span development and gerontological components and from govern-ment and community facilities and services. 685 SPECIAL TOPICS 1-3 credits Prerequisite: permission of instructor. Specialized topics and current issues in life-span devel-opment, gerontology, or gender. Emphasis is on original source materials, critical analyses and syntheses of empirical, theoretical and applied aspects. RETIREMENT SPECIALIST 686 2 credits An investigation of issues related to the design and implementation of pre-retirement planning and examination of life-span planning education as employed by labor, business and educa-
- tion. WORKSHOP 690 1-3 credits (May be repeated) Group studies of special topics in life-span development and gerontology. May be used as elective credit but not as part of certificate required courses.
- PRACTICUM IN LIFE-SPAN DEVELOPMENT AND GERONTOLOGY 695 3 credits Prerequisite: permission. Supervised experience in research or community agency work

Arts and Sciences

- BIOLOGY 3100: PRINCIPLES OF SYSTEMATICS 506 3 credits he science of identifying, naming, and classifying the diversity of life. Topics include: nomen clature, types, techniques of data collection, and methods of phylogenetic reconstruction. ADVANCED ECOLOGY 3 credits Advanced study of the ecology of individuals, populations, communities, and conservation/applied ecology. Active participation/discussion of primary literature in ecology is required. 518 FIELD ECOLOGY 4 credits Introduction to sampling methods, design of experiments and observations, and computer analysis; some local natural history. Laboratory. TROPICAL FIELD BIOLOGY 521 4 credits Ecology of coral reefs, tide pools, mangroves, intertidal zones, terrestrial flora and fauna, island biogeography. Taught at a field station in the tropics. CONSERVATION BIOLOGY 522 3 credits Explores the factors affecting survival of biodiversity and how to develop practical approaches to resolve complicated conservation issues. POPULATION BIOLOGY 3 credits 523 Discussion of animal and plant ecology and evolutionary biology from a species and popula-tion level perspective. Includes topics in population ecology and population genetics. WETLAND ECOLOGY Wetland ecology; principles and conservation. Field studies will be conducted at Bath Nature Preserve. Laboratory. Field trips involved; minor transportation costs. 527 I IMNOLOGY 4 credits This course explores the diversity of aquatic life and key biotic characteristics of freshwater ecosystems with emphasis on the Great Lakes. Includes field trips. **BIOLOGY OF BEHAVIOR** 528 3 credits Biological basis of behavior: ethological theory; function, causation, evolution and adaptive-ness of behavior. May be taken without 429/529. BIOLOGY OF BEHAVIOR LABORATORY 529 1 credit Individualized, directed study to provide the student with firsthand experience in observing, describing and interpreting animal behavior. COMMUNITY/ECOSYSTEM ECOLOGY 530 3 credits History of the ecosystem concept; components, processes, and dynamics of communities and ecosystems; analysis and design of ecosystem experiments. Laboratory. PATHOGENIC BACTERIOLOGY 4 credits 533 Study of major groups of bacteria which produce infections in humans. Biochemical properties of microorganisms which engender virulence and nature of host resistance. Laboratory. IMMUNOLOGY 4 credits 537 Nature of antigens, antibody response, and antigen-antibody reactions. Site and mechanism of antibody formations, hypersensitivity, immunologic tolerance and immune diseases considered. Laboratory. ADVANCED IMMUNOLOGY 3 credits Immunology is studied from a historical and current perspective. Topics include T cells, B cells, antigen presentation, HIV, and transplantation. 539 MYCOLOGY 4 credits 540 tructure, life history, classification of representative fungi with emphasis on the importance of fungi to humans. Laboratory. PHYCOLOGY 4 credits Examination of the major groups of algae with emphasis on life histories and their relationship to algal form and structure. Laboratory. FIELD MARINE PHYCOLOGY 3 credits ollection and identification of tropical marine algae on San Salvadore Island, The Bahamas Discussion of characteristics and ecology of major groups of Caribbean algae. Laboratory. GENERAL ENTOMOLOGY credits 551 Structure, physiology, life cycles, economic importance characteristics of orders and major families of insects. Laboratories parallel lectures. INVERTEBRATE ZOOLOGY 553 credits nvertebrate groups, their classification, functional morphology, adaptive radiation and life history. A phylogenetic approach is used. Laboratories parallel lectures. PARASITOLOGY 554 4 credits Principles of parasitism; host parasite interactions; important human and veterinary parasitic diseases; and control measures. Laboratories parallel lectures. ICHTHYOLOGY 4 credits Study of fishes; incorporates aspects of evolution, anatomy, physiology, natural history, and commercial exploitation of fishes. Laboratory incorporates field-based exercises and fish tax-555 onomy. ORINTHOLOGY 556 4 credits Introduction to biology of birds: classification, anatomy, physiology, behavior, ecology, evolu-tion, natural history and field identification. Laboratory. Field trips involved; minor transportation 557 HERPETOLOGY 4 credits Survey of the diversity, ecology and evolution of amphibians and reptiles. Special emphasis is given to Ohio species. Laboratory. VERTEBRATE ZOOLOGY 4 credits Biology of vertebrates, except birds - evolution, ecology, behavior, systematics and anatomy Laboratory with field trips.
- 561,2HUMAN PHYSIOLOGY

Detailed study of function of the human body with special emphasis on neuromuscular, cardiovascular, respiratory, renal and endocrine physiology. Laboratory.

4 credits each

65 ADVANCED CARDIOVASCULAR PHYSIOLOGY 3 credits Study of biological mechanisms involved in heart attack, strokes, fluid balance, hypertension and heart disease. Controversial issues in each area will be examined and current research presented.

566 VERTEBRATE EMBRYOLOGY

Lectures focus on development of model vertebrate organisms and cellular and molecular mechanisms underlying animal development. Laboratory focuses on frog and chick development.

567 COMPARATIVE VERTEBRATE MORPHOLOGY 4 credits An introduction to the comparative morphology of major vertebrates. The laboratory consists of dissections of representative vertebrates.

- 568 THE PHYSIOLOGY OF REPRODUCTION 3 credits Study of the physiological mechanisms of reproduction throughout the animal kingdom with special emphasis upon mammalian endocrinological control. Controversial issues in the field will be examined and current research presented.
- 569
 RESPIRATORY PHYSIOLOGY
 3 credits

 Study of mechanisms determining gas exchange including mechanics, ventilation, blood flow, diffusion, and control systems. Emphasis is given to normal human lung function. (Clinical aspects are not considered in detail.)
 570

 LAB ANIMAL REGULATIONS
 1 credit
- 570 LAB ANIMAL REGULATIONS 1 credit Required of anyone working with animals, and covers government regulations, care of animals and a lab to teach basic animal handling and measurement techniques.
- 571 PHYSIOLOGICAL GENETICS 4 credits The integrative study of how genetics and physiology influence complex systems from molecular to behavioral in plants and animals. Laboratory.
- 572 BIOLOGICAL MECHANISMS OF STRESS 3 credits Study of mechanisms from molecular to behavioral of how stress influences body systems and signals. The latest research and experimental issues are discussed.
- 573 COMPARATIVE ANIMAL PHYSIOLOGY 3 credits Study of respiration, circulation, digestion, metabolism, osmoregulation, and excretion in a variety of invertebrate and vertebrate animals. Adaption to the environment is emphasized.
- 574 COMPARATIVE ANIMAL PHYSIOLOGY LABORATORY 1 credit Laboratory experiments in animal physiology (respiration, circulation, metabolism, osmoregulation). Presentation of results in scientific format and as oral reports.
- 580 MOLECULAR BIOLOGY 3 credits Fundamentals of molecular biology, including recombinant DNA technology, applications in biotechnology, medicine, and genetic engineering. Mechanisms of gene regulation.
 581 ADVANCED GENETICS 3 credits
- Nature of the gene; genetic codes; hereditary determinants; mutagenesis and genes in population. Lecture and seminar.
- 582 NEUROBIOLOGY 3 credits History of neuroscience; organization, function and development of the central nervous system; electrophysiological properties of nerve cells; learning and memory; molecular basis for mental diseases.
- 585 CELL PHYSIOLOGY 4 credits Explores molecular and biochemical aspects of energy metabolism, inter and intracellular signaling, growth and death of cells. Emphasizes up-to-date scientific literature and techniques. Laboratory.
- 594 WORKSHOP IN BIOLOGY 1-3 credits (May be repeated) Prerequisite: permission of instructor. Group studies of special topics in biology. May not be used to meet undergraduate or graduate major requirements in biology. May be used for elective credit only.
- 597,8BIOLOGICAL PROBLEMS 1-2 credits each Prerequisite: permission. Honors-level work, usually consisting of laboratory investigations. A maximum of 4 credits may apply toward the major degree requirements.
- 601 EVOLUTIONARY ECOLOGY 3 credits Advanced studies of topics in ecology and evolution, including population genetics, coevolution, metapopulations, and conservation genetics. Lecture/discussion format.
- 604 TOPICS IN INTEGRATIVE BIOLOGY 2 credits Reading, critical analysis, presentation, discussion and debate of cutting edge biological research with an emphasis on understanding the integrative approach to biological investigation.
- 616 GRADUATE EVOLUTIONARY BIOLOGY 4 credits A survey of theory and methods in evolutionary biology including: evolutionary genetics, natural selection, drift, mating systems, trait integration, plasticity, phylogenetics, and paleontology.
- 617 GRADUATE ECOLOGY 3 credits Advanced training for students pursuing a professional/academic career in ecology or associated disciplines. Exploration of interactions at the organismal, population, community, and ecosystem levels.
- 618 EXPERIMENTAL APPROACHES IN FIELD ECOLOGY 4 credits Prerequisite: Graduate status. Field oriented course intended to help students learn to formulate questions and hypotheses, design field studies, and analyze and interpret data, and present conclusions. Laboratory.
- 224 ADVANCED AQUATIC ECOLOGY 4 credits Prerequisite: permission. This course examines interactions between aquatic organisms and their environment across freshwater and marine systems. It includes primary literature, field trips, and student-designed experiments.
- 625 BASIC DNA TECHNIQUES 3 credits Basic DNA techniques including extraction of DNA, cleavage of DNA and cloning. Laboratory.
- 626 TECHNIQUES IN MOLECULAR BIOLOGY 3 credits Discussion of current techniques in molecular biology such as microscopy, cell culture, gene expression, and protein analysis. Laboratory.
- 628 ADVANCED TOPICS IN BEHAVIOR 3 credits Prerequisites: 528 or equivalent. Advanced studies of topics in behavior, emphasizing current scientific literature.
- 651
 ENTOMOLOGY
 4 credits

 Prerequisite:
 Graduate standing in Biology. Exploration of the diversity and biology of insects and their relatives. Laboratories emphasize field exercises and a collection.
 4
- 660 ENVIRONMENTAL PHYSIOLOGY 3 credits Prerequisites: 561, 562. Study of physiological reactions of healthy mammals to natural changes or extremes of physical environment.
- 663 ADVANCED EXERCISE PHYSIOLOGY 3 credits Through lecture, reading, and critical analysis of current literature, physiologic mechanisms of exercise in animals will be explored.
- 665
 HISTOLOGY, CELL BIOLOGY, AND INTRODUCTORY PATHOLOGY
 4 credits

 This course integrates cell biology and histology to show how organs are structured and function and how they are altered during sample pathologies. Laboratory.
 4 credits
- 670 MEDICAL PHYSIOLOGY, PATHOPHYSIOLOGY, AND PHARMACOLOGY 3 credits Prerequisite: Admission to M.S.N. program, or 3100:561, or consent of instructor. Selected principles of human physiology, pathophysiology, and pharmacology are examined in depth, interrogated, and related to the care of patients in the clinical setting.
- 671 DEVELOPMENTAL BIOLOGY 4 credits The study of cellular and molecular mechanisms underlying animal development. Laboratory.
- 673 INTEGRATIVE STRESS PHYSIOLOGY 3 credits Prerequisite: B.S. in Biology or equivalent. This course is designed to examine the behavioral, physiological, genomic, and molecular mechanisms of how various types of stressors affect the organism.

- 674 INTEGRATED CARDIOVASCULAR PHYSIOLOGY 3 credits Prerequisite: B.S. in Biology or equivalent. Integration of epidemiological, behavioral, physio-logical, molecular, and genetic mechanisms of cardiovascular function in health and disease. Emphasis on critical thinking and class discussions. INTEGRATIVE PHYSIOLOGICAL GENOMICS 675 4 credits
- Prerequisite: B.S. in science discipline. This course uses methodologies from genetics and physiology as an integrated approach to studying whole body systems. INTEGRATIVE PHYSIOLOGY 676 3 credits
- Exploration of the integrative nature of physiology through lecture, reading, and critical analysis of current literature
- SYSTEMS PHYSIOLOGY 677 3 credits Study of the complex nature of specific physiological systems both as separate entities and interacting units.
- CYTOLOGY 681 4 credits The study of how a cell's structure, biochemistry, metabolism, and molecular biology integrate to produce cell function. Laboratory
- SELECTED TOPICS IN MICROBIOLOGY 683 3 credits The study of organization, function, and development of the vertebrate nervous system.
- ADVANCED CELL PHYSIOLOGY 685 3 credits Structure and functional organization of cells at ultrastructural level. Three lecture hours a
- week PRINCIPLES OF TRANSMISSION ELECTRON MICROSCOPY 688 3 credits Modern cytological methods using transmission electron microscope. Portfolio required to demonstrate proficiency in fixation techniques, use of ultramicrotome, light and electron micro-scopes and darkroom techniques.
- PRINCIPLES OF SCANNING ELECTRON MICROSCOPY An introduction of modern cytological methods using the scanning electron microscope. A portfolio is required to demonstrate proficiency in fixation techniques, the use of supplemental equipment such as the critical point drying apparatus and the sputter-coating apparatus and the efficient use of the scanning electron microscope.
- SPECIAL TOPICS: BIOLOGY 695

1-3 credits (May be repeated) Prerequisite: permission. Special courses offered once or only occasional-ly in areas where no formal course exists.

1 credit each

3110:

3150:

3 credits

697,8BIOLOGY COLLOQUIUM

(May be repeated) Prerequisite: permission. Attendance at all departmental seminars and presentation of seminar based on original research. Required of all thesis option students who shall present their thesis research.

- 1-6 credits MASTER'S THESIS 699 (May be repeated) A minimum of six credits is required for thesis option student.
- RESEARCH TECHNIQUES IN INTEGRATED BIOSCIENCE 701 4 credits Students will learn standard, common techniques that are applicable across broad areas of research in integrated bioscience.
- COMMUNICATING IN INTEGRATED BIOSCIENCE 2 credits 702 Communication of bioscience topics to professionals of a broad audience. Students present topics in their area of expertise to other (non-discipline) students in the course.
- PROBLEM SOLVING IN INTEGRATED BIOSCIENCE 703 3 credits Prerequisite: 702. Students will learn how to study complex systems and get hands-on experience working in interdisciplinary teams.
- 797,8INTEGRATED BIOSCIENCE COLLOQUIUM 1 credit erequisite: Permission. Seminars of original research from a broad range of bioscience related disciplines.
- 899 DOCTORAL DISSERTATION 1-12 credits Original research by the doctoral student.

BIOLOGY/NEOMED

- HUMAN GROSS ANATOMY I 630 3 credits Prerequisites: graduate standing and permission. An intensive survey of human macromorphology.
- HUMAN GROSS ANATOMY II 3 credits 631 Prerequisite: graduate standing and permission. An intensive survey of human macromornhology.
- 695 SPECIAL TOPICS: BIOLOGY/NEOUCOM 1-6 credits Prerequisite: permission of instructor. Advanced topics in medical education covering areas not otherwise available. May be repeated with a change in topic.

CHEMISTRY

- BIOCHEMISTRY LECTURE I 3 credits 501 Prerequisite: Graduate status or permission of department. Biochemistry of amino acids, car-bohydrates, lipids, and nucleic acids: structure/function relations. Enzymes as catalysts: kinetics and regulation. Cofactors.
- **BIOCHEMISTRY LECTURE II** 502 3 credits Prerequisite: 501, graduate status or permission of department. Overview of metabolism; ther-modynamics; carbohydrate, fatty acid, amino acid, and nucleoside anabolism and catabolism; hormonal control of metabolism. Photosynthesis.
- ADVANCED INORGANIC CHEMISTRY 572 3 credits Prerequisite: Graduate status or permission of department. Concepts of atomic structure inte-grated in systematic classification of elements. Periodic table. Chemistry of the representative elements. Transition elements including coordination compounds, organometallics and metal carbonyls.
- 590 WORKSHOP IN CHEMISTRY 1-3 credits (May be repeated) Group studies of special topics in chemistry. May not be used to meet
- undergraduate or graduate major requirements in chemistry. SPECIAL TOPICS: CHEMICAL EDUCATION 592 1-3 credits
- (May be repeated up to 6 credits) Consideration of topics in chemical education. **BIOCHEMISTRY LECTURE III** 603 3 credits
- Prerequisite: 501 and 502, graduate status or permission of department. DNA, RNA and pro-tein metabolism. Translation and transcription. Gene function and expression.
- 610
- BASIC QUANTUM CHEMISTRY 3 credits Prerequisite: Graduate status or permission of department. Quantum mechanics with applica-tions to molecular systems. Includes angular momentum, molecular hamiltonians, variation and perturbation methods and molecular orbital theories.
- SPECTROSCOPY 611
 - Prerequisite: 610, graduate status or permission of department. Interaction of light with matter, linear and nonlinear spectroscopies. Rotational, vibrational and electronic spectroscopy. Radi-ationless transitions and photochemistry.

- 619 TRANSITION-METAL ORGANOMETALLICS 3 credits Prerequisite: Graduate status or permission of department. The organometallic chemistry of the transition metal elements. Topics covered include synthesis, characterization methods, structure, bonding, reactivity, and application.
- MAIN GROUP ORGANOMETALLICS 3 credits Prerequisite: Graduate status or permission of department. The organometallic chemistry of main group elements. Topics covered include synthesis, characterization methods, structure, bonding, reactivity, and applications.
- 625 CHEMISTRY SEMINAR 1 credit rerequisite: Graduate status or permission of department. Lectures on current research topics in chemistry by invited speakers.
- PHYSICAL INORGANIC CHEMISTRY 3 credits Prerequisites: Graduate status or permission of department. Detailed treatment of chemistry of transition elements. Group theoretical applications, ligand field theory, kinetics and mecha-nism magnetism, electronic spectra, molecular orbital theory.
- THEORETICAL INORGANIC CHEMISTRY 630 2 credits Prerequisites: 629, graduate status or permission of department. Detailed treatment of chem-istry of transition elements. Group theoretical applications, ligand field theory, kinetics and mechanism, electronic spectra, molecular orbital theory.
- 631 METALS IN MEDICINE Prerequisite: 572, graduate status or permission of department. This course will cover the synthesis and development of metal based medicines including the tumor drug cisplatin, technetium 99m based imaging agents, and silver antimicrobials.
- THERMODYNAMICS AND STATISTICAL THERMODYNAMICS 635 3 credits Prerequisites: Graduate status or permission of department. Rigorous treatment of laws of thermodynamics and their applications to selected chemical systems. Fundamentals of statistical thermodynamics and applications to systems in chemical equilibrium.
- 636 CHEMICAL KINETICS 3 credits Prerequisite: 635, graduate status or permission of department. Phenomenological kinetics, experimental methods of investigation and analysis of reaction systems. Theoretical treatments of reaction rates.
- 640 CHEMICAL SEPARATIONS 3 credits Prerequisites: Graduate status or permission of department. General theory, instrumentation and application of methods of separation. Emphasis on modern chromatographic techniques and recent advances.
- SPECTRAL METHODS 641 3 credits Prerequisites: Graduate status or permission of department. Theory and application of instrumental measurements. Interpretation of data.
- X-RAY CRYSTALLOGRAPHY 645 3 credits Prerequisite: Graduate status or permission of department. The theoretical and practical aspects of single crystal x-ray crystallography are discussed. Topics covered include diffrac-tion, space groups, structure solution and refinement.
- 670 SPECTROSCOPIC IDENTIFICATION OF ORGANIC COMPOUNDS 3 credits Prerequisites: Graduate status or permission of department. Determination of the structures of organic compounds by spectroscopic analysis: ORD/CD, UV-VIS spectroscopy, IR specroscopy, mass spectrometry, FT-NMR spectroscopy, 2D-NMR.
- 679 INORGANIC POLYMERS 3 credits Prerequisites: 572 or permission of instructor. Synthesis, structure, bonding, characterization, and applications of polysiloxanes, polyphosphazenes, polysilanes, polycarbosilanes, poly(fer-roceneophanes), and sol-gel materials, coordination polymers, and related materials.
- MECHANISTIC AND SYNTHETIC ORGANIC CHEMISTRY I 683 3 credits Prerequisites: Graduate status or permission of department. Introduction to the structural and mechanistic aspects of organic reactions: HMO calculations, acids and bases, equilibrium, kinetics, linear free energy relationships, reactive intermediates, reaction mechanisms.
- 684 MECHANISTIC AND SYNTHETIC ORGANIC CHEMISTRY II 3 credits Prerequisite: 683, graduate status or permission of department. Synthetic organic chemistry from a mechanistic perspective: nucleophilic and electrophilic substitution and addition reactions, carbonyl chemistry, functional group manipulations, oxidations, reductions, cycloaddition reactions
- 699 MASTER'S THESIS 1-6 credits Prerequisite: Graduate status or permission of departmentFor properly qualified candid master's degree. Supervised original research in analytical, inorganic, organic, physical or biochemistry
- 710 SPECIAL TOPICS: ANALYTICAL CHEMISTRY 1-3 credits (May be repeated) Prerequisite: Graduate status or permission of department. Topics in advanced analytical chemistry. Electroanalysis, activation analysis, atomic absorption spec-trometry, mass spectrometry, liquid-liquid, liquid-solid and gas chromatography, ion exchange, thermoanalytical methods, separations, standards, sampling, recent developments.
- SPECIAL TOPICS: INORGANIC CHEMISTRY 711 1-3 credits (May be repeated) Prerequisite: Graduate status or permission of department. Consideration of topics in modern inorganic chemistry such as coordination compounds, chemistry of the solid state, representative elements, nonaqueous solvents, organometallic compounds, homogeneous catalysis.
- SPECIAL TOPICS: ORGANIC CHEMISTRY 1-3 credits (May be repeated) Prerequisite: Graduate status or permission of department. Topics in advanced organic chemistry such as natural products, heterocyclic compounds, photochem-712 istry
- 713 SPECIAL TOPICS: PHYSICAL CHEMISTRY 1-3 credits (May be repeated) Prerequisite: Graduate status or permission of department. Subject from modern physical chemistry.
- 715 SPECIAL TOPICS: BIOCHEMISTRY 1-3 credits (May be repeated) Prerequisite: Graduate status or permission of department. Recent developments in areas of biochemistry.
- ADVANCED BIOCHEMICAL TECHNIQUES 3 credits Pererequisite: 502, graduate status or permission of department. An advanced lecture course on physical techniques in biochemistry. Includes optical and hydrodynamic methods; radioan-alytical techniques, scattering and magnetic resonance spectroscopy.
- 722 ENZYMATIC REACTIONS 3 credits Prerequisites: 501, 502, graduate status or permission of department. Mechanisms of enzyme catalyzed reactions, general aspects and specific examples for phosphory, acyl, glycosyl transfers, eliminations, oxidation/reduction, isomerization and rearrangements. Chemistry of cofactors.
- **BIOINORGANIC CHEMISTRY** 3 credits Prerequisites: 501 and 502, graduate status or permission of department. Survey of the struc-ture and properties of metal ion complexes with amino acids, nucleotides, metabolites and macromolecules; metal ion metabolism; metals in medicine.
- ADVANCED METABOLISM 726 3 credits Prerequisites: 501 and 502, graduate status or permission of department. Study of advanced pathways in carbohydrate, lipid and protein metabolism with emphasis placed on metabolic dysfunction.

104 The University of Akron 2013-2014

- 740 PHYSICAL ORGANIC CHEMISTRY 3 credits Prerequisites: 683, 684, graduate status or permission of department. An advanced treatment of the theory and mechanisms of organic chemistry: FMO theory, molecular mechanics, mol-ecular strain, kinetics, thermodynamics, acidity functions, linear free energy relationships.
- ADVANCED SYNTHETIC ORGANIC CHEMISTRY 750 3 credits Prerequisites: 683, 684, graduate status or permission of department. An advanced treatment of organic functional group manipulations in the context of the total synthesis of natural prod-
- DOCTORAL DISSERTATION 899

1-16 credits Prerequisite: Graduate status or permission of department. Open to qualified student accepted as a candidate for Doctor of Philosophy in Chemistry. Supervised original research undertaken in organic, inorganic, physical, analytical or biochemistry.

CLASSICS

3200:

1-3 credits

- ASSYRIOLOGY 504 3 credits (May be repeated for credit with another cuneiform language) Prerequisite: permission of instructor. The Akkadian language.
- 597,8READING AND RESEARCH IN THE ANCIENT NEAR EAST

Prerequisite: permission of instructor. Advanced work in various aspects of Ancient Near East-ern Studies (Archaeology, Assyriology, Egyptology, etc.). ANTHROPOLOGY

3230:

- EVOLUTION AND HUMAN BEHAVIOR 510 3 credits Prerequisite: Permission. Critical examination of the theory of natural selection and its useful-ness for understanding the origins and evolution of early hominid and modern human social behavior
- ANTHROPOLOGY OF SEX AND GENDER 516 3 credits Prerequisite: Permission. This course explores cross-cultural variation regarding sex, gender, and sexuality. It examines the ways that cultures create, maintain, and reproduce gender con-
- cepts and gender relations. THE ANTHROPOLOGY OF FOOD 520 3 credits Prerequisite: Permission. Utilizing anthropological approaches and theories, this course explores the social relations and cultural beliefs associated with food cross-culturally.
- CULTURE AND PERSONALITY 555 3 credits Prerequisite: Permission. Examination of functional and causal relationships between culture and individual cognition and behavior. Lecture.
- 557 MEDICAL ANTHROPOLOGY

3 credits Prerequisite: Permission of instructor. Analyzes various aspects of Western and non-Western medical systems from an anthropological perspective. Compares traditional medical systems around the world.

- QUALITATIVE METHODS: BASIS OF ANTHROPOLOGICAL RESEARCH Prerequisite: 150 or permission. Provides hands on experience in qualitative methods, includ-ing key informant interviewing, focus groups and other methods. Includes the use of computer-based programs for rapid appraisal strategies.
- SOCIAL ANTHROPOLOGY 563 Prerequisite: Permission. Comparative structural analysis of non-Western systems of kinship and social organization in terms of status, role, reciprocal expectation, nomenclature, nuclear and extended households and other kinship groupings. Lecture.
- SPECIAL TOPICS: ANTHROPOLOGY 572 3 credits (May be repeated) Prerequisite: Permission. Designed to meet needs of student with interests in selected topics in anthropology. Offered irregularly when resources and opportunities per-mit. May include archaeological field school, laboratory research or advanced course work not presently offered by department on regular basis.
- 594 WORKSHOP IN ANTHROPOLOGY 1-3 credits (May be repeated) Group studies of special topics in anthropology. May not be used to meet departmental undergraduate or graduate major requirements. May be used for elective credit only
- SEMINAR IN ANTHROPOLOGICAL THEORIES AND METHODS 651 Major theoretical viewpoints in cultural anthropology. Nature, scope of research problems. Survey of methods in field work. Seminar
- INDIVIDUAL INVESTIGATION 697 1-3 credits Prerequisites: permission of instructor and chair of department. Intensive reading and/or research in student's chosen field of interest. Regular conferences with instructor. Preparation of a research paper.

ARCHAEOLOGY

- ARCHAEOLOGICAL THEORY 500 3 credits Prerequisite: Permission. Advanced seminar covering history of scientific archaeological exploration, major theoretical paradigms, and current trends in archaeology. Required for Certificate in Field Archaeology.
- ARCHAEOGEOPHYSICAL SURVEY 510 3 credits Prerequisite: Permission. Advanced instruction in principles of subsurface geophysical survey techniques in archaeology. Emphasizes magnetic gradiometry and electrical resistivity techniques. Includes both laboratory and fieldwork.
- ARCHAEOLOGY OF OHIO 520 3 credits Prerequisite: Permission, Provides detailed overview of Ohio's prehistoric cultures and the early historic period focusing on cultural evolution and environmental relationships.
- ARCHAEOLOGICAL LABORATORY METHODS 540 3 credits Prerequisite: Permission. Advanced laboratory processing and study of lithic, ceramic, paleo-faunal, paleobotanical, metallic, archaeological materials. Emphasis varies with instructor expertise. Involves instrumental or statiscal analysis.
- ARCHAEOLOGICAL FIELD SCHOOL 550 1-6 credits Prerequisite: Permission. Field-based course teaching basic archaeological techniques: map-ping, excavation of prehistoric and historic sites, survey and documentation. Repeatable for up to six credits.
- SPECIAL TOPICS IN ARCHAEOLOGY 572 1-6 credits Prerequisite: Permission. Designed to meet the needs of students with interests in selected topics in archaeology. Offered irregularly when resources and opportunities permit. May include archaeological field school, laboratory research or advanced course work not present-ly offered by department on a regular basis. Repeatable for up to six credits.

ECONOMICS

3250: 3 credits

3240:

STATE AND LOCAL PUBLIC FINANCE 506

Prerequisite: Admission to the master's program in Economics or permission. Examines eco-nomic rationale and problems for provision of goods and services by different governmental units. Considers alternative revenue sources and special topics.

- 515 COST-BENEFIT ANALYSIS 3 credits Prerequisite: Admission to the master's program in Economics or permission. Introduction to tool for public project evaluation. Includes development of analytical framework and methods of determining benefits and costs over time. Stresses application of techniques
- 523 APPLIED GAME THEORY 3 credits Prerequisite: Admission to the master's program in Economics or permission. Application of the basic concepts of game theory (analysis of strategic behavior) to relevant economic issues including bargaining, cartels, voting, conflict resolution, and non-competitive pricing
- 527 ECONOMIC FORECASTING 3 credits Prerequisites: Admission to the master's program in Economics or permission. Study of meth-ods for building, identifying, fitting, and checking dynamic economic models and the use of these models for forecasting. Emphasis is on the application of available computer software systems.
- 530 LABOR MARKET AND SOCIAL POLICY 3 credits Prerequisites: Admission to the master's program in Economics or permission. Intensive study of current labor and social policy issues (e.g. discrimination, poverty, migration, education, demographic and labor market changes, impact of international trade on employment).
- 534 LABOR MARKET ANALYSIS AND EVALUATION 3 credits Pererequisites: Admission to the master's program in Economics or permission. Applied labor market research using specialized techniques. Employment, health, education, and other cur-rent policy issues and programs analyzed and evaluated. Original research project required.
- 536 HEALTH ECONOMICS 3 credits Prerequisite: permission of instructor. Economic analysis of health care. Stresses health policy issues, includes study of demand and supply of medical services and insurance, analysis of health care industries
- 538 ECONOMICS OF SPORTS 3 credits Prerequisite: permission of instructor. Sports franchises as profit maximizing firms; costs and benefits of a franchise to a city; labor markets in professional sports; the economics of college sports.
- SPECIAL TOPICS: ECONOMICS 3 credits 540 Prerequisite: permission. Opportunity to study special topics and current issues in economics.
- ECONOMICS OF DEVELOPING COUNTRIES 560 3 credits Prerequisite: Admission to the master's program in Economics or permission. Basic problems of economic development. Theories of economic development, issues of political economy and institutions. Topics include poverty, population, migration, employment, finance, interna-tional trade, environment.
- 561 PRINCIPLES OF INTERNATIONAL ECONOMICS 3 credits Prerequisites: Admission to the master's program in Economics or permission. International trade and foreign exchange, policies of free and controlled trade, international monetary problems
- 575 DEVELOPMENT OF ECONOMIC THOUGHT 3 credits Prerequisites: Admission to the master's program in Economics or permission. Evolution of theory and method, relation of ideas of economists contemporary to conditions.
- 581 MONETARY AND BANKING POLICY 3 credits MORE LART AND BANNING POLICY Prerequisites: Admission to the master's program in Economics or permission. Control over currency and credit, policies of control by central banks and governments, United States Treasury and Federal Reserve System.
- URBAN ECONOMICS: THEORY AND POLICY 3 credits Prerequisite: Admission to the master's program in Economics or permission. Analysis of urban issues from an economic perspective. Emphasis on urban growth, land-use patterns, housing, income distribution, poverty and urban fiscal policy.
- WORKSHOP IN ECONOMICS (May be repeated) Group studies of special topics in economics. May not be used to meet undergraduate or graduate major requirements in economics. May be used for elective credit only
- FOUNDATIONS OF ECONOMIC ANALYSIS 3 credits Prerequisite: graduate standing. Determination of national income, employment and price 600 level; aggregate consumption, investment and asset holding; decision problems faced by household and firm. Partial equilibrium and analysis of competition and monopoly and gener-al equilibrium analysis. May not be substituted for 602, 603, 611, or applied toward the 30 graduate credits required for M.A. in economics.
- 602 MACROECONOMIC ANALYSIS I 3 credits Prerequisite: Admission to the master's program in economics or permission of the depart-ment. Construction of static macroeconomic models. Analysis predominantly in terms of comparative statistics with only relatively brief mention of dynamic models.
- ECONOMICS OF THE PUBLIC SECTOR 606 3 credits Perequisite: Admission to the master's program in economics or permission of the depart-ment. Examination of public sector economies emphasizes public revenues, public expendi-tures. Develops objectives of taxation, welfare aspects of the public sector, theory of public goods. Considers specific taxes, cost-benefit analysis, expenditures analysis, fiscal federalism.
- 610 FRAMEWORK OF ECONOMIC ANALYSIS Prerequisite: graduate standing. Development of theoretical and analytical framework for deci-sion making. Discussion of applications of the framework to situations concerning demand, cost, supply, production, price, employment and wage.
- MICROFCONOMIC THEORY I Prerequisite: Admission to the master's program in economics or permission of the depart-ment. Modern theory of consumer behavior and of the firm. Determination of market prices. Optimization models, establishment of criteria for productive, allocative and distributive efficiency.
- 615 INDUSTRIAL ORGANIZATION 3 credits Prerequisite: 611 or permission. Examines link between market structure, firm conduct and economic performance. Measurement and effects of monopoly power, industrial concentration and changes.
- THE ECONOMICS OF REGULATION Prerequisite: 615 or permission of instructor. Examines rationale, methods and success of government regulation of public utility, transportation and communications industries
- 620 APPLICATIONS OF MATHEMATICAL MODELS TO ECONOMICS 3 credits Prerequisites: Admission to the master's program in economics or permission of the depart-ment. Review of selected topics of differential and integral calculus and their application to economic analysis. Theory of optimization in production and consumption; static macroeconomic models. Analysis of growth and stability.
- 621 APPLICATION OF LINEAR MODELS IN ECONOMIC ANALYSIS 3 credits Prerequisites: Admission to the master's program in economics or permission of the department. Review of selected topics of linear algebra application to economic theory. Static open and closed input-output tables, dynamic models, consumption technology and theory of demands, linear programming, general equilibrium analysis.
- 626 STATISTICS FOR ECONOMETRICS 3 credits Prerequisites: Admission to the master's program in economics or permission of the department. A review of statistical theory and its application to research in economics. Emphasis is on estimation and hypothesis testing as a prelude to econometrics.

- 627 ECONOMETRICS 3 credits Prerequisite: 626 or equivalent. Formulation of functional relations among economic variables suitable for statistical estimation from observational data and construction of multiequation econometric models and methods of estimation.
- 628 SEMINAR IN RESEARCH METHODS 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. A seminar in the research use of applied mathematical economics or econometrics. Emphasis is on individual development of a theoretical proposition or research statement, its empirical examination and policy implications.
- 633 THEORY OF WAGES AND EMPLOYMENT 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Analytical approach to integration of economic theory with observed labor market phenomena. Discussion of wage and employment theories, effects of unions, collective bargaining theories and effects of government regulation.
- 640 SPECIAL TOPICS IN ECONOMICS 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Opportunity to study special topics and current issues in economics at an advanced level. Repeatable with permission of the instructor.
- 664 SEMINAR ON ECONOMIC GROWTH AND DEVELOPMENT 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Review of main theories of economic growth since age of classical economics. Problems in development of emerging countries. Discussion of aggregative macromodels of capital formation, investment, technology and external trade.
- 666 SEMINAR ON REGIONAL ECONOMIC ANALYSIS AND DEVELOPMENT 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Study of a particular national or international regional development. Any one or a combination of following regions may be considered: Middle East, North Africa, areas within Latin America, Southern Europe, Southeast Asia or Eastern Europe.
- 670 INTERNATIONAL MONETARY ECONOMICS 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. International financial relations. Foreign exchange market and exchange rate adjustments. Balance of payments adjustment policies. International monetary system.
- 671 INTERNATIONAL TRADE 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Traditional trade theory. Recent developments in trade theory, policy implications in trade relations among developed and developing economics.
- 683 MONETARY ECONOMICS 3 credits Prerequisite: Admission to the master's program in economics or permission of the department. Intensive study of important areas of monetary theory. Emphasis on integration of money and value theory among other areas, plus some pressing policy issues.
- 695 GRADUATE INTERNSHIP IN ECONOMICS 1-3 credits Prerequisites: Eighteen credit hours of economics graduate courses. Career application of student's graduate coursework. Supervisor reports and assignments required. May be repeated for a maximum of three credits.
- 697,8READING IN ADVANCED ECONOMICS 1-4 credits each Prerequisite: Admission to the master's program in economics or permission of the department. (A maximum of six credits may be applied toward the master's degree in economics.) Intensive investigation of selected problem area in advanced economics under supervision of instructor. Since the subject matter is decided upon in each case, the course may be taken repeatedly for credit.
- 699 MASTER'S THESIS (May be repeated for a total of six credits)

ENGLISH

3300:

3 credits

3 credits

- 500 ANGLO SAXON 3 credits Studies in Old English language and Old English prose and poetry, including Beowulf.
- 503 DEVELOPMENT OF THE ARTHURIAN LEGEND 3 credits Traces evolution of Arthurian materials from 540 to 1500 and beyond, with emphasis on characters, themes, events and treatments.
- 506 CHAUCER 3 credits Close study of Chaucer's major works – The Canterbury Tales and Troilus and Criseyde in Middle English.
- 507 MIDDLE ENGLISH LITERATURE 3 credits Study of genres, topics, styles and writers of the Middle English literary works from 12th to 15th centuries. Readings in Middle English.

521 SWIFT AND POPE 3 credits An intensive study of the major satires of Swift and Pope. Concentration on the rhetorical strategies of each author within the context of the shifting intellectual and cultural milieu at the end of the 17th and beginning of the 18th Centuries.

- 524 EARLY ENGLISH FICTION 3 credits Development of English novel before 1830. Focus on works of Defoe, Richardson, Fielding, Smollett, Sterne, Austen and Scott.
- 530 VICTORIAN POETRY AND PROSE 3 credits Poetry, prose of the late 19th Century, excluding fiction, with attention to Tennyson, Browning, Arnold, Carlyle, Ruskin and other major writers.

531 VICTORIAN FICTION

- Reading major novels of Victorian era, of varying length, by Emily Bronte, Dickens, Eliot, Thackeray, and Hardy. Characterization, theme, and attitude toward life emphasized.
- 535 20TH CENTURY BRITISH POETRY Concentrated study of major poems of Yeats, Eliot, and Auden with attention also to Hardy, Housman, Spender, C. Day Lewis, Dylan Thomas and others.
- 536 BRITISH FICTION: 1900-1925 3 credits Study of Conrad, Joyce, D.H. Lawrence, and Virginia Woolf with attention to their innovations in narrative and style, their psychological realism and symbolism.
- 537 BRITISH FICTION SINCE 1925 3 credits Study of important British novelists since 1925, excluding Lawrence, Joyce, and Woolf. Attention to development of British short story from 1925 to present.
- 548 AMERICAN ROMANTIC FICTION 3 credits Examination of early American fiction, tracing its genesis, romantic period and germinal movements toward realism. Writers discussed include Cooper, Poe, Hawthorne, and Melville.
- 549 AMERICAN FICTION: REALISM AND NATURALISM 3 credits Examination of American writers of realistic and naturalistic fiction (e.g. Howells, James, Crane, Dreiser), tracing developments in American fiction against background of cultural and historical change.
- 550 MODERN AMERICAN FICTION 3 credits Study of significant American short and long fiction from World War I to the present.

- 553 AMERICAN WOMEN POETS
- Study of modern poets' uses and revisions of tradition, women's relationships, conceptions of art and of the artist-as-woman, and the debate between "public" and "private" poetry.
- 556 THOREAU, EMERSON, AND THEIR CIRCLE 3 credits A study of work and life of Henry David Thoreau, Ralph Waldo Emerson, and other key figures of the American Renaissance.
- 557 WRITERS ON WRITING 3 credits A close look at what established writers have to say about the process of writing. Students write response essays and take exams on readings.
- 560 FILM AND LITERATURE 3 credits Analysis of literary texts and their film adaptations. Emphasis on genre, structure, and visual elements as counterparts to written texts.
- 566 LINGUISTICS AND LANGUAGE ARTS 3 credits Foundation course in linguistics with pedagogical implications for second language learners. Fundamental topics (morphology, syntax, semantics, phonetics, pragmatics) and related topics (sociolinguistics, contrastive analysis) covered.
- 567 MODERN EUROPEAN FICTION 3 credits Representative European writers from about 1850 to present, in translation. Focus on fiction of such writers as Zola, Tolstoy, Dostoyevsky, Mann, Proust, Kafka and Solzhenitsyn.
- 568 INTERNATIONAL POETRY 3 credits This survey of world poetry focuses on the stylistic concerns and social consequences of literature from Latin America, Africa, Asia, Europe, and beyond.
- 569
 EROS AND LOVE IN EARLY WESTERN LITERATURE
 3 credits

 An analysis of sex and love in the western literature from Greco-Roman times to 1800.
 Emphasizes allegorical, satiric, fantastic or realistic uses of sexuality and "romantic" love.
- 570 HISTORY OF ENGLISH LANGUAGE 3 credits Development of English language, from its beginnings: sources of its vocabulary, its sounds, its rules; semantic change; political and social influences on changes; dialect origins; correctness.
- 571 U.S. DIALECTS: BLACK AND WHITE 3 credits Study of differences in pronunciation, vocabulary and grammar among U.S. language varieties. Orgins, regional and social dimensions are explored. Correctness, focusing on black English and Appalachian speech, explored.
- 572
 SYNTAX
 3 credits

 Principles of syntactic description. Sentence structures are investigated from a variety of languages, with emphasis on English.
 3 credits

 573
 THEORETICAL FOUNDATIONS AND PRINCIPLES OF ESL
 3 credits
- Theoretical issues in linguistic description and language acquisition as relevant to learning of a second language. Elaboration of principles for the teaching of English as a second language based on research in linguistics, psycholinguistics and second language pedagogy.
 AFRICAN AMERICAN ENGLISH 3 credits
- 574 AFRICAN AMERICAN ENGLISH 3 credits African American English grammatical structure, pronunciations, origins and cultural role. Comparisons with academic English. Discussion of language correctness, legal status and role in education.
- 575 THEORY OF RHETORIC 3 credits Ancient and modern theories of rhetoric, with attention to classical oration, "topics" of rhetoric and their application to teaching of English.
- 577 SOCIOLINGUISTICS 3 credits Major sociolinguistic concepts and methodology examined, as well as relationships between language, sociocultural factors, and education. Issues of Standard English, power, and gender also examined.
- 578 GRAMMATICAL STRUCTURES OF MODERN ENGLISH 3 credits Contemporary understanding of Modern English sentence structure: parts of speech, sentence types, phrase types, modification, coordination and subordination, parentheticals. Traditional grammar and sentence rhetoric discussed.
- 579 MANAGEMENT REPORTS 3 credits Study of principles and writing practice in effective business style, specialized structure, and purpose for business reports.
- 585 SCIENCE FICTION 3 credits A study of twentieth-century British and American science fiction, featuring primary forms of the science fiction story and the work of major authors.
- 586 LEARNER ENGLISH 3 credits Introduction to tools for and practice in analyzing second language learners' production of English. Theory and practice of teaching oral and written English also covered.
- 587 FIELD EXPERIENCE: TEACHING SECOND LANGUAGE LEARNERS 3 credits Permission of the instructor is required to enroll. Practical experience in which second language teachers-in-training observe, participate in, and practice teaching under the supervision of the instructor and/or an experienced, certified teacher.
- 589 SEMINAR IN ENGLISH 2-3 credits (May be repeated with different topics.) Special studies, and methods of literary research, in selected areas of English and American literature and language.
- 590 WORKSHOP IN ENGLISH (May be repeated with different topics.) Group studies of special topics in English. Cannot be used to meet undergraduate or graduate major requirements in English; for elective credit only.
- 592 INTERNSHIP IN ENGLISH 1-3 credits Prerequisite: permission of instructor. Graduate internship, including analytical reading and writing focused on liberal arts and career applications of the study of English. May count up to three credits.
- 600 TEACHING COLLEGE COMPOSITION PRACTICUM 3 credits Prerequisite: teaching assistantship. Orientation and weekly analysis of teaching rationale and practice, limited to teaching assistants in the Department of Engl.ish. (Credits may not be used to meet M.A. in English degree requirements.)
- 615 SHAKESPEAREAN DRAMA 3 credits Concentrated study of several Shakespearean plays with emphasis on historical, critical and dramatic documents pertinent to development of Shakespeare's art.
- 616
 SHAKESPEARE'S CONTEMPORARIES IN ENGLISH DRAMA
 3 credits

 Readings in such playwrights as Lyly, Greene, Marlowe, Jonson, Beaumont, Fletcher, Webster, Middleton and Ford and in contemporary writings relevant to theory and practice of drama.
 618

 MILTON
 3 credits
- 18 MILTON 3 credits Emphasis on Milton's major poems and prose works: Paradise Lost, Paradise Regained, Areopagitica. Student becomes acquainted with Milton the man and Milton the artist.
- 619 SEVENTEENTH-CENTURY ENGLISH LITERATURE 3 credits An examination of seventeenth-century British authors, including Donne, Jonson, Marvell, Milton, Bacon and Bunyan, and their canonical positions, their craft and their literary criticism.
- 620 AUTOBIOGRAPHY AS LITERATURE 3 credits This course examines the genre of autobiography and memoir. A wide representation of autobiographies will be the focus of discussion and analysis.

3 credits

106 The University of Akron 2013-2014

625 AUTOBIOGRAPHICAL WRITING

Using a workshop format, this course examines autobiographical essays written by class members. Attention will also be given to the art and craft of writing autobiography.

3 credits

2-3 credits

1-3 credits

3 credits

3 credits

- KEATS AND HIS CONTEMPORARIES 627 3 credits 3 credits Writings of John Keats, studied against background of romantic poetic theory and poetry of Keats' contemporaries.
- 630 LITERATURE OF THE 1930s

3 credits A study of 1930s American literature in its social context, using recent critical theory to examine relationships between history and literature.

SEMINAR IN JAMES 643 A study of Henry James' life and works. Primary emphasis will be on James' fiction, both long and short, early and late; but some attention will also be given to his literary criticism, travel pieces and plays.

POE AND HAWTHORNE 645

3 credits Substantial readings from each author: tales, novels, essays, letters, poetry. Also, representa-tive literary criticism about each author.

646 WHITMAN AND DICKINSON

WHITMAN AND DICKINSON 3 credits Students study the work of Walt Whitman, Emily Dickinson, and the appropriate recent scholarship. Students conduct, write about, and present their own scholarly research.

THE NEW RHETORICS 650

3 credits This seminar examines the impact of rhetorical theory on the study and teaching of writing. We will study works from classical, modern, and postmodern rhetoricians.

651 THE PRAGMATISTS

- THE PRAGMATISTS 3 credits This seminar examines the pragmatic roots of composition studies the "tacit tradition," including classical expressivism, and criticisms of that movement.
- CULTURAL STUDIES: THEORY AND PRACTICE 660
- This course explores the relationship between Cultural Studies and English Studies, examin-ing the impact of Cultural Studies on the practice of textual analysis.

665 LITERARY CRITICISM

3 credits Inquiry into nature and value of literature and problems of practical criticism as represented in major statements of ancient and modern critics.

MODERN LINGUISTICS 670

Introductory examination of methods and results of modern grammatical research in syntax, semantics, phonology and dialects. Goals include understanding of language variation and background preparation for linguistic studies of literature.

THEORIES OF COMPOSITION 673

THEORIES OF COMPOSITION Study of composition theories and research, with attention to their implications for writing and Design theories as such topics as composing processes, invention, form, within instruction. Particular focus on such topics as composing processes, invention, form, style, modes of writing, language varieties and evaluation of writing. Class sessions include discussion of readings and presentations.

RESEARCH METHODOLOGIES IN COMPOSITION 674

Research methodologies in composition and their application. Students will define research areas, summarize and evaluate work already done, and propose and complete semester research projects.

WRITING FOR MBAs 675

3 credits Emphasizes managerial writing. Writing tasks are presented as decision-making tools, and students develop strategies for messages to subordinates, analytical reports and messages to outside audiences.

THEORY AND TEACHING OF BASIC COMPOSITION 676

Review of current research and exploration of specific instructional methods for teaching basic composition.

SCIENCE WRITING 677

Study of principles and writing practice for effective communication in the physical or social sciences, including purpose, audience, specialized document structure, and oral presentations.

SCHOLARLY WRITING 679

3 credits Study of composing, analyzing and evaluating academic arguments. Practice in specific forms of academic writing such as reviews of research, articles and book reviews.

SEMINAR IN SATIRE 683

3 credits A study of satire from the middle ages through the late 20th Century, with particular attention to techniques of satiric attack, modes of comedy and irony and literary criticism

SEMINAR IN ENGLISH 689

May be repeated with change of topics) Special topics within the general field of literature and language, usually focusing on major figures or themes.

INDIVIDUAL READING IN ENGLISH 698

Individual study under guidance of professor who directs and coordinates student's reading and research.

MASTER'S THESIS 699

1-6 credits 1-6 credits Original work in the field of literature and language and completion of graduate student's required thesis.

3350: **GEOGRAPHY AND PLANNING**

- GEOGRAPHIC INFORMATION SYSTEMS 505 3 credits Introduction to the principles and concepts underlying geographic information systems (GIS) and their application in professional practice and academic research. Laboratory.
- ADVANCED GEOGRAPHIC INFORMATION SYSTEMS 507 3 credits Prerequisite: 505 or permission. Advanced instruction in the theory and application of geo-graphic information systems (GIS) including hands-on experience with both raster and vector GIS. Laboratory.
- ARCHAEOGEOPHYSICAL SURVEY 509 3 credits Prerequisite: Permission. Advanced instruction in subsurface geophysical survey techniques in archaeology. Emphasis on magnetic gradiometry and electrical resistivity techniques, image processing and geological and archaeological interpretation.

ENVIRONMENTAL PLANNING 515

Scientific and technical principles for decision-making in planning, with emphasis on soils, land use, and water quality issues. Data sources and methods of site evaluation. 3 credits

URBAN GEOGRAPHY 520

Spatial structure of urban systems; interaction between cities; internal structure of cities. Per spectives on urban change; contemporary urban geographic problems; urban and regional planning issues.

TRANSPORTATION SYSTEMS PLANNING 522

Study and analysis of transportation systems from a geographic perspective. Emphasis on transportation problems and issues, elements of transportation planning. 3 credits

MILITARY GEOGRAPHY

Influence of physical and human geography on military operations and military history. Role played by geography in international conflicts.

- 532 LAND USE PLANNING LAW 3 credits Acquaint student with past and present approaches to land use control in the United States and examine the political, economic, social and legal forces which have shaped existing landuse legislation.
- 533 PRACTICAL APPROACHES TO PLANNING 3 credits Role of geographic investigation in city, regional and resource planning.
- 537 PLANNING ANALYSIS AND PROJECTION METHODS 3 credits Introduction to the primary analytic techniques for small-area demographic and economic analysis and projection.
- 538 LAND USE PLANNING METHODS 3 credits Application of GIS and other computer-based tools to the preparation, implementation and evaluation of comprehensive land use plans.
- HISTORY OF URBAN DESIGN AND PLANNING 3 credits Origins of human settlements and planning from the perspective of urban design and related societal trends. Comparison of world regional and historical urban forms. Experience in "reading" 539 settlements as visual landscapes.

CARTOGRAPHY 540 3 credits Theoretical and practical applications of cartographic principles used to design and produce maps for research reports, public presentations, publication, and other professional uses

GLOBAL POSITIONING SYSTEMS (GPS) 541 1 credit Fundamentals of Global Positioning Systems (GPS), with emphasis on geographic and plan-ning activities. Includes hands-on exercises.

- CARTOGRAPHIC THEORY AND DESIGN 3 credits Prerequisite: 540 or permission. Principles and techniques of thematic mapping. Stresses maps as communication tools. Examines principal thematic mapping techniques and means of presenting quantitative and qualitative data. Laboratory.
- URBAN APPLICATIONS IN GIS 543 3 credits Prerequisites: 505 or permission. Applications of GIS in the urban context, including methods used for analysis of population density gradients, migration, and accessibility.

APPLICATIONS IN CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS 3 credits Prerequisite: 505, 540, or permission. Application of analytic and presentation techniques from cartography and geographic information systems to practical problems in geography and plan-

ning. Laboratory. 545 GIS DATABASE DESIGN 3 credits

- Prerequisite: 505 or permission. Introduction to theory and concepts of geographic data mod-eling, geodatabase design, and topology. Emphasis on current practices and methodologies in geography and planning.
- 546 GIS PROGRAMMING AND CUSTOMIZATION 3 credits Prerequisites: 505 or permission. Introduction to use of scripting languages for customizing the interface and extending the functionality of desktop GIS software.

547 REMOTE SENSING 3 credits Concepts, systems, and methods of applying aerial photography, satellite imagery, and other remote-sensing data for analyzing geographic, geological, and other earth phenomena. Laboratory

- ADVANCED REMOTE SENSING 549 3 credits ADVANCED REMOTE SERVICE Prerequisite: 547 or permission. Current research in remote sensing. Applications in study of human cultural and biophysical environment. Practice in planning, design, execution and interpretation of remote sensing studies. Laboratory.
- 550 DEVELOPMENT PLANNING 3 credits A study of planning concepts and techniques for developing countries, including growth and development, planning agencies, regional inequities and alternative approaches.
- POLITICAL GEOGRAPHY 3 credits Principles and theory in contemporary domestic and international political geographies. Emphasis on the changing local and global patterns of electoral politics, security, and diplomacy.
- RESEARCH METHODS IN GEOGRAPHY AND PLANNING 581 Investigation of library and archive resources. Emphasis on development of professional writing skills.

SPATIAL ANALYSIS 583 3 credits Analysis of mapped statistical surfaces. Principles for use of map as model for statistical evi-dence, prediction, hypothesis testing.

- SPECIAL TOPICS IN GEOGRAPHY (May be repeated) Selected topics of interest in geography. 1-3 credits
- WORKSHOP IN GEOGRAPHY 1-3 credits 590 (May be repeated for a total of six credits) Group studies of special topics in geography
- SOIL AND WATER FIELD STUDIES 3 credits 595 Properties, origins and uses of major soil and water regime landscapes. Stresses relationships between soil and the hydrological cycle, urbanization, suburbanization and agriculture. Field trips required.
- 596 FIELD RESEARCH METHODS 3 credits Field work enabling student to become competent in collecting, organizing and analysis of data while carrying out field research projects. Field trips required.
- 597 REGIONAL FIELD STUDIES 1-3 credits Off-campus intensive study of geographic features of a region or regions through direct obser-vations and travel using appropriate field study methods. (Repeatable up to six credits) 600.1SEMINAR 3 credits each
- (May be repeated for a maximum of six credits each) Prerequisite: permission. Investigation and analysis of selected topics in particular fields of geography. Specialization indicated by second portion of title.
- PLANNING THEORY 3 credits 630 Introduction to the political, institutional and ethical foundations and procedural theories of urban and regional planning.
- FACILITIES PLANNING Study of need, process and limitation of urban facilities planning. 631 3 credits
- COMPARATIVE PLANNING 633 3 credits A survey of national, regional and local planning implementation measures in use in the devel-oped world. Particular attention will be given to the planning experiences of European nations and their impact on American planning theory and practice.
- ADVANCED SPATIAL ANALYSIS 3 credits Prerequisite: 583 or permission. Advanced concepts and methodologies in geographic research. Emphasis on quantitative revolution in geographical analysis including multivariate procedures as factor, discriminant and economical analysis, and multidimensional scaling. 680 PLANNING INTERNSHIP 685 3 credits
- Perequisite: permission. Individual experience in selected planning agencies for supervised performance in professional planning work. (May be repeated but only 3 credits may be applied to total credit hours needed for degree requirements.) Credit/Non-Credit.

- HISTORY OF GEOGRAPHIC THOUGHT 3 credit. Critical review of major developments in geographic concepts from ancient times to present. 687 3 credits
- GRADUATE COLLOQUIUM 695 1 credit (May be repeated for a maximum of four credits.) Lecture series on topics of interest in geography and planning, by academic and non-academic professionals for both faculty and stu-dents. Does not satisfy degree requirements. Credit/Non-Credit.
- INDIVIDUAL READING AND RESEARCH 698 1-3 credits (May be repeated for a total of six credits) Prerequisite: permission of instructor. Intensive investigation of selected topics under guidance of faculty member.
- 699 THESIS RESEARCH 1-6 credits Independent and original work toward a thesis.

GEOLOGY

3370:

- ARCHAEOLOGICAL GEOLOGY 3 credits (includes lab) 505 Prerequisite: Admission to the Geology master's program or permission. Provides background in geologic principles and techniques relevant to archaeologists. Topics include stratigraphy, absolute dating, locality assessment, zooarchaeology, taphonomy, and remote sensing. Required lab and field trips.
- ARCHAEOGEOPHYSICAL SURVEY 507 3 credits ARCHAEOGEOPHYSICAL SURVEY Prerequisites: Admission to the Geology master's program or permission. Advanced instruc-tion in subsurface geophysical survey techniques in archaeology. Emphasis on magnetic gra-diometry and electrical resistivity techniques, image processing and geological and archaeological interpretation.
- REGIONAL GEOLOGY OF NORTH AMERICA 3 credits Prerequisites: Admission to the Geology master's program or pernission. Examination of physiographic provinces of North America emphasizing structure, tectonic setting, stratigraphy and processes responsible for landforms in each province. Laboratory. Field trips. 510
- GLACIAL GEOLOGY 3 credits Prerequisite: Admission to the Geology master's program or permission. Causes and effects 511 of Pleistocene expansion of polar ice masses with emphasis on glacial deposits and world climatic changes. Field trips.
- COASTAL GEOLOGY 3 credits 521 Prerequisites: Admission to the Geology master's program or permission. Study of the origins and evolution of coasts and coastal deposits with particular attention paid to the interaction of waves and currents with sediment, and the development of associated sedimentary features. Field trips.
- PRINCIPLES OF SEDIMENTARY BASIN ANALYSIS 3 credits Prerequisites: Admission to the Geology master's program or permission. Primarily the study 525
 - of depositional systems, regional and global stratigraphic cycles, and sedimentation and plate tectonics.
- OPTICAL MINERALOGY–INTRODUCTORY PETROGRAPHY 3 credits Prerequisites: Admission to the Geology master's program or permission. Optical techniques for identification, characterization, and classification of minerals and rocks using the petrogra-phy microscope. Laboratory. 532
- ADVANCED PETROGRAPHY 533 3 credits Prerequisite: 532. Petrogenesis of igneous, metamorphic and sedimentary rocks as determined by microscopic studies of textures and mineral assemblages using thin section. Laboratory.
- PETROLEUM GEOLOGY 3 credits 535 Prerequisite: Admission to the Geology master's program or permission. Natural occurrences of petroleum. Characteristics, origin, entrapment and exploration methods. Laboratory. Field trips
- COAL GEOLOGY 536

3 credits Prerequisites: Admission to the Geology master's program or permission. Origin, composition and occurrence of coal with emphasis on depositional environments, coalification processes, exploration, evaluation and exploitation. Laboratory. Field trips.

- 537 ECONOMIC GEOLOGY Perequisites: Admission to the Geology master's program or permission. Study of metallic and nonmetallic mineral deposits emphasizing paragenesis and exploration. Laboratory. Field
- FUNDAMENTALS OF GEOPHYSICS 541 Prerequisites: Admission to the Geology master's program or permission. Fundamental con-cepts in solid earth geophysics, planetary physics, geodesy, and geomagnetism. Contributions of geophysics to recent major developments in geoscience.
- ENVIRONMENTAL MAGNETISM 3 credits Prerequisites: Admission to the Geology master's program or permission. Introduction to the theory and methods of environmental magnetism and the application of environmental mag-netism to interpreting sedimentary deposits.
- 545 ENVIRONMENTAL AND ENGINEERING GEOPHYSICS 3 credits Advanced subsurface exploration using ground penetrating radar and multi-channel electrical resistivity. Applications in environmental assessment, civil engineering, and geotechnical engineering. Field trips.
- EXPLORATION GEOPHYSICS 546 3 credits Prerequisites: Admission to the Geology master's program or permission. Basic principles and techniques of geophysical exploration with emphasis on gravimetric, magnetic, seismic and electrical methods and application to geological problems. Laboratory. Field trips.
- ADVANCED STRUCTURAL GEOLOGY 550 3 credits Prerequisite: Admission to the Geology master's program or permission. Fundamental and advanced concepts of structural geology with emphasis on current and developing concepts. Laboratory. Field trips.
- FIELD/LAB STUDIES IN ENVIRONMENTAL SCIENCE 3 credits 551 Prerequisite: permission. A Field/Laboratory inquiry into a specific interdisciplinary, environ-mental science topic. Students complete a research project involving collecting, analyzing, and interpreting real world data. May be repeated for a maximum of six credit hours
- GEOLOGY AND ENVIRONMENTAL SCIENCE SERVICE LEARNING 552 1-3 credits Graduate students gain experience as project managers for class projects by designing research plans, supervising data collection, lab analyses, and preparing final project reports.
- GEOLOGY FIELD CAMP I 3 credits 553 3 creatist Prerequisites: Admission to the Geology master's program and permission. Introduction to col-lection and interpretation of field data and construction of geological maps.
- GEOLOGY FIELD CAMP II 554 3 credits Prerequisites: Admission to the Geology master's program and permission. Advanced tech-niques and methods of field geology necessary for interpreting detailed geological maps.
- FIELD STUDIES IN GEOLOGY 555 1-3 credits Prerequisites: Permission of instructor. Field trip course emphasizing aspects of geology not readily studied in Ohio. Includes pre-trip preparation and post-trip examination. Student will bear trip expenses. (May be repeated for up to four credits)

- 562 MACROEVOLUTION
- 3 credits Prerequisite: Admission to the Geology master's program or permission. Provides a compre-hensive treatment of macroevolutionary theory, focusing on evidence from the fossil record. Topics include genetics, speciation, development, and fossil lineages. Laboratory.
- ENVIRONMENTAL MICROPALEONTOLOGY 563
- Prerequisite: Admission to the Geology master's program or permission. Introduction to tech-niques of micropaleontology as proxy indicators for environmental and climate change. Laboratory
- 565 GEOMICROBIOLOGY 3 credits Prerequisite: Graduate standing. A course addressing the physiology, ecology, and activities of microorganisms that mediate important biogeochemical processes, and the interdisciplinary approaches to studying them.
- GEOCHEMISTRY 570 3 credits Prerequisites: Admission to the Geology master's program or permission. Application of chem-ical principles to the study of geologic processes. Laboratory. Field trips.
- 572 STABLE ISOTOPE GEOCHEMISTRY 3 credits Prerequisites: Admission to the Geology master's program or permission. Application of sta-ble isotope geochemistry to the study of the hydrologic and carbon cycles, modern sedimen-tary environments, and the interpretation of sedimentary rocks.
- GROUNDWATER HYDROLOGY 3 credits Prerequisite: Admission to the Geology master's program or permission. Origin, occurrence, regimen and utilization of groundwater. Qualitative and quantitative presentation of geological and geochemical aspects of groundwater hydrology. Laboratory. Field trips.
- SEMINAR IN ENVIRONMENTAL STUDIES 2 credits 580 (May be repeated for a maximum of six credits) Prerequisite: Graduate status. Discussion of specific environmental topic(s) from an interdisciplinary viewpoint; resource persons are drawn from the University and surrounding community.
- ANALYTICAL METHODS IN GEOLOGY 581 2 credits Prerequisites: Admission to the Geology master's program or permission. A survey of analyt-ical methods used to solve geologic problems with emphasis on method selection, proper sample collection, analysis of data quality and data presentation.
- GEOSCIENCE INFORMATION ACQUISITION AND MANAGEMENT 584 2 credits Prerequisite: must be a Geology Department graduate student or senior major in geology, or have permission of instructor. Methods for finding, gathering, managing, and evaluating geoscience information. Emphasis on finding data sources (including electronic), creating valid data sets, visualizing data.
- 585 INDIVIDUAL READINGS IN GEOLOGY 1-4 credits Prerequisite: permission of graduate advisor required. (May be repeated for a total of 8 cred-its; credits may not be used to meet degree requirements.) Directed reading to fit individual student programs. Credit/Noncredit.
- WORKSHOP IN GEOLOGY AND ENVIRONMENTAL SCIENCE 1-3 credits (May be repeated) Group studies of special topics in geology and environmental science. May not be used to meet graduate degree requirements in the department. May be used for elec-590 tive credit only
- GRADUATE INTERNSHIP IN GEOLOGY AND ENVIRONMENTAL SCIENCE 591 1-3 credits (May be repeated for a maximum of six credits) Prerequisite: Permission of department chair. Supervised professional experience in geology or geophysics. May only apply three credits toward minimum graduate requirements in Geology and Environmental Science).
- ROCKS AND MINERALS 631 4 credits Prerequisites: Admission to the Geology master's program or permission. Intensive course integrating crystallography, mineralogy and petrology for the science teacher and graduate student from disciplines other than geology. Laboratory.
- NUCLEAR GEOLOGY 639 3 credits NUCLEAR GEOLOGY (Two hour lecture, three hour laboratory) Prerequisites: minimum of seven credits in chemistry, eight credits in physics, eight credits in calculus and eight credits in geology or permission. Dis-cusses nature of radioactive and stable isotopes, their applications in geology, radioactive min-erals, radioactive background and disposal of radioactive wastes. Nuclear analytical techniques will also be discussed; lecture, laboratory and field study.
 - 643 GEOSTATISTICS Perequisites: Admission to the Geology master's program or permission. Application of sta-tistical methods to geology and geophysics including tests of hypotheses, trend surface analy-sis, analysis of variance, nonparametric statistics and time series analysis.
- ADVANCED FIELD STUDIES 1-3 credits (May be repeated for a maximum of four credits) Prerequisite: permission of instructor. Field trip course studying aspects of geology not seen in Ohio; includes pre- and post-trip academic activities. Students will bear costs.
- 656 GLOBAL TECTONICS 3 credits Prerequisites: Admission to the Geology master's program or permission. Theoretical study of physical forces involved in formation and deformation of earth's crust with emphasis on plate tectonics and associated diastrophic features.
- GEOLOGIC RECORD OF PAST GLOBAL CHANGE 3 credits Prerequisite: equivalent of baccalaureate degree in geology or permission of instructor. Study of the geologic record of past global climate and environmental change from geochemical, paleontological, sedimentological and other geological evidence. 661
- ADVANCED GROUNDWATER HYDROLOGY 674 3 credits Prerequisite: Admission to the Geology master's program or permission. Study of water table and artesian aquifers under steady and nonsteady state conditions. Collection and evaluation of field data with regard to theory. Water well and well field design. Laboratory and field work.
- SEMINAR IN GEOLOGY 2 credits 680 (May be repeated for a total of six credits) Selected topics with reference material from origi-nal sources.
- SELECTED TOPICS IN GEOLOGY 684 1-3 credits (May be repeated for a total of eight credits) Prerequisite: permission. Topics not regularly offered as formal courses, generally of classic current importance. Entails lectures, readings, discussions and/or guided laboratory work.
- ADVANCED INDIVIDUAL READINGS IN GEOLOGY 1-4 credits Prerequisite: Permission of graduate adivsor. Directed readings to fit individual student pro-grams. (May be repeated for a maximum of nine credits) 685
- GEOLOGY TEACHING PRACTICUM 688 2 credits Corequisite: graduate assistantship. Training and experience in college teaching of geology under supervision of experienced faculty. May be repeated for a maximum of 8 credits. Cred-its may not be used to meet degree requirements. Credit/Noncredit.
- 696 GEOLOGY COLLOQUIUM 1 credit Lecture on current topics in geological sciences and thesis proposals and defenses by grad-uate students. May be repeated. Does not satisfy degree requirements.
- GRADUATE RESEARCH PROBLEMS 1-3 credits 698 (May be repeated for a total of six credits) Prerequisite: permission. Directed reading and research in an aspect of geology chosen by student in consultation with an instructor.

3 credits

108 The University of Akron 2013-2014

699 MASTER'S THESIS

Independent and original investigation. Must be successfully completed, report written and defended before a committee

HISTORY	3400:
	0 dit-

- GENDER AND CULTURE IN CHINA 500 3 credits Prerequisite: Graduate standing. This course examines the dynamic between gender and cul-ture from late imperial to post-socialist China, with connections drawn to public policies in different periods.
- 501 JAPAN AND THE PACIFIC WAR, 1895-1945 The rise of Japanese militarism. Japan's drive to create an empire in East and Southeast Asia. 1895-1945, and its role in the Pacific War, 1937-1945.
- STUDIES IN ROMAN HISTORY 504 3 credits Prerequisite: completion of 6 hours of History courses at the 200 or 300 level. Concentrated investigation of selected topics such as imperialism in middle and late Republic, the age of Augustus, or the fall of western Empire.

IMPERIAL SPAIN, 1469-1700 509

3 credits Prerequisites: For M.A. and Ph.D. students only. This course examines the rise and fall of Spain as the first world power. It covers Spanish political, cultural, and social history, 1469-1700

HISTORY AND FILM 510

- Examines films as historical experiences, historical events, and artifacts of history. Themes and foci will vary. Repeatable once with permission.
- MODERN INDIA 516

History of the Indian subcontinent from c.1500 with emphasis on Indian society and culture, British imperialism, and the emergence of Indian nationalism.

- LATIN AMERICA AND THE UNITED STATES 517 3 credits Prerequisite: Graduate status. Inter-American relations viewed from Latin American and US perspectives; US policy, imperialism; economic and cultural influences. Historiography of US-Latin American relations examined.
- HISTORY OF BRAZIL SINCE 1500 518 3 credits Survey of the economic, political, social, and cultural history of Brazil since 1500 to the pre-sent; the course also examines historiographical debates in Brazilian history.

524 THE RENAISSANCE

- The age of transition from the Middle Ages to modern times (1350-1600). Special emphasis on intellectual trends, the development of humanism, and the fine arts.
- THE REFORMATION 525 3 credits Europe in 16th Century; its religious, cultural, political and diplomatic development, with spe-cial emphasis on Protestant, Anglican and Catholic reformations.
- EUROPE IN THE FRENCH REVOLUTIONARY ERA, 1789-1815 529 3 credits Development of Revolution; Napoleon's regime and satellites.
- NAZI GERMANY 538
- 3 credits This course covers the social, economic, and political history of Germany from World War I to 1945 with emphasis on the Third Reich.
- TUDOR AND STUART BRITAIN, 1485-1714 540 3 credits An examination of the development of, and increasing links between the British kingdoms in the early modern period, with emphasis on culture, politics, and religion.
- CHURCHILL'S ENGLAND An examination of the changes that Britain experienced during the life of Winston Churchill, 1874-1965. Emphasis is on cultural, social, and political developments.
- COLONIAL AMERICAN HISTORY 551 3 credits
- This course covers the history of colonial America from the first European contact in the Amer-icas in 1492 to the onset of the American Revolution.
- THE AMERICAN REVOLUTIONARY ERA: POLITICAL, MILITARY, AND CONSTITUTIONAL ASPECTS 552
 - The struggle for the rights of Englishmen and independence; the impact of war on American society and the creation of republican institutions.
- THE EARLY AMERICAN REPUBLIC 553 3 credits Prerequisite: Graduate student status. The evolution of the American republic from its early beginnings after the American Revolution to the antebellum era. Emphasis upon political, social, and cultural developments.
- 554 THE CIVIL WAR AND RECONSTRUCTION, 1850-1877 4 credits Sectionalism, slavery and the causes of the Civil War; wartime activities of the Union and Confederacy; leading personalities; problems of reconstruction and the new Union.
- THE ORIGINS OF MODERN AMERICA, 1877-1917 3 credits United States from Reconstruction Era to World War I (1877-1920); emphasis on political respons-es to rise of an industrialized-urbanized society, the populist and progressive movements. 555
- 556 AMERICA IN WORLD WARS AND DEPRESSION, 1917-1945 3 credits World War I and Versailles; the 1920s, the Great Depression and the New Deal; World War II.
- 557 THE UNITED STATES SINCE 1945 3 credits Nuclear age, cold war, foreign policy and domestic affairs to present. Social, political, consti-tutional, diplomatic, cultural and economic changes since 1945.
- THE UNITED STATES AS A WORLD POWER 561 3 credits This course analyzes the emergence and functioning of the United States as a world power, with particular emphasis on the twentieth century.
- U.S. CONSTITUTIONAL HISTORY SINCE 1870 563 3 credits This course will examine the evolution of constitutional government as well as civil liberties and individual rights from the Civil War to the present.
- AMERICAN ECONOMY SINCE 1900 565 3 credits Survey of economic developments since 1900; topics include agriculture, business and labor. Special emphasis on role of big business and evolution of monetary and fiscal policy.
- HISTORY OF AMERICAN POP CULTURE 3 credits 567 Historical analysis of mass cultural phenomena and the social experiences associated with mass technologies that transformed modern American life in the nineteenth and twentieth cen-
- 568 AFRICAN-AMERICAN SOCIAL AND INTELLECTUAL HISTORY 3 credits Examination of black thought and activities reflective of African-American culture, conditions
- facing black people within America and efforts toward coordinated black activity.
- AFRICAN-AMERICAN WOMEN'S HISTORY 569 3 credits Study of black American women's lives from colonial times to the present featuring autobio graphical, fictional, and secondary works authored by black women.
- OHIO HISTORY 3 credits 570 3 credits Political, social, economic and intellectual history of Ohio, with special emphasis on Ohio's relationship to Old Northwest and to the nation.
- 690

- 571 AMERICAN ENVIRONMENTAL HISTORY 3 credits Utilization, conservation of natural resources from beginnings of American society to present; combination of economic, technological history of extensive treatment of public policy, environmental issues.
- 575 MEXICO 3 credits History of Mexico from Indian civilizations to present with emphasis on relations with United States; social and political ramifications of the 20th Century Mexican revolution.
- CENTRAL AMERICA AND THE CARIBBEAN 3 credits Selected aspects of the histories of Central American and Caribbean countries with emphasis on populist and peasant movements, political reform, social revolution, economic and under-development, and relations with the United States.
- WAR AND WESTERN CIVILIZATION 3 credits War and society in Europe, America and beyond from ancient world to present with special emphasis on period since 1740.
- HISTORY MUSEUMS AND ARCHIVES 3 credits 584 This course will focus on the work of history museums, historical societies and historic house museums, and archives.
- HISTORY, COMMUNITIES, AND MEMORY Course examines the interactions between the work of academic historians and the public in areas such as local history, monuments, oral history, film, and the internet.
- SCIENCE AND TECHNOLOGY IN WORLD HISTORY 3 credits 587 Prerequisite: Six credits of 3400 courses or permission of instructor. This course examines the development and diffusion of science and technology in human history, its impact on society, culture, and daily life.
- OTTOMAN STATE AND SOCIETY 589 3 credits Explores political, economic, and social dynamics of one of the world's most enduring and expanisve multiethnic empires.
- SPECIAL STUDIES: NORTH AMERICAN HISTORY Prerequisite: Graduate student status. Special studies in the history of North America (Rio Grande to the Arctic). See departmental office for information on particular offerings.
- 594 WORKSHOP IN HISTORY 1-3 credits (May be repeated) Group studies of special subjects pertaining to history. May be used for elective credit only. May not be used to meet undergraduate or graduate major requirements in history.
- SPECIAL STUDIES: EUROPEAN HISTORY 595 3 credits Prerequisite: Graduate student status. Special studies in European history (from the fall of the Roman Empire to the present). See department office for information on particular offerings.
- SPECIAL STUDIES IN HISTORY: OTHER 3 credits Prerequisite: Graduate student status. Special studies in history of Latin America, Asia, Africa, or the Pacific. See department office for information on particular offerings.
- RACE, NATION, AND CLASS IN THE MIDDLE EAST 598 3 credits This course analyzes identity politics and the development of the ideas of race, nation, and class in the Middle East from a historical perspective.
- WOMEN AND GENDER IN MIDDLE EASTERN SOCIETIES 3 credits This course explores the multi-layered processes and dimensions, including texts, cultural val-ues and practices, institutions, and events, which have shaped and continue to shape women's experiences in the Middle East.
- 4 credits GRADUATE RESEARCH SEMINAR 601 Prerequisite: Eight 3400 graduate credits or permission of instructor. Research seminar designed to train students in the skills of researching and writing history, with a particular emphasis on article length.
- 602 MA OPTION PAPER COMPLETION 1 credit Prerequisite: Permission of instructor. This course is for students completing the MA research paper option. Students should enroll in this course during the semester the option paper is completed.

GRADUATE READING SEMINAR-610 COMPARATIVE STUDIES IN WORLD CIVILIZATION 4 credits Prerequisite: Graduate student status. Comparative historiography on world civilizations: East Asia, South Asia, Middle East, Africa, and the Americas. Emphasis on key themes: kingship, empire colonization, nationalism.

- 612 READING SEMINAR: THE MIDDLE EAST 4 credits Study of historical literature, sources of materials, and major interpretations of Middle Eastern history.
- READING SEMINAR IN ANCIENT HISTORY 622 4 credits Study of historical literature, sources of materials and major interpretations of ancient history, especially Greek and Roman periods.
- READING SEMINAR IN MEDIEVAL HISTORY 625 4 credits Study of historical literature, sources of materials and major interpretations of medieval European history.
- **READING SEMINAR IN MODERN EUROPEAN HISTORY TO 1815** 631 4 credits Study of historical literature, sources of materials, major interpretations of early modern Europe history to Napoleonic era.
- **READING SEMINAR IN MODERN EUROPEAN HISTORY SINCE 1815** 4 credits Study of historical literature, sources of materials and major interpretations of modern Euro-pean history since early 19th Century.
- READING SEMINAR: THE MODERN BRITISH EMPIRE 651 4 credits Prerequisite: Graduate Student status. Study of the historical literature on the modern British Empire, from the end of the American Revolution through decolonization in the 20th century.
- READING SEMINAR IN AMERICAN HISTORY TO 1877 666 4 credits Study of historical literature, sources of materials and major interpretations of American colonial and United States history to Civil War.
- 669 READING SEMINAR IN AMERICAN HISTORY SINCE 1877 4 credits Study of historical literature, sources of materials and major interpretations of United States history since Civil War.
- READING SEMINAR IN LATIN AMERICAN HISTORY 4 credits Study of historical literature, primary texts, and major interpretations and debates on selected topics in Latin American history.
- **READING SEMINAR: CHINA** 680 4 credits Study of Chinese texts, secondary literature, and major interpretations of the history of China.
- HISTORIOGRAPHY 3 credits 689 Study of historians, historical writings and interpretations through the ages. Required for master's degree if candidate has not had equivalent undergraduate or graduate course elsewhere.
- HISTORY TEACHING PRACTICUM 3 credits Prerequisite: graduate assistantship. Required of all graduate assistants each fall semester. Training and experience in college teaching of history under the supervision of an experienced faculty member. Credits may not be used to meet degree requirements.
- 694 THESIS RESEARCH Research for Master of Arts degree thesis.

- 697,8INDIVIDUAL READING FOR M.A. STUDENT 1-4 credits each (May be repeated for a total of 12 credits) Directed reading to fit individual student programs. May be repeated, but no more than six credits may count toward the M.A. degree in history. Written permission of the instructor required.
- MASTER'S THESIS 699 1-6 credits Prerequisite: 694. Writing of Master of Arts degree thesis.
- 797.8INDIVIDUAL READING FOR Ph.D. STUDENT 1-6 credits each (May be repeated, but no more than 12 credits may apply toward the Ph.D. in history) Direct-ed reading to fit individual student programs. Written permission of the instructor required.
- DISSERTATION RESEARCH 1-15 credits 898 Research for Doctor of Philosophy degree dissertation.
- DOCTORAL DISSERTATION 1-15 credits 899 Prerequisite: 898. Writing of Doctor of Philosophy degree dissertation.

MATHEMATICS

- 501 HISTORY OF MATHEMATICS 3 credits Prerequisite: Departmental permission. Origin and development of mathematical Course does not meet degree requirements in the department.
- 510 ADVANCED LINEAR ALGEBRA 3 credits Prerequisite: Departmental permission. Study of vector spaces, linear transformation, canonical and quadratic forms, inner product spaces
- ABSTRACT ALGEBRA I 3 credits 511 Prerequisite: Departmental permission. Study of groups, rings, fields, integral domains, vector spaces, field extensions. Galois theory. May not be used to meet master's degree requirements in mathematics
- ABSTRACT ALGEBRA II 512
- 3 credits Perequisite: 511 or departmental permission. Study of groups, rings, fields, integral domains, vector spaces, field extensions, Galois theory.
- 513 THEORY OF NUMBERS

Prerequisite: Departmental permission, Euclidean algorithm, unique factorization theorem. congruences, primitive roots, indices, quadratic residues, number-theoretic functions, Gauss ian integers and continued fractions.

- COMBINATORICS AND GRAPH THEORY 515
- Prerequisite: Departmental permission. Introduction to basic ideas and techniques of mathe-matical counting; properties of structure of systems.

520 MATHEMATICAL TECHNOLOGY AND COMMUNICATION 3 credits Prerequisite: Departmental permission. Graphical, numerical, and algebraic computation with applications using a variety of mathematical hardware and software: symbolic manipulators, dynamic geometry software, programs, scripts and web browsers.

521,2ADVANCED CALCULUS I AND II

3 credits each Sequential. Prerequisite: Departmental permission. Real number system, sequences, series, set theory, continuity, differentiation, integration, partial derivatives, multiple integration, maxima and minima, convergence and uniform convergence, power series, improper integrals, transformations, line and surface integrals. 3450:521 may not be used to meet master's degree requirements for mathematics or applied mathematics.

525

COMPLEX VARIABLES 3 credits Prerequisite: Departmental permission. Complex variables; elementary functions, differentiation and analytic functions; integration and Cauchy's theorem; power series and Laurent series; residue theorem; applications such as conformal mappings, inversion of integral transform.

APPLIED NUMERICAL METHODS I 527

3 credits Prerequisite: Departmental permission. Numerical methods in polynomial interpolation, root finding, numerical integration, and numerical linear algebra. May not be used to meet master's degree requirements for applied mathematics.

528 APPLIED NUMERICAL METHODS II

Prerequisite: Departmental permission. Numerical methods in the solution of ordinary and par-tial differential equations. Numerical differentiation, Runge-Kutta methods, and iterative meth-ods for ODEs, finite differences for PDEs.

532

PARTIAL DIFFERENTIAL EQUATIONS 4 credits Prerequisite: Departmental permission. The classical initial value and boundary value problems of mathematical physics developed and solved using Fourier series and integral trans-

SYSTEMS OF ORDINARY DIFFERENTIAL EQUATIONS 535

3 credits Prerequisite: Departmental permission. Analysis, solution of systems of equations, linear, non-linear. Topics: stability theory, perturbation methods, asymptotic methods, applications from puscial existing and an analysis of the stability of physical, social sciences

MATHEMATICAL MODELS 536

Prerequisite: Departmental permission. Formulation and analysis of mathematical models in social and physical sciences. Analysis of deterministic and stochastic models. Topics may include stochastic processes, linear programming, graph theory, theory of measurement.

ADVANCED ENGINEERING MATHEMATICS I 538 3 credits Prerequisite: Departmental permission. Matrices, eigenvalue problems, systems of ODEs, vectory analysis, complex variables. May not be used to meet master's degree requirements for applied mathematics.

ADVANCED ENGINEERING MATHEMATICS II 539 3 credits Prerequisite: Departmental permission. Special functions, fourier series and transforms, PDEs.

CONCEPTS IN GEOMETRY 4 credits 541 Prerequisite: Departmental permission. Axiomatic treatment of both Euclidean and non-Euclid ean geometries. Other concepts included are finite geometry, transformations, constructions and inversions

INTRODUCTION TO TOPOLOGY 545

Prerequisite: Departmental permission. Introduction to topological spaces and topologies, mapping, cardinality, homeomorphisms, connected spaces, metric spaces.

TOPICS IN MATHEMATICS 589

(May be repeated for a total of 12 credits) Prerequisite: Permission of instructor. Selected top-ics in mathematics and applied mathematics at an advanced level.

WORKSHOP IN MATHEMATICS 591

(May be repeated) Group studies of special topics in mathematics and applied mathematics. May not be used to meet undergraduate or graduate credit requirements in mathematics and stics. May be used for elective credit only.

TOPICS IN ALGEBRA 611

3 credits Prerequisite: 512 or departmental permission. Advanced study of selected topics in some of the following areas: semigroups, groups, rings, modules and fields.

REAL ANALYSIS 621

3 credits Prerequisite: 522 or departmental permission. In-depth study of real analysis - metric spaces, normed vector spaces, integration theory, Hilbert spaces

Graduate Courses 109

625 ANALYTIC FUNCTION THEORY

3 credits Prerequisite: 522 or departmental permission. Complex number system, holomorphic func-tions, continuity, differentiability, power series complex integration, residue theory, singularities, analytic continuation, asymptotic expansion.

- ADVANCED NUMERICAL ANALYSIS I 3 credits Prerequisites: 522 and knowledge of C++, FORTRAN, or MATLAB or departmental permis-sion. Error propagation; theoretical analysis of numerical methods in interpolation, integration, and ordinary differential equations
- ADVANCED NUMERICAL ANALYSIS II 628 3 credits Prerequisites: 522 and knowledge of C++, FORTRAN, or MATLAB or departmental permis sion. Theoretical analysis of numerical methods in linear algebra.
- CALCULUS OF VARIATIONS 3 credits Prerequisite: Departmental permission. Problems with fixed and movable endpoints, problems with constraints, generalization to several variables, the maximality principle, linear time-optional problems, the connective between classical theory and the maximality principle.
- 632 ADVANCED PARTIAL DIFFERENTIAL EQUATIONS 3 credits Prerequisite: 532 or departmental permission. Existence, uniqueness and stability of solutions to general classes of partial differential equations. Methods for solving these classes intro-duced, emphasizing both analytical and numerical techniques.
- 633,4 METHODS OF APPLIED MATHEMATICS I AND II 3 credits each Prerequisite: 539 or departmental permission. Methods of applied mathematics concentrating on techniques for analysis of differential and integral equations applied complex analysis, integral transforms, partial differential equations, and integral equations.
- OPTIMIZATION 3 credits 635 Prerequisite: 522 or departmental permission. Unconstrained and constrained optimization theory and methods in applied problems.
- ADVANCED COMBINATORICS AND GRAPH THEORY 3 credits 636 Prerequisite: Departmental permission. Theory and techniques of combinatorics as applied to network problems and graph theoretic problems.
- THEORY AND APPLICATION OF WAVELETS 638 3 credits Prerequisite: permission of instructor. Theory of wavelets and applications to signal and image analysis. Topics include time-frequency representations, filter bands, discrete and continuous wavelet transforms, wavelet packets, and applications.
- ADVANCED TOPICS IN MATHEMATICS 1-3 credits 689 (May be repeated for a total of six credits) Prerequisite: permission of advisor. Seminar-type discussion on topics in mathematics leading to supervised research project. No more than 2 credits apply to major requirements.
- 692 SEMINAR IN MATHEMATICS 3 credits Prerequisite: permission of advisor. Seminar-type discussion on topics in mathematics leading to supervised research project.

PRACTICUM IN MATHEMATICS

1-3 credits (May be repeated) Prerequisite: graduate teaching assistant or permission. Training and expe-rience in college teaching of mathematical sciences. May not be used to meet degree requirements. Credit/noncredit.

697 INDIVIDUAL READING 1-3 credits (May be repeated for a total of four credits) Prerequisites: graduate standing and permission.

Directed studies in mathematics at graduate level under guidance of selected faculty member. 698 MASTER'S RESEARCH 1-6 credits

(May be repeated) Prerequisite: permission of advisor. Research in suitable topics in mathe-matics or applied mathematics culminating in a research paper. May not be used to meet master's degree requirements for mathematics or applied mathematics

MASTER'S THESIS 699 3 credits Prerequisite: permission. Properly qualified candidate for master's degree may obtain three credits for research that culminates in a public oral presentation of the faculty-supervised the-

721,2 FUNCTIONAL ANALYSIS I AND II 3 credits each Prerequisities: 510 and 621 or departmental permission. These courses are sequential. Study of normed linear spaces and transformations between them with an emphasis on the formulation and analysis of differential and integral equations as operator equations on these spaces

728 MATRIX ITERATIVE ANALYSIS 3 credits Prerequisite: Departmental permission. Basic Iterative methods, Matrix Properties and Con-cepts, Linear and Nonlinear equation solver, Semi-iterative and conjugate-gradient methods.

- ADVANCED NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS 3 credits Prerequisites: 522 and 528, or 628, or departmental permission. Derivation, analysis, and implementation of difference and variational-based methods for the solution of partial differential equations and systems of differential equations.
- ADVANCED PARTIAL DIFFERENTIAL EQUATIONS II 3 credits Prerequisites: 522 and 532 or departmental permission. Well-posedness of elliptic, hyperbol-ic and parabolic problems. Variational Methods for Elliptic problems, Conservation Laws and numerical methods, potential theory and integral equations.
- 733,4 ASYMPTOTIC METHODS AND NONLINEAR ANALYSIS I AND II 3 credits each Prerequisites: 633/634 or equivalent. Survey of asymptotic and perturbation methods as applied to integrals and differential equations. Topics: bifurcation and stability with applications from the physical sciences and engineering.
- 735 DYNAMICAL SYSTEMS 3 credits Prerequisite: 522 or departmental permission. The study of mathematical models of systems which evolve over time. An introduction to maps and applications to ordinary differential equa-

COMPUTER SCIENCE 3460:

- FUNDAMENTALS OF DATA STRUCTURES 3 credits Perequisite: programming experience in C. Basic data structures and algorithms: stacks, queues, linked lists, trees, hash tables, and graphs; sorting and search algorithms. Introduc-tion to data abstraction and algorithm analysis. (May not be used to meet computer science requirements)
- 506 INTRODUCTION TO C AND UNIX 3 credits Prerequisite: Programming experience. C language programming, UNIX shell programming, file structure, system calls, and interprocess communication. (May not be used to meet computer science requirements)
- WINDOWS PROGRAMMING 508 3 credits VIIIDUOVIS PROGRAMMINING Prerequisites: Admission to Computer Science master's program or permission. Windows operating systems, integrated development environment, event-driven programming, graphical user interface design, using object libraries, component object model, object linking and embedding, client-server objects.

518 INTRODUCTION TO DISCRETE STRUCTURES

Prerequisite: Admission to Computer Science master's program or permission. Introduction to algebraic structures of particular use in computer science. Topics include algorithms and flow chart language, graphs and digraphs, trees, lattices codes. (May not be used to meet com puter science master's degree requirements)

OBJECT-ORIENTED PROGRAMMING 521

3 credits Prerequisite: Admission to Computer Science master's program or permission. Object-oriented design, analysis, and programming using different development models. Comparison with other programming paradigms.

OPERATING SYSTEMS 526

3 credits Prerequisites: Admission to Computer Science master's program or permission. Introduction to aspects of all modern operating systems: types, storage management; process and resource control; interacting process synchronization. (May not be used to meet computer science master's degree requirements)

UNIX SYSTEM PROGRAMMING 528

3 credits Prerequisites: Admission to Computer Science master's program or permission. An overview of the UNIX operating system. Shell programming. Process management, processor man-agement, storage management, scheduling algorithms, resource protection, and system programming.

THEORY OF PROGRAMMING LANGUAGES 530

Prerequisite: Admission to Computer Science master's program or permission. Advanced concepts underlying programming languages and their applications, formal definitions of pro-gramming languages, Backus Normal Form, semantics. Alternative programming paradigms including functional programming. (May not be used to meet computer science master's degree requirements)

ALGORITHMS 535

3 credits Prerequisites: Admission to Computer Science master's program or permission. Design and analysis of efficient algorithms for random access machines; derivation of pattern classification algorithms.

COMPILER DESIGN 540

3 credits Prerequisites: Admission to Computer Science master's program or permission. Techniques used in constructing compilers, including lexical and syntactic analysis, parsing techniques, object code generation and optimization. Course requires a compiler implementation project.

545

INTRODUCTION TO BIOINFORMATICS 3 credits Prerequisites: Admission to Computer Science master's program or permission. Introduce major themes in bioinformatics. Topics include concepts of molecular genetics, biological datas, database searching, sequence alignments, phylogenetic trees, structure prediction, and microarray data analysis.

COMPUTER SECURITY 553

Prerequisites: Admission to Computer Science master's program or permission. Principles of computer security: cryptography, authentications, secure network protocols, intrusion detection and countermeasure.

DATA COMMUNICATIONS AND COMPUTER NETWORKS 555

credits Prerequisites: Admission to Computer Science master's program or permission. ISO-OSI, TCP/IP, SNA data switching, protocols, flow and error control, routing, topology. Network trends, network taxonomies, and socket-based programming.

COMPUTER GRAPHICS 557

3 credits Prerequisites: Admission to Computer Science master's program or permission. Topics in vec tor and raster graphics, interactive graphics languages, scan conversion, clipping, geometric transformation, projection, shading, animation, and virtual reality.

ARTIFICIAL INTELLIGENCE AND HEURISTIC PROGRAMMING 560

3 credits Prerequisite: Admission to Computer Science master's program or permission. Study of various programs which have displayed some intelligent behavior. Exploration of level at which computers can display intelligence

PERVASIVE COMPUTING 563

Prerequisite: Admission to Computer Science master's program or permission. Computing from a wireless perspective. Topics include protocols, algorithms, security and sensor networks.

565 COMPUTER ARCHITECTURE 3 credits Prerequisites: Admission to Computer Science master's program or permission. An introduc-tion to the hardware organization of the computer at the register, processor and systems level. An in-depth study of the architecture of a particular computer systems family. (May not be used to meet computer science master's degree requirements)

MOBILE ROBOTICS 568

3 credits Prerequisites: Admission to Computer Science master's program or permission. Introduction to history, hardware and software components, and design of autonomous mobile robots. Mul-tiple projects involving both physical robots and software emulation.

575 DATABASE MANAGEMENT

Prerequisite: Admission to Computer Science master's program or permission. Fundamentals of database organization, data manipulations and representation, data integrity, privacy.

INTRODUCTION TO PARALLEL PROCESSING 577

Prerequisites: Admission to Computer Science master's program or permission. Commercial processors: past and present. Parallel languages, models of parallel computation. Emphasis on parallel algorithm design and performance evaluation. A broad study of parallel paradigms with believe and under an electromance evaluation. A broad study of parallel paradigms with relation to real world applications.

SOFTWARE ENGINEERING

3 credits Prerequisite: Admission to Computer Science master's program or permission. Introduction to formal software specification and validation. Introduction of methodologies and tools of design, development, validation, and maintenance.

TOPICS IN COMPUTER SCIENCE 589

1-3 credits (May be repeated) Prerequisite: permission of instructor. Selected topics in computer science at an advanced level.

INDIVIDUAL STUDY IN COMPUTER SCIENCE 597 1-3 credits (May be repeated. Can apply to degree, minor or certificate only with department approval) Pre-requisite: permission. Directed studies designed as introduction to research problems under guidance of designated faculty member.

RESEARCH METHODOLOGY 601

Prerequisite: Admission to Computer Science graduate program or permission of instructor. Research process overview: literature review, formulation of problems, research design, writing proposals, data collection, data processing and analysis, evaluation, writing reports, and presenting results.

ADVANCED OPERATING SYSTEMS 626

ADVANCED OPERATING STSTEMS Prerequisite: Admission to Computer Science master's program or permission. Advanced top-ics in operating system design: synchronization mechanisms, performance evaluation, security, distributed operating systems

ADVANCED THEORY OF PROGRAMMING LANGUAGES 630 3 credits

Prerequisites: Admission to Computer Science master's program or permission. In-depth study of various issues in the design and implementation of programming languages, such as formal type systems, operational and other semantics, and verification.

635 ADVANCED ALGORITHMS 3 credits Prerequisite: Admission to Computer Science master's program or permission. Advanced graph algorithms, matrix multiplication, fast Fourier transforms, lower bound theory, complex-ity hierarchies, NP-complete and intractable problems, approximation techniques.

OPTIMIZATION FOR PARALLEL COMPILERS

3 credits Prerequisites: Graduate standing and permission of instructor. Advanced analysis and trans-formation strategies to support automatic vectorization and parallelization of code, emphasizing restructuring to improve instruction scheduling.

645 COMPUTATIONAL BIOLOGY

Prerequisites: Admission to Computer Science graduate program or permission of instructor. Topics include sequence analysis, hidden Markov model, RNA structure prediction, microarray data analysis, biological networks, and molecular dynamics simulation as well as Monte Carlo simulation.

653 SOFTWARE SECURITY

3 credits

Prerequisites: Admission to Computer Science graduate program or permission of instructor. Issues in software security: common software security errors, steganography, spam, cryptography, malware, internet hacking.

655 COMPUTER NETWORKS AND DISTRIBUTED PROCESSING

Prerequisites: Admission to Computer Science master's program or permission. Interconnection technologies, protocol layering models, datagram and stream transport services, client-server paradigm, principles and protocols of interconnected networks operating as unified systems, and TCP/IP technology.

VISUALIZATION

Prerequisite: Admission to Computer Science master's program or permission. Visualization pipeline, data representation in visualization, visualization algorithms, object-oriented visual-ization, scientific visualization, volume visualization, visualization applications and research topics

660 EXPERT SYSTEMS

3 credits Prerequisite: Admission to Computer Science master's program or permission. Architecture of expert systems, knowledge representation and acquisition, inference mechanisms for expert systems, uncertainty management, expert system tools and applications.

ADVANCED COMPUTER ARCHITECTURE

3 credits Prerequisite: Admission to Computer Science master's program or permission. Fundamentals of computer analysis and design, with emphasis on cost/performance tradeoffs. Studies of pipelined, vector, RISC, and multiprocessor architectures.

ADVANCED AUTOMATA AND COMPATIBILITY 3 credits Prerequisite: Admission to Computer Science master's program or permission. An in-depth study of concepts related to computability. Topics include nondeterministic automats, recursive function theory, the Chomsky hierarchy, Turing machines and undecidability.

676 DATA MINING 3 credits Prerequisite: Admission to Computer Science master's program or permission. Study fundamental data mining algorithms and their applications in the process of Knowledge Discovery from Databases. Study data warehousing systems and architectures.

PARALLEL PROCESSING 3 credits Prerequisite: Admission to Computer Science master's program or permission. Advanced computer architectures, theories of parallel computing, system resources optimization, efficient programming languages and application requirements of cost-effective computer systems. Classical results and practical insights into implementing parallel algorithms on actual parallel machines

680 SOFTWARE ENGINEERING METHODOLOGIES 3 credits Prerequisites: Admission to Computer Science master's program or permission. Introduction to current techniques and methodologies used in software design, development, validation, and maintenance.

ADVANCED TOPICS IN COMPUTER SCIENCE 1-3 credits (May be repeated) Prerequisite: permission of instructor. At most, six credits may be applied to degree requirements. Selected topics in computer science at an advanced level. (Depart-ment consent required for application to computer science master's degree requirements)

695 PRACTICUM COMPUTER SCIENCE 1-3 credits Prerequisite: graduate teaching assistant or permission. Training and experience in college teaching of computer science under the supervision of an experienced faculty member. May not be used to meet degree requirements. Credit/non-credit.

INDIVIDUAL STUDY IN COMPUTER SCIENCE 1-3 credits (May be repeated. Can apply to degree only with departmental approval) Prerequisite: per-mission of instructor. Directed studies designed as introduction to research problems under guidance of designated faculty member. 697

MASTER'S RESEARCH 1-6 credits (May be repeated) Prerequisite: permission of advisor. Research in computer science topic culminating in a research paper. No more than three credits may be applied to the minimum degree requirements.

699 MASTER'S THESIS 1-6 credits Prerequisite: permission. (May be repeated for a total of 15 credits.) A properly qualified candidate for a master's degree may enroll for research experience which culminates in presen-tation of a faculty-supervised thesis.

STATISTICS

PROBABILITY 550

Prerequisite: Appropriate background is one semester of calculus or equivalent. Introduction to probability, random variables and probability distributions, expected value, sums of random variables, Markov processes. May not be used to meet graduate major requirements in sta tistics

551,2 THEORETICAL STATISTICS I AND II 3 credits each Sequential. Prerequisite: Appropriate background is three semesters of calculus or equivalent. Elementary combinatorial probability distributions, meter series is a calculus of equivalent. Elementary combinatorial probability distributions, mathematical expecta-tion, functions of random variables, sampling distributions, point and interval estimation, tests of hypotheses, regression and correlation, introduction to experimental designs. May not be used to meet graduate major requirements in statistics.

561 APPLIED STATISTICS 4 credits APPLIED STATUSTICS Prerequisite: Appropriate background is two semesters of calculus or equivalent. Applications of statistical theory to natural and physical sciences and engineering, including probability distribu-tions, interval estimation, hypotheses testing (parametric and nonparametric), and simple linear regression and correlation. May not be used to meet graduate major requirements in statistics.

APPLIED REGRESSION AND ANOVA 4 credits Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Applications of the techniques of regression and multifactor analysis of variance. May not be used to meet graduate major requirements in statistics.

565 DESIGN OF SAMPLE SURVEYS

3 credits Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Design and analysis of frequently used sample survey techniques.

3470: 3 credits

3 credits

3 credits

3 credits

569 RELIABILITY MODELS

Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Selected topics in reliability modeling including parametric and nonparametric models, com-peting modes of failure, censored data and accelerated life models.

ACTUARIAL SCIENCE I 571

Prerequisite: Appropriate background is one semester of theoretical statistics or one semester of applied statistics or equivalent. Study of various statistical, financial, and mathematical calculations used to determine insurance premiums related to contingent risks based on individ-ual risk model frameworks.

ACTUARIAL SCIENCE II 572

3 credits Prerequisite: 571. Continuation of Actuarial Science I. Study of multiple life functions, multiple decrement models, valuation theory for pension plans, insurance models including expenses, nonforfeiture benefits and dividends.

573

SURVIVAL ANALYSIS 3 credits Prerequisite: Applied Statistics or equivalent. Basic concepts in survival analysis, censoring and data truncation, estimation of survival models, nonparametric hazard and survival function estimation, comparing survival times between groups.

575

FOUNDATIONS OF STATISTICAL QUALITY CONTROL 3 credits Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Course provides a solid foundation in the theory and applications of statistical techniques widely used in industry.

STATISTICAL DATA MANAGEMENT 580

Prerequisites: Appropriate background is one semester of applied statistics or equivalent. Stu-dents learn data organization and structures, design of statistical databases, statistical software analysis, importing and exporting of data between software, and missing data analysis.

TOPICS IN STATISTICS 589 1-3 credits (May be repeated for a total of six credits) Prerequisite: permission. Selected torics in advanced statistics, including quality control, reliability, sampling techniques, decision theory, advanced inference, stochastic processes and others.

WORKSHOP IN STATISTICS 591

1-3 credits (May be repeated with change of topic) Group studies of special topics in statistics. May not be used to meet undergraduate or graduate major requirements in mathematics and statistics. May be used for elective credit only

STATISTICAL CONSULTING 595

1-3 credits Prerequisite: 580 or permission. Students will be assigned to work with an instructor on cur-rent projects in the Center for Statistical Consulting. May be repeated for a total of 4 credits; however, only 2 credits will count toward major requirements. Does not count for elective credit for math science department majors.

ADVANCED PROBABILITY AND STOCHASTIC PROCESSES 650 3 credits

Prerequisite: 651. Random walk, distributions, unlimited sequence of trials, laws of large num-bers, convolutions, branching processes, renewal theory, Markov chains, time-dependent stochastic processes.

PROBABILITY AND STATISTICS 651

4 credits Prerequisite: Appropriate background is three semesters of calculus or equivalent. Probability, random variables, moments and generating functions, random vectors, special distributions, limit theorems, sampling, point estimation, hypothesis testing, confidence estimation.

ADVANCED MATHEMATICAL STATISTICS 652

3 credits Prerequisite: 651. Convergence of random variables, the Central Limit Theorem; theory of esti-mation; theory of hypothesis testing; the multivariate normal density; introduction to linear models: Bayesian statistics.

LINEAR MODELS

Prerequisites: Appropriate background is linear algebra or 651 or equivalent. General linear model in matrix notation, general linear hypothesis, regression models, experimental design models, analysis of variance and covariance, variance components.

STATISTICS FOR THE LIFE SCIENCES

Prerequisite: college level algebra or equivalent. Data description and presentation, probabili-ty applications in the life sciences (including sensitivity, specificity, relative risk), principles and application of statistical inference, ANOVA, correlation and regression. May not be used to meet graduate major requirements in statistics.

EXPERIMENTAL DESIGN 663

Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Selected topics in experimental design including random and fixed effects, nested designs, split plot designs, confounding, fractional factorials, Latin squares, and analysis of covariance.

REGRESSION 665

3 credits Prerequisite: Appropriate background is one semester of applied statistics or equivalent. Cor-relation, simple and multiple linear regression: least squares, matrix notation, model building and checking estimation, hypothesis testing, outliers, influence, multicollinearity, transformations, categorical regressors; logistic regression.

NONPARAMETRIC STATISTICS-METHODS 666

3 credits Pererquisite: Appropriate background is one semester of applied statistics or equivalent. The-ory and practice using techniques requiring less restrictive assumptions. Nonparametric ana-logues to t- and F-tests, ANOVA, regression and correlation. Computer applications.

FACTOR ANALYSIS 667

3 credits Prerequisite: Appropriate background is one semester of applied statistics or equivalent. The-ory and techniques for identifying variables through use of principal components and factor analysis. Identification of groups using cluster analysis. Computer applications.

MULTIVARIATE STATISTICAL METHODS 668

3 credits Prerequisite: Appropriate background is two semesters of applied statistics or equivalent. Mul-tivariate techniques including distance concept, Hotelling T2, multivariate ANOVA, regression and correlation, linear contrasts, factorial experiments, nested and repeat measure designs, Bonferroni X² tests, linear discrimination analysis, canonical correlations, application.

ADVANCED BIOSTATISTICS 670

Prerequisite: 570. Statistical issues and methods for biological, medical and health sciences, including: clinical trials, equivalence studies, genomics, comparative effectiveness studies, survival analysis, and bioassay. Computer applications.

RESPONSE SURFACE METHODOLOGY 675

Prerequisite: Appropriate background is two semesters of applied statistics or equivalent. First and second order response designs, efficient experimental plans, methods for the analysis, and optimization of response functions.

ADVANCED TOPICS IN STATISTICS 689

(May be repeated for a total of six credits) Prerequisite: 651. Selected topics in statistics includ-ing concepts in order, statistics, advanced inference, sequential analysis, stochastic process-es, reliability theory, Bayesian statistics and regression.

STATISTICS MASTERS PAPER

(May be repeated) Prerequisite: permission of adviser. Supervised writing of paper for Mas-ters of Science in Statistics Nonthesis Option. No more than two credits apply to major requirements.

695

PRACTICUM IN STATISTICS AND MATHEMATICS 1-3 credits Prerequisite: graduate teaching assistant or permission. Training and experience in college teaching of statistics. May not be used to meet degree requirements. Credit/noncredit.

697 INDIVIDUAL READING

3 credits

1-3 credits

(May be repeated for a total of four credits) Prerequisites: graduate standing and permission. Directed studies in statistics under guidance of selected faculty member.

- MASTER'S RESEARCH 1-6 credits (May be repeated) Prerequisite: permission of advisor. Research in suitable topics in statistics culminating in a research paper. No more than 2 credits applicable to major requirements.
- MASTER'S THESIS 2 credits 699 (May be repeated for a total of 4 credits) Prerequisite: Permission. Property qualified candi-dates for master's degree may obtain 2-4 credits for research experience which culminates in presentation of faculty-supervised thesis.

ENGINEERING APPLIED MATHEMATICS

- ADVANCED SEMINAR IN APPLIED MATHEMATICS 790 1-4 credits Prerequisite: Permission. (May be repeated for a total of 12 credits.) For students seeking graduate degrees in Applied Mathematics. Advanced projects and studies in various areas of applied mathematics
- PRELIMINARY RESEARCH 898 1-15 credits Prerequisite: Permission. (May be repeated.) Completion of qualifying examination and approval of Student Advisory Committee. Preliminary investigation of Ph.D. dissertation topic.
- DOCTORAL DISSERTATION 899 1-15 credits Prerequisite: Permission. (May be repeated.) Completion of Candidacy examination and approval of Student Advisory Committee. Original research by a Ph.D. candidate.

MODERN LANGUAGES

THE GENERAL DESGINATION OF 3500 IS USED FOR LANGUAGES THAT DO NOT HAVE A SPECIFIC DEPARTMENT NUMBER

WORKSHOP 590

- Prerequisite: Graduate status or permission of department. (May be repeated for a maximum of eight credits) Group studies of special topics in modern languages.
- INDIVIDUAL READINGS IN MODERN LANGUAGES Prerequisite: Graduate status or permission of instructor and department chair. (May be repeated with departmental permission) Individual study under the guidance of professor who directs and coordinates student's reading and research.

ARABIC

522 SPECIAL TOPICS IN ARABIC 1-4 credits Prerequisite: Graduate status, permission of instructor and department chair. Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. Conducted in Arabic. May be repeated once with different topic for a total of other courses. eight credits.

INDIVIDUAL READING IN ARABIC

1-4 credits Prerequisite: Graduate status, permission of instructor and department chair. Individual study under the guidance of a professor. May be repeated with departmental permission for a total of eight credits.

CHINESE

522 SPECIAL TOPICS IN LANGUAGE, SKILLS, OR CULTURE OR LITERATURE 1-4 credits Prerequisite: Graduate status, permission of instructor and department chair. Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. May be repeated once with different topic for a total of eight credits.

INDIVIDUAL READING IN CHINESE 597

1-4 credits Prerequisite: Graduate status, permission of instructor and department chair. Individual study under the guidance of a professor who directs and coordinates student's reading and research. May be repeated with departmental permission for a total of eight credits.

LATIN

597,8LATIN READING AND RESEARCH 3 credits each Prerequisite: Graduate status or permission of department. General Latin epigraphy, prose composition or philology; mumismatics or certain other archaeological topics may be offered. May be repeated for credit with change of subject.

FRENCH

- 502 ADVANCED FRENCH GRAMMAR 3 credits Prerequisite: Graduate status or permission of department. Advanced study of normative French grammar with emphasis on syntax, morphology, grammatical structure and phonetic principles
- 513 FRENCH CINEMA 3 credits Prerequisite: Graduate status or permission of department. Study and discussion of various aspects of French culture and civilization as characterized in movies.
- SPECIAL TOPICS IN ADVANCED LANGUAGE SKILLS OR CULTURE OR LITERATURE 522 1-4 credits Prerequisite: Graduate status or permission of department. (May be repeated.) Development of specialized language skills or reading of significant works of literature or culture not studied in other courses.
- 20TH CENTURY FRENCH LITERATURE 527 4 credits Prerequisite: Graduate status or permission of department. Reading and discussion of the most representative works of period. Conducted in French.
- CONTEMPORARY QUEBEC 3 credits 530 Historical, political, sociological, and cultural overviews of Quebec, offering an in-depth exam-ination of questions of identity through the study of literature and popular culture.
- FRANCOPHONE LITERATURE 3 credits 531 The problematics of identity (race, class) in a postcolonial context, studied through literary texts by authors from Africa, Caribbean, and Quebec.
- SELECTED THEMES IN FRENCH LITERATURE 560 3 credits (May be repeated.) Conducted in French. Prerequisite: Graduate status or permission of department. Reading and discussion of literary works selected according to an important

597.8INDIVIDUAL READING IN FRENCH 1-4 credits Prerequisites: Graduate status or permission of department. Individual reading in French, offered at the graduate level. (May be repeated for a total of eight credits.)

3500:

3501:

3502:

3510:

3520:

1-2 credits

3490:

1-4 credits

112 The University of Akron 2013-2014

697,8INDIVIDUAL READING AND RESEARCH IN FRENCH

Prerequisites: Graduate status or permission of department. Independent study and research in specific areas. Considerable reading and writing required.

GERMAN 3530:

1-4 credits 597,8INDIVIDUAL READING IN GERMAN Prerequisites: Graduate status or permission of department. Individual reading in German, offered at the graduate level. (May be repeated for a total of eight credits.)

ITALIAN

INDIVIDUAL READING IN ITAL IAN 1-4 credits 597 Prerequisites: Graduate status or permission of department. Individual study under guidance of professor who directs and coordinates student's reading and research.

SPANISH

3580:

3550:

1-4 credits each

- 503 ADVANCED GRAMMAR 3 credits Prerequisites: Graduate status or permission of department. Advanced study of Spanish syn-tax and grammatical analysis. Does not count toward the M.A. in Spanish. Conducted in Spanish
- INTRODUCTION TO SPANISH LINGUISTICS 4 credits Prerequisites: Graduate status or permission of department. This course provides a detailed overview of the structure of Spanish and areas of inquiry within linguistics: phonetics, phonol-ogy, morphology, syntax, semantics, and applied fields. 504
- SPANISH LINGUISTICS; PHONOLOGY 4 credits Prerequisites: Graduate status or permission of department. Descriptive study of Spanish phoal accents and sociolinguistic variation. Conducted in Spanish.

SPANISH LINGUISTICS: SYNTAX 506 4 credits Prerequisites: Graduate status or permission of department. Descriptive study of Spanish syn-tax; introduction to theories of grammar; overview of Spanish semantics and pragmatics. Conducted in Spanish.

- SURVEY OF HISPANIC LITERATURE: SPAIN 4 credits Prerequisites: Graduate status or permission of department. Historical overview of represen-507 4 credits tative works and literary movements in Spain. Does not count toward M.A. in Spanish. Conducted in Spanish
- SURVEY OF HISPANIC LITERATURE: SPANISH AMERICA 4 credits 508 Prerequisites: Graduate status or permission of department. Historical overview of represen-tative works and literary movements in Spanish America. Does not count toward M.A. in Spanish. Conducted in Spanish.
- 509 CULTURAL MANIFESTATION IN MEDIEVAL AND RENAISSANCE SPAIN 4 credits Prerequisite: Graduate status or permission of department. Comparative study of representa-tive artistic and literary works of the Medieval and Renaissance periods. Conducted in Spanich
- SPANISH APPLIED LINGUISTICS 510 4 credits Prerequisite: Graduate status or permission of department. This course discusses current the-ories of second language acquisition and their implications for the learning of problematic Spanish structures.
- SPAIN DURING THE BAROQUE PERIOD 511 4 credits Prerequisite: Graduate status or permission of department. A comparative study of the differ-ent cultural manifestations during the 17th century in Spain. Conducted in Spanish.
- CERVANTES: DON QUILIOTE 512 4 credits Prerequisite: Graduate status or permission of department. Reading and analysis of Don Quijote as the first modern novel in the historical context of Renaissance and Baroque esthetics. Conducted in Spanish.
- THE DON JUAN MYTH IN SPANISH CULTURE 513 1 credits Prerequisite: Graduate status or permission of department. Study of the evolution of the Don Juan myth from its origins to its latest versions in the 20th century.
- CULTURAL POLITICS IN THE RIVER PLATE 514 4 credits Prerequisite: Graduate status or permission of department. This course will examine the mili-tary dictatorships of the seventies and eighties in Argentina and Uruguay by looking at how these regimes affect culture.
- 516 **REPRESENTING REALITY IN 19TH CENTURY SPAIN** 4 credits Prerequisite: Graduate status or permission of department. A comparative study of the major literary and artistic movements in Spain from Realism to Modernism. Conducted in Spanish.
- 20TH CENTURY SPAIN: THE AVANT-GARDE IN LITERATURE AND ART 4 credits Prerequisite: Graduate status or permission of department. A comparative study of the major literary and artistic movements in Spain which illustrate the primary cultural changes of the 518 century. Conducted in Spanish.
- THE SPANISH CIVIL WAR AND ITS CULTURAL IMPACT 519 4 credits equisite: Graduate status or permission of department. Study of the impact of the Civil War on Spanish culture.
- SPECIAL TOPICS IN SPECIALIZED LANGUAGE SKILLS OR CULTURE OR LITERATURE

1-4 credits Prerequisite: Graduate status or permission of department. (May be repeated.) Development of specialized language skills or reading of significant works of literature or culture not studied in other courses.

- 20TH CENTURY SPANISH-AMERICAN NOVEL 525 4 credits Prerequisite: Graduate status or permission of department. Reading and discussion of repre-sentative contemporary Latin American novels. Conducted in Spanish.
- LATINO CULTURES IN THE USA 527 4 credits Prerequisites: Graduate status or permission of department. Inquiry into the Latino experience of displacement and marginality through the analysis of cultural manifestations in the USA. Conducted in Spanish.
- WOMEN IN 20TH CENTURY HISPANIC LITERATURE 530 4 credits Prerequisite: Graduate status or permission of department. Reading and analysis of selected works from the 20th Century that depict women in Hispanic countries. Methodologies of feminist criticism will be studied. Conducted in Spanish.

HISPANIC CULTURE: SPAIN 531

4 credits Prerequisite: Graduate status or permission of department. Study of society, customs, history, art, music, etc. of Spain, from a Hispanic perspective. Does not count toward the MA in Spanish. Conducted in Spanish.

532 HISPANIC CULTURE: SPANISH AMERICA

4 credits Prerequisites: Graduate status or permission of department. Overview and historical survey of Spanish American civilization and culture. Does not count toward the M.A. in Spanish. Conducted in Spanish.

- 661 SPANISH TEACHING PRACTICUM 2 credits Prerequisite: Graduate status or permission of department. Orientation and practice of partic-ular aspects of teaching Spanish language and culture. Student teaching experiences are peri-odically reviewed and evaluated. These credits may not be applied toward degree requirements.
- 697,8INDIVIDUAL READINGS IN SPANISH 1-4 credits each Content of given individual reading program taken from course contests approved for gradu-ate work in Spanish.

PHILOSOPHY 3600:

- PLATO 511 3 credits Prerequisite: Permission of instructor. Detailed study of the origin and development Theory of Forms and the related theories of knowledge, ethics, and politics. of Plato's AQUINAS
- 3 credits Prerequisite: Permission of instructor. An in depth examination of the philosophy of St. Thomas Aquinas covering his contributions in metaphysics, epistemology, ethics, political theory, and philosophical theology. 515 AUGUSTINE 3 credits Prerequisite: Permission of instructor. An in depth examination of the philosophy of St. Augus-
- tine covering his contributions in metaphysics, epistemology, ethics, political theory, and philo-sophical theology.
- 20TH CENTURY ANALYTIC PHILOSOPHY 3 credits Prerequisite: Permission of instructor. Study of ideal and ordinary language movements in 20th Century British and American philosophy. Deals with such figures as Russell, Carnap, Ayer, Moore, Wittgenstein, Ryle and Austen.
- PHILOSOPHY OF LAW 3 credits Prerequisite: Permission of instructor. Identification and critical evaluation of classic and contemporary theories and assumptions of law, including legal reasoning, justice, natural law, punishment, etc
- 524 EXISTENTIALISM 3 credits Prerequisites: Permission of instructor. In-depth inquiry into the thought of Kierkegaard, Jaspers, Heidegger, Sartre, Tillich and other existentialists with their concern for the human condition
- PHENOMENOLOGY 526 3 credits Prerequisities: Permission of instructor. Inquiry into methodology of Husserl and Heidegger and their influence upon Western European and American thought.
- 532 ARISTOTLE Prerequisite: Permission of instructor. Detailed study of Aristotle's metaphysics, philosophy of nature, philosophy of mankind and ethics.
- 534 KANT 3 credits Prerequisite: Permission of instructor. Study of Kantian system of thought and its relation to history of philosophy. Includes thorough investigation of one or more of Kant's philosophical works
- 555 PHILOSOPHY OF FEMINISM 3 credits Prerequisite: Permission of instructor. Study of feminist critiques of, and alternatives to, traditional western philosophy, including topics in ethics, metaphysics, epistemology, and religion.
- NEUROETHICS 561 3 credits Prerequisite: Permission of instructor. Discussion and evaluation of contemporary theories of moral agency arising from developments in neuroscience.
- THEORY OF KNOWLEDGE 562 3 credits Prerequisite: Permission of instructor. Examination of nature of knowledge; theories of per-ception, conception and truth, problem of induction and relation of language to knowledge.
- PHILOSOPHY OF SCIENCE 3 credits Prerequisites: Permission of instructor. Nature of scientific inquiry, types of explanations, laws and causality, theoretical concepts and reality. Also considers critics of hypothetical-deductive view of science, e.g., Hanson and Kuhn.
- 571 METAPHYSICS 3 credits Prerequisite: Permission of instructor. Theories about ultimate nature and ultimate explanation of reality. Uses readings from classical and contemporary sources.
- 580 SEMINAR 3 credits (May be repeated with change of topic) Prerequisite: Permission of instructor. Varying philo-sophical topics not covered in regular course offerings.
- PHILOSOPHY OF LANGUAGE 3 credits Prerequisites: Permission of instructor. Contemporary philosophies about nature of language and its relation to reality and human thinking. Includes discussion of views of linguists such as Chomsky.
- 665 ETHICS OF SCIENCE 3 credits Examination of the foundational issues surrounding ethics and science as well as consideration of applied ethical issues of scientists, science, new technologies, and society

PHYSICS

- 3650:
- 501 EVERYDAY PHYSICS 4 credits Prerequisite: Admission to the physics master's program or permission. College-level physics content for future teachers. Inquiry, discovery, activities, discussion, and experimental learning takes place in a laboratory/embedded-lecture environment.
- PHYSICAL OPTICS Prerequisite: Admission to the physics master's program or permission. Propagation, reflection, and refraction of electromagnetic waves, superposition, polarization, interference and interferemetry, Fresnel and Fraunhofer diffraction, Fourier optics, coherence theory, and quantum optics.
- 531 MECHANICS I 3 credits Prerequisites: Admission to the physics master's program or permission. Mechanics at inter-mediate level. Newtonian mechanics, motion of a particle in one dimension, central field prob-lem, system of particles, conservation laws, rigid bodies, gravitation.
- MECHANICS II 532 3 credits Prerequisite: Admission to the physics master's program or permission. Advanced mechanics at the senior or beginning graduate level, moving coordinate systems, mechanics of continuous media. Lagrange's equations, tensor algebra and stress analysis, rotation or rigid bodies, vibration theory.

536 ELECTROMAGNETISM I 3 credits Prerequisites: Admission to the physics master's program or permission. Electricity and mag-netism at intermediate level. Electrostatics and magnetostatics, electric field, scalar potential, dielectrics, Laplace's and Poisson's equations, current, magnetic field, vector potential, mag-netic materials, inductance. 3 credits

537 ELECTROMAGNETISM II

Prerequisite: Admission to the physics master's program or permission. Special relativity, four vectors, Maxwell's equations in covariant form; propagation, reflection and refraction of electromagnetic waves; multipole radiation.

541 QUANTUM PHYSICS I

Prerequisites: Admission to the physics master's program or permission. Introduction to quan-tum theory, Schrodinger equation, observables, angular momentum, perturbation theory, varia-tional principle, bound states, scattering theory, radiative interactions, spin and the Pauli Principle.

3 credits

1-4 credits

1 credit

3 credits

- QUANTUM PHYSICS II 542 3 credits Prerequisite: Admission to the physics master's program or permission. Applications of quan-tum mechanics to atomic, nuclear and solid state physics. Tunneling and alpha decay, peri-odic potential, Hydrogen and Helium atoms, interatomic forces, quantum statistics.
- ADVANCED LABORATORY I 551 3 credits Prerequisite: Admission to the physics master's program or permission. Experimental tech-niques applicable to research-type projects in contemporary physics. FT-IR spectroscopy, opti-cal spectroscopy, lasers, SPM, and thin-film growth and characterization.

ADVANCED LABORATORY II 552

3 credits Prerequisite: Admission to the physics master's program or permission. Experimental projects applicable to contemporary physics. Diode and dye lasers, laser feedback, chaos, NMR, electron tunneling, and fiber optics.

TECHNIQUES OF PHYSICS INSTRUCTION 556 1 credit Prerequisite: Admission to the physics master's program or permission. Teaching assistants are introduced to current research in learning physics, shown applications for their labroom, and trained in skills needed as a laboratory teaching assistant.

INTRODUCTION TO SOLID-STATE PHYSICS 570 3 credits Prerequisite: Admission to the physics master's program or permission. Account of basic physical processes occurring in solids, with emphasis on fundamental relation between these processes and periodicity of crystalline lattice.

581,2METHODS OF MATHEMATICAL PHYSICS I AND II

Prerequisites: Admission to the physics master's program or permission. Vectors, generalized coordinates, tensors, calculus of variations, vector spaces, linear transformations, matrices, eigenvalues, Hilbert space, boundary value problems, transcendental functions, complex variables, analytic functions, Green's functions, integral equations.

SELECTED TOPICS: PHYSICS 588

1-4 credits (May be repeated) Prerequisite: Admission to the physics master's program or permission. Consideration of selected topics, procedures, techniques, materials or apparatus of current interest in physics.

WORKSHOP 590

(May be repeated.) Prerequisite: Admission to the physics master's program or permission. Further investigations of various selected topics in physics, under guidance of faculty member. INDEPENDENT STUDY 597

1-4 credits (May be repeated.) Prerequisite: Admission to the physics master's program or permission. Further investigations of various selected topics in physics, under guidance of faculty member.

PHYSICS COLLOQUIUM 598

Prerequisite: Admission to the physics master's program or permissionLectures on current research topics in physics by invited speakers. May be repeated, but only one credit counts toward M.S. degree. Credit/Noncredit.

- COMPUTER PHYSICS: NUMERICAL SOLUTIONS TO PHYSICS PROBLEMS I 3 credits Prerequisite: Admission to the physics master's program or permission. Review of FORTRAN and basic topics in computer science. Numerical solutions to physics problems, including Newton's and Schrodinger's equations. Treatment and reduction of experimental data, plot-605 ting, simulation.
- COMPUTER PHYSICS: NUMERICAL SOLUTIONS TO PHYSICS PROBLEMS II 3 credits 606 Prerequisite: Admission to the physics master's program or permission. Data reduction, Cal-comp plotting, comparison of theoretical models with data, linear and non-linear least squares curve-fitting. May accommodate scientific problems of individual interest.

SURFACE PHYSICS 610

3 credits Prerequisite: Admission to the physics master's program or permission. An interdisciplinary course stressing the fundamentals and applications of physics at surfaces, including corrosion, catalysis, adhesion, and tribology.

ELECTROMAGNETIC THEORY I 615

3 credits Prerequisite: Admission to the physics master's program or permission. Electrostatics and magnetostatics at advanced level for graduate students, boundary value problems, dielectrics, multipole expansions, time-varying fields, Maxwell's equations and electromagnetic waves, reflection, refraction, wave guides and cavities.

616 ELECTROMAGNETIC THEORY II

3 credits Prerequisite: Admission to the physics master's program or permission. Scattering and dif-fraction, plasma physics, special theory of relativity, dynamics of relativistic particles in fields, collisions of charged particles, radiation from moving charges, bremsstrahlung, multipole fields

625 QUANTUM MECHANICS I

3 credits Prerequisites: Admission to the physics master's program or permission. Basic concepts of quantum mechanics, representation theory, particle in a central field, addition of angular momenta and spins, Clebsch-Gordon coefficients, perturbation theory, scattering, transition probabilities

626

QUANTUM MECHANICS II 3 credits Prerequisite: Admission to the physics master's program or permission. Foundations of relativistic quantum mechanics. Klein-Gordon and Dirac equations, spin-zero and spin-1/2 parti-cles in electromagnetic field, second quantization of bosons and fermions, superfluidity and super conductivity.

LAGRANGIAN MECHANICS 641

3 credits Prerequisite: Admission to the physics master's program or permission. Principle of least action and Lagrangian equation of motion, conservation laws, integration of equation of motion, collisions, small oscillations, Hamilton's equations, canonical transformations.

STATISTICAL MECHANICS 3 credits Prerequisite: Admission to the physics master's program or permission. Fundamental princi-ples of statistical mechanics, Gibbs, Fermi and Bose Statistics, solids, liquids, gases, phase equilibrium, chemical reactions.

CRITICAL PHENOMENA AND PHASE TRANSITIONS

Prerequisites: Admission to the physics master's program or permission. Modern theory of crit-ical phenomena. Landau theory. Spin systems, binary mixtures, polymers and liquid crystals. Multicomponent systems. Multicritical points. Renormalization. Epsilon-expansions of critical exponents.

SOLID-STATE PHYSICS I 685

Prerequisites: Admission to the physics master's program or permission. Theory of physics of crystalline solids. Properties of reciprocal lattice and Bloch's theorem. Lattice dynamics and specific heat. Electron states; cellular method, tight-binding method, Green's function method. 3 credits

SOLID-STATE PHYSICS II

Prerequisite: Admission to the physics master's program or permission. Orthogonalized plane and pseudo potentials. Electron-electron interaction; screening by impurities. Friedel sum rule and plasma oscillations. Dynamics of electrons, transport properties and Fermi surface.

- 689 SPECIAL PROBLEMS IN THEORETICAL PHYSICS 1-3 credits (May be repeated.) Prerequisite: Admission to the physics master's program or permission. Intended to facilitate expansion of particular areas of interest in theoretical physics, by consultation with faculty member and independent study beyond available course work
- SEMINAR IN THEORETICAL PHYSICS 691 1-3 credits (May be repeated.) Prerequisite: Admission to the physics master's program or permission.
- 697 GRADUATE RESEARCH 1-5 credits Prerequisite: Admission to the physics master's program or permission. Candidates for M.S. degree may obtain up to five credits for faculty supervised research projects. Grades and credit received at completion of such projects.
- SPECIAL TOPICS: PHYSICS 698 1-4 credits Prerequisite: Admission to the physics master's program or permission. Enables student who needs information in special areas, in which no formal course is offered, to acquire knowledge in these areas.
- MASTER'S THESIS 699 1 credit Prerequisite: Admission to the physics master's program or permission. With approval of department, one credit may be earned by candidate for M.S. degree upon satisfactory completion of a master's thesis

879 DOCTORAL RESEARCH 1-15 credits (May be repeated.) Prerequisite: approval of the Student Advisory Committee for Ph.D. research in physics, physical chemistry, polymer science, applied mathematics or electrical engineering. Original research by a Ph.D. candidate in various disciplines under the guidance of physics faculty.

POLITICAL SCIENCE 3700:

- POLITICAL EXTREMISM AND VIOLENCE 500 3 credits This course examines the causes and consequences of political extremism and political violence in democracies and failed democracies.
- POLITICS AND THE MEDIA 3 credits Examination of relationships between the press, the news media and political decision makers
- 503 MEDIA, CRIME, AND PUBLIC OPINION 3 credits Examines the social construction of crime in mass media and how it impacts public opinion, including fear of crime, beliefs about crime causation, and crime policy.
- INTERNATIONAL SECURITY POLICY 3 credits Introduction to political uses of military forces. Major focus on methodological, conceptual, and ethical dilemmas confronted in developing and implementing defense policy.
- GLOBAL PUBLIC HEALTH THREATS 3 credits An introduction to comparative global biological and public health security policy. Topics include: infectious disease outbreaks, bioterrorism, and potential "nano-terrorism." 513
- WEALTH AND POWER AMONG NATIONS 514 3 credits Studies relationship between politics and economy; mesh theoretical perspectives with explo-ration of the key empirical issues. Topics include: trade, relations, unions, finance, development, aid, sanctions.
- UNDERSTANDING RACIAL AND GENDER CONFLICT 3 credits This is the core course for the Certificates in Racial and Gender Conflict, providing students with an opportunity to intensively examine racial and gender conflict.
- GOVERNMENT VERSUS ORGANIZED CRIME 537 3 credits The course gives a history of organized crime and the government's responses to fight it. Newly emerging international crime groups are also discussed.
- SURVEY RESEARCH METHODS 540 3 credits Study of the survey research methods as applied to the analysis of public opinion, political behav-ior and public policy formation.
- THE POLICY PROCESS 541 3 credits Intensive study of policy-making process, emphasizing roles of various participants in execu-tive and legislative branches as well as private individuals and groups.
- 542 METHODS OF POLICY ANALYSIS 3 credits Examines variety of methods available for analyzing public policies. Techniques of cost bene-fit analysis, evaluation research quasi-experimentation are covered as well as consideration of ethical questions in policy analysis, the practical problems facing policy analysts.
- 543 POLITICAL SCANDALS AND CORRUPTION 3 credits 3 creatis This course will provide information on major political scandals, including media coverage, public opinion, the role of special prosecutors, and the impacts of scandals.
- AL QAEDA 3 credits 545 This course explores the causes and consequences of Al Qaeda's terrorism. Students will weigh different explanations for why individuals join and participate in terrorist groups.
- INTELLIGENCE AND COUNTERTERRORISM 546 3 credits The aim of this class is to familiarize students with intelligence and counterterrorism. It exam-ines the politics of intelligence in the United States and other countries.
- ADMINISTERING PRISONS, PROBATION, AND PAROLE 3 credits This course examines the political dynamics of correctional institutions' governance and inter-nal power relations, electoral politics' and correctional policies, and political imprisonment. 550
- THE SUPREME COURT AND CONSTITUTIONAL LAW 561 3 credits Interpretation of the Constitution by the Supreme Court with emphasis on federal judicial, leg-islative and executive power; separation of powers; and federalism.
- THE SUPREME COURT AND CIVIL LIBERTIES 3 credits Interpretation of the Constitution by the Supreme Court with emphasis on freedom of speech and press, freedom of religion, criminal rights and right to privacy. 562
- HUMAN RIGHTS IN WORLD POLITICS 563 3 credits An introduction to human rights from a comparative perspective; topics include: definition and development of human rights with attention paid to government interaction and wartime. 570
 - CAMPAIGN MANAGEMENT I Reading, research and practice in campaign management. 3 credits
- CAMPAIGN MANAGEMENT II 3 credits The second course in campaign management. Focus is on timing, coalition building, candidate positioning, event planning, internal organization, and other elements of campaign strategy.
- 572 CAMPAIGN FINANCE 3 credits Reading and research in financial decision making in political campaigns.
- VOTER CONTACT AND ELECTIONS 3 credits 573 Theoretical and practical approaches to gaining votes in all types of political campaigns.
- POLITICAL OPINION, BEHAVIOR AND ELECTORAL POLITICS
 3 credits

 Advanced analysis of psychological, cultural and group processes of opinion formation and change. Attention given to the effect of opinion change on electoral outcomes.
 3
 574

114 The University of Akron 2013-2014

- 575 AMERICAN INTEREST GROUPS 3 credits Reading and research on the development, structure and function of interest groups in the United States.
- 576 AMERICAN POLITICAL PARTIES 3 credits Prerequisite: six credits of political science or permission. Reading and research on the development, structure and function of parties in the United States.
- 577 LOBBYING
- Examines the lobbying profession in the political process. Topics include theories of lobbying, tools of lobbying, the lobbying process, and types of lobbying.
 580 POLICY PROBLEMS 3 credits

3 credits

- (May be repeated for a total of six credits) Intensive study of selected problems in public policy.
- 581 THE CHALLENGES OF POLICE WORK 3 credits Analysis of various political dimensions underlying the study of politics and policing in the context of police reform, crime, and the community.
- 582 CURRENT ISSUES (CJ TOPIC) 3 credits Study and critical analysis of current issues, programs, and policies relating to political science and criminal justice at the federal or state level.
- 583 CONSTITUTIONAL PROBLEMS IN CRIMINAL JUSTICE 3 credits Analyzes Supreme Court policy-making regarding problems of criminal justice, including search and seizure, self-incrimination, right to counsel, jury selection, and post-appeal prisoner rights.
- 590 WORKSHOP IN POLITICAL SCIENCE 1-3 credits (May be repeated for a total of nine credits). Timely workshops on varying subjects to meet the changing needs of our students in response to new and emerging political issues and controversies.
- 600 SCOPE AND THEORIES OF POLITICAL SCIENCE 3 credits Prerequisite: Admission to a Political Science graduate program or permission. Emphasis on the nature, scope and content of political theory; theory construction and validation in political science.
- 601 RESEARCH METHODS IN POLITICAL SCIENCE 3 credits Prerequisites: 600 or permission. Techniques of quantitative research methodology in political science; utility and limitations of quantitative analysis.
- 603 SCHOLARLY WRITING AND PROFESSIONAL DEVELOPMENT IN POLITICAL SCIENCE 3 credits Prerequisite: Admission to a Political Science graduate program or permission. Course will assist in the development of Essay/Capstone projects: organization, format presentation, edit-
- ing, committee review. Will help polish student writing and presentation skills.
 SEMINAR IN INTERNATIONAL POLITICS 3 credits Prerequisite: Admission to a Political Science graduate program or permission. Analysis of current problems in theory and practice of politics and organization.
- 620
 SEMINAR IN COMPARATIVE POLITICS
 3 credits

 Prerequisites: Admission to a Political Science graduate program or permission. Research selected topics in comparative politics. Comparative method.
 3
- 622 SEMINAR IN ALTERNATIVES TO VIOLENCE AT HOME AND ABROAD 3 credits Prerequisites: Admission to a Political Science graduate program or permission. An interdisciplinary analysis of the nature of violence--from interpersonal to international--to enhance our capacity to reduce violence and other threats to liberty.
- 630 SEMINAR IN NATIONAL POLITICS 3 credits Prerequisites: Admission to a Political Science graduate program or permission. Reading and research on formulation, development and implementation of national policy in one or more areas of contemporary significance.
- 650 SEMINAR ON LAW, PUNISHMENT, AND POLITICS: U.S. AND THE WORLD 3 credits Prerequisites: Admission to a Political Science graduate program or permission. Reading and research on the multiple and contingent interconnections between law, punishment, politics, and power.
- 655 CAMPAIGN AND ELECTION LAW 3 credits Prerequisites: Admission to a Political Science graduate program or permission. Examines the legal environment for political campaigns. Topics include historical background, legal foundation, voting rights, filing requirements, campaign finance, and political advertising.
- 668 SEMINAR IN PUBLIC POLICY AGENDAS AND DECISIONS 3 credits Prerequisities: Admission to a Political Science graduate program or permission. Reading and research on the development of public policy issues and modes of decision making used by policy makers.

672 SEMINAR: POLITICAL INFLUENCE AND ORGANIZATIONS 3 credits Prerequisites: permission. Examination of how public concerns and demands are resolved or diffused. A theoretical and applied look at parties, interest groups, public opinion, media, and protest.

- 690 SPECIAL TOPICS IN POLITICAL SCIENCE 1-3 credits Prerequisites: Admission to a Political Science graduate program or permission. Graduatelevel examination of selected topics in American politics, comparative politics, international politics, international politics or political theory.
- 695 INTERNSHIP IN GOVERNMENT AND POLITICS 3-6 credits (May be repeated for a total of six credits.) Prerequisite: Admission to a Political Science graduate program or permission. Supervised individual placement with political office holders, party groups, governmental agencies, law firms and other organizations providing professional-level work.
- 697 INDEPENDENT RESEARCH AND READINGS 1-4 credits (May be repeated, but no more than six credits toward the master's degree in political science) Prerequisite: Admission to a Political Science graduate program or permission.
- 699
 MASTERS THESIS
 2-6 credits

 Prerequisite: Admission to a Political Science graduate program or permission.
 2-6 credits

PSYCHOLOGY 3750:

- 500 PERSONALITY 4 credits Prerequisite: admission to the Graduate School. Consideration of current conceptualizations of the normal personality with emphasis on methods of measurement, experimental findings and research techniques.
- 510 PSYCHOLOGICAL TESTS AND MEASUREMENTS 4 credits Prerequisite: admission to the Graduate School. Consideration of the nature, construction and use of tests and measurements in industry, government and education. Includes aptitude and achievement tests, rating scales, attitude and opinion analysis.
- 520 ABNORMAL PSYCHOLOGY 4 credits Prerequisite: admission to the Graduate School. Survey of syndromes, etiology, diagnoses and treatments of major psychological conditions ranging from transient maladjustments to psychoses.

- 530 PSYCHOLOGICAL DISORDERS OF CHILDREN 4 credits Prerequisite: admission to the Graduate School. Survey of syndromes, etiologies and treatments of behavioral disorders in children from the standpoint of developmental psychology. Behavioral data and treatment approaches emphasized.
- 543 HUMAN RESOURCE MANAGEMENT 4 credits Prerequisite: admission to the Graduate School. The application of psychological theory to the effective management of human resources in an organization, including recruitment, selection, training and retention of personnel.
- 544 ORGANIZATIONAL THEORY 4 credits Prerequisite: admission to the Graduate School. The application of psychological theory to macro-level processes in organizations including leadership, motivation, task performance, organizational theories and development.
- 545 PSYCHOLOGY OF SMALL GROUP BEHAVIOR 4 credits Prerequisite: admission to the Graduate School. Intensive investigation of factors affecting behavior and performance in small groups including effects of personality, social structures, task, situation and social-cognitive variables.
- 550 COGNITIVE DEVELOPMENT 4 credits Prerequisite: admission to the Graduate School. Theory and research on life-span changes in cognitive processes including concept formation/categorization, information processing and Piagetian assessment tasks.
- 560 HISTORY OF PSYCHOLOGY 3 credits Prerequisite: admission to the Graduate School. Psychology in pre-scientific period and details of developmental or systematic viewpoints in 19th and 20th Centuries.
- 601,2PSYCHOLOGICAL RESEARCH USING QUANTITATIVE AND

COMPUTER METHODS I AND II 4 credits each Sequential prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or special nondegree students with permission. Psychological research problem applying quantitative and computer methods. Topics include research design, sampling, controls, threats to validity, hypotheses testing, psychological measurement, error, robustness and power.

- 610 CORE I: SOCIAL PSYCHOLOGY 2 credits Prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or permission of instructor. Introduction to empirical research and theories on the psychological processes related to interpersonal behavior, focusing on topics like attitude change, social influence, and prosocial behavior.
- 620 CORE II: COGNITIVE PSYCHOLOGY 2 credits Prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or permission of instructor. Survey of theories, concepts, empirical phenomena, and methodologies in human cognitive psychology. Topics include attention, cognitive capacity, learning, memory, categorization, skill acquisition/expertise, and training effectiveness.
- 630 CORE III: INDIVIDUAL DIFFERENCES 2 credits Prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or permission of instructor. Survey of theoretical perspectives on individual differences in personality and behavior and of literature on between- and within-group cultural variables influencing personality development and assessment.
- 640 CORE IV: BIOPSYCHOLOGY 2 credits Prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or permission of instructor. Survey of nervous system structure/function including neuroanatomy, neuron physiology, and synaptic transmission. Also overviews biological bases of learning, memory, consciousness, intelligence, psychopharmacology, behavior genetics.
- 650 CORE V: SOCIAL-COGNITIVE PSYCHOLOGY 2 credits Prerequisite: graduate standing in psychology or the collaborative doctoral program in counseling psychology or permission of instructor. Social and cognitive theory/research applied to the issue of how people understand their social experiences. Topics include: person perception, attribution, social categorization, social inference.
- 660 SCIENCE AND ETHICS OF INDUSTRIAL PSYCHOLOGY 4 credits Survey of Industrial Psychology including coverage of selection and performance management. Also, discusses professional and scientific guidelines regarding the ethics of Industrial Psychology.
- 672 COUNSELING PRACTICUM 4 credits Prerequisites: graduate standing in psychology and permission of instructor. Introduction to and development of therapeutic skills and intervention techniques via instruction, roleplay exercises, and case conference evaluations of actual clinical work samples. (Must be repeated for a total of 8 credits.) Credit/noncredit.
- 673 COUNSELING PRACTICUM LAB 4 credits Prerequisites: graduate standing in psychology, 672, and instructor's permission. Development and application of assessment and intervention skills with clients in the Psychology Department Counseling Clinic, including individual and small group supervision of clinical work. (Must be repeated for a total of 8 credits.) Credit/noncredit.
- 674 PERSONNEL PRACTICUM 1-4 credits (May be repeated.) Prerequisites: 660, graduate standing in psychology, 14 credits of graduate psychology, and permission of the instructor. Supervised field experience in industrial/organizational psychology in settings including business, government or social organizations. The field experience requires the application of industrial/organizational psychological theories and techniques. Credit/noncredit.
- 675 APPLIED COGNITIVE AGING PRACTICUM 1-4 credits (May be repeated.) Prerequisites: 727, graduate standing in psychology, 14 credits of graduate psychology and permission of the instructor. Supervised field experience in applied cognitive aging psychology to provide the student with the opportunity to apply skills and knowledge acquired in the academic setting and to obtain knowledge about community programs and agencies which focus on developmental processes. Credit/noncredit.
- 680 EXTERNAL SPECIAL TOPICS 1-4 credits. (May be repeated for a maximum of 16 credits.) Prerequisite: permission of area chair. Graduate coursework taken at Kent State, Youngstown State, and/or Cleveland State universities to apply toward a UA degree either as a required or an elective course.
- 699 MASTER'S THESIS 1-4 credits (May be repeated.) Prerequisite: permission of the instructor. Research analysis of data and preparation of thesis for master's degree.
- 700 SURVEY OF PROJECTIVE TECHNIQUES 4 credits Prerequisite: 630 or instructor's permission. Introduction to rationale, assumptions and ethics, and research of projective testing. Elementary administration, scoring and interpretation of Rorschach; and survey of other important contemporary projective instruments.
- 701 PSYCHODIAGNOSTICS 4 credits Prerequisite: 700. Application of psychological testing to problems of diagnosis and evaluation. Practical experience in administration, scoring and interpretation. Integration of projective data with other assessment techniques in variety of settings.
- 707 SUPERVISION IN COUNSELING PSYCHOLOGY I 4 credits Prerequisite: doctoral standing or permission of instructor. Instruction and experience in supervising a graduate student in counseling.

- 709 INTRODUCTION TO COUNSELING PSYCHOLOGY 2 credits Prerequisite: graduate standing in the Collaborative Program in Counseling Psychology. Intro-duction to historical foundations of and recent developments in counseling psychology, with an emphasis on contemporary research literature in the field.
- THEORIES OF COUNSELING AND PSYCHOTHERAPY 710 4 credits Prerequisite: 630 or permission of the instructor. Major systems of individual psychotherapy explored within a philosophy of science framework: Freudian, behavioral, Rogerian, cognitive, and other. Includes research, contemporary problems and ethics.
- VOCATIONAL BEHAVIOR 711 4 credits Prerequisite: 630 or permission of instructor. Theories and research on vocational behavior and vocational counseling. Topics include major theories of vocational behavior, empirical research on these theories, applied work in vocational counseling and applied research.
- PRINCIPLES AND PRACTICE OF INDIVIDUAL INTELLIGENCE TESTING 712 4 credits Prerequisites: 630 or graduate standing in school psychology, and instructor's permission. His-tory, principles and methodology of intelligence testing, supervised practice in administration, scoring and interpretation of individual intelligence tests for children and adults.

713

PROFESSIONAL, ETHICAL AND LEGAL ISSUES IN COUNSELING PSYCHOLOGY 4 credits Prerequisite: doctoral standing or permission of the instructor. Examination of major issues in the field such as the counselor as a professional and as a person, and issues, problems and trends in counseling.

- **OBJECTIVE PERSONALITY EVALUATION** 714 4 credits Prerequisites: completion of 630 or 400/500, and 420/520, and 5600:645. Study of the devel-opment, administration, and interpretation of objective instruments for personality assessment (MMPI, CPI, MBTI, 16PF and selected additional inventories).
- RESEARCH DESIGN IN COUNSELING I 715 3 credits Prerequisite: doctoral standing or permission of the instructor. Study of research designs, eval-uation procedures, and review of current research.
- ISSUES OF DIVERSITY IN COUNSELING PSYCHOLOGY 4 credits Prerequisites: 630; one semester of practicum work. Critical examination and application of research and theory in counseling diverse populations, focusing on race/ethnicity, sex/gender, sexual orientation, age, disability, and spirituality. 717
- 718 HISTORY AND SYSTEMS IN PSYCHOLOGY 2 credits Prerequisite: 630. Philosophical and scientific antecedents of psychology and details of the development of systematic viewpoints in the 19th and 20th centuries.
- PSYCHOLOGY OF ADULTHOOD AND AGING 727 4 credits Perequisite: graduate standing in psychology or in the collaborative program in counseling psychology or permission of the instructor. Aspects of development, aging with emphasis on life-span methodology and research design. Age-related changes in intelligence, personality sensation, perception, learning, memory, and socialization and intervention approaches.
- PERCEPTION. ATTENTION. AND AGING 731 4 credits Percequisites: graduate standing in adult development and aging program or permission of instructor. Overview of theory, methods, and data on attention and perception and how aging affects these phenomena.
- COGNITION AND AGING 732
- Prerequisites: graduate standing in psychology or permission of instructor. Survey of selected topics in cognitive aging including memory, problem-solving, decision-making, and expertise.

4 credits

APPLIED COGNITIVE AGING PSYCHOLOGY: COGNITIVE NEUROPSYCHOLOGY 735

4 credits Prerequisite 640 or instructor's permission. An advanced course that acquaints graduate stu-dents with the most recent literature in cognitive neuropsychology within the context of aging research.

736 PSYCHOPHARMACOLOGY AND ADULTHOOD

Prerequisite: 640. Pharmacology addresses a diverse range of drugs that act in the brain. Drug mechanisms are discussed in the context of emotional, cognitive, and behavioral effects.

- APPLIED DEVELOPMENTAL PSYCHOLOGY 738 4 credits Prerequisites: 727, graduate standing in psychology, or permission of instructor. Examination of methodologies, evaluation, child abuse, early intervention, day care, kibbutzim, social net-works, subcultural variations, and hospice/dying.
- INDUSTRIAL GERONTOLOGY 740 4 credits Prerequisites: 660, graduate standing in psychology, or permission of instructor. Study of age-related issues in work involving adult and older adult workers. Topics include personnel selection, training, motivating and appraising older employees; health and safety; job design, vocational guidance; and retirement.
- ADVANCED PSYCHOLOGICAL TESTS AND MEASUREMENTS 2 credits Prerequisite; graduate standing in psychology or in the collaborative program in counseling psychology or permission of the instructor. Analysis of test construction techniques. Statistical analyses of tests with review of published tests and measurements used in psychology. Study of psychometric theory and principles. 750
- ORGANIZATIONAL PSYCHOLOGY 4 credits Prerequisites: 660, graduate standing in psychology, or permission of the instructor. Applies the general systems theory framework to the study of the relationships between organization-al characteristics and human behavior, the internal processes of organizations, and the rela-tionships between organizations and their environment.
- 752 PERSONNEL SELECTION AND ADVANCED APPLIED TESTING ISSUES 4 credits Review of strategies employed by industrial/organizational psychologists for personnel selec-tion, placement and promotion. Includes discussion of advanced testing issues.
- TRAINING 753 2 credits Prerequisites: 660, graduate standing in psychology, or permission of the instructor. Review of industrial training methods and programs in terms of various theoretical orientations, as well as consideration of techniques to evaluate these programs.
- Prerequisites: 660, graduate standing in psychology or permission of instructor. Scientific method and its specific application to psychology. Topics include data collection, validity, reliability, use of general linear model and its alternatives and power analysis. RESEARCH METHODS IN PSYCHOLOGY 754
- COMPUTER APPLICATIONS IN PSYCHOLOGICAL RESEARCH 755 4 credits Prerequisite: graduate standing in psychology or permission of instructor. Practicum in appli-cation of computers to psychological research including data collection, analysis and interpre-tation. Also covers computer simulation of decision making including use of different models.
- ROLE OF ATTITUDES AND VALUES IN INDUSTRIAL/ ORGANIZATIONAL PSYCHOLOGY 4 credits Prerequisites: 660, graduate standing in psychology, or permission of the instructor. Consid-eration of the role of attitudes and values in the prediction of behavior including consumer psy-chology, explaining attitude changes, measurement of attitudes and the use of survey methodology. 756

ORGANIZATIONAL MOTIVATION AND LEADERSHIP 757

- 4 credits Prerequisites: 660, graduate standing in psychology, or permission of instructor. Survey of the ories of motivation specifying both the intrinsic and extrinsic determinants of worker motivation. The leadership process and its relation to motivation, group performance and attributions is also analyzed.
- JOB EVALUATION AND EQUAL PAY 759 4 credits

JOB EVALUATION AND EQUAL PAT Prerequisite: 660. Major job evaluation systems will be reviewed and critiqued. Issues such as minimum qualifications for a job will be reviewed. Advantages and disadvantages of various job evaluation systems will be compared. Issues concerning federal regulation including the Equal Pay Act, comparable worth and other issues will be discussed. Regression approaches to job evaluation and applicable court cases will be reviewed.

- ORGANIZATIONAL CHANGE AND TRANSFORMATION 760 4 credits Prerequisities: 660 or permission of instructor. Survey of theories and introduction to practical methods of organizational change and transformation used to increase organizational effectiveness and improve employee quality of work life.
 - INFORMATION PROCESSING AND INDUSTRIAL/
 INFORMATION FROCESSing and integer and inte
- 762
 PERSONNEL PSYCHOLOGY AND THE LAW
 4 credits

 Prerequisite: 660. Issues in personnel psychology which have legal implications are reviewed.
 The impact of recent court decisions are evaluated in staffing and compensation.
 4 credits
- PERFORMANCE FEEDBACK AND EVALUATION 4 credits Prerequisite: 660, graduate standing in psychology, or permission of instructor. Examines cur-rent research and practice in the area of performance appraisal. Topics will include: criterion development, rater training, appraisal effectiveness, feedback processes, and performance 763 measurement.
- COGNITIVE ASSESSMENT 2 credits Prerequisite: 750 and enrollment in the Collaborative Program in Counseling Psychology or instructor permission. History, principles, and methodology of cognitive assessment, super-vised practice in administration, scoring, and interpretation of individual intelligence tests for bilden and dulle. children and adults.
- OBJECTIVE PERSONALITY ASSESSMENT
 2 credits

 Prerequisite:
 750. Study of the development, administration, and interpretation of objective measures of personality assessment (MMPI, PAI, and selected additional inventories).
 765
- 766 APPLICATIONS OF ASSESSMENT 2 credits Prerequisite: 764 and 765. Corequisite: 777. Study of integrative report writing and other applications of assessment.
- GRADUATE SEMINAR IN PSYCHOLOGY 1-4 credits (May be repeated.) Prerequisites: graduate standing in psychology and permission of the 780 instructor. Special topics in psychology.
- ADVANCED COUNSELING PRACTICUM 4 credits (May be repeated.) Prerequisites: 671, 672, 673 and permission of instructor. This course pro-vides graduate students in counseling with actual client contacts and supervisory experiences under faculty supervision. Credit/noncredit. 795
- COUNSELING PSYCHOLOGY PRACTICUM 4 credits (May be repeated.) Prerequisite: 795 (eight hours) or 5600:675 (five hours). Advanced coun-seling psychology students will have supervised training with clients in a variety of settings and will focus on supervised development of specialized theoretical applications. Credit/noncredit.
- INDEPENDENT READING AND/OR RESEARCH 1-3 credits (May be repeated.) Prerequisite: permission of the instructor. Individual readings and/or research on a topic under supervision of faculty member with whom specific arrangements have been made.
- 899 DOCTORAL DISSERTATION 1-12 credits Prerequisite: open to properly qualified students. Required minimum 12 credits; maximum sub-ject to departmental approval. Supervised research on topic deemed suitable by the disserta-tion committee. 1-12 credits

SOCIOLOGY

510 SOCIAL STRUCTURES AND PERSONALITY 3 credits Interrelationships between position in society, personality characteristics. Personality treated as both result and determinant of social structure and process. Lecture.

- SOCIAL INTERACTION 511 3 credits Intensive study of advanced theory and research in social psychology, particularly how social interaction and self-conception affect one another. Lecture.
- 512 SOCIALIZATION: CHILD TO ADULT 3 credits Theoretical and empirical analyses of process by which infant, child, adolescent and adult learn social and cultural requirements necessary to function in new roles, changing roles and society in general
- RACIAL AND ETHNIC RELATIONS 3 credits Analysis of structure and dynamics of race and ethnic relations from a variety of perspectives 521 emphasizing both historical and contemporary issues. Lecture.
- SOCIOLOGY OF URBAN LIFE 525 3 credits Emergence and development of urban society. Examination of urban social structure from neighborhood metropolis, the problems and prospects. Emphasis on various life styles of urban subcultures. Lecture/discussion.
- THE VICTIM IN SOCIETY 528 3 credits Study of the nature, causes, and consequences of victimization with special focus on crime victimization.
- JUVENILE DELINQUENCY 530 3 credits Analysis of social structure and process from which delinquency develops. Emphasis on current and past research. Lecture/discussion.
- 3 credits 531 CORRECTIONS Theories, beliefs and practices of community and institutional corrections systems, including past and current social research. Course taken prior to 3 credit hour Field Placement in Cor-rections (3850:471).
- SOCIOLOGY OF DEVIANT BEHAVIOR 3 credits Survey of theories of deviant behavior and relevant empirical research. Special emphasis given to interaction processes and social control. Lecture.
- SOCIOLOGY OF LAW 541 3 credits Social origins and consequences of law and legal processes. Emphasis on uses of law, social change and aspects of legal professions. Lecture.
 - SOCIAL ISSUES IN AGING 3 credits A look into the major issues and problems facing older persons. Special attention is given to the unmet needs of the elderly as well as an examination of current societal policy and programs to meet these needs.

547 SOCIOLOGY OF SEX AND GENDER

Review of research and theories of sex and gender. Examination of gender as structure, process and experience in society.

3 credits

3 credits

3 credits

3 credits

3 credits

3 credits

- SOCIOLOGY OF MENTAL ILLNESS 550 3 credits The social history of the mental hospital, theories and epidemiology of mental illness, com-munity-based treatment models, the organization of mental health services, the role of personal social networks and mutual support groups.
- FAMILY VIOLENCE 555 3 credits Family violence with a focus on child abuse, courtship violence, spouse/partner abuse, and elder abuse. Theories, methodologies, and strategies to end family violence are explored.
- SOCIOLOGICAL THEORY 560 4 credits An overview and examination of theoretical issues in sociology, through the study of both clas-sical and contemporary theoretical work.
- PROSEMINAR IN SOCIOLOGY 601

1 credit Prerequisite: teaching/research assistant in sociology or permission of instructor. Introduction to professional aspects of sociology and major areas of study/research in the field. Seminar. Credit/Noncredit.

FAMILY AND SOCIETY 602

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Examination of the interplay of family and society: family as both independent/dependent variable, at micro/macro levels. Development and impact of family policies is discussed.

604

QUANTITATIVE METHODS IN SOCIOLOGY 4 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Introduction to use of quantitative methods for analyzing sociological issues. Instruction in the process of empiricalverifying a theoretical question, from conceptualization to analysis. (Same as KSU 6/72211) Lecture.

EPIDEMIOLOGIC METHODS IN HEALTH RESEARCH 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Designed to introduce the student to methods of developing and understanding information concerning the distribution of illness and injury in society and evaluations of interventions to reduce the burden.

625 SOCIOLOGY OF SENTIMENTS AND EMOTIONS

Prerequisite: Graduate standing in Sociology or permission of instructor. A sociological per-spective is employed to analyze and understand the production, distribution and utilization of socially created sentiments and emotions. (Same as KSU 6/72435) Seminar.

628

PROFESSIONAL AND ETHICAL ISSUES IN SOCIOLOGY 3 credits Prerequisite: Graduate standing in Sociology. Introduction to professional and ethical issues including the logic of inquiry, developing effective approaches to independent learning and research, the research certification process and plagiarism. Lecture.

SOCIAL PSYCHOLOGY 631

Prerequisite: Graduate standing in Sociology or permission of instructor. Intensive examina-tion of social psychological theory and research, both classic and contemporary. Provides stu-dent with background and working knowledge of social psychological aspects of social phenomena. (Same as KSU 72430) Seminar.

PERSONALITY AND SOCIAL SYSTEMS 634

3 credits Perequisite: Graduate standing in Sociology or permission of instructor. Examination of con-temporary theory and research on linkages between personality and society. Some applica-tions in studies of modernization, social class and occupations and sex roles. (Same as KSU 2000) Description 72433) Seminar.

SOCIOLOGY OF GENDER 639

646

Prerequisite: permission. Examination of theories and research on gender origins, character-istics and changes. Emphasizes recent empirical research on gender role patterns and processes in various industrial societies. (Same as KSU 6/72566)

SOCIAL INEQUALITIES

Prerequisite: Graduate standing in Sociology or permission of instructor. Seminar dealing with social class and castes with special reference to American social structure. (Same as KSU social class and 72546) Seminar.

COMPLEX ORGANIZATIONS 648

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Organizations as social systems; their effect on individuals. Problems of professionals in bureaucracies. (Same as KSU 72545) Seminar.

SOCIOLOGY OF WORK

Prerequisite: Graduate standing in Sociology or permission of instructor. Examination of work as behavioral phenomenon in human societies; contrasts with non-work and leisure; signifi-cance of occupations, professional and work types in organization of work. (Same as KSU 72542) Seminar.

SEMINAR IN RACE RELATIONS 651

Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis of the struc-ture and dynamics of race and ethnic relations with attention given to both historical and con-temporary issues. (Same as KSU 72870) Seminar.

SOCIOLOGY OF HEALTH CARE

3 Creatizes - Stranding in Sociology or permission of instructor. A general study of the field of medical sociology with special emphasis on analysis of health and health care in the contemporary urban United States. (Same as KSU 72323).

663 DEVIANCE

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Examination of nature and types of deviance. Problems and issues in theory and research. (Same as KSU 72760)

664

SOCIOLOGY OF CRIMINAL BEHAVIOR 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis of relationship of crime and delinquency to social structure and social processes. Responses by crimi-nal justice agencies. Seminar.

665

JUVENILE DELINQUENCY: THEORY AND RESEARCH 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis of theories of delinquency; ecological, class structural, substructural, etc. Review of relevant research also presented. Seminar.

SOCIOLOGY OF CORRECTIONS 666

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis of correc-tional institution as social system; its formal structure and informal dynamics. Analysis of present state of corrections research. Seminar.

677 FAMILY ANALYSIS

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis and evaluation of sociological theory and research in the family. Concentration on techniques of theory construction and research design in sociological study of the family. (Same as KSU 72543) Seminar.

SOCIAL GERONTOLOGY 678

3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Impact of aging upon individuals and society. Reactions of individuals and society to aging. (Same as KSU 72877)

- 679 POLITICAL SOCIOLOGY 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Description, analysis and interpretation of political behavior through application of sociological concepts. (Same as KSU 72544) Seminar
- 686 POPULATION 3 credits Perequisite: Graduate standing in Sociology or permission of instructor. Analysis of basic pop-ulation theory and methods. Trends and differentials in fertility, mortality, migration and selected social demographic variables also considered. (Same as KSU 72656) Seminar.
- 687 SOCIAL CHANGE 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Advanced seminar in theories of social change. (Same as KSU 72320) Seminar.
- MASTER'S RESEARCH PAPER -6 credits (Must be repeated for a minimum of six credits.) Prerequisite: Graduate standing in Sociology or permission of instructor. Supervised writing of a paper for Master's Research Paper Option.
- READINGS IN CONTEMPORARY SOCIOLOGICAL LITERATURE 1-3 credits 697 (May be repeated) Prerequisites: Graduate standing in Sociology, seven credits of sociology, and permission of advisor, instructor, and chair of the department. Intensive reading and interpretation of written material in student's chosen field of interest. Regular conferences with instructor.
- DIRECTED RESEARCH 698 (May be repeated) Prerequisite: Graduate standing in Sociology or permission of instructor. Empirical research to be conducted by the student under graduate faculty supervision.
- 699 MASTER'S THESIS 1-6 credits (Must be repeated for a minimum of six credits) Prerequisite: Graduate standing in Sociology or permission of instructor. Supervised thesis writing.
- COLLEGE TEACHING OF SOCIOLOGY 3 credits Prerequisite: Teaching assistant in sociology or permission of instructor. Training and experi-ence in college teaching of sociology. Approved for credit toward the Ph.D. degree. Not approved as credit toward the degree. (Same as KSU 6/72894) Seminar. 700
- MULTIVARIATE TECHNIQUES IN SOCIOLOGY 4 credits Prerequisites: 604 or permission; a sociology graduate student only. Methodological problems using advanced multivariate techniques in analysis of sociological data. Topics include non-experimental causal analysis such as recursive and nonrecursive path analysis. (Same as KSU 72217).
- 709 ADVANCED DATA ANALYSIS Prerequisite: 706 or equivalent, graduate standing in Sociology or permission of instructor. Critical examination of data analysis techniques having particular relevance to research prob-lems in sociology. (Same as KSU 72218) Lecture.
- SOCIAL SAMPLING 3 credits Prerequisites: 604 or permission. Theory and methods of sampling in sociology. Topics includes sample design, sampling efficiency, nonresponse, mortality in longitudinal designs, urban, organizational, and survey sampling, stratified and cluster sampling. Seminar.
- SURVEY RESEARCH METHODS 3 credits 711 Prerequisites: 604 or permission. In-depth study of design and administration of social surveys. (Same as KSU 72220) Seminar.
- 714 QUALITATIVE METHODOLOGY 4 credits Prerequisites: Graduate standing in Sociology or permission of instructor. Study of qualitative methods including interviewing, observation, use of personal documents, archival data, and special problems of recording and analyzing qualitative data. (Same as KSU 72219) Lecture.
- EARLY SOCIOLOGICAL THOUGHT 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Two to four major sociological thinkers prior to 1930 examined in depth. Specific persons considered will be cho-sen by instructor but will be announced well in advance of beginning of class. (Same as KSU 72191) Seminar
- 723 CONTEMPORARY SOCIOLOGICAL THOUGHT 3 credits Prerequisite: 722, graduate standing in sociology, or permission. Intensive, critical analysis of current scholarship in a broad range of contemporary sociological theories. Virtually all required reading will be from primary sources. (Same as KSU 72105) Seminar.
- STRATIFICATION AND HEALTH 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Race, social class, and gender differences in physical and mental health status, help-seeking behavior, and health care. Race, class, and gender stratification of health care workers. (Same as KSU 72328)
- 727 SOCIOLOGY OF OCCUPATIONS, PROFESSIONS AND HEALTH CARE 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Sociological exami-nation of the organization of work in the health care field with emphasis on occupations, pro-fessions, and health care delivery. (Same as KSU 72327)
- SOCIOLOGY OF MENTAL HEALTH AND MENTAL DISORDERS 3 credits Prerequisite: Graduate standing in Sociology or permission of instructor. Sociological exami-nation of the social processes that affect mental health, that frame cultural ideas of normality and illness, and that define clinical pathology. (Same as KSU 72326)
- URBAN SOCIOLOGY Prerequisite: Graduate standing in Sociology or permission of instructor. Analysis of theories of urban process and review of major contributions to empirical analysis of urban life. (Same as KSU 72659) Seminar.
- 753 SPECIAL TOPICS IN SOCIAL ORGANIZATION 1-3 credits (May be repeated) Prerequisite: Graduate standing in Sociology or permission of instructor. Open course to cover content area not readily subsumable under other headings. Content of course to be determined by instructor. (Same as KSU 72595) Seminar.
- 797.8 INDIVIDUAL INVESTIGATION 1-3 credits each (May be repeated) Prequisites: one semester of graduate work, permission of instructor, advisor and chair of department. Readings and/or research supervised by member of graduate faculty. (Same as KSU 72896)
- 899 DOCTORAL DISSERTATION 1-10 credits Prerequisite: Graduate standing in Sociology or permission of instructor. (Must be repeated for a minimum of 30 credits) Dissertation. (Same as KSU 82199)

PUBLIC ADMINISTRATION AND **URBAN STUDIES**

590 WORKSHOP Prerequisite: permission. (May be repeated for a maximum of six credits) Group studies of

special topics in urban studies and public administration. May not be used to meet core grad-uate requirements. May be used for elective credit only. BASIC QUANTITATIVE RESEARCH

3980:

1-3 credits

Prerequisite: permission. Examines basic framework of social science research methodolo-gies and basic complementary statistical techniques, including probability and sampling.

ADVANCED RESEARCH AND STATISTICAL METHODS 601 3 credits Prerequisite: 600. Extends study of social science to include more advanced research designs and multivariate statistical techniques.

- 602 HISTORY OF URBAN DEVELOPMENT 3 credits Examination of major literature on processes of urbanization in United States and selected facets of urban institutional development.
- HEALTH BEHAVIOR: THEORY AND APPLICATION 609 3 credits Prerequisite: Graduate status. This course provides an overview of behavior change theories at the individual, interpersonal, and community levels with an emphasis on application in health policy decision-making.
- LEGAL FOUNDATIONS OF PUBLIC ADMINISTRATION 610 3 credits Prerequisite: permission. Introduction to the legal foundations and context of public administration, including the interaction of the course, public organizations, public administration and the public.
- INTRODUCTION TO THE PROFESSION OF PUBLIC ADMINISTRATION 3 credits Prerequisite: permission. Introduction to the theory and practice of the field of public administration. Foundation course for later MPA study.
- NATIONAL URBAN POLICY 612 3 credits Prerequisite: permission. Major federal policies that relate to urban problems examined in regard to policy-making processes, implementation and impact.
- INTERGOVERNMENTAL MANAGEMENT 613 3 credits Prerequisite: permission. Examines the field of intergovernmental relations as it applies to urban administration and management.
- ETHICS AND PUBLIC SERVICE 614 3 credits Prerequisite: 18 credit hours in the MPA program or permission. Examination of the ethical problems and implications of decisions and policies made by those whose actions affect the public and public policy.
- 615 PUBLIC ORGANIZATION THEORY 3 credits Prerequisite: permission. Examines the development of public organizational theory and the current status of theoretical developments in the field of public administration.
- PERSONNEL MANAGEMENT IN THE PUBLIC SECTOR 616 3 credits Fundamental issues and principles of public sector personnel administration, including recruit-ment, selection, training, motivation, supervision, evaluation, labor relations and affirmative action.
- LEADERSHIP AND DECISION-MAKING 3 credits Examines the context of public organizational management including relevant organizational 617 theories, strategic management and planning and public sector leadership.
- CITIZEN PARTICIPATION 618 3 credits 3 credits The fundamental theory, background, techniques, and issues of citizen participation in urban policy-making.
- COMMUNITY ORGANIZING 3 credits Prerequisite: permission. The course will examine the evolution and influence of neighbor-619 hood, community and "grass roots" organizations on public policy making in urban areas.
- SOCIAL SERVICES PLANNING 620 3 credits Prerequisite: permission. In-depth analysis of total social services requirements and various ways in which social services planning function is carried out in urban communities.
- URBAN SOCIETY AND SERVICE SYSTEMS 3 credits Prerequisite: permission. Analysis of social bases of urban society; hierarchies, social prob-621 lems, relationships to planning, public services.
- HEALTH PLANNING AND PUBLIC POLICY 622 3 credits Basic knowledge of the health service delivery system is provided for planners and adminis trators in the public sector.
- PUBLIC WORKS ADMINISTRATION 623 3 credits Prerequisite: permission. Examines the building, maintenance and management of public works.
- **EMERGENCY MANAGEMENT POLICY IMPLEMENTATION AND ANALYSIS** 3 credits Prerequisite: permission. Examines the implementation of emergency management policy at the federal, state, and local levels. Analyzes current policy initiatives in this emerging field. 624
- STRATEGIC PERSPECTIVES IN EMERGENCY MANAGEMENT 625 3 credits Prerequisite: permission. Public administration responsibilities in emergency management. Examines unfunded mandates and the optimal strategies for success in the four phases of emergency management.

GRANTSMANSHIP 626

- 3 credits Students will gain knowledge of the grant-seeking and awarding processes. Emphasis is on public funding opportunities and public organizations in the states.
- CULTURAL COMPETENCE IN THE PUBLIC SECTOR 627 3 credits In this course students will learn how to effectively communicate with culturally diverse indi-viduals and learn about various social stratification systems.

3 credits

- FISCAL ANALYSIS 640
- Prerequisite: permission. Study of revenue and expenditure patterns of the city's government. URBAN ECONOMIC GROWTH AND DEVELOPMENT 641 3 credits
- Prerequisite: permission. Examination of urban economic unit and its susceptibility to social, economic, political and physical change.
- 642 PUBLIC BUDGETING 3 credits Prerequisite: permission. Current professional practice and theoretical issues in public budgeting and management of capital and operating budgets.
- INTRODUCTION TO PUBLIC POLICY 643 3 credits Prerequisite: permission. Introduction to models of public policy formulation; identification of major policy issues; and the analysis of policy implementation and policy impact.
- PUBLIC SECTOR FUND MANAGEMENT 3 credits Prerequisite: 640, 642. Provides an overview of theoretical approaches for recording and reporting data related to public projects or programs and reviews methods for investing project funds
- PUBLIC SECTOR LABOR RELATIONS 645 3 credits Prerequisite: 616. This course examines fundamental issues and principles of public sector labor relations with particular attention to the collective bargaining processes and to administration of labor contracts
- AGING POLICY 647 3 credits In this course students will examine political institutions that impact the adoption and imple-mentation of programs for the aged, including Medicare, Medicaid, and Social Security.
- COMPARATIVE URBAN SYSTEMS 3 credits Prerequisite: permission. Conceptual schemes and methodology for comparative urban analy-sis among a number of major cities selected from each continent.
- INTRODUCTION TO CITY MANAGEMENT 651 3 credits Prerequisite: completion of 611 or waiver by advisor. This course examines the historical role of city management in professionalizing local government operations and examines trends in management practice that affect the city manager.

3 credits

Graduate Courses

117

- 660 STRATEGIC MANAGEMENT IN PUBLIC AND NON PROFIT SECTORS This course examines disciplined effort to produce fundamental decisions and actions that shape what public organizations are, what they do and why they do it.
- PUBLIC PROJECT DESIGN AND MANAGEMENT 3 credits Prerequisites: 600, 642. Provides in-depth theoretical overview of the public project cycle including hands-on approaches to design and management. Examines frameworks for implementation, monitoring and analysis of project impact.
- FUNDRAISING AND RESOURCE MANAGEMENT 3 credits Prerequisite: permission. Examines alternative methods of fundraising and unique resource management challenges and opportunities of non-profit organizations.
- NON-PROFIT MANAGEMENT 663 3 credits Prerequisite: permission. This course will provide students with a broad understanding of the operating environment, unique concerns of leadership, resource development, aspects of volunteerism, and management processes in non-profit organizations.
- MANAGING INFORMATION AND TECHNOLOGY IN THE PUBLIC SECTOR 664 3 credits Prerequisite: permission. Focus on issues that confront public managers in utilizing information as an organizational asset.
- PROGRAM EVALUATION IN URBAN STUDIES 3 credits Prerequisite: 600 or equivalent. Major considerations appropriate for conducting evaluations of a wide variety of human service programs and policies affecting urban and metropolitan areas.
- COMPUTER APPLICATIONS IN PUBLIC ORGANIZATIONS 673 3 credits Prerequisite: 600 and 601. Introduction to microcomputer applications in the public sector, includ-ing data entry, statistical analysis, report writing, graphical representation and spreadsheets.
- ANALYTICAL TECHNIQUES FOR PUBLIC ADMINISTRATORS 3 credits Prerequisite: 600. Public sector applications of quantitative methods, including decision analy-sis, queuing theory, mathematical programming, and simulation.
- ADVANCED TECHNIQUES IN POLICY ANALYSIS 675 3 credits Prerequisites: 600, 601. Public sector application of techniques for analyzing policy proposals including decision analysis and simulations.
- 680,1SELECTED TOPICS IN URBAN STUDIES 1-3 credits each Prerequisite: permission. Selected topics in specific areas of urban planning, in various devel-opmental processes of cities, or in various urban policy and administrative issues. (A maximum of 27 credits may be earned in 680 and 681.)
- URBAN STUDIES SEMINAR 3 credits Prerequisites: 16 credits of urban studies core plus quantitative methods. Urban research methods applied to specific urban research area. Comprehensive paper required.
- MASTER'S COLLOQUIUM 691 1 credit This course is required for masters students on assistantships. The course reviews program-matic, research, and curricula issues in the masters program.
- 695 INTERNSHIP 1-3 credits Faculty-supervised work experience for "pre-service" students participating in policy planning and administration in public and non-profit organizations.
- INDIVIDUAL STUDIES 697 1-3 credits Prerequisite: permission. (May be repeated for a total of six credits) Directed individual read-ings or research on specific area or topic.
- MASTER'S THESIS 1-9 credits Prerequisite: permission. Supervised thesis writing. (May be repeated for a total of nine cred-its, however, only six credits apply toward degree. Replaces two courses in specialization.)
- ADVANCED RESEARCH METHODS I 3 credits 700 Prerequisite: master's level statistics or permission. Introduction to statistical techniques and methodologies in doctoral and postdoctoral research. Emphasis on conceptual and mathematical interrelationships.
- ADVANCED RESEARCH METHODS II 701 3 credits Prerequisite: 700 or equivalent. Continuation of 700. Emphasis placed upon conceptual and mathematical interrelationships of multivariate statistical techniques as well as application of these techniques through computer analysis of urban data sets.
- URBAN THEORY I 702 3 credits Prerequisite: permission. Review of major theoretical tradition examining urban problems; for students entering the doctoral program in urban studies (first in two-course sequence).
- URBAN THEORY II 3 credits Prerequisite: 702. Review of major professional disciplines dealing with urban problems; for 703 students entering the doctoral program in urban studies (second in two-course sequence). PUBLIC BUREAUCRACY 3 credits
- 704 Prerequisite: permission. Analysis of bureaucratic operations in the implementation of public pol-icy, including special attributes of human service organizations and the democratic theory debate. ECONOMICS OF URBAN POLICY 3 credits 705
- Prerequisite: master's level knowledge of macroeconomics and microeconomics or special permission. Use of research tools of economic analysis in seminar format to examine options avail-able to urban policy makers in operation of public services and economic development of cities.
- PROGRAM EVALUATION 706 3 credits Prerequisite: permission. Advanced treatment of topics in program evaluation
- URBAN PLANNING AND MANAGEMENT STRATEGIES 3 credits Prerequisite: permission. Analysis of urban planning policy issues and strategies for imple-mentation in public policy formulation. Emphasis on use of planning process as integrative mechanism.
- URBAN POLICY: THE HISTORICAL PERSPECTIVE 708 3 credits Prerequisite: permission. Critical examination of major ideas about the city from Aristotle to the 20th Century and of the impact on urbanization on society and public policy.
- SYSTEMS AND PROCESSES OF POLICY ANALYSIS 3 credits 709 Prerequisite: permission. Analysis of administrative processes within public organizations, fed-eral, state and local in the United States; emphasis on urban community.
- QUALITATIVE RESEARCH METHODS 3 credits Prerequisites: 700 and 701. Critical examination of Social Science Research methodologies such as content analysis. Open-ended survey techniques and other means of creating nonstatistically generated data.
- SEMINAR IN PUBLIC ADMINISTRATION 711 3 credits Prerequisite: permission. In depth review and critique of major intellectual traditions, concepts and theories underlying public administration in the United States.
- SEMINAR IN POLICY ANALYSIS AND EVALUATION 3 credits Prerequisite: permission. In depth review and critique of major intellectual traditions, concepts and theories underlying policy analysis and evaluation in the United States.
- SEMINAR IN URBAN AND REGIONAL PLANNING 3 credits Prerequisite: permission. In depth review and critique of major intellectual traditions, concepts and theories underlying urban and regional planning in the United States.

118 The University of Akron 2013-2014

- 716 THEORETICAL FOUNDATIONS FOR PUBLIC AFFAIRS 3 credits THEORE ITCAL FOUNDATIONS FOR FOLIC AFFAIRS Prerequisite: permission of instructor. This course critically considers the theoretical founda-tions for public affairs for scholarship and research. It contrasts traditional social and natural science inquiry and more recent alternative theories to PA theory.
- COMPARATIVE PLANNING STRATEGIES 720 3 credits Prerequisite: 715 or permission. Review and analysis of alternative planning theories, institu-tions, and implementation strategies in a variety of national settings.
- ETHICS IN GOVERNMENT 730 3 credits This course will explore the differences between individual and collective responsibility, private and public morality and the nexus between democratic and moral development.
- THEORIES OF PUBLIC BUDGETING AND FINANCE 3 credits Prerequisite: 711. Examines the theories and perspectives that have shaped how government 731 uses and implements budgets.
- GOVERNANCE AND ADMINISTRATION 732 3 credits Governance and administration are interrelated activities, yet have been taught as distinct activities. This course explores the connections and interrelatedness of the concepts.
- THEORIES OF PUBLIC SECTOR HUMAN RESOURCE MANAGEMENT 733 3 credits Prerequisite: permission. Examination of the organizational behavior and administrative theories that support modern public personnel systems.
- CONCEPTUAL AND LEGAL FOUNDATIONS OF PUBLIC ADMINISTRATION 734 3 credits Prerequisite: permission. Theoretical examination of how constitutional and administrative law influence public sector decision-making.
- COMPARATIVE ADMINISTRATION 735 3 credits Prerequisite: permission. Examination of the various political and administrative frameworks within which public administrators function.
- LEADING PUBLIC ORGANIZATIONS 736 Prerequisite: permission. Examination of the various theories of organizational leadership and their application in public organizations.
- SURVEY/RESEARCH METHODS IN THE PUBLIC SECTOR 3 credits Prerequisite: permission. Examination of the techniques and methods used by public organi-740 3 credits zations to enhance civic involvement. Critiques of methodologies based upon information
- needs and citizens surveyed ECONOMIC ANALYSIS IN PUBLIC ADMINISTRATION 3 credits Review of analytical methods for urban socio-economic data gathering, modeling, analysis, 741
- and reporting. SEMINAR IN HEALTH POLICY 3 credits 760

Comprehensive review of health policy using historical, political, and economic perspectives and contexts. Emphasizes frameworks for conducting health policy analyses. 1 credit

- Ph.D. COLLOOLIIUM 780
- This course introduces new doctoral students to the perspectives and practices of doctoral study. This is a credit/non-credit course.
- URBAN POLICY STUDIES 788 1-4 credits (May be repeated for a maximum of 16 credits.) Prerequisite: permission of instructor or chair. Selected topics for specialized instruction delivered at Kent, Youngstown, and/or Cleveland State universities to apply toward a UA degree either as a required or an elective course.
- PRO-SEMINAR 3 credits 795 Prerequisite: successfully pass all comprehensive examinations. Seminar to discuss approaches to researching and writing the dissertation. Discussion of alternative methodolo-gies, styles and perspectives. Credit/noncredit.
- DIRECTED RESEARCH 798 (May be repeated for a maximum of 9 credits) Prerequisite: permission. Under the close super-
- vision of a faculty member, a student will utilize social science methods in applied research. 799 URBAN TUTORIAL 3 credits
- Prerequisite: permission. Intensive study of a particular approved field within urban studies and public affairs under supervision of tutor. (May be repeated once.)
- 899 DOCTORAL DISSERTATION
- Prerequisite: Advancement to Candidacy and 795. Open to properly qualified student accept-ed as candidate for Doctor of Philosophy degree. Student must register for at least one cred-it each semester until dissertation is accepted. Minimum of 12 credits required. (May be repeated.) Credit/noncredit.

ART

7100:

3 credits

1-15 credits

3 credits

3 credits

- SPECIAL TOPICS IN HISTORY OF ART
- 1-3 credits Prerequisite: Permission. A lecture course focusing on a particular movement, period, artist, or medium. (May be repeated when a different subject or level of investigation is selected.)
- MUSEOLOGY 502 3 credits Lecture course dealing with museum science, including museum history, staff structures, art han-dling, storage and presentation, and exhibition preparation.
- ART AND CRITICAL THEORY Prerequisite: Permission of instructor. This course, designed for both studio and art history majors, surveys the major theoretical currents in contemporary criticism and art history.
- HISTORY OF ART SYMPOSIUM 505 1-3 credits (May be repeated for credit when a different subject is indicated) Prerequisite: Permission of instructor. Lecture, individual research and evaluation, group discussion related to a specific time period or to an artistic problem.

METHODS OF ART HISTORY 507

3 credits Prerequisite: Permission of instructor. This course explores the history of the discipline and the permutations it has undergone since its establishment in the early years of the nineteenth cen-

510 METHODS OF TEACHING ELEMENTARY ART 3 credits Prerequisite: admission to Teacher Education Program Art P-12. A lecture course presenting the necessary skills and knowledge to successfully implement, plan, instruct, and assess a diverse, art-based curriculum for the elementary school. No credit as elective courses for art majors.

METHODS OF TEACHING SECONDARY ART 511

rerequisite: admission to Teacher Education Program Art P-12. A lecture course providing the knowledge, skills, and experience necessary for the development of curriculum, instruction and assessment appropriate for application at the high school level. No credit as an elective for art maiors.

STUDENT TEACHING COLLOQUIUM 512

Prerequisites: Successful completion of field experience and permission. Corequisite: 500:694. Lecture course providing the skills and knowledge necessary for art education licen-sure. Student will gain knowledge in resume building, licensure requirements, and practical pedagogical techniques.

- 513 SURVEY OF ASIAN ART 3 credits This course introduces the student to historical, cultural, political, and religious aspects of civ-ilization that influenced the aesthetics of Asian art.
- 518 MULTIPLES AND MULTIPLICITY 3 credits Prerequisites: Permission of instructor. Advanced printmaking class recommended for studio majors working with multiples, variabillity, and production requiring students to define and complete their own projects.
- SPECIAL TOPICS IN PRINT Prerequisite: Permission of instructor. Investigation in specialized printmaking media like Pho togravure, Digital Printing, and Book Arts among others. May be offered in conjunction with University sponsored residency or travel.
- COMMUNITY BASED ART EDUCATION 3 credits A service learning course for art educators that combines traditional lecture, demonstration, and hands-on workshop to introduce students to contemporary practices in community-based
- 524 MIDDLE SCHOOL MATERIALS AND TECHNIQUES A lecture course in which students will gain a hands-on approach to developing instructional art materials and lessons for the middle school.
- 525 CERAMICS: METHODS, MATERIALS, AND CONCEPTS 3 credits Ceramics for teachers. Introduces the potter's wheel, hand-building, firing kilns, history of ceramics and ceramic forms, safety in the studio, and strategies for teaching ceramics. (Lab)
- 526 EARLY CHILDHOOD ART EDUCATION 3 credits A lecture course for art educators exploring visual arts as a vehicle for whole child develop-ment and learning across the curriculum in P, K-5 school settings.
- ART IN THE INCLUSIVE CLASSROOM 527 3 credits Prerequisite: 5100:620. Art education course exploring the use of art with diverse populations through lecture, hands on art making and site visitations.
- 528 ELEMENTARY FIELD EXPERIENCE: ART LICENSURE Corequisite: 7100:510. Instructional field experience in the 7-12 art classroom to apply theory and research into practice.
- SECONDARY FIELD EXPERIENCE: ART LICENSURE 529 1 credit Corequisite: 7100:511. Instructional field experience in the P, K-6 art classroom to apply theo-ry and research into practice.
- 530 PROFESSIONAL PRACTICES FOR ART EDUCATORS 1 credit Prerequisites: 510 and 511. A lecture course providing support and guidance to develop the pre-professional skills and knowledge necessary for employment in the field of Art Education. ADVANCED CERAMICS 554 3 credits
- Prerequisite: Permission. Studio course with emphasis on advanced ceramic techniques. GRADUATE STUDIO: 2-D MEDIA 3 credits 560
- Graduate studio in two dimensional design media. Special topics and focus vary. GRADUATE STUDIO: 3-D MEDIA 561 3 credits
- Graduate studio in three dimensional design media. Special topics and focus vary.
- GRADUATE STUDIO: PHOTOGRAPHIC/DIGITAL MEDIA 3 credits Graduate studio in photographic/digital media. Special topics and focus vary. 589
- SPECIAL TOPICS IN STUDIO ART 3 credits (May be repeated for credit when a different subject or level of investigation is indicated). Prerequisite: varies by course. Group investigation of topics not offered elsewhere in the curriculum.
- WORKSHOP IN ART 590 1-4 credits (May be repeated for credit when a different subject or level of investigation is indicated to maximum of 12 credits) Prerequisite: advanced standing in art or permission of instructor. Group investigation of a particular phase of art not offered by other courses in curriculum.
- ADVANCED SEMINAR IN ART EDUCATION 3 credits Prerequisite: Acceptance to the MS program in Secondary Education with Visual Art Licen-sure. This lecture course is an advanced seminar in art education introducing students to his-torical, contemporary, philosophical issues in art education. Contemporary problems, theories and practices in are education also addressed.
- SPECIAL TOPICS: ART EDUCATION 594 1-3 credits (May be repeated for one credit when a different subject or level of investigation is indicated) Group investigation of topics of interest to the art education student and not covered elsewhere in the curriculum.
- INDEPENDENT STUDIES 597 (May be repeated for 9 credits) Prerequisites for art majors: completion of at least one advanced course in the major with a grade of A or A- and permission of instructor. Prerequi-site for non-art majors: permission of instructor. Investigation in depth of aesthetic and technical problems within a studio-selected area of specialization. Student must present in writing a proposed study plan and time schedule for instructor approval.
- SPECIAL PROBLEMS IN HISTORY OF ART (May be repeated for credit when a different subject or level of investigation is indicated) Pre-requisities: 14 credits in art history and permission of instructor. Individual research in art his-tory centered around limited topic, such as specific time period, history of specific techniques, a single artist or movement in art history. No more than 10 credits will be counted toward major.

FAMILY AND CONSUMER SCIENCES 7400:

- AMERICAN FAMILIES IN POVERTY 3 credits Prerequisite: Permission of instructor. Overview of the issues, trends, and social policies affecting American families living in poverty. Online section available
- 502 ADVANCED FIBER ARTS 3 credits Prerequisite: Permission of instructor. An advanced course that builds on the skills learned in the prerequisite, with the intention of reaching a caliber suitable for one of the many professions in this field, including business aspects such as market analysis and product development
- 504 MIDDLE CHILDHOOD AND ADOLESCENCE 3 credits Prerequisites: Permission of instructor. The influences of middle childhood and adolescent behavior on the family and the influences of the family environment on middle childhood and adolescent development
- 506 FAMILY FINANCIAL MANAGEMENT 3 credits Analysis of the family as a financial unit including financial problems and their resolution, deci-sion-making patterns and financial practices behavior. Cases, exercises, problems and computer analysis
- FCS OCCUPATIONAL EMPLOYMENT EXPERIENCE 4 credits Provides student with knowledge of current business and industrial practices at level minimally commensurate with employment expectations of graduates of vocational job training pro-

grams in Family and Consumer Sciences. 518 HISTORY OF INTERIOR DESIGN I 4 credits

The study of furnishings, interiors, and architecture from antiquity through the eighteenth cen-tury, with emphasis on the socio-cultural influences shaping their development.

- 519 HISTORY OF INTERIOR DESIGN II
- The study of nineteenth and twentieth-century furnishings and interiors, with emphasis on the social-cultural influences shaping their development.
- TEXTILES FOR INTERIORS 522 3 credits Prerequisite: Permission of instructor. Evaluation of physical, aesthetic, comfort, care, and durability properties of textile products and testing procedures to determine suitability for desired end uses and as it relates to interior fabrics.
- TEXTILES FOR APPAREL 3 credits Prerequisite: Permission of instructor. Evaluation of physical, aesthetic, comfort, care and 525 durability properties of textile products and testing procedures to determine suitability for desired end uses.
- GLOBAL ISSUES IN TEXTILES AND APPAREL 3 credits Prerequisite: Permission of instructor. Examines the global structure and scope of the textile and apparel industries emphasizing an economic perspective.
- **PROFESSIONAL PRESENTATION SKILLS IN FAMILY & CONSUMER SCIENCES 3 credits** 531 Prerequisite: Permission of instructor. Emphasis on development of abilities and strengths in coordination of equipment, materials, motion, speech, and presentation delivery relating to education and industry in Family and Consumer Sciences.
- TEXTILE CONSERVATION 536 3 credits Prerequisite: Permission of instructor. Principles and practices of textile conservation with emphasis on procedures appropriate for collectors and small historical agencies.
- HISTORIC COSTUME 537 3 credits 3 credits Study of western costume and textiles from antiquity to 1830, with emphasis on social-cultur-al influences.
- HISTORY OF FASHION 538 3 credits Prerequisite: Permission of instructor. Study of western fashion, textiles, and designers from the nineteenth century to present, with emphasis on social-cultural influences.
- FAMILY CRISIS 540 Study of family stress and crisis including internal and external variables and their influence on degree of disorganization, coping and recovery. Includes theory, research and application dimensions.
- FAMILY RELATIONSHIPS IN MIDDLE AND LATER YEARS 3 credits Study of family patterns and problems during middle and later years of life with emphasis on psychological and biological changes and economic and social adequacy. Research and trends in gerontology.
- HUMAN SEXUALITY 542 3 credits Prerequisite: Permission of instructor. Introduction to problems and values. Emphasis is on the role of values in intimate relationships, the diverse dimensions of sexual responsibility.
- CULTURE, ETHNICITY AND THE FAMILY 546 3 credits Prerequisite: Permission of instructor. Study of the role of culture and ethnicity in adaptation of the family system to environment. Program applications considered. Online section available.
- BEFORE AND AFTER SCHOOL CHILD CARE 548 2 credits Study of the development, implementation and evaluation of school-age child-care programs for before and after school and vacation periods.
- FLAT PATTERN DESIGN 3 credits 549 Prerequisite: Permission of instructor. Theory and experience in clothing design using flat pattern techniques.
- ORGANIZATION AND SUPERVISION OF CHILD-CARE CENTERS 560 3 credits Theory, principles and procedures involved in establishing and operating centers for infants, toddlers, preschool and school-age children.
- CASE MANAGEMENT FOR CHILDREN AND FAMILIES I 561 3 credits Provides an overview of Case Management basics in a multi-systems collaborative context. Includes roles, values, principles, state and service systems, and service coordination.
- CASE MANAGEMENT FOR CHILDREN AND FAMILIES II 3 credits Prerequisite: 561. Provides in-depth exploration of Case Management principles and practice. 562 3 credits Emphasis on process and functions, assessment, cross-system service planning and coordi-nation, advocacy, and cultural diversity.
- SEMINAR IN FAMILY AND CONSUMER SCIENCES 585 1-3 credits Prerequisite: permission of instructor. Exploration and evaluation of current developments in selected areas
- 590 WORKSHOP IN FAMILY AND CONSUMER SCIENCES 1-3 credits Investigation on current issue or topic in selected areas of family and consumer sciences. May be on off-campus study tour or an on-campus full-time group meeting.
- CAREER-TECHNICAL FCS INSTRUCTIONAL STRATEGIES 591 3 credits Prerequisite: senior standing or permission. Organization of Career-Technical Family and Con-sumer Sciences programs in public schools grades 4-12. Emphasis on strategies, compliance with state career-technical directives, student organizations, and program planning.
- PRACTICUM IN PARENT AND FAMILY EDUCATION 3 credits Prerequisites: 596, 605. Provides on-site opportunities to apply parent and family education 594 skills. Includes a review of strategies, ethical considerations, and supervision by the on-site
- PARENT EDUCATION 596 3 credits Prerequisite: Permission of instructor. Practical application that reviews and analyzes various parenting techniques with major emphasis on the evaluation of parent education programs. Online course
- STUDENT TEACHING SEMINAR 598 1 credit Corequisite: 5500:695, Seminar for students currently enrolled in Family and Consumer Sci-ences student teaching. Emphasis on block and lesson plan development, licensure, portfolio development, PRAXIS III, professional development, and student teaching reflections
- FAMILY IN LIFE-SPAN PERSPECTIVE 602 3 credits Study of individual and family development across life span. Emphasis on adjustment patterns and interpersonal competence. Implications for education theory research and social policy.
- **ORIENTATION TO GRADUATE STUDIES IN FAMILY AND CONSUMER SCIENCES 1** credit Introduction to the concepts and processes necessary for graduate study in the interdisciplinary field of family and consumer sciences.
- DEVELOPMENTAL PARENT-CHILD INTERACTIONS 605 3 credits Prerequisite: Permission of instructor. Study of reciprocal interactions between parent and child from birth to adulthood. Consideration of cross-cultural studies, historical and societal influences, and various family characteristics and structures. Online course.
- FAMILY DYNAMICS 607 3 credits Development of techniques in family and consumer sciences programs utilizing role theory, exchange theory and systems theory as understood through the study of the family across the life cvcle
- CHILD DEVELOPMENT THEORIES 610
 - 3 credits Prerequisite: Permission of instructor. A comparative study of developmental theories of the child within the family context. Application of the theories to child rearing in the family will be emphasized.

631 PROBLEMS IN DESIGN

4 credits

- (May be repeated, but no more than 6 credits will apply to M. A.) Prerequisite: written propos-al approved by faculty advisor. Individual solution of a specific design problem within the student's area of clothing, textiles and interior specialization. 634 MATERIAL CULTURE STUDIES
- 3 credits Methods of studying clothing, textiles, and interiors from a cultural and historical perspective. THEORIES OF FASHION
- 3 credits In-depth analysis of the theories underlying fashion and evaluation of current research related to the study of fashion. 639
- 652 PROFESSIONAL PRESENTATION IN FAMILY AND CONSUMER SCIENCES 3 credits Developing effective family and consumer sciences professional presentations. Emphasis on visuals, display, demonstrations, public relations materials, user manuals, conference management, portfolio development, and learning styles.
- DEVELOPMENT IN INFANCY AND EARLY CHILDHOOD 665 3 credits Analysis of research and theoretical frameworks regarding infant and child development from conception through age five. Implications for guidance and education.
- SOCIAL PSYCHOLOGY OF DRESS AND THE NEAR ENVIRONMENT 3 credits Study of dress and the near environment as they relate to human behavior at the micro and 677 macro level.
- HISTORICAL AND CONCEPTUAL BASES OF FAMILY AND CONSUMER SCIENCES 680 3 credits History of the field of family and consumer sciences with emphasis on the leaders and the con-ceptual basis of the field.
- RESEARCH METHODS IN FAMILY AND CONSUMER SCIENCES 3 credits A study of family and consumer sciences research methods emphasizing concept and theory development, policy application and ethical considerations.
- PRACTICUM IN FAMILY AND CONSUMER SCIENCES 3 credits Prerequisite: permission of advisor/instructor. A minimum of 150 hours of supervised experi-ence in an approved community setting to acquire skills related to area of specialization. 688 3 credits
- THESIS RESEARCH/READING 3 credits Prerequisite: permission of thesis advisor. Supervised reading and research related to 690 approved thesis topic. May be repeated once
- MASTER'S PROJECT 5 credits 694 Prerequisite: permission of advisor. The development, implementation and evaluation of a community-based supervised project which makes a significant contribution to the field and may lead to publication.
- INDIVIDUAL INVESTIGATION IN FAMILY AND CONSUMER SCIENCES 696 1-3 credits Prerequisite: permission of advisor. Individual investigation and analysis of a specific topic in student's area of specialization of interest under direction of a faculty advisor.
- 697 INDIVIDUAL INVESTIGATION IN FAMILY DEVELOPMENT 3 credits Prerequisite: permission of graduate advisor only. individual pursuit and analysis in specific area of student's interest and design under direction of faculty advisor.
- INDIVIDUAL INVESTIGATION IN CHILD DEVELOPMENT 698 1-3 credits Prerequisite: permission of graduate advisor only. Individual pursuit and analysis in specific area of student's interest and design under direction of faculty advisor.
- MASTER'S THESIS 5 credits Prerequisite: permission of advisor. Supervised research in a specialized area of family and consumer sciences which makes a contribution to the field and may lead to publication.

MUSIC

- MUSIC TEACHING METHODOLOGIES FOR GRADUATE STUDENTS 2 credits 525 Basic pedagogic techniques related to the teaching of undergraduate music courses, includ-ing preparation of syllabi, methods of evaluation, and instruction on class preparation and presentation
- GRADUATE MUSIC THEORY REVIEW 526 2 credits Prerequisite: Undergraduate music theory equivalent to four semesters. Review of basic music a theory concepts. Coverage includes the chromatic harmony vocabulary of the 18th, 19th and 20th centuries
- GRADUATE MUSIC HISTORY REVIEW 527 2 credits Prerequisite: Undergraduate music history equivalent to four semesters of music history or lit-erature study. review of basic music history for graduate students. Coverage extends from antiquity to the present. Both reading and listening assignments will be required.
- TEACHING AND LITERATURE: PERCUSSION INSTRUMENTS 2 credits To train graduate percussion students in techniques of percussion education. Emphasis on research, literature, performance, and techniques from elementary through secondary levels.
- INTRODUCTION TO MUSICOLOGY 2 credits 551 Prerequisite: 352. Comparative musicology; acoustics; psychology and physiology of music; aesthetics; theory of music theory; historical musicology.
- MUSIC SOFTWARE SURVEY AND USE 553 2 credits Prerequisite: 122 or permission of instructor. A survey and evaluation of available software in the various forms of musical instruction. Students will design a course suitable for submission to a programmer.
- ADVANCED CONDUCTING: INSTRUMENTAL 2 credits (30 clinical hours) Prerequisites: 361 and 442 or permission. Baton techniques and problems relating to practice, reading and preparation of scores; organization of ensembles; programming; conducting large instrumental ensembles. One hour lab required.
- ADVANCED CONDUCTION: CHORAL 2 credits Prerequisite: 361 or equivalent. Conduction techniques to the choral ensemble, including leadership, error detection, tonal development, stylistic accuracy and analysis. One hour lab required.
- **REPERTOIRE AND PEDAGOGY: STRING INSTRUMENTS** 3 credits Prerequisite: permission of instructor. Study in depth of the four bowed string instruments, their 563 teaching and close relationship. Despite obvious difference in physical application of cello and bass from violin and viola, methods of bowing, sound production and coloring are closely relat-ed. Application of the instruments to solo, chamber and orchestral playing.
- GUITAR PEDAGOGY 2 credits 567 agogy. sound production psychology, method books and special problems in teaching addressed.
- GUITAR ARRANGING 2 credits Prerequisite: permission of instructor. After comparative analyses of selected examples, student make original solo guitar arrangements of works written for other solo instruments ensem-

1-3 credits

- 569 HISTORY AND LITERATURE OF THE GUITAR AND LUTE 2 credits Prerequisite: permission of instructor. Study of plucked, fretted, string instruments from the 14th Century to the present; construction, notation, literature and performance practices. Modern editions and recordings evaluated.
- STUDIES IN CHORAL LITERATURE I: MEDIEVAL-RENAISSANCE 570 2 credits A survey of choral repertoire in terms of general structure, character, voicing, notation, pitch, ornamentation, improvisation, and interpretation of dynamics, rhythm, articulation, and tempo.
- STUDIES IN CHORAL LITERATURE II: BAROQUE 571 2 credits A study of the repertoire in terms of general structure, character, voicing, notation, pitch, oma-mentation, improvisation, and interpretation of dynamics, rhythm, articulation, and tempo.
- STUDIES IN CHORAL LITERATURE III: CLASSIC-ROMANTIC 2 credits A study of the repertoire in terms of general structure, character, voicing, notation, pitch, orna-mentation, improvisation, and interpretation of dynamics, rhythm, articulation, and tempo. 572
- STUDIES IN CHORAL LITERATURE IV: THE 20TH CENTURY 2 credits 573 A study of the repertoire in terms of general structure, character, voicing, notation, pitch, oma-mentation, improvisation, and interpretation of dynamics, rhythm, articulation, and tempo.
- INTEGRATIVE CONDUCTING WORKSHOP 2 credits A study of how to prepare and execute effective rehearsal which respond to the needs of the 574 singers while maintaining stylistic integrity in executing the music.
- WORKSHOP IN MUSIC 590 1-3 credits Prerequisite: permission of instructor. Investigation of topics not offered in regular curriculum. Graduate student must fulfill additional requirements.
- 601 CHORAL LITERATURE 2 credits Prerequisite: permission of instructor. Study in depth of style, structure, technical demands, manner of setting text, and special performance problems found in masterworks by great choral composers of nine centuries.
- DEVELOPMENT OF OPERA 604 2 credits Prerequisite: permission of instructor. Growth and development of opera from 1600 to present Includes detailed examination of stylistic and structural changes as well as performance prac-
- PEDAGOGY OF JAZZ IMPROVISATION 609 3 credits A detailed study of the methods and materials as they relate to the teaching of jazz improvisation.
- FOUNDATIONS AND PRINCIPLES OF MUSIC EDUCATION 3 credits 611 A study of basic historical, philosophical, sociological, and psychological concepts in the context of music education.
- PRACTICES AND TRENDS IN MUSIC EDUCATION 3 credits 612 A study of the history of practices and trends in American music education.
- INSTRUCTIONAL PROGRAMMING IN MUSIC FOR THE MICROCOMPUTER 613 3 credits Prerequisite: 553. Introduction to programming languages for the microcomputer including BASIC, Pascal and Assembler. Programming will be directed towards music educational concepts
- MEASUREMENT AND EVALUATION IN MUSIC 614 3 credits A study of measurement and evaluation techniques and their application in music education.
- MUSICAL STYLES AND ANALYSIS I 615 2 credits Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from period of Gregorian chant through music of Palest Gesualdo and others of late Renaissance.
- MUSICAL STYLES AND ANALYSIS II 616
- Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from Monteverdi through early Beethoven. MUSICAL STYLES AND ANALYSIS III 617 2 credits

2 credits

- Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from period of late Beethoven through Mahler and Strauss.
- MUSICAL STYLES AND ANALYSIS IV 2 credits 618 Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music in 20th Century.
- MUSIC HISTORY SURVEY: MIDDLE AGES AND RENAISSANCE 621 2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of all aspects of music of Middle Ages and Renaissance. Research and writing in areas of special interest.
- MUSIC HISTORY SURVEY: BAROQUE 622 2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of Baroque music; study in depth of specific examples, from recordings, scores and live performances; continuation and synthesis of approaches normal to study of music history; selected readings related to each student's particular fields of interest; project papers.
- MUSIC HISTORY SURVEY: CLASSIC AND ROMANTIC 2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of classic and romantic music; study in depth of specific examples, through recordings, scores and live performances; discontinuation and synthesis of approacher normal to study of music history; selected read-ings related to each student's particular fields of interest; project papers. 623
- MUSIC HISTORY SURVEY: MUSIC SINCE 1900 624 2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of music since 1900; study in depth of specific examples through recordings and live performances, continuation and synthesis of approaches normal to study of music history; selected readings and project papers.
- GRADUATE BIBLIOGRAPHY AND RESEARCH IN MUSIC 625 2 credits Prerequisite: undergraduate music degree of equivalent. Examination of all types of published music materials; research methods for thesis preparation and professional publishing; field trips to music libraries, computerized music research.
- 627 COMPUTER STUDIO DESIGN 2 credits The design and maintenance of a computer lab. Emphasis on hardware and software setup to maximize function and minimize maintenance.
- TEACHING AND LITERATURE: BRASS INSTRUMENTS 630 2 credits Prerequisite: permission of instructor. Research in current trends and issues in brass teaching techniques and appropriate literature.
- TEACHING AND LITERATURE: WOODWIND INSTRUMENTS 2 credits 631 Prerequisite: permission of instructor. To delineate and clarify contemporary techniques of woodwind pedagogy and to develop a comprehensive understanding of woodwind literature.
- TEACHING AND LITERATURE: PIANO AND HARPSICHORD 2 credits 633 Prerequisite: permission of instructor. The examination of piano and harpsichord literature in historically chronological order with special attention to its pedagogical value and stylistic differences
- 634 TEACHING AND LITERATURE: STRING INSTRUMENTS 2 credits Prerequisite: permission of instructor. Research in current trends and issues in string teaching techniques and appropriate literature.

- 640.1.2.3ADVANCED ACCOMPANYING I. II. III. IV 1 credit each Prerequisite: Graduate standing in keyboard performance and/or accompanying or the per-mission of the instructor. An in-depth study of principles of accompanying, sight reading, standard repertoire, and transposition.
- 653 ELECTRONIC MUSIC 3 credits The theory and practice of electronic music composition. Developing a practical understand-ing of sound synthesis and MIDI in a digital/analog multi-track recording studio.
- STUDENT RECITAL 657 0 credits Required of all music majors. Forum for student and faculty providing lectures, recitals, and opportunity to practice skills for successful music performance
- VOCAL PEDAGOGY 2 credits Prerequisite: permission. In-depth study of subjects dealing with teaching of voice: physiology 665 of vocal instrument, principles governing vocal production and application of vocal pedagogy.
- ADVANCED SONG LITERATURE I 2 credits 666 ADVANCED SONG LITERATORE I Prerequisite: permission of instructor. Systematic study of French and German song literature presented chronologically. Includes study of stylistic compositional characteristics and repertoire of major composers of song literature.
- ADVANCED SONG LITERATURE II Prerequisite: permission of instructor. Systematic study of American, British, and Italian song literature presented chronologically. Includes study of stylistic compositional characteristics and repertoire of major composers of song literature.
- 675 SEMINAR IN MUSIC EDUCATION 1-3 credits (May be repeated for a total of 6 credits) Intensive examination of special topics in the field of music education.
- ADVANCED PROBLEMS IN MUSIC 697 1-3 credits (May be repeated for a total of eight credits) Prerequisite: permission of graduate advisor. Studies or research projects related to problems in music.
- GRADUATE RECITAL Prerequisite: permission of graduate advisor. Recital prepared and presented as a require-ment for any appropriate degree option. If recital document is to be written in conjunction with the recital, add 699 for the additional credit. Once passed, may not be repeated for credit.
- MASTER'S THESIS/PROJECT 6 credits Prerequisite: permission of graduate advisor. Research related to the completion of the mas-ter's thesis, project, or recital document written in conjunction with the graduate recital, depending on the student's degree option.

MUSICAL ORGANIZATIONS 7510:

- AKRON SYMPHONY CHORUS 1 credit 602 Open to University and community members by audition. Prospective members should contact School of Music two weeks before semester begins. Performs with Akron Symphony Orchestra
- 603 UNIVERSITY SYMPHONY ORCHESTRA 1 credit Membership by audition. Organization devoted to study of orchestral literature. Full-length con-certs as well as special University appearances. Major conducted ensemble.
- SYMPHONIC BAND 604 1 credit Membership by audition. The University Symphonic Band is the most select band at the University and performs the most demanding and challenging music available.
- VOCAL CHAMBER ENSEMBLE 605 1 credit Membership open to those enrolled in applied voice study. Coaching and rehearsal of solo and ensemble literature for voices from operatic, oratorio and lieder repertoires.
- 606 BRASS ENSEMBLE 1 credit Membership by audition. Study and performance of literature for brass ensemble from all peri-ods of music history. Frequent public concerts. For advanced brass players.
- 607 STRING ENSEMBLE 1 credit Membership by auditing. In-depth study and performance of chamber music literature with special emphasis on string quartet and piano trio.
- **OPERA/LYRIC THEATER WORKSHOP** 608 1 credit Membership by audition. Musical and dramatic group study of excerpts from operatic reper-toire. Includes annual production of standard opera and/or contemporary chamber work with staging, costumes and scenery.
- PERCUSSION ENSEMBLE 609 1 credit Membership by auditing. Study and performance of literature for various percussion groups; develops skill in ensemble performance.
- WOODWIND ENSEMBLE 610 1 credit Membership by audition. Study and performance of woodwind literature from all periods various combinations of woodwinds. Develops performance skills and knowledge of woodwind literature.
- 614 KEYBOARD ENSEMBLE 1 credit In-depth study of ensemble playing. Required for keyboard assistantship recipients.
- JA77 ENSEMBLE 615 1 credit Membership by audition. Provides experience in jazz ensemble performance. A student is assumed to have knowledge of rudiments of music and some experience in jazz ensemble performance.
- 618 SMALL ENSEMBLE-MIXED 1 credit Chamber Ensemble, Baroque Ensemble and Contemporary Music Ensemble. Each is a group of diverse instruments which rehearses and performs a selected body of music.
- CONCERT CHOIR 1 credit Membership by audition. Highly select mixed choir. Performs classical literature from all peri-ods. Campus, regional, and tour performances. "Major conducted ensemble" for vocal majors. UNIVERSITY SINGERS 621 1 credit
- Membership by audition. Mixed ensemble devoted to performance of a wide variety of choral literature from classical to popular. "Major conducted ensemble" for vocal majors.
- CONCERT BAND 625 1 credit Membership by Audition. Performs the finest in concert band literature available for concert bands today.
- MARCHING BAND 1 credit 626 This organization is noted for its high energy performances a University football games. Enrollment is open to all members of the University student body.
- BLUE AND GOLD BRASS 1 credit 627 The official band for Akron home basketball games. Membership is by audition.
- UNIVERSITY BAND 628 1 credit The University Band is open to all members of the University community and performs excel-lent standard band literature. All music majors are required to complete a placement audition each fall semester. Major conducted ensemble.
- 629 BLUE AND GOLD BRASS II 1 credit The official band for Akron home ladies basketball games. Membership is by audition.

630 SUMMER CONCERT BAND

The University of Akron Summer Concert Band is open to all wind and percussion musicians and performs the finest in band literature.

1 credit

7520:

2 or 4 credits each

APPLIED MUSIC

- 521-569 APPLIED MUSIC FOR MUSIC MAJORS 2 or 4 credits each The following courses are intended for a student majoring in one of the programs in the Department of Music. Courses levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully com-pleting an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit order for the 400 level. eight credits at the 100, exists for the 400 level.
- 521 PERCUSSION
- 522 CLASSICAL GUITAR
- 523 HARP
- 524 VOICE
- 525 PIANO
- 526 ORGAN
- 527 VIOLIN
- 528 VIOLA
- 529 CELLO
- STRING BASS 530
- 531 TRUMPET OR CORNET
- FRENCH HORN 532
- 533 TROMBONE
- BARITONE 534
- 535 TUBA
- 536 FLUTE OR PICCOLO
- 537 OBOE OR ENGLISH HORN
- 538 CLARINET OR BASS CLARINET
- BASSOON OR CONTRABASSOON 539
- 540 SAXOPHONE
- 541 HARPSICHORD
- 542
- PRIVATE LESSONS IN MUSIC COMPOSITION 2-4 credits each (May be repeated) Prerequisites: 7500:252 and permission of instructor; 7500:452 recommended. Private instruction in composition. Primarily for student whose major is theory-composition
- 621-661 GRADUATE STUDY IN APPLIED MUSIC (May be repeated) Prerequisites: undergraduate degree in music, graduate standing and/or
- permission of instructor determined through audition.
- 621 PERCUSSION
- 622 CLASSICAL GUITAR
- 623 HARP
- 624 VOICE
- 625 PIANO
- 626 ORGAN
- 627 VIOLIN
- 628
- 629 CELLO
- 630 STRING BASS
- 631 TRUMPET OR CORNET
- 632 FRENCH HORN
- 633 TROMBONE
- 634 BARITONE
- 635 TUBA
- 636 FLUTE OR PICCOLO
- 637 OBOE OR ENGLISH HORN
- 638 CLARINET OR BASS CLARINET
- BASSOON OR CONTRABASSOON 639
- 640 SAXOPHONE
- 641 HARPSICHORD
- 642 APPLIED COMPOSITION
- 661 JAZZ PERCUSSION
- JAZZ GUITAR 662
 - (May be repeated) Prerequisite: undergraduate degree with a major in music. Private instruc-tion in composition offered primarily for a student majoring in composition. Another student may be approved by composition faculty.
- 663 JAZZ ELECTRIC BASS
- 664 JAZZ PIANO
- 665 JAZZ TRUMPET
- 666 JAZZ TROMBONE
- 667 JAZZ SAXOPHONE
- 668 JAZZ COMPOSITION
- JAZZ VOCAL STYLES 669

COMMUNICATION

```
7600:
```

2-4 credits

Graduate Courses 121

- 500 HISTORY OF JOURNALISM IN AMERICA 3 credits A review and analysis of the historical evolution of journalism in America, focusing primarily on newspapers, magazines, radio, television.
- CONTEMPORARY PUBLIC RELATIONS 506 3 credits Study and practical application of communication concepts, theories and skills relevant to pub-lic relations programs in businesses and nonprofit organizations.
- 508 WOMEN, MINORITIES AND NEWS 3 credits Study of images of women and minorities in U.S. news, along with the power women and minorities have as decision-makers in the news industry.
- 516 NEW MEDIA WRITING 3 credits Prerequisite: Permission. This class will look at how today's professionals practice online pub-lishing. Students will work on writing and reporting skills need in New Media.
- 517 NEW MEDIA PRODUCTION 3 credits New Micha Production Prerequisite: 516 or permission. Covers practical application of software to create on-line mul-timedia documents and explores design ideas for New Media content.
- MAGAZINE WRITING 520 3 credits An advanced writing class designed to develop the specialized reporting, researching, and writing skills needed in consumer and specialized business magazines today.
- COMMERCIAL ELECTRONIC PUBLISHING 525 3 credits This advanced class allows an in depth investigation of the business and production principles of electronic publishing of magazines.
- 535 COMMUNICATION IN ORGANIZATIONS 3 credits Overview of theories and approaches for understanding communication flow and practices in organizations; including interdepartmental, networks, superior-subordinate, formal and informal communication.
- ANALYZING ORGANIZATIONAL COMMUNICATION 536 3 credits Prerequisite: 535 or permission. Methodology for in-depth analysis and application of com-munication in organizations; team building, conflict management, communication flow. Individual and group projects; simulations.
- TRAINING METHODS IN COMMUNICATION 537 3 credits Principles and concepts in the design and delivery of communication training programs; inte-gration of theory and methodology; presentation skills; matching methods and learner needs.
- 538 HEALTH COMMUNICATION 3 credits This course presents an overview of health communication theory and research issues in interpersonal, small group, organizational, public relations, and mass media contexts. WOMEN, MINORITIES, AND MEDIA
- 3 credits Examination of the media's portrayal of white women and people of color and the roles of media decision-makers as powerful counterparts to these images. THEORY OF GROUP PROCESSES
- 554 3 credits Group communication theory and conference leadership as applied to individual projects and seminar reports.
- PUBLIC SPEAKING IN AMERICA 3 credits Survey and critical analysis of major speakers, speeches and speech movements in American history. Examines how style and content of American speaking influenced events and reflected their times.
- LEADERSHIP AND COMMUNICATION 3 credits 559 Theories of leadership and communication across public, organizational, small group, interper-sonal, and political contexts. Assessment tools provided. Guest speakers.
- 562 ADVANCED MEDIA WRITING 3 credits Practical applications of script writing principles and techniques, focusing on the skills and discipline required to finish an entire script
- ADVANCED AUDIO/VIDEO EDITING 568 3 credits Prerequisite: Permission of instructor. Advanced computerized multi-track audio and video editing. Theory and practice of multi-track sound mix for video productions.
- 3 credits 571 THEORIES OF RHETORIC Study of key figures in history of rhetorical theory, stressing interrelationships among theories of rhetoric, intellectual climates and social climates.
- 575 POLITICAL COMMUNICATION 3 credits POLITICAL COMMUNICATION Students explore the relationship between politicians, citizens, and media. Topics include media coverage, campaign technologies, advertising, debates, engagement, rhetoric, and attitudes. Theories and methodologies analyzed.
- 581 FILM AS ART: AN INTRODUCTION TO THE FILM FORUM 3 credits A study of the role and function of Cinematography, Editing, Sound, and Mise-en-scene as they shape the meaning of the film within the context of the traditional/non-traditional narratives and the documentary structure
- COMMUNICATION WORKSHOP 590 1-3 credits (May be repeated for a total of six credits) Group study or group projects investigating a par-ticular phase of media not covered by other courses in curriculum.
- INTRODUCTION TO GRADUATE STUDY IN COMMUNICATION 600 3 credits Introduction to the ideas and scholarship that constitute the various research interests in the department
- 602 QUALITATIVE METHODS IN COMMUNICATION 3 credits Prerequisite: 600. The course covers paradigms underlying qualitative inquiry, major methods of inquiry, and techniques utilized in the communication discipline. The course fosters student's ability to conduct qualitative research through gathering and analyzing data.
- QUANTITATIVE METHODS IN COMMUNICATION 603 3 credits An introduction to elementary concepts of empirical and quantitative research and their appli-cation in studies of mass media research topics.
- COMMUNICATION PROBLEMS IN THE BASIC SPEECH COURSE 1 credit Designed to train a graduate student in methods and materials of introductory speech course. 606 Required of all teaching graduate assistants.
- COMMUNICATION PEDAGOGY 608 3 credits amiliarizes students with aspects of teaching communication and media courses at the college level.
- SURVEY OF COMMUNICATION THEORY 3 credits Study of dimensions of field of communication: information analysis, social interaction and 624 semantic analysis.
- THEORIES OF MASS COMMUNICATION 625 3 credits Prerequisite: 600 or permission of instructor. A review of theories of mass media and studies exploring the effect of media.
- INTERCULTURAL COMMUNICATION THEORY 3 credits Analysis of the impact on the communication process of cultural difference between communicators; examination of existing literature in intercultural communication

670 COMMUNICATION CRITICISM

Introduces the basic elements, approaches and types of critical discourse as it is relevant to communication and mass media studies.

- 680 GRADUATE COMMUNICATION INTERNSHIP (May be repeated for a total of six credits.) Prerequisites: must have attained the category of full admission and be in good standing in the School's graduate program; must receive permission and approval of internship placement and research proposal. Provides communication graduate students with opportunity to obtain experience and to apply knowledge of academic concepts in a supervised work setting in the communication field.
- 691 ADVANCED COMMUNICATION STUDIES 3 credits (May be repeated for a total of six credits.) Special topics in communication in areas of particular for particular topic each semester.
- 697 GRADUATE RESEARCH IN COMMUNICATION 1-6 credits (May be repeated for a total of six credits.) Prerequisites: 7800:600 and approval of project prospectus one term prior to undertaking the project. Performance of research on problems found in mass media-communication.
- 698 MASTER'S PROJECT/PRODUCTION 1-6 credits (May be repeated for a total of six credits.) Prerequisite: Permission of the school director.
- 699 MASTER'S THESIS 1-6 credits. (May be repeated for a total of six credits.) Prerequisite: Permission of the school director.

THEATRE

- 555 CREATING PERFORMANCE 3 credits (May be repeated for a total of six credits). This course introduces devising processes, improvisation, ensemble work, and physical theatre techniques appropriate to the preparation of practical performance projects from sources other than a conventional play.
- 567 CONTEMPORARY THEATRE STYLES 3 credits A detailed examination of representative plays of the contemporary theatre.
- 572 METHODS OF TEACHING ELEMENTARY THEATRE ARTS 3 credits Prerequisite: Graduate status. Course provides skills, knowledge, and experience essential to teaching effective and creative theatre arts in elementary school through current theories, methods, and materials.
- 573 METHODS OF TEACHING SECONDARY THEATRE ARTS 3 credits Prerequisite: Graduate status. This course presents skills, knowledge, and experiences essential to teaching innovative and creative theatre arts in the secondary school through current theories, methods, and materials.
- 575 ACTING FOR THE MUSICAL THEATRE 3 credits Prerequisite: permission. A scene study course in analyzing and performing roles in American musicals. Accompanist provided.
- 590 WORKSHOP IN THEATRE ARTS 1-3 credits (May be repeated for a total of six credits). Prerequisite: Advanced standing or permission. Group study or group projects investigating particular phases of theatre arts not covered by other courses in curriculum.
- 600 RESEARCH AND WRITING TECHNIQUES 3 credits Exploration of the basic research tools and methods appropriate to the discipline, including utilization of the computer. Guidelines for writing thesis.
- 603 SPECIAL TOPICS IN THEATRE ARTS 1-4 credits (May be repeated as different subject areas are covered, but no more than 12 credits may be applied toward M. A. degree) Traditional and experimental courses in theatre, supplementing those listed in the General Bulletin.
- 641 PROBLEMS IN DIRECTING 3 credits Advanced directing course with special emphasis on staging of complex plays from all periods of dramatic literature.
- 645 SEMINAR IN DRAMATIC LITERATURE 3 credits Representative Western stage play (non-American) are examined in theatrical, historical, and critical/theoretical contexts.
- 646 GRADUATE ACTING: TECHNIQUES 3 credits Advanced study of basic acting techniques, especially Stanislavski, through analysis and performance. Voice/Movement Lab required.
- 648 GRADUATE ACTING: PROBLEMS 3 credits Study of problems confronting the advanced actor in various modern styles of performance Voice/Movement Lab required.
- 658 HISTORY OF THEATRE 3 credits Theatre history from the Greeks to the present with emphasis on physical theatre, conventions, and theatre architecture of each period.
- 659 STAGE LIGHTING DESIGN AND TECHNOLOGY 3 credits Study of the art and technique of stage lighting design, including drafting of lighting plots, function of lighting instruments and of intensity control.
- 660 ADVANCED TECHNICAL THEATRE 3 credits Processes including multiple set productions, revolves and their rigging, techniques in simple hydraulics, pneumatics and load capacities, and properties and techniques in multi-media.
- 662 SEMINAR IN SCENE DESIGN 3 credits Prerequisite: 106 or undergraduate scene design course or permission of instructor. Study of problems in scene design: portfolio projects, research of noted designers, studies of theatre spaces, and new scenographic materials.
- 690 GRADUATE RESEARCH/READINGS 1-3 credits (May be repeated for a total of nine credits) Prerequisite: permission. Individual research or independent readings under supervision of member of theatre graduate faculty.
- 698 INTERNSHIP 3-6 credits Prerequisite: permission. Faculty supervised work experience in which student participates in an arts management, performance or technical situation with a selected cultural organization.
- 699 MASTER'S THESIS 6 credits Prerequisite: permission of graduate coordinator of theatre arts program. Research related to the completion of the master's thesis.

THEATRE ORGANIZATIONS

- 601 PRODUCTION PRACTICUM/DESIGN/TECHNOLOGY 1-2 credits (May be repeated for a total of four credits) Prerequisite: permission of instructor. Practice in selected production design/technology operations, applications and techniques as they apply to production projects and major departmental productions.
- 605 PERFORMANCE PRACTICUM 1-2 credits (May be repeated for a total of 12 credits) Prerequisite: permission of project advisor. Recognition of work undertaken by the student when performing a role in a theatre production. Credit assigned and work supervised by faculty project supervisor.

ARTS ADMINISTRATION

3 credits

7800:

7810:

- 600 RESEARCH AND WRITING TECHNIQUES 3 credits Exploration of basic research tools and methods appropriate to the discipline, including utilization of the computer. Guidelines for writing thesis.
- 603 SPECIAL TOPICS IN ARTS ADMINISTRATION 1-4 credits (May be repeated as different subject areas are covered, but no more than 12 credits may be applied toward MA degree). Traditional and experimental courses in arts administration, supplementing those listed in the General Bulletin.
- 605 COLLOQUIUM ON THE ARTS 3 credits A brief exploration of the major visual and performing art forms and organizations examined in relationship to the business management of arts. Team-taught.
- 665 AUDIENCE DEVELOPMENT 3 credits Developing audiences for the Arts through Arts marketing techniques, including season and single ticket campaigns, promotional strategies, media/public relations, market research, and telemarketing.
- 666 PRINCIPLES OF ARTS ADMINISTRATION 3 credits Principles and practices in non-profit arts management, including organizational structure, function of boards, personnel and volunteer management, and public policy for the arts.
- **682 FUND RAISING AND GRANTSMANSHIP IN THE ARTS** 3 *credits* Techniques and execution of a development campaign for individuals, corporations, foundations, federal and state grants, and endowment, including research and proposal writing.
- 691 ARTS ADMINISTRATION POLICIES AND PRACTICES 3 credits Financial management of the arts, facilities management, presenting performances, touring, and unique management problems in non-profit theatre companies, dance companies, orchestras, and museums.
- 692 LEGAL ASPECTS OF ARTS ADMINISTRATORS 3 credits Legal responsibilities and liabilities of an arts organization, contracts, copyright law, insurance, taxation, artists' rights, personnel law, and labor law.
- 698 INTERNSHIP 3-6 credits Prerequisite: permission. Faculty supervised work experience in which student participates in an arts management, performance, or technical situation with a selected cultural organization.
- 699 MASTER'S THESIS 1-6 credits Prerequisite: permission of graduate coordinator of arts administration program. Research related to completion of master's thesis.

DANCE PERFORMANCE 7920:

90 WORKSHOP IN DANCE 1-3 credits Prerequisite: Permission. (May be repeated for a total of eight credits). Group study/projects investigating a particular field of dance not covered by other courses.

Engineering

GENERAL ENGINEERING

- 600 CURRICULAR PRACTICAL TRAINING 3-9 credits Prerequisite: Student must have completed at least one academic year in the program. Exposure to engineering research practice in industry or federal labs. Credits equivalent to preliminary research, master research, or master project. Engineering dean approval.
- 697 ENGINEERING MANAGEMENT REPORT 2 credits Prerequisite: permission of advisor. A relevant problem in engineering management is studied in depth. Final report must be approved by advisor and advisory committee.

CHEMICAL ENGINEERING 4200:

- 521 FUNDAMENTALS OF MULTIPHASE TRANSPORT PHENOMENA 3 credits Prerequisites: Permission. Major topics to be covered include intraphase and interphase transport phenomena, transport phenomena in multiphase fluids, transport in porous media, transport in gas/liquid pipe flows, computational fluid dynamics of multiphase systems, and case studies.
- 535 PROCESS ANALYSIS AND CONTROL 3 credits This course is intended for a student holding a BS in a discipline other than engineering. Response of simple and chemical processes and design of appropriate control systems.
- 541 PROCESS DESIGN I 3 credits Application of chemical engineering fundamentals to the design of a multi-unit process. Emphasis on use of process simulators. Advanced equipment design, oral, written communi-
- cation skills, teamwork. 3 credits 561 SOLIDS PROCESSING 3 credits Prerequisites: Permission. Comprehensive problems in sedimentation, fluidization, drying and other operations involving mechanics of particulate solids in liguid and gas continua.
- 563 POLLUTION CONTROL 3 credits Air and water pollution sources and problems. Engineering aspects and methodology.
- 566 DIGITIZED DATA AND SIMULATION 3 credits Prerequisite: permission. Data acquisition and analysis by digital devices, digital control applications and design.
- 570 ELECTROCHEMICAL ENGINEERING 3 credits Chemical engineering principles as applied to the study of electrode processes and to the design of electrochemical reactors. Topics include electrochemical thermodynamics, cell polarizations, Faraday's Laws, electrode kinetics, transport processes in electrochemical systems, current distributions, reactor design, experimental methods, commercial processes, and batteries and fuel cells.
- 572 SEPARATION PROCESSES IN BIOCHEMICAL ENGINEERING 3 credits Introduction to the separation and purification techniques pertinent to bioprocesses, with emphasis on the engineering considerations for large-scale operations.

600 TRANSPORT PHENOMENA 3 credits Prerequisite: Permission. Systematic presentation of conservation of momentum, energy and mass at microscopic and macroscopic levels in conjunction with illustrative examples and analogies.

605 CHEMICAL REACTION ENGINEERING 3 credits Prerequisite: Permission. Kinetics of homogeneous and heterogenous systems. Reactor design for ideal and non-ideal flow systems.

- 610 CLASSICAL THERMODYNAMICS
- Discussion of laws of thermodynamics and their application. Predication and correlation of thermodynamic data. Phase and reaction equilibria.
- SURFACE SCIENCE IN CHEMICAL ENGINEERING 621 3 credits Perequisite: permission of instructor. This course emphasizes the basics of surface science (surface energy, wetting, adhesion); surface characterization techniques (contact angle, ellip-sometry, XPS); and surface engineering methods (SAMs, soft-lithography).
- BIOCHEMICAL ENGINEERING 622 3 credits Application of chemical engineering principles to biological processes which produce desirable compounds or destroy unwanted or hazardous substances.
- PHYSICAL PROPERTIES OF STRUCTURAL BIOPOLYMERS 3 credits Prerequisite: permission of instructor. Examination of the physical properties of biological tis-sues from a material science perspective leading to a rational design of biomaterials. 625
- CHEMICAL PROCESS DYNAMICS 630 3 credits Prerequisite: 600. Development and solutions of mathematical models for chemical process-es including models based on transport phenomena principles, population balance methods and systems analysis.
- CHEMICAL ENGINEERING ANALYSIS Mathematical analysis of problems in transport processes, chemical kinetics and control sys-tems. Solution techniques for these problems and their practical significances are stressed. Heuristic proofs will be given for necessary theory developments.
- 632 NONLINEAR DYNAMICS AND CHAOS 3 credits Bescription and analysis of the complex behavior exhibited by nonlinear equations. Emphasis is on the numerical methods to quantify chaos.
- COLLOIDS—PRINCIPLES AND PRACTICE 633 3 credits Prerequisite: permission of instructor. Colloid science and applications in chemical and bio-materials engineering: disperse systems, interparticle forces, surface tension, interfacial thermodynamics, colloid applications, biomaterials applications and characterization techniques.
- APPLIED SURFACTANT SCIENCE 634 3 credits Prerequisite: 610. The basics of surfactant science, the chemical engineering application of surfactants including use in polymerization media, separations, emulsion, microemulsion, and a rheology modifier.

ADVANCED POLYMER ENGINEERING 635

Prerequisite: 600 or permission. Reactors for polymerization, polymer characterization, poly-mer processing, polymer rheology.

640

ADVANCED PLANT DESIGN 3 credits Prerequisite: permission. Topical treatment of process and equipment design, scale-up, optimization, process syntheses, process economics. Case problems.

RENEWABLE RESOURCES FOR ENVIRONMENTALLY BENIGN CHE PRODUCTION 674

3 credits Prerequisite: permission of instructor. Focus is on chemical and biochemical processing technologies for the preparation of fuels, polymeric materials, and specialty chemicals from renewable resources.

HETEROGENOUS CATALYSIS 680

Kinetics and mechanisms of heterogeneous and homogeneous catalytic reactions; character-ization and design of heterogeneous catalysts.

TOPICS IN CHEMICAL ENGINEERING 696 (May be repeated for a total of six credits.) Prerequisite: permission. Topics selected from new and developing areas of chemical engineering, such as electrochemical engineering, coal and synthetic fuels processing, bioengineering, simultaneous heat and mass transfer phenomena and new separation techniques.

697 CHEMICAL ENGINEERING REPORT

3 credits Prerequisite: permission of advisor. A relevant problem in chemical engineering is studied. Required course for students electing non-thesis option. Final report must be approved by advisor and advisory committee.

MASTER'S THESIS

(May be repeated to a maximum of six credits.) For properly qualified candidate for master's degree. Supervised original research in specific area of chemical engineering selected on basis of availability of staff and facilities.

ADVANCED TRANSPORT PHENOMENA 701

3 credits Prerequisite: 600. Advanced theory of transport phenomena such as applied tensor analysis, constitutive equations, multicomponent reactive transport and multiphase transport. Illustrative practical examples presented.

702

MULTIPHASE TRANSPORT PHENOMENA 3 credits Prerequisite: 600. General transport theorem, kinematics, Cauchy's lemmas and the jump boundary conditions are developed followed by the theory of volume averaging. The single phase equations are then volume averaged to obtain the multiphase equations of change. The technique for using these equations and their practical significance is also covered.

ADVANCED REACTION ENGINEERING 3 credits 706 Prerequisite: 605. Kinetics of heterogeneous systems, steady and unsteady state mathemat-ical modeling of chemical reactors, fluidization and additional topics drawn from current literature.

- 711 ADVANCED CHEMICAL ENGINEERING THERMODYNAMICS Prerequisite: 610. Advanced topics in thermodynamics, including phase and reaction equilib-ria at high pressures, phase equilibrium for multiphase systems, reaction equilibria in multi-phase systems, thermodynamics of surfaces, thermodynamics of systems under stress, non-equilibrium thermodynamics and current topics from literature.
- MOMENTUM TRANSPORT 715 3 credits Prerequisite: 600. Discussion of potential flow, boundary layer formation and turbulent flow phenomena for Newtonian fluids.
- NON-NEWTONIAN FLUID MECHANICS 3 credits Prerequisite: 600. Tensor and curvilinear coordinates. Newtonian viscometrics. Development 716 of non-Newtonian constitutive equations. Special and general flows of various constitutive

ENERGY TRANSPORT 720 Prerequisite: 600. Conduction, natural and forced convection, and radiation heat transfer start-

ing with equations of continuity, motion and energy. TOPICS IN ENERGY TRANSPORT 3 credits

Prerequisite: 720. Advanced analytical and graphical methods for solving complex heat trans-fer problems found in chemical engineering.

MASS TRANSFER 3 credits 725 Prerequisite: 600. Theory of mass transfer with applications to absorption, adsorption, distillation and heterogeneous catalysis.

PROCESS CONTROL 731 3 credits Prerequisite: 630. Introduction to modern control theory of chemical processes including cascade control, multivariate control and data sampled control.

736 POLYMER ENGINEERING TOPICS

3 credits

3 credits

3 credits

1-6 credits

3 credits

- 3 credits Prerequisite: permission. Selected topics of current interest in polymer engineering, such as modeling of reactors or processes, multiphase materials, multiphase flow, artificial fiber engineering, etc.
- 3 credits
- 738 CHEMICAL PROCESSING OF ADVANCED MATERIALS 3 credits Prerequisite: 605. Advanced materials such as ceramics, optical materials, sensors, catalysts; application of reaction engineering to sol-gel processing, ceramic processing, modified chemical vapor deposition
- 742 ADVANCED CATALYST DESIGN 3 credits Prerequisite: 605. Development of catalysis theory and its application to the design of practical catalysts.
- ADVANCED POLLUTION CONTROL 3 credits Prerequisite: Permission. Analysis of current environmental research in analytical instrumentation, air and water, pollution control, hazardous waste treatment, and nuclear waste dispos-
- 780 ADVANCED BIOCATALYSIS AND BIOTRANSFORMATIONS 3 credits Prerequisite: 3150:401/501 or permission of instructor. Focuses include: (a) high performance enzymes via chemical modification, recombinant technology, evolution, extremophiles; (b) applications of enzymes in biosynthesis, bioprocessing, biosensing, and bioremediation.
- CHEMICAL ENGINEERING SEMINAR 1 credit (May be repeated for a maximum of six credits.) Prerequisite: Permission of instructor. Advanced level coverage of specialized chemical engineering topics. Intended for students seeking a Ph.D. in engineering. 791
- ADVANCED RESEARCH TECHNIQUES FOR ENGINEERING 3 credits (May be repeated for a total of six credits.) Prerequisite: permission of department chair. 3 credits Advanced projects, readings and other studies in various areas of chemical engineering. Intended for student seeking Ph.D. in engineering.
- PRELIMINARY RESEARCH 898 1-15 credits (May be repeated for a total of 15 credits.) Prerequisite: approval of dissertation director. Pre-liminary investigations prior to the submission of a dissertation proposal to the Interdisciplinary Doctoral Committee
- DOCTORAL DISSERTATION 899 1-15 credits (May be taken more than once.) Prerequisite: acceptance of research proposal by the Inter-disciplinary Doctoral Committee and approval of the dissertation director. Original research by the doctoral student.

CIVIL ENGINEERING

4300:

- DESIGN OF EARTH STRUCTURES 3 credits Pererequisite: Permission. Design of earth structures; dams, highway fills, cofferdams, etc. Embankment construction techniques, quality control, embankment analysis, instrumentation, foundation soil stabilization, seepage analysis and control. Design problem. Graduate students will perform more advanced analysis and design.
- 518 SOIL AND ROCK EXPLORATION 3 credits Prerequisite: Permission. Site exploration criteria and planning. Conventional boring, sampling and in situ testing methods. Theory and application of geophysics and geophysical methods including seismic, electrical resistivity, gravity, magnetic and radioactive measurements. Air including seismic, e photo interpretation.
- CHEMISTRY FOR ENVIRONMENTAL ENGINEERS 3 credits (2 lecture 1 lab) Prerequisite: One year of college chemistry. General, physical, organic, biochemistry, equilibrium, and colloid chemistry concepts applied to environmental engineering, Concepts are used in water and wastewater laboratory. 523
- 526 ENVIRONMENTAL ENGINEERING DESIGN 3 credits An introduction to the physical, chemical and biological processes utilized in the treatment of water and wastewater, with design parameters emphasized.
- WATER QUALITY MODELING AND MANAGEMENT Analysis and simulation of the physical, chemical and biochemical processes affecting stream quality. Development of management strategies based upon the application of water quality modeling techniques to environmental systems.
- HAZARDOUS AND SOLID WASTES 3 credits Prerequisite: Permission of instructor. Hazardous and solid waste quantities, properties and 528 sources are presented. Handling, processing, storage and disposal methods are discussed with non-technical constraints outlined.
- 543 APPLIED HYDRAULICS 3 credits Review of design principles; urban hydraulics, steam channel mechanics, sedimentation, coastal engineering.
- COMPUTER METHODS OF STRUCTURAL ANALYSIS 3 credits Structural analysis using microcomputers; finite element software, interactive graphics; beam stiffness concepts and matrix formulation; simple and complex structural systems modeling; vibration analysis.
- OPTIMUM STRUCTURAL DESIGN 3 credits 553 structural optimization. Rasic concepts in Mathematical programming methods including unconstrained minimization, multidimensional minimization and constrained minimization.
- ADVANCED MECHANICS OF MATERIALS Three-dimensional state of stress and strain analysis. Unsymmetric bending of straight and curved members with shear deformation. Beams on elastic foundations. Saint Venant's tor-sional problems. Inelastic analysis of bending and torsional members. Introduction to energy method. Instability behavior of prismatic members.
- TRANSPORTATION PLANNING 563 3 credits Theory and techniques for development, analysis and evaluation of transportation system plans, Emphasis on understanding and using tools and professional methods available to solve transportation planning problems, especially in urban areas. 564 HIGHWAY DESIGN 3 credits
- Study of modern design of geometrical and pavement features of highways. Design problem and computer use. Graduate students will produce a more complete design.
- PAVEMENT ENGINEERING 565 3 credits Theories of elasticity, of viscoelasticity and of layered systems as applied to pavements. Pavement materials characterization; pavement design, pavement restoration for rigid and flexible pavements

TRAFFIC ENGINEERING 566 3 credits Vehicle and urban travel characteristics, traffic flow theory, traffic studies, accidents and safety, traffic signs and marking, traffic signal planning, traffic control and transportation administration.

ADVANCED HIGHWAY DESIGN 3 credits 567 Prerequisite: 564, Autocad, or permission. Computer-aided geometric design of highways including survey data input, digital terrain modeling, cross-section templates, horizontal and ver-tical roadway design, earthwork computations, and advanced topics.

568 HIGHWAY MATERIALS

Prerequisite: Permission. Properties of aggregates, manufacture and properties of portland cement concrete, properties of asphaltic materials, design and testing of hot mix asphalt pavement mixes and of surface treatments. Laboratory preparation of specimens and determina-tion of properties. Graduate student requirement: Graduate students will be required to perform an additional eight-hour asphalt laboratory (Abson recovery of asphalt from solution) and to prepare a paper on a highway materials topic.

3 credits

3 credits

3 credits

3 credits

3 credits

3 credits

areas.

- UNDERGROUND CONSTRUCTION 2 credits Description of practices and techniques of underground construction. Selection of proper method for individual job. Design of underground openings, support systems and linings. 574
- DYNAMICS OF STRUCTURES 604 3 credits Approximate, rigorous dynamic analysis of one, two, multiple and infinite degrees of freedom structural systems. Elastoplastic, plastic analysis. Equivalent systems, dynamic hinge concept. Modal analysis. Transfer matrices. Fourier, Laplace transforms.

605 STRUCTURAL STABILITY

3 credits Prerequisite: 554 or equivalent. Buckling of bars, beam-columns and frames. Lateral buckling of beams. Double and tangent modulus theories. Energy methods. Compressed rings and curved bars. Torsional buckling. Buckling of plates and shells. Inelastic buckling. 3 credits

ENERGY METHODS AND ELASTICITY

Work and complementary work. Strain energy and complementary strain energy. Virtual work and Castigliano's theorems. Variational methods. Applications. Formulation of boundary value problems in elasticity. Selected topics in energy methods and elasticity.

PRESTRESSED CONCRETE

Basic concepts. Design of double-tee roof girder; shear; development length; column; piles; design of highway bridge girder; pretensioned, post-tensioned; continuous girders; corbels; volume-change forces; connections.

MULTISTORY BUILDING DESIGN 608

3 credits Floor systems; staggered truss system; braced frame design; unbraced frame design; drift indices; monocoque (tube and partial tube) systems; earthquake design; fire protection. Analysis by STRUDL

FINITE ELEMENT ANALYSIS I 609

Prerequisite: 554 or equivalent. Introductory development of finite element method as applied to various topics from continuum mechanics. Such areas as plane, axisymmetric and 3-D stress analysis; conduction, fluid mechanics; transient problems an geometric and material nonlinearity.

610 COMPOSITE MATERIALS IN CIVIL INFRASTRUCTURE

Prerequisite: 554 or equivalent. Constituent materials; manufacturing processes; panel properties by micro/macromechanics; simplified analysis of composite beams; columns; and appli-cations to highway bridges; composites in concrete and wood structures.

FUNDAMENTALS OF SOIL BEHAVIOR 2 credits In-depth examination of structure and fundamental physico-chemical and mechanical proper-611 ties of engineering soils viewed as particulate matter

ADVANCED SOIL MECHANICS 612

Study of mechanics of behavior of soil as continuum. Principles of stress, strain, deformation, shear strength and pore water pressure as applied to mechanical behavior of soil masses.

ADVANCED GEOTECHNICAL TESTING 613 3 credits Pererequisites: 518, 612. Theory and practice of static and dynamic in situ and laboratory soil testing. Testing procedures, applicability, limitations. General evaluation of geotechnical parameters for routine and special site conditions. One lecture, two laboratories per week.

614 FOUNDATION ENGINEERING I

3 credits Prerequisite: Permission. Foundation bearing capacity and settlement analysis. Design of shall low and deep foundation systems. Pile driving and load test procedures and analysis. Theory and design of earth-retaining structures including retaining walls, tiebacks and bulkheads.

FOUNDATION ENGINEERING II 615

Prerequisite: 614 or permission. Soil-structure interaction theory and applications to under ground structures including conduits, tunnels and shafts. Advanced foundation construction methods and problems including dewatering, soil stabilization, underpinning and cofferdams. Slope stability analysis.

SOIL IMPROVEMENT 616

- Admixture stabilization, precompression with vertical drains, blasting, vibrocompaction, injection and grouting, thermal methods, electro-osmosis, soil reinforcement, case studies.
- NUMERICAL METHODS IN GEOTECHNICAL ENGINEERING 3 credits 617 Steady-state and transient flow through soils, consolidation, soil-structure interaction, piling, stress-deformation analysis of earth structures.

618 ROCK MECHANICS 3 credits Perequisite: 554 or permission. Mechanical nature of rocks; linear elasticity and application to rock problems; inelastic behavior of rocks, time dependence and effects of pore pressure, experimental characterization of rock properties; failure theory and crack propagation.

SANITARY ENGINEERING PROBLEMS 2 credits Application of both laboratory methods and theory to solution of sanitary engineering problems 620 involving water pollution, stream regeneration, special industrial wastes, detergents and oth-

621 ENVIRONMENTAL ENGINEERING PRINCIPLES

4 credits Corequisite: 523. Provide the basic principles of chemical reaction engineering, microbiology, environmental regulations, and contaminant migration required for the understanding and solving environmental problems

AQUATIC CHEMISTRY 622 3 credits Prerequisites: Permission. Quantitative treatment of variables that govern the chemistry of aquatic systems. Emphasis on carbonate in open-closed systems, metal complexation and solubility, and oxidation-reduction reactions.

PHYSICAL/CHEMICAL TREATMENT PROCESSES 623 Prerequisite or corequisite: 621. Theory, current research associated with physical/chemical processes, the impact on design-coagulation/flocculation, sedimentation, filtration, absorption

processes emphasized. BIOLOGICAL WASTEWATER TREATMENT PROCESSES 624 3 credits

Prerequisite or corequisite: 621. Theory, current research associated with biological process-es, related physical/chemical processes, the impact on design-activated sludge, fixed film processes, gas transfer, sludge stabilization, sludge dewatering processes emphasized. WATER TREATMENT PLANT DESIGN 625 3 credits

Prerequisite: 623. Design of water treatment plants for potable, industrial and commercial uses. Development of water sources, treatment methods and financing used to design best practical methods in terms of cost-benefits.

WASTEWATER TREATMENT PLANT DESIGN 626

3 credits Prerequisite: 624. Application of theory and fundamentals to design of wastewater treatment plants. System design methods used for biological and chemical stabilization of wastewater to meet water quality criteria. Economic analyses made to determine best practical designs to be utilized

- 627 ENVIRONMENTAL OPERATIONS LABORATORY 2 credits Prerequisite: Permission of instructor. Conduction of laboratory experiments related to the design and operation of water and wastewater treatment processes. Experimental design, data collection, analysis and report preparation.
- 628 ADVANCED CHEMICAL OXIDATION PROCESS 3 credits Prerequisites: Permission. Qualitative and quantitative treatment of variables that govern process chemistry and kinetics in water. Emphasis on ozone, hydrogen peroxide, and ultraviolet light (UV).
- 631 SOIL REMEDIATION

Prerequisite: 621 or permission. Provide a thorough understanding of site characterization, tra-ditional soil remediation technologies, as well as present new and emerging remediation technologies

3 credits

AIR POLLUTION CONTROL 635 3 credits

Prerequisite: 621 or permission. Introduction to air pollution control philosophies, approaches, regulations, and modeling. Also contains an in-depth evaluation/design approach for the con-trol of particular matter, SOx and NOx.

ADVANCED FLUID MECHANICS 3 credits 640 Pererequisite: Permission. Basic equations, Navier-Stokes equations. Analysis of potential flow, turbulence, hydraulic transients. Solution of typical fluid mechanics problems. Analysis of water hammer in pipe networks by method of characteristics.

OPEN CHANNEL HYDRAULICS 3 credits Application of basic principles of fluid mechanics to flow in open channels. Criteria for analy-sis of uniform, gradually varied and rapidly varied flows. Study of movement and transporta-tion of sediments. Design problems utilizing numerical techniques.

645 APPLIED HYDROLOGY Discussion of water cycle such as precipitation, evaporation, stream flows, floods, infiltration. Methods of analysis and their application to studies of water demand, storage, transportation including mathematical modeling of urban runoff and statistical hydrology.

- COASTAL ENGINEERING 3 credits Characteristics of linear and nonlinear wave theories. Interaction of structures, waves; design analysis of shore, offshore structures. Movement, transportation of sediments in lake shore
- ADVANCED TRANSPORTATION ENGINEERING I 3 credits Prerequisite: Permission. Highway and parking facility design, transportation planning, highway 663 capacity estimates, signal systems and optimization, incident detection and management, free-way ramp metering, and highway traffic safety.
- 664 ADVANCED TRANSPORTATION ENGINEERING II 3 credits Prerequisite: Permission. Highway and parking facility design, transportation planning, highway capacity estimates, signal systems and optimization, incident detection and management, freeway ramp metering, and highway traffic safety.
- 665 TRAFFIC DETECTION AND DATA ANALYSIS 3 credits Prerequisite: Permission. Theory and application of pressure tubes, loop detectors, and imag-ing sensing, microwave, infrared, ultrasonic, laser detectors, parameter estimation, reliability, and data mining and fusion.
- ADVANCED ENGINEERING MATERIALS 681 3 credits Selected topics on principles governing mechanical behavior of materials with respect to elas-tic, plastic and creep responses, stress rupture, low and high cycle and thermal fatigue. Fail-ure theories and fracture phenomena in brittle and ductile materials. Crack propagation and life prediction of engineering materials.
- 682 ELASTICITY ELASTICITY 3 credits Plane stress, plane strain. Two-dimensional problems in rectangular, polar coordinates. Strain-programmetholo, Plane, attait in the strain of the st energy methods. Stress, strain in three dimensions. Torsion. Bending. Thermal stresses.
- 683 PLASTICITY 3 credits Prerequisite: 682, 4600:622 or equivalent. Mathematical formulation of constitutive equations with focus on their use in structural analysis. Internal variables. Isotropic, kinematic hardening. Nonisothermal plasticity. Finite deformations. Anisotropy.
- ADVANCED REINFORCED CONCRETE DESIGN 3 credits 684 Slab systems. Equivalent frame properties. Limit analysis. Yield line theory. Lateral load sys-tems. Shear walls. Footings. Biaxial column action.
- ADVANCED STEEL DESIGN 685 3 credits Properties of steel, fasteners, bearing, friction joints, Gusset plates, bolts in tension, end plates, weld joints, cyclic loads, fatigue analysis, types of detail, torsion, stability design.
- EXPERIMENTAL METHODS IN STRUCTURAL MECHANICS 686 3 credits Prerequisite: 682. Electrohydraulic closed-loop test systems. Methods for specimen heating. Strain measurement techniques for room and elevated temperatures. Design of computer controlled experiments investigating deformation and failure under complex stress states.
- LIMIT ANALYSIS IN STRUCTURAL ENGINEERING 687 3 credits Prerequisites: 554, 682. Fundamental theorems of limit analysis. The lower-bound and upper-bound solutions. Applications to frames, plates and plane stress and plane strain problems. Design considerations. Mathematical programming and computer implementation.
- ADVANCED SEMINAR IN CIVIL ENGINEERING 1-3 credits Prerequisite: permission. Advanced projects, reading, studies, or experimental in various areas of civil engineering.
- ENGINEERING REPORT 697 2 credits Prerequisite: Permission of advisor. A relevant problem in civil engineering for students elect-ing the non-thesis option. The final engineering report must be approved by the advisor and the advisory committee.
- MASTER'S RESEARCH 698 1-6 credits Prerequisite: Permission of advisor. (May be repeated.) Research on a suitable topic in civil engineering culminating in a master's thesis.
- MASTER'S THESIS 1-6 credits Prerequisite: permission. Research and thesis on some suitable topic in civil engineering as approved by department. Defense of thesis is by final examination.
- EARTHQUAKE ENGINEERING 701 3 credits Perequisite: 604. Earthquake fundamentals. Earthquake response of single-story and multi-story buildings, as well as structural components. Modal analysis for earthquake response. Inelastic response of multistory structures. Earthquake codes. Stochastic approach.
- 702 PLATES AND SHELLS 3 credits Prerequisites: 682 and 3450:531. Navier and Levy solutions for rectangular plates. Approxi-mate methods, including finite difference. Forces in middle plant. Large deflections. Differential geometry of a surface. Shells of revolution.
- 703 VISCOELASTICITY AND VISCOPLASTICITY 3 credits Prerequisite: 683. Formulation of constitutive relations for time dependent materials. Classical linear viscoelasticity. Internal variable representation of nonlinear, hereditary behavior. Creep and rate dependent plasticity. Continuum thermodynamics. Anisotropy.

704 FINITE ELEMENT ANALYSIS II

3 credits Prerequisite: 609 and 702 or permission. Curved, plate, shell brick elements. Quasi-analytical elements. Quadrature formulas. Substructuring for static and dynamic analyses. Solution algo-rithms for linear and nonlinear static and dynamic analysis. Computer program formulation. Review of large-scale production programs

ADVANCED COMPOSITE MECHANICS 710

3 credits Prerequisite: 610. Analysis of short-fiber composites and statistical behavior, bending, buckling and vibration of laminated plates and shells. Advanced topics involving stress concentration, residue stress, fatigue, fracture toughness, nonlinear and viscoelastic stress-strain formulations, solutions of nonlinear problems.

DYNAMIC PLASTICITY 712

3 credits DYNAMIC PLASTICITY 3 credits Prerequisite: 683 or 703. Impulsive and transient loading of structural elements (beams, plates, shells, etc.) in which inelastic deformation occurs. Topics include: longitudinal and transverse plastic wave propagation in thin rods, propagation of plastic hinges, rate-dependent viscoplastic waves, transverse impact on beams and plates, high-rate forming, blast loading, plate perforation, shock waves in solids.

SOIL DYNAMICS 717

3 credits Prerequisite: 614 or permission. Vibration and wave propagation theory relating to soils, soil structures and foundations. Dynamic behavior of soils. Design of foundations for dynamic loading impact, pulsating and blast loads.

BIOREMEDIATION 731

3 credits Prerequisite: 621 or permission. Provide the fundamentals required for understanding and successfully implementing the biodegradation of hazardous compounds coupled with the design and operational techniques of bioremediation systems.

SEEPAGE 745

Discussion of parameters determining permeability of various soils. Analytical, numerical and experimental methods to determine two- or three-dimensional movement of groundwater. Unsteady flows.

2 credits

898 PRELIMINARY RESEARCH

1-15 credits (May be repeated for a total of 15 credits.) Prerequisite: approval of dissertation director. Pre-liminary investigations prior to the submission of a dissertation proposal to the interdisciplinary Doctoral Committee.

DOCTORAL DISSERTATION 899 1-15 credits (May be taken more than once.) Prerequisite: acceptance of research proposal by the Inter-disciplinary Doctoral Committee and approval of the dissertation director. Original research by the doctoral student.

ELECTRICAL ENGINEERING	4400:
------------------------	-------

541 DIGITAL COMMUNICATION

3 credits Introduction to digital communication theory and systems; coding of analog and digital infor-mation; digital modulation techniques. Introduction to information theory.

- WIRELESS COMMUNICATIONS 3 credits 545 Prerequisite: 541. Theory and analysis of wireless communication systems, wireless propa-gation, multiple access, modulation, demodulation, multipath channel characterization, diver-sity, cellular, and PCS services and standards.
- OPTICAL COMMUNICATION NETWORKS 3 credits Optical waveguides and optical integrated components, optical transmitters and receivers, optical communication network design. 548

ANTENNA THEORY 553

3 credits Theory of EM radiation. Wire antennas, arrays, receiving antennas, reciprocity. Integral equa-tions for induced currents, self and mutual impedances. Equivalent principle, radiation from aperture antennas.

555 MICROWAVES

4 credits Dynamic fields, Maxwell's equation and wave equations. Field analysis of wave guides, microwave components, techniques and systems.

- OPTICAL ELECTRONICS AND PHOTONIC DEVICES 561 3 credits Lightwave engineering, photonic principles and optical electronic device technology.
- CONTROL SYSTEMS II 3 credits State variable analysis, design of control systems. Discrete systems, analysis, digital computer control. Experiments include hybrid, AC control system, digital computer control. 572
- POWER ELECTRONICS I 3 credits 583 Elements of power electronics circuits. Rectifiers, converters, inverters analysis and design
- POWER ELECTRONICS LABORATORY AND DESIGN PROJECT 584 2 credits Prerequisite: 583 or equivalent. Experiments on different types of power electronic converters: AC/DC, DC/DC, DC/AD, and AC/AC. Design project to include design, simulation, building, and testing of a power electronic circuit.

ELECTRIC MOTOR DRIVES 585

3 credits Application of electric machines, choice of motor for particular drive. Application of power semi-conductor circuits in electric machinery.

DESIGN OF ELECTRIC AND HYBRID VEHICLES 3 credits Principles of electric and hybrid vehicles. Characterizations of electric machines, engines, transmissions, batteries, fuel cells, ultracapacitors. Vehicle control strategies, communication networks, and overall system integration. 589

SPECIAL TOPICS: ELECTRICAL ENGINEERING 598 1-3 credits (May be taken more than once.) Prerequisite: permission of department chair. Special topics in electrical engineering.

641 RANDOM SIGNAL ANALYSIS 3 credits Analysis, interpretation and smoothing of engineering data through application of statistical and probability methods.

642

IMAGING SYSTEM ENGINEERING 3 credits Prerequisite: 561. Engineering principles of imaging systems, analysis, design, and evaluation of imaging systems, processing techniques, and applications.

643 INFORMATION THEORY

3 credits Prerequisite: 641 or permission. Source and channel models, entropy, relative entropy, mutu-al information, data compression, random coding bound and channel coding theorem, chan-nel capacity for Gaussian channels, practical coding schemes, network information theory. 3 credits

DIGITAL SIGNAL PROCESSING 646

Relations between continuous-and discrete-time Fourier expansions. Sampling, aliasing, sam-pling rate conversion. Operator concepts in signal processing, all-pass systems, FFT, digital filter desian.

647

DIGITAL SPECTRAL ANALYSIS AND SIGNAL MODELING 3 credits Prerequisites: 646 or permission of instructor. Methods and theory of spectral analysis and sig-nal modeling are investigated in detail. Applications of theory include speech processing, opti-mal filtering, biomedical systems, digital communications.

OPTICAL NETWORK ARCHITECTURE 3 credits Prerequisite: 548. Principles of optical network architecture, analysis, design, control, and fault 648 management.

650 ELECTROMAGNETIC THEORY I

- 3 credits Prerequisite: permission of instructor. Electrostatics: uniqueness theorem, boundary-value problems, constructions of Green's functions. Magnetostatics. Electrodynamics: energy and momentum, EM potentials, Stratton-Chu formulation, radiation, dyadic Green's functions.
- ELECTROMAGNETIC THEORY II 651 3 credits Prerequisite: 650 or permission of the course instructor. Scattering; TEM waves; guided wave theory: transmission lines, closed-boundary guides and cavities, modal orthogonality and completeness, Green's function, excitation and coupling, open-boundary waveguides
- 652 COMPUTATIONAL ELECTROMAGNETICS 3 credits Perequisite: 650 or permission of course instructor. Analytic and numerical techniques for electromagnetic fields, conformal mapping, finite difference method, finite element method, and the method of moments

ADVANCED ANTENNA THEORY AND DESIGN 655 3 credits

Prerequisite: 553 or equivalent. Basic properties and recent advances of microstrip antennas. Analysis and design of reflector antennas. Analysis and synthesis of linear and planar antenna arravs.

- 666 SIMULATION OF NANOSCALE AND MOLECULAR-SCALE SYSTEMS 3 credits The course describes modern simulation techniques for the analysis of nanoscale phenome-na: molecular dynamics, fast algorithms for multiatomic and multiparticle systems, ab initio methods in electronic structure calculation.
- 673 NONLINEAR CONTROL 3 credits Corequisite: 674 or instructor permission. Designed to provide students with qualitative insights into nonlinear systems as well as techniques for controlling such systems. Topics include describing functions, Popov and circle criteria, jump resonances, subharmonics, phase plane, conservative systems, Lyapunov theory, bifurcation of attractors, and routes to chaos.
- CONTROL SYSTEM THEORY 674 3 credits Advance modern control theory for linear systems. Controlability, observability, minimal real-izations of multivariate systems, stability, state variable feedback, estimation, and an introduction to optimal control.
- OPTIMAL CONTROL I 3 credits 677 Prerequisite: 674. Formulation of optimizational problem; application of variational calculus, maximum principle and optimality principle to control problems. Computational techniques in optimization
- 680 DYNAMICS AND CONTROL OF POWER ELECTRONIC CIRCUITS 3 credits Prerequisites: 583 or equivalent. Averaged and sampled-data models for rectifiers and DC/DC converters. Small-and large-signal models about the cyclic steady-state. Feedback controls using classical and modern approaches.
- DYNAMICS OF ELECTRIC MACHINES 686 Prerequisites: graduate status in Electrical Engineering. Voltage and mechanical differential equations of electric machines, analytical and numerical methods for solution of a system of machine differential equations. 3 credits
- POWER ELECTRONICS II 3 credits Prerequisite: 583 or equivalent. Effects of the nonidealities of the power circuit components, magnetics, base and gate drives, thyristor commutation circuits, heat transfer and thermal issues. Analysis and design of advanced power circuits.
- CONTROL OF ELECTRIC MACHINES 688 3 credits 3 credits Prerequisites: graduate student in Electrical Engineering. Elements of control circuits for elec-tric drives, techniques for torque/speed control of electric machines.
- POWER SEMICONDUCTOR DEVICES 689 3 credits Perequisite: graduate status in Electrical Engineering. Structure and physics of power semi-conductor devices: diodes, Bipolar junction transistors, MOSFETs, Thyristors, Power MOS-Bipolar devices (IGT,MCT). Emphasis on the issues that characterize these devices from the lower power semiconductor devices.
- SPECIAL PROBLEMS 693 1-3 credits (May be taken more than once) Prerequisite: permission of department chair. For a qualified graduate student. Supervised research or investigation in major field of training or experience. Credits dependent upon nature and extent of project.
- MASTER'S RESEARCH 698 1-6 credits Prerequisite: Permission of advisor. (May be repeated.) Research on a suitable topic in elec-trical engineering culminating in a master's thesis. MASTER'S THESIS 1-6 credits
- Prerequisite: permission of department chair. Research and thesis on some suitable topic in electrical engineering.
- TOPICS IN FLECTROMAGNETICS 753 3 credits Prerequisite: 651. Introduction to advanced techniques in fields. Topics include application of Green's function techniques and related boundary value problems.
- MODEL REDUCTION TECHNIQUES FOR CONTROL SYSTEMS 3 credits Prerequisite: 674 or permission of the instructor. Classical, modern, and optimal techniques for computing reduced order models of linear, nonlinear, and infinite dimensional systems. Mini-mal realizations of multi-variable systems are also considered.
- ADVANCED LINEAR CONTROL SYSTEMS 3 credits Prerequisite: 674 and a course in Real Analysis or equivalent. Covers topics related to the design of robust control systems. The synthesis of controllers which yield stable closed loop systems will be considered. The H8-optimality criterion for controller design is included. Special empha-sis will be given to the robust stabilization problem and the disturbance attenuation problem.

775 ROBUST CONTROL 3 credits Prerequisite: 674. Input-output and state-space characterizations of robust control systems, and design techniques based on the algebraic Riccati equation. Decentralized and reliable control design methodologies.

OPTIMAL CONTROL II

3 credits Prerequisite: 677. Advanced state-feedback optimal control. Output-feedback issues, includ-ing loop transfer recovery, optimal observer design, reduced-order controllers, frequency weighting, and decentralized control.

- ADAPTIVE CONTROL 3 credits Prerequisite: 671 or permission of instructor. This course will provide the advanced graduate student with the techniques required for the control of time-varying nonlinear and stochastic systems. Topics include minimum prediction error control, least squares estimation, certainty equivalence adaptive control. Kalman filtering, minimum variance control, LQG control and stochastic adaptive control
- ADVANCED TOPICS IN CONTROL 3 credits 779 rerequisite: 776. Discussions of recent advances in control systems.
- ADVANCED SEMINAR 1-3 credits (May be taken more than once) Prerequisite: permission of department chair. Advanced level 794 coverage of specialized topics. For student seeking Ph.D. in engineering

PRELIMINARY RESEARCH 898 1-15 credits (May be repeated.) Prerequisite: approval of dissertation director. Preliminary investigations prior to submission of a dissertation proposal to the Interdisciplinary Doctoral Committee.

899 DOCTORAL DISSERTATION 1-15 credits (May be repeated.) Prerequisite: acceptance of research proposal by the Interdisciplinary Doc-toral Committee and approval of the dissertation director. Original research by the doctoral stu-

COMPUTER ENGINEERING 4450:

- 510 EMBEDDED SCIENTIFIC COMPUTING 3 credits Prerequisite: Permission by instructor. Organization of scientific and engineering problems for computer solutions. Analysis of error and convergence properties of algorithms
- SYSTEM SIMULATION 515 3 credits Computer simulation of dynamic systems. Discrete system stability, linear multistep and Runge-Kutta methods, nonlinear systems, stiff systems, distributed systems and real-time
- computing. 520 OBJECT ORIENTED DESIGN 3 credits Investigation of object-oriented design paradigm and the design implementation with the
- object-oriented programming language C++. COMPUTER SYSTEM DESIGN 3 credits 521

Design of advanced processors at the microarchitecture level. Pipelining. Superscalar, vector, and VLIW architectures. Instruction-level parallelism. Compiler support. Multiprocessor architectures

- 522 EMBEDDED SYSTEMS INTERFACING 3 credits Prerequisite: Permission by instructor. Microcontroller structures and embedded peripherals. Interfaces to physical environments. Software access to peripherals, timers, ADCs and DACs. Synchronous and asynchronous communications. Interrupts. Real-time operating systems.
- PROGRAMMABLE LOGIC 3 credits 523 Electronic circuitry considerations in logic circuits, methods of sequential, threshold logic analysis, synthesis, development of computer arithmetic elements; memory, storage devices.

COMPUTER NETWORKS 527 3 credits Network architecture and protocol layering. Network design principles, communication protocols, and performance measures. Socket programming, routing, error detection and correction, access control, multimedia networking.

3 credits

3 credits

3 credits

3 credits

NETWORKED EMBEDDED SYSTEMS 529

Foundations for design and deployment of asynchronous distributed systems. Wireless sen-sor-actuator systems. New frontiers in distributed systems including communication, localiza-tion, synchronization, failure detection and performance analysis.

DIGITAL SIGNAL PROCESSING 540

- Signal sampling and reconstruction; data-converter models. Unilateral and bilateral z trans-forms. Discrete Fourier Transform (DFT); Fast Fourier Transform (FFT). Digital filter structures and design methods.
- ANALOG INTEGRATED CIRCUIT DESIGN 562 3 credits CMOS processes and layout; amplifiers, current mirrors, and comparators; current, voltage, and bandgap references; switched capacitor circuits. Frequency and noise analysis techniques.

VLSI CIRCUITS AND SYSTEMS 567

- 3 credits Graduate level introduction to VLSI design. MOSFET structures, design rules, and fabrication. Static, dynamic CMOS. PLAs, ROMs, and RAMs. Layout methodologies and tools. System architecture.
- SPECIAL TOPICS: COMPUTER ENGINEERING 598 1-3 credits (May be taken more than once) Prerequisite: permission of department chair. Special topics in computer engineering.
- COMPUTER ARCHITECTURE 606

3 credits Historical development of computer architecture. Design methodologies. Processor organiza-tion and design of instruction sets. Parallel processing. Control section implementations. Mem-ory organization. System configurations.

PARALLEL COMPUTER ARCHITECTURE 607

- Prerequisite: 606 or equivalent. This course provides an introduction to parallel computer architectures and parallel processing based on a single instruction, message-passing, or shared memory
- REAL-TIME SCHEDULING 620
- heory of fixed priority scheduling for real-time systems. Aperiodic, Periodic, and Sporadic Task scheduling.
- ADVANCED KNOWLEDGE ENGINEERING 3 credits Prerequisite: Permission of instructor. Advanced study of knowledge acquisition and expert system project management.
- VLSI DESIGN AND AUTOMATION 3 credits 663 Prerequisite: 570. Methodologies for automated design of VLSI systems. Computer-aided design tools and algorithms. Design for low power, high performance, testability. Research top ics in VLSI design

693 SPECIAL PROBLEMS

1-3 credits (May be taken more than once) Prerequisite: permission of department chair. For a qualified graduate student. Supervised research or investigation in student's major field. Credit depends upon nature and extent of project.

ADVANCED SEMINAR 794

1-3 credits (May be taken more than once) Prerequisite: permission of department chair. Advanced level coverage of various topics. Intended for student seeking Ph.D. in engineering.

4600: **MECHANICAL ENGINEERING**

- 500 THERMAL SYSTEM COMPONENTS 3 credits Performance analysis and design of basic components of thermal energy exchange and con-3 credits version systems. Components studied include heat exchangers, pumps, compressors, turbines and expansion engines.
- HEATING AND AIR CONDITIONING 510 3 credits Thermodynamics of gas mixtures. Design and selection of air conditioning equipment. Control of gas mixtures, heating, cooling, and humidity.
- COMPRESSIBLE FLUID MECHANICS 511 3 credits Subsonic and supersonic flow in nozzles, diffusers, and ducts. One-dimensional reactive gas dynamics. Prandtl-Myer theory. Applications to design and analysis of compressors, turbines, and propulsion devices.
- FUNDAMENTALS OF FLIGHT 512 3 credits Introduction to basic aerodynamics, airplane performance, stability and control, astronautics and propulsion. Design considerations are emphasized.
- INTRODUCTION TO AERODYNAMICS 3 credits 513 Introduction of aerodynamic concepts; conformal transformations, theory of thin airfoils, 2-dimensional airfoil theory, wings of finite span, lifting line theories, lumped-vortex, vortex-lattice, and panel methods
- INTRODUCTION TO AEROSPACE PROPULSION 514 3 credits Introduction to propulsion systems currently used in aerospace fields; propulsion principles for turbojets, chemical rockets, and electrical rocket propulsion.

- 515 ENERGY CONVERSION 3 credits Topics from fields of internal combustion engines, cycle analysis, modern conversion devices. 516 HEAT TRANSFER PROCESSES 3 credits
- Analysis, design of extended surfaces, Natural convection and mixed convection, combined modes of heat transfer with phase changes.
- 522 EXPERIMENTAL STRESS ANALYSIS I 3 credits Experimental methods of determining stress or strain: brittle lacquer, strain gages, photoelas-ticity, full field thermal techniques.
- 530 MACHINE DYNAMICS 3 credits Static and dynamic forces in machines, products of inertia, dynamic equivalence, flywheels. Balancing of rating, reciprocating, cyclic plane motion. Computer simulation of transient mech-anism dynamics, other topics in advance dynamics.
- 531 FUNDAMENTALS OF MECHANICAL VIBRATIONS 3 credits Undamped and forced vibrations of systems having one or two degrees of freedom.
- VEHICLE DYNAMICS 532 3 credits Application of dynamic systems analysis techniques to road vehicles. Newtonian and Lagrangian methods. Tire/road interface. Ride characteristics, handling and stability. Digital simulation.
- SYSTEM DYNAMICS AND CONTROL 4 credits 540 Prerequisites: Permission by instructor. Laplace transforms. Mathematical models of physical systems. Transient response and stability. Error analysis and system accuracy. Root locus methods in design. Frequency analysis and design. Compensation techniques.
- CONTROL SYSTEMS DESIGN 3 credits Methods of feedback control design such as minimized error, root-locus, frequency domain. Compensation techniques. Multivariable and nonlinear design methods and computer-aided control design.
- 542 INDUSTRIAL AUTOMATIC CONTROL 3 credits Operation of basic control mechanisms. Study of mechanical, hydraulic, pneumatic, fluidic control systems, including application areas. Tuning of control devices for optimum perfor-mance of system. Case studies on control applications from industry, e.g. boilers, furnaces, process heaters.
- OPTIMIZATION METHODS IN MECHANICAL ENGINEERING 3 credits Development and method of solution of optimization problems in mechanical engineering. The use of dynamic programming and operational research methods for optimization including computer utilization and applications.
- ROBOT DESIGN, CONTROL AND APPLICATION 3 credits Robot design and control. Kinematic transformations, velocities and accelerations, path trajectories and dynamics, control and sensing in robotics. The automated factory with robot applications.
- 550 INTRODUCTION TO COMPUTATIONAL FLUID FLOW AND CONVECTION 3 credits Numerical modeling of fluid/thermal systems, numerical solution of the momentum and ther-mal boundary layer equations; flow simulation using advanced heat transfer/fluid/graphics packages
- 562 PRESSURE VESSEL DESIGN 3 credits Introduction to modern pressure vessel technology. Topics include basic structural considera-tions, materials and their environment and design-construction features.
- 563 COMPUTER AIDED DESIGN AND MANUFACTURING 3 credits The use of computer systems to assist in the creation, modification, analysis, or optimization of engineering designs, and to plan, manage, and control manufacturing plants
- 600 GAS DYNAMICS 3 credits Prerequisite: 511. Derivation of equations for multi-dimensional irrotational flow of a compress-ible fluid. Method of small perturbations. Method of characteristics. Ideal flow theory. Transonic flow. One dimensional unsteady flow.
- THERMODYNAMICS 608 3 credits Extension and generalization of basic laws of thermodynamics with application to a variety of physical and biological systems. Introduction to irreversible thermodynamics, the third law and statistical thermodynamics.
- 609 FINITE ELEMENT ANALYSIS I 3 credits Prerequisite: 622. Introductory development of finite element method as applied to various topics from continuum mechanics. Areas covered include plane; axisymmetric and 3-D stress analysis; conduction; fluid mechanics; transient problems and geometric and material nonlinearity.
- DYNAMICS OF VISCOUS FLOW I 610 3 credits Derivation and solution of equations governing laminar viscous flow. Applications include unsteady flows, slow viscous flows, parallel flows, lubrication theory and laminar boundary layers.
- COMPUTATIONAL FLUID DYNAMICS I 3 credits Prerequisite: 610 or permission of instructor. Study of numerical methods in fluids; numerical errors and stability, finite differencing, nonlinear convection terms, Poisson equations, bound-ary conditions, turbulence, spectral and finite element techniques.
- CONDUCTION HEAT TRANSFER Study of one-, two- and three-dimensional heat conduction. Development of analytical techniques for analysis and design.
- CONVECTION HEAT TRANSFER 3 credits 616 Heat transfer from laminar, turbulent external, internal flows. Convective heat transfer at high velocities. Heat transfer to liquid metals; high Prandtl number fluids.
- RADIATION HEAT TRANSFER 3 credits Study of governing radiation laws. Black and real systems, geometric factors, gray enclosures, non-gray systems, gaseous radiation, radiation equipment.
- 618 BOILING HEAT TRANSFER AND TWO-PHASE FLOW 3 credits Current techniques to determine heat transfer and pressure drop in components such as boil-ers, heat exchangers, and steam generators, with boiling. Boiling mechanism, slip ratio, criti-cal heat flux and instabilities in boiling flow systems.
- EXPERIMENTAL STRESS ANALYSIS II 2 credits 620 Prerequisite: 522. Dynamic strain gage methods, transducer design, Moire fringe techniques and topics in photoelasticity.
- INTRODUCTION TO TIRE MECHANICS 3 credits Prerequisite: permission. Topics include tire as vehicle component, tire traction and wear, laminated structures, tire stress and strains and advanced tire models.
- 622 CONTINUUM MECHANICS 3 credits Analysis of stress and deformation at a point. Derivation of fundamental field equations of fluid and solid mechanics by applying basic laws of dynamics, conservation of mass and energy. Development of constitutive laws.
- APPLIED STRESS ANALYSIS I 3 credits 623 Prerequisite: 622. Continuation of 622 with specific application to solid mechanics. Develop-ment of energy theorems due to Reissner, Washizu and generalized Hamilton's principle. Solutions to static and dynamic problems.

- 624 FUNDAMENTAL OF FRACTURE MECHANICS 3 credits PURDAMENTAL OF FRACTORE MECTANICS Prerequisite 622 or permission of instructor. Methods of stress analysis in elastic media con-taining holes and cracks. Theories of brittle fracture. Dynamic crack propagation. Fatigue fractures. Finite element approaches to fracture mechanics.
- ANALYSIS OF MECHANICAL COMPONENTS 3 credits Theories of failure and plastic flow. Fatigue, creep analysis and introduction to fracture 625 3 credits mechanics.
- FATIGUE OF ENGINEERING MATERIALS 3 credits Prerequisite: 624 or permission. Quasi-static and cyclic behavior, dislocation networks and their interactions; correlation of dislocation-microstructure interactions; crack initiation; crack propagation, short cracks; crack closure; environmental effects. 626
- ADVANCED MATERIALS AND MANUFACTURING PROCESSES 3 credits Manufacturing processes for advanced materials; classification; technological aspects of bulk deformation, casting, joining, forming, machining, molding, powder metallurgy, rapid solidifica-tion; economic aspects; technical activity.
- MECHANICAL BEHAVIOR OF MATERIALS 3 credits Mechanical behavior of engineering materials; metallurgy of deformation; dislocation effects and deformation; strengthening mechanisms; thermomechanical processing; mechanical test-628 ina.
- NONLINEAR ENGINEERING PROBLEMS 3 credits Prerequisite: 622. Study of nonlinear ordinary and partial differential equations governing phe-629 nomena of mechanics. Analysis of phasespace trajectories, singularities and stability. Devel-opment of approximate analytical methods.
- VIBRATIONS OF DISCRETE SYSTEMS 3 credits 630 Prerequisite: 531 or equivalent. Study of vibrations of multidegree of freedom systems including free and forced vibrations, damped and transient response, normal mode vibrations and matrix iteration techniques. application to seismic design and shock design.
- KINEMATIC DESIGN 631 3 credits The geometry of constrained motion. Analysis of relative plane motion using vectors and the digital computer. Curvature theory. Synthesis of linkages and gearing. Introduction to computer-aided design.
- RELIABILITY IN DESIGN 632 3 credits Prerequisite: 3470:561. The reliability determination of mechanical components and systems and its use in design. Distribution, reliability determination, normal and log-normal theories, Weibull theory, life spectrum analysis, renewal theory and confidence limits.
- COMPUTERIZED MODAL ANALYSIS OF STRUCTURES 633 3 credits Perequisite: 630 or equivalent. Modal analysis theory and measurement techniques, digital sig-nal processing concepts, structural dynamics theory, modal parameter estimation with "hands-on" experience in the application of modal measurement methods in vibration analysis.
- ADVANCED DYNAMICS OF ROTATING MACHINERY 634 3 credits Prerequisites: 530 or equivalent. Dynamic modelling and simulation of complex rotor-bearing systems. Steady state, transient and stability analysis with inertia, gyroscopic, imbalance, rotor-bow, disk-skew and impeller-rub interaction effects.
- STRESS WAVES IN SOLIDS AND FLUIDS 635 3 credits Prerequisite: 531 or equivalent. The wave equation. Propagation of elastic-plastic stress waves through solid media. Transmission, reflection, absorption and diffraction phenomena. Low and high velocity impact. Dynamic fracture. Numerical simulation techniques.
- SYSTEM ANALYSIS AND CONTROL DESIGN 3 credits Uniform methods of modeling and response analysis, controlability and observability, stability theory and analysis of linear and nonlinear engineering processes. Design of feedback con-trols for optimum performance for multivariable real-time control application.
- PROCESS IDENTIFICATION AND COMPUTER CONTROL 645 3 credits Prerequisite: Permission by instructor. Obtaining mathematical models of processing from noisy observations. Methods of digital control design. Case studies on computer control of colored exercision. , cted processes
- **EXPERT SYSTEMS IN CONTROLS AND MANUFACTURING** 3 *credits* Prerequisite: 540 or equivalent or by permission. Expert system methodologies for process control, computer integrated flexible manufacturing and robotics. 646
- NEURAL AND FUZZY CONTROL SYSTEMS 3 credits Prerequisite: 540 or permission of instructor. Analysis and design of intelligent control systems. Neural networks and fuzzy sets for process identification and controller design. Applications and case studies in industry.
- TRIBOLOGY 650 3 credits Fundamentals of friction lubrication and wear treated; includes basic theory, advanced topics, applications to bearings, seals, gears, cams. Specific topics include adhesive and abrasive friction/wear, boundary lubrication, fluid film lubrication and bearings, rolling element bearings,
- bearing dynamics. MICRO- AND NANO-FLUID DYNAMICS 655 3 credits
 - Prerequisite: 611 or permission of instructor. This course includes fundamentals of the analyt-ical and numerical solutions of the problems pertinent to fluid mechanics on nano- and microscales. Applications will include micro-engines, MEMS, micro-filters, and synthesis of nanomaterials

658 MECHANICAL BEHAVIOR OF NANOSTRUCTURED MATERIALS

AND COMPOSITES 3 credits An overview of Lattice Dislocation Theory, Nanostructured Materials: Processing and Proper-ties, Grain Boundaries, Nanoindentation, Electron Microscopy, Atomic Force Microscopy, Car-bon Nanotubes, Polymer and Bio-MEMS.

660

ENGINEERING ANALYSIS 3 credits Prerequisite: B.S. in engineering. Study of analysis techniques as applied to specific engi-neering problems. Applications include beam deflections, acoustics, heat conduction and hurdre transition to the life. hydrodynamic stability.

661

FAILURE ANALYSIS OF MECHANICAL SYSTEMS 3 credits Prerequisite: 625 or permission. This course emphasizes engineering techniques for predicting, yielding, buckling, fracture and fatigue of mechanical systems. Students will be taught how to link theory with practice by examining case studies of structural and mechanical failures and will obtain practical experience in modeling real complex systems in an end-of-term project.

- MICROSCALE HEAT AND MASS TRANSFER 3 credits Prerequisites: 608 and 615 or permission. Kinetics theory, classical and quantum statistics, structure of solids, phonons in solids, free electrons in metals, Boltzmann transport theory, hyperbolic heat conduction, thermal conductivity of thin films, laser materials processing. 662
- WEB-BASED SOLID MODELING AND E-MANUFACTURING 3 credits Prerequisites: 563 or equivalent, or permission. Team-based collaborative design with a web-based solid modeling library, feature-based manufacturing analysis, and process planning using cross-platform interoperable tools including JAVA, VRML for optimized product realiza-663 tion
- FUNDAMENTALS OF CRYSTALLIZATION AND SOLIDIFICATION 3 credits Prerequisites: 608 or equivalent, or permission. Fundamental theories of crystalline nucleation and growth, interface stability and morphology, microstructure formation, and microsegrega-664 tion. Applications in casting, welding, laser processing, and single crystal growth.

- ANALYSIS OF MANUFACTURING SYSTEMS
- 666 3 credits This course will examine general problems in the design, planning, and control of manufacturing systems.
- INTEGRATED FLEXIBLE CELLULAR MANUFACTURING SYSTEM-670 ANALYSIS AND DESIGN

3 credits Prerequisite: 563 or equivalent or by permission of instructor. The analysis of integrated com-puter-aided manufacturing systems, design of automated manufacturing components and simulations of flexible cellular manufacturing systems.

FUNDAMENTALS AND APPLICATIONS OF MICRO ELECTRO MECHANICAL 671 SYSTEMS

3 credits Fundamentals of MEMS based sensors and actuators, MEMS materials, bulk and surface micromachining and MEMS device testing. Application in optics, automotive, and biomedical instrumentation.

- DESIGN OF MICROSYSTEMS AND NANO DEVICES 672 3 credits Design principles of various micro and nano sensors and actuators, microfludic devices, microstructure analysis and simulation, microfabrication process design rule. Applications in MOEMS, lab-on-a-chip devices, BioMEMS and NEMS.
- 693 MEASUREMENTS METHODS AND EXPERIMENTAL ERROR IN THERMOFLUID SCIENCES 3 credits The course will incorporate elements of experimental error analysis, optics, and optical ray tracing, principles of testing, methods and devices for fluid flow quantization and temperature measurements. Laboratory work with hands-on experience.
- DEFORMATION AND FAILURE OF POLYMERS AND SOFT MATERIALS 3 credits 694 This course introduces the concepts of deformation, fracture, and failure analyses of engi-neering polymers, soft, and biological materials.
- SPECIAL TOPICS IN MECHANICAL ENGINEERING 1-4 credits Prerequisite: Permission by instructor. For qualified candidate for graduate degree. Supervised research in the student's major field of training or experience. Credit depends upon nature and extent of project as determined by advisor and department chair.
- ENGINEERING REPORT 2 credits Prerequisite: Permission of advisor. A relevant problem in mechanical engineering for students electing the non-thesis option. The final engineering report must be approved by the advisor and the advisory committee.
- MASTER'S RESEARCH 698 1-6 credits Prerequisite: Permission of advisor. (May be repeated.) Research on a suitable topic in mechanical engineering culminating in a master's thesis.
- 699 MASTER'S THESIS 1-6 credits Prerequisite: permission of advisor. (May be repeated) Supervised research in a specific area of mechanical engineering.
- FINITE ELEMENT ANALYSIS II 3 credits Prerequisites: 609, 4300:702. Curved, plate, shell, brick elements; quasi-analytical elements. Quadrature formulas. Substructuring for static and dynamic analysis. Solution algorithms for linear and nonlinear static and dynamic analysis. Computer program formulation. Review of large-scale production programs.
- 705 FINITE ELEMENT ANALYSIS III 3 credits Prerequisite: 704. Static and dynamic contact problems. Tire mechanics. Fracture mechanics. Plasticity problems involving small and large deflections. Shake down analysis. General con-stitutive models for composite media, thermoviscoelasticity, fluid turbulence. Fluid-solid interaction analysis.
- DYNAMICS OF VISCOUS FLOW II 710 3 credits Prerequisite: 610. Introduction to turbulence. Turbulence modeling and turbulent boundary lay-ers. Practical methods of solution of boundary layer problems. Transition process.
- COMPUTATIONAL FLUID DYNAMICS II 3 credits 711 Prerequisite: 611 or permission of instructor. Development of advanced computational tech-niques for convection-dominated flows. Higher order explicit and implicit schemes including nonoscillatory front-capturing methods applied to benchmark problems.
- HYDRODYNAMIC STABILITY 715 3 credits Prerequisites: 660, 620 or permission. Stability concepts, Stability of Benard convection, Rayleigh-Taylor flow, parallel shear layers, bondary layers, asymptotic solution of Orr-Som-merfeld equation, nonparallel stability.
- ADVANCED HEAT TRANSFER 719 3 credits Prerequisites: 615, 616. Topics include nonhomogeneous or nonlinear boundary value prob-lems of heat conduction, heat transfer with melting, solidification and ablation, heat transfer in porous systems and hydrodynamically and thermally unsteady convection.
- APPLIED STRESS ANALYSIS II 3 credits Prerequisite: 623. Continuation of 623. Development of approximate solution techniques including finite elements, method of weighted residuals (Rayleigh-Ritz, Galerkin, Trefftz, collo-cation, least squares, etc.) and finite differences. 723
- NONLINEAR CONTINUUM MECHANICS 726 3 credits Prerequisite: 622. Finite deformation and strain, stress, constitutive equations, strain energy functions. Solution of finite deformation problems in hypoelasticity, coupled thermoviscoelas-ticity and plasticity, electroelasticity and micropolar theories.
- 730 VIBRATIONS OF CONTINUOUS SYSTEMS 3 credits Prerequisite: 630. Continuation of 630. Analysis of continuous vibrating systems, using sepa-ration of variables, energy, variational, Rayleigh-Ritz and other approximate techniques. Concepts and solutions of integral equations as applied to continuous systems.
- ADVANCED MODAL ANALYSIS OF STRUCTURES 732 3 credits Prerequisite: 633 or equivalent. Structural excitation techniques. Modal parameter estimation. System modification; mass/stiffness/dumping matrices substructuring. Prediction and evaluation of structural modified dynamic characteristic.
- **OPTIMIZATION THEORY AND APPLICATIONS** 741 3 credits Prerequisite: Permission by instructor. Theory of optimization in engineering systems, devel-opment and method of solution optimization problems for physical processes, large systems. Use of dynamic programming, operational research methods of system optimization, control.
- ADVANCED METHODS IN ENGINEERING ANALYSIS 3 credits Applications of finite difference and finite element methods, variational methods, integral meth-ods and similarity transforms to engineering problems in heat transfers, fluid mechanics and vibrations.
- ADVANCED SEMINAR IN MECHANICAL ENGINEERING 1-4 credits (May be repeated for a total of nine credits) Prerequisite: permission of department chair. Advanced projects and studies in various areas of mechanical engineering. Intended for student seeking Ph.D in engineering degree.
- PRELIMINARY RESEARCH 898 1-15 credits Prerequisite: approval of dissertation director. Preliminary investigations prior to the submission of a dissertation proposal to the Interdisciplinary Doctoral Committee
- DOCTORAL DISSERTATION 899 1-15 credits (May be taken more than once.) Prerequisite: acceptance of research proposal by the Inter-disciplinary Doctoral Committee and approval by the dissertation director. Original research by the doctoral student.

BIOMEDICAL ENGINEERING 4800:

- PHYSIOLOGICAL CONTROL SYSTEMS 522
- The basic techniques employed in control theory, systems analysis, and model identification as they apply to physiological systems.

3 credits

3 credits

3 credits

3 credits

- DESIGN OF MEDICAL IMAGING SYSTEMS 530 3 credits Prerequisites: Permission of instructor. Physical principles and engineering design of medical imaging systems, with emphasis on digital radiography, computed tomography, nuclear medicine, ultrasound and magnetic resonance.
- EXPERIMENTAL TECHNIQUES IN BIOMECHANICS 560 3 credits Prerequisites: Permission. Principles of testing and measuring devices commonly used for biofluid and biosolid mechanics studies. Laboratories for demonstration and hands-on experience.
- 570 HUMAN FACTORS ENGINEERING 3 credits Reliability and human error, human capabilities and limitations, crew protection, display systems, controls and controlling actions, interface design principles, risk management, safety and accident prevention.
- BIOMEDICAL ENGINEERING COLLOQUIUM 1 credit (May be repeated for a maximum of 16 credits) The Biomedical Engineering Colloquium is a 600 research, design, and business.
- FUNDAMENTALS OF BIOMEDICAL ENGINEERING 4 credits Prerequisite: Graduate standing in College of Engineering or permission of instructor. This course covers the fundamental areas of biomedical engineering including biomechanics, bio-materials, signal/image processing, biotransport phenomena, controls, and emerging areas. 605
- 611 BIOMETRY
 - 3 credits Statistics and experimental design topics for the biomedical and biomedical engineering disci plines including distributions, hypothesis testing and estimation, ANOVA, probit analysis and nonparametrics statistics.
- NEURAL NETWORKS 620

3 credits Examination of highly parallel, distributed architectures for computing that are, to varying degrees, derived from structures observed in biological nervous systems. After an overview of how real neurons operate, the course will examine both lassial and modern neural computing architectures. Comparisons will be made with traditional serial machines and applications for which neural networks seem most promising will be examined.

ADVANCES IN DRUG AND GENE DELIVERY SYSTEMS 627

3 credits This course will examine technological innovations for the delivery of drugs and genes. Meth-ods of introducing drugs and genes into the body, modeling drug transport, and metabolic responses of cells and organs will be analyzed.

BIOMEDICAL COMPUTING 630

3 credits Computer applications in health care, clinical laboratories, AMHT, medical records, direct order entry, A-D, D-A conversion, patient monitoring, peripherals and interfaces, diagnostic algo-rithms, automated EEG, ECG systems.

- 631 **BIOMEDICAL INSTRUMENTATION I** 4 credits Prerequisite: 605 or permission of instructor. This course covers biomedical equipment, biosig-
- nals and processing techniques, biomedical sensors/transducers, signal conditioning, data acquisition, noise control, device safety, and modern medical imaging systems. BIOMEDICAL OPTICS
- 633 3 credits Application of lightwave principles and optical fibers on the engineering design and develop-ment of instrumentation, techniques, and applications for medical diagnostic imaging, and treatment of disease.

634

MEDICAL IMAGING DEVICES 3 credits Imagining modalities including radiation, magnetic resonance, and sound. The formation of images. Specific devices including computer tomography, magnetic resonance, ultrasound, gamma cameras and PET.

640 SPINE MECHANICS

Prerequisites: Permission. Physical properties and functional biomechanics of the spine. Kinematics and kinetics of the human spine. Biomechanics of scoliosis, trauma, instability, pain, and orthoses. Mechanics and design of surgical implants.

HARD CONNECTIVE TISSUE BIOMECHANICS 642

Prerequisites: 3100:561 or equivalent; or permission. Physical properties and functional bio-mechanics of bone. The biology and mechanics of fracture and fracture healing. Mechanics of external and internal fixators. Total joint implants and reconstruction techniques.

MECHANICS IN PHYSIOLOGY AND MEDICINE 645

3 credits Blood rheology, mechanics of microcirculation, finite deformation theory, soft tissue mechan-ics, mechanics of blood and lymph circulation, kinetics and kinematics of orthopedic joints. Clinical applications.

647 KINEMATICS OF THE HUMAN BODY 3 credits Prerequisites: Graduate standing in the College of Engineering or by permission. Analytical methods used to model and quantify human body motion. Three-dimensional kinematics, joint coordinate systems, functional anatomy, segment center of mass and joint centers..

CARDIOVASCULAR DYNAMICS 650 3 credits Analysis of blood pumping action, pressure/flow waveform transmission and blood rheology factors. Use of modeling and direct measurement techniques. Clinical implications of disease.

TRANSPORT PHENOMENA IN BIOLOGY AND MEDICINE 3 credits 653 Basic definitions, cardiovascular mass and momentum transport, compartment modeling, mass transfer in physiological systems and artificial kidney and lung devices, Design opti-micration. Academic of human theorem is not an entering the system of the sys mization. Analysis of human thermal system.

MICROFI UIDS FOR BIOTECHNOLOGY 654

3 credits Prerequisite: 605 or permission of instructor. This course integrates principles of fluid mechan-ics, surface and polymer sciences, and microfabrication to analyze flow of biofluids at the microscale.

REHABILITATION ENGINEERING 655

Prerequisities: graduate standing in engineering, mathematics, or science; or permission of the instructor. Devices for rehabilitation, interfacing the motor and/or sensory impaired, guantitative assessment techniques, prosthetics and orthotics, bedsore mechanics, emerging technologies

BIOMATERIALS AND LABORATORY 660

Corequisite: Biomaterials Laboratory. Material uses in biological applications. Effect of physiological environment and sterilization on materials. Controlled and uncontrolled degradation. Effect of materials on soft tissue, hard tissue and blood. Laboratory experiments using mate-rials designed for biomedical use and demonstrations of biological/materials interactions.

ADVANCED BIOMATERIALS 661

3 credits Perequisites: 660 or permission of instructor. The objective of this course is to provide the fun-damental understanding of the host responses when exposed to various implantable devices and biomaterials. Methods for testing biocompatibility will be analyzed.

662

TISSUE ENGINEERING AND REGENERATIVE MEDICINE 3 credits Prerequisite: 661 or permission of instructor. This course will cover topics including basic developmental biology, quantitative description of biological processes, and integration of cells with metriche to recompare to incure with materials to regenerate tissue.

- 665 BIOMATERIALS AND TISSUE ENGINEERING METHODS 3 credits Prerequisites: 660 or permission of instructor. Corequisites: 661 or permission of instructor. This course is designed to equip students with knowledge and skills to evaluate biomaterials and to design scaffolds for tissue engineering. Analytical techniques include principles of microscopy, cell culture techniques, and biocompatibility testing.
- 670 MATHEMATICAL MODELING IN BIOLOGY AND MEDICINE 3 credits Prerequisites: graduate standing in engineering, mathematics, or physics; or permission of instructor. Modeling of pharmacokinetic, cardiovascular, neuromuscular, and immune sys-tems, and artificial organ interactions. Deterministic and stochastic approaches. 685 MEDICAL DEVICES AND ARTIFICIAL ORGANS 3 credits
- Prerequisites: graduate standing in engineering, mathematics, or science; or permission of instructor. Design of medical devices and artificial organs, requirements, safety considerations, tissue constraints, optimization techniques, government regulations, and legal liability.
- SPECIAL TOPICS IN BIOMEDICAL ENGINEERING (May be repeated) Specialized areas of study as defined by the instructor. 697 1-4 credits
- MASTER'S RESEARCH 698 1-6 credits Prerequisite: Permission of advisor. (May be repeated.) Research on a suitable topic in biomedical engineering culminating in a master's thesis.
- 699 MASTER'S THESIS 1-6 credits Prerequisite: permission of advisor. (May be repeated) Supervised research in the specific area of biomedical engineering.
- PRELIMINARY RESEARCH 1-15 credits (May be repeated) Prerequisite: Approval of the dissertation director. Preliminary investigations prior to the submission of a dissertation proposal to the Interdisciplinary Doctoral Committee.
- DOCTORAL DISSERTATION 899 1-15 credits Prerequisite: acceptance of research proposal by the Interdisciplinary Doctoral Committee and approval of the dissertation director. (May be repeated) Original research by the doctoral stu-

Education

EDUCATIONAL FOUNDATIONS AND **EADERSHIP**

INTRODUCTION TO INSTRUCTIONAL COMPUTING 520 3 credits Prepares the student in the use of instructional technologies in educational and business settings. Segments of the course are offered in an online format.

5100:

- 590,1,2 WORKSHOP 1-3 credits Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in face-to-face, web-enhanced, and fully online formats.
- PHILOSOPHIES OF EDUCATION 600 3 credits Examination of basic philosophical problems underlying broad educational questions that confront society. Intended to provide a foundation for understanding of questions of modern society and education.
- COMPARATIVE AND INTERNATIONAL EDUCATION 3 credits Comparative study of selected national school systems with reference to forces that shape 602 their characteristics. Different theoretical approaches used in study of comparative education also investigated.
- TOPICAL SEMINAR IN THE CULTURAL FOUNDATIONS OF EDUCATION 604 3 credits Issues and subjects related to study of educational institutions, theories and/or ideas. Different topics will be offered from section to section. Delivered in face-to-face, web-enhanced, and fully online formats
- INTRODUCTION TO STATISTICS IN HUMAN SERVICES 610 Applying basic statistical concepts and use statistics to address real world problems in social science. 3 credits
- 620 PSYCHOLOGY OF INSTRUCTION FOR TEACHING AND LEARNING 3 credits Current theories and research in the areas of cognition and learning, development, and motivation that underlay approaches to teaching in any context.
- 624 SEMINAR: EDUCATIONAL PSYCHOLOGY 3 credits In-depth study of research in selected areas of learning, development, evaluation, and moti-vation. Delivered in face-to-face and online formats.
- FUNDAMENTAL IN E-LEARNING 629 1 credit The nature, purpose, history and philosophy of e-learning will be explored through examina-tion of associated trends and issues. Establishment of a learning community will be addressed in the face-to-face course component. E-learning course/certificate overviews will be discussed
- TOPICAL SEMINAR IN COMPUTER-BASED EDUCATION 630 3 credits (May be repeated for a total of six credits. Advanced topics related to development, imple-mentation, research and evaluation in C.B.E. Student involvement emphasized, required. Knowledge of programming language recommended.
- PHILOSOPHIES OF EDUCATIONAL TECHNOLOGY 637 3 credits To introduce students to the many philosophies of educational technologies and the manner in which information technology especially influences our pedagogy.
- 640 TECHNIQUES OF RESEARCH 3 credits Research methods and techniques commonly used in education and behavioral sciences; preparation of research reports. Includes library, historical, survey and experimental research and data analysis. Delivered in face-to-face, web-enhanced, and fully online formats.
- 642 INTRODUCTION TO CLASSROOM ASSESSMENT FOR TEACHERS 3 credits The focus of this class is on the practical classroom assessment skills future and practicing teachers need for decision-making about student learning. Delivered in face-to-face, webenhanced, and fully online formats

VISION, GOAL PLANNING, AND PROFESSIONAL PRACTICE FOR 643 TEACHER LEADERS 3 credits This course reviews the main research, theories, and practices that make for effective organizational leadership and professional practice for teacher leaders.

- MULTICULTURAL COUNSELING 646 3 credits Prerequisites: 5600:643 or permission of instructor. An examination of multicultural counseling theory and research necessary to work with culturally diverse people.
- DATA AND EVIDENCE-BASED PRACTICE FOR TEACHER LEADERS 3 credits An examination of applied research techniques for school leadership and improvement efforts.

1-4 credits

- 648 INDIVIDUAL AND FAMILY DEVELOPMENT ACROSS THE LIFESPAN 3 credits An exploration of individual and family development. Emphasis will be placed on understand-ing the relationship between the individual and his/her family.
- IMPLEMENTING ASSESSMENT IN THE CLASSROOM 650 3 credits Prerequisite: 642. Students in this class will develop, implement, and evaluate a comprehen-sive nine-week assessment plan. Delivered in face-to-face, web-enhanced, and fully online formats
- DATA-DRIVEN DECISION MAKING FOR EDUCATORS 651 3 credits The purpose of this course is to facilitate the understanding and utilization of data to identify classroom/school improvement needs and make informed decisions in effecting change. Delivered in face-to-face, web-enhanced, and fully online formats.
- INTRODUCTION TO EDUCATIONAL EVALUATION 3 credits Introduction to core concepts of educational evaluation including the purpose, process, standards, and modesi of evaluation. Students will develop skills in interpreting and critiquing eval-uation reports. Delivered in face-to-face, web-enhanced, and fully online formats.
- PRACTICAL APPLICATIONS OF EDUCATIONAL EVALUATION 653 3 credits Prerequisite: 652. This course is designed as the second part of educational evaluation with a focus on the application of evaluation concepts and theory to real world situations. Delivered in face-to-face, web-enhanced, and fully online formats.
- MASTER'S PROJECT IN ASSESSMENT AND EVALUATION: PART 1 3 credits Prerequisite: permission of advisor. This capstone course is the culminating learning experi-ence for the master's degree in Assessment and Evaluation. Students complete a compre-hensive evaluation project of their choice. Delivered in face-to-face, web-enhanced, and fully 654 online formats.
- 655 MASTER'S PROJECT IN ASSESSMENT AND EVALUATION: PART 2 3 credits Prerequisite: 654, permission of advisor. This capstone course is the culminating learning experience for the master's degree in Assessment and Evaluation. Students complete a com-prehensive evaluation project of their choice. Delivered in face-to-face, web-enhanced, and fully online formats.
- FIELD EXPERIENCE: MASTER'S 695 1-3 credits Prerequisites: permission of department chair and instructor. Area determined in accordance with student's program and professional goals.
- INDEPENDENT STUDY 697 1-3 credits (May be repeated for a total of six credits) Prerequisites: permission of department chair and instructor. Specific area of study determined in accordance with student's program and professional goals.
- 698 MASTER'S PROBLEM 2-4 credits Prerequisite: permission of advisor. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with problems in educational foundations
- 699 MASTER'S THESIS 4-6 credits Prerequisites: permission of department chair and instructor. In-depth study of research problem within humanistic and behavior foundation.
- HISTORY OF EDUCATION IN AMERICAN SOCIETY 701 3 credits Historical development of education in American social order, with special emphasis on social, political and economic setting.
- SEMINAR: HISTORY AND PHILOSOPHY OF HIGHER EDUCATION 3 credits Prerequisite: 600 or equivalent. History and philosophy related to genesis and development of higher education in the Western world, with special emphasis given to higher education's 703 development in United States. Delivered in face-to-face, web-enhanced, and fully online formats.
- SEMINAR: SOCIAL-PHILOSOPHICAL FOUNDATIONS OF EDUCATION 705 3 credits (May be repeated for a total of six credits) Prerequisites: Admission to a College of Education doctoral program or permission. Inquiry into selected ideological social, economic and philo-sophical factors affecting educational development in United States and other countries.
- ADULT LEARNING, DEVELOPMENT, AND MOTIVATION 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Emerging theories of adult cognitive, theories of adult cognitive, conceptu-al and moral development; life cycle development; adult-like transitions. 710

LEARNING PROCESSES 721 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Study of principles underlying classroom learning processes with particular emphasis on teaching as means of modifying pupil behavior; cognitive, motor, social and affective.

TEACHER BEHAVIOR AND INSTRUCTION 723 3 credits Perequisite: 600. Intensive survey of theoretical and empirical literature involving teacher and conceptions of instruction. A student reports on theory, empirical research and applications in areas of individual interests.

740 RESEARCH DESIGN

3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Topics include problem statement, research questions, literature review, choosing a sample, selecting an appropriate research design and data collection method, and ethical and legal issues.

DATA COLLECTION METHODS 741 3 credits Prerequisites: 740 and admission to a College of Education doctoral program or permission. Emphasis on selecting, developing, and administering common data collection methods in education and social science research including standardized tests, inventories, questionnaires, focus groups, and content analysis.

STATISTICS IN EDUCATION 742

Prerequisites: Admission to a College of Education doctoral program or permission. Statistical methods and techniques used in educational measurement and in educational research. Emphasis on hypothesis testing.

3 credits

- ADVANCED EDUCATIONAL STATISTICS 743 3 credits Prerequisite: 741 and admission to a College of Education doctoral program or permission.. Emphasis on interpreting advanced statistics in education and the social sciences.
- QUALITATIVE METHODS I 3 credits Provides an overview of theory about and hands-on experience with methods of qualitative research. Techniques of participant-observation, interviewing, and document collection will be covered.

745

QUALITATIVE METHODS II 3 credits Prerequisite: 744. Provides more advanced experience with theory and methods of qualitative research. Data collection and analysis will focus on students' research interests and possible dissertation topics

RESEARCH PROJECT IN SPECIAL AREAS 1-3 credits Prerequisite: permission of department chair and instructor. Critical and in-depth study of specific problem in educational foundations.

RESEARCH SEMINAR 801 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Intensive study of research methods applicable to education. Emphasis on developing a dissertation proposal

- 897 INDEPENDENT STUDY
 - (May be repeated for a total of eight credits.) Prerequisites: permission of department chair and instructor. Specific area of inquiry within humanistic and behavioral foundations of education determined in advance by student and faculty advisor.

INSTRUCTIONAL TECHNOLOGY 5150:

- WORKSHOP 1-3 credits Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in face-to-face, web-enhanced format, and fully online format.
- INTRODUCTION TO INSTRUCTIONAL TECHNOLOGY 610 3 credits Provides the learner with foundational understanding of technology standards and will provide the conceptual framework for the study of technology's impact on teaching and learning in the 21st Century
- 614 PLANNING FOR TECHNOLOGY 3 credits Corequisite: 610. Emphasizes the process of planning for the use of technology in schools, businesses, institutions. Includes plans for faculty support and alternative managements of computer hardware and software.
- INSTRUCTIONAL DESIGN 3 credits Corequisite: 610. The theory and practice of Instructional Design (ID) involves a systematic approach to the analysis, design, development, evaluation, and implementation of effective instruction.
- WEB-BASED LEARNING SYSTEMS 3 credits 632 Corequisite: 610. Help students become proficient in the design, development, and evaluation of web-based learning systems for training and education. This course is offered fully online. MULTIMEDIA/HYPERMEDIA 3 credits
- Prequisite: 610. Introduces students to a variety of Multimedia and Hypermedia tools (digital, image, audio, video, and authoring) and demonstrates how these products can be delivered via web to support learning.
- 634 VISUAL LITERACY 3 credits This course will combine a basic understanding of design principles and concepts with research findings on the use of visuals in the learning process.
- EMERGING TECHNOLOGIES IN INSTRUCTION 3 credits 635 This course examines emerging technologies (hardware, software, systems) that support teaching/learning, and methods for assessing the utility of any technology used for instructional purposes.
- TOPICAL SEMINAR IN EDUCATIONAL TECHNOLOGY 636 Current trends and practices in educational technology: computer authoring software, tools and processes for instructional video production, presentation systems.
- INTEGRATING AND IMPLEMENTING TECHNOLOGY 638 3 credits Desgined to equip teachers with tools, resources, and strategies to support the integration and implementation of effective use of technology in the classroom.
- STRATEGIES FOR ONLINE TEACHING AND LEARNING 3 credits Corequisite: 610. Prepare instructors to make the transition from teaching in a physical classroom to facilitating learning in a virtual classroom. Delivered in a fully online format.
- MASTER'S TECHNOLOGY PROJECT 2-3 credits 696 Prerequisite: permission of advisor. Prepare and test a technology learning package that includes any combination of text, graphics, sound, color, motion, and the provision for interaction by the target students.
- INDEPENDENT STUDY 697 1-3 credits (May be repeated for a total of six credits) Prerequisites: permission of department chair and instructor. Specific area of study determined in accordance with student's program and professional goals

GENERAL ADMINISTRATION 5170:

- 590 WORKSHOP 1-3 credits Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in faced-to-face web-enhanced format and fully online format.
- 591.3 WORKSHOP 1-3 credits Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in faced-to-face web-enhanced format and fully online format.
- ORGANIZATIONAL LEADERSHIP 3 credits Prerequisite: 5100:640. A perspective of educational leadership and the context in which it research required.
- 602 MANAGEMENT OF PHYSICAL RESOURCES 3 credits A comprehensive view of the principles, practices, and new dimensions involved in the plan-ning and management of educational facilities.
- 603 MANAGEMENT OF HUMAN RESOURCES 3 credits An orientation to the major dimensions of the personnel function.
- SCHOOL CONTEXTS AND COMMUNITY INVOLVEMENT 604 3 credits Prerequisites: 601 and 5100:640. This course is for graduate students interested in P-12 school leadership. It focuses on understanding strategies for collaborating with members of the school community.
- EVALUATION IN EDUCATIONAL ORGANIZATIONS 606 3 credits Prerequisites: 601 and 5100:640. An examination of the general concepts, models, practical applications and considerations involved in the evaluation of educational organizations. SCHOOL LAW 3 credits
- Prerequisites: 5100:601 and 5100:640. An examination of the legal principles underlying edu-cation in the United States as reflected in statutory provisions, court decisions and adminis-trative orders. Field based research required. Course also available fully online.
- 608 SCHOOL FINANCE AND ECONOMICS 3 credits A study of financial operations of school systems, including taxes, other sources of revenue, expenditures, budgeting and effects of economic factors.
- PRINCIPLES OF CURRICULUM DEVELOPMENT 609 3 credits Prerequisites: 601 and 5100:640. This course is intended to help the student develop the per-formance competencies necessary to engage in curriculum decision making.
- SUPERVISION OF INSTRUCTION 3 credits Prerequisites: 601 and 5100:640. An introduction to the school function that improves instruction through direct assistance, curriculum, staff and group development and action research.

130 The University of Akron 2013-2014

- 613 STUDENT SERVICES AND INTERAGENCY COLLABORATION 3 credits STUDENT SERVICES AND INTERAGENCE COLLADORATION Prerequisites: 601 and 5100:640. Overview of pupil services including analysis of the nature and development of each component and program and discussion of current issues and trends. Field based research required.
- STUDENT SERVICES AND DISABILITY LAW 615 3 credits Prerequisites: 601 and 5100:640. The course examines the statutory and case laws and reg-ulations affecting students with disabilities. Laws are reviewed, policy implications identified, and legally compliant practices proposed.
- SCHOOL CULTURE AND GOVERNANCE 620 3 credits An examination of leadership as it relates to the development and maintenance of a school cli-mate and culture conducive to teaching and learning.

695,6 PRINCIPAL INTERNSHIP

3 credits each Students are required to successfully complete a two-semester internship in a school district chosen by the student and his/her advisor.

INDEPENDENT STUDY 697

Prerequisites: permission of advisor and supervisor of the independent study. Area of study determined by student's needs. (May be repeated for a total of six credits.)

ADVANCED ORGANIZATIONAL LEADERSHIP 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Study of organizations and strengths and weaknesses of common methods of administering them. Practical means by which overcoming bureaucratic weaknesses of bureaucracies are offset or lessened by educational institutions.

DECISION MAKING IN EDUCATIONAL ADMINISTRATION 705

3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Decision making is portrayed as a central function of the educational administrator with a united presentation of the theory, research and practice of decision making.

THE SUPERINTENDENCY 707

3 credits An orientation to the superintendent's role and an examination of the strategies for dealing with the major relational and functional aspects of the superintendency.

ECONOMICS IN EDUCATION 708

3 credits Prerequisites: Admission to a College of Education doctoral program or permission. Issues related to the changing marketplace of public, private schooling and higher education institu-tions as they relate to an urban environment.

ADVANCED PRINCIPLES OF CURRICULUM DEVELOPMENT 709 3 credits

A second course in curriculum development with an emphasis on the performance compe-tencies needed to engage in curriculum planning and decision making.

ADVANCED SCHOOL LAW 710

3 credits Prerequisites: Admission to a College of Education doctoral program or permission. An in-depth study of the law as it pertains to the function and role of the administrator as instructional leader; disciplinarian; building, facilities, and auxiliary services manager.

ADVANCED EVALUATION OF EDUCATIONAL ORGANIZATIONS 716

3 credits Prerequisites: Admission to a College of Education doctoral program or permission. An eval-uation course to help educational leaders plan and assess educational priorities and outcomes

720 TOPICAL SEMINAR

1-3 credits (May be repeated with a change of topic for a total of six credits.) Prerequisites: Admission to a college of Education doctoral program or permission. An intensive examination of a particular area of Educational Leadership.

RESIDENCY SEMINAR 730

theory

Prerequisites: Admission to a College of Education doctoral program or permission. Focus on recent research in administration and educational administration theory.

RESIDENCY SEMINAR 731 3 credits Prerequisite: 601. Focus on recent research in administration and educational administration

732

PUBLIC AND MEDIA RELATIONS IN EDUCATIONAL ORGANIZATIONS 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. A course in educational public relations intended to help educational leaders facilitate the development of common perceptions about school issues with multiple constituencies.

740

THEORIES OF EDUCATIONAL SUPERVISION 3 credits Extends 610, including supervisory models, staff development, and the organizational envi-ronment's impact on the climate for effective supervision.

SEMINAR: URBAN EDUCATIONAL ISSUES 745 3 credits Prerequisites: Admission to a College of Education doctoral program or permission. A study of the linkages between educational organizations and their social contexts, particularly as they relate to educational change. Research project required.

746 POLITICS OF EDUCATION

Prerequisites: Admission to a College of Education doctoral program or permission. Emphais given to recent efforts to bring about reform at all levels of the educational enterprise and to conceptual perspectives and research findings.

795,6 INTERNSHIP IN EDUCATIONAL ADMINISTRATION

1-5 credits Prerequisites: Admission to a College of Education doctoral program or permission. Students are required to successfully complete a two-semester internship in a school district chosen by the student and his/her advisor.

895,6 DOCTORAL INTERNSHIP

Candidates for the doctoral degree in educational administration must prepare and complete a research proposal that includes research questions, a literature review, and a research design. They must collect, analyze, and interpret data.

INDEPENDENT STUDY 897

Prerequisites: permission of advisor. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in edu-cation. (May be repeated for a total of six credits.)

DOCTORAL DISSERTATION 899

Prerequisite: permission of advisor. Specific research problem that requires student to apply research skills and techniques to the problem being studied.

HIGHER EDUCATION ADMINISTRATION 5190:

- ADMINISTRATION IN HIGHER EDUCATION 3 credits In-depth study of administrative roles, functions, knowledge and skills requirements, and administrative behavior. Trends in administrative theory and application also explored. Delivered in face-to-face web enhanced format and fully online format.
- LAW AND HIGHER EDUCATION Legal aspects of higher education, sources of law and authority presented; impact on, interaction with, and implications of the administration of higher education discussed. Delivered in face-to-face web-enhanced format and fully online format.

- 525 TOPICAL SEMINAR: HIGHER EDUCATION 3 credits (May be repeated.) Topical study in a variety of areas related to public and/or private higher education institutions, organizations. Maximum of six credits applied to degree. Delievered in face-to-face web enhanced format and fully online format.
- 526 STUDENT SERVICES AND HIGHER EDUCATION 3 credits Examination of issues related to the delivery and evaluation of student services in higher education. Delivered in face-to-face web enhanced format and fully online format.

THE AMERICAN COLLEGE STUDENT 527 3 credits Introduction to the sociopsychological literature concerning the impact of college on students and student development theory. Delivered in face-to-face web enhanced format and fully online format.

HIGHER EDUCATION CURRICULUM AND PROGRAM PLANNING 3 credits Study of curriculum planning at the college and university level, factors influencing curriculum design, theories and practices of curricular change and innovation are also explored. Delivered in face-to-face web enhanced format and fully online format.

590 WORKSHOP

1-3 credits

3 credits

1-20 credits

1-3 credits (May be repeated for a total of six credits.) Emphasizing the development and demonstration of leader behavior appropriate to the college or university setting. Delivered in faced-to-face web-enhanced format and fully online format.

ADVANCED ADMINISTRATIVE COLLOQUIUM IN HIGHER EDUCATION 3 credits Prerequisite: permission. (To be taken during student's final semester of coursework) Exami-nation of higher education administration perspectives and issues, including those that pose particular concern to students. Capstone experience for students poised for program comple-tion. Delivered in face-to-face web enhanced format and fully online format. 600

INTERNSHIP IN HIGHER EDUCATION 1-3 credits

(May be repeated for a total of six credits) Prerequisite: permission; corequisite: 602. Intensive work experience in operations of an institution of higher education, related to student's own program of studies and professional goals. Delivered in face-to-face web enhanced format and fully online format.

INTERNSHIP IN HIGHER EDUCATION SEMINAR 602 1 credit (May be repeated for a total of three credits) Prerequisite: permission; corequisite: 601. To be taken in conjunction with internship for synthesis of problems encountered in internship expe-rience and to provide the opportunity to share ideas and experiences from various areas of higher education internship placement. Delivered in face-to-face web enhanced format and

fully online format. 610 DIVERSITY ISSUES IN HIGHER EDUCATION 3 credits Examination of psychosocial literature and theories related to diverse groups and issues withemphasized.

615 HISTORICAL FOUNDATIONS OF AMERICAN HIGHER EDUCATION 3 credits Overview of the historical foundations, academic history, and educational traditions emerging from its European roots into American higher education to inform contemporary practice.

620 FINANCE AND HIGHER EDUCATION 3 credits Facilitates student's understanding of how American Higher Education is financed, identifies various methodologies used, and political and economic impacts and processes involved.

- Delivered in face-to-face web enhanced format and fully online format. POLICY, ASSESSMENT, AND ACCOUNTABILITY IN HIGHER EDUCATION 626 3 credits Familiarizes student with assessment, policy-making, and accountability in higher education. Theoretical approaches explored, internal and external policy actors identified and implementation issues are examined. Delivered in face-to-face web enhanced format and fully online format
- 635 INSTRUCTIONAL STRATEGIES AND TECHNIQUES FOR THE COLLEGE INSTRUCTOR 3 credits Selected topics in instructional theory, techniques and strategies which are appropriate to instructional planning and development of college-level courses. Delivered in face-to-face web enhanced format and fully online format.
- INDEPENDENT STUDY IN HIGHER EDUCATION 1-3 credits INDEPENDENT STUDTIN HIGHER EDUCATION From the second state of the second second state of independent investigation in an area of higher education as determined by the advisor and student in relation to student's academic needs and career goals. Delivered ce-to-face web enhanced format and fully online format.

TEACHING AND TRAINING TECHNICAL PROFESSIONALS 5400:

- 500 POSTSECONDARY LEARNER 3 credits Describes characteristics of the postsecondary learner; studies issues, factors, and strategies pertinent to successful facilitation of learning in a variety of postsecondary learning environments. Delivered in face-to-face web-enhanced format and fully online format.
- 501 LEARNING WITH TECHNOLOGY 3 credits An overview of informational learning and research technologies used and applied in work-force education and training by practitioners/learners for learning, research, and evaluation. Delivered in an online format.
- WORKPLACE EDUCATION FOR YOUTH AND ADULTS 505 History and operations of current workforce education for youth and adults. Includes study of social, economic, and political influences that stimulate growth and expansion of workforce education. Delivered in face-to-face web-enhanced format and fully online format.
- TRAINING IN BUSINESS AND INDUSTRY 3 credits Examine the role and mission of the training function in the modern industrial setting. Foun-dation for students interested in industrial trainer or training supervision positions. Delivered in face-to-face web-enhanced format and fully online format.
- POSTSECONDARY INSTRUCTIONAL TECHNOLOGY 520 3 credits Experiences in using, developing, and evaluating instructional technology and media used in postsecondary learning environments. Delivered in face-to-face web-enhanced format and fully online format.
- SYSTEMATIC CURRICULUM DESIGN FOR POSTSECONDARY INSTRUCTION 3 credits Procedure of breaking down an occupation to determine curriculum of their laboratory and classroom, developing this content into an organized sequence of instructional units. Deliv-ered in face-to-face web-enhanced format and fully online format. 530
- 535 SYSTEMATIC INSTRUCTIONAL DESIGN IN POSTSECONDARY EDUCATION 3 credits Selected topics in instructional design appropriate in postsecondary technical education. Emphasis on instructional methods, techniques in classroom, laboratory including tests, mea-surements.. Delivered in face-to-face web-enhanced format and fully online format.
- EDUCATIONAL GERONTOLOGY SEMINAR 3 credits Designed for person practicing in field of gerontology or preparing for a specialization in edu-cational gerontology, including person responsible for development and implementation of courses, seminars, occupational training programs and workshops for older people.
- 580 SPECIAL TOPICS: WORKFORCE EDUCATION/TRAINING 1-3 credits (May be repeated for a maximum of six credits with a change in topic) Group study of special topics of critical, contemporary concern in professional education.

- 590.1.2 WORKSHOP
- 1-3 credits each Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in face-to-face web-enhanced format and fully online format.
- EDUCATIONAL INSTITUTES 594 1-4 credits Special courses designed as in-service upgrading programs, frequently provided with the sup-port of national foundations.
- THE TWO-YEAR COLLEGE 600 3 credits Introduces students to the nature, purpose, and philosophy of the two-year college. Includes an examination of two-year colleges, technical schools, proprietary schools offering courses at the postsecondary level. Delivered in face-to-face web-enhanced format and fully online for-
- ADVANCED SYSTEM DESIGN: NEEDS ASSESSMENT AND EVALUATION 605 3 credits An examination of the instructional design in workforce education and training and supporting research in effective performance-based program needs, assessment, and evaluation processes. Delivered in face-to-face web-enhanced format and fully online format.
- POSTSECONDARY TEACHER LEADERSHIP 620 3 credits An examination of the role of supervisor of postsecondary instruction, facilitation and evalua-tion of postsecondary instructors, professional development, as well as related leadership and management issues. Delivered in face-to-face web-enhanced format and fully online format.
- POSTSECONDARY DISTANCE LEARNING 3 credits Introduction of the nature, purpose, and philosophy of distance learning; examination of cur-rent scope, history, theory, institutions, and programs of distance learning. Delivered in faced-to-face web-enhanced format and fully online format. Delivered in online format.
- 675 ADVANCED INSTRUCTIONAL APPLICATIONS SEMINAR 3 credits Percequisites: 500, 520, 530, and 535. Provides an environment for students to apply learned teaching skills, evaluate their teaching abilities, and fine-tune skills before independently teaching in the field. Delivered in face-to-face web-enhanced format and fully online format.
- INTERNSHIP IN POSTSECONDARY EDUCATION 3 credits Prerequisites: 500, 501, 520, 530, and 535. Teaching or curriculum development under super-vision from the University and the learning organization. Includes a seminar and portfolio development. Delivered in an online format.
- FIELD EXPERIENCE: MASTER'S FIELD EXPERIENCE: MASTER'S 1-6 credits (30-180 field hours) On-the-job experience related to student's program of studies. Credit/noncredit. 695
- INDEPENDENT STUDY 697 1-3 credits (May be repeated for a total of six credits.) Area of study determined by student's need.
- MASTER'S PROBLEM 698 3 credits (May be repeated for a total of six credits.) In-depth study of an instructional or curricular prob-lem in workforce education or training. Student must be able to demonstrate critical, analytical, and problem-solving skills.
- 3 credits MASTER'S THESIS (May be repeated for a total of six credits.) Opportunity to conduct research on a problem in workforce education or training. Student must be able to demonstrate needed analytical, eval-uation, and basic research skills. Credit/noncredit.

CURRICULAR AND INSTRUCTIONAL STUDIES

ADVANCED INSTRUCTIONAL TECHNIQUES 520 3 credits 8 credits Methods of teaching a particular area of the 7-12 school curriculum for students in the Mas-ter's with Licensure program.

5500:

- FIELD EXPERIENCE: ADVANCED INSTRUCTIONAL TECHNIQUES 521 2 credits Corequisite: 520. Instructional experience in the 7-12 classroom to apply theory and research to practice.
- CONTENT AREA LITERACY 522 3 credits Examines instructional strategies for constructing meaning in content subjects (e.g., science, social studies, mathematics) using print and electronic texts.
- TEACHING READING TO CULTURALLY DIVERSE LEARNERS 524 3 credits Knowledge, skills and attitudes to employ effective methods of teaching reading to diverse populations and/or learners whose language patterns are nonstandard.
- PRINCIPLES OF BILINGUAL/MULTICULTURAL EDUCATION 540 3 credits An introduction to the theoretic, cultural, sociolinguistic bases of bilingual/multicultural educa-tion. Legislation, court decisions, program implementation included.

TEACHING LANGUAGE LITERACY 541

TO SECOND LANGUAGE LEARNERS 4 credits (12 field he Course applies methodologies for teaching reading, language arts in the bilingual/multicultural classroom. The bilingual student's native language and culture are 4 credits (12 field hours) stressed.

TEACHING MATHEMATICS, SOCIAL STUDIES AND SCIENCE TO BILINGUAL STUDENTS 542

3 credits Prerequisites: elementary education majors, 5500:333, 336, 338; secondary education majors, 5500:311 (science, social studies in the bilingual/multicultural classroom. Course applies methodologies for teaching mathematics, science, social studies in the bilingual multi-cultural classroom. The bilingual student's native language stressed.

TECHNIQUES FOR TEACHING ENGLISH 543

AS A SECOND LANGUAGE 3 credits (10 field hours) Course includes teaching language skills to Limited English Proficient students in grades K-12, administration of language assessment tests, selection and evaluation of materials.

- NATURE, HISTORY, AND PHILOSOPHY OF SCIENCE 3 credits (May be repeated with a change of topic) Provides opportunities to examine the historical and philosophical perspectives of science in an online medium and the impact of science and technology on society.
- LITERACY FOR MULTIAGE LICENSURE 3 credits 555 Prerequisite: Admission to Teacher Education program. Organizing instruction, use of oral lan-guage development protocols, strategies for word skill development, comprehension and assessment as they relate to content areas.
- INSTRUCTIONAL TECHNOLOGY APPLICATIONS 575 3 credits Focus on developing learner competencies in the use of instructional technologies to enhance both the instructor's personal and professional productivity.
- 590.1.2 WORKSHOP 1-3 credits Workshop for educators to improve teaching skills in a specific area of the curriculum. (May be repeated for a maximum of 6 credits.)
- EDUCATIONAL INSTITUTES 1-4 credits Special courses designed as in-service upgrading programs. Frequently provided with support of national foundations.
- A study of the undergirding research and theory of curriculum and instruction with special attention to educational decision in the metropolitan setting. (3 field hours) CONCEPTS OF CURRICULUM AND INSTRUCTION 600

- 605 SEMINAR IN TRENDS AND ISSUES IN CURRICULUM AND INSTRUCTION 3 credits A study of recent research and theory in curriculum and instruction with special attention to applications to educational decision making.
- PHILOSOPHY AND ORGANIZATION OF MIDDLE SCHOOLS 3 credits 615 Philosophy, theory, research, and exemplary organizational, assessment, and evaluation com-ponents of middle level education.
- 616 MIDDLE SCHOOL CURRICULUM AND INSTRUCTION 3 credits Theories, research, and exemplary practices focusing on middle school curriculum and instruction.
- 617 LICENSURE SEMINAR IN CURRICULAR AND INSTRUCTIONAL STUDIES 3 credits This course should be taken at the beginning of the Master's with Licensure program as an introduction to curriculum and the pragmatics of teaching.
- 619 INSTRUCTIONAL AND MANAGEMENT PRACTICES 3 credits Students learn to use teaching models and management strategies to become effective in instructors. Also included are educational issues that relate to effective management and instruction. (50 field hours)
- ADVANCED INSTRUCTIONAL TECHNIQUES: MODERN LANGUAGES P-8 3 credits Prerequisite: 617or permission of instructor. Focus is on theories of language acquisition, mod-els of instruction suited to teaching foreign languages and cultures in the (P-8) classroom, and strategies that promote appropriate levels of language competence and proficiency for young learners. (35 field hours) 621
- 622 CHILDREN'S LITERATURE IN THE CURRICULUM 3 credits Examination of literary genre with emphasis on methods and techniques for presenting litera-ture to children in preschool, elementary, and middle grades.
- CONTEMPORARY ISSUES IN LITERACY INSTRUCTION AND PHONICS 625 3 credits Survey course explores current research in reading and writing as constructive processes of meaning-making.
- ASSESSMENT OF READING DIFFICULTIES 3 credits Prerequisite: 625. Examines formal and informal assessments and intervention strategies for children with reading difficulties.
- SPECIAL TOPICS: CURRICULAR AND INSTRUCTIONAL STUDIES3 credits 627 Prerequisite; permission of instructor. (May be repeated with a change in topic for a maximum of 9 credits) Groups study of special topics of critical, contemporary concern in professional education.
- LITERACY ASSESSMENT PRACTICUM 3 credits (25.5 field hours) Prerequisite: 626. Laboratory experience within classroom, small groups and individuals. A student diagnoses, implements procedures, and follows prescribed reading improvement. (May be repeated for a maximum of 6 credits.) 628
- READING PROGRAMS IN SECONDARY SCHOOLS 629 3 credits For all subject teachers both with and without previous study in the teaching of reading. Materials, class organization and procedures for developing reading improvement programs, for all secondary school and college students.
- ADVANCED BEHAVIORAL STRATEGIES FOR THE EDUCATOR 3 credits This course provides the educator with an advanced examination of strategies designed to improve student behavior in the school setting.
- SEMINAR IN TEACHING FOREIGN LANGUAGES 635 3 credits (May be repeated for a total of six credits.) Issues and subjects related to research in foreign language education and language learning theories. Different topics will be offered from section to section.
- TOPICAL SEMINAR IN RESEARCH AND THEORY IN FOREIGN LANGUAGE EDUCATION 3 credits (May be repeated for a total of six credits.) Issues and subjects related to research in foreign language education and language learning theories. Different topics will be offered from sec-637 tion to section.
- INTRODUCTION TO TEACHER LEADERSHIP 639 3 credits This course philosophically, scientifically, and historically explores contemporary teacher lead-ership in the United States through scholarly, critical and practical inquiry in addition to reflec-tion of the diverse between the optimized states and the science of the scien tive action in diverse learning ecologies.
- DEVELOPMENT OF CHILDREN: GRADES FOUR AND FIVE 3 credits Prerequisite: Early Childhood P-3 teaching license. Course focuses on nature/needs of grades four to five adolescents' development including physical, cognitive-intellectual, moral, psycho-logical and social-emotional. Explore related issues in home, school and community contexts.
- FOURTH GRADE CURRICULUM AND INSTRUCTION 3 credits 641 Prerequisite: 640. The language arts, mathematics, science and social studies, arts, and tech-nology content and the knowledge of inquiry and problem-based instruction necessary for fourth grade learners.
- 642 FIFTH GRADE CURRICULUM AND INSTRUCTION 3 credits Prerequisite: 640. Models an inquiry-based format that integrates math, science, social stud-ies, and technology standards where students learn to create, implement, manage, and evaluate student-centered learning environments.
- THEORY AND PRACTICE IN ELEMENTARY SCHOOL MATHEMATICS 3 credits Focuses on the development of mathematics education, current trends in the teaching of ele-mentary school mathematics, and future directions in mathematics education.
- ELEMENTARY SCIENCE CURRICULUM AND INSTRUCTION 650 3 credits A critical analysis of contemporary science curriculum and instructional methods for the young learner with particular attention to constructivism and national standards.
- SECONDARY SCIENCE CURRICULUM AND INSTRUCTION 3 credits A critical analysis of the theory and practice of curriculum and instructional methods in science for early adolescent and adolescent learners.
- COACHING IN DIVERSE CLASSROOMS 660 2 credits This course focuses on the preparation of literacy specialists to coach teachers in the imple-mentation of culturally responsive literacy instruction for diverse learners.
- COACHING FOR EFFECTIVE ASSESSMENT PRACTICE 661 2 credits Designed for reading specialists, this course teaches knowledge, skills and dispositions in school-based professional development and coaching on classroom-based literacy assessment concepts and skills.
- 662 PEDAGOGY OF EFFECTIVE LITERACY INSTRUCTION 2 credits The course enables candidates to demonstrate knowledge of a wide range of instructional practices, methods, and curriculum materials, including technology, that support effective literacy.
- PROFESSIONAL DEVELOPMENT IN LITERACY 2 credits An introduction to research and knowledge bases related to teacher professional development 663 with an examination of coaching as one venue of supporting teacher professional development.

664

ADVANCED LITERACY RESEARCH 2 credits This course is an introduction to literacy research as an integral part of professional development and supports engagement in inquiry that advances candidates' understanding of literacy instruction

- 665 LITERACY SPECIALIST INTERNSHIP 4 credits (Repeatable for a maximum of eight credits) The internship is a school-based practicum that integrates the accomplishment of the Literacy Specialist Endorsement Standards and focuses on data-based decision making to inform coaching.
- MASTER'S RESEARCH 690 3 credits Prerequisite: 760. The implementation of a research design for an inquiry into a curricular and/or instruction problem within an educational setting.
- FIELD EXPERIENCE: COLLOQUIUM 692 Prerequisite: admission to student teaching; corequisite: 694. Instructional experience in the 7-12 classroom to apply theory and research to practice.
- FIELD EXPERIENCE: MASTER'S WITH LICENSURE 1-3 credits Instructional experience in the 7-12 classroom to apply theory and research to practice. (May be repeated for a maximum of 6 credits) (50 field hours per credit) 693
- FIELD EXPERIENCE: CLASSROOM INSTRUCTION 694 1-12 credits Prerequisites: admission to student teaching corequisite: 692. Planned teaching experience in schools selected and supervised by Office of Extended Educational Experiences.
- 695 FIELD EXPERIENCE: MASTER'S 1-6 credits Prerequisites: permission of advisor and department chair. Experience in an educational setting to apply educational theory and research to practice.
- MASTER'S PROJECTS 696 1-6 credits In-depth investigation of specific problem pertinent to student's area of concentration in education.
- 697 INDEPENDENT STUDY 1-3 credits Selected areas of independent investigation as determined by advisor and related to student's academic needs.
- MASTER'S THESIS 4-6 credits 699 In-depth study of research problem in education. Student must be able to demonstrate nec-essary competencies to deal with research problem in education.
- CURRENT RESEARCH AND THEORY IN SCIENCE EDUCATION 3 credits Intensive examination of contemporary theory and research literature in science teaching and learning for preschool through senior high school students. 750
- ACTION RESEARCH 760 3 credits Prerequisite: Admission to the program. Students develop skills needed to conduct Action Research studying their own instruction to identify means to improve the effectiveness of teaching and learning.
- SEMINAR IN CURRICULAR AND INSTRUCTIONAL STUDIES 780 1-3 credits (May be repeated) Intensive examination of a particular area of curriculum and instruction.
- PROFESSIONAL SEMINAR IN CURRICULAR AND INSTRUCTIONAL STUDIES 3 credits 800 Prerequisite: admission to either the Ph.D. in Elementary Education or the Ph.D. in Secondary Education program. Learners will develop individualized programs of study and plan their doctoral studies. An overview of process and procedures will be addressed.
- ADVANCED STUDY AND RESEARCH IN READING INSTRUCTION 3 credits 820 Survey of research, comparison and evaluation of programs, design and development of pro-jects in reading through group or individual study.
- DOCTORAL SEMINAR IN CURRICULAR AND INSTRUCTIONAL STUDIES 1-3 credits Prerequisite: admission to the Ph.D. program in either Elementary Education or Secondary 880 Education or department consent. Intensive examination of a particular area of teacher edu-cation. (May be repeated with change of topic and for a total of 9 credits.)
- DOCTORAL FIELD EXPERIENCE 1-6 credits each 895 (May be repeated for a total of 6 hours.) Intensive job-related experience pertinent to student's needs. Student must be able to demonstrate skills and leadership abilities in an on-the-job situation
- 898 INDEPENDENT STUDY 1-6 credits (May be repeated for a total of 6 hours.) Area of study determined by student's need
- DOCTORAL DISSERTATION 1-20 credits 899 Study and in-depth analysis of a research problem in curriculum and instruction.

PHYSICAL EDUCATION 5550:

- MUSCULOSKELETAL ANATOMY I: UPPER EXTREMITY 500 3 credits Designed to address the upper portions of the musculoskeletal system in comprehensive detail, Includes articulations, cytology, histology, neurological integration with lab and practical evenences.
- 501 MUSCULOSKELETAL ANATOMY II: LOWER EXTREMITY 3 credits Designed to address the lower portions of the musculoskeletal system in comprehensive detail. Includes articulations, cytology, histology, neurological integration with lab and practical organizations. experiences.
- ADVANCED STRENGTH AND CONDITIONING 505 3 credits This course teaches strength and conditioning programs designed for heterogeneous popula-tions. The course covers high-level sport specific exercise prescriptions that aid injury prevention and performance enhancement.
- INTRODUCTION TO SPORT SOCIOLOGY 510 3 credits Provides information to students about the sociological aspects of sport. Delviered in a totally online format, web-based format, or face-to-face format.
- CARDIORESPIRATORY FUNCTION This course is designed to study the normal structure and function of the respiratory system and how it is affected by different types of disease.
- SPORT MANAGEMENT 520

3 credits This course seeks to explore, acquire, and discuss knowledge within the theoretical and applied management practices of sport, fitness, and instructional programs. Delivered in a totally online format, web-based format, or face-to-face format.

- SPORTS PLANNING/PROMOTION 522 3 credits Analysis of marketing/promotions from a sport manager's perspective. Emphasis on market-ing strategy, tactics, and development in sport delivery systems. Delivered in a totally online format, web-based format, or face-to-face format.
- SPORT LEADERSHIP 524 3 credits Introduces students to current issues related to leadership, management, and supervision. Examines current sport leadership research and governance structure of amateur and professional sport organizations. Delivered in a totally online format, web-based format, or faceto-face format
- NUTRITION FOR SPORTS 526 3 credits This course will provide an explanation of the consumption, absorption, and recommendation for diet of athletes and the physically active individual.
- NUTRITION FOR TEACHERS AND COACHES 528 3 credits Covers nutritional basics and current topics related to teaching physical education/health and coaching athletes.

- 536 FOUNDATIONS AND ELEMENTS OF ADAPTED PHYSICAL EDUCATION 3 credits Principles, components, and strategies necessary in providing motor activities for handi-capped students via application of a neuro-developmental model and alternative methods. Three hour lecture.
- 538 CARDIAC REHAB PRINCIPLES 3 credits This course will teach students the core competencies for cardiac rehab professionals, based upon the American Association of Cardiovascular and Pulmonary Rehabilitation Specialists (AAVCPR)
- 540 INJURY MANAGEMENT FOR TEACHERS AND COACHES 2 credits This course challenges the graduate student to understand ways to provide and care for the safety of individuals they teach.
- ADVANCED ATHLETIC INJURY MANAGEMENT: UPPER EXTREMITY 4 credits This course is designed to cover recognition, evaluation, and rehabilitation of upper extremity injuries as well as general medical pathologies of the upper extremity.
- INSTRUCTIONAL TECHNIQUES IN SECONDARY PHYSICAL EDUCATION 3 credits 546 Instructional strategies for secondary physical education. The course content is to improve the teaching skills of students who will be teaching physical education at the secondary level. It is a required course for the physical education licensure.
- 547 INSTRUCTIONAL TECHNIQUES FOR CHILDREN IN PHYSICAL EDUCATION 3 credits Instructional strategies for elementary physical education. The course content is to improve the teaching skills of students who will be teaching physical education for children. It is a required course for the physical education licensure.
- ORGANIZATION AND ADMINISTRATION OF PHYSICAL/HEALTH EDUCATION, 550 INTRAMURAL AND ATHLETICS 3 credits General concepts of administration and organization in physical/health education, intramural, and athletic programs.
- FOUNDATIONS OF SPORT SCIENCE, PHYSICAL AND HEALTH EDUCATION 552 3 credits Overview of the emergence of sport science, physical and health education as a profession and the supporting role of the underlying scholarly and scientific disciplines.
- PRINCIPLES OF COACHING 553 3 credits Basics for becoming a successful coach. Discussion of principles applying to most sports, players, and coaches. Ten (10) clinical hours required. Delivered in a totally online format, webbased format, or face-to-face format.
- 562 LEGAL/ETHICAL ISSUES IN PHYSICAL AND LEISURE ACTIVITIES 2 credits Overview of legal and ethical elements of greatest concern to specialists in sport and physical activity. Cases used to illustrate specific points. Topics vary. Delivered in a totally online format, web-based format, or face-to-face format.
- 565 PSYCHOLOGY OF INJURY REHABILITATION 2 credits This course will address the cognitive and affective aspects of injury and rehabilitation of injury. Specifically the stages of rehabilitation and techniques to aid in the rehabilitation process.
- ORTHOPEDIC INJURY AND PATHOLOGY 3 credits This course will discuss musculoskeletal pathology and surgical procedures associated with a physically active population.
- 592 WORKSHOP 1-3 credits Practical, intensive, and concentrated involvement with current curricular practices in areas related to physical education.
- STUDENT TEACHING COLLOQUIUM 2 credits Prerequisites: Core courses and program studies courses. Corequisites: 595. Students who hold a bachelor's degree but no teaching license who are completing the master's with licensure program will meet while completing student teaching to discuss concerns about the student teaching experience to analyze previous learning as it relates to this and future teaching.
- PRACTICUM: STUDENT TEACHING 8 credits 595 Prerequisites: Core courses and program studies courses. Corequisites: 594. Student teach-ing for 16 weeks in primary and secondary school settings.
- BIOMECHANICS APPLIED TO SPORT AND PHYSICAL ACTIVITY 4 credits Training future professionals in an integrated approach to qualitative diagnosis of motor skills 600 for a variety of professional settings. Required clinical/field experiences.
- SPORTS ADMINISTRATION AND SUPERVISION 3 credits 601 Organizational and administrative efficiency in implementing sports programs (event manage-ment, budgeting, public relations); objective and effective procedures for evaluation/selection of personnel; periodic program reviews.
- MOTOR BEHAVIOR APPLIED TO SPORTS 602 3 credits Coaching education principles related to motor development and motor skill learning. Focus on effective practices for learning and advanced skills teaching for coaches.
- TACTICS AND STRATEGIES IN THE SCIENCE OF COACHING 603 3 credits Course focuses on coaching and teaching the skills, tactics, and strategies in individual and team sports. May be taught online, web-enhanced, or face-to-face.
- 604 CURRENT ISSUES IN SPORT AND PHYSICAL EDUCATION 3 credits This course represents a planned experience in interpretation and articulation of information within the context of selected aspects of current issues in sport.
- 605 PHYSIOLOGY OF MUSCULAR ACTIVITY AND EXERCISE 3 credits Functions of body systems and physiological effects of exercise. Laboratory experiences, lectures, discussions,
- 606 STATISTICS: QUANTITATIVE AND QUALITATIVE METHODS 3 credits Prerequisite: 5100:640. Research methods/designs, statistics (application and interpretation), use of computers and appropriate software as they relate to various disciplines in the area of physical activity.
- MOTIVATIONAL ASPECTS OF PHYSICAL ACTIVITY 609 3 credits Analysis of factors influencing motivation of motor performance with emphasis on competition, audience effects, aggression.
- MASTERING TEACHING AND COACHING 3 credits To learn about becoming master teachers and coaches, students will apply effective teaching 610 skills, focus on context, and reflect on the teaching/coaching process. Additional 10 clinical/field hours required.
- RESEARCH AND ANALYSIS OF EFFECTIVE TEACHING IN PHYSICAL 611 EDUCATION 3 credits For the new professional, this course concentrates on research and analysis of skills and professional competencies needed to become an effective teacher of physical education.
- 612 GENERAL MEDICAL ASPECTS 4 credits Covers various topics related to sports medicine and general medical conditions. Students will gain perspectives and exposure to a variety of allied health care professionals.
- 3 credits CURRENT TOPICS IN EXERCISE PHYSIOLOGY Class teaches students to be critical readers of the literature. Readings in several areas in exercise science will be done. Exact areas of concentration with some guidance from the instructor.
- LABORATORY INSTRUMENTATION TECHNIQUES IN EXERCISE PHYSIOLOGY 3 credits This is a course designed to provide hands-on laboratory experiences for students in the area 620 of exercise science.

- 630 BUSINESS OF SPORT 3 credits The focus of this course is related to the important knowledge that administrators should have related to the sport business field.
- SPECIAL TOPICS IN HEALTH AND PHYSICAL EDUCATION 680 2-4 credits (May be repeated) Prerequisite: permission of instructor. Group study of special topics in health and physical education and sports medicine.
- FIELD EXPERIENCE: MASTER'S 1-6 credits Prerequisite: permission of advisor. Participation in a work experience related to physical edu-cation. The experience may not be part of current position. Documentation of project required. 695
- 697 INDEPENDENT STUDY 1-3 credits Prerequisite: Permission of advisor. In-depth analysis of current practices or problems related to physical education. Documentation of the study required.
- MASTER'S PROBLEM 2-4 credits 698 Prerequisite: permission of advisor. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in physical
- MASTER'S THESIS 699 4-6 credits Prerequisite: permission of advisor. In-depth research investigation. Student must be able to demonstrate necessary competencies to deal with a research problem in physical education.

OUTDOOR EDUCATION 5560:

- APPLICATION OF OUTDOOR EDUCATION TO THE SCHOOL CURRICULUM 550 4 credits Provides knowledge, skills and techniques useful in application of outdoor education to school curriculum.
- RESOURCES AND RESOURCE MANAGEMENT FOR THE TEACHING 552 OF OUTDOR EDUCATION 4 credits Resources and instructional techniques which are applicable to outdoor education; and indepth study of methods and designs, unique to the process of teaching
- RESIDENT OUTDOOR EDUCATION 554 2 credits Focus on helping physical education teachers use critical thinking to review programming/organizational techniques relevant to outdoor education programs. Extended experience in outdoor settings required.
- OUTDOOR PURSUITS 556 4 credits Investigation and participation in practical experiences in outdoor pursuits.
- OUTDOOR EDUCATION: RURAL INFLUENCES 600 3 credits Prerequisite: 550 or 552. Utilization of resources of rural area as a learning/teaching environ-ment. Content and methodology appropriate for teaching school-age children in rural setting.
- OUTDOOR EDUCATION: SPECIAL TOPICS 2-4 credits (May be repeated with change in topic) Prerequisite: permission of instructor. Group and indi-vidual study of special topics of contemporary concern in outdoor education.
- PRACTICUM IN OUTDOOR EDUCATION 2-4 credits (60-120 field hours) 690 Prerequisities: 550, 552 and permission of advisor. Supervised practical experience with exist-ing outdoor education programs. In conjunction with practical work student meets regularly with advisor
- FIELD EXPERIENCE: MASTER'S 2-6 credits (60-180 field hours) 695 Prerequisite: permission of advisor. Participation and documentation of practical professio experience related to outdoor education.
- INDEPENDENT STUDY 1-3 credits (70-90 field hours) Prerequisite: permission of advisor. In-depth analysis of current practices or problems related to outdoor education. Documentation of study required.
- MASTER'S PROBLEM 698 2-4 credits Prerequisite: permission of advisor. Intensive research study related to a problem in outdoor education or related discipline.
- MASTER'S THESIS 4-6 credits An original composition demonstrating independent scholarship in a discipline related to outdoor education

HEALTH EDUCATION 5570:

- COMMUNITY HEALTH 520
- Study of current public health problems. Organization and administration of various agencies and their roles in the solution of community health problems. COMPREHENSIVE SCHOOL HEALTH 4 credits

2 credits

5600:

- Prerequisite: admission to Graduate School. This course explains and presents comprehen-sive school health curricula for K-12. The three components of a comprehensive school health program are presented; instruction, services, and the environment.
- 523 METHODS AND MATERIALS OF HEALTH EDUCATION 3 credits Prerequisite: permission of instructor. Planning, organization, use of instructional resources and delivery of health education content and teaching processes (pre K-12).
- PRACTICUM IN HEALTH EDUCATION 560 2-6 credits Prerequisite: permission of instructor. The practicum in Health Education is an on-site partici-pation in a community health organization, agency, or resource.

COUNSELING

- MENTAL ILLNESS AND MEDIA 2 credits Mental illness is often portrayed negatively in the media. This course focuses on mental illness, stigma, and how movies portray specific mental disorders.
- COUNSELING PROBLEMS RELATED TO LIFE-THREATENING 550 ILLNESS AND DEATH 3 credits Prerequisite: permission. Consideration of the global issues, current research, coping behav-3 credits ior, support systems and family and individual needs in regard to life-threatening situations.
- WORKSHOP 590 1-3 credits Special instruction designed as in-service and/or upgrading individuals on current issues and practices in counseling.
- PROFESSIONAL ORIENTATION AND ETHICS 600 2 credits Addresses professional orientation and ethical standards in the counseling professions as well as an introduction to Department of Counseling programs and missions.
- RESEARCH AND PROGRAM EVALUATION IN COUNSELING 601 3 credits Overview of research methods and statistics, understanding and conducting counseling research, and program assessment and evaluation knowledge.
- COUNSELING SKILLS FOR TEACHERS 610 3 credits Prerequisite: 631 or 633 or permission. The study and practice of selected counseling tech-niques that can be applied by teachers in working with students, parents and colleagues.

- Graduate Courses 133
- 620 ISSUES IN SEXUALITY FOR COUNSELORS 3 credits A seminar covering, in addition to changing current topics, sexuality across the lifespan, diver-sity and sexual orientation, and assessment.
- COUNSELING YOUTH AT RISK 621 3 credits This course is designed to prepare counselors and other helping professionals to work with at-risk children and adolescents in school and community settings.
- 622 INTRODUCTION TO PLAY THERAPY 3 credits Prerequisites: enrolled in a master's or doctoral program in counseling or related field, or spe-cial nondegree students (*i.e.*, professional counselor). This course is designed to give students an introduction to play therapy from a child-centered perspective. Students will develop competencies in child-centered play therapy.
- MARRIAGE AND FAMILY COUNSELING/THERAPY ETHICS AND PROFESSIONAL IDENTITY 623 3 credits This course is designed to help students learn about marriage and family counseling/therapy as a distinct profession and about it corresponding ethical codes.
- ELEMENTARY/SECONDARY SCHOOL COUNSELING Introductory class; examines elementary and secondary school counseling practices. 631 3 credits
- INTRODUCTION TO CLINICAL COUNSELING 2 credits Overview of clinical counseling identity, philosophy, roles, work settings, laws, advocacy, and related professional duties.
- COLLEGE ADMISSION COUNSELING I 3 credits Through readings, websites, class activities, discussion, and experiential projects students will learn the fundamental skills needed to assist counselees in teh college admission process. 636
- COLLEGE ADMISSION COUNSELING II 3 credits 637 Prerequisite: 636. Students will continue to enhance their knowledge in guiding students through the college admission process through extensive field work at surrounding college campus locations.
- COUNSELING ADOLESCENTS 640 3 credits Prerequisite: graduate student in counseling or related field. The examination of the physical, cognitive, emotional, and social developmental processes of the adolescent as these affect learning performance in a diverse population will be addressed.
- COUNSELING THEORY AND PHILOSOPHY 643 3 credits Examination of major counseling systems including client-centered, behavioral and existential theories. Philosophical and theoretical dimension stressed.
- TESTS AND APPRAISAL IN COUNSELING 645 3 credits Prerequisites: 5600:601. Study of the nature of tests and appraisal in counseling including reli-ability, validity, test construction and selection, administration, scoring, and basic interpretation of selected measures.
- 646 MULTICULTURAL COUNSELING 3 credits An examination of multicultural counseling theory and research necessary to work with culturally diverse people.
- CAREER DEVELOPMENT AND COUNSELING ACROSS THE LIFE-SPAN 3 credits Overview of career development and choice over the life-span. Personal, family, and societal 647 characteristics that affect choice, career choice, and implementation are discussed.
- INDIVIDUAL AND FAMILY DEVELOPMENT ACROSS THE LIFESPAN 3 credits 648 An exploration of individual and family development, human behavior, and theories of learning and personality. Emphasis will be placed on understanding the relationship between the individual and his/her family.
- 650 FILIAL THERAPY 3 credits 3 credits Prerequisites: 590 or 622 and graduate student in counseling or related field. This course is designed to train students how to teach parents specific child-centered play therapy skills to use with their children.
- TECHNIQUES OF COUNSELING 3 credits 3 credits Prerequisite: 655, 643 (prereq or coreq). Corequisite: 669. Study and practice of selected coun-seling techniques and skills with emphasis on structuring, listening, leading and establishing a counseling relationship.
- GROUP COUNSELING 4 credits Prerequisites: 643 or 710, and 651. Knowledge and understanding of theory, research, and techniques necessary for conducting group counseling sessions. An experimental component is included.
- 655 MARRIAGE AND FAMILY THERAPY: THEORY AND TECHNIQUES 3 credits An overview of the theory and techniques of marital and family therapy, including exposure to the history, terminology and contributions of significant persons in the field.
- CONSULTANT: COUNSELING 657 3 credits Prerequisites: 631, 651 or permission. Examination of consultation models with focus on process and product.
- ORGANIZATION AND ADMINISTRATION OF GUIDANCE SERVICES 3 credits Prerequisite: 631 or 633 or permission. Development of a comprehensive articulated guidance and counseling program.
- COUNSELING CHILDREN 660 3 credits Prerequisite: graduate student in counseling or related field. This course is designed as an entry-level course for counselors, school counselors, school psychologists, or other profes-sionals preparing to engage in therapeutic work with children. It is not a class in diagnosis of childhood disorders
- 662 PERSONALITY AND ABNORMAL BEHAVIOR 3 credits This course will examine several major theoretical approaches to personality and how they account for abnormal and psychopathological behavior related to clinical practice.
- DEVELOPMENTAL GUIDANCE AND EMOTIONAL EDUCATION 663 3 credits An experimental seminar designed for school counselors/teachers to learn developmental guidance strategies for affective education, classroom guidance, deliberate psychological education and developmental counseling.
- DSM 3 credits This course teaches students practical assessment and diagnostic skills related to using the most recent version of the Diagnostic and Statistical Manual of Mental Disorders
- TREATMENT IN CLINICAL COUNSELING 666 3 credits This course teaches students treatment planning and research-baed treatment interventions for preventing and reducing common mental disorders found in the counseling profession.
- 667 MARITAL THERAPY 3 credits Prerequisite: 655. In-depth study of theories and interventions which focus on the nature and quality of marital relationships.
- SYSTEMS THEORY IN FAMILY THERAPY 669 3 credits Prerequisite: 655. In-depth exploration of systems theory in family therapy. Major assumptions of systems theory will be examined and the implications for interventions will be explored.
- PREPRACTICUM IN COUNSELING 2 credits 674 Prerequisites: 643 and 651. Addresses clinical knowledge and skills needed for Practicum. including the counseling process, documentation, supervision, and special topics.

675 PRACTICUM IN COUNSELING

Prerequisite: See specific program student handbook and program plan for required prerequi-sites. Supervised clinical experience including counseling direct service and related professional duties

5 credits

3 credits

3 credits

- INTERNSHIP 685
- Prerequisite: 675. Must be repeated for a minimum of 6 credit hours over two semesters. May be repeated for a maximum of 12 credit hours. Paid or unpaid supervised clinical experience taken at least two consecutive semesters immediately following completion of 675. Credit/noncredit.

FIELD EXPERIENCE: MASTER'S 695

1-10 credits Prerequisites: permission of advisor and department chair. Placement in selected setting for purpose of acquiring experiences and/or demonstration skills related to student's counseling program.

697 INDEPENDENT STUDY

(May be repeated for a total of nine credits) Prerequisites: permission of advisor and department chair. Specific area of investigation determined in accordance with student needs.

- ADVANCED COUNSELING PRACTICUM 702 4 credits (May be repeated for a total of 12 credits) Prerequisite: 675, 720, 710. Supervised counseling experience in selected settings.
- 4 credits each 707,8SUPERVISION IN COUNSELING PSYCHOLOGY I, II 4 credits each Prerequisite: doctoral residency or permission. Instruction and experience in supervising graduate student in counseling.
- INTRODUCTION TO COUNSELING PSYCHOLOGY 709 2 credits Prerequisite: graduate standing in the Collaborative Program in Counseling Psychology. Intro-duction to historical foundations of and recent developments in counseling psychology, with an emphasis on contemporary research literature in the field.
- THEORIES OF COUNSELING AND PSYCHOTHERAPY 710 4 credits Prerequisite: 3750:630 or departmental permission. Major systems of individual psychothera-py explored within a philosophy of science framework. Freudian, behavioral, Rogerian, cogni-tive and other. Includes research, contemporary problems and ethics.
- VOCATIONAL BEHAVIOR 711
- 1 credits Prerequisite: 3750:630 or departmental permission. Theories and research on vocational behav-ior and vocational counseling. Topics include major theories on vocational behavior, empirical research on these theories, applied work in vocational counseling and applied research.
- PRINCIPLES AND PRACTICE OF INDIVIDUAL INTELLIGENCE TESTING 712 4 credits Prerequisites: 630 or graduate standing in school psychology, and instructor's permission. His-tory, principles and methodology of intelligence testing, supervised practice in administration, scoring and interpretation of individual intelligence tests for children and adults.

PROFESSIONAL, ETHICAL AND LEGAL ISSUES IN COUNSELING PSYCHOLOGY

3 credits Prerequisite: doctoral residency or permission. Examination of major issues in the field such as the counselor as a professional and as a person, and issues, problems and trends in counseling.

- 714 EVALUATION OF MENTAL STATUS 4 credits Prerequisites: completion of 3750:400/500, 3750:420/520, and 3750:750 or 5600:645 or per-mission. Study of the development, administration, and interpretation of objective instruments for personality assessment (MMPI, CPI, MBTI, 16 PF and selected additional inventories).
- RESEARCH DESIGN IN COUNSELING I 3 credits 715 Prerequisite: doctoral residency or permission. Study of research designs, evaluation proce-dures and review of current research.
- RESEARCH DESIGN IN COUNSELING II 716 3 credits Prerequisite: doctoral residency or permission. This course is designed for doctoral students utilizing the qualitative approach for conducting research. Theory, methods, and design of qualitative inquiry are reviewed.
- ISSUES OF DIVERSITY IN COUNSELING PSYCHOLOGY 717 4 credits Prerequisites: 3750:630; one semester of practicum work. Critical examination and application of research and theory in counseling diverse populations, focusing on race/ethnicity, sex/gen-der, sexual orientation, age, disability, and spirituality.
- HISTORY AND SYSTEMS IN PSYCHOLOGY 718 2 credits Prerequisite: 3750:630. Philosophical and scientific antecedents of psychology and details of the development of systematic viewpoints in the 19th and 20th centuries.
- TOPICAL SEMINAR: COUNSELOR EDUCATION AND SUPERVISION 720 1-4 credits Prerequisite: permission of instructor. A topical study with a variety of disciplinary input. Staffing will be by department faculty and other professionals in counseling and related fields. A maximum of six credits may be applied to a degree.

INTRODUCTION TO PLAY THERAPY 722

3 credits IN IRODUCTION TO PLAY THERAPY Prerequisites: enrolled in a master's or doctoral program in counseling or related field, or spe-cial nondegree students (*i.e.*, professional counselor). This course is designed to give students an introduction to play therapy from a child-centered perspective. Students will develop com-petencies in child-centered play therapy.

LEGAL AND ETHICAL ISSUES IN COUNSELOR EDUCATION Perequisites: Admission to the Counselor Education and Supervision Program. Examination of major ethical/legal issues in the field of counseling and marriage and family therapy.

PEDAGOGY IN COUNSELOR EDUCATION AND SUPERVISION: 724 THEORY AND PRACTICE

- This course provides an in-depth study of instructional principles, pedagogy, and evaluation procedures in counselor education and supervision. DOCTORAL PROFESSIONAL SEMINAR IN COUNSELOR EDUCATION 725 3 credits Prerequisite: Admission to the doctoral program in Counselor Education and Supervision. To be taken the first Fall term upon admission. This course is required of all Counselor Education and Supervision doctoral students from both Counselor Education and Marriage and Family
- Therapy tracks. Professional issues in the counseling field and doctoral identity acculturation and development are covered. (Course offered only once per year)
- 726 DOCTORAL RESEARCH PROPOSAL IN COUNSELOR EDUCATION 3 credits Prerequisites: 5600:715 and 5100:744. This course provides theoretical and practical aspects of designing dissertation research in counseling and counselor education and supervision and successfully defending a draft of a proposal design.
- ADVANCED DIVERSITY IN COUNSELOR EDUCATION 3 credits This course examines issues of human diversity broadly, incuding knowledge, awareness and 728
- skills especially related to mental health service and training in counselor education and supervision. 4 credits
- 730 USE OF ASSESSMENT DATA
- Prerequisite: doctoral level status. Study of the methods and materials used to assess indi viduals and the effective use of the data obtained leading to professional decisions regarding the diagnosis of individuals present condition, and recommendations for appropriate treatment/intervention.
- 732 ADDICTION COUNSELING I: THEORY AND ASSESSMENT This course is designed to teach graduate-level students the history, foundations, theoretical models, assessment strategies, and diagnostic procedures associated with addictive disorders.

- 734 ADDICTION COUNSELING II: TREATMENT PLANNING AND INTERVENTION STRATEGIES This course is designed to teach graduate-level students the process of treatment planning and range of treatment interventions used with addictive disorders.
- 737 CLINICAL SUPERVISION I 4 credits Prerequisite: Successful completion of advanced practicum. Instruction and experience super-vising graduate students in counseling.

3 credits

- CLINICAL SUPERVISION II
- Prerequisite: Successful completion of advanced practicum and Supervision I. Instruction and experience supervising graduate students in counseling.
- ASSESSMENT METHODS AND TREATMENT ISSUES IN MARRIAGE 755 ASSESSMENT METROPS and the met
- 756 OUTCOME RESEARCH IN MARRIAGE AND FAMILY THERAPY 3 credits Prerequisite: 667; 5100:640, 741. This course will provide an in-depth examination of marriage and family therapy outcome research.
- 760 COUNSELING CHILDREN 3 credits Prerequisite: graduate student in counseling or related field. This course is designed as an entry-level course for counselors, school counselors, school psychologists, or other professionals preparing to engage in therapeutic work with children. It is not a class in diagnosis of childhood disorders.
- 764 COGNITIVE ASSESSMENT 2 credits

Prerequisite: 3750:750 and enrollment in the Collaborative Program in Counseling Psycholo-gy or permission. History, principles, and methodology of cognitive assessment, supervised practice in administration, scoring and interpretation of individual intelligence tests for late adolescents and adults.

- 765 OBJECTIVE PERSONALITY ASSESSMENT 2 credits Prerequisite 3750:750. Study of the development, administration, and interpretation of objec-tive measures of personality assessment (MMPI, PAI, and selected additional inventories).
- APPLICATIONS OF ASSESSMENT 766 2 credits Prerequisite: 3750/5600:764 and 3750/5600:765. Corequisite: 3750/5600:777. Study of integrative report writing and other applications of assessment.
- DOCTORAL INTERNSHIP 785 (May be repeated for a maximum of 6 credit hours.) Prerequisites: completion of 5600:702, 737, and 738. Supervised experience in clinical settings, teaching, supervision, or research. A minimum of 600 clock hours must be completed over two consecutive semesters. Credit/noncredit
- COUNSELING PSYCHOLOGY PRACTICUM 4 credits (May be repeated for a total of 12 credits) Advanced counseling psychology students will have supervised training with clients in a variety of settings and will focus on supervised develop-ment of specialized theoretical applications. Credit/noncredit.

INDEPENDENT READING AND/OR RESEARCH IN COUNSELING PSYCHOLOGY 797 1-5 credits

(May be repeated) Prerequisite: permission of instructor. Independent readings and/or research in an area of counseling psychology under the direction of a faculty member. FIELD EXPERIENCE: DOCTORAL 895 1-6 credits

- (May be repeated) Prerequisite: doctoral candidate status. Placement in selected setting for purpose of acquiring experiences and/or developing skills related to student's doctoral program. INDEPENDENT STUDY 1-3 credits 897
- (May be repeated for a total of nine credits) Prerequisites: permission of advisor and depart-ment chair. Specific area of investigation determined in accordance with student needs.
- DOCTORAL DISSERTATION 899 1-20 credits Prerequisites: permission of major doctoral advisor and department chair. Study, design and analysis of counseling problem

SPECIAL EDUCATION 5610:

INDIVIDUALS WITH EXCEPTIONALITIES: EDUCATIONAL AND

SOCIETAL ISSUES 3 credits Prerequisite: Admission to College of Education Teacher Preparation Program or permission of instructor. A survey course covering the identification, developmental characteristics, and intervention strategies for exceptional children and youth across education and community settings (1 field hour).

- 544 DEVELOPMENTAL CHARACTERISTICS OF INTELLECTUALLY **CIFTED INDIVIDUALS** 3 credits Prerequisite: 540. Survey of etiology, diagnosis, classification and developmental characteris-tics of intellectually gifted individuals. 3 credits
- 547 INDIVIDUALS WITH MILD/MODERATE EDUCATIONAL NEEDS: CHARACTERISTICS AND IMPLICATIONS 4 credits Survey of the etiology, identification, classification, developmental characteristics of and inter-vention strategies for individuals with mild/moderate educational needs.
- INDIVIDUALS WITH MODERATE/INTENSIVE EDUCATIONAL NEEDS: CHARACTERISTICS AND IMPLICATIONS 4 credits Prerequisite: 540. Survey of the etiology, identification, classification, and developmental char-acteristics of individuals with moderate/intensive educational needs.
- 550 SPECIAL EDUCATION PROGRAMMING: EARLY CHILDHOOD 3 credits Prerequisite: 540. Developmental patterns of young children with disabilities and develop-mentally/exceptionality appropriate practices with respect to programming and adaptations (20 field hours).
- SPECIAL EDUCATION PROGRAMMING: MILD/MODERATE I 3 credits Prerequisites: 540 or 547. Educational implications regarding assessment, teaching strate-gies, and adaptive materials, necessary to meet the needs of school age students with mild/moderate educational needs (20 field hours).
- SPECIAL EDUCATION PROGRAMMING: SECONDARY/TRANSITION 552 3 credits Study of diagnostic prescriptive service delivery systems designed to accommodate developmental patterns of secondary level students with exceptionalities (20 field hours).
- SPECIAL EDUCATION PROGRAMMING: MODERATE/INTENSIVE I Development of the programming strategies including assessment, inter/transdisciplinary models, family involvement, IFSP/IEP/IP development, instructional practices based upon legal/ethical principles for individuals with moderate/intensive educational needs (20 field hours).
- SPECIAL EDUCATION PROGRAMMING: MODERATE/INTENSIVE II 554 4 credits Advanced program for providing educational planning and intervention for individual with moderate to intensive educational needs. Focus is on developing a comprehensive educational program which will facilitate optimum functioning and independence (20 field hours).

Graduate Courses 135

4-6 credits

- 557 SPECIAL EDUCATION PROGRAMMING: MILD/MODERATE II 4 credits Special educational implications regarding assessment, teaching strategies, and adaptive materials necessary to meet the needs of school age students with mild/moderate educational needs (20 field hours).
- 559 COLLABORATION AND CONSULTATION IN SCHOOLS AND COMMUNITY 3 credits Prerequisites: 540 and 547, or 548, or permission of instructor. Provides professional educators/intervention specialists with skills in collaboration and consultation for working with parents of exceptional individuals and other professionals within school/community settings.
- 560 FAMILY DYNAMICS AND COMMUNICATION IN THE EDUCATIONAL PROCESS 3 credits A study of family theory and structure along with beginning techniques for working with families of students with exceptionalities, in educational and community settings.
- 561 SPECIAL EDUCATION PROGRAMMING: EARLY CHILDHOOD MODERATE/INTENSIVE 3 credits Prerequisites: 540 and 548. Developmental patterns of young children with moderate/intensive needs (ages 3-8) and developmentally appropriate practices in programming and adaptations (20 field hours).
- 563 ASSESSMENT IN SPECIAL EDUCATION 3 credits Prepares student to select, administer and interpret formal and informal assessment procedures and use resulting data in planning educational programs for exceptional individuals.
- 564 ASSESSMENT AND EVALUATION IN EARLY CHILDHOOD SPECIAL EDUCATION 3 credits Prerequisites: 440/540 and 448/548. The assessment of children (three to eight) and their environment who are at risk for disabilities or currently in special education.
- 567 MANAGEMENT STRATEGIES IN SPECIAL EDUCATION 3 credits Content emphasizing the development of application strategies with a variety of behavior management models for mediation of behaviors with exceptional individuals.
- 568 ADVANCED BEHAVIOR MANAGEMENT 3 credits Prerequisites: 567. Advanced techniques for remediating problematic behavior, establishing effective repertoires and evaluating research relevant to classroom management will be covered. Behavioral theory will be stressed.
- 570 CLINICAL PRACTICUM IN SPECIAL EDUCATION 3 credits Provides a pre-student teaching experience for students in the areas of assessment, program planning, instructional planning and presentation, classroom management, adaptations, and collaboration with parents and other educational professionals.
- 579 SEMINAR: INVITATIONAL STUDIES IN SPECIAL EDUCATION 1-2 credits (May be repeated for a total of four credits) Topical study with a varied array of disciplinary input. Staffing will be invited members of allied and contributing professions active in management of exceptional children.
- 601 SEMINAR SPECIAL EDUCATION CURRICULUM PLANNING 3 credits Prerequisite: certification in an area of special education. Study of curriculum planning practices unique to special education classes and services. Appropriate curriculum objectives for selected areas of instruction as well as effective organizational programs examined.
- 602 SUPERVISION OF INSTRUCTION 3 credits Study of administration an supervisory practices unique to special education classes and services.
- 604 COLLABORATION AND CONSULTATION SKILLS FOR SPECIAL EDUCATORS 3 credits Advanced consideration of the roles and responsibilities of parents, professionals and individuals with disabilities in the development and implementation of educational interventions and related issues.
- 605 INCLUSION MODELS AND STRATEGIES 3 credits (3 field hours) History, theory, philosophy, legislative mandates, models, strategies, curriculum modifications, methods/materials adaptations which support the inclusion of students with disabilities. Emphasis on collaboration and teaming. (3 field hours)
- 606 RESEARCH APPLICATIONS IN SPECIAL EDUCATION 3 credits Prerequisites: admission to graduate program in special education and 5100:640. An examination of quantifative and qualitative research/methodology and its application to the field of special education. Applied research is an essential component of the course.
- 607 CHARACTERISTICS AND NEEDS OF INDIVIDUALS DEMONSTRATING PERVASIVE DEVELOPMENTAL DISORDERS 3 credits This course provides a survey of the etiology, diagnoses, characteristics, and needs of individuals with pervasive developmental disorders.
- 609 PROGRAMMING ISSUES FOR INDIVIDUALS WITH PERVASIVE DEVELOPMENTAL DISORDERS 3 credits This course provides the educator with a comprehensive examination of the educational practices and intervention strategies necessary when providing interventions for individuals demonstrating pervasive developmental disorders.
- 610 CHARACTERISTICS AND NEEDS OF INDIVIDUALS WITH BEHAVIORAL AND EMOTIONAL DISORDERS 3 credits This course provides a survey of the etiology, diagnoses, classification, and developmental (birth through adult) characteristics of individuals in need of behavioral support.
- 611 SEMINAR: LEGAL ISSUES IN SPECIAL EDUCATION 3 credits Prerequisites: admission to graduate program in special education and 5170:720 or permission of instructor. A culminating seminar for graduate students in special education designed to study, examine and reflect upon the legal aspects of historical and current trends, issues and practices.
- 612 SEMINAR: SOCIAL/ETHICAL ISSUES IN SPECIAL EDUCATION 3 credits A culminating seminar for graduate students in special education designed to study, examine and reflect upon the social and ethical aspects of historical and current trends, issues and practices.
- 627 SPECIAL TOPICS IN SPECIAL EDUCATION 1-4 credits Prerequisite: Permission of advisor or department chair. In-depth examination of current critical research on issues in Special Education.
- 690
 STUDENT TEACHING: SPECIAL EDUCATION
 11 credits

 Prerequisite: Permission of advisor or department chair. Corequisite: 570. Directed teaching under supervision of a special education teacher and a university supervisor.
 11 credits
- 692 SCHOOL-BASED EXTERNSHIP: SCHOOL AUDIOLOGY 6 credits Directed professional experience under supervision of a licensed and certified audiologist and a University supervisor.
- 694
 RESEARCH PROJECT IN SPECIAL AREA (SCHOLARLY PAPER)
 3 credits

 An in-depth study of an identified topic in a scholarly paper.
 3
- 695 FIELD EXPERIENCE: MASTER'S 1-4 credits (May be repeated for a total of eight credits) Designed to provide on-the-job experience in a special education program on an individual basis.
- 697 INDEPENDENT STUDY
 1-3 credits
 (May be repeated for a total of nine credits) Specific area of investigation determined in accordance with student's needs.
- 698 MASTER'S PROBLEM 2-4 credits In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in special education.

699 MASTER'S THESIS

Thorough study and analysis in depth of an educational problem, field projects in special areas; synthesis of existing knowledge in relationship to a specific topic.

SCHOOL PSYCHOLOGY 5620:

- 600 SEMINAR: ROLE AND FUNCTION OF THE SCHOOL PSYCHOLOGIST 3 credits Prerequisite: permission of instructor. Seminar on role and function of school psychologist. The course, tailored to meet individual needs of trainees, is a consideration of professional standards of school psychology practice.
- 601
 COGNITIVE FUNCTION MODELS FOR PRESCRIPTIVE EDUCATIONAL PLANNING
 3 credits

 Prerequisite: permission of instructor. Consideration of cognitive development theories and their application for educational programming.
 3 credits

 602
 BEHAVIORAL ASSESSMENT
 3 credits
- 602 BEHAVIORAL ASSESSMENT Prerequisite: permission of instructor. Overview of behavioral theory and its application focusing upon the role of the school psychologist as an agent of behavior change.
- 603 CONSULTATION STRATEGIES IN SCHOOL PSYCHOLOGY 3 credits Prerequisite: permission of instructor. A consideration of consultant roles in the practice of school psychology as related to consultant process and with school and agency personnel, parents and children.
- 610 EDUCATIONAL DIAGNOSIS FOR SCHOOL PSYCHOLOGISTS 4 credits Prerequisites: permission of instructor. Clinical study and application of current assessment approaches applicable in assessment of children's learning problems.
- 611
 PRACTICUM IN SCHOOL PSYCHOLOGY
 4 credits

 Prerequisite: permission of instructor. Laboratory experience in psycho-educational study of individual children who have learning problems in school. (Repeat requirement).
- 630,1 INTERNSHIP IN SCHOOL PSYCHOLOGY: FALL/SPRING 3 credits each Prerequisite: permission of instructor. Full-time paid work assignment under supervision of a qualified school psychologist for an academic year structured according to provisions of State Department of Education. Additional readings required.
- 640 FIELD SEMINAR I: CURRENT PROFESSIONAL TOPICS/ISSUES IN SCHOOL PSYCHOLOGY 3 credits Prerequisite: permission of instructor. Consideration of pertinent topics/issues in practice of school psychology with emphasis upon field-based concerns of a practicing school psychologist.
- 641 FIELD SEMINAR II: LOW INCIDENCE/RELATED INQUIRIES 3 credits Prerequisite: permission of instructor. Consideration of pertinent topics/issues in practice of school psychology with emphasis on field-based concerns of a practicing school psychologist.
- 694 RESEARCH PROJECT IN SPECIAL AREAS 1-3 credits Prerequisite: permission of advisor. Study, analysis and reporting of school psychology problem.
- 695 FIELD EXPERIENCE: MASTER'S 1-3 credits Prerequisite: permission of instructor. Practical school psychology-related experience in school setting.
- 697 INDEPENDENT STUDY 1-4 credits Prerequisites: permission of advisor and supervisor of the independent study. Documentation of specific area of investigation. Nature of the inquiry to be determined by student-supervisor agreement.

698 MASTER'S PROBLEM 2-4 credits Prerequisite: permission of advisor. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in school psychology.

699 MASTER'S THESIS 4-6 credits Prerequisite: permission of instructor. Thorough study, analysis and reporting in depth of an educational problem; field projects in special areas; synthesis of existing knowledge in relationship to specific topic.

SPECIAL EDUCATIONALPROGRAMS 5800:

590 WORKSHOP IN ECONOMIC EDUCATION OR IN SOCIAL STUDIES 1-3 credits Individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

Business Administration

ACCOUNTANCY

- 520 ADVANCED FINANCIAL REPORTING AND ANALYSIS 3 credits Prerequisites: 622 or equivalent. Examination of accounting theory and financial reporting practices for business combinations, partnerships, foreign operations, nonprofit entities, and consolidated statements. Covers U.S. GAAP, IFRS, SEC reporting, and corporate financial reporting policy. Emphasizes professional accounting research. Includes a research component.
- 530 CONTEMPORARY FEDERAL TAXATION 3 credits Prerequisite: 621 or equivalent. Examines current federal tax practice with an emphasis on individual taxes. Includes a research component. Master of Taxation students will not be able to take this course to satisfy tax electives in the Master of Taxation program.
- 531 BUSINESS ENTITY TAXATION 3 credits Prerequisite: 530 or permission. Federal income tax law related to partnerships, corporations, trusts and estates; also includes an overview of federal estate and gift tax law. Includes a research component. Master of Taxation students will not be able to take this course to satisfy tax electives in the Master of Taxation program.
- 540 ASSURANCE SERVICES AND PROFESSIONAL RESPONSIBILITIES 3 credits Prerequisites: 621 or equivalent. Examines assurance services including external auditing and professional responsibilities. Focuses on standards, professional ethics, and independence requirements and procedures used in conducting assurance services. Includes a research component.
- INFORMATION SYSTEMS AUDIT AND CONTROL 3 credits Prerequisites: 540 or permission of instructor. Learn the fundamental concepts and practices of information systems audit control. Use control objectives and standards by information systems control, audit and security organizations.

554 INFORMATION SYSTEMS SECURITY

Prerequisites: 603 or equivalent. Focus on information systems risk and security in distributed business environments; develop policies, practices, and systems for security of computers and data in business. Includes a research component.

3 credits

3 credits

3 credits

3 credits

3 credits

GOVERNMENTAL ACCOUNTING 570

GOVERNMENTAL ACCOUNTING Prerequisite: 621 or equivalent. Theory and procedures involved in application of fund account-ing, budgetary control, appropriations and various accounting systems to governmental units, educational, medical and other nonprofit institutions. Covers financial reporting for government and not for profit entities and GASB standards. Includes a research component.

FINANCIAL ACCOUNTING 601

3 credits Introductory course for student with no accounting background. Examines accounting principles as applied to financial problems of firm.

- ACCOUNTING DECISION SUPPORT SYSTEMS 603 3 credits Introduction to basic financial statement information; coverage of databases, electronic spreadsheets, and other information technology tools that support accounting and assurance services
- FINANCIAL DATA COMMUNICATIONS AND ENTERPRISE INTEGRATION 607 3 credits Prerequisites: 6200:601 and 6500:601. In-depth study of contemporary methodologies, tech-nologies, and standards used to integrate business processes and systems, including XML and XBRL.
- 610 PROCESS ANALYSIS AND COST MANAGEMENT
- Prerequisites: 601, or 621, or permission of instructor. Investigates management accounting and control systems and the use of accounting information in cost management, risk assess-ment, planning, decision making, and performance evaluation.
- 615 ERP AND FINANCIAL DATA COMMUNICATIONS 3 credits Prerequisite: 603 or equivalent. Risk assessment and mitigation of ERP systems and integra-
- tion of contemporary data communication technologies such as XML and XBRL into financial applications.

CORPORATE ACCOUNTING AND FINANCIAL REPORTING I Prerequisite: 601 or graduate accounting status. An examination of generally accepted accounting principles in theory and application, as well as financial statement preparation. Not open to students who have taken Intermediate Accounting I.

CORPORATE ACCOUNTING AND FINANCIAL REPORTING II 622 3 credits Prerequisite: 621 or permission of instructor. A continuation of 6200:621 which examines generally accepted accounting principles in theory and practice, as well as financial statement preparation. Not open to students who have taken Intermediate Accounting II.

627 FEDERAL TAXATION

3 credits Survey of federal taxation of entities, tax research, and individual taxation. Tax cases, projects, and problems will be assigned.

TAX RESEARCH 3 credits 628 Prerequisites: Admission to Master of Tax program or special admission. Designed to devel-op basic research competence involving federal income, estate, and gift tax laws.

TAX CRIMES AND FORENSICS 629

- 3 credits Prerequisites: 531 or 627 or equivalent or permission. In-depth study of tax and tax related crimes charged under provisions of the IRS code and titles 18 and 31 of the U.S. code.
- CORPORATE TAXATION I 631 3 credits Prerequisite: Admission to Master of Tax program or special permission. Detailed examination of tax problems of corporations and their shareholders. Formation, distribution, redemption, and liquidation.

632

TAXATION OF TRANSACTIONS IN PROPERTY 3 credits Prerequisite: Admission to Master of Tax program or special permission. Explores federal tax implications of gains and losses derived from sales, exchanges and other dispositions of property

633 ESTATE AND GIFT TAXATION

3 credits Prerequisite: Admission to Master of Tax program or special permission. Analyzes provisions of federal estate and gift tax laws and tax consequences of testamentary and lifetime trans

CONTEMPORARY ACCOUNTING ISSUES 637

- 3 credits Prerequisite: Permission of instructor. Critical examination of contemporary issues and trends in accounting, including professional ethics and corporate social responsibility, standard set-ting process, regulatory compliance, and international issues.
- ADVANCED AUDITING
- 3 credits Prerequisite: 540 or equivalent or permission. Conceptual foundations and current research on professional and internal auditing. Includes government regulation and litigation, statistics, computer systems as well as current and prospective developments in auditing.

TAXATION OF PARTNERSHIPS 641

3 credits Prerequisite: Admission to Master of Tax program or special permission. Examines intensively provisions of subchapters K and S of Internal Revenue Code and uses of partnerships for tax planning.

642 CORPORATE TAXATION II

Prerequisite: 631 or special permission. Focuses on corporate reorganization; covers A, B, C, D, and E reorganizations, corporate split-offs and spin-offs; carryovers of tax attributes; and limitations on carryovers.

- TAX ACCOUNTING 643
- 3 credits erequisite: Admission to Master of Tax program or special permission. Attention focused on timing of income and expenses for individuals businesses and its relation to tax planning.
- INCOME TAXATION OF DECEDENTS, ESTATES AND TRUSTS 644 3 credits Prerequisite: 633. An in-depth examination of the decedent's last income tax return along with the analysis of income taxation of trusts and estates and their creators, fiduciaries and beneficiaries.
- ADVANCED INDIVIDUAL TAXATION 3 credits Prerequisite: Admission to Master of Tax program or special permission. In-depth study of 645 some of the more involved areas of individual income taxation.

CONSOLIDATED TAX RETURNS 646

- rerequisite: 631. Intensive study of tax provisions concerning use of consolidated tax returns. QUALIFIED PENSIONS AND PROFIT SHARING 647 3 credits
- Prerequisite: Admission to Master of Tax program or special permission. Nature, purpose and operation of various forms of deferred compensation examined with much emphasis on pension and profit-sharing plans
- TAX PRACTICE AND PROCEDURE 648 3 credits Prerequisite: Admission to Master of Tax program or special permission. In-depth Study of administration and procedures of Internal Revenue Service and responsibilities of tax practi-
- STATE AND LOCAL TAXATION 3 credits 649 Prerequisite: Admission to Master of Tax program or special permission. Examines common types of taxes imposed by state and local governments and includes taxation of multistate husinesses
- ESTATE PLANNING 650

3 credits Prerequisite: 633. Considers entire process of planning the estate with due regard for dispo-sition of property, tax minimization, liquidity requirements and administrative costs.

- 651 INTERNATIONAL TAXATION 3 credits Prerequisite: 631 or special permission. Examines United States taxation of foreign income of domestic corporations, citizens and residents, as well as United States income of nonresident aliens and foreign corporations.
- TAX-EXEMPT ORGANIZATIONS 652 3 credits erequisite: Admission to Master of Tax program or special permission. Analysis of tax aspect of tax-exempt organizations, including nature of and limitations of its exemption.
- INDEPENDENT STUDY IN TAXATION 654 1-3 credits Prerequisite: permission of instructor. Intensive study of particular topic or limited number of topics not otherwise offered in curriculum. (May be repeated for a total of six credits.)
- ADVANCED INFORMATION SYSTEMS 655 3 credits Prerequisites: 603 or equivalent and 610. Advanced study of accounting information system theory, elements, principles, design and implementation. Practical data processing and networks to control flow of information.
- ENTERPRISE RISK ASSESSMENT AND ASSURANCE 3 credits 658 rerequisite: 540 or equivalent or special permission. An examination of the risks, controls, and assurance services in contemporary organizations.
- ASSURANCE SERVICES AND DATA MINING Prerequisite: 603 or equivalent. Application of data mining and quantitative techniques to fraud risk assessment, error detection, financial distress, going concern, and information risk assessment
- ACCOUNTING AND ASSURANCE PROJECT 660 3 credits Prerequisites: 540 or equivalent, 658, or special permission. Comprehensive accounting and assurance project and a project management module completed in the final semester of the MSA program.
- S CORP TAXATION 3 credits Prerequisites: 631 or special permission. This course involves an in depth study of Subchap-662 ter S of the Internal Revenue Code.
- CORPORATE PERFORMANCE EVALUATION AND CONTROL SYSTEMS 670 3 credits Prerequisite: 610. Investigation of the role of financial information systems in developing strate-gy, planning, measuring results, and motivating managers to define and pursue organizational goals and objectives.
- INTERNATIONAL ACCOUNTING 680 3 credits Prerequisite: 610. Examination of accounting theory and practice from international perspec-tive with emphasis on multinational investment, business and auditing activities and reporting problems.
- SELECTED TOPICS IN TAXATION 693 3 credits Prerequisites: 631 or special permission. Provides study in contemporary issues in taxation that are not covered in current courses.
- GRADUATE INTERNSHIP IN ACCOUNTING 695 3 credits Prerequisites: 610, and 621. This course provides an opportunity for graduate accounting stu-dents to apply classroom instruction to practice problems in a professional working environment
- 697 INDEPENDENT STUDY IN ACCOUNTING 1-3 credits (May be repeated for a total of six credits) Focus on special topics of study and research in accounting on an independent basis.

FINANCE

INTERNATIONAL BANKING 3 credits Prerequisite: 602 or permission. Examination of recent trends in the expansion of international banking activities and associated revenue maximizing strategies

- INTERNATIONAL BUSINESS FINANCE 581 3 credits Financial policies and practices of companies involved in multinational operations. Considers management of working capital and permanent assets, return on investment and capital budgeting for the global firm.
- MANAGERIAL FINANCE 602 3 credits Prerequisite: 6200:601 or equivalent. 6400:602 may be taken concurrently with 6200:601. Emphasis on financial decision making related to goal of firm; specifically, the investment decision, the financial decision and the dividend decision.
- 631 FINANCIAL MARKETS AND INSTITUTIONS 3 credits Prerequisite: 602 or equivalent. A study of major financial markets and financial institutions with an emphasis on the decision making processes within a rapidly changing, but regulated operating environment.
- INVESTMENT ANALYSIS 645 3 credits Prerequisite: 602 or equivalent. Study of the economic and market forces that influence secu-rity prices. Techniques of analysis used in evaluating limited income and equity securities.
- TECHNIQUES OF FINANCIAL MODELING 3 credits Prerequisites: 3250:600 and 6400:602. Current techniques and methods of financial analysis 650 are examined, including the use of financial models for short and long run profitability deci-
- 655 GOVERNMENT AND BUSINESS 3 credits Public policy with regard to business institutions and issues are considered from an economic, legal, ethical, political framework.
- STRATEGIC FINANCIAL DECISION MAKING 674 3 credits Prerequisite: 602 Examines the role of financial decision makers as strategic consultants to other business units/functions with integrative risk management as a unifying theme.
- CAPITAL BUDGETING 678 3 credits Prerequisite: 602 or equivalent. Attempt to integrate various theories of capital budgeting into comprehensive conceptual scheme. Theoretical concepts and practical applications blended for better understanding of capital problems.
- SELECTED TOPICS IN FINANCE 690 3 credits (May be repeated for a total of six credits) Prerequisite: 602 or equivalent. Provides study of contemporary issues and areas not covered in current finance graduate courses.
- INTERNATIONAL MARKETS AND INVESTMENTS 691 3 credits Prerequisites: 602 or equivalent. A study of international financial markets with an emphasis on international investments and risks in a rapidly changing global economy.
- INDEPENDENT STUDY IN FINANCE 697 (May be repeated for a total of six credits) Focus on special topics of study and research in finance on an independent basis. 1-3 credits

MANAGEMENT

MANAGEMENT OF DATA NETWORKS 3 credits Prerequisite: 601. Principles of the design and management of data networks for business communications

- 6400:

- 571 MANAGEMENT PROJECT 3 credits Prerequisite: Permission of instructor. Students develop skills in real-world problem solving by interacting with organizations on issues of importance to them. Special empahasis will be transforming actual organizational data into recommendations.
- SPECIAL TOPICS IN HEALTH SERVICES ADMINISTRATION 585 1-3 credits Prerequisite: permission of instructor. Special topics in health services administration (e.g., management) focusing on historical and/or contemporary managerial organizational and/or policy/strategy issues as related to health-care organizations and health-care systems. Sepa-rate topics may be repeated for a maximum of six credits. For those registered for graduate credit, a major research paper is required.
- MANAGEMENT AND ORGANIZATIONAL BEHAVIOR 600 3 credits Course examines management principles, concepts, functions and process, as well as human behavior in organizations.
- BUSINESS ANALYTICS AND INFORMATION STRATEGY 3 credits Covers information systems foundations, strategic use of core analytical techniques including 601 statistics and data mining to enable firms to better compete.
- COMPUTER TECHNIQUES FOR MANAGEMENT 602 3 credits Introduction to the use of integrated spreadsheet software, database management software and the analysis and design of management information systems.
- **BUSINESS APPLICATIONS DEVELOPMENT** 3 credits The analysis and automation of standard business processes with examples from diverse business functions. Students will integrate these applications for business decision making. 605
- ENTREPRENEURSHIP 608 3 credits Prerequisite: Graduate standing. Students develop new products and work with entrepreneur-ial businesses in the development of business plans that are presented to investors and entrepreneurs in local and international business plan competitions.
- E-BUSINESS FOUNDATIONS 620 3 credits Provides an understanding of the foundation of Electronic Business focusing on business and application issues.
- E-BUSINESS TECHNOLOGIES 622 3 credits Prerequisite: 602 or 620. This course provides a foundation in internet related technologies for successfully managing an e-business. Students will be required to design and implement a functional e-business prototype.
- INFORMATION SYSTEMS AND IT GOVERNANCE 640 3 credits Prerequisite: 601. Cover issues, strategies, tactics for managing organizational use of information technology and systems. Includes strategic alignment, project management, offshoring, security, application systems, and emerging technologies.
- BUSINESS DATABASE SYSTEMS 641 3 credits Prerequisite: 601. Introduction to issues underlying the analysis, design, implementation, and management of business databases.
- ANALYSIS AND DESIGN OF BUSINESS SYSTEMS 3 credits Prerequisite: 601. A hands-on treatment of the methods used to develop different types of 643 business information systems.
- KNOWLEDGE MANAGEMENT AND BUSINESS INTELLIGENCE 644 3 credits Prerequisite: 601. Explores the technologies of Business Intelligence (data warehouses, data mining, portals) and how organizations successfully manage the creation, sharing, transfer, and exploitation of knowledge
- SOFTWARE DEVELOPMENT AND QUALITY ASSURANCE 645 3 credits Prerequisites; 601, Introduction to business software development and quality assurance. Student teams will work on projects with an emphasis on implementation of business systems.
- ENTERPRISE SYSTEMS IMPLEMENTATION 3 credits 646 Prerequisite: 602. The configuration and implementation of Enterprise Systems to support the cross functional integration of business processes.
- MANAGEMENT OF TELECOMMUNICATIONS 648 3 credits Prerequisite: 602 or 6200.603. An introduction to the use and management of telecommuni-cations resources to support the activities of the organization.
- HUMAN RESOURCE SYSTEMS FOR MANAGERS 650 3 credits Prerequisite: 652. A broad survey of the fundamental principles, research findings and practices related to the acquisition, development, maintenance and effective utilization of a business firm's human resources
- 651 MANAGEMENT OF ORGANIZATIONAL TRANSFORMATION 3 credits Prerequisite (52. A comprehensive study of involvations in organizations designed to increase human satisfaction and productivity through changes in human management. MANAGING PEOPLE IN ORGANIZATIONS 652 3 credits
- Introduction to the employee issues that managers face in organizations. The aspects of orga-nizational behavior that influence performance and issues related to managing human resources will be examined.
- ORGANIZATIONAL THEORY 3 credits Prerequisite: 600. Examines the structure, design and overall effectiveness of a business 653 organization from a macro-perspective.
- MANAGEMENT OF ORGANIZATIONAL CONFLICT 654 3 credits Prerequisite: 600 or equivalent. Course emphasizes ensuring that the organization benefits from inevitable conflicts that occur and provides skills in diagnosis, negotiation, and building trust and cooperative working relationships in organizations
- COMPENSATION AND PERFORMANCE MANAGEMENT 655 3 credits Prerequisite: 600 or equivalent. The development and analysis of systems of payments and rewards in business organizations with special attention placed on performance evaluation methods and productivity enhancement.
- MANAGEMENT OF GLOBAL SUPPLY CHAIN AND OPERATIONS 656 3 credits Prerequisite: 600 or equivalent or permission. Study and explore the elements and issues related to globalization of supply chain, production, and service operations.
- 657 THE LEADERSHIP ROLE IN ORGANIZATIONS 3 credits Prerequisite: 652. Analysis and development of leadership theory and thought. Identification of leaders in both formal and informal organizations. Training and development methods of leaders evaluated. Individual and small group field study assignments.
- MANAGING A GLOBAL WORKFORCE 3 credits Prerequisites: 652. The formulation, design and implementation of human resource practices 658 designed to generate competitive cost advantages for business firms operating in domestic and/or international markets
- INTERNATIONAL HUMAN RESOURCE MANAGEMENT 3 credits Prerequisite: 600. A survey course focused on the identification, analysis, and resolutions of human resource problems in business firms with global operations. 659
- STAFFING AND EMPLOYMENT REGULATION 3 credits Prerequisite: 600 or equivalent. Design and implementation of staffing practices and systems for businesses with an emphasis on the implications of federal regulations on the staffing function

- 662 SUPPLY CHAIN ANALYSIS
 - Prerequisite: 675. Application of quantitative models in the analysis and design of systems in the supply chain and in manufacturing and service operations environments
- DATA ANALYSIS FOR MANAGERS 663 3 credits Prerequisite: 601 or equivalent. Design, evaluation and interpretation of research in business and organizations. Integrates quantitative and behavioral concepts and processes encountered in conducting such research, including ethical issues.
- 665 MANAGEMENT OF TECHNOLOGY 3 credits Survey of the principles and management practices of technology driven organizations are dis-cussed with concepts, models and case studies for managers of technology intensive operations.
- POLYMER MANAGEMENT DECISIONS 669 3 credits Introduces major polymer concepts, production processes, and uses of polymeric materials in an easy-to-comprehend interdisciplinary instructional way. Industrial case studies help inte-grate enterprise-wide innovation and technology management related decisions.
- MANAGEMENT OF SUPPLY CHAINS AND OPERATIONS 3 credits 670 Prerequisite: 601. An overview of the issues directly related to the management of supply chains and operations at the strategic, tactical, and operational levels of the organization QUALITY AND PRODUCTIVITY TECHNIQUES 3 credits 673
- Prerequisite: 601. Introduction to techniques for improving productivity and quality, including statistical process control (SPC), material requirements planning (MRP), just-in-time (JIT) inventory control and management of the program. GLOBAL SUPPLY CHAIN MANAGEMENT 675
- 3 credits Prerequisite: Graduate standing. Focuses on the integration of activities and information/mate-rial flows across multiple organizations that comprise the supply chain, and the relationships among those organizations.
- SUPPLY CHAIN SOURCING 3 credits Prerequisites: 675. Introduces the student to fundamental sourcing concepts as well as the scope of responsibility and critical roles of the sourcing function within the principal organiza-tion in a supply chain network.
- PROJECT MANAGEMENT 3 credits 3 credits Prerequisites: Graduate standing. Provides working knowledge of tools and methods available to project managers including computerized analysis of network models to aid in the planning and control functions.
- SUPPLY CHAIN LOGISTICS MANAGEMENT 3 credits Prerequisite: 670 or 675. Emphasizes the importance of planning and operation of supply 680 chain logistics systems that includes transportation, inventory and warehousing, with particu-lar emphasis on international logistics, regulations and documentation.
 - INTRODUCTION TO HEALTH-CARE MANAGEMENT 3 credits Prerequisite: graduate standing. Introductory course for health professionals covering princi-ples and concepts of management applied to health services organizations.
- HEALTH SERVICES OPERATIONS MANAGEMENT 682 3 credits Prerequisites: 580 or 600 or equivalent or permission of instructor. Application of operations and systems analysis to health services organizations.
- HEALTH SERVICES SYSTEMS MANAGEMENT 3 credits Prerequisite: Graduate standing. Study of health services organizations, comparative delivery 683 systems, the roles of third-party parts and government policy in health care. Seminar format: major research paper required.
- 3 credits Bring together students with different academic backgrounds to work in teams and identify and develop new medical technologies and solutions to healthcare problems. **BIOINNOVATION AND DESIGN** 685
- 686 HEALTH SERVICES RESEARCH PROJECT 3 credits Prerequisites: 683 or permission of instructor. In-depth field study in health services adminis-tration with applications of research and analysis skills. Course requires review of literature and a major research paper.
- INDEPENDENT STUDY IN HEALTH SERVICES ADMINISTRATION 688 1-3 credits (May not be repeated for more than three credits) Prerequisites: 580 or 600 or equivalent or permission of instructor. Independent study and research of a special topic of interest in health services administration (e.g., management), chosen by the student in consultation with and under the supervision of the instructor.
- SELECTED TOPICS IN MANAGEMENT 690 3 credits (May be repeated for a total of six credits) Prerequisite: 652. Selected topics in historical, con-temporary and/or operational and functional areas of management.
- ORGANIZATIONAL STRATEGY 3 credits Prerequisites: 6500:670, 6400:674, 6600:620, 6800:605 or permission of instructor. A case-oriented course which focuses on integration of theoretical and practical knowledge acquired in core business courses. Students analyze, evaluate, and formulate organization objectives and strategies within domestic and international environmental contexts
- INDEPENDENT STUDY IN MANAGEMENT 697 1-3 credits (May be repeated for a total of six credits) Focus on special topics of study and research in management on an independent basis.

MARKETING

6600:

- 575 BUSINESS NEGOTIATIONS 3 credits Examines business negotiation principles and practices and builds skills in the process of negotiating business agreements within a global environment.
- MARKETING CONCEPTS 3 credits Introductory course examining buyer behavior, environmental influences, target marketing, product development, distribution, promotion, and pricing for business firms and nonprofit organizations within a global context.
- 615 CROSS-MEDIA DATABASE MARKETING 3 credits Prerequisite; 600. Students will work in the Xerox XMPie Cross Media Laboratory to develop customer acquisition and retention strategies and create interactive cross-media, variable data one-to-one marketing campaigns in print, online, dynamic video content, e-mail, and mobile communications. The course will focus on real-world applications and client projects. This course satisfies the ActionLearning requirement for the MBA program.
- STRATEGIC MARKETING 620 3 credits Review of Marketing terminology and concepts. Managerial assessments of opportunities, threats are explored as are the development and management of appropriate strategic marketing plans and their tactical implementation.
- 625 BRAND MANAGEMENT

3 credits Prerequisite: 620. Application of the development, management and evolution of brands in the creation of competitive advantage. Required field project satisfies the requirement for actionbased learning

3 credits

- 630 CUSTOMER RELATIONSHIP MANAGEMENT 3 credits Prerequisite: 620. CRM is a customer-centric business process used to organize, automate, and synchronize advertising, marketing, sales, support, and service functions across an orga-nization. Students will gain a clear understanding of key CRM concepts and how an effective CRM strategy can build brand equity, maximize customer lifetime value, and drive profitable revenue growth
- E-COMMERCE AND INTERACTIVE MARKETING 635 3 credits Prerequisites: 620. Covers the impact of electronic technology on marketing strategy and tac-tics. Investigations include: vendor/dealer relations, website traffic designs, database applications, and web appraisal metrics.
- BUSINESS RESEARCH METHODS 640 3 credits Prerequisites: 6500:601 and 602. Covers the scientific methods as well as the gathering and analysis of information to identify opportunities and solve problems within a business organi zation.
- INTEGRATED MARKETING COMMUNICATIONS 655 3 credits Prerequisite: 600. The total range of marketing communication tools are examined individually and in the context of planning, developing, and implementing a systematic and integrated communications program.
- 670 COMPETITIVE BUSINESS STRATEGY 3 credits Prerequisite: 600. Investigation of competitive business strategy from an industry perspective. The course presents a framework which can be used to understand and develop competitive strategies.
- 681 SALES MANAGEMENT Prerequisite: 620. Develops analytical and managerial skills through case studies and other learning activities relating to the organization, selection, training, motivation, and control of domestic or global sales force. (Graduate credit requires additional research paper)
- INDEPENDENT STUDY IN MARKETING 697 1-3 credits (May be repeated for a total of six credits) Focus on special topics of study and research in marketing on an independent basis.

6700:

3 credits

PROFESSIONAL

- LEADING AND INFLUENCING 1credit 689 The main topics of the course are authentic leadership and influence within collaborative struc-tures. The emphasis of course is on self-awareness and development of leadership and collaborative competencies
- PROFESSIONAL INTEGRITY 691 1credit This course is designed to examine the issues of integrity, ethics, and business social respon-sibility facing business professionals in today's world of business globalization.
- 693 NEGOTIATIONS IN THE WORKPLACE 1 credit This course introduces students to the skills necessary to successfully navigate career and life negotiations. Contexts covered include job interviews, job offers, and promotions. This course is taught from a practical perspective, with hands-on experience and interactions
- 695 INTERNSHIP IN BUSINESS 1-3 credits Prerequisite: permission of instructor. On-the-job experience with cooperating private and pub-lic sector organizations. Individual assignments made by supervising faculty member. Periodic reports and research papers required. Credit/noncredit.
- SPECIAL TOPICS IN PROFESSIONAL DEVELOPMENT 696 1 credit Special topics and current issues in the MBA Program Professional Core. May be repeated with a change of subject, not to exceed six credits.
- 698 COLLOQUIUM IN BUSINESS 1-3 credits Prerequisite: permission of graduate director. Study of business administration through a sem-Inar of several lectures in business research and your downess and ange of topics in business research and issues will be discussed by guests, faculty and graduate students. May be repeated, but will not satisfy degree requirements Credit/noncredit.

INTERNATIONAL BUSINESS 6800:

- INTERNATIONAL BUSINESS 506 3 credits A basic course in international business which can also provide a platform for more special-A basic course in international business which can also provide a platform on mole special-ized international business courses. Students majoring in IB are required to participate in an approved study abroad program. Foreign students must choose a country other than their home country to satisfy the study abroad requirement. Students will prepare and submit a detailed examination of the business environment visited.
- 605 INTERNATIONAL BUSINESS ENVIRONMENTS 3 credits Prerequisites: all MBA foundation courses. This course is intended to develop an understanding of the global business environment and the integrated functions of the multinational corporation.
- INTERNATIONAL MARKETING POLICIES 630 3 credits Explores the problems of formulating and implementing marketing strategies and tactics with in complex and changing multinational organizations and international markets. A planning framework is emphasized.
- MULTINATIONAL CORPORATIONS 685 3 credits A course designed to develop an understanding of global businesses, their functions, struc-tures, and strategic operations.

SEMINAR IN INTERNATIONAL BUSINESS

- A course covering major issues in international business. INDEPENDENT STUDY IN INTERNATIONAL BUSINESS 697
- 1-3 credits (May be repeated for a total of six credits) Prerequisites: Graduate standing and permission of instructor. Focus on special topics of study and research in international business on an independent basis

Health Professions

530

SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY 7700:

ASPECTS OF NORMAL LANGUAGE DEVELOPMENT (Not open to communicative disorders major) Introduction to acquisition and development of comprehension and production of language – phonologically, semantically and syntactically. Relates language acquisition to perceptual development of child and looks at function of lan-guage in individual, family and school.

- 540 AUGMENTATIVE COMMUNICATION 3 credits Perequisite: Graduate standing in speech-language pathology. Overviews augmentative communication systems–candidates, symbol systems, devices, vocabulary, funding. Consid-ers interdisciplinary issues in assessment/intervention.
- 545 MULTICULTURAL CONSIDERATIONS FOR AUDIOLOGISTS AND SPEECH-LANGUAGE PATHOLOGISTS 2 credits AND SPEECH-LANGUAGE PATHOLOGISTS 2 credits Prerequisite: 7700:110 or graduate standing. This course introduces the multicultural consid-erations faced by audiologists and speech-language pathologists providing services to fami-lies and individuals with communication disorders.
- 552 CHILD, ILLNESS AND LOSS 3 credits This course examines the phenomena of illness, loss and bereavement in modern society with a special emphasis on children and families.
- 553 FACILITATING SUPPORT GROUPS 3 credits Theories, strategies and skills needed to facilitate support groups for children and for adults are studied using a variety of approaches including participation in a support group.
- 554 CHILD IN THE HOSPITAL 4 credits Prerequisite: Permission of instructor. Seminar dealing with special needs and problems of hospitalized/ill child and family. Literature related to effects, separation, illness and stress. Examination of strategies for coping.
- 555 PRACTICUM EXPERIENCE IN A CHILD LIFE PROGRAM 3 credits Prerequisite: 561 or permission of instructor. Field experience in a child life program and class-room activities including critical analysis of a currently functioning program and program administration.
- SPEECH-LANGUAGE AND HEARING DISORDERS IN THE PUBLIC SCHOOLS 2 credits 560 (Not open to communicative disorders major) Nature, causes and treatment of speech, hearing and language disorders in public schools. Special reference to role of classroom teacher in identifying and referring student with suspected problems and in working with school clinician.
- 561 ORGANIZATION AND ADMINISTRATION: PUBLIC SCHOOL SPEECH-LANGUAGE AND HEARING PROGRAMS
 - 2 credits Prerequisites: Senior or graduate standing or permission. For clinicians who plan to work in public school systems. Covers program requirements and professional/ethical issues imposed by PL 94-142.
- 580 FARLY INTERVENTION FOR PRESCHOOLERS 2 credits Prerequisite: graduate status. This course explores model programs currently being offered to the three to five year old population, with and without disabilities at two different levels.
- 584 HOSPITAL SETTINGS, CHILDREN, AND FAMILIES 3 credits Prerequisite: Permission of instructor. Focuses on hospital as a major social institution; intro-duces procedures and functions of the hospital; roles played by various hospital personnel plus cursory knowledge of medical terminology, common childhood diseases, illnesses and injuries.
- 585 DEVELOPMENTAL DISABILITIES 2 credits Prerequisite: graduate status. Current practice related to clinical intervention designed for indi-viduals with developmental disabilities. Explores the use of the natural environment and the computer as intervention tools.
- WORKSHOP: SPEECH-LANGUAGE PATHOLOGY AND/OR AUDIOLOGY 590 1-3 credits (May be repeated for a total of four credits) Prerequisite: permission. Group investigation of particular phase of speech pathology and/or audiology not offered by other courses.
- CHILD LIFE INTERNSHIP 594 5 credits Prerequisite: Acceptance into the program. Field experience in a child life program at an approved pediatric facility under the supervision of Certified Child Life Specialists.
- INSTRUMENTATION IN SPEECH PATHOLOGY AND AUDIOLOGY 610 2 credits Principles and use of clinical and research instrumentation in speech and hearing.
- RESEARCH METHODS IN COMMUNICATIVE DISORDERS I 611 3 credits Prerequisite: Full admission to the SLP program or permission of the school director. Intro-duction to experimental design in field of communicative disorders.
- ARTICULATION 2 credits Prerequisite: Full admission to the SLP program or permission of the school director. Histori-cal background, current theories and research related to etiology, evaluation and treatment of articulation and phonology disorders.
- SUPPORT SYSTEMS FOR INDIVIDUALS AND FAMILIES WITH COMMUNICATIVE DISORDERS 2 credits Prerequisite: Full admission to the SLP program or permission of the school director. Enhances students' abilities to interview, provide educational information, and create support systems for persons with communicative handicaps and their families.
- NEUROGENIC SPEECH AND LANGUAGE DISORDERS 3 credits Prerequisite: Full admission to the SLP program or permission of the school director. Course presents current theories and research related to neuroanatomical etiology, diagnosis, classification and treatment of adults with neurologically based communication disorders.
- VOICE AND CLEFT PALATE 3 credits Prerequisite: Full admission to the SLP program or permission of the school director. Background and current research related to normal vocal and velopharyngeal function as well as the etiology, diagnosis, and treatment of voice and cleft palate.
- 627 STUTTERING: THEORIES AND THERAPIES 2 credits Prerequisite: Full admission to the SLP program or permission of the school director. This course provides information and discussion on theories, classification, diagnosis, and treatment of fluency disorders.
- TOPICS IN DIFFERENTIAL DIAGNOSIS OF SPEECH AND 628
 - ANGUAGE DISORDERS 2 credits (May be repeated for a total of four credits) Prerequisite: Full admission to the SLP program or permission of the school director.
- CLINICAL ISSUES IN CHILD LANGUAGE 630 4 credits Prerequisite: Full admission to the SLP program or permission of the school director. Presents current research perspectives on child language disorders and clinical methodologies in language assessment and intervention.
- 631 ACQUIRED BRAIN INJURY 3 credits Prerequisites: Full admission to the SLP program or permission of the school director. A study of behavioral deficits, stages of recovery, assessment techniques, and principles of cognitive rehabilitation related to closed head injury.
- 632 DYSPHAGIA 3 credits Prerequisite: Full admission to the SLP program or permission of the school director. Outlines etiology, assessment, and treatment for infants, children, and adults with feeding and swallowing disorders (dysphagia). It provides actual experiences in diagnosis and feeding techniques
- 633 PROFESSIONAL ISSUES
 - 2 credits Prerequisite: Full admission to the SLP program or permission of the school director. Ethical, moral, and legal processes within current SLP professional issues are discussed. Students are encouraged to develop personal professional viewpoints and identity.

- AUDIOLOGY FOR THE SPEECH-LANGUAGE PATHOLOGIST 3 credits Prerequisite: Prerequisite: Full admission to the SLP program or permission of the school director. Advanced information on hearing loss and concomitant communication problems with 639 special orientation toward the speech-language pathologist.
- ADVANCED CLINICAL PRACTICUM: SPEECH-LANGUAGE PATHOLOGY 650 1-6 credits Prerequisite: Full admission to the SLP program or permission of the school director. (May be repeated). Supervised clinical practicum in evaluation and treatment of speech and language disorders; includes preparation of written reports.
- INTERNSHIP: ADVANCED PROGRAMMING IN CHILD LIFE 690 5 credits Prerequisite: 594. Field experience in a specialized area in a child life program in an approved pediatric facility under the supervision of a certified child life specialist.
- SCHOOL-BASED EXTERNSHIP SEMINAR credit Taken concurrently with School-Based Externship in Audiology or Speech-Language Patholo-gy. Review and discussion of issues raised during externship experience.
- SCHOOL-BASED EXTERNSHIP: SPEECH LANGUAGE PATHOLOGY 693 6 credits Directed professional experience under supervision of a licensed and certified speech-lan-guage pathologist and a University supervisor.
- EXTERNSHIP: SPEECH PATHOLOGY 6 credits Prerequisite: Full admission to the SLP program or permission of the school director. (May be repeated once). Clinical practicum in a selected speech-language pathology or audiology facil-
- EXTERNSHIP SEMINAR 696 credit Prerequisite: Full admission to the SLP program or permission of the school director. Coreq-uisite: 695. (May be repeated once). Taken concurrently with externship in speech-language pathology. Review and discuss issues raised during extern experience.
- SPECIAL PROBLEMS: SPEECH PATHOLOGY AND/OR AUDIOLOGY 1-3 credits Prerequisite: Full admission to the SLP program or permission of the school director. (May be repeated for total of six credits.) Guided research or reading in selected topics in speech 697 pathology, audiology, or language disorders.
- MASTER'S THESIS 699 4-6 credits (May be repeated for a total of six credits.) Prerequisite: permission of School Director.
- BASIC AND APPLIED PHYSICAL ACOUSTICS FOR AUDIOLOGY 4 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of physical acoustics, basic electricity and electronics, as well as principles, methodology, calibration and maintenance of audiology equipment (includes 1 credit hour lab).
- ANATOMY AND PHYSIOLOGY OF THE PERIPHERAL AUDITORY AND VESTIBULAR SYSTEMS 702 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. A study of the anatomy, biophysics, and physiology of the auditory and vestibular systems.
- ACOUSTIC PHONETICS 703 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of the acoustics, measurement, and nomenclature of speech sounds and theoretical and acoustic bases of speech perception (includes 1 credit hour lab).
- CRITICAL ANALYSIS OF RESEARCH IN AUDIOLOGY I 704 4 credits Prerequisite: admission to the Au.D. program or permission of instructor. General introduction to the research process with an emphasis on acquiring a reading knowledge of research and an ability to evaluate research.
- AUDITORY DISORDERS 705 2 credits Perequisite: admission to the Au.D. program or permission. Study of conditions/diseases that can affect the auditory system.
- ANATOMY AND PHYSIOLOGY UNDERLYING NEURO-OTOLOGY 706 4 credits Prerequisite: 702. An in-depth study of the anatomy and physiology of the central auditory and vestibular nervous systems (includes 1 credit hour lab).

PSYCHOACOUSTICS 707 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of the principles, procedures, and research of psychoacoustics: the relationships between the physical dimensions of auditory stimuli and the resultant perceptual experience with normal and impaired hearing.

- CRITICAL ANALYSIS OF RESEARCH II 2 credits Prerequisite: 704. Development of a reading knowledge of research and the ability to evalu-ate the quality of research studies. 708
- AUDIOLOGIC ASSESSMENT 709 3 credits Prerequisite: 705, 743. Theoretical basis for tests underlying basic audiologic assessments.
- INDUSTRIAL AND COMMUNITY NOISE 710 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Theoretical principles of noise measurement; etiology of noise-induced hearing loss and acoustic trauma; industrial hearing conservation program, Occupational Health and Safety Act; community and recre-ational noise evaluation and management.
- SPEECH-LANGUAGE PATHOLOGY FOR THE AUDIOLOGIST 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Examination of nor-mal and abnormal aspects of speech and language including their impact on auditory function 711 and testing.
- DIAGNOSIS OF AUDITORY DISORDERS 712 3 credits Prerequisite: 709. Underlying theory and principles of administration and interpretation of siteof-lesion tests.
- 713 HEARING AID TECHNOLOGY 4 credits Prerequisite: 701. Study of amplification systems for the hearing impaired.
- GERONTOLOGICAL ISSUES IN AUDIOLOGY 714 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Physiological, psy-chological, and sociological theories of aging with a focus on the etiology, symptomatology, assessment, and rehabilitation of older adults with hearing impairments.
- 715 CENTRAL AUDITORY PROCESSING: EVALUATION AND MEASUREMENT 2 credits Prerequisites: 705 and 706. Study of audiologic evaluation and habilitation/rehabilitation pro-cedures for people having central auditory disabilities.
- ADULT HEARING AID FITTING AND SELECTION 716 3 credits Prerequisite: 713. Examination of the theory and practice of fitting hearing aids. Emphasis on special clinical procedures, research needs, and evolving technology in hearing instruments (includes 1 credit hour lab).
- PEDIATRIC AUDIOLOGY 717 3 credits Prerequisite: 709. Study of audiologic diagnostic and auditory habilitative protocols for the birth to 3 population. Both assessment and management strategies will be emphasized.
- COCHLEAR IMPLANTS 2 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of cochlear implants in children and adults including equipment, candidacy, mapping, and overview of 718 (re)habilitation.
- COUNSELING IN AUDIOLOGY 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Focus on interviewing, counseling, and interacting with individuals with hearing impairments, their families, and significant others

720 PEDIATRIC AMPLIFICATION

- 3 credits Prerequisites: 713, 716, 717. The focus of study is on amplification systems and fitting tech-niques for the pediatric population.
- EVALUATION AND MANAGEMENT OF BALANCE DISORDERS 721 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of the balance mechanism; differential diagnostic assessment of balance disorders including electronystag-mography, posturography and rotational testing; rehabilitation of the balance disordered rotation (directed electron). patient (includes 1 credit hour lab).
- 722 AUDIOLOGIC MANAGEMENT OF THE SCHOOL-AGED CHILD 3 credits Pererequisite: 717. Focus on educational audiology. Features delivery of audiologic services designed to access the school environment for children ages 4-21.
- AUDIOLOGIC REHABILITATION OF ADULTS 3 credits Prerequisite: 716. Study of current methodologies employed in the audiologic rehabilitation of adults with hearing impairments. Implementation of remedial strategies is emphasized.
- HISTORY OF AUDIOLOGY 1 credit Prerequisite: admission to the Au.D. program or permission of instructor. An examination the history of deafness/hearing impairment and the profession of audiology.
- MEDICAL MANAGEMENT OF AUDITORY DISORDERS 2 credits Prerequisite: 712. A study of the multidisciplinary approach to medical/surgical management of patients with auditory and vestibular disorders.
- ELECTROPHYSIOLOGICAL TECHNIQUES IN AUDIOLOGY 726 3 credits Prerequisite: 706. Study of evoked responses used in diagnostic audiology, including ABR, MLR, ECochG, ENOG, ALR, P300, VER, and SSER.
- MULTICULTURAL ISSUES IN DEAFNESS 2 credits 727 Prerequisite: admission to the Au.D. program or permission of instructor. An introduction to Deaf Culture and the audiologist's roles and responsibilities in planning treatment with mem-bers of the deaf community.
- 728 SEMINAR IN AUDIOLOGY Prerequisite: admission to the Au.D. program or permission of instructor. Selected current top-ics in audiology with emphasis on review of current literature. Course may be repeated up to six credits
- **RESEARCH PROJECT IN AUDIOLOGY** 3 *credits* Prerequisite: admission to the Au.D. program or permission. Completion of a Doctoral Research Project including data collection, analysis, write-up, and oral presentation. 729
- PRACTICE MANAGEMENT IN AUDIOLOGY 730 3 credits Prerequisite: admission to the Au.D. program or permission of instructor. Study of issues which impact the management of audiological practices, including establishing a private practice, reimbursement, marketing, record keeping and professional liability.
- FOURTH YEAR SEMINAR 731 1 credit Prerequisite: Admission to the Au.D. program or permission of instructor. Corequisite: 749 or 750 or permission of instructor. In depth consideration of topics/issues in the practice of audi-ology with emphasis upon issues related to clinical rotation issues. Repeatable up to six cred-
- 732 AUDIOLOGIC TREATMENT ACROSS THE LIFESPAN 4 credit Study of current methodologies employed in the audiologic treatment of people with hearing loss across the lifespan. Implementation of remedial strategies is emphasized.
- PRINCIPLES OF PRECEPTING 1 credit Prerequisite: 748. Examination of the concepts and practices essential to the preceptor role. Emphasis oon professional standards, adult learning theories, communication styles, ethical principles, and multiple roles of a preceptor (educator, role model, mentor, facilitator, and evaluator)
- 741 DIRECTED OBSERVATION IN AUDIOLOGY I 1 credit Prerequisite: admission to the Au.D. program or permission of instructor. Introduction to clini-cal practicum in Audiology. Directed observation of clinical practice including audiologic diag-nosis and audiologic rehabilitation are required. Repeatable up to six credits.
- DIRECTED OBSERVATION IN AUDIOLOGY II 1 credit Prerequisite: 741. Introduction to clinical practicum in Audiology. Directed observation of clini cal practice including audiologic diagnosis and audiologic rehabilitation are required. Repeatable up to six credits.
- CLERKSHIP I 1 credit 743 Corequisite: 709. Clinical practicum in audiology during which students perform discrete tasks under supervision. Repeatable for up to 6 credits.
- CLERKSHIP II 1 credit Prerequisite: 743. Supervised clinical practicum in audiology during which students will per-form discrete clinical tasks while under supervision. Repeatable for up to 6 credits.
- 745 INTERNSHIP IN AUDIOLOGY I 2 credits Prerequisite: 744 and permission. Supervised practicum in audiology requiring the indepen-dent performance of basic audiologic procedures, including hearing aid management. Repeatable up to eight credits.
- INTERNSHIP IN AUDIOLOGY II 2 credits Prerequisites: 745 and permission. Supervised clinical practicum in audiology requiring the independent performance of diagnostic audiology, hearing aids, and audiologic rehabilitation procedures. Repeatable up to eight credits.
- GRADUATE AUDIOLOGIST I 3 credits Prerequisites: 746. Supervised clinical practicum in audiology which encompasses audiologic 747 assessments and audiologic rehabilitation. Repeatable for up to 9 credits.
- GRADUATE AUDIOLOGIST II 748 3 credits Prerequisites: 747 and permission. Supervised clinical practicum in audiology requiring the independent performance of audiologic procedures, audiologic rehabilitation, and vestibular assessment and rehabilitation. Repeatable for up to 9 credits.
- GRADUATE AUDIOLOGIST III 749 6 credits Prerequisites: 748, and permission. Corequisite: 731. Supervised clinical practicum in audiol-ogy requiring the independent performance of audiologic assessment procedures, audiologist rehabilitation, and vestibular assessment and rehabilitation. Repeatable up to 24 credits.
- GRADUATE AUDIOLOGIST IV 8 credits Prerequisites: 749 and successful completion of the PRAXIS Examination. Corequisite: 731. Supervised clinical practicum in audiology requiring the independent performance of audio-logic assessment procedures, audiologic rehabilitation, and vestibular assessment and rehabilitation. Repeatable up to 24 credits.
- GRADUATE AUDIOLOGIST V 751 8 credits Prerequisites: 750 and permission. Corequisite: 731. Supervised clinical practicum in audiolo-gy requiring the independent performance of audiologic assessment procedures, audiologic rehabilitation, and vestibular assessment and rehabilitation. Repeatable up to 24 credits.
- CLERKSHIP I 752 1 credit Prerequisites: Admission to the Doctor of Audiology program or permission of instructor. Directed observation of clinical practice including audiologic diagnosis and audiologic rehabil-itation are required (repeatable for up to 6 credits).

140 The University of Akron 2013-2014

- 753 CLERKSHIP II
- Prerequisite: 741. Directed observation of clinical practice including audiologic diagnosis and audiologic rehabilitation are required (repeatable for up to 6 credits).

1 credit

1 credit

7750:

754 INTERNSHIP I

Corequisite: 709 or permission. Clinical practicum in audiology during which students perform discrete tasks under supervision (repeatable for up to 6 credits).

755 INTERNSHIP II 1 credit Prerequisite: 743. Supervised clinical practicum in audiology during which students perform discrete tasks under supervision (repeatable for up to 6 credits).

- 756 INTERNSHIP III 2 credits Prerequisite: 744 and permission. Supervised clinical practicum in audiology requiring the independent performance of basic audiologic procedures, including hearing aid management (repeatable for up to 6 credits).
- 757 INTERNSHIP IV 2 credits Prerequisites: 745 and permission. Supervised clinical practicum in audiology requiring the independent performance of diagnostic audiology, hearing aids, and audiologic rehabilitation procedures (repeatalbe for up to 8 credits).
- 758 IMPLANTABLE TECHNOLOGY 2 credits Prerequisites: Admission to the Au.D. or permission. Study of cochlear implants in children and adults, including equipment, candidacy, mapping, and an overview of (re)habilitation.
- 760 HEARING AID FITTING AND SELECTION ACROSS THE LIFESPAN 4 credits Prerequisite: 713. Examination of the theory and practice of fitting hearing aids across the lifespan. Emphasis on special clinical procedures, research needs, and evolving technology in hearing instruments.
- 761
 ADVANCED ELECTROPHYSIOLOGIC AND VESTIBULAR MEASURES
 4 credits

 Prerequisites:
 721 and 726. Advanced considerations in balance function assessment and management and in the study of evoked responses used in diagnostic audiology.
 4

899 DOCTORAL ENROLLMENT/RESIDENCY 1-8 credits (May be repeated up to 8 credits) Prerequisites: Graduate standing in the Doctor of Audiology program and permission of instructor. Continuous enrollment course to maintain status in Au.D. program.

SOCIAL WORK

- 558 ADULT DAY CARE 3 credits Prerequisite for 458: 276 or permission of instructor; for 558: permission of instructor. Planning, development, implementing, evaluating, and delivery of adult day-care services.
- 580 SPECIAL TOPICS IN SOCIAL WORK AND SOCIAL WELFARE 1-3 credits Prerequisite: permission of instructor. Analysis of current social work and social welfare theory and policy, settings, innovative interventions and trends in delivery systems in relation to selected areas of concern. Topics and credits variable.
- 597 INDIVIDUAL INVESTIGATIONS IN SOCIAL WORK SOCIAL WELFARE 1-3 credits Prerequisites: permission and prearrangement with instructor. Individual readings, research or projects in area of interest in social welfare theory or institutional operations or in social work practice under guidance of social work faculty member. Preparation of report paper appropriate to nature of topic. For social work major.
- 601 FOUNDATION FIELD PRACTICUM 3 credits Prerequisities: first of two field practicum courses to be taken in the first year of the MSW program. A two-semester, 400 clock hour, supervised internship at a social service agency. Credit/noncredit. (Offered only Fall Semester.)
- 602 FOUNDATION FIELD PRACTICUM 3 credits Prerequisites: second of two field practicum courses to be taken in the first year of the MSW program. A two-semester, 400 clock hour, supervised internship at a social service agency. Credit/noncredit. (Offered only Spring Semester.)
- 603 ADVANCED FIELD PRACTICUM 3 credits Prerequisites: first of two field practicum courses to be taken in the second year of the MSW program. A two-semester, 500 clock hour, supervised internship in a social service agency, based on the student's concentration and specialization. Credit/noncredit. (Offered only Fall Semester.)
- 604 ADVANCED FIELD PRACTICUM 3 credits Prerequisites: second of two field practicum courses to be taken in the second year of the MSW program. A two-semester, 500 clock hour, supervised internship in a social service agency, based on the student's concentration and specialization. Credit/noncredit. (Offered only Spring Semester.)
- 605 SOCIAL WORK PRACTICE WITH SMALL SYSTEMS 3 credits Prerequisite: graduate status or permission of instructor. Provides the basic knowledge, skills, professional ethics and values necessary for beginning social work practice with small client systems.
- 606
 SOCIAL WORK PRACTICE WITH LARGE SYSTEMS
 3 credits

 Prerequisite:
 605 or permission of instructor. Provides the basic knowledge, skills, and strategies of social work practice with task groups, organizations and communities.
 3
- 607 ADVANCED PRACTICE WITH SMALL SYSTEMS I 3 credits Prerequisite: second level graduate student or permission of instructor. This course focuses on the differential assessment of individuals, families and small groups and the application of a range of theory bases.
- 608 ADVANCED PRACTICE WITH SMALL SYSTEMS II 3 credits Prerequisite: 607 or permission of instructor. As a continuation of Advanced Practice I, this course focuses on the development and implementation of intervention strategies with and on behalf of small systems.
- 611 DYNAMICS OF RACISM AND DISCRIMINATION 3 credits Prerequisite: graduate status or permission of instructor. Provides knowledge of analyzing and understanding the factors leading to and sustaining racism, sexism, homophobia, and the like, at micro and macro levels.
- 622 FUNDAMENTALS OF RESEARCH I 3 credits Prerequisite: graduate status or permission of instructor. This course provides an Introduction to the logic of scientific inquiry, the research process, and the relationship between research and social work practice.
- 623 FUNDAMENTALS OF RESEARCH II 3 credits Prerequisite: 622; statistics course; or permission of instructor. Provides students with an understanding of quantitative and qualitative methodologies and the use of descriptive and inferential statistics in analyzing research data.
- 631 HUMAN BEHAVIOR AND SOCIAL ENVIRONMENT: SMALL SOCIAL SYSTEMS 3 credits Prerequisite: graduate status or permission of instructor. This course focuses on understanding the human behavior and life cycle development of people as individuals and as members of families and other small groups.
- 632 HUMAN BEHAVIOR AND SOCIAL ENVIRONMENT: LARGE SYSTEMS 3 credits Prerequisites: 631 or permission of instructor. This course focuses on the human behavior of people as members of larger social systems including formal and informal organizations, communities and institutions.

- 646 SOCIAL WELFARE POLICY I 3 credits Prerequisite: graduate status or permission of instructor. Examines the historical, philosophical and value bases of social welfare as well as the relationship between social work practice, policy and service delivery.
- 647 SOCIAL WELFARE POLICY II 3 credits Prerequisite: 646 or permission of instructor. This course prepares students with the beginning skills to engage in social problem/policy analysis.
- 650 ADVANCED STANDING INTEGRATIVE SEMINAR 6 credits Prerequisite: advanced standing. Provides an integrative view of social work practice with an emphasis on values, foundation knowledge and skills, and evaluation of professional interventions.
- 656 SOCIAL WORK PRACTICE WITH GAYS AND LESBIANS 3 credits Prerequisite: second level graduate status or permission of instructor. This course examines gay and lesbian culture and lifestyles, discrimination based on sexual orientation, and intervention strategies appropriate to practice with gays and lesbians.
- 663 PSYCHOPATHOLOGY AND SOCIAL WORK 3 credits Prerequisite: second level graduate student or permission of instructor. An examination of the symptoms, theories, and psychosocial aspects of mental illness, and the role of the social worker in the treatment of mental disorders.
- 664 DIRECT PRACTICE RESEARCH 3 credits Prerequisite: second level graduate student or permission of instructor. Provides students with advanced knowledge about the methodology of single system design and skills to implement an evaluation study of their intervention with clients.
- 665 SUPERVISION AND STAFF DEVELOPMENT 3 credits Prerequisite: second level graduate student or permission of instructor. An examination of the purpose, functions, and theories of supervision; the impact of cultural, ethnic and racial differences in supervision/staff development; and problems encountered.
- 671 SOCIAL WORK ADMINISTRATION 3 credits Prerequisite: second level graduate student or permission of instructor. This course focuses on supervisory and managerial roles and functions as they are carried out at different hierarchical levels in human service organizations.
- 672 COMMUNITY ORGANIZATION AND PLANNING 3 credits Prerequisite: must have completed first year of master's program. Required for all second year students concentrating on Macro Practice sequence. Prepares students to work in communities and in public and private agencies.
- 673 STRATEGIES OF COMMUNITY ORGANIZATION 3 credits Prerequisite: second level graduate student or permission of instructor. Emphasizes the historical development and application of several community strategies used to identify community problems, and how to organize and empower diverse community groups.
- 674 COMMUNITY, ECONOMIC SYSTEMS AND SOCIAL POLICY ANALYSIS 3 credits Prerequisite: second level graduate student or permission of instructor. This course provides a base for understanding economic systems and analyzing the political framework at federal, state, and local levels and their impact on communities.
- 675 PROGRAM EVALUATION 3 credits Prerequisite: second level graduate student or permission of instructor. This course provides students with methods of evaluating programs in agencies, including approaches, measurement, design, data collection and analyses employed in program outcome research.
- 676 FISCAL MANAGEMENT OF SOCIAL AGENCIES 3 credits Prerequisite: second level graduate student or permission of instructor. This elective course concentrates on the financial management of social administration, financial planning and management, principles of economic and fiscal exchange, accountability and fiscal accounting.
- 680 AGING AND SOCIAL WORK PRACTICE 3 credits Prerequisite: second level graduate student or permission of instructor. An examination and evaluation of aging programs and policies, demographic trends and the changing role of social work service providers.
- 681 AGING: POLICIES AND PROGRAMS 3 credits Prerequisite: second level graduate student or permission of instructor. An examination and evaluation of aging programs and policies, demographic trends and the changing role of social work service providers.
- 685 SOCIAL WORK PRACTICE: FAMILY AND CHILDREN 3 credits Prerequisite second level graduate student or permission of instructor. Examines the major problems encountered by children and families in the life cycle and explores intervention strategies and programs to address their needs and strengths.
- 686 SOCIAL WELFARE POLICY AND SERVICES: FAMILY AND CHILDREN 3 credits Prerequisite: second level graduate student or permission of instructor. Examines the federal and state laws, policies, and services governing children and families, including the supportive, supplemental and substitutive aspects of services.
- 690 ADVANCED PRACTICE AND POLICY IN SUBSTANCE ABUSE 3 credits Prerequisite: second level graduate student or permission of instructor. This course provides students the knowledge and skill base necessary for managing and practice with people involved in substance abuse, evaluating programs, and preventive work.
- 691 SOCIAL WORK VALUES AND ETHICS 3 credits Prerequisite: Full admission to the MSW program. This elective ethics course focuses on practical or applied ethics. Fundamentals of moral reasoning and ethical decision-making in social work practice are reviewed. Utilized are case materials that illustrate application of normative ethics and standards in the NASW Code of Ethics.
- 692 GROUP WORK PRACTICE 3 credits Prerequisite: Full admission to the MSW program. Examines the fundamental knowledge and skills required for social work practice with groups across multiple client systems. Knowledge of social work values and ethics is applied as it relates to all aspects of group work. Dynamics of working with special populations will be emphasized (e.g. the effect of the addictive processes on group therapy, age-appropriate communication with children).
- 693 SPECIAL TOPICS FOR ADVANCED SOCIAL WORK PRACTICE 1-3 credits Prerequisite: admission to MSW program or permission of program director. Detailed analysis and study of current practice issues and considerations faced by social work practitioners providing services and interventions at advanced levels.
- 694 THEORIES AND PROCEDURES IN ADDICTION STUDIES 3 credits Prerequisite: Full admission to the MSW program. Explores historical perspective of substance abuse in society, models and theories that describe addiction and the effects of addiction on individuals and families; effects of addiction in individuals; techniques and practices that have positive outcomes in treatment and prevention fields; and professional issues facing the addiction field.
- 695 HEALTH CARE: PLANNING AND POLICY ISSUES 3 credits Prerequisite: second level graduate student or permission of instructor. This course is designed to orient students to the planning and policy issues in health care, and how social work can interface with health care.
- 696 EPIDEMIOLOGIC ANALYSIS OF HEALTH AND SOCIAL PROBLEMS 3 credits Prerequisite: second level graduate student or permission of instructor. This course applies the epidemiological method to social work practice, such as treatment groups, making administrative decisions, in planning and evaluation, and doing preventive work.

NUTRITION AND DIETETICS 7760:

- NUTRITION COMMUNICATION AND EDUCATION SKILLS 4 credits 500 Prerequisite: Permission of instructor. Theory and development of communication and educa-tion skills essential to dietetics practice; interpersonal communication; interviewing; nutrition counseling; education techniques, media, and current technology.
- ADVANCED FOOD PREPARATION 503 3 credits Prerequisite: permission. Study of advanced techniques of food preparation. Introduction to and interpretation of classic and foreign cuisines. Emphasis on individualized experience, skill development and evaluation of procedures and results.
- 513 FOOD SYSTEMS MANAGEMENT II 3 credits Prerequisite: Acceptance into the graduate program or permission of instructor. Advanced concepts in management of dietetic service systems relating to achievement of nutritional care goals
- FOOD SYSTEMS MANAGEMENT II CLINICAL 514 3 credits Prerequisite: Acceptance CP program. Corequisite: 513. This clinical increases experience and serves to present in depth the role and responsibility of the Management RD/Food Service Director. Professional competencies are learned, leading to employment as an entry level dietitian.
- 524 NUTRITION IN THE LIFE CYCLE 3 credits Prerequisite: Permission of instructor. Study of the physiological basis for nutritional require-ments; interrelating factors which affect growth, development, maturation and nutritional sta-tus from conception through the elderly years.
- HUMAN NUTRITION 526 3 credits Prerequisite: Acceptance into the graduate program or permission of instructor. Corquisite: 543. Application of principles of nutrition, metabolism, and assessment. Analysis and interpretation of current literature.
- NUTRITION IN MEDICAL SCIENCE II 528 3 credits Prerequisite: Acceptance into the graduate program or permission of instructor. Emphasizing nutritional implications of more complex metabolic and pathological conditions as well as nutrition support strategies.
- 529 NUTRITION IN MEDICAL SCIENCE II CLINICAL 3 credits Prerequisite: Admission to CP program. Corequisite: 528. Clinical experience in hospitals; application of principles of nutritional care.
- 543 NUTRITION ASSESSMENT 3 credits Corequisites: 526 or permission . Application of principles of nutrition and assessment. Analysis and interpretation of current literature. Open to dietetics majors only.
- 544 NUTRITION IN MEDICAL SCIENCE LONG TERM CARE - CLINICAL 2 credits Prerequisites: CP graduate students only . Clinical experiences in long term care facilities for application of principles of nutritional care.
- 570 THE FOOD INDUSTRY: ANALYSIS AND FIELD STUDY 3 credits Prerequisite: permission. Role of technology in extending the food supply. Chemical, physical and biological effects of processing and storage, on-site tours of processing plants.
- CULTURAL DIMENSIONS OF FOOD 574 3 credits An examination of cultural, geographical and historical influences on development of food habits. Emphasis on evolution of diets; effects of religion, education, gender roles, media.
- DEVELOPMENTS IN FOOD SCIENCE 3 credits Prerequisite: permission. Advanced study of the chemistry and physics of food components, affecting characteristics of foods. Critical evaluation of current basic and applied research emphasized. 576
- COMMUNITY NUTRITION I-LECTURE 3 credits Prerequisite: Permission of instructor. Corequisite: 581. Socio-cultural aspects of community 580 assessment, program implementation and evaluation, and rationales for nutrition services.
- COMMUNITY NUTRITION I-CLINICAL 581 1 credit Corequisite: 580. Field placement in area agencies offering nutrition services. Study of the agency's goals, organization, and philosophy of nutritional care. Credit/noncredit.
- COMMUNITY NUTRITION II- LECTURE 582 3 credits Prerequisites: 580 (581 for CP student only). Corequisite: 583 for CP student only. This course will focus on managing nutrition services for productivity (economic, community and labor resources, and evaluation), and educating the dietitians' "various publics" about nutrition.
- 583 COMMUNITY NUTRITION II-CLINICAL 1 credit Prerequisite: (CP students only) 581. Corequisite: 582. Field placement in area agencies offer-ing nutrition services. Study of the agency's goals, organization, and philosophy of nutritional care. Credit/noncredit.
- SEMINAR IN HEALTH PROFESSIONS 585 1-3 credits Prerequisite: permission of instructor. Exploration and evaluation of current developments in selected areas.
- 587 SPORTS NUTRITION 3 credits Prerequisite: Permission of instructor. In-depth study of energy metabolism and utilization before, during, and after exercise. Factors affecting nutrient needs and peak performance of different athletic populations are emphasized.
- PRACTICUM IN DIETETICS 588 Prerequisite: approval of advisor/instructor. Practical experience in application of the principals of nutrition.
- PROFESSIONAL PREPARATION FOR DIETETICS 589 1 credit Prerequisite: open to those dietetics students in the Didactic Program or Graduate program who plan to apply for a Dietetic Internship. Historical aspects of dietetics and where the profession is going. Specialty areas of dietetic practice are explored. Students prepare the appli-cation for dietetic internship.
- 593 NUTRITION FOR ATHLETES 3 credits Study of metabolism before, during, and after exercise. Factors affecting nutrient needs and peak performance of different athletic populations.
- **ORIENTATION TO GRADUATE STUDIES IN HEALTH PROFESSIONS** 604 1 credit Introduction to the concepts and processes necessary for graduate study in health profes-
- MANAGEMENT OF FOOD SYSTEMS 3 credits Theoretical concepts in the management of dietetic food service systems and application of 610 principles and procedures to achieve nutritional care goals.
- CLINICAL NUTRITION 616 3 credits Study of Medical Nutrition Therapy (MNT) and its relationship to metabolic and pathological conditions as well as nutrition support strategies.
- 624 ADVANCED HUMAN NUTRITION I 3 cradite Prerequisites: undergraduate or graduate-level courses in nutrition and biochemistry. In-depth study of human nutrition emphasizing metabolism physiological functions, and interrelation-ships of carbohydrate, protein and lipids and the determinants of human energy requirements.
- ADVANCED HUMAN NUTRITION II 625 3 credits Prerequisite: 624 or equivalent in-depth study of human nutrition with and emphasis in the uti-lization, physiological functions and interrelationships of vitamins and minerals.

- 632 ADVANCED FOOD THEORY AND APPLICATIONS 3 credits Prerequisite: 520 or permission. Advanced study of the chemistry and physics of food com-ponents, attesting the characteristics of foods. critical evaluation of current basic and applied research emphasized.
- CURRENT ISSUES IN NUTRITION 680 3 credits Study of current issues in the field of nutrition science. Each semester that it is offered the course will explore a specific issue relevant to current research and practice in the field of nutrition as it relates to biology, immunology, applied nutrition, and epidemiology.
- 685 RESEARCH METHODS IN HEALTH PROFESSIONS 3 credits A study of health sciences research methods emphasizing concept and theory development, quantitative and qualitative methodologies.
- PRACTICUM IN NUTRITION AND DIETETICS 3 credits Prerequisite: permission of advisor/instructor. A minimum of 150 hours of supervised experi-688 ence in an approved community setting to acquire skills related to area of specialization.
- THESIS RESEARCH/READING 690 3 credits Prerequisite: permission of thesis advisor. Supervised reading and research related to approved thesis topic. May be repeated once.
- MASTER'S PROJECT 5 credits Prerequisite: permission of advisor. The development, implementation and evaluation of a community-based supervised project which makes a significant contribution to the field and may lead to publication.
- INDIVIDUAL INVESTIGATION IN NUTRITION AND DIETETICS 696 1-3 credits Prerequisite: permission of advisor. Individual investigation and analysis of a specific topic in student's area of specialization of interest under direction of a faculty advisor.
- MASTER'S THESIS IN HEALTH PROFESSIONS 699 5 credits Prerequisite: permission of advisor. Supervised research in a specialized area of the health profession which makes a contribution to the field and may lead to publication.

NURSING

- CLINICAL RESEARCH MANAGEMENT 501 3 credits Corequisite 500. This course provides a discourse concerning the socpe of responsibility for professionals coordinating and managing interdisciplinary clinical research, including clinical trials
- INTERNATIONAL HEALTH 509 2-3 credits Prerequisite: Admission to MSN program. A comparison of nursing roles and responsibilities in an international environment. The influence of education, ethics, government, demography, and geography on health care will be considered.
- 512 GLOBAL PERSPECTIVES OF HEALTH AND HEALTH CARE 2-3 credits Prerequisite: Senior or graduate status. (May be repeated for a maximum of 6 credits) Cultur-al, political, educational, and economical perspectives of different regions of the world and the impact of these factors on health will be compared and examined.
- SCHOOL NURSE PRACTICUM I 5 credits Prerequisite: 5570:521, 523 and 8200:225 or 650; corequisite: 225 or 650 if not previously completed. Emphasis on clinical primary health care nursing to enhance positive health behavior outcomes of well children and adolescents with minor conditions in family, community, school contexts
- 554 SCHOOL NURSE PRACTICUM II 5 credits Prerequisite: 5570:521, 523; 8200:225 or 650; 8200:553. Emphasis on primary health care nursing to enhance positive health behavior outcomes of children/adolescents with minor common health or behavioral problems and chronic illnesses.
- ADVANCED PHYSIOLOGICAL CONCEPTS IN HEALTH CARE I 561 3 credits Prerequisite: admission to MSN program. This course presents an in-depth study of physio-logical processes in the areas of neurological, neuromuscular and cardiovascular physiology and their interrelationship with therapeutic agents.
- ADVANCED PHYSIOLOGICAL CONCEPTS IN HEALTH CARE II 562 3 credits Prerequisite: 561. This course presents an in-depth study of physiological processes in the areas of respiratory, renal and endocrine physiology and their interrelationship with therapeutic agents.
- 589 SPECIAL TOPICS: NURSING 1-4 credits (May be repeated as new topics are presented) Group studies of special topics in nursing. May not be used to meet requirements for the major in nursing. May be used for elective credit.
- 593 WORKSHOPS 1-4 credits (May be repeated as new topics are presented) Selected topics in nursing. May be used to meet undergraduate/graduate requirements at the discretion of the college.
- 598 SPECIAL READINGS 1-4 credits Prerequisite: permission of student's advisor or dean. Special readings in an area of concen-tration may be taken to satisfy elective credit. Special readings may not be used to satisfy requirements of the major.
- ADVANCED ADULT/GERONTOLOGICAL ASSESSMENT/FNP 2 credits Prerequisite: 608 and admission to Post MSN FNP Certificate Program for Pediatric Nurse Practitioner. Advanced adult/gerontological assessment and clinical reasoning for primary health care nursing of adults with introduction to differential diagnosis and clinical manage-602 ment
- 603 THEORETICAL BASIS FOR NURSING 3 credits Prerequisite: admission to MSN program. Overview of extant nursing science. Evaluation and critique of nursing conceptual models. Analysis of the relationships of theory, research, and practice. Web-based course.
- INFORMATION MANAGEMENT IN ADVANCED NURSING PRACTICE 606 3 credits Prerequisite: admission to MSN program, completion of Graduate Statistics, 613 or Corequi-site: 613. This course is focused on nursing informatics to support clinical decision making in advanced practice and administration.
- POLICY ISSUES IN NURSING Perequisite: admission to MSN program. Analysis of policy issues that impact on nursing and health care delivery to diverse populations. Examine methods to shape policy, distribution, and allocation of resources. Web-based course.
- PATHOPHYSIOLOGICAL CONCEPTS OF NURSING CARE 3 credits Prerequisite: admission to graduate program. In depth study of pathological conditions and related treatment modalities. The course focuses on specific nursing interventions related to these pathophysiological abnormalities
- PATHOPHYSIOLOGY FOR NURSE ANESTHETISTS 3 credits Prerequisite: admission to nurse anesthesia program. Course focuses on pathophysiological abnormalities and their anesthetic implications. Normal anatomy and physiology, labs, diag-nostic including selected major alterations of physiologic function and major anesthetic implications are covered.

- 3 credits 610 ADVANCED ADULT/GERONTOLOGICAL ASSESSMENT WITH PRACTICUM Prerequisites: admission to graduate program or permission of instructor, 608. Advanced adult/gerontological assessment and clinical reasoning in primary healthcare nursing with interduction to differential disput interduction. introduction to differential diagnosis and clinical management.
- ADVANCED MENTAL HEALTH ASSESSMENT 611 3 credits Prerequisite: 608. Concepts related to psychoneuroimmunology are examined with application to differential diagnosis of mental health disorders commonly used by advanced practice psychiatric mental health nurses
- ADVANCED CLINICAL PHARMACOLOGY 612 3 credits Prerequisites: admission to graduate program, 608. Examines principles of pharmacology and therapeutics for major pharmacologic agents used by Advanced Nurse Practitioners to manage adult/gerontological problems in primary healthcare settings
- NURSING INQUIRY I 613 3 credits Prerequisites: admission to MSN program. Concepts and ethical issues relating to scientific inquiry are examined, emphasizing the phases of the research process. Students participate in critical analysis of nursing research.
- ADVANCED PEDIATRIC/ADOLESCENT ASSESSMENT/FNP 616 2 credits Prerequisites: 608 and Ohio Certificate of Authority as an Adult Nurse Practitioner. Advanced pediatric/adolescent assessment and clinical reasoning for primary health care nursing with introduction to differential diagnosis and clinical management for FNP practice.
- ADVANCED PHARMACOLOGY: CHILD/ADOLESCENT 617 HEALTH NURSING/FNP 2 credits Prerequisites: 608 or equivalent and Certified Adult or Gerontological Nurse Practitioner with Certificate of Authority to practice in Ohio. Emphasis on major categories of pharmacological agents, class of agents, influencing developmental outcomes of children/adolescents in ambu-latory, acute and chronic care environments for FNPs.
- NURSING INQUIRY II 618
- 3 credits Perequisite: 613 or permission of instructor. Emphasis on development of competencies in scientific inquiry. Research practicum will involve a) a pilot study; or b) participation in faculty research
- ADULT/GERONTOLOGICAL HEALTH NURSING NP I 620 2 credits ADULINGERON INCLOSED HEALTH NORSING MY Practitioner track or Post MSN certifi-cate program, 610. Corequisite: 610. Research and theory integral to advanced nursing prac-tice of adults/older adults/families with selected common health problems. Emphasis on comprehensive assessment, health promotion, and risk reduction.
- ADULT/GERONTOLOGICAL HEALTH NURSING NP II 2 credits Prerequisite: 610,620, 627, 612; corequisite: 612, 628, 690. Focuses on problems common to acute illness in adults, older adults in acute, episodic care settings. Multidisciplinary care plan-ning and coordination are emphasized, including transition to community-based care. 621
- ADULT/GERONTOLOGICAL HEALTH NURSING NP III 2 credits Prerequisites: 621, 628, 690; corequisite: 629, 692. Focuses on nursing care of middle 622 2 credits ged/older adults and their families experiencing chronic illness. Emphasizes management of problems common to chronic care and rehabilitation.
- ADULT/GERONTOLOGICAL HEALTH NURSING NP PRACTICUM 623 2 credits Prerequisites: 622, 629; corequisite: 694. Practicum with emphasis on increasing complexity in acute and chronic illness states of the adult/older adult.
- ADULT/GERONTOLOGICAL HEALTH NURSING NP IV 624 Prerequisites: 622, 629, 692. Corequisites: 623, 694. Integration of knowledge and skills for a population of adults/older adults with emphasis on problems of increasing complexity. Issues integral to APN practice are addressed.
- PRIMARY CARE OF THE OB PATIENT/FNP 1 credit Prerequisites: 602, 612, and 5600:648. Application of evidence-based knowledge in the pro-625 motion of health and wellness of women during normal pregnancy. Emphasis is on assess metn and clinical management of pregnancy.
- ADULT/GERONTOLOGICAL NURSE PRACTITIONER RESIDENCY 1-4 credits Prerequisites: 602 or equivalent, 612. Corequisites: 620, 622, or permission of instructor. Intensive clinical residency to enhance competencies in primary care of adults/elders. Empha-sis on positive health behavior outcomes and complex primary health care problems. 626
- ADULT/GERONTOLOGICAL HEALTH NURSING NP I PRACTICUM 2 credits Prerequisite: Admission to Adult/Gerontological Nurse Practitioner track or Post-MSN certifi-cate program, 610; corequisite: 610, 620. Practicum with emphasis on comprehensive assessment, health promotion, and risk reduction for common health problems of adults/older 627 adults
- ADULT/GERONTOLOGICAL HEALTH NURSING NP II PRACTICUM 628 2 credits Prerequisites: Admission to Adult/Gerontological Nurse Practitioner track or Post-MSN certifi-cate program, 620, 627; corequisite: 621 or its equivalent for Post-MSN, 690. Practicum with emphasis on health appraisal/risk reduction and common, uncomplicated acute or chronic ill-neo other of the adult/fate at it. War are ness states of the adult/older adult/families.
- ADULT/GERONTOLOGICAL HEALTH NURSING NP III PRACTICUM 629 2 credits Prerequisites: 628, 690; corequisite: 692. Practicum with emphasis on complex chronic illness states and Comorbidities of the adult/older adult.
- RESOURCE MANAGEMENT IN NURSING SETTINGS 3 credits Prerequisite: Admission to Graduate Program or permission of instructor. Examines manage-630 ment of fiscal and human resources in nursing service settings; analyzes impact of econom-ics and labor relations on health and nursing care.
- ADULT/GERONTOLOGICAL HEALTH NURSING NP IV PRACTICUM 631 3 credits ADULIVSERONI OLOGICAL HEALTH NURSING MP V PRACTICUM 3 creating Prerequisites: Admission to the Adult/Gerontological Nurse Practitioner trance or post-mas-ter's certificate program, 622, 629, and 692. Corequisites: 624 and 694. Synthesis of Adult/Gerontological Practitioner content. Emphasis on implementation and evaluation of pro-gram interventions. Practicum emphasizes severe acute and chronic illness states.
- FISCAL MANAGEMENT IN NURSING ADMINISTRATION 3 credits Prerequisite: Admission to Graduate Program or permission of instructor. Examines manage-632 ment of fiscal resources in nursing service settings.
- LEADERSHIP IN NURSING ORGANIZATIONS I 633 3 credits Prerequisites or Corequisites: 630, 632,635. Leadership and management theories are uti-lized to guide practice in the role of nurse administrator.
- LEADERSHIP IN NURSING ORGANIZATIONS II 3 credits Prerequisites: 633, 638. Leadership and management theories are utilized to guide study of 634 the role of nurse administrator.
- ORGANIZATIONAL BEHAVIOR IN NURSING SETTINGS 3 credits Prerequisites: Admission to Graduate Program or permission of instructor. Examines organi-zational behavior theories/principles related to systems analysis and assessment of organiza-635 tional structure in nursing settings.
- ADULT/GERONTOLOGICAL HEALTH NURSING CNS RESIDENCY 636 2-4 credits Prerequisites: 673, 679. This clinical residency focuses on components of influencing change, systems thinking, leadership within a multidisciplinary collaborative environment using out-come measurement and evaluation.
- NURSE ANESTHESIA RESIDENCY I 637 4 credits Prerequisites: 644, 645. This course introduces the second year student to the art and science of both obstetrical and pediatric anesthesia related theory, research, and practice.

- 638 PRACTICUM: NURSING ADMINISTRATION I 2 credits Prerequisites: Admission to Graduate Program or permission of instructor. Leadership and management theories are utilized to guide study of the role of nurse administrator.
- PRACTICUM: NURSING ADMINISTRATION II 639 2 credits Prerequisite: 633, 638; corequisites: 634. Leadership and management theories are utilized to guide study of the role of nurse administrator.
- SCIENTIFIC COMPONENTS OF NURSE ANESTHESIA 640 3 credits Prerequisite: admission into the Nurse Anesthesia program. The course presents content dealing with the chemical and physical components of anesthesia agents.
- 641 PHARMACOLOGY FOR NURSE ANESTHESIA I 3 credits Prerequisite: 640. The study of intravenous induction agents, injectable analgesics and inhaled anesthetics commonly used in the administration of general anesthesia. Includes use of muscle relaxants
- INTRODUCTION TO NURSE ANESTHESIA 642 2 credits Prerequisite: admission into the Nurse Anesthesia program. This course provides a general overview of anesthetic concepts and prepares students for their in-hospital residency. The course includes a lecture component and selected laboratory experiences.
- PRINCIPLES OF ANESTHESIA I 4 credits Prerequisite: 640. This course focuses on the acquisition of basic skills related to nursing anesthesia care and administration of anesthesia agents, with a focus on equipment.
- PHARMACOLOGY FOR NURSE ANESTHESIA II 3 credits 644 Prerequisite: 641. Focuses on mechanisms of drug transport within the human body for inhaled and injected medications. The effects of accessory drugs are also discussed.
- PRINCIPLES OF ANESTHESIA II 645 4 credits Prerequisite: 643. Emphasis on pre-operative anesthesia care including induction techniques. Discusses airway management, fluid therapy, and ventilator use.
- NURSE ANESTHESIA RESIDENCY II 646 4 credits Prerequisite: 637. Concentration on the theoretical basis for specific nursing interventions and the rationale for their use in thoracic anesthesia, cardiac anesthesia, vascular anesthesia, and neurosurgical anesthesia management.
- 647 PROFESSIONAL ROLE SEMINAR 2 credits Prerequisites: 644, 645. Discusses issues, concepts and theories related to the professional role of nurse anesthetists. Focuses on leadership/management content as well as professional ethical issues.
- NURSE ANESTHESIA RESIDENCY III 4 credits Prerequisite: 646. Focuses on the understanding of physiologic and pathophysiologic princi-ples of particular organ systems and the relevant implication that govern anesthetic management.
- NURSE ANESTHESIA RESIDENCY IV 649 4 credits Prerequisite: 648. Comprehensive review of basic and advanced anesthetic concepts impor-tant to the entry-level nurse anesthetist.
- ADVANCED PEDIATRIC/ADOLESCENT ASSESSMENT 3 credits Prerequisites: acceptance to Child and Adolescent Health Nursing track or permission of fac-ulty and 60s. Corequisite: 651. Advanced pediatric/adolescent assessment and clinical rea-soning for primary health care nursing with introduction to differential diagnosis and clinical 650 management.
- CHILD AND ADOLESCENT HEALTH NURSING I 3 credits Primary health care nursing to enhance positive health behavior outcomes of well children/adolescents and those with minor health disruptions and problems in family/commuwell nity contexts
- CHILD AND ADOLESCENT HEALTH NURSING I PRACTICUM Prerequisite: Admission into Child and Adolescent Health Nursing NP track or Post MSN Child and Adolescent Health NP program. Clinical practicum course emphasizing primary health care nursing to enhance positive health behavior outcomes of well children/adolescents , and those with minor health disruption/problems in family/community contexts.
- CHILD AND ADOLESCENT HEALTH NURSING II PRACTICUM 653 2 credits Prerequisite: 651. Clinical practicum course emphasizing primary health care nursing to enhance positive health behavior outcomes of children/adolescents with acute and/or chronic health disruption in family/community contexts.
- CHILD AND ADOLESCENT HEALTH NURSING III PRACTICUM 2 credits Prerequisite: 655. Clinical practicum course emphasis on advanced practice in primary health care using consultation and program development, marketing related to development and health behavior outcomes of children, adolescents, and families.
- 655 CHILD AND ADOLESCENT HEALTH NURSING II Emphasis on primary health care nursing to enhance positive health behavior outcomes of children/adolescents with acute and/or chronic health disruptions in family/community con-
- PHARMACOLOGY FOR CHILD AND ADOLESCENT HEALTH NURSING 3 credits Prerequisite: Admission to Graduate Program. Emphasis on major categories of pharmaco-logical agents, that influence developmental outcomes of children/adolescents in ambulatory, acute and chronic care environments.
- CHILD AND ADOLESCENT HEALTH NURSING III 657 3 credits Emphasis on advanced practice in primary health care using consultation and program development/marketing related to developmental and health behavior outcomes of children/ado-lescents and families.
- 658 CHILD AND ADOLESCENT HEALTH NP RESIDENCY 1-4 credits Prerequisites/corequisites: Post-MSN CAH certification program students--651 and 655 or MSN CAH students: 655 and 657. Opportunity for the advanced graduate nursing practitioner in Child and Adolescent Health.
- CHILD AND ADOLESCENT HEALTH NURSING IV PRACTICUM 659 2 credits Prerequisite: 657. Clinical practicum emphasizing integration of knowledge and skills with spe-cific populations of vulnerable children/adolescents and their families. Emphasis on implementation of programmatic interventions and evaluation.
- PSYCHIATRIC MENTAL HEALTH, APN I PRACTICUM 660 2 credits Prerequisite: Graduate program admission, 608. Corequisite: 661. This course emphasizes the utilization of theories, concepts, and techniques in the delivery of psychiatric mental health care to individuals.
- PSYCHIATRIC MENTAL HEALTH. APN I 661 3 credits Prerequisite: admission to Psychiatric Mental Health Nursing track, 608. Corequisite: 660. Concepts related to mental health promotion and disease prevention for individuals and families are explored with an emphasis on individual interviewing skills and program planning.
- 662 CLINICAL PSYCHOPHARMACOLOGY 3 credits Prerequisite: 608 or permission of instructor; corequisite: 612. Examines principles of neuro-science, pharmacology and therapeutics for psychopharmacologic agents used to manage adult mental health problems in variety of treatment settings.
- PSYCHIATRIC MENTAL HEALTH APN INTERNSHIP 663 4 credits Prerequisites: 661, 665. Focuses on behavioral health interventions with families and groups. Theoretical frameworks for direct intervention are examined.

- 664 PSYCHIATRIC MENTAL HEALTH-ACUTE, APN II PRACTICUM 2 credits Prerequisites: 610, 660, 661. Corequisites: 662, 665. Development of clinical competencies in direct intervention therapies with families/groups experiencing the stress of actual or potential health problems.
- 665 PSYCHIATRIC MENTAL HEALTH-ACUTE, APN II 3 credits Prerequisites: 660, 661. Corequisite: 664. Concepts related to the management of acute psychiatric problems will be explored with an emphasis upon combining psychotherapy and pharmacotherapy.
- 666 PSYCHIATRIC MENTAL HEALTH POST MSN RESIDENCY 1-4 credits Prerequisites: 662, 665. Corequisites: 665, 667. This clinical residency focuses on influencing leadership within a multidisciplinary collaborative environment in complex health systems providing individuals/clients, families, and groups with psychiatric mental health care.
- 667 PSYCHIATRIC MENTAL HEALTH-CHRONIC, APN III 3 credits Prerequisites: 664, 665. Corequisite: 668. Concepts related to the management of chronic psychiatric problems will be explored with an emphasis upon combining psychotherapy and pharmacotherapy.
- 668 PSYCHIATRIC MENTAL HEALTH-CHRONIC, APN III PRACTICUM 2 credits Prerequisites: 664, 665. Corequisite: 667. Students will assess, diagnose, and manage clients with chronic psychiatric problems through the application of psychotherapeutic theories and techniques including application of psychopharmacology.
- 669 PSYCHIATRIC MENTAL HEALTH-SYNTHESIS, APN IV PRACTICUM 2 credits Prerequisites: 667. Corequisite: 670. Students choose clinical settings to develop expertise in providing complex care to selected populations and to advance career goals.
- 670 PSYCHIATRIC MENTAL HEALTH-SYNTHESIS, APN IV 3 credits Prerequisites: 667, 658. Corequisite: 669. Students choose clinical settings to develop expertise in providing complex care to selected populations and to advance career goals.
- 671 ADULT/GERONTOLOGICAL HEALTH NURSING CNS I 2 credits Prerequisite: admission to Adult/Gerontological CNS track or permission, 608, 610. Corequisite: 610, 674. Research and theory integral to advanced nursing practice of adults/older adults with selected common health problems. Emphasis on comprehensive assessment, health promotion and risk reduction.
- 672 INDEPENDENT STUDY 1-4 credits Opportunity for advanced graduate nursing practice in a selected area of specialization.
- 673 ADULT/GERONTOLICAL HEALTH NURSING CNS IV 1 credit Prerequisites: 677, 678. Corequisite: 679. Integration of knowledge and skills for a population of older adults with emphasis on problems of increasing complexity. Issues integral to APN practice are addressed.
- 674 ADULT/GERONTOLOGICAL HEALTH NURSING CNS I PRACTICUM 2 credits Prerequisite: admission to Adult/Gerontological CNS track, 610. Corequisite: 610, 671. Development of clinical competencies integral to advanced practice nursing of adults/older adults/families with selected common health problems with focus on comprehensive assessment, health promotion and risk reduction.
- 675 ADULT/GERONTOLOGICAL HEALTH NURSING CNS II 2 credits Prerequisite: 612, 671, 674. Corequisites: 612, 676. Focuses on problems common to acute illness in adults/older adults in acute/episodic care settings. Multidisciplinary care planning and coordination are emphasized, including transition to community-based care.
- 676 ADULT/GERONTOLOGICAL HEALTH NURSING CNS II PRACTICUM 2 credits Prerequisites: 612, 671, 674. Corequisite: 612, 675. Development of clinical competencies in care of adults/older adults with acute illness in acute/episodic care settings emphasizing multidisciplinary care planning and coordination and transition to community-based care.
- 677 ADULT/GERONTOLOGICAL HEALTH NURSING CNS III 2 credits Prerequisites: 612, 675, 676. Corequisite: 678. Focuses on nursing care of middle aged/older adults and their families experiencing chronic illness. Emphasizes management of problems common to chronic care and rehabilitation.
- 678 ADULT/GERONTOLOGICAL HEALTH NURSING CNS III PRACTICUM 2 credits Prerequisites: 612, 675, 676. Corequisite: 677. Development of clinical competencies in care of middle aged/older adults and their families experiencing chronic illness with emphasis on management of problems common to chronic care and rehabilitation.
- 679 ADULT/GERONTOLOGICAL HEALTH NURSING CNS PRACTICUM IV 3 credits Prerequisites: Admission to Adult/Gerontological Health Nursing Clinical Nurse Specialist track, 677, 678. Corequisite: 673. Integration of knowledge and skills with a specified population of adults and their families. Emphasis on implementation of programmatic interventions and evaluation.
- 680 CHILD AND ADOLESCENT HEALTH NURSING IV 3 credits Prerequisites: 657. Integration of evidenced based knowledge and skills related to programmatic interventions and evaluation in primary health care nursing with a specified population of vulnerable children/adolescents and their families.
- 685 CHILD AND ADOLESCENT HEALTH NURSING-ACUTE CARE III 3 credits Prerequisites: 653, 655. Corequisite: 686. Advanced practice in acute/critical intensive care areas with children with complex acute/critical/chronic conditions, responding to rapidly changing clinical conditions, recognizing/managing emerging crises, organ dysfunction and failure.
- 686 CHILD AND ADOLESCENT HEALTH NURSING-ACUTE CARE III PRACTICUM 2 credits Prerequisites: 653, 655. Corequisite: 685. Clinical practicum emphasizing advanced practice in acute/critical intensive care areas with children with complex acute/critical/chronic conditions, responding to rapidly changing clinical conditions, recognizing/managing emerging crises, organ dysfunction and failure.
- 687 CHILD AND ADOLESCENT HEALTH NURSING-ACUTE CARE IV 3 credits Prerequisites: 685, 686. Corequisite: 688. Integration of knowledge/skills in acute care with children with complex, acute/critical/chronic conditions. Emphasis on stabilization, minimizing complications, providing physical/psychological care to restore maximal health potential and reduce health risks.
- 688 CHILD AND ADOLESCENT HEALTH NURSING-ACUTE CARE IV PRACTICUM 2 credits Prerequisites: 685, 686. Corequisite: 687. Clinical practicum to integrate knowledge/skills in acute care with children with complex, acute/critical/chronic conditions. Emphasis on stabilization, minimizing complications, providing physical/psychological care to restore maximal health potential and reduce health risks.
- 690 CLINICAL MANAGEMENT I
- Prerequisites: admission to the Adult/Gerontological Nursing Practitioner track or the Post-MSN NP Adult/Gerontological track and 620 or its equivalent for the Post-MSN student, 627. Corequisites: 621, 628. Clinical management of common chronic and acute problems of adults in primary health care settings. Focus on episodic management using differential diagnosis and clinical reasoning.
- 691
 ACUTE CARE NURSE PRACTITIONER I
 4 credits

 Prerequisites: 608, 610, 612. Focuses on common chronic and acute problems of adults in primary/tertiary health care settings. Emphasis on health promotion and risk assessment.
- 692 CLINICAL MANAGEMENT II 3 credits Prerequisites: 621 or its equivalent for Post-MSN, 628; corequisite: 622, 629. Clinical management of complex, chronic health problems of adults in primary health care settings. Focus on long term management using differential diagnosis and clinical reasoning.

- 693 ACUTE CARE NURSE PRACTITIONER II 4 credits Prerequisite: 622 or its equivalent for the Post-MSN, 629; corequisite: 623, 624. Focus is on advanced nursing interventions related to system specific health care problems of adults in tertiary care settings.
- 694 CLINICAL MANAGEMENT III 3 credits Prerequisites: admission to Adult/Gerontological Nursing Practitioner track or the Post-MSN Adult/Gerontological Nurse Practitioner certificate program and 621 or 625; corequisite: 623 or 626. Clinical management of complex health problems using consultation, collaboration, and referral in selected primary health care settings.
- 695 ACUTE CARE NURSE PRACTITIONER III 4 credits Prerequisite: 693; corequisite: 696. Focus of the course is on nursing management of patients with complex health care problems.
- 696 CLINICAL REASONING 1 credit Prerequisite: 693; corequisite: 695. Focus is on integration of abnormal laboratory, radiologic and morphologic findings as they relate to advanced nursing care of the acutely ill individual.
- 699 MASTER'S THESIS Prerequisite: 613. Supervised research in a specific area of advanced nursing. 1-6 credits
- 700 INFORMATION MANAGEMENT IN HEALTHCARE 3 credits Prerequisite: Doctoral standing or special approval from the College of Nursing. This course focuses on nursing informatics to support clinical decision making in advanced nursing practice.
- 701 ADVANCED SEMINAR IN CLINICAL GENOMICS AND HEALTH 3 credits Prerequisite: Admission to the DNP program or permission of the College of Nursing graduate program. A focus on genetics and genomics analyzing the essentials of advanced practice care and genetic diagnostics, therapies, and counseling in area of interest.
- 704 CLINICAL TEACHING AND EVALUATION 4 credits Prerequisite: Admission to the Nursing Education Certificate program. Student solutid also possess technical skills necessary to participate in an online course. This course focuses on teaching in clinical and learning resource center (LRC) settings and basic principles of online education. Application of principles will be demonstrated in practicum-based clinical and learning resource center settings. Student evaluations in the clinical setting will be addressed.
- 705 CLINICAL SCHOLAR I 3 credits Prerequisite: 603 and doctoral standing or approval from the College of Nursing graduate program. Transition to clinical scholar leader role with emphasis on epistemology guiding advanced practice. Integration of theory and evidenced-based practice principles to achieve health outcomes.
- 706
 CLINICAL SCHOLAR II
 4 credits

 Prerequisites: 700 and 705. Translation and integration of theory and scientific evidence guiding clinical practice using culturally sensitive approaches to design innovative interventions.
- 707 CLINICAL SCHOLAR RESIDENCY 3 credits Prerequisite: 706. Synthesis of components of clinical scholar leader role comprises residency. Advanced leadership and clinical scholarship skills used to develop and evaluate approaches to healthcare problems.
- 708 DNP CAPSTONE PROJECT I 2-6 credits Prerequisite: 705. Corequisite: 706 Faculty-preceptor-directed project that will contribute to nursing practice knowledge. Includes oral defense and publishable manuscript. May register for two to six credit hours.
- 709 DNP CAPSTONE PROJECT II Prerequisite: 708. Capstone project students must continue registration until all degree requirements and a publishable manuscript are met.
- 800 DOCTORAL DISSERTATION II 1 credit Prerequisite: 899 and permission of the dissertation chairperson. Continuing enrollment to complete the doctoral dissertation research.
- 810 HISTORY AND PHILOSOPHY OF NURSING SCIENCE 3 credits Prerequisite: Admission to the Ph.D. Program or permission of the professor. Examines the nature of metaphysics and epistemology and the influence of contemporary Eastern and Western philosophies on the developing epistemology of disciplinary nursing knowledge. (KSU 70710)
- 815 THEORY CONSTRUCTION AND DEVELOPMENT IN NURSING 3 credits Prerequisites: Admission to the Ph.D. Program and 810. Examines strategies for theory development including logical-empirical-deductive and inductive approaches. Emphasis will be on elements and strategies used in theory building. (KSU 70715)
- 820 INTRODUCTION TO NURSING KNOWLEDGE DOMAINS 3 credits Prerequisite: 810 and 815. Corequisite: 815. Introductory seminar analyzing selected theoretical and methodological approaches to knowledge development in nursing. Emphasis on critical analysis of knowledge in areas of special interest. (KSU 70720)
- 824 FOUNDATIONS OF SCHOLARLY INQUIRY IN NURSING 3 credits Prerequisite: Admission to the Ph.D. program and permission of instructor. Corequisite: 810. This course examines diverse paradigms and research methods as the foundation for scholarly inquiry in nursing knowledge development. Students begin building a foundation for focused intellectual inquiry in a substantive area of nursing.
- 825 QUANTITATIVE RESEARCH METHODS 3 credits Prerequisite: Admission to the Ph.D. Program or permission of the professor. An integrated approach to study of quantitative nursing research. Exploration of the interdependent relationship of methodology, design/measurement issues, including analysis and interpretation of findings. (KSU 70725)
- 827 ADVANCED HEALTH CARE STATISTICS I 3 credits Prerequisite: Admission to the Ph.D. Program or permission of the professor; pre- or corequisite: 825. In-depth examination of descriptive statistics, correlation, regression, multiple regression sets, scaling, nonlinear transformation, missing data, and interactive effects; including initial manipulation of data, integrating understanding of inference and probability.
- 830 QUALITATIVE RESEARCH METHODS 3 credits Prerequisite: Admission to the Ph.D. Program or permission from the instructor. Selected qualitative research methods used to study nursing phenomena. Philosophical bases; design, data collection and analysis; evaluation of rigor; and ethical issues for major qualitative methods will be analyzed with regard to nursing phenomena. (KSU 70730)
- 835 NURSING AND HEALTH CARE POLICY 3 credits Prerequisite: Admission to the Ph.D. Program or permission of the professor. Critical examination of theories and processes of formulating state/national health care policy. Focus on health issues, the political and legislative process, and contemporary policy dilemmas. (KSU 70735)
- 836 ADVANCED INTERDISCIPLINARY LEADERSHIP FOR THE HEALTH SCIENCES 4 credits Prerequisite: Admission to the Ph.D. Program or permission of the instructor. Seminar on advanced leadership in healthcare and the health sciences to assist students to become leaders within practice, academe, and the community.
- 837 ADVANCED HEALTH CARE STATISTICS II 3 credits Prerequisite: 827 and admission to the Ph.D. Program or permission of instructor. This course synthesizes and applied knowledge of advanced multivariate and statistical techniques commonly used in health care and nursing research.

- 840 NURSING SCIENCE SEMINAR I 3 credits Prerequisite: 820. Seminar on critical analysis and synthesis of theoretical models and empirical research that form the foundation for the student's research. Funding sources are examined. (KSU 86091, 86191, 86291, 86391)
- 845 AMNR: APPLICATION OF QUANTITATIVE METHODS 3 credits Prerequisites: 825, 827, 837, and admission to the Ph.D. Advanced seminar on selected areas related to research development in quantitative methods and evaluation essential to the advancement of nursing knowledge.
- 846 AMNR: MEASUREMENT IN NURSING RESEARCH 3 credits Prerequisite: 820 and admission to the Ph.D. Program or permission of instructor. Theories and concepts related to measurement and nursing research including techniques for construction, testing, and refining of instruments with assessment of reliability and validity.
- 847 AMNR: APPLICATION OF QUALITATIVE METHODS 3 credits Prerequisite: 820 and admission to the Ph.D. Program or permission of instructor. Achieve an in-depth understanding of one qualitative research approach (chosen by student according to his/her research plans), including associated philosophical foundations, key concepts, typical methods, and evaluative criteria.
- 848 AMNR: PROGRAM EVALUATION IN NURSING 3 credits Prerequisite: 820 and admission to the Ph.D. Program or permission of instructor. Seminar and lecture; analysis of theories and models of program evaluation and their relationships to designs, processes, techniques, and outcomes in nursing-related evaluations.
- 849 AMNR: GRANT DEVELOPMENT AND FUNDING 3 credits Prerequisite: 820 and admission to the Ph.D. Program or permission of instructor. Advanced seminar on critical analysis of proposal and grant development, funding, peer review, and advocacy process with emphasis on the development of a grant proposal.
- 850 NURSING SCIENCE SEMINAR II 3 credits Prerequisite: 820 and 840. Focuses on advancement of student's scholarship within one of the following areas: discovery, teaching, integration, or application through design and implementation of a faculty-facilitated project. (KSU 87091)
- 883 EVALUATION IN NURSING EDUCATION 3 credits Application of evaluation and measurement principles to nursing education. Emphasis on evaluation as both process and outcome. Includes evaluation of program, curriculum, course, and learner.
- 884 PRACTICUM: ACADEMIC ROLE OF THE NURSE EDUCATOR 3 credits Prerequisities: 881, 882, 883. Precepted study and practice in classroom and clinical teaching. Presentation of a researchable topic. Course may be waived based on submission of an approved portfolio.
- 892 FIELD EXPERIENCE IN NURSING 1-12 credits Prerequisite: Admission to the Ph.D. program or permission of instructor. Individual enrollment in field experience, practicum, or internship settings related to nursing.
- 895 SPECIAL TOPICS IN NURSING 1-6 credits Prerequisite: Admission to the Ph.D. program or permission of instructor. Study of important topics in nursing practice, research, or the profession. Offering in response to existing interests and opportunities. Topics will be announced when scheduled.
- 896 INDIVIDUAL INVESTIGATION IN NURSING 1-3 credits Prerequisite: Admission to the Ph.D. program or permission of instructor. Individual enrollment for independent study in nursing carried out by student under supervision of a doctoral faculty council member.
- 898 RESEARCH IN NURSING 1-15 credits Prerequisite: Admission to the Ph.D. program or permission of instructor. Research carried out by a student under faculty supervision. In-depth inquiry should result in a paper or appropriate product.
- 899 DOCTORAL DISSERTATION 1-15 credits Prerequisite: Advancement to candidacy. (May be repeated) Independent dissertation research under the guidance of a faculty chairperson and a dissertation committee. (KSU 80199)

PUBLIC HEALTH

<u>8300:</u>

- 601 PUBLIC HEALTH CONCEPTS 3 credits Prerequisite: Admission to the MPH program. Organizational structure, history, law, ethics, essential services, global problems, and future of public health.
- **602 SOCIAL AND BEHAVIORAL SCIENCES IN PUBLIC HEALTH** 3 *credits* Prerequisite: Admission to the MPH program. Theories of health education and promotion; interventions (communication, collaboration, and strategies); socio-cultural, diversity, and regional issues as pertains to public health.
- 603 EPIDEMIOLOGY IN PUBLIC HEALTH 3 credits Prerequisite: Admission to the MPH program. Epidemiological concepts, methods, and public health applications. Student presentations to focus on special topics such as infectious diseases, chronic conditions, etc..
- 604 BIOSTATISTICS IN PUBLIC HEALTH 3 credits Prerequisite: Admission to the MPH program. Biostatistics basics, statistical inference, central tendency tests, analysis of variance, regression analysis, survival analysis, and applications in public health. Epi Info and JMP statistical packages.
- 605
 HEALTH SERVICES ADMINISTRATION IN PUBLIC HEALTH
 3 credits

 Prerequisite: Admission to the MPH program. Management principles, planning and evaluation, grant-writing, economics, policy, data sources, and applications to public health.
 3
- 606 ENVIRONMENTAL HEALTH SCIENCES IN PUBLIC HEALTH 3 credits Prerequisite: Admission to the MPH program. Air/water quality, food hygiene, sanitation, solid waste management, hazardous materials management, vector-borne disease, occupational health, legal issues, environmental hazard identification and response.
- 608 PUBLIC HEALTH PRACTICE AND ISSUES 3 credits Prerequisite: 601, 602, 603, 604. Informatics, communication, diversity, cultural proficiency, biology, and ethics are applied in a public health organizational practice setting. This is a required online practice-based course.
- 610 GRANT WRITING IN PUBLIC HEALTH PRACTICE 3 credits Prerequisite: admission to the MPH Program. Methods and techniques for writing grant proposals to fund public health programs and operations.
- 680-689 SPECIAL TOPICS IN PUBLIC HEALTH 1-5 credits Special topic sections will focus on specific topics of current interest in public health.
- 695 INDEPENDENT STUDY 1-3 credits Prerequisite: permission of academic advisor and instructor. Includes research or other individual projects designed jointly by student and instructor. Covers topics not available in electives listing. (May only be taken for a maximum of 3 credits).
- 696 PRACTICUM 1-3 credits Student is teamed with a faculty advisor and community preceptor(s) to work on a meaningful public health issue. For students who desire additional field experience. Credit/noncredit.

- 697
 CAPSTONE PROJECT
 3-6 credits

 A required culminating experience for MPH students to be taken after all core courses are completed. In partnership with a community organization/agency.
 3-6 credits
- 698 CAPSTONE PROJECT I 3 credits Prerequisites: 601, 602, 603, and 604. In depth assessment of public health competencies and preparation for culminating community experience in Capstone II.
- 699 CAPSTONE PROJECT 3 credits Prerequisites: 601, 602, 603, 604, 605, 606, and 698. A required culminating experience for MPH students completed in partnership with a community organization/agency.

Polymer Science & Polymer Engineering

POLYMER ENGINEERING

- 525 INTRODUCTION TO BLENDING AND COMPOUNDING POLYMERS 3 credits Prerequisite: Permission of instructor. Nature of polymer blends and compounds and their applications. Preparation and technology using batch and continuous mixers. Mixing Mechanisms.
- 527 MOLD DESIGN 3 credits Prerequisite: Permission of instructor. Molding methods to manufacture polymeric products. Machinery, materials, molds, equipment, computer-aided design.
- 550 ENGINEERING PROPERTIES OF POLYMERS 3 credits Prerequisite: Permission of instructor. Introduction to engineering properties and polymer processing. Analyzing mechanical polymer tests in glassy, rubbery, and fluid states. Product design, rheology, rheometry, and polymer processing concepts.
- 551 POLYMER ENGINEERING LABORATORY 3 credits Prerequisite: Permission of instructor. Laboratory experiments on the rheological characterization of polymer melts, fabrication of engineering products, structural investigation of polymeric parts.
- 601 POLYMER ENGINEERING SEMINAR 1 credit Presentations of recent research on topics in polymer engineering by internal and external speakers.
- 611
 FUNDAMENTALS OF POLYMER STRUCTURE CHARACTERIZATION
 3 credits

 Characterization of orientation, morphology, superstructure in polymers using x-ray, light scattering, birefringence, dichroism. Crystal-lography, unit cell determination.
 3 credits
- 621 RHEOLOGY OF POLYMERIC FLUIDS 3 credits Experimental methods of determination of rheological properties of polymer melts, solutions, elastomers. Structure-flow behavior relationships, viscoelastic fluid theory, application to extrusion, fiber, film processing molding. Structure development in processing.
- 622 ANALYSIS AND DESIGN OF POLYMER PROCESSING OPERATIONS I 3 credits Prerequisite: 621. Mathematical modeling and engineering design analysis of polymer processing operations including extruder screws, injection molds, dies, fibers, film formation.
- 623 ANALYSIS AND DESIGN OF POLYMER PROCESSING OPERATIONS II 3 credits Prerequisite: permission of instructor. Basic studies on non-isothermal phenomena in polymer engineering emphasizing crystallization, vitrification, frozen-in orientation and residual stresses, applications, including fiber spinning and film extrusion.
- 631 ENGINEERING PROPERTIES OF SOLID POLYMERS 2 credits Transitions as a function of polymer structure, optical characteristics, mechanical including ultimate properties, viscoelastic behavior of elastomers and plastics, large strain behavior E emphasis on experimental methods.
- 641 POLYMER CHEMISTRY AND THERMODYNAMICS 3 credits Physioco-chemical properties of amorphous and crystalline polymers. Glass transitions, crystallization, molecular orientation and morphology of important commercial polymers, fabricated products and composite materials.
- 650 INTRODUCTION TO POLYMER ENGINEERING 3 credits Basic concepts of polymer engineering taught in lecture-laboratory format intended for orientation of new graduate students.
- 651 POLYMER ENGINEERING LABORATORY 3 credits Rheological characterization of polymer melts, rubber and plastic extrusion, extrudate swell, injection and compression molding, crystallization behavior, x-ray diffraction, film blowing, impact and tensile testing.
- 661 POLYMERIZATION REACTOR ENGINEERING 3 credits Polymerization kinetics, classical reactor design, comparison of polymerization in batch and continuous stirred tank reactors, flow patterns around agitators, tubular reactors, reactor stability.
- 675 CARBON-POLYMER NANOTECHNOLOGY 3 credits Prerequisite: Permission of instructor. This course focuses on the fundamental aspects of nanotechnology in general and basic knowledge of polymer/carbon nanoscience and nanotechnology in particular.
- 680 POLYMER COATINGS 3 credits Prerequisite: Permission of instructor. This course is an introduction to coating science. The synthesis of polymeric binders and pigments used in commodity coatings will be the focus of the first part of the course. The second part of the course will focus on coatings formulation and end-use applications for commodity coatings.
- 699 MASTER'S THESIS 1-6 credits (May be repeated) Supervised original research in specific area of polymer engineering.
- 712 RHEO-OPTICS OF POLYMERS 2 credits Applications of rheo-optical methods as means of determining stress fields in polymeric glasses and fluids during deformation, rheo-optical properties of polymers in glassy, rubbery and fluid states. Theory of dynamic birefringence and its application to mechanical relaxations of amorphous and semi-crystalline polymers, and recent experimental results.
- 715 ADVANCED CHARACTERIZATION OF FUNCTIONAL POLYMERS 3 credits Prerequisites: 611 and 623 or equivalent (with permission of instructor). This course will focus on the advanced structural and functional property characterization techniques including optical, electrical, magnetic, and others. A particular focus will be the influence of the history of polymer processing on these properties.
- 720 MOLECULAR ASPECTS OF POLYMER RHEOLOGY 2 credits Prerequisite: 621 or permission of instructor. Molecular theory for concentrated solutions and melts of flexible homopolymers, molecular rheology of miscible polymer blends, block copolymers, and liquid crystalline polymers.
- 721 RHEOLOGY AND PROCESSING TWO-PHASE POLYMER SYSTEMS 2 credits Prerequisite: 622 or equivalent. Particle-particle interactions, mixing devices and design, theoretical hydrodynamics of suspensions of rigid particles, experimental studies of rheological behavior, phenomenological theories representing suspension behavior, dispersion of droplets to form an emulsion, phase morphology development and rheological properties of blends.

- 722 ADVANCED MODELLING OF POLYMER PROCESSING 2 credits ADVANCED MODELLING OF POLIMER PROCESSING Prerequisite: permission of instructor. Modelling of processing operations including extrusion molding, fiber and film processing, computer-aided design.
- RHEOLOGY AND PROCESSING OF ELASTOMERS 723 2 credits Interpretation of rheological properties and critical study and analysis of processing operations including behavior in internal mixers, screw extruders, die systems and vulcanization molding.
- ADVANCED EXTRUSION AND COMPOUNDING 2 credits 724 Principles of operation and flow in single and twin screw extruders, screw design, character-istics of internal mixers, analysis and simulation of flow.
- 725 CHEMORHEOLOGY AND PROCESSING OF THERMOSETS 2 credits Prerequisites: 621 or 622, or permission of instructor. Rheological behavior of thermosets, vul-canization of rubbers, time-temperature-transition relationships in thermosets, reaction injection molding, compression/transfer molding, pultrusion.
- ADVANCED POLYMER RHEOLOGY 727 2 credits ADVANCED POLYMER KHEDLOGY Prerequisite 621 or equivalent. Second level course in non-linear constitutive equation for vis-coelastic, viscoplastic, viscoelastic-plastic polymeric materials. Utility and applicability to polymer processing problems.
- NUMERICAL METHODS IN POLYMER ENGINEERING 3 credits Prerequisites: 621, 622, 623, 631. Basics of generally accepted numerical methods. Numeri-cal problems in polymer solid mechanics and technological applications. Numerical problems in polymer fluid mechanics and polymer engineering.
- STRESS ANALYSIS OF POLYMERS AND COMPOSITES 731 2 credits Prerequisite: 631. The design of rubber mounts, bearings and sandwich components with demonstration of finite element methods. Classical plates and shells theories with applications to composite structures.
- LIQUID CRYSTALS 745 Prerequisite: permission of instructor. Structure of low molecular weight and polymeric liquid crystals, characterization, physical properties including optical properties, phase transitions, structure-property relationships, processing of polymeric species.
- POLYMER COLLOIDS 747

Prerequisite: permission of instructor. Colloidal dispersions, phase stability, aggregation structures, thermodynamics, kinetics of phase transitions in polymer colloids. Emulsion and solu-tion polymerization, organic/inorganic hybrid materials, coating technology. Rheology of colloidal polymers.

PHASE TRANSITIONS IN POLYMER BLENDS AND ALLOYS 749 Prerequisite: permission of instructor. Elucidating thermodynamics of polymer blends, block copolymers, crystalline/liquid crystalline polymers, and kinetics of phase transitions. Structure

development and modeling of reactive polymer blends. INJECTION AND COMPRESSION MOLDING FUNDAMENTALS 2 credits Prerequisite: permission of instructor. This course provides fundamental knowledge in physi-cal, thermal, and rheological properties required for injection and compression molding includ-ing theoretical and experimental aspects of various molding processes.

POLYMER NANOCOMPOSITES 770

Prerequisite: Permission of instructor. Develops understanding on synthesis, characterization, processing, and properties of polymer nanocomposite materials involving nanoscale fillers in conjunction with thermosetting, thermoplastic, and elastomeric polymer matrices.

ADVANCED POLYMER COATING TECHNOLOGY 2 credits Prerequisite: 641 or equivalent or permission of instructor. The polymeric binders used in radi 773 2 credits ation-curable coatings for electronic packaging and waterborne coatings will be stressed. The chemistry of dyes and the coatings science of pigments will be presented. The chemistry of polymer degradation will also be covered.

MODELING OF NANOSCALE MATERIALS 777

Prerequisite: Permission of instructor. Introduces molecular simulation methods (Monte Carlo molecular dynamics) and their application to polymer-related materials at the molecular and coarse-grain levels

778

ADVANCED FUNCTIONAL POLYMERS 2 credits Prerequisite: 611, 641, or permission of instructor. This course focuses on the recent development of functional polymers for applications as advanced materials and smart devices, which requires the attendant to possess some prior knowledge of polymer science and poly-mer engineering from such 600-level course(s) as mentioned above.

ADVANCED TOPICS IN POLYMER ENGINEERING 2-3 credits (May be repeated) Prerequisite: permission of instructor. Advanced special topics intended for Ph.D. students in polymer engineering.

PRELIMINARY RESEARCH 898

(May be repeated) Preliminary investigation of Ph.D. dissertation subject.

DOCTORAL DISSERTATION 899

(May be repeated) Prerequisite: Successful completion of Ph.D. qualifying exams. Original research by a Ph.D. candidate.

POLYMER SCIENCE

POLYMER CONCEPTS

9871:

1-15 credits

1-15 credits

3 credits

3 credits

- 2 credits Prerequisite: Permission of instructor, Introduction to basic concepts in polymer science including polymerization, copolymerization processes and naturally occurring polymers. Poly-mer nomenclature, definitions and classifications. Polymer stereochemistry and structureproperty relationships.
- SYNTHESIS AND CHEMICAL BEHAVIOR OF POLYMERS 602 2 credits Prerequisite: 601 or instructor's permission. Introduction to fundamentals and practical aspects of polymer synthesis and reactions of polymers; general knowledge of laboratory and commercial methods for polymer preparation; practical examples.
- SPECIAL PROJECTS IN POLYMER SCIENCE 604 1-3 credits Prerequisite: permission. Research projects of limited nature assigned to student entering polymer science program. Intended to familiarize student with typical problems and techniques in this field.
- 607,8 POLYMER SCIENCE SEMINAR I AND II 1 credit each Prerequisite: limited to first-and second-year resident graduate students. Participants are to present a 25-minute lecture on some aspect of polymer science and to participate in discussions of lectures presented by other seminar participants.
- POLYMER SCIENCE LABORATORY 613 3 credits Prerequisites or corequisites: at least one of the courses 601, 631, 674, or 701, or permission of instructor. Laboratory experiments in synthesis, characterization, physical properties and processing and testing of polymers.
- LABORATORY COMPUTER APPLICATIONS IN POLYMER SCIENCE Prerequisites: Basic knowledge of computer programming and permission of instructor. Labo-ratory use of computers in polymer science research for data acquisition, data analysis, graph-ing, and preparation of reports and thesis.

- 2 credits 631 PHYSICAL PROPERTIES OF POLYMERS I Prerequisite: permission of instructor. Thermodynamic and molecular basis of rubber elastic behavior, time-dependent mechanical properties of polymeric materials; melt-flow and entanglements; the morphology of crystalline polymeric materials; fracture of polymers.
- 632 PHYSICAL PROPERTIES OF POLYMERS II 2 credits Prerequisite: 631 or permission of instructor. Normal-coordinate theories of molecular motion and applications to time-dependent mechanical, electrical, and scattering properties of polymeric systems; time-temperature superposition; free volume, WLF relation; fracture; glass transition.
- 674 POLYMER STRUCTURE AND CHARACTERIZATION 2 credits Prerequisites: 3150:313 and 3150:314 or permission of instructor. Presentation of statistical description of polymer molecular properties including chain polymerization and degradation, characterization of conformation, molecular weight, local structure, crystal structures and ordering.
- 675 POLYMER THERMODYNAMICS 2 credits Prerequisite: 674 or permission of instructor. Presentation of the theories and experiments concerning polymer solutions, polymer phase equilibria, and polymeric phase transitions and dilute solution steady-state transport.
- MASTER'S THESIS 1-6 credits Prerequisite: permission. For properly qualified candidate for master's degree. Supervised original research in polymer science, under direction of faculty member, followed by submission of thesis.
- POLYMER TECHNOLOGY I Principles of compounding and testing, processing principles and types of operation, design principles
- 702 POLYMER TECHNOLOGY II 2 credits Prerequisite: 701 or permission of instructor. Rubber industry, rubber compounding and pro-cessing, vulcanization methods, physical testing, plastics preparation and compounding, manufacturing processes. Lecture/laboratory.
- 703 POLYMER TECHNOLOGY III 2 credits Perequisite: 702 or permission of instructor. Flow properties, extrusion, calendaring and milling, molding, mixing, bond operations, engineering properties, rubber springs, viscoelastic analysis design consideration. Lecture/laboratory.
- 704 CONDENSATION POLYMERIZATION 2 credits Prerequisite: 3150:463/563 or permission of instructor. Survey of the theory and practice of condensation polymerization. Numerous commercial examples are presented with special emphasis being placed on the properties and applications of polymers prepared by this technique. Structure-property relationships are highlighted for each major polymer class
- FREE RADICAL REACTIONS IN POLYMER SCIENCE 2 credits Prerequisite: 3140:463/563 or permission on instructor. Covers the kinetics and mechanisms of free radical initiated reactions encountered in polymer science, including polymerization methods, detailed considerations of the initiation, propagation and termination steps in vinyl polymer-izations and copolymerization, preparation of block and graft copolymers by free radical initiated reactions and the mechanisms of free radical induced polymer degradation reactions.
- IONIC AND MONOMER INSERTION REACTIONS 2 credits IONIC AND MONOMER INSERTION REACTIONS 2 creating Prerequisite: 3150:463/563 or permission of instructor. Covers the scope, kinetics and mech-anisms of polymerizations initiation by anions, carbenium ions and onium ions as well as poly-merizations induced by coordination catalysts. Living polymerizations, molecular weights, molecular weight distributions, stere-ochemistry, solvent effects, counter-ion effects, tempera-ture effects, Ziegler-Natta catalysis, olefin metathesis, functionalization of polymers, graft and block correctives. block copolymer synthesis.
- SPECIAL TOPICS: POLYMER SCIENCE 1-3 credits Prerequisite: permission. Topics of current interest in polymer science, encompassing chem-istry, physics or technological aspects of macromolecular substances, including laboratory work where applicable.
- 712 SPECIAL TOPICS: POLYMER SCIENCE Prerequisite: permission. Topics of current interest in polymer science, encompassing chemistry, physics or engineering aspects of macromolecular science.
- DOCTORAL DISSERTATION 1-16 credits 899 Open to properly qualified students accepted as candidates for Doctor of Philosophy in Poly-mer Science depending on the availability of staff and facilities.

APPENDICES

Grievance Procedures for Graduate Students

Purpose

The procedures set forth in this document are intended to provide graduate students with a formal channel of appeal and redress of grievances arising out of their academic and/or employment relationship with the University.

Procedures

- 1. Any graduate student who believes that he or she has valid grounds for a complaint shall attempt to resolve the problem through a conference with the faculty member involved, the department head, and/or the graduate advisor. Following that, the student may attempt to resolve the problem with the assistance of the academic dean. A graduate student presenting a case to the academic dean must provide a full written statement of the grievance, together with all appropriate supporting material. When or if the problem has not been adequately solved at that level or the student wishes to appeal that decision, the student shall prepare a written statement of the complaint setting forth clearly and specifically the allegations and shall hand deliver the written complaint to the Dean of the Graduate School. The Dean of the Graduate School shall notify the complaint confirming the receipt of the complaint and shall request all materials from the Dean of the Complainant's college.
- 2. Within one week of receipt of the complaint, the Dean of the Graduate School shall communicate with all parties in an attempt to informally resolve the problem. The result of this process will be a recommendation by the Dean of the Graduate School which will be communicated in writing to all parties, including the Senior Vice President and Provost.
- 3. The complaint shall become a grievance to be filed with the Senior Vice President and Provost if: a) the Dean of the Graduate School wishes to have a Hearing Committee render a recommendation on the grievance; or b) the student wishes to appeal the recommendation of the Dean of the Graduate School. The student must notify the Senior Vice President and Provost in writing within one week of notification of the Dean of the Graduate School's decision on the complaint.
- 4. Upon receipt of the grievance, the Senior Vice President and Provost shall notify in writing the President of Graduate Student Government that a Hearing Committee should be constituted. The Hearing Committee shall be organized in no more than two weeks.
- 5. When the grievance has been filed with the Chairperson of the Hearing Committee, it shall be the responsibility of that Chairperson to notify in writing all parties involved in the grievance within two working days. This notification shall include the following information: that a grievance has been filed; the nature of the grievance; and the parties involved.
- 6. If the charged party in that grievance admits the validity of the grievance, the Chairperson of the Hearing Committee shall waive the hearing and shall direct an appropriate resolution in consultation with the Hearing Committee.
- 7. If the party charged in the grievance denies the validity of the grievance, the Hearing Committee shall conduct the hearing.

Hearing Committee

A Hearing Committee shall be established as follows:

- Chairperson The Chairperson shall be a member of the graduate faculty with full membership, but not from a department involved in the proceedings. This Chairperson shall be selected by the Senior Vice President and Provost and shall serve for only one grievance proceeding. The Chairperson shall conduct the hearing and shall vote only in the case of a tie.
- 2. Members Four members shall be selected as follows:
 - a. From the complainant's department a graduate student not directly involved, selected jointly by the Department Chair and the President of the Graduate Student Government. If the grievance is filed against the Department Chair, the Academic Dean shall substitute for the Department Chair. If the grievance is filed against the department, the Senior Vice President and Provost shall substitute for the Department Chair.
 - b. From the complainant's department a faculty member not directly involved, selected jointly by the Department Chair and the President of the Graduate Student Government. If the grievance is filed against the Department Chair, the Academic Dean shall substitute for the Department Chair. If the grievance is filed against the department, the Senior Vice President and Provost shall substitute for the Department Chair.
 - c. A graduate student not involved with the complainant and not from the complainant's department, selected by the Vice Chairperson of the Graduate Council.

- d. A member of the graduate faculty with full membership not involved in the complaint nor from the complainant's department, selected by the Senior Vice President and Provost.
- A Hearing Committee shall be organized anew each and every time a grievance is brought forth. A Hearing Committee shall serve through the adjudication and resolution of the complaint.

Hearing Procedure

- 1. The hearing must take place within two weeks of the Hearing Committee's formation.
- 2. At least three working days prior to the hearing, the Hearing Committee Chairperson shall provide the Hearing Committee and the Parties involved with:
 - a. The student's written statement of the grievance.
 - b. Written notification of when and where the Hearing Committee shall meet.
 - c. A copy of "Grievance Procedures for Graduate Students" and all relevant documents.
- 3. Each party shall be required to appear in person before the Hearing Committee to present his/her case. Each party may have an advisory/colleague present to protect his/her rights if so desired. However, the parties shall speak and act on their own behalf. Witnesses may be called to present evidence on behalf of the complainant or the charged person. The use of tape recorders is prohibited, except as may be required to accommodate persons with disabilities.
- 4. All parties shall be entitled to an expeditious hearing. In urgent cases in which it is alleged that a regulation, administration decision, or action threatens immediate and irreparable harm to any of the parties involved, the Hearing Committee shall expedite the hearing and disposition of the case. The Hearing Committee is empowered to recommend to the Dean of the Graduate School that an individual, department, or college discontinue or postpone any action which threatens to cause irreparable harm, pending the final disposition of the case.
- The burden of proof shall be on the complainant and the standards of justice and fair play shall prevail in the adjudication of violations and grievances.
- 6. If necessary, the Hearing Committee may consult with the University's Office of General Counsel for advice at any time throughout this process.

Decisions and Actions

- The Hearing Committee shall decide as follows: there has been a violation of the complainant's rights, or there has been no violation of the complainant's rights.
- Should the Hearing Committee determine that a violation of the complainant's rights occurred, the Committee shall, if practical, recommend a resolution to the Senior Vice President and Provost.
- The Senior Vice President and Provost, exercising his/her judgment, shall act on the implementation of the resolution recommended by the Hearing Committee.

Record Keeping

The Chairperson of the Hearing Committee shall be responsible for keeping a summarized, written record of all the proceedings.

- 1. Records of all proceedings shall be prepared by the secretarial personnel of the Graduate School. Copies of all proceedings shall be distributed as follows:
 - a. To all parties involved in the proceedings
 - b. To the Hearing Committee members
 - c. To the President of the Graduate Student Government.
 - d. To the Dean of the Graduate School
 - e. To the Senior Vice President and Provost.
- A copy of all proceedings shall be kept in the office of the Dean of the Graduate School pursuant to the University's record retention proposal.

Appeal

An appeal may be made to the President of the University after all of the above procedures have been followed. The President of the University shall assess each case on an individual basis and his/her decision shall be considered final.

Family Educational Rights and Privacy Act (FERPA)

A student has a right to:

- · Inspect and review education records pertaining to the student;
- · Request and amendment to the student's records; and
- Request a hearing (if the request for an amendment is denied) to challenge the contents of the education records, on the grounds that the records are inaccurate, misleading, or violate the rights of the student.

The parent or eligible student has a right to:

- · Inspect and review the student's education records;
- Request the amendment of the student's education records to ensure they are not inaccurate, misleading, or in otherwise in violation of the student's privacy or other rights.
- Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.
- File with the U.S. Department of Education a complaint concerning alleged failures by the school to comply with the requirements of FERPA; and

· Obtain a copy of the school's FERPA policy.

Disclosure of Personally Identifiable Information

- FERPA regulations list conditions under which "personally identifiable information" from a student's education record may be disclosed without the students prior consent.
- Disclosure may be made to authorized representatives of the U.S. Department of Education, the Office of Inspector General, or state and local education authorities. These officials may have access to education records as a part of an audit or program review, or to ensure compliance with Student Financial Assistance program requirements. (Representatives of the Department include research firms that are under contract with the Department to conduct studies of financial aid procedures, using student information provided by the schools selected for the study. The term also includes the Student Financial Assistance program public inquiry contractor.)
- Disclosure may be made if it is in connection with financial aid that the student
 may receive a request from the Immigration and Naturalization Service (INS) or
 the Federal Bureau of Investigation (FBI) for access to a student's records.
 Such a request may be granted only if the student information is needed to
 determine the amount of the aid, the conditions for the aid, the student's eligibility for the aid, or to enforce the terms or conditions of the aid.
- Disclosure may be made to the student's parent, if the student is dependent on the parent, as defined by the Internal Revenue Service. If the student receives more than half of his or her support from the parent, under the IRS definition, the student is a dependent of the parent. (Note that the IRS definition is quite different from the rules governing dependency status for the Student Financial Assistance programs.)
- Disclosure may be made to organizations that are conducting studies concerning the administration of student aid programs on behalf of educational agencies or institutions.

Annual Notification

Each year, The University of Akron is required to give notice of the various rights accorded to parents or students pursuant to the Family Education Rights and Privacy Act (FERPA). Parents and students, under FERPA, have a right to be so notified and informed. In accordance with FERPA, you are notified of the following:

Right to Prevent Disclosures

You have the right to prevent disclosure of Education Records to third parties with certain limited expectations. It is the intent of The University of Akron to limit the disclosure of information contained in your Education Records to those instances where prior written consent has been given for disclosures, as an item of directory information of which you have not refused to permit disclosure, or under the provisions of FERPA which allows disclosure without prior written consent.

Right to Inspect

You have the right to review and inspect substantially all of your Education Records maintained at or by The University of Akron.

Right to Request an Amendment

You have the right to have corrected any parts of any Education Record that yo believe to be inaccurate, misleading, or otherwise in violation of your FERPA rights. This right includes the right to a hearing to present evidence that the record should be changed if this institution decides not to alter the Education Records.

· Right to Obtain Policy

You have the right to obtain a copy of the written institutional policy adopted by The University of Akron in compliance with FERPA. A copy may be obtained in person or by mail from the FERPA coordinator, the University Registrar, whose office is located in Simmons Hall, Room 120. In addition, this policy may be accessed online at http://www.uakron.edu/ogc/docs/11-08_6-25-07.doc.

· Right to File a Complaint

You have the right to file a complaint with the Family Educational Rights and Privacy Act Office at the Department of Education, 600 Independence Avenue, S.W., Washington, D.C., 20202-3887, (202) 260-9001, concerning any belief you may have that The University of Akron has failed to comply with the provisions of FERPA.

Release of Directory Information

The Family Educational Rights and Privacy Act of 1974 (FERPA) permits The University of Akron to release directory (public) information about students. Directory (public) information includes the student's name, local (mailing) address, telephone number, major field of study, participation in officially recognized activities and sports, the student's photograph, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous education agency or institution attended by the student.

Withhold Directory Information

If a student asks for directory information to be withheld, it will be withheld from a variety of sources, including friends, relatives, prospective employers, honor societies, the news media, and the commencement program. Students should carefully consider the consequences of a decision to withhold directory information.

Students may obtain a "DIRECTORY INFORMATION RESTRICTION REQUEST" form at http://www3.uakron.edu/registrar/DirInfoRel.doc or at the Office of the University Registrar.

Completed forms must be provided to the Office of the University Registrar more than ten (10) days prior to the starting date of the semester or summer session for instructions to be effective for that semester. Return to: Office of The University Registrar, The University of Akron, Akron, Ohio 44325-6208, or fax to (330) 972-6097.

Note: The above is a very general summary of the Family Educational Rights and Privacy Act (FERPA) and the University's policy implementing this law. The full text of the University's policy implementing FERPA may be accessed at http://www.uakron.edu/ogc/docs/11-08_6-25-07.doc.

Intellectual Property Rights and Obligations

During your graduate study at The University of Akron and your professional career thereafter, you may become involved with at least one of the three main forms of intellectual property matters: copyrights, patents, and proprietary information/trade secrets. It is possible that certain discoveries may have commercial value, and therefore may invoke one or more of the above forms of intellectual property ownership.

Copyright

Copyright, by law, is automatically owned by the author or the authors, employer or sponsor when the work is placed in a fixed form (or medium). The University Board of Trustees automatically waives any claim of the University to copyright in books, texts, or articles of a purely academic nature authored by faculty or students except when the material is prepared as a sponsored project in which case it is the property of the University. Ownership would then be assigned to the University or its designee as the Board of Trustees directs. Questions of authorship are often best handled informally between potential joint authors.

Patents

All discoveries and inventions made by you while associated with The University of Akron must be reported to your faculty advisor, and through your advisor to your department chair, dean, and thereafter to the Office of Research Services and Sponsored Programs using the standard University of Akron invention disclosure form. This form provides a guide to describing and identifying the invention broadly and referencing specific results. Those persons thought to be possible inventors should also be identified on this form.

Patents on inventions made by University faculty, staff, students or anyone using University facilities are automatically owned by The University of Akron, as provided by Ohio Revised Code Section 3345.14. The final decision as to inventorship is a technical legal conclusion and will be made in the course of preparing a patent application by the patent attorney handling the application.

Proprietary Information

Those engaged in sponsored research may also be involved with developing or receiving proprietary information owned by others outside the University (e.g., sponsors such as corporations and individuals seeking certain research from the University). The University and the principal investigator may have agreed to maintain this proprietary information in confidence. In some situations, proprietary information of a sponsor may be provided to you or other project investigators during a research project. The sponsor desires, in these situations, to keep the information confidential (or secret) for as long as possible.

You are free to use the confidential information in the course of the project and discuss it with other students or faculty members engaged in that project. However, you may not use the information on other projects, nor may you discuss it with other individuals not involved with that project. While these commitments could delay public access to your thesis for a specified time, it will not delay acceptance or approval of your thesis/dissertation nor delay your graduation date.

The University and principal investigator must have written personal commitments from anyone working on a project involving and securing proprietary information. Therefore, all research students are required to execute the Confidentiality Agreement (sample form attached to this page). Prior to the start of your research, it is the responsibility of the research director to inform you in writing of any restrictions on the research with a copy also sent to the Office of Research Services and Sponsored Programs, if your research is subject to confidentiality provisions. You are also to be informed by the research director about the scope of the research that is covered by any confidentiality provisions.

If you have any questions as to what information is proprietary, seek guidance from your project's principal investigator or your faculty research advisor.

Questions of Authorship and Inventorship

In the event you think you have been improperly omitted from the list of authors, you should first discuss the matter with your faculty advisor. If you have further questions or consider the matter unresolved, you should inform in the following order the appropriate department chair, the college dean, and finally the Dean of the Graduate School. (Questions are usually, and most quickly, resolved at the lowest administrative levels.)

In the event you think you have been omitted as an inventor on a patent application, you should first discuss the matter with your faculty research advisor and, thereafter, with your department chair and finally with your academic dean. Following such consultations, either you and/or your faculty advisor, or your department chair, or your dean can request the patent attorney who prepared the application to recheck the findings and then prepare a formal report on inventorship. The whole patent application file may then be referred to the Office of General Counsel for a re-evaluation of valid inventors. However such as re-evaluation by patent counsel shall only occur with the prior knowledge of your faculty advisor, Department Chair and Dean.

(Sample)

THE UNIVERSITY OF AKRON INVENTION PATENT AGREEMENT

Name:			
	Last	First	Middle Initial
	Social Security No.:		

The University of Akron graduate students are required to sign this form as a condition of being permitted to participate in any research activity at the University.

1. As a condition of and in consideration of my participating in sponsored research or other financially supported activity at The University of Akron, I hereby agree to communicate fully with my Faculty Advisor, including discussing the details of any work conducted by me and the results which flow therefrom. I recognize that this communication is essential as it relates to any sponsored research, to any course and the sis/dissertation research, and to my safety and the safety of everyone else using the same facility that I use.

2. I further agree to disclose promptly to the director of the research and to my faculty research advisor any invention conceived and/or reduced to practice by me whether jointly with others or solely, which results in whole or in part from such sponsored research or financially supported activity. I agree that I will comply with the provisions of any agreement between The University of Akron and any sponsor for any information and laboratory practice to which I am privileged to know. I will cooperate in assuring that the sponsor's rights, including rights in inventions, patents, copyrights, are fully protected. Further, I hereby assign all rights, title and interest to The University of Akron for its disposal at its sole discretion.

3. I also acknowledge that certain technical information that may arise as a result of the sponsored research or supported activity may be of a confidential nature. I agree to be bound to the reasonable terms of any nondisclosure agreement as it has been agreed to by the University.

4. Finally, I acknowledge and agree that any rights which arise as a result of the sponsored research or supported activity belong to The University of Akron or to the sponsor as determined by agreement between The University of Akron and the sponsor.

Graduate Faculty*

September 2013

- LUIS M. PROENZA, President; Professor of Biology; Adjunct Professor of Education; Adjunct Professor of Political Science (January 1999) B.A., Emory University; M.A., The Ohio State University; Ph.D., The University of Minnesota, 1971.
- ALA R. ABBAS, Associate Professor of Civil Engineering (2005) B.S., University of Jordan; M.S., Ph.D., Washington State University, 2004.
- MARIA ADAMOWICZ-HARIASZ, Interim Department Chair and Associate Professor of Modern Languages (1995) M.A., Maria Curie-Sklodowska University, Poland; M.A., Ph.D., University of Pennsylvania, 1994.
- RAJ AGGARWAL, Frank C. Sullivan Professor of International Business and Finance (2006) M.B.A., D.B.A., Kent State University, 1975.
- AIGBE AKHIGBE, Professor of Finance, Frederick W. Moyer Chair in Finance (2000) B.S., University of Ibadan; M.S. University of Southwestern Louisiana; M.B.A., Ph.D., University of Houston, 1991.
- PHILLIP ALLEN, Professor of Psychology; Senior Fellow, Institute for Life-Span Development and Gerontology (2000) B.S., M.A., Ph.D., The Ohio State University, 1987.
- ALAN S. AMBRISCO, Associate Professor of English (1999) B.A., SUNY Buffalo; M.A., Ph.D., Indiana University, 1998.
- STEPHEN C. ARON, Professor of Music (1981) B.M., University of Hartford; M.M., University of Arizona, 1981.
- EMILY K. ASENCIO, Assistant Professor of Sociology (2009) B.S., M.S., Ph.D., University of California-Riverside, 2005.
- STEVEN R. ASH, Professor of Management, Interim Department Chair of Management (2001) B.A., M.B.A., Ph.D., New Mexico State University, 1996.
- KENNETH E. AUPPERLE, Professor of Management (1986) B.A., M.A., Western Michigan University, M.B.A., Kansas State University; Ph.D., University of Georgia, 1982.
- BRIAN P. BAGATTO, Professor of Biology; Bachelor of Science/Medical Doctor Coordinator (2001) B.S., Queen's University; M.S., Auburn University; Ph.D., University of North Texas, 2001.
- HAMID R. BAHRAMI, Assistant Professor of Electrical and Computer Engineering (2009) B.S., Sharif University of Technology; M.S., University of Tehran; Ph.D., McGill University, 2008.
- DAVID B. BAKER, Margaret Clark Morgan Director of the History of American Psychology, Professor of Psychology (1999) B.A., Millersville State College; M.Ed., Southwest Texas State University; Ph.D., Texas A&M University, 1998.
- WILLIAM E. BAKER, Professor of Marketing; Department Chair of Marketing (2010) B.A., Northwestern University; M.A., Ph.D., University of Florida, 1991.
- BHANU BALASUBRAMNIAN, Assstant Professor of Marketing (2012) B.Sc., University of Madras; M.B.A., Ph.D., University of Mississippi, 2008.
- LINDA R. BARRETT, Associate Professor of Geography and Planning (1995) B.A., M.A., Ph.D., Michigan State University, 1995.
- HAZEL A. BARTON, Associate Professor of Biology; Associate Professor of Geology (2012) Ph.D., University of Colorado Health Sciences Center, 1997.
- CELAL BATUR, Department Chair of Mechanical Engineering, Professor of Mechanical Engineering (February 1980) B.Sc., M.Sc., The Technical University of Istanbul; Ph.D., The University of Leicester, 1976.
- JANET P. BEAN, Associate Professor of English; Director, Composition (1998) M.A., University of New Hampshire; B.A., Ph.D., University of North Carolina, 1998.
- MATTHEW L. BECKER, Associate Professor of Polymer Science (April 2009) B.S., Northwest Missouri State University, M.A., Ph.D., Washington University, 2003.
- JULIA BECKETT, Associate Professor of Public Administration and Urban Studies (1997) B.A., J.D., Washington University; M.A., Ph.D., University of Colorado, 1995.
- CHARLES C. BENEKE II, Associate Professor of Art (2001) B.A., Kenyon College; M.F.A., Connecticut College, 1996.
- FREDERIK BEUK, Assistant Professor of Marketing (2012) M.Sc., LL.M., Erasmus University Rotterdam; Ph.D., University of Illinois at Chicago, 2011.
- KULDHIR S. BHATI, Assistant Professor of Education (2008) B.C., University of Bombay; M.B.A., University of Notre Dame; M.A., Boston College; Ph.D., University of Wisconsin, 2008.
- MARY BIDDINGER, Associate Professor of English (2005) B.A., University of Michigan-Ann Arbor, M.F.A., Bowling Green State University, Ph.D., University of Illinois-Chicago Circle, 2003.
- WIESLAW K. BINIENDA, Professor of Civil Engineering; Department Chair of Civil Engineering (1988) M.S., Warsaw Technical University; M.S.M.E., Ph.D., Drexel University, 1988.
- TONI L. BISCONTI, Associate Professor of Psychology; Fellow, Institute for Life-Span Development and Gerontology (2006) B.S., Youngstown StateUniversity, M.A., Ph.D., University of Notre Dame, 2001.
- TODD ALAN BLACKLEDGE, Professor of Biology (January 2005) B.S., George Washington University; Ph.D., The Ohio State University, 2000.
- ALAN K. BODMAN, Professor of Music (1986) B.M., Michigan State University; M.M., University of Michigan, 1973.
- RACHEL J. BOIT, Assistant Professor of Education (December 2010) B.Ed., Kenyatta University, Kenya; M.Ed., Ph.D., University of Massachusetts, 2010.
- GUY V. BORDO, Associate Professor of Music (2005) B.M., M.M., University of Michigan-Ann Arbor, D.M., Northwestern University, 1991.
- CONSTANCE BOUCHARD, Distinguished Professor of History (1990) B.A., Middlebury College; M.A., Ph.D., University of Chicago, 1976.
- MINEL J. BRAUN, Distinguished Professor of Mechanical Engineering (December 1978) M.S., Ph.D., Carnegie-Mellon University, 1978.
- FRANCIS S. BROADWAY, Professor Education (1997) B.A., Kalamazoo College; M.A., Eastern Michigan University, Ph.D., University of South Carolina, 1997
- STEPHEN C. BROOKS, Associate Professor of Political Science; Associate Director, Ray C. Bliss Institute of Applied Politics (1982) B.A., Colorado College; M.A., Ph.D., Northwestern University, 1982.
- SANDRA K. BUCKLAND, Professor of Family and Consumer Sciences (1999) B.A., M.A., The University of Akron; Ph.D., The Ohio State University, 1996.
- ALPER BULDUM, Associate Professor of Physics; Associate Professor of Chemistry (2001) B.S., M.S., Ph.D., Bilkent University, 1998.
- SEAN X. CAI, Professor of Physical and Health Education (1995) B.S., Southwest China Normal University; M.Ed., Shanghai Institute of Physical Education; Ph.D., University of Arkansas, 1995.
- MUKERREM CAKMAK, Distinguished Professor of Polymer Engineering; H.A. Morton Professor of Polymer Engineering (August 1983) B.S., Technical University of Istanbul; M.S., Ph.D., University of Tennessee, 1984.

* The dates in parentheses indicate the beginning of service at The University of Akron; unless otherwise stated, service began in the month of September.

THOMAS G. CALDERON, Professor of Accounting; Chair of the School of Accountancy (1988) B.S., M.S., University of the West Indies; Ph.D., Virginia Polytechnic Institute and State University, 1987.

VALERIE J. CALLANAN, Associate Professor of Sociology (2006) B.A., California State Polytechnic University, M.A., Ph.D., University of California, 2001.

- KIM C. CALVO, Associate Dean, Buchtel College of Arts and Sciences; Professor of Chemistry (1984) B.A., Ph.D., The Ohio State University, 1981.
- JOAN E. CARLETTA, Associate Professor of Electrical and Computer Engineering; ABET Coordinator (1999) B.S., SUNY College at Buffalo; Ph.D., Case Western Reserve University, 1995.
- CHARLES H. CARLIN, Assistant Professor of Speech-Language Pathology and Audiology (2009) B.S.,M.S., Cleveland State University, Ph.D., Kent State University, 2009.
- GUSTAVO ADOLFO CARRI, Associate Professor of Polymer Science (2000) B.S., University Nacional de La Plata; M.S., Case Western Reserve University; M.S., Ph.D., University of Massachusetts-Amherst. 2000.
- KEVIN A. CAVICCHI, Associate Professor of Polymer Engineering (January 2006) B.S., Cornell University; Ph.D., University of Minnesota, 2003.
- JOSEPH F. CECCIO, Professor of English (1978) B.A., Loyola College; M.A., Ph.D., University of Illinois at Urbana, 1975.
- CHIEN-CHUNG CHAN, Professor of Computer Science (1989) M.S., Ph.D., University of Kansas, 1989.
- AKHILESH CHANDRA, Professor of Accounting; Director, Institute for Global Business (2001) B.A., M.A., University of Delhi, India; Ph.D., Memphis State University, 1993.
- ABHILASH J. CHANDY, Assistant Professor of Mechanical Engineering (2008) B.E., Regional Engineering College, M.S., University of Florida; Ph.D., Purdue University, 2007.
- GEORGE G. CHASE, Professor of Chemical and Biomolecular Engineering (1983) B.S., Ph.D., The University of Akron, 1989.
- JOHN J. CHEH, Professor of Accounting and Information Systems (1999) B.E., Hanyang University; M.B.A., University of Texas at Austin; Ph.D., University of Michigan, 1986.
- ANG CHEN, Associate Professor of Physics (2002) M.E., HuaZhong University of Science and Technology; Ph.S., Zhejiang University, 1994.
- GANG CHEN, Assistant Professor of Chemical and Biomolecular Engineering (2009) B.S., Bejing University of Chemical Technology; M.S., University of Minnesota-Minneapolis St. Paul; Ph.D., University of Washington, 2009.
- STEPHEN Z. D. CHENG, Dean of the College of Polymer Science and Polymer Engineering; Professor of Polymer Science; Trustees Professor, Polymer Science; Robert C. Musson Professor of Polymer Science (July 1987) B.S., East China Normal University; M.S., East China Institute of Science and Technology; Ph.D. Rensselaer Polytechnic Institute, 1985.
- H. MICHAEL CHEUNG, Professor of Chemical and Biomolecular Engineering (1984) B.S., M.S., Ph.D., Case Western Reserve University, 1985.
- SHEAU-HUEY CHIU, Assistant Professor of Nursing (2009) B.S.N., M.S., Arizona State University; Ph.D., Case Western Reserve University, 2001.
- JAE-WON CHOI, Assistant Professor of Mechanical Engineering (January 2011) B.S., M.S., Ph.D., Pusan National University; 2007.
- FRED KAT-CHUNG CHOY, Professor of Mechanical Engineering (1983) B.S.C.E., National Taiwan University; M.S.C.E., Ph.D., University of Virginia, 1977; P.E.
- STEVEN S. CHUANG, Professor of Chemical and Biomolecular Engineering; Professor of Polymer Science (1986) M.S., New Jersey Institute of Technology; Ph.D., University of Pittsburgh, 1985.
- PATRICK J. CHURA, Professor of English (2005) B.A., University of Notre Dame; M.A., Washington University; M.A., University of Missouri; Ph.D., Saint Louis University, 2003.
- LINDGREN L. CHYI, Professor of Geology and Environmental Science (1978) B.Sc., National Taiwan University; M.Sc., Ph.D., McMaster University, 1972.
- KATHLEEN DIANA CLARK, Associate Professor of Communication (1998) B.A., M.A., University of Washington; Ph.D., The Ohio State University, 1995.
- SUSAN G. CLARK, Professor of Education (1996) B.S., Miami University; M.Ed., Xavier University, Ph.D., Kent State University; J.D., The University of Akron,2005.
- CURTIS B. CLEMONS, Professor of Applied Mathematics (August 1990) B.S., Ashland College; M.A., Miami University; Ph.D., University of Maryland at College Park, 1990.
- DANIEL J. COFFEY, Associate Professor of Political Science; Fellow, Ray C. Bliss Institute of Applied Politics (2005) B.A., College of Holy Cross; M.A., Ph.D., University of Virginia, 2006.
- DAVID B. COHEN, Professor of Political Science; Fellow, Ray C. Bliss Institute of Applied Politics (2000) B.A., University of Wisconsin-Madison; M.A., University of Tennessee; Ph.D., University of South Carolina, 2000.
- MICHAEL L. COLLARD, Assistant Professor of Computer Science (2007) B.S., M.S., PhD., Kent State University (2004).
- JAMES P. COSSEY, Associate Professor of Mathematics (2008) B.S., University of Chicago; Ph.D, University of Wisconsin, 2005.
- RAYMOND W. COX III, Professor of Public Administration and Urban Studies; Fellow, Institute for Life-Span Development and Gerontology (July 2000) B.A., Northeastern University; M.S., Suffolk University; Ph.D., Virginia State College, 1983.
- SANDRA C. COYNER, Professor of Education (June 1994) A.A., Cuyahoga Community College; B.A., Cleveland State University; M.B.A.; Baldwin-Wallace College; M.Ed., Ed.D., The University of Akron, 1992.
- BRUCE S. CUSHING, Professor of Biology (2006) B.S., Arizona State University; M.S., University of Montana; Ph.D.. Michigan State University, 1984.
- TERESA J. CUTRIGHT, Associate Professor of Civil Engineering (1994) B.S., M.S., Ph.D., The University of Akron, 1994.
- SUJAY DATTA, Associate Professor of Statistics (2012) M.S., Indian Statistical Institute; Ph.D., University of Connecticut Storrs, 1995.
- TERRY DAUGHERTY, Associate Professor of Marketing (2009) B.A., Western Kentucky University; M.A., University of Alabama; Ph.D., Michigan State University, 2001.
- ALFRED W. DAVISO, III, Assistant Professor of Education (2009) B.A., M.A., Ph.D., Kent State University, 2006.
- JOSE ALEXIS De ABREU-GARCIA, Professor of Electrical and Computer Engineering; Department Chair of Electrical and Computer Engineering (1987) B.Sc., Ph.D., Queen's University at Kingston, 1986.
- DANIEL C. DECKLER, Professor of Engineering (Wayne College) (1991) B.S., Ohio Northern University; M.S., Ph.D., The University of Akron, 2002.
- FREDERICO DE GREGORIO, Assistant Professor of Marketing (2008) B.A., Hawaii Pacific University; M.A., Michigan State University; Ph.D., University of Georgia, 2005.
- PARIZAD T. DEJBORD-SAWAN, Associate Professor of Modern Languages (1980) B.S., M.A., The University of Akron; Ph.D., University of Michigan, 1994.
- ROBERTA A. DePOMPEI, Interim Dean of the College of Health Professions; Distinguished Professor of Speech-Language Pathology and Audiology; Director of the School of Speech-Language Pathology and Audiology; Follow, Institute for Life-Span Development and Gerontology (January 1983) B.S.Ed., M.A., Kent State University; Ph.D., The University of Akron, 1991.

- ASOKE K. DEY, Assistant Professor of Management (2008) B.S., Bengal Engineering College; M.B.A., University of Utah; Ph.D., University of Minnesota, 2009.
- ALI DHINOJWALA, Professor of Polymer Science; H.A. Morton Professor of Polymer Science (1997) Ph.D., Northwestern University, 1994.
- JAMES M. DIEFENDORFF, Associate Professor of Psychology; Fellow, Institute for Life-Span Development and Gerontology (2006) B.A., M.A., Ph.D., The University of Akron, 1999.
- JAMES J. DIVOKY, Associate Dean of the College of Business Administration; Professor of Management (1983) B.B.A., M.B.A., D.B.A., Kent State University, 1984.
- FRANCOIS K. DOAMEKPOR, Associate Professor of Public Administration and Urban Studies (1991) B.A., University of Cape Coast of Ghana; M.B.A., Ball State University; Ph.D., University of Pittsburgh, 1989.
- WILLIAM J. DONOVAN, Associate Professor of Chemistry (2002) B.S., University of Delaware; Ph.D., Purdue University, 2001.

SASA DORDEVIC, Associate Professor of Physics (January 2005) B.S., B.S., University of Nis Yugoslavia; M.S., University of Houston; Ph.D., University of California, 2002.

- DENNIS DOVERSPIKE, Professor of Psychology; Senior Fellow, Institute for Life-Span Development and Gerontology; Director of Organizational Research (1984) B.S., John Carroll University; M.S., University of Wisconsin at Oshkosh; Ph.D., The University of Akron, 1983.
- JULIE DREW, Professor of English (1997) B.A., M.A., Ph.D., University of South Florida, 1997.
- ZHONG-HUI DUAN, Professor of Computer Science (2001) B.S., Chengdu Institute of Technology; M.S., Chinese Academy of Geological Science; M.S., Ph.D., Florida State University, 1997.
- ROBERT J. DUFF, Professor of Biology (1999) B.S., Calvin College; M.S., Ph.D., University of Tennessee at Knoxville, 1995.
- STEPHEN DUIRK, Assistant Professor of Civil Engineering (2009) B.S., Ohio University; M.S., The University of Akron; Ph.D., University of Iowa, 2003.
- LAURIE A. DUNLAP, Associate Professor of Education in Mathematics (2006) B.S., The University of Akron; M.S., Ph.D., University of Cincinnati, 2005.
- RICHARD EINSPORN, Associate Professor of Statistics (1987) B.S., Indiana University of Pennsylvania; M.A., The Pennsylvania State University; Ph.D., Virginia Polytechnic, 1987.
- MALIK E. ELBULUK, Professor of Electrical and Computer Engineering (1989) B.Sc., University of Khartoum; M.S.E.E., D.Sc., Massachusetts Institute of Technology, 1986.
- JOELLE D. ELICKER, Associate Professor of Psychology (2003) B.S., University of Delaware; M.A., University of New Haven; Ph.D., The University of Akron, 2000.
- J. RICHARD ELLIOTT, JR., Professor of Chemical and Biomolecular Engineering (January 1986) B.S., Christopher Newport College; M.S., Virginia Polytechnic Institute and State University; Ph.D., Pennsylvania State University, 1985.
- KATHLEEN L. ENDRES, Distinguished Professor of Communication (1987) B.A., M.A., University of Maryland; Ph.D., Kent State University, 1985.
- ERIK D. ENGEBERG, Assistant Professor of Mechanical Engineering (2008) B.S., Walla Walla College; Ph.D., University of Utah, 2008.
- KRISTINA M. ENGLISH, Professor of Speech-Language Pathology and Audiology (January 2007) B.A., M.A., Ph.D., San Diego State University, 1993.
- REBECCA J. ERICKSON, Professor of Sociology (1991) B.A., Indiana University; M.A., Ph.D., Washington State University, 1991.
- EDWARD A. EVANS, Associate Professor of Chemical and Biomolecular Engineering; ABET Coordinator (1997) B.A., Dartmouth College; M.S., Ph.D.,Case Western Reserve University, 1998.
- GJAZI FALAH, Professor of Geography and Planning (2001) B.A., M.A., Hebrew University, Jerusalem; Ph.D., University of Durham, 1982.
- J. CLAYTON FANT, Professor of Classical Studies (1984) B.A., Williams College; Ph.D., University of Michigan, 1976.
- KATHRYN M. FELTEY, Associate Professor of Sociology; Interim Director, Women's Studies (January 1988) B.A., M.A., Wright State University; Ph.D., The Ohio State University, 1988.
- RUDY FENWICK, Associate Professor of Sociology (1978) B.A., University of Oklahoma; M.A., McGill University; Ph.D., Duke University, 1978.
- ROBERT A. FIGLER, Associate Professor of Management (1985) B.A., Indiana University of Pennsylvania; M.A., Ph.D., West Virginia University, 1984.
- ELAINE M. FISHER, Interim Director and Chief Nurse Administrator of the School of Nursing; Professor of Nursing (1986) B.S.N., The University of Akron; M.S.N., Kent State University, 1985.
- STEFAN FORCEY, Assistant Profesor of Mathematics (2010) B.S., Lincoln University, M.S., Ph.D., Virginia Tech University, 2004.
- BRIDGIE A. FORD, Professor of Education (1987) B.S., M.S., Eastern Illinois University, Ph.D., Purdue University, 1983.
- ANTONIA M. FORSTER, Professor of English (1986) B.A., M.A., Flinders University; Ph.D., University of Melbourne, 1986.
- MARK D. FOSTER, Associate Dean of Programs, Policy, and Engagement; Professor of Polymer Science; Director, Akron Global Polymer Academy; T.A. Knowles Professor of Polymer Science (November 1990) B.S., Washington University; Ph.D., University of Minnesota at Minneapolis, 1987.
- GARY B. FRANK, Professor of Accounting (January 1985) B.A., University of Minnesota; M.A., Ph.D., M.S., University of Illinois, 1984.
- LA VERNE M. FRIBERG, Associate Professor of Geology and Environmental Science (March 1976) B.S., University of Wisconsin; M.A., Ph.D., Indiana University at Bloomington, 1976.
- XIAOSHENG GAO, Professor of Mechanical Engineering (January 2001) B.S., M.S., Xi'an Jiaotong University; M.S., Ph.D., Brown University, 1997.
- ELISA B. GARGARELLA, Associate Professor of Art Education (2003) B.A., Denison University; M.A., Chatham College, Ph.D., The University of Akron, 2007.
- R. RAY GEHANI, Associate Professor of Management and International Business; Fitzgerald Institute Fellow, Entrepreneurship; Intellectual Property Center Fellow (1997) B.T., M.S., Indian Institute of Technology; Ph.D., Tokyo Institute of Technology, 1981.
- RONALD D. GELLENY, Associate Professor of Political Science; Fellow, Ray C. Bliss Institute of Applied Politics (2006) B.A., M.A., McMaster University; Ph.D., Birmingham University England, 2002.
- SUCHARITA GHOSH, Associate Professor of Economics (August 1992) B.A., University of Bombay, India; M.A., Ph.D, University of Kansas, 1993.
- GEORGE C. GIAKOS, Professor of Electrical and Computer Engineering; Professor of Biomedical Engineering (1994) B.A., University of Turin; M.S., University of Edinburgh; M.S., Ohio University; Ph.D., Marquette University, 1991.
- DAVID GIFFELS, Assistant Professor of English (2009) B.A., M.A., Ph.D., The University of Akron, 1995.
- GABRIEL F. GIRALT, Professor of Communication (1989) B.S., Xavier University, M.F.A., Ohio University, 1989.

RICHARD S. GLOTZER, Professor of Social Work; Fellow, Institute for Life-Span Development and Gerontology (2003) B.A., M.S., Ph.D., University of Wisconsin-Madison, 1984.

DMITRY GOLOVATY, Associate Professor of Applied Mathematics (2000) B.S., Institute of Steel and Alloys; M.S., Ph.D., Carnegie Mellon University, 1995.

- XIONG GONG, Assistant Professor of Polymer Engineering (2010) B.S., Northwest Normal University, M.S., Lanzhern University; Ph.D., Nanical University PR-China, 1997.
- JOHN W. GOODELL, Assistant Professor of Finance (2008) B.S., University of Illinois; M.B.A., Miami University; M.C.I.S., Cleveland State University; Ph.D., Kent State University, 2008.
- LESLEY J. GORDON, Professor of History (1998) A.B., The College of William and Mary; M.A., Ph.D., The University of Georgia, 1995.
- SUZANNE GRADISHER, Assistant Professor of Business Law (2009) B.S., University of Nevada at Las Vegas; M.B.A., Kent State University; M.Tax, J.D., University of Akron, 2004.

ELIZABETH GRAHAM, Professor of Communication; Director, School of Communication (2010) B.A., John Carroll University; M.A., Cleveland State University; Ph.D., Kent State University, 1987. MICHAEL F. GRAHAM, Professor of History (1995) B.A., M.A., Ph.D., University of Virginia, 1993.

- CHRISTINE H. GRAOR, Assistant Professor of Nursing (2008) B.A., M.A., Ph.D., Kent State University, 2008.
- JOHN C. GREEN, Distinguished Professor of Political Science; Director of the Ray C. Bliss Institute of Applied Politics (1987) B.A., University of Colorado; Ph.D., Cornell University, 1983.
- PURUSHOTTAM DAS GUJRATI, Interim Department Chair and Professor of Physics; Professor of Polymer Science (1983) B.S., Banaras Hindu University, India; M.S., Indian Institute of Technology, India; M.A., M.S., Ph.D., Columbia University, 1978.
- VIRGINIA L. GUNN, School Director and Professor of Family and Consumer Sciences (1974) B.S., Kansas State University; M.S., Syracuse University; Ph.D., The University of Akron, 1992.
- DESALE HABTZGHI, Assistant Professor of Statistics (2008) B.S., University of Asmara; M.S., Southern Illinois University: Ph.D., The University of Georgia, 2006.
- ALI HAJJAFAR, Professor of Mathematics (1984) B.S., M.S., University for Teacher Education in Tehran, Iran; M.S., Ph.D., Michigan State University, 1984.
- STEPHEN F. HALLAM, Professor of Management (1995) B.S., M.S., Illinois State University; Ph.D., University of Iowa, 1974.
- TERRY L. HALLETT, Associate Professor of Speech-Language Pathology and Audiology (2000) B.S., M.A., Kent State University; Ph.D., Pennsylvania State University, 1994.
- MARIA HAMDANI, Assistant Professor of Management (2012) B.S., University of Engineering and Technology Pakistan; M.B.A., Lahore University of Management Sciences; Ph.D., University of Oklahoma, 2011.
- GARY R. HAMED, Professor of Polymer Science (1980) B.S.C.E., M.S.C.E., Cornell University; Ph.D., The University of Akron, 1978.
- DENA E. HANLEY, Associate Professor of Political Science (2002) B.S., University of Louisville; M.S., Ph.D., University of Cincinnati, 2002.
- SUSAN C. HANLON, Associate Professor of Management; Fitzgerald Institute Fellow, Entrepreneurship (January 1990) B.A., Grove City College; M.B.A., Kent State University; D.B.A., Memphis State University, 1989.
- JAMES K. HARDY, Professor of Chemistry (1981) B.S., Cumberland College; Ph.D., Louisiana State University, 1981.
- SUBRAMANIYA I. HARIHARAN, Professor of Applied Mathematics; Professor of Electrical and Computer Engineering; Coordinator, Engineering Management Program (1985) B.Sc., University of Sri Lanka; M.Sc., University of Salford, England; M.S., Ph.D., Carnegie-Mellon University, 1980.
- GEORGE K. HARITOS, Dean of the College of Engineering; Professor of Mechanical Engineering (January 2003) B.S., M.S., University of Illinois–Chicago Circle; Ph.D., Northwestern University, 1978.
- STEPHEN L. HARP, Professor of History; Director, World Civilizations (1993) B.A., Manchester College; M.A., Ph.D., Indiana University, 1993.
- TOM T. HARTLEY, Professor of Electrical and Computer Engineering (1984) B.A., B.S.E.E., Ohio Northern University; M.S., Ph.D., Vanderbilt University, 1984.
- ANN HASSENPFLUG, Professor of Education (1997) B.A., University of Louisville; M.A., Leicester Junior College; M.S., Ph.D., University of Wisconsin, 1981.
- WILLIAM J. HAUSER, Interim Assistant Dean and Director of Graduate Programs in Business; Associate Professor of Marketing; Director, Taylor Institute for Direct Marketing (2003) B.A., M.A., The University of Akron; Ph.D., Kent State University, 1979.
- DOUGLAS R. HAUSKNECHT, Associate Professor of Marketing and International Business; Assessment Officer (January 1986) B.S., M.B.A., Ph.D., University of Florida, 1988.
- HENDRIK HEINZ, Associate Professor of Polymer Engineering (2006) B.S., University of Heidelberg; M.S., Ph.D., ETH Zurich, 2003.
- JOHN A. HEMINGER, Associate Professor of Applied Mathematics (1984) B.S., University of Cincinnati; M.S., Ph.D., Purdue University, 1974.
- V. DOUGLAS HICKS, Professor of Music (1989) B.M., University of Akron; M.M., University of Miami, 1975.
- PATRICIA S. HILL, Associate Professor of Communication (1999) A.A., Cuyahoga Community College; B.A., M.A., Cleveland State University; Ph.D., Bowling Green State University, 1998.
- WALTER L. HIXSON, Distinguished Professor of History (1989) B.A., University of Kentucky; M.A., Western Kentucky University; Ph.D., University of Colorado, 1986.
- JAMES H. HOLDA, Associate Professor of Biology (1987) B.S., University of Michigan at Dearborn; Ph.D., Wayne State University, 1982.
- GARY M. HOLLIDAY, Assistant Professor of Science Education (2012) B.A., Boston College; M.A., M.Ed., Lesley University; Ph.D., Illinois Institute of Technology, 2011.
- MICHELLE S. HOO FATT, Professor of Mechanical Engineering (1996) B.S., M.S., Ph.D., Massachusetts Institute of Technology, 1992.
- MELISSA A. HORN, Assistant Professor of Nursing (2011) B.S.N., University of Akron; M.S.N., Ph.D., Case Western Reserve University, 2011.
- K. TODD HOUSTON, Associate Professor of Speech-Language Pathology (2012) M.S.P., Ph.D., University of South Carolina, 1999.
- TRAVIS M.R. HRENO, Associate Professor of Philosophy (2007) B.A., University of Manitoba; M.A., Dalhousie University; Ph.D., University of Western Ontario, 2003.
- JUN HU, Associate Professor of Chemistry (1999) B.S., Fudan University; M.S., Shanghai Institute of Organic Chemistry; M.S., West Virginia University; Ph.D. Purdue University, 1997.
- YU-KUANG HU, Professor of Physics (199) B.A. Swarthmore College; M.S., Ph.D., Cornell University, 1990.
- QINDAN HUANG, Assistant Professor of Civil Engineering (2012) B.S. Tongji University; M.S., University of Toledo; Ph.D., Texas A&M University, 2010.
- SANDRA L. HUDAK, Associate Professor of Nutrition and Dietetics; Interim Director of the School of Nutrition and Dietetics (2000) B.S., Pennsylvania State University; M.S., Ph.D., The University of Akron, 2006.

- RMARLENE S. HUFF, Professor of Nursing; Coordinator of Education Progression and Graduate Programs (1984) M.S.N., The University of Akron; Ph.D., Case Western Reserve University, 1991.
 ROBERT J. HUFF, Professor of Art; Director, School of Art (1980) B.F.A., The University of Akron; M.F.A., The Ohio State University, 1980.
- JOHN HUSS, Associate Professor of Philosophy (2007) B.S., Beloit College; M.S., Ph.D., The University of Chicago, 2004.
- NATHAN IDA, Distinguished Professor of Electrical and Computer Engineering (January 1985) B.Sc.E.E., M.Sc.E.E., Ben-Gurion University of the Negev; Ph.D., Colorado State University, 1983.
- AVRAAM I. ISAYEV, Distinguished Professor of Polymer Engineering (1983) M.Sc., Azerbaijan Institute of Oil and Chemistry; M.Sc., Moscow Institute of Electronic Machine Building; Ph.D., USSR Academy of Sciences, 1970.
- NAVEEN KUMAR JAIN, Assistant Professor of Marketing and International Business (January 2010) B.S., Delhi University; M.B.A., Indian Institute of Management; Ph.D., Florida InternationI University, 2009.

SADHAN C. JANA, Professor of Polymer Engineering (1998) Ph.D., Northwestern University, 1993.
TEENA JENNINGS-RENTENAAR, Professor of Family and Consumer Sciences (2001) B.A., Queen's University, Canada; M.S., University of Alberta; Ph.D., The Ohio State University 2005.

- Queen's University, Canada; M.S., University of Alberta; Ph.D., The Ohio State University 2005.
 QETLER JENSRUD, Associate Professor of Education (1997) B.A., St. Cloud State College; Ph.D., University of Minnesota, 1995.
- LI JIA, Associate Professor of Polymer Science (2007) B.S., Lanzhou University; Ph.D., Northwesterr University 1996.
- DAWN JOHNSON, Associate Professor of Psychology (2008) B.A., Denison University; M.S., Manera University; Ph.D., University of Kentucky, 2001.
- KRISTINA B. JONES, Professor of Music (2009) B.M., University of Georgia; M.M., D.M., Michigan State University, 1994.
- KARIN B. JORDAN, Professor of Education; Department Chair of Counseling (2007) B.A., Colorado Christian College; M.A., Rollins College; Ph.D., University of Georgia, 1992.
- ABRAHAM JOY, Assistant Professor of Polymer Science (April 2010) B.S., University of Poona; M.Sc., University of Hyderabad; Ph.D., Tulane University, 2000.
- LU-KWANG JU, Professor of Chemical and Biomolecular Engineering; Department Chair of Chemical and Biomolecular Engineering (1990) B.S., National Taiwan University; M.S., Ph.D., State University of New York at Buffalo, 1988.
- JUDITH A. JUVANCIC-HELTZEL, Assistant Professor of Education; Fellow, Institute for Life-Span Development and Gerontology (2009) B.S., M.A., Ph.D., Kent State University, 2010.
- DOUGLAS R. KAHL, Professor of Finance and International Business (1989) B.A., University of North Dakota; M.A., M.S., Ph.D., University of Iowa, 1981.
- KARL C. KALTENTHALER, Professor of Political Science; Fellow, Ray C. Bliss Institute of Political Science (2005) B.A., M.A., The University of Akron; Ph.D., Washington University, 1995.
- EUNSU KANG, Assistant Professor of Art (2009) B.F. A., M.F.A., Ewha Women's University; M.A., University of California at Santa Barbara; Ph.D., University of Washington, 2010.
- ALAMGIR KARIM, The Goodyear Tire and Rubber Company Professor of Polymer Engineering; Holder, Goodyear Chair in Polymer Engineering (November 2008) B.S., St. Stephens College; Ph.D., Northwestern University, 1991.
- GALEN S. KARRIKER, Associate Professor of Music; Assistant Director, University Bands; Director, Marching Band (1999) B.M., Louisiana State University-New Orleans; M.M., Michigan State University, 1994.
- KEVIN P. KAUT, Associate Professor of Psychology; Fellow, Intitute for Life-Span Development and Gerontology (2000) B.A.,M.A.,The University of Akron; Ph.D., Kent State University, 1999.
- S. GRAHAM KELLY III, Associate Professor of Mechanical Engineering (1992) B.S., M.S., Ph.D., The Virginia Polytechnic Institute and State University, 1979.
- MARY AGNES KENDRA, Associate Professor of Nursing (1998) B.S.N., St. John College of Cleveland; M.S.N., Case Western Reserve University; Ph.D., Kent State University, 1990.
- KEVIN F. KERN, Associate Professor of History (2001) B.A., M.A., Kent State University; M.A., Ph.D., Bowling Green State University, 1997.
- LORI I. KIDD, Assistant Professor of Nursing (1998) B.S.N., The University of Akron; M.S.N., Ph.D., Case Western Reserve University, 2010.
- IL-WOON KIM, Professor of Accounting and International Business; Associate Director, Institute for Global Business (1986) B.B.A., Yonsei University; M.B.A., Arizona State University; Ph.D., University of Nebraska, 1985.
- JANET KLEIN, Associate Professor of History (2005) B.A., Montana State University; M.A., Ph.D. Princeton University, 2002.
- LYNN S. KLINE, Associate Professor of Education (2003) B.S., The Ohio State University; M.Ed., Youngstown State University; Ph.D., Cleveland State University, 2002.
- MONA L. KLINGLER, Associate Professor of Speech-Language Pathology and Audiology; Fellow, Institute for Life-Span Development and Gerontology (1985) B.A., M.A., The University of Akron; Au.D., Arizona State University, 2002.
- MATTHEW KOLODZIEJ, Professor of Art (2001) B.A., University of Chicago; M.A., Rhode Island School of Design, 1993.
- ALAN S. KORNSPAN, Associate Professor of Education (2000) B.A., Ohio State University; M.S, Michigan State University; Ed.D., West Virginia University, 1997.
- KRISTIN L. KOSKEY, Assistant Professor of Education (2009) B.S., Baldwin Wallace College; M.S., Michigan State University; Ed.D., West Virginia University, 1997.
- RAOUTH KOSTANDY, Assistant Professor of Nursing (2007) B.S.N., M.S.N., Assuit University; Ph.D., Case Western Reserve University, 2005.
- KEVIN KREIDER, Professor of Applied Mathematics; Professor of Civil Engineering (1989) B.A., Wittenberg University; M.S., Ph.D., Purdue University, 1986.
- MARYHELEN C. KREIDLER, Professor of Nursing (1985) B.S., St. John College; M.A., M.S., Ed.D., Columbia University, 1978.
- RAVI KROVI, Dean of the College of Business Administration; Professor of Management and Information Systems (1999) B.E., University of Baroda; M.S., Ph.D., Memphis State University, 1993.
- SHARON D. KRUSE, Professor of Education; Interim Department Chair of Educational Foundations and Leadership (1995) B.A., Western Washington State College; M.Ed., Seattle Pacific College; Ph.D., University of Minnesota at Minneapolis-St. Paul, 1995.
- SUSAN KUSHNER BENSON, Associate Professor of Education (1994) B.S., Ohio University; M.A., John Carroll University; Ph.D., University of South Florida, 1995.
- THEIN KYU, Distinguished Professor of Polymer Engineering (1983) B.Eng., Kyoto Institute of Technology; M.Eng., D.Eng., Kyoto University, 1980.
- LAURIE J. LAFFERTY, Professor of Music (1996) B.M., Baldwin Wallace College; M.M., Youngstown State University; Ph.D., Kent State University, 2001.
- WILLIAM J. LANDIS, Professor of Polymer Science; G. Stafford Whitby Chair in Polymer Science (April 2010) B.S., University of Massachusetts; M.S., Ph.D., Massachusetts Institute of Technology, 1972.

LAURIE E. LASHBROOK, Associate Professor of Music (2004) B.M., Yankton College; M.M., Boston Conservatory of Music; Ph.D., University of Nebraska, 2004.

PETER J. LAVRENTYEV, Professor of Biology (1998) M.S., Russian State Pedagogical University; Ph.D., Russian Academy of Sciences, 1991.

- KYE-SHIN LEE, Assistant Professor of Electrical and Computer Engineering (January 2010) B.S., Korea University; M.S., Texas A&M University; Ph.D., University of Texas at Dallas, 2005.
- MATTHEW T. LEE, Professor of Sociology; Department Chair of Sociology (2000) B.A., Kent State University; M.A., Ph.D., University of Delaware, 2000.
- SEUNGBUM LEE, Assistant Professor of Education (2008) B.A., Korea University; M.A., Indiana State University; Ph.D., University of Minnesota at Minneapolis-St. Paul, 2008.
- THOMAS C. LEEPER, Assistant Professor of Chemistry (2009) B.S., Truman State University; Ph.D., University of Missouri, 2001.
- NIC D. LEIPZIG, Robert Iredell Professor of Chemical Engineering (2009) B.E., McGill University; Ph.D., Rice University, 2006.
- LISA A. LENHART, Professor of Education; Project Director, Reading First; Director, Center for Literacy (1998) B.S., Bowling Green State University; M.Ed., John Carroll University; Ph.D., Kent State University, 2000.
- ARKADY I. LEONOV, Professor of Polymer Engineering (1988) B.S., Moscow Institute of Chemical Engineering; M.S., Moscow State University; Ph.D., USSR Academy of Sciences; Ph.D., Karpov Physico-Chemical Research Institute, Moscow USSR, 1969.
- SHARON A. LESNER, Professor of Speech-Language Pathology and Audiology; Fellow, Institute for-Life-Span Development and Gerontology (1979) B.A., Hiram College; M.A., Kent State University; M.A., Wayne State University; Ph.D., The Ohio State University, 1979.
- RONALD F. LEVANT, Professor of Psychology; Fellow, Institute for Life-Span Development and Gerontology (2005) B.A., University of California-Berkley; Ed.D., Harvard University; Ph.D., M.B.A., Boston University, 1987.
- MICHAEL J. LEVIN, Associate Professor of History ; Director, World Civilization (1999) B.A., Vasser College; M.A., Ph.D., Yale University, 1997.
- PAUL E. LEVY, Professor of Psychology; Department Chair of Psychology; Associate Director, Center for Organizational Research; Fellow, Institute for Life-Span Development and Gerontology (1989) B.A., Washington and Lee University; M.S., Ph.D., Virginia Polytechnic Institute and State University, 1989.
- HUEY-LI LI, Professor of Education (1995) B.A., National Taiwan University; M.S., astern Illinois University; M.A., Southern Illinois University; Ph.D., University of Illinois at Urbana, 1994.
- PETER K. LI, Associate Professor of Social Work (1995) B.S., Mount Allison University; M.S. W., University of Hong Kong; D.S.W., Columbia University, 1988.
- ROBERT LIANG, Professor of Civil Engineering (1985) B.S., Tamkang University; M.S., North Carolina State University; Ph.D., University of California at Berkley, 1985.
- XIN LIANG, Professor of Education (2002) B.A., Xin Jiang University; M.Ed., Mount Saint Vincent University; Ph.D., University of North Dakota, 2002.
- TIMOTHY H. LILLIE, Associate Professor of Education; Fellow, Institute for Life-Span Development and Gerontology (1996) A.B., Lafayette College; M.A., Ph.D., University of North Carolina, 1991.
- YOUNG Y. LIN, Professor of Communication; Director, Confucius Institute (1997) B.S., Peking University; M.A., Ph.D., University of Oklahoma, 1997.
- KATHY J. LISZKA, Professor of Computer Science (1993) B.A., Thiel College; M.S., Ph.D., Kent State University, 1992.
- LINGYUN LIU, Assistant Professor of Chemical and Biomolecular Engineering (2007) B.S., M.S., Southeast University; Ph.D., University of Washington, 2007.
- LIPING LIU, Professor of Management and Information Systems (2001) B.S., M.S., Huazhong University; B.E., Wuhan University; Ph.D., University of Kansas, 1995.
- PEI-YANG LIU, Assistant Professor Nutrition and Dietetics (2011) B.S., M.S., Taipei Medical University; Ph.D., Florida State University, 2010.
- QIN LIU, Professor of Biology (2000) B.S., Huazhong Agricultural University; M.S., Ph.D., University of Kentucky, 1994.
- JOSEPH P. LIVECCHI, Associate Professor of Philosophy (2005) B.A., University of California; M.A., Columbia University; B.A., Ph.D., Pontifical University of St. Thomas Aquinas, 2005.
- RICHARD L. LONDRAVILLE, Professor of Biology (1996) B.S., Long Island University of Southampton Center; M.S., Ph.D., University of Maine at Orono, 1994.
- FRANCIS LOTH, F. Theodore Harrington Endowed Associate Professor of Mechanical Engineering (January 2008) B.S., West Virginia University; M.S., University of Cincinnati; M.S., Ph.D., Georgia Institute of Technology, 1993.
- THERESE L. LUECK, Professor of Communication (1989) A.A., B.A., Thomas More College; M.A., Ph.D., Bowling Green State University, 1989.
- JUTTA LUETTMER-STRATHMANN, Associate Professor of Physics; Associate Professor of Chemistry (1998) Ph.D., University of Maryland, 1994.
- WILLIAM T. LYONS, Professor of Political Science; Director of the Center for Conflict Management (1996) B.A., University of Massachusetts; M.A.L.D., Tufts University; Ph.D., University of Washington, 1995.
- SERGEI F. LYUKSYUTOV, Professor of Physics; Associate Professor of Chemistry (2000) M.S., Moscow Institute of Physics and Technology; Ph.D., Academy of Science, 1991.
- MARY JO MACCRACKEN, Professor of Physical and Health Education (1968) B.A., College of Wooster; M.A., The University of Akron; Ph.D., Kent State University, 1980.
- SUZANNE C. MacDONALD, Professor of Education (1989) B.S., Otterbein College; M.A., California State University at Los Angeles; Ed.D., University of Hawaii, 1987.
- HABARAKADA MADANAYAKE, Assistant Professor of Electrical and Computer Engineering (December 2009) B.S., University of Moratuwa; M.S., Ph.D., University of Calgary, 2008.
- BRAD M. MAGUTH Assistant Professor of Education (2011) B.A., Hiram College; M.A., Teachers College: Columbia University; Ph.D., The Ohio State University, 2009.
- AJAY MAHAJAN, Associate Dean of Research; Professor of Mechanical Engineering (2009) B.E., University of Roorkee; M.S., Ph.D., Tulane University of Louisiana, 1994.
- NIDAA MAKKI, Assistant Professor of Education (2008) B.S., American University of Beirut; M.Ed., Ph.D., Kent State University, 2008.
- ROBERT R. MALLIK, Professor of Physics; Professor of Chemistry (1988) B.S., Ph.D., Leicester Polytechnic, 1985.
- DEBORAH D. MARINO, Associate Professor of Nutrition and Dietetics (1994) B.S., Saint Mary's College; M.S., Drexel University; M.S., Ph.D., University of California at Berkeley, 1983; R.D., Illinois.
- NANCY E. MARION, Professor of Political Science (August 1990) B.S., Pennsylvania State University; M.S., American University; M.A., Ph.D., State University of New York at Binghamton, 1990.
- JOHN F. MATEJKOVIC, Associate Professor of Business Law (2000) B.A., J.D., The University of Akron, 1979.
- TIMOTHY C. MATNEY, Professor of Archaeology (2001) B.A., University of London; M.A., Ph.D., University of Pennsylvania, 1993.

- TIMOTHY McCARRAGHER, Associate Professor of Social Work; Director, School of Social Work (2000) B.A., Pontifical College Josephinum; STB., STL., Pontifica Universita Gregoriana; MSW, Cleveland State University, 1997.
- WILLIAM K. MCHENRY, Associate Professor of Management (2000) B.S.E., Princeton University; M.S., University of Virginia; Ph.D., University of Arizona, 1985.
- JAMES T. McHUGH, Professor of Political Science; Ray C. Bliss Institute of Applied Politics (2009) B.A., University of Vermont; M.A., University of Vermont; M.A., University of Edinburgh; Ph.D., Queens College, 1991.
- CRAIG C. MENZEMER, Professor of Civil Engineering; Associate Dean of Graduate Studies and Administration (1996) B.S., M.S., Ph.D., Lehigh University, 1992.
- CHAND MIDHA, Dean of the Buchtel College of Arts and Sciences; Professor of Statistics; Associate Provost for Academics and Financial Affairs; Bachelor of Science/Doctor of Medicine Liaison (1983) M.S., Indian Agricultural Research Institute; Ph.D., Iowa State University, 1980.
- ADEL A. MIGID-HAMZZA, Professor of Theatre Arts (1980) B.F.A., School of Dramatic Arts, Cairo; M.F.A., Ohio University, 1972.
- JENNIFER L. MILAM, Assistant Professor of Education (2009) B.S., Texas Tech University; M.Ed., Ph.D., Texas A&M University, 2008.
- CHRISTOPHER M. MILLER, Associate Professor of Civil Engineering; ABET Coordinator (1995) B.S., M.S., Ph.D., University of Iowa, 1995.
- JON S. MILLER, Associate Professor of English; Assistant Department Chair of English (2000) B.A., University of Delaware; Ph.D., University of Iowa, 2000.
- AMY MILSTED, Professor of Biology (1993) B.S.Ed., The Ohio State University; Ph.D., City University of New York, 1977.
- RANDALL J. MITCHELL, Professor of Biology; Director, Field Station; Mary E. Glenny and Dr. H. Glenny Professor of Biology (1995) B.S., University of California; M.A., Ph.D., University of California-Riverside, 1991.
- GAURAV MITTAL, Assistant Professor of Mechanical Engineering (2008) B.T., M.T., Indian Institute of Technology, Ph.D., Case Western Reserve University, 2006.
- TOSHIKAZU MIYOSHI, Associate Professor of Polymer Science (2010) B.Sc., M.Sc., Hokkaido University, D.Sc., Kyoto University, 1997.
- DAVID A. MODARELLI, Professor of Chemistry (1997) B.A., College of Wooster; Ph.D., University of Massachusetts at Amherst, 1991.
- CHELSEA MONTY, Assistant Professor of Chemical and Biomolecular Engineering (2009) B.S., Carnegie Mellon University; M.S., Ph.D.,University of Illinois-Urbana, 2009.
- FRANCISCO B. MOORE, Professor of Biology (2001) B.S., M.S., Ph.D., Michigan State University, 1996.
- MEGAN MOORE GARDNER, Associate Professor of Education (2005) B.A., University of Dayton; M.S., Ph.D., Indiana University, 2003.
- GREGORY N. MORSCHER, Associate Professor of Mechanical Engineering (2009) B.S., The Ohio State University; M.S., Ph.D., Case Western Reserve University, 2000.
- RENEE MUDREY CAMINO, Associate Professor of Education (2005) B.A., M.Ed., Baldwin Wallace College; Ph.D., Cleveland State University, 2005.
- DALE H. MUGLER, Professor of Biomedical Engineering; Professor of Applied Mathematics; Dean of the Honors College (1989) B.A., University of Colorado; M.A., Ph.D., Northwestern University, 1974.
- DEBMALYA MUKHERJEE, Associate Professor of Management (2008) L.L.B., University of Calcutta; M.B.A., Ohio University; Ph.D., University of Memphis, 2008.
- CAROLYN J. MURROCK, Assistant Professor of Nursing (January 2009) B.S.N., M.S.N., The University of Akron; M.Ed., Cleveland State University; Ph.D., Case Western Reserve University, 2007.
- STEVEN C. MYERS, Associate Professor of Economics (1979) B.S., M.A., West Virginia University; M.A., Ph.D., The Ohio State University, 1980.
- MICHAEL A. NELSON, Professor of Economics (2000) B.A., University of Washington; Ph.D., Purdue University, 1981.
- BI-MIN ZHANG NEWBY, Associate Professor of Chemical and Biomolecular Engineering (2000) B.S., Drexel University; M.S., Ph.D., Lehigh University, 1999.
- GEORGE R. NEWKOME, Vice President for Research and Dean of the Graduate School; Professor of Chemistry; Professor of Polymer Science; James and Vanita Oelschlager Professor of Science and Technology; Intellectual Property Center Fellow (January 2001) B.S., Ph.D., Kent State University, 1966.
- MELINDA L. NEWMAN, Associate Professor of Finance (2000) B.S., Miami University; Ph.D., Michigan State University, 1999.
- EVANGELINE NEWTON, Professor of Education (1997) B.A., M.A., Washington University; Ph.D., Kent State University, 1992.
- HUNG NGOC NGUYEN, Assistant Professor of Mathematics (2010) B.S., Vietnam University; Ph.D., University of Florida, 2008.
- TRUYEN NGUYEN, Associate Professor of Applied Mathematics (2007) B.S., National University of Vietnam; M.A., Ph.D., Temple University, 2005.
- PETER H. NIEWIAROWSKI, Professor of Biology; Interim Director, Ph.D. Program in Integrated Bioscience (1995) B.S., Marlboro College; Ph.D., University of Pennsylvania, 1992.
- STACEY NOFZIGER, Associate Professor of Sociology (2003) B.A., Whitman College; M.A., Ph.D., University of Arizona, 1999.
- TIMOTHY S. NORFOLK, Professor of Mathematics; Interim Department Chair of Mathematics (January 1984) B.Sc., Exeter University (England); M.S., The University of Akron; Ph.D., Kent State University, 1984.
- HILLARY M. NUNN, Associate Professor of English (2002) B.A., Rhodes College; M.A., Ph.D., Michigan State University, 1999.
- EMEKA O. OFOBIKE, Associate Professor of Accounting (1989) B.B.A., M.B.A., Western Illinois University; Ph.D, University of Oregon, 1984.
- NAMKYUNG OH, Assistant Professor of Public Administration and Urban Studies (2010) B.A., M.P.A, Seoul National University, Korea; Ph.D., University of Pittsburgh, 2009.
- SUSAN J. OLSON, Associate Dean, External Programs, Grant, Budget, and Personnel; Professor of Education; Director, Online Learning (1989) B.S., M.Ed., Indiana University of Pennsylvania; Ph.D., Pennsylvania State University, 1989.
- TIMOTHY W. O'NEIL, Professor of Computer Science (2002) B.S., Clarion State College; M.S., M.S., The Ohio State University; Ph.D., The University of Notre Dame, 2002.
- LINDA ORR, Associate Professor of Marketing (2005) B.B.A., M.B.A., Middle Tennessee State University; Ph.D., University of Mississippi-med Center, 2005.
- RAMONA ORTEGA-LISTON, Associate Professor of Public Administration and Urban Studies (1999) A.A., Scottsdale Community College; B.S., Arizona State University; M.Ed., Harvard Graduate School; D.P.A., Arizona State University, 1998.

RUTH OSWALD, Professor of Education (2001) B.S., M.S., Ph.D., The University of Akron, 2000.BARBARA A. OSYK, Associate Professor of Management (1989) A.A., Cuyahoga Community College; B.S.I.M., M.B.A., The University of Akron; Ph.D., Kent State University, 1991.

- lege; B.S.I.M., M.B.A., The University of Akron; Ph.D., Kent State University, 1991..
 DONALD W. OTT, Professor of Biology (1974) B.S., Southeastern Louisiana University; Ph.D., University of North Carolina at Chapel Hill, 1973.
- RONALD OTTERSTETTER, Associate Professor of Education; Fellow, Institute for Life-Span Development and Gerontology (2004) B.S., Old Dominion University; M.S., George Washington University; Ph.D., Kent State University, 2004.
- DEBORAH L. OWENS, Associate Professor of Marketing and International Business (1996) B.S., Ohio University; M.S., Saint Joseph's College, Ph.D., Kent State University, 1997.
- LYNNE M. PACHNOWSKI, Professor of Education (1993) B.A., M.Ed., John Carroll University; Ph.D., Boston College, 1994.
- ARTHUR L. PALACAS, Professor of English (1976) B.A., Harvard University; Ph.D., Indiana University at Bloomington, 1970.
- ERNIAN PAN, Professor of Civil Engineering (2002) B.S., Lanzhou University; M.S., Bejing University, Ph.D., University of Colorado at Boulder, 1993.
- YI PANG, Professor of Chemistry; Research Associate of the Institute of Polymer Science (2005) B.S., Zhengzhou University; Ph.D., Iowa State University, 1990.
- LISA E. PARK BOUSH, Professor of Geology and Environmental Science; Professor of Biology (1995) B.A., College of Wooster; M.S., Ph.D., University of Arizona, 1995.
- SAILAJA PARUCHURI, Assistant Professor of Chemistry (2011) B.S., Nagarjuna University; M.S., University of Hyderabad; Ph.D., 2004.
- ANIL PATNAIK, Associate Professor of Civil Engineering (2007) B.S., National Institute of Technology; M.S., India Institute of Technology; Ph.D., University of Calgary, 1993.
- JOHN A. PECK, Professor of Geology and Environmental Science (2000) B.S., M.S., Ph.D., University of Rhode Island, 1995.
- ROBERT L. PERALTA, Associate Professor of Sociology (2004) B.A., University of New Mexico; M.A., Ph.D., University of Delaware, 2002.
- DAVID S. PERRY, Professor of Chemistry (January 1987) B.Sc., Ph.D., University of Toronto, 1975. ANNALISA VANDERWYDEN PICCORELLI, Assitant Professor of Physics (2011) B.A., Miami Uni-
- versity; Ph.D., M.S., Case Western Reserve University, 2010. VICTOR E. PINHEIRO, Professor of Physical and Health Education; Department Chair of Sport Sci-
- ence and Wellness Education (1989) B.S., M.S., Jiwaji University; Ph.D., University of Pittsburgh, 1989.
- VAL PIPPS, Assistant Professor of Communication (2008) B.A., M.A., University of Oklahoma; Ph.D., Syracuse University, 1985.
- ROBERT F. POPE, JR., Professor of English (1977) B.A., University of California at Berkeley; M.A., California State University, San Diego; M.F.A., University of Iowa, 1976.
- ALEX POVITSKY, Associate Professor of Mechanical Engineering (2003) B.S., M.S., Ph.D., Moscow Institute for Steel and Alloys, 1988.
- SANDRA SPICKARD PRETTYMAN, Associate Professor of Education (2002) B.A., University of Michigan; M.A., Eastern Michigan University, 1997.
- ROBIN PRICHARD, Assistant Professor of Dance (2009) B.F.A., State University of New York at Purchase; M.F.A., University of California, 2001.
- COLEEN PUGH, Interim Department Chair and Professor of Polymer Science (1998) B.A., B.S., University of California; M.S., Ph.D., Case Western Reserve University, 1990.
- JUDIT E. PUSKAS, Professor of Chemical and Biomolecular Engineering; Professor of Polymer Science (2004) Diploma of Organic and Biochemical Engineering (master's degree); Ph.D., Technical University of Budapest; Ph.D., Hungarian Academy of Sciences, 1990.
- JOHN E. QUEENER, Professor of Education; Co-Training Director, Collaborative Program in Counseling Psychology (January 1996) B.A., College of Wooster; M.A., The Ohio State University; Ph.D., The University of Akron, 1995.
- ANTONIO R. QUESADA, Professor of Mathematics (1984) M.S., Ph.D., University of Florida, 1978.
- D. DANE QUINN, Professor of Mechanical Engineering (1995) B.M.E., Georgia Institute of Technology; Ph.D., Cornell University, 1995.
- HARRIDUTT RAMCHARRAN, Professor of Finance and International Business (1986) B.S., Mankato State College; M.A., Ph.D., State University of New York at Binghamton, 1978.
- ROLANDO J. RAMIREZ, Associate Professor of Biology (2006) B.A., Ph.D., West Virginia University, 1997.
- SUSAN E. RAMLO, Professor of Curricular and Instructional Studies; Professor of General Technology (1994) B.S., Mount Union College; M.S., Miami University; Ph.D., The University of Akron, 2003.
- REX D. RAMSIER, Vice Provost of Academic Operations; Professor of Physics; Professor of Chemistry (1996) B.S., M.S., The University of Akron; Ph.D., University of Pittsburgh, 1994.
- ANDREW S. RANCER, Professor of Communication (August 1991) B.A., M.A., Queens College; Ph.D. Kent State University, 1979.
- NARENDER P. REDDY, Professor of Biomedical Engineering (March 1981) B.E., Osmania University; M.S., University of Mississippi; Ph.D., Texas A & M University, 1974.
- DARRELL H. RENEKER, Professor of Polymer Science (1989) B.Sc., Iowa State University; M.Sc., Ph.D., University of Chicago, 1959.
- FRANCESCO RENNA, Associate Professor of Economics (2002) B.A., Universita Cattolica Saro Cuore; M.A., Ph.D., University of Arizona, 2002.
- NIKOLA RESANOVIC, Professor of Music (1983) B.M., M.M., The University of Akron; D.M.A., Cleveland Institute of Music, 1981.
- ROSE M. RESLER, Assistant Professor of Child Life (2002) B.A., M.A., The University of Akron, 1994.
- CYNTHIA A. REYNOLDS, Professor of Education (1996) B.S., M.Ed., Ph.D., Kent State University, 1996.
 HELEN W. RICHTER, Professor of Chemistry (1984) B.A., The Woman's College of Georgia; M.S.,
- Ph.D., The Ohio State University, 1974.
- JEFFREY M. RIEDL, Associate Professor of Mathematics (2001) B.S., Marquette University; Ph.D., University of Wisconsin-Madison, 1998.
- TRACY A. RILEY, Associate Professor of Nursing (2009) B.S.N., Walsh University; M.S.N., Case Western Reserve University; Ph.D., University of Pittsburgh, 1999.
- PETER L. RINALDI, Professor of Chemistry; Director, Magnetic Resonance Center (May 1987) B.S., Polytechnic Institute of New York; Ph.D., University of Illinois, 1978.
- DAVID RITCHEY, Professor of Communication (August 1990) B.A., Georgetown College; M.A., Ph.D., Louisiana State University, 1971.
- DAVID ROKE, Assistant Professor of Civil Engineering (2011) B.E., M.S., University of Pittsburgh; Ph.D., Lehigh University, 2010.

- KATHLEEN ROSS-ALAOLMOLKI, Associate Dean of Undergraduate Programs and Innovations in Nursing; Professor of Nursing (1990) B.S.N, College of Mount St. Joseph; M.S.N., Ph.D., Case Western Reserve University, 1985.
- NITA SAHAI, Professor of Polymer Science (2011) M.S., University of Rochester; Ph.D., Johns Hopkins University (1997).
- PRISCILLA K. SAKEZLES, Professor of Philosophy; Department Chair of Philosophy (1995) B.A., M.A., University of South Florida; Ph.D., Florida State University, 1993.
- ATEF F. SALEEB, Professor of Civil Engineering (1983) B.Sc., Cairo University; M.Sc., Ph.D., Purdue University, 1981.
- LINDA M. SALIGA, Associate Professor of Mathematics (1993) B.S.E., Missouri Western State College; M.S., Ph.D., University of Missouri-Rolla, 1993.
- ANTHONY SAMANGY, Assistant Professor of Art (2011) B.F.A., M.A., Kent State University, 2003.
- EROL SANCAKTAR, Professor of Polymer Engineering; Professor of Mechanical Engineering (January 1996) B.S., Robert College, Istanbul; M.S., Ph.D., Virginia Polytechnic Institute and State University, 1979.
- VARUNEE F. SANGGANJANAVANICH, Assistant Professor of Education (2010) B.S.W., Thammasat University; M.S., Chulalongkorn University; Ph.D., University of Northern Colorado, 2008.
- MARTHA S. SANTOS, Associate Professor of History (2006) B.A., State University of New York; M.A., Ph.D., University of Arizona, 2004.
- NEIL B. SAPIENZA, Interim Dean of Wayne College; Professor of Art (1987) B.F.A., Ohio University; M.S., Brooks Institute at Santa Barbara, 1987.
- IRA D. SASOWSKY, Professor of Geology and Environmental Science; Director, Environmental Studies (1995) B.S., University of Delaware; M.S., Ph.D., Pennsylvania State University, 1992.
- SHIVAKUMAR SASTRY, Associate Professor of Electrical and Computer Engineering; Associate Professor of Mechanical Engineering (2002) B.E., Bangalore University; M.S., Indian Institute of Sciences; M.S., University of Central Florida; Ph.D., Case Western Reserve University, 1996.
- MARNIE SAUNDERS, Associate Professor of Biomedical Engineering (2010) B.S., M.S., Ph.D., The University of Akron, 1998.
- JOHN R. SAVERY, Professor of Education; Director Instructional Services (2000) B.Ed., M.Ed., University of Calgary; Ph.D., Indiana University, 1998.
- SCOTT D. SAWYER, Associate Professor of Mechanical Engineering (1998) B.S.M.E., Milwaukee School of Engineering; M.S.M.E., Ph.D., Purdue University, 1997.
- JOHN A. SCHANTZ, Professor of Music (2000) B.M., M.M., The University of Akron, 1998.
- WILLIAM H. SCHNEIDER, IV, Associate Professor of Civil Engineering; ABET Coordinator (2006) B.S., M.S., Ph.D., Purdue University, 2003.
- MICHAEL SCHULDINER, Professor of English (2008) B.A., Goddard College; M.Phil., University of Cambridge; Ph.D., Kent State University, 1979.
- PAMELA ANN SCHULZE, Professor of Family and Consumer Sciences; Fellow, Institute for Life-Span Development and Gerontology (2000) B.A., Southeastern LA University; M.A., Ph.D., University of Connecticut, 2000.
- ROBERT C. SCHWARTZ, Professor of Education (2000) B.S., M.Ed., Ed.S., Ph.D., University of Florida, 1997.
- CAROL J. SCOTTO, Associate Professor of Nursing (January 2006) B.S.N, M.S.N. The University of Akron; Ph.D., Duquesne University, 2003.
- JOHN M. SENKO, Assistant Professor of Geology and Environmental Science; Assistant Professor of Biology (2008) B.S., St. Vincent College; M.S., Duquesne University; Ph.D., University of Oklahoma, 2004.
- KALLOL SETT, Assistant Professor of Civil Engineering (2009) B.E., Jadavpur University; M.E., University of Houston; Ph.D., University of California at Davis, 2007.
- LINDA SHANKS, Associate Professor of Nursing (2000) B.A., Baldwin Wallace College; D.N.S., M.S.N., Case Western Reserve University, 1989.
- MATTHEW D. SHAWKEY, Associate Professor of Biology (January 2008) B.A., Wesleyan University; M.S., University of South Florida; Ph.D., Auburn University, 2005.
- MICHAEL M. SHENG, Professor of History (2008) B.A., Shanghai Normal University; M.A., University of New Brunswick; Ph.D., York University, 1992.
- MIKE SHERMAN, Senior Vice President and Provost/Chief Operating Officer; Professor of Education (2010) M.S., Ball State University; B.S., Ph.D., Ohio University, 1984.
- MARK D. SHERMIS, Professor of Education (2009) B.A., University of Kansas; M.A., Ph.D., University of Michigan, 1982.
 - MICHAEL SHOTT, Professor of Archaeology; Department Chair of Anthropology and Classics (2006) B.A., University of Massachusetts; M.A., Ph.D., University of Michigan, 1986.
 - SHERRY A. SIMMS, Associate Professor of Art (2001) B.F.A., The University of Akron; M.F.A., State University of New York-New Paltz, 1998.
 - JAMES R. SLOWIAK, Professor of Theatre Arts (1989) B.A., Macalester College; M.F.A., University of California-Irvine, 1985.
 - FREDERICK T. SMITH, Professor of Dance (1990) B.A., University of Colorado; M.F.A., University of California-Irvine, 1990.
 - PRISCILLA R. SMITH, Assistant Professor of Social Work (1995) A.B., Indiana University; M.S.W., Washington University; Ph.D., St. Louis University, 1988.
 - LYNN A. SMOLEN, Professor of Education (1981) B.A., American University; M.Ed., Ph.D., University of Florida, 1981.
 - ANDREA F. SNELL, Associate Professor of Psychology (1994) B.A., Agnes Scott College; M.S., Georgia Institute of Technology; Ph.D., The University of Akron, 1995.
 - LARRY D. SNIDER, Professor of Music (1977) B.S., Illinois State University; M.M.E., North Texas University; D.M.A., University of Illinois, 1983.
 - MARK E. SOPPELAND, Distinguished Professor of Art (1976) B.F.A., University of Colorado; M.F.A., The Ohio State University, 1976.
 - ERIC SOTNAK, Associate Professor of Philosophy (1995) B.A., Gustavus Adolphus College; M.A., University of Wisconsin; Ph.D., University of Rochester, 1994.
 - MARK D. SOUCEK, Professor of Polymer Engineering; Professor of Chemistry (2001) B.S., Eastern Illinois University; M.S., Illinois State University; Ph.D., University of Texas, 1990.
 - YILMAZ SOZER, Assistant Professor of Electrical and Computer Engineering (2000) B.S., Middle East Technical University; M.S., Ph.D., Rensselaer Polytechnic Institute, 2000.
 - SUZETTE L. SPEIGHT, Associate Professor of Psychology (2008) Ph.D., The Ohio State University, 1990.
- MARIA A. SPENCE, Assistant Professor of Social Work (2008) B.A., Norfolk State College; M.S., Ph.D., The Ohio State University, 2000.
- JAMES C. SPERLING, Professor of Political Science (1988) B.A., University of California at Santa Barbara; M.A., Johns Hopkins University; Ph.D., University of California at Santa Barbara, 1986.
- JULIA A. SPIKER, Associate Professor of Communication (1999) B.A., John Carroll University; M.S., University of Southwestern Louisiana; Ph.D., University of Oklahoma, 1998.

- MAHESH SRINIVASAN, Assistant Professor of Management (2007) B.S., University of Pune; M.S., Ph.D., The Pennsylvania State University; Ph.D., 2007.
- PRASHANT SRIVASTAVA, Assistant Professor of Marketing (2006) B.S., University of Bombay; M.B.A., Ph.D., Okhlahoma State University, 2006.
- TIRUMALAI S. SRIVATSAN, Professor of Mechanical Engineering; ABET Coordinator (1987) B.E., University of Bangalore; M.S., Ph.D., Georgia Institute of Technology, 1984.
- DAVID N. STEER, Professor of Geology and Environmental Science (1999) B.S., United States Military Academy; M.S., Ph.D., Cornell University, 1996.
- JAMES STEIGER, Professor of Speech-Language Pathology and Audiology; Fellow, Institute for Life-Span Development and Gerontology (2006) B.A., M.A., Michigan State University; Ph.D., Kent State University, 1991.
- RICHARD P. STEINER, Professor of Statistics (1983) B.S., Grove City College; M.S., Clarion State College; M.P.H., Ph.D., University of Michigan, 1985.
- HARVEY L. STERNS, Professor of Psychology; Director and Senior Fellow of the Institute for Life-Span Development and Gerontology (1971) B.A., Bard College; M.A., State University of New York at Buffalo; Ph.D., West Virginia University, 1971.
- DENISE H. STUART, Professor of Education (2001) B.A., M.Ed., Ph.D., Kent State University, 1999.
- LINDA M. SUBICH, Associate Dean of the Buchtel College of Arts and Sciences; Professor of Psychology; Fellow, Institute for Life-Span Development and Gerontology (1981) B.S., University of Wisconsin at Milwaukee; M.A., Ph.D., The Ohio State University, 1981.
- LANCE M. SVEHLA, Associate Professor of English (1997) B.A., University of Nebraska; M.A., Ph.D., University of New Hampshire, 1997.
- BAFFOUR K. TAKYI, Professor of Sociology (1997) B.A., University of Ghana; M.A., Ph.D., SUNY State University, 1993.
- TANG TANG, Assistant Professor of Communication (2010) B.A., Communication University of China; M.A., San Diego State University; Ph.D., Ohio University, 2008.
- MICHAEL J. TASCHNER, Interim Department Chair and Professor of Chemistry (1982) B.S., University of Wisconsin; Ph.D., Iowa State University, 1980.
- MARK B. TAUSIG, Associate Dean of the Graduate School; Professor of Sociology (1983) B.A., University of Wisconsin; M.A., Cornell University; Ph.D., State University of New York at Albany, 1979.
- HOSSEIN TAVANA, Assistant Professor of Biomedical Engineering (2010) B.A.Sc., Tabriz University; M.A.Sc., K.N. Toosi University of Technology, Teheran; Ph.D., University of Toronto, 2006.
- CLAIRE A. TESSIER, Professor of Chemistry (August 1990) B.S., University of Vermont; Ph.D., State University of New York at Buffalo, 1982.
- WILLIAM THELIN, Department Chair and Professor of English (2001) B.A., M.A., California State University; Ph.D., Indiana University of Pennsylvania, 1997.
- ANDREW ROBERT THOMAS, Associate Professor of Marketing and International Business (2006) B.A., M.A., The University of Akron; Ph.D., Academy of Economical Studies, 2008.
- PHILIP THOMSON, Associate Professor of Music (1994) B.M., University of Toronto; M.M., The Julliard School. 1980.
- DAVID M. TOKAR, Professor of Psychology (1993) B.A., The University of Akron; M.A., Ph.D., Southern Illinois University at Carbondale, 1993.
- BROOKS TOLIVER, Professor of Music (1995) B.A.M, M.A.M., Ph.D., University of California at Los Angeles, 1994.
- HUU NGHI TRAN, Assistant Professor of Electrical Engineering (2011) M.Sc., Ph.D., University of Saskatchewan, 2004.
- MARY TRIECE, Professor of Communication (1998) B.B.A., M.A., Ph.D., University of Texas, 1997. I-CHUN TSAI, Assistant Professor of Education (2008) B.B.A., M.A., Tamkang University; Ph.D., Uni-
- versity of Missouri at Columbia, 2008. **MESFIN TSIGE**, Associate Professor of Polymer Science (2010) B.S., M.S., Addis Ababa University; Ph.D., Case Western Reserve University, 2001.
- Ph.D., Case Western Reserve University, 2001.IGOR A. TSUKERMAN, Professor of Electrical and Computer Engineering (1995) M.S., Ph.D., Poly-
- technical University of Leningrad, Russia, 1988. MONTE E. TURNER, Professor of Biology; Department Chair of Biology (1982) B.S., M.S., Brigham
- Young University; Ph.D., University of Georgia, 1982.
- KATHLEEN TUSAIE, Professor of Nursing (2000) B.S.N, Slippery Rock State College; M.S.N., Ph.D., University of Pittsburgh, 2001.
- ANN L. USHER, Professor of Music; Director of the School of Music (2000) B.M., University of Northern Iowa; M.M., Kent State University, 1993.
- SHERNAVAZ VAKIL, Professor of Education (2000) B.Com, L.L.B., Bombay University; M.Ed., Ed.D., The University of Memphis, 1994.
- ROBERT J. VEILLETTE, Associate Professor of Electrical and Computer Engineering; ABET Coordinator (August 1990) B.S.E.E., Virginia Polytechnic Institute and State University; M.S.E.E., Clemson University; Ph.D., University of Illinois at Urbana, 1990.
- MARY C. VERSTRAETE, Associate Professor of Biomedical Engineering; Coordinator, Bachelor of Science in Biomedical Engineering Program; ABET Coordinator (1988) B.S., M.S., Ph.D., Michigan State University, 1988.
- BINDIGANAVALE S. VIJAYARAMAN, Professor of Management and Information Systems; Director, Center for Information Technologies and E-Business (1989) B.Sc., M.Sc., Bangalore University; M.S.D.S., Ph.D., Georgia State University, 1987.
- BRYAN VOGT, Associate Professor of Polymer Engineering (2011) B.S., Michigan Technological University; Ph.D., University of Massachusetts-Amherst, 2003.
- JOHN L. VOLLMER, Associate Professor of Family and Consumer Sciences (1999) B.A., Drew University; M.S., Pratt Institute, 1973.
- CHARLES A. WAEHLER, Associate Professor of Psychology (1989) B.S., Suffolk University; M.Ed., Plymouth State College; M.A., Ph.D., Northwestern University, 1989.
- A. MARTIN WAINWRIGHT, Department Chair and Professor of History (1989) B.A., Emory University, M.A., Ph.D., University of Wisconsin at Madison, 1989.
- HEATHER L. WALTER, Associate Professor of Communication (1999) B.A., M.A., Ph.D., SUNY College at Buffalo, 1999.
- GUO-XIANG WANG, Associate Professor of Mechanical Engineering (1998) B.S.,M.S., Xi'an Jiaotong University; Ph.D., University of California at Santa Barbara, 1995.
- LI WANG, Associate Professor of Accounting (2007) B.B.A., Morehead State University; M.B.A., The University of Akron; Ph.D., Kent State University, 2006.
- SHENGYONG WANG, Assistant Professor of Mechanical Engineering (2009) B.S., Beijing University of Aeronautics and Astronautics; M.S., Nanyang Technical University; Ph.D., Purdue University, 2006.
- SHI-QING WANG, Professor of Polymer Science; Kumho Professor of Polymer Science (2000) B.S., Wuhan University; Ph.D., University of Chicago, 1987.
- FRANK WARD, JR., Assistant Professor of Music (2011) M.M., D.M.A., University of Michigan, 1987.CHERYL L. WARD, Associate Professor of Education (2007) B.A., Kent State University; M.A., Mount St. Joseph College; Ph.D., Nova University, 2006.

- ERIC WASSERMAN, Associate Professor of English (2007) B.A., Lewis and Clark College; M.F.A., Emerson College, 2002.
- DONNA S. WEBB, Professor of Art (1981) B.F.A., Eastern Michigan University; M.F.A., University of Michigan, 1971.
- STEPHEN C. WEEKS, Professor of Biology (1994) B.A., M.A., University of California; Ph.D., Rutgers University, 1991.
- INGRID WEIGOLD, Associate Professor of Education (2008) B.A., Rockhurst College; M.A., Ph.D., Texas Technical University, 2007.
- ROBERT A. WEISS, Professor of Polymer Engineering; Department Chair of Polymer Engineering; Hezzleton E. Simmons Chair in Polymer Engineering (2009) B.S., Northwestern University; Ph.D., University of Massachusetts, 1976.
- EVONN N. WELTON, Associate Dean of Student Services; Interim Department Chair of Curricular and Instructional Studies; Professor of Education (1997) B.A., Ph.D., Kent State University; M.A., The University of Akron, 1990.
- CHRYS WESDEMIOTIS, Distinguished Professor of Chemistry; Distinguished Professor of Polymer Science (1989) B.S., M.S., Ph.D., Technical University of Berlin, 1979.
- ETHEL R. WHELAND, Associate Professor of Mathematics (1996) B.S., Ph.D., Pennsylvania State University, 1996.
- J. PATRICK WILBER, Associate Professor of Applied Mathematics (2002) B.A., University of Notre Dame; M.A., Ph.D., University of Maryland at College Park, 1999.
- JOSEPH W. WILDER, Professor of Mathematics (2006) Ph.D., Renesselaer Polytechnic Institute, 1988. ZACHARY R. WILLIAMS, Associate Professor of History (2005) B.A., Clemson University; Ph.D., Bowling Green State University, 2003.
- REBECCA KUNTZ WILLITS, Associate Professor of Biomedical Engineering; The Margaret F. Donovan Chair for Women in Engineering (2010) B.S., Tufts University; M.S., John Hopkins University; Ph.D., Cornell University, 1999.
- GREGORY WILSON, Associate Professor of History (2001) B.A., Christopher Newport University; M.A., George Mason University, Ph.D., The Ohio State University, 2001.
- DAVID D. WITT, Professor of Family and Consumer Sciences (1983) B.A., M.A., Ph.D., Texas Tech University, 1983.
- SUSAN D. WITT, Professor of Family and Consumer Sciences (1988) B.A., M.A., Ph.D., The University of Akron, 1995.
- SHING-CHUNG WONG, Associate Professor of Mechanical Engineering (2004) B.S., West Virginia Wesleyan College; M.S.M.E., University of Massachusetts; Ph.D., University of Sydney, 1999.
- MATTHEW WYSZYNSKI, Professor of Modern Languages (1998) B.A., The University of Akron; A.M., Ph.D., University of Michigan, 1996.
- JUAN XI, Assistant Professor of Sociology (2007) B.A., Central China Normal University; M.A., Huazhong University of Science and Technology; Ph.D., University of Alabama, 2006.
- YINGCAI T. XIAO, Interim Department Chair and Associate Professor of Computer Science (1995) B.S., Wuhan University, China; M.S., M.S., M.S., Ph.D., Ph.D., University of Alabama, 1994.
- PING YI, Professor of Civil Engineering (1996) B.S., Wuhan University of Hydraulic Electrical Engineering; M.S., Washington State University; Ph.D., University of Minnesota, 1992.
- HUI-CHU YING, Professor of Art (1989) B.A., San Jose State University; M.F.A., West Texas State University, 1987.

JANICE D. YODER, Professor of Psychology; Fellow, Institute of Life-Span Development and Gerontology (1998) B.A., Gettysburg College; M.A., Ph.D., State University of New York at Buffalo, 1979.GERALD W. YOUNG, Professor of Applied Mathematics; Professor of Polymer Engineering (1985)

B.S., The University of Akron; Ph.D., Northwestern University, 1985.

- WILEY J. YOUNGS, Dinstinguished Professor of Chemistry (1990) B.A., State University of New York at Albany; Ph.D., State University of New York at Buffalo, 1980.
- GUN JIN YUN, Associate Professor of Civil Engineering (January 2008) B.S., M.S., Korea Advanced Institute of Science, Ph.D., University of Illinois, 2006.
- YANG HYUN YUN, Associate Professor of Biomedical Engineering (2004) B.S., Christian Brothers University; M.S., Ph.D., Memphis State University, 1999.
- MARIA A. ZANETTA, Professor of Modern Languages (1995) B.A., National School of Fine Arts; M.A., Ph.D., The Ohio State University, 1994.
- GE ZHANG, Assistant Professor of Biomedical Engineering (2009) B.S., M.D., Capital University of Medical Sciences, Ph.D., University of Minnesota, 2006.
- LAN ZHANG, Assistant Professor of Civil Engineering (2009) B.S., Dalian Polytechnic University; M.S., Beijing Normal University; Ph.D., Louisiana State University, 2005.
- WEI ZHANG, Assistant Professor of English (January 2011) B.A., South China Normal University; M.Ed., Grand Valley State College; Ph.D., Purdue University, 2010.
- BAOMEI ZHAO, Associate Professor of Social Work (2005) B.A., M.A., Zhejiang University, Ph.D., University of Kentucky, 2004.
- GANG ZHAO, Associate Professor of History (2006) B.A., Lanzhou University; M.A., University of California; Ph.D., Johns Hopkins University, 2007.
- JIANG JOHN ZHE, Professor of Mechanical Engineering (2003) B.S., M.S., Ph.d., Columbia University, 2000.
- JIE ZHENG, Associate Professor of Chemical and Biomolecular Engineering (2007) B.S., M.S., Zhe Jiang University; M.S., Kansas State University; Ph.d., University of Washington, 2005.
- CHRISTOPHER J. ZIEGLER, Professor of Chemistry (July 2000) A.B., Bowdoin College; Ph.D., University of Illinois at Urbana-Champaign, 1997..
- JOHN F. ZIPP, Associate Dean for Planning, Buchtel College of Arts and Sciences; Professor of Sociology (1998) B.A., St. Joseph's College; M.A., Ph.D., Duke University, 1978.

Presidents

*Deceased.

Buchtel College

S. H. McCOLLESTER*, 1872-1878, D.D., Litt. D. E. L. REXFORD*, 1878-1880, D.D. ORELLO CONE*, 1880-1896, D.D. CHARLES M. KNIGHT*, 1896-1897, D.Sc. (ad interim) IRA A. PRIEST*, 1897-1901, D.D. A. B. CHURCH*, 1901-1912, D.D., LL.D. PARKE R. KOLBE*, 1913, Ph.D., LL.D.

The University of Akron

PARKE R. KOLBE*, 1913-1925, Ph.D., LL.D. GEORGE F. ZOOK*, 1925-1933, Ph.D., LL.D. HEZZLETON E. SIMMONS*, 1933-1951, M.S., D.Sc., LL.D. NORMAN P. AUBURN*, 1951-1971, B.A., D.Sc., LItt.D., L.H.D., D.C.L. D. J. GUZZETTA, 1971-1984, Ed.D., LL.D., D.S.Sc., L.H.D. WILLIAM V. MUSE, 1984-1992, B.S., M.B.A., Ph.D. MARION A. RUEBEL, 1992, B.S., M.B.A., Ph.D., (acting) PEGGY GORDON ELLIOTT, 1992-1996, B.A., M.S., Ed.D. MARION A. RUEBEL, 1996-1998, B.A., M.A., Ph.D. LUIS M. PROENZA, 1999-present, B.A., M.A., Ph.D.

Deans of the Colleges of The University of Akron *Deceased.

Buchtel College of Arts and Sciences

ALBERT I. SPANTON*, 1913-1938, M.A., Litt.D. CHARLES BULGER*, 1938-1948, Ph.D., Litt.D. ERNEST H. CHERRINGTON, JR., 1948-1960, Ph.D. THOMAS SUMNER*, 1960-1962, Ph.D. GEORGE W. KNEPPER, 1962-1967, Ph.D. DON A. KEISTER*, 1967-1969, Ph.D. JOHN BACHMANN*, 1969-1970, Ph.D. (acting) ROBERT A. OETJEN, 1970-1977, Ph.D. CLAIBOURNE E. GRIFFIN*, 1977-1993, Ph.D. RANDY MOORE, 1993-95, Ph.D. ROGER B. CREEL, 1995-97 (interim); 1997-2005, Ph.D. RONALD F. LEVANT, 2005-2010, Ph.D. CHAND MIDHA, 2010-present. Ph.D.

College of Engineering

FREDERIC E. AYER*, 1914-1946, C.E., D.Eng. R. D. LANDON*, 1946-1963, C.E., M.S. W. M. PETRY*, 1963-1964, M.S.M.E. (acting) MICHAEL J. RZASA*, 1964-1970, Ph.D. COLEMAN J. MAJOR, 1970-1979, Ph.D. JOSEPH EDMINISTER, 1980-1981, J.D. (acting) LOUIS A. HILL, JR., 1981-1988, Ph.D. GLENN A. ATWOOD, 1988-1989, Ph.D. (acting) NICHOLAS D. SYLVESTER, 1989-1994, Ph.D. CHIOU S. CHEN, 1994-1995, Ph.D. (interim) IRVING F. MILLER, 1993-1998, Ph.D. S. GRAHAM KELLY III, 1998-2003, Ph.D. (interim) GEORGE K. HARITOS, 2003-present, Ph.D.

College of Education

W. J. BANKES*, 1921-1931, M.A. ALBERT I. SPANTON*, 1931-1933, M.A., Litt.D. (acting) HOWARD R. EVANS*, 1933-1942, Ph.D. HJALMER W. DISTAD*, 1942-1944, Ph.D. (acting) HOWARD R. EVANS*, 1944-1958, Ph.D. D. J. GUZZETTA*, 1958-1959, Ed.D. LL.D., D.S.Sc., L.H.D. (acting) CHESTER T. McNERNEY, 1959-1966, Ph.D., LL.D. H. KENNETH BARKER, 1966-1985, Ph.D. JOHN S. WATT, 1985-1986, Ph.D. (acting) CONSTANCE COOPER, 1986-1988, Ed.D. JOHN S. WATT, 1988-1989, Ph.D. (acting) WILLIAM E. KLINGELE, 1989-1996, Ed.D. RITA S. SASLAW, 1996-1998, Ph.D. (interim) LARRY A. BRADLEY, 1998-2000, Ph.D. (interim) ELIZABETH J. STROBLE, 2000-2004, Ph.D. PATRICIA A. NELSON, 2004-2007, Ph.D. CYNTHIA F. CAPERS, 2007-2009, Ph.D. (interim) MARK D. SHERMIS, 2009-present, Ph.D.

College of Business Administration

WARREN W. LEIGH*, 1953-1962, Ph.D. RICHARD C. REIDENBACH, 1962-1967, Ph.D. ARTHUR K. BRINTALL, 1967-1968, Ph.D. (acting) WILBUR EARLE BENSON*, 1968-1970, Ph.D. JAMES W. DUNLAP*, 1970-1989, Ph.D. RUSSELL J. PETERSEN, 1989-1994, Ph.D. JAMES INMAN, 1994-1995, LL.M. (interim) STEPHEN F. HALLAM, 1995-2003, Ph.D. JAMES W. BARNETT, 2003-04 (interim); 2004-2006, B.B.A. RAJ AGGARWAL, 2006-2009, D.B.A. RAVI KROVI, 2009-2010, Ph.D. (acting/interim) RAVI KROVI, 2010-present, Ph.D.

School of Law

STANLEY A. SAMAD*, 1959-1979, J.S.D. ALBERT S. RAKAS*, 1979-1981, J.D. (interim) DONALD M. JENKINS, 1981-1987, LL.M. ISAAC C. HUNT, JR., 1987-1995, LL.B. RICHARD L. AYNES, 1995-2007, J.D. MARTIN H. BELSKY, 2007-2012, J.D. ELIZABETH A. REILLY, 2012-present, J.D.

Graduate School

CHARLES BULGER*, 1933-1951, Ph.D., Litt.D. (Dean of Graduate Work) ERNEST H. CHERRINGTON, J.R., 1955-1960 (Director of Graduate Studies);1960-1967 (Dean of the Graduate Division); Ph.D. ARTHUR K. BRINTALL, 1967-1968, Ph.D. (Dean of Graduate Studies and Research) EDWIN L. LIVELY, 1968-1974, Ph.D. (Dean of Graduate Studies and Research) CLAIBOURNE E. GRIFFIN*, 1974-1977, Ph.D. (Dean of Graduate Studies and Research) JOSEPH M. WALTON, 1977-1978, Ph.D. (Associate Dean of Graduate Studies and Research) JOSEPH M. WALTON, 1977-1978, Ph.D. (Dean of Graduate Studies and Research) JOSEPH M. WALTON, 1978-1986, Ph.D. (Dean of Graduate Studies and Research) JOSEPH M. WALTON, 1986-1989, Ph.D. (Acting Dean of Graduate Studies and Research) PATRICIA L. CARRELL, 1989-1993, Ph.D. (Dean of the Graduate School) CHARLES M. DYE, 1993-2000, Ph.D. (Dean of the Graduate School) GEORGE R. NEWKOME, 2001-present, Ph.D. (Vice President for Research, and Dean, Graduate School)

Honors College

Dale Mugler, 2005-present, Ph.D.

University College (formerly General College)

D. J. GUZZETTA*, 1959-1962, Ed.D., LL.D., D.S.Sc., L.H.D. THOMAS SUMNER*, 1962-1977, Ph.D. PAUL S. WINGARD, 1977-1978, Ph.D. (acting) MARION A. RUEBEL, 1978-1989, Ph.D. NANCY K. GRANT, 1989-1990, Ph.D. (acting) THOMAS J. VUKOVICH, 1990-1993, Ph.D. (acting) KARLA T. MUGLER, 1993-2011, Ph.D. STANLEY B. SILVERMAN, 2011-present, M.A.

Continuing Education and Evening Division (formerly Evening College)

L. L. HOLMES, 1932-1934, M.A. (director) LESLIE P. HARDY*, 1934-1953, M.S.Ed., L.H.D. (director) E. D. DURYEA, 1953-1956, Ed.D. (dean) D. J. GUZZETTA, 1956-1959, Ed.D., LL.D., D.S.Sc., L.H.D. (dean) WILLIAM A. ROGERS*, 1959-1967, Ed.D. (dean) CHARLES V. BLAIR, 1967-1970, M.A. (dean) JOHN G. HEDRICK, 1970-1974, M.A. (dean) CAESAR A. CARRINO, 1974-1986, Ph.D. (dean) WILLIAM H. BEISEL, 1998-2004, Ph.D. (dean)

Summit College (formerly Community and Technical College)

W. M. PETRY*, 1964-1974, M.S.M.E. ROBERT C. WEYRICK*, 1974-1985, M.S. FREDERICK J. STURM, 1985-1987, Ed.D. (acting) JAMES P. LONG, 1987-1989, Ph.D. FREDERICK J. STURM, 1990-1995, Ed.D. DEBORAH S. WEBER, 1995-96, M.A. (interim) DAVID A. SAM, 1996-2000, Ph.D. WILLIAM H. BEISEL, 2000-2004, Ph.D. (interim) STANLEY B. SILVERMAN, 2004-present, M.A.

College of Fine and Applied Arts

THE UNIVERSITY OF AKRON IS AN EQUAL EDUCATION AND EMPLOYMENT INSTITUTION

Operating under non-discrimination provisions of Titles VI, VII, of the Civil Rights Act of 1964 as amended and Title IX of the Educational Amendments of 1972 as amended, Executive Order 11246, Vocational Rehabilitation Act Section 504, Vietnam Era Veterans' Readjustment Act, and Americans with Disabilities Act of 1990 as related to admissions, treatment of students, and employment practices.

It is the policy of this institution that there shall be no discrimination against any individual at The University of Akron because of age, color, creed, handicap, national origin, race, religion, sex, or status as a veteran.

The University of Akron will not tolerate sexual harassment of any form in its programs and activities and prohibits discrimination on the basis of sexual orientation in employment and admissions. The nondiscrimination policy applies to all students, faculty, staff, employees, and applicants.

Complaints of possible sex and other forms of discriminationshould be referred to:

EEO/AA Office ASB, Room 138B Akron, Ohio 44325-4709 330-972-7300

Title IX - Issues for Students:
