

Branched Math Placement Test Directions

Test Information:

You have been selected for our Branched Math Placement Test based on one of the following criteria:

- You do not currently have any ACT or SAT scores on file or
- Your ACT or SAT scores are older than two calendar years

Placement in your first semester courses will be determined by completion of the branched math placement test. The test contains 6 levels. The test starts at the lowest math level and students must demonstrate content proficiency to advance to the next level. Each math level contains 15-32 questions and has a time limit of 90 minutes. Scratch paper/pencil are permitted during the math placement test. **Calculators are not permitted during the math placement test.**

If you do not advance after any level, you will review your scores with your advisor at your Advising and Class Registration Appointment and discuss your course placement. If you are eligible to advance, your next level will automatically load to your account. **You are not required to complete all of the levels in one sitting; however, once a level is started you must complete it in 90 minutes.** You should complete your placement test at least **one week** prior to your Advising and Class Registration Appointment.

If you need testing accommodations, please visit our webpage ([Click Here](#)) to request accommodations before you complete your math placement test.

How to complete your Math Placement Test:

1. Review the Math Test sample question guides on our website under “How to Prepare” ([Click Here](#)).

You will only have one attempt to complete your test remotely (from home). Do not begin a math level unless you are prepared and ready to complete it in one sitting.

2. Go to <https://uakron.mobius.cloud> to log in into the Math Placement Test.
3. Log in using your UANET ID and Student ID number.

Your username is your UANET ID.

Your password is the first 5 digits of your Student ID number.

Your UANet ID and Student ID number are located in your confirmation email. If you forgot your UANet ID or Student ID number, call the Help Desk at (330) 972-6888 for assistance.

- You may be prompted to take a “tour” of the site. Click on “End Tour” to close the tour and proceed to the test.
- Click on the name of the test you are assigned to take, then click “Start.” **Calculators are not permitted during the math placement test. You may use scratch paper and a pencil.**

The top screenshot shows the Möbius System Homepage. A green callout box says: "Click on the name of the test you are assigned to take." Below the calendar, under "Classes I Am Taking", is a link for "UA Math Test - all levels" and an "Enter" button.

The bottom screenshot shows the Möbius Class Homepage for "UA Arithmetic and Basic Skills Test (MARTH)". A green callout box points to the "Start" button for the "UA Arithmetic & Basic Skills Placement Test (MARTH)" under the "UA Placement Testing" section. The page also includes "Class Details" and "Units" on the left sidebar.

- While taking the test **DO NOT** click "Submit Assignment" until you have completed all of the test questions. To move to the next question, click the "Next" button. You will not be able to return to a question you have skipped, so answer each question before continuing on to the next.

The screenshot shows the test interface for "Question 1". A red callout box points to the "Submit Assignment" button, stating: "Do NOT click 'Submit Assignment' until you have answered all questions." A green callout box points to the "Next" button, stating: "Click 'Next' to move on to the next question." The interface includes a "Question Menu", "Submit Assignment", "Quit & Save", and "Next" buttons at the bottom.

Questions or problems regarding the Math Placement test? Please contact Computer Based Assessment and Evaluation at testing@uakron.edu or 330-972-6511.

7. After you are finished with your test, click “Submit Assignment.”

8. Your official test score will be displayed.

- Option 1: Testing complete and review your results with your advisor.

- Feedback: Grade Report

The results of your test may take a few days to be posted. It is your responsibility to check with your academic advisor to see which math class is the most appropriate for you and assure you are registered for courses. If you are an incoming student scheduled for New Student Orientation, you will have an opportunity to discuss your score and appropriate math course at that time.

Your score was 11 out of 32 (34.37 %)

View Grade View Details Quit & Save

- Option 2: Eligible to advance to the next level.

- Feedback: Grade Report

You are eligible to advance to the next level. Please refresh the class page to access the next exam.

Your score was 28 out of 30 (93.33 %).

View Grade View Details Quit & Save

9. Click “Quit & Save” in the lower right-hand corner of the screen.

10. If you are eligible to advance to the next level, you can choose to start the next math level by clicking the “Start” button. **You are not required to complete the levels in one sitting; however, once a level is started you must complete it within 90 minutes.**
